NOTIFICATION.

No. 1035Medl.—The 28th March 1919.—It is hereby notified for general information that the Governor in Council is pleased to make the following modifications in the rules for the management, admission and training of students in the Government Medical Schools, published under Notification No. 228T.—Medl., dated the 4th October 1916, at pages 1883-1898 of Part I of the *Calcutta Gazette* of the 11th idem, as subsequently amended, viz.—

(1) *Substitute* the following revised rules *for* existing rules 16, 17 and 18, respectively:—

Rule 16. Admission.—Every male student before admission shall pay an entrance fee of Rs. 6 and the first quarterly instalment Rs. 18-12 of the tuition fee. He shall also pay the annual sports and athletic club fee of Rs. 2.

Rule 17. Muhammadan students are required to pay full fees, but a certain number of Muhammadans will obtain on application certain scholarships from the Mohsin Fund the value and number of which will depend on the amount of the grant available from that Fund.

Rule 18. Tuition fee.—The tuition fee of Rs. 75 a year shall be paid in quarterly instalments of Rs. 18-12 in advance on or before the 15th of the first month of the quarter for which it is due. Should the 15th fall on a Sunday or school holiday, the fee shall be payable on the reopening day. In the case of Durga Puja and Summer vacations the fees shall be paid in full before departure. Otherwise a late fee of Re. 1 shall be paid in the case of payments not made up to the 20th and a late fee of Rs. 2 in the case of payments not made up to the end of the month. Failure to pay all fees due in full by the last day of the month shall automatically entail removal of the student's name from the rolls until the commencement of the next Summer session.

N.B.—Students admitted before July 1919 will continue to pay their tuition fee at the old rate of Rs. 4 a month, subject to the conditions set forth in this rule.

(2) *Rule 21.*—In line 1 *for* "Rs. 4" *substitute* "Rs. 6" and *omit* "(or Rs. 2 in the case of a Muhammadan)".

(3) *Rules 23 and 39.—For* "Rs. 4" *substitute* "Rs. 6".

(*a*) The ordinary surplus will be sufficient to meet the charges of the proposed and previous loans. The loan of Rs. 40,000 which this Municipality took from Government and for which the Municipality has to pay two instalments of Rs. 2,146-4-2 each annually will be completely paid up in November 1919. The present loan is intended to take the place of that loan and there will be no difficulty in paying the two annual instalments of Rs. 2,016-7-8 each for the new loan. Moreover, the income of the Municipality will be considerably increased by the revision of assessment which is now going on, and by increasing the percentage of latrine-fees and water-rate.
(*b*) The reserve of taxation or other possible means of increase in the revenue of the local body.	(*b*) Introduction of meters which is under contemplation, and if necessary a further increase in the percentage of latrine-fees.
(*c*) A statement of all outstanding loans as well as the annual charges involved on their account.	(*c*) Outstanding balance of the several loans taken from Government amount to Rs. 1,44,706-8-1. Annual charges on account of principal and insterest of above loans are— Loan of Rs. 40,000—Rs. 4,892-8-4 in 2 instalments up to 5th November 1919. Loan of Rs. 1,12,000—Rs. 8,188-7-8 in 2 instalments up to 1st February 1933. Loan of Rs. 63,000—Rs. 4,605-15-10 in 2 instalments up to 15th May 1934. The balance will be nil after payment of the principal and interest on 15th May 1934 if no other loans are taken.

WE, the undersigned Members of the Select Committee to which the Bill to make provision for the prevention of adulteration of food in Bengal was referred, have considered the Bill and the papers noted in the margin, and have the honour to submit this, our Report, with the Bill as amended by us, annexed hereto.

In reprinting the Bill, all changes made by us have, so far as possible, been underlined, but in the present Report we refer specifically to such changes only as appear to us to be of major importance. A few minor alterations are not discussed.

2. *Clause 1, sub-clause (1).*—We have altered the short title to "the Bengal Food Adulteration Act," as indicating more clearly the scope of the proposed Act.

Sub-clause (2).—We have provided for previous publication of notifications under this sub-clause [*see* section 24 of the Bengal General Clauses Act, 1899], in order to give the public reasonable notice of the proposed extension of the Act to any local area in respect of any specified article of food.

3. *Clause 2, sub-clause (1).*—The definition of "adulterated" has been revised on the lines of section 1(7) of the Sale of Food and Drugs Act, 1899 (62 & 63, Vict., c. 51), so as to make it more comprehensive.

Sub-clause (2).—The definition of "food" has also been extended on the lines of section 26 of the same Statute.

Sub-clause (*3*).—The definition of "local area" has been put in general terms.

Sub-clause (*4*).—The Municipal Commissioners have been substituted for the Chairman of a Municipality as being more appropriate, and in the case of a local area other than a Municipality or a Cantonment, power has been given to the Local Government to appoint the local authority for that area.

Sub-clause (*5*).—The alteration made in the definition of "public analyst" is consequential on the amendment made in clause 3.

4. *Clause 3*.—Provision has been made for the appointment of a public analyst by a local authority with the approval of the Local Government.

5. *Clause 4* has been revised so as to follow more closely the wording of section 4 of the Sale of Food and Drugs Act, 1899.

6. *Clause 5, sub-clause* (*1*).—In this sub-clause, and also in *sub-clauses* (*1*) *and* (*2*) *of clause 6*, certain alterations have been made in order to make it clear that the prohibitions contained in these sub-clauses are to apply not only to the vendor but also to any person acting on his behalf.

The words "or is represented" have been inserted in order to make the intention of the clause clearer.

Provisos (*c*) *and* (*d*) *to sub-clause* (*1*) have been omitted. As regards proviso (*c*), we consider that the provisions regarding warranties would tend to defeat the object of the Bill. As regards proviso (*d*), we are of opinion that its retention would protect dealers who sell adulterated articles purchased from others, knowing them to be adulterated.

7. *Clause 6. sub-clause* (*1*).—We have omitted the reference in the first two lines in the original Bill to the proposed section 5 as we consider it inappropriate.

A reference to sterilized and desiccated milk in addition to condensed milk has been inserted. Specific provisions as regards "wheat flour" have also been embodied.

Sub-clause (*1*) (*iii*).—The condition as regards "ghee" has been restricted to substances derived from the milk of cows and buffaloes, with the exception of curds, which have been definitely excluded.

The provision that ghee "shall fulfil such conditions as may be prescribed by the Local Government" has been inserted as we consider it desirable that the Government should notify the standard in the case of ghee as well as in the cases of milk and butter under *sub-clauses* (*i*) *and* (*ii*).

Sub-clause (*3*) has been omitted, as we consider its provisions would tend to make prosecutions nugatory.

8. *Clause 7*.—The omission of this clause is consequential on the omission of the reference to a warranty in clauses 5 (*1*) and 6.

9. *Clause 8*(*1*).—The word "manufactory, shop or place" have been substituted for "factory" in order to make the intention clearer.

10. *Clause 15* (*2*), *proviso*.—We have made an alteration so as to allow the Court to order an analysis on its own initiative.

We have also substituted the Sanitary Commissioner for Bengal for the Chemical Examiner to Government, as being the officer on whom the work of analysis would ordinarily devolve. As it may not be possible for the Sanitary Commissioner to deal with all cases of analysis provision has been made to enable the Local Government to appoint other officers for this purpose.

11. *Clause 18, sub-clause* (*2*) has been omitted in view of the provisions of section 555 of the Code of Criminal Procedure, 1898, and the fifth schedule to that Code.

12. *Clause 19.*—We have inserted a provision in this clause in respect of the crediting of fines, etc., to the district fund.

13. *Clause 19A.*—We consider it advisable to make persons acting under clause 13 "public servants" within the meaning of the Indian Penal Code.

14. *Clause 20(2) (a).*—The amendment made here is consequential on the alteration made in clause 4.

15. *Clause 21.*—We have provided for the punishment of imprisonment for a period not exceeding three months for a second or subsequent breach of the provisions of clauses 5(*1*), 6(*1*) and 6(*2*). The imprisonment may be imposed as an alternative to, or in addition to, the fine prescribed by the Bill as introduced, for a subsequent offence.

16. *The Schedule.*—In the fourth foot-note the provision allowing the analyst to record his opinion as to "whether ingredients or materials mixed are or are not injurious to health", has been omitted, as being a matter outside the scope of the analyst's duties.

17. We recommend that the Bill, as thus amended, be passed.

A

BILL

to make provision for the prevention of adulteration of food in Bengal.

WHEREAS it is expedient to make provision for the prevention of adulteration of food in Bengal;

It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

1. (*1*) This Act may be called the Bengal Food Adulteration Act, 1919.

(*2*) This section shall extend to the whole of Bengal, except Calcutta as defined in clause (*7*) of section 3 of the Calcutta Municipal Act, 1899; and the Local Government may, after previous publication, by notification in the *Calcutta Gazette*, extend all or any of the other sections of this Act to any local area outside Calcutta in Bengal.

(*3*) The Local Government in extending all or any of the sections of this Act, as provided in sub-section (*2*), may extend the same in respect of all articles of food or may limit the operation of the section or sections extended to any specified article of food.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*1*) an article of food shall be deemed to be "adulterated" if it has been mixed or packed with any other substance, or if any part of it has been abstracted so as in either case to affect injuriously its quality, substance or nature;

(*2*) "food" includes every article used for food or drink by man, other than drugs or water, and any article which ordinarily enters into or is used in the composition or preparation of human food; and also includes flavouring matters and condiments;

(*3*) "local area" means any area, urban or rural, declared by the Local Government by notification in the *Calcutta Gazette* to be local area for the purposes of this Act;

(*4*) "local authority" means—

(*i*) in the case of any Municipality, the Municipal Commissioners;

(*ii*) in the case of a Cantonment, the cantonment authority; and

(Chapter I.—Preliminary.—Chapter II.—General Provisions.—Clauses 3—5.)

(*iii*) in the case of any other local area, such authority or officer as the Local Government may appoint in this behalf;

(*5*) "public analyst" means any person appointed by the Local Government, or by a local authority with the approval of the Local Government, to perform the duties and to exercise the powers of a public analyst prescribed by this Act.

3. The Local Government, or a local authority with the approval of the Local Government, may appoint a person to be the public analyst for any area under their control, and such appointment shall be notified in the *Calcutta Gazette*.

4. The Local Government may declare the normal constituents of any article of food and may determine, by rules in this behalf, what deficiency in any of these constituents, or what addition of extraneous matter or proportion of water in a sample of any article of food, shall, for the purposes of this Act, raise a presumption until the contrary is proved that the article of food is not genuine or is injurious to health; and a public analyst shall have regard to such rules in certifying the result of an analysis under this Act.

CHAPTER II.

GENERAL PROVISIONS.

Sale of food.

5. (*1*) No person shall, directly or indirectly, himself or by any other person on his behalf, sell to the prejudice of the purchaser any article of food which is not of the nature, substance or quality of the article demanded by such purchaser; and no person shall, directly or indirectly, himself or by any other person on his behalf, manufacture for sale any article of food which is not of the nature, substance or quality which it purports or is represented to be:

Provided that an offence shall not be deemed to be committed under this section in the following cases, that is to say:—

(*a*) where any matter or ingredient not injurious to health has been added to any article of food because the same is required for the production or preparation thereof as an article of commerce, in a state fit for carriage or consumption, and not fraudulently to increase the bulk, weight or measure of the article or to conceal the inferior quality thereof; or

(*b*) where any article of food is unavoidably mixed with some extraneous matter in the process of collection or preparation; or

(*c*) (*Omitted.*)

(*d*) (*Omitted.*)

(Chapter II.—General Provisions.—Clause 6.)

(*e*) where a patent has been granted under any law for the time being in force in respect of any article of food, and the article is sold in the state required by the specification of the patent.

(*2*) In any prosecution under this section it shall be no defence to allege that the vendor or manufacturer was ignorant of the nature, substance or quality of the article sold, exposed for sale or manufactured for sale, by him.

(*3*) In any prosecution under this section the Court shall, unless and until the contrary is proved, presume that any article of food found in the possession of a person who is in the habit of manufacturing like articles for sale has been manufactured for sale by such person.

Prohibition of sale, etc., of articles of food which are not of the prescribed standard of purity.

6. (*1*) No person shall, directly or indirectly, himself or by any other person on his behalf, sell, expose for sale, or manufacture or store for sale, any of the following articles, namely :— [*Cf.* Bom. Act III of 1888, ss. 415 and 417A.]

(*a*) milk (other than condensed, sterilized or desiccated milk in hermetically closed receptacles),

(*b*) butter,

(*c*) ghee,

(*cc*) wheat flour,

(*d*) mustard oil, and

(*e*) any other article of food which may be notified by the Local Government in this behalf,

unless the following conditions are fulfilled, namely :—

(*i*) in the case of milk (other than condensed, sterilized or desiccated milk in hermetically closed receptacles), the animal from which the milk is derived shall be definitely stated in such manner as the local authority may, by general or special order, require, and the article sold, exposed for sale or stored for sale, as the case may be, shall be the natural secretion from the udder of such animal, from which no ingredient has been extracted and to which no water or other substance (including any preservative) has been added, and shall not contain a less proportion of non-fatty solids and of fat than such as the Local Government may prescribe;

(*ii*) in the case of butter, it shall be exclusively derived from milk or cream (other than condensed, sterilized or desiccated milk, or cream), or both, with or without salt or other preservative, and with or without the addition of colouring matter, such preservative or colouring matter being of such a nature and in such quantity as not [*Cf.* 50 & 51 Vict., c. 29, s. 3; and 7 Edw 7, c. 21, ss 3 (*b*) and 4.]

(Chapter II.—General Provisions.—Clauses 7, 8.)

to render the article injurious to health, and shall not contain a greater proportion of water than may be prescribed by the Local Government in this behalf;

(*iii*) in the case of ghee, it shall contain only substances, other than curds, which are derived exclusively from the milk of cows or of buffaloes, and shall fulfil such conditions as may be prescribed by the Local Government;

(*iii a*) in the case of wheat flour, it shall not contain any substance which is not derived exclusively from wheat;

(*iv*) in the case of mustard oil, it shall be derived exclusively from mustard seed; and

(*v*) in the case of any food notified by the Local Government under clause (*e*), it shall fulfil such conditions as may be prescribed by the Local Government in regard to such food.

(*2*) No person shall, directly or indirectly, himself or by any other person on his behalf, sell, expose for sale, or manufacture or store for sale anything which is similar to any of the articles specified in clauses (*a*), (*b*), (*c*), (*cc*) and (*d*) of sub-section (*1*) or to any article notified by the Local Government under clause (*e*) of that sub-section, under a name which in any way resembles the name of such article.

(*3*) (*Omitted.*)

(*4*) In any prosecution under this section it shall be no defence to allege that the vendor, manufacturer or storer was ignorant of the nature, substance or quality of the article sold, exposed for sale, or manufactured or stored for sale, by him.

(*5*) In any prosecution under this section the Court shall, unless and until the contrary is proved, presume that any of the articles specified in clauses (*a*), (*b*), (*c*), (*cc*) and (*d*) of sub-section (*1*) or any article notified by the Local Government under clause (*e*) of that sub-section found in the possession of a person who is in the habit of manufacturing or storing like articles for sale, has been manufactured or stored for sale by such person.

7. (*Omitted.*)

Prohibition of adulterants in places where ghee, wheat flour etc., are manufactured.

8. (*1*) No person shall keep or permit to be kept in any manufactory, shop or place, in which butter, ghee, wheat flour, mustard oil or any article notified by the Local Government under clause (*e*) of sub-section (*1*) of section 6 is manufactured, any substance intended to be used for the adulteration of such butter, ghee, wheat flour, mustard oil or other article. [*Cf.* Ben. Act III of 1899, s. 495 B.]

(*2*) If any article capable of being so used is found in such manufactory, shop or place, the Court shall, unless and until the contrary is proved, presume in any prosecution under this section that it is intended to be used for the purposes of adulteration.

(Chapter II.—General Provisions.—Clauses 9—11.)

Receptacles for separated or skimmed condensed milk to be marked

9. No person shall sell or expose for sale any tin or other receptacle containing condensed milk which has been separated or skimmed, unless such tin or receptacle bears a label on which and on its wrapper (if any) it is clearly indicated, both in English and in Bengali, that the milk has been skimmed and is not suitable for feeding infants under one year of age. [Hongkong Ordinance No 20 of 1911, s 2.]

Analysis of food.

Power of purchaser to have article of food analysed.

10. Any purchaser of an article of food shall be entitled, on payment of such fee as the Local Government may prescribe, to have such article analysed by the public analyst appointed for the area within which such article is purchased and to receive from him a certificate, in the form prescribed in the Schedule to this Act, of the result of his analysis. [*Cf.* U P Act VI of 1912, s. 7.]

Compulsory sale of food, etc., for purpose of analysis.

11. (*1*) Any person duly authorised by the Local Government or by any local authority empowered by the Local Government in this behalf, may require, on tendering the price for it, the sale to him during the process of manufacture, for the purpose of analysis, of such quantity of— [*Cf.* Ben. Act III of 1899, s. 507.]

(*i*) any food, or

(*ii*) any ingredients used in the manufacture of food,

as is reasonably requisite for division and disposal under section 12; and any person in possession of the said food or ingredients shall be bound to sell such quantity.

(*2*) Any person duly authorised by the Local Government or by any local authority empowered by the Local Government in this behalf, may also require the surrender to himself, for the purpose of analysis, of such quantity as is reasonably requisite for division and disposal under section 12, of any food which for the purpose of sale is—

(*a*) in course of transit in any local area, or

(*b*) stored in any place in the said local area;

and any person in possession of the said food shall be bound to surrender such quantity:

Provided that in every such case the price of the food so surrendered shall be payable from such fund as the Local Government may prescribe to the owner of the food, if claimed by such owner within one month from the date of the said surrender.

(*3*) Any person duly authorised by the Local Government or by any local authority empowered by the Local Government in this behalf, may also require, by tender of the price, the sale to him, for the purpose of analysis, of such quantity of any food exposed or intended for sale, as is reasonably requisite for division or disposal under section 12; and any person in possession of or exposing the same for sale shall be bound to sell such quantity.

(Chapter II.—General Provisions.—Clauses 12—14.)

Procedure for analysis of food.

12. (*1*) Any purchaser who wishes to have an article of food analysed under section 10, and any person who purchases, for the purpose of analysis, a sample of food under section 11, sub-section (*1*) or sub-section (*3*), shall, after the purchase has been completed, forthwith notify to the seller, or his agent selling the article, his intention to have the same analysed, and shall divide the article into three parts, to be then and there separated, and each part to be marked and sealed or fastened up in any manner which its nature will permit. [*Cf.* U. P. Act VI of 1912, s. 9.]

(*2*) The person purchasing the article or sample shall deliver one of the said parts to the seller or his agent, and shall retain another part for future comparison, and shall send the remaining part to the public analyst appointed for the area where the article is sold.

(*3*) When any food is surrendered under section 11, sub-section (*2*), the person to whom it is surrendered shall forthwith notify to the person in charge of the said food his intention to have the same analysed, and shall thereupon deal with the food so surrendered in the manner provided in sub-sections (*1*) and (*2*). [*Cf.* Ben. Act III of 1899, s. 507 (*2*).]

Inspection and seizure of food.

Power to seize food which is believed to be adulterated.

13. (*1*) Any person duly authorised in this behalf by rule made under this Act may, at any time by day or by night, inspect and examine any food which is being manufactured for sale, or is in course of transit or stored for sale, or is hawked about or exposed for sale, and any utensil or vessel used for preparing, manufacturing or containing any such food; and no person shall offer resistance to, or obstruct, any such inspection or examination. [*Cf.* Ben. Act III of 1899, s. 503.]

(*2*) If the person so authorised has reason to believe any such food to be adulterated, he may seize and remove such food, utensil or vessel in order that the same may be dealt with in accordance with the provisions of section 14; and no person shall offer resistance to, or obstruct, any such seizure or removal.

(*3*) The person authorised as aforesaid may, instead of carrying away any food, utensil or vessel seized under sub-section (*2*), leave the same in such safe custody as he thinks fit in order that the same may be dealt with as provided in section 14; and no person shall remove such food, utensil or vessel from such custody or interfere or tamper with the same in any way while so detained.

(*4*) When any food is seized under sub-section (*2*), the person seizing it shall separate therefrom such quantity as is reasonably requisite for division and disposal for the purposes of this sub-section, and shall thereupon divide and dispose of such quantity in the manner provided in section 12, sub-sections (*1*) and (*2*).

Food, etc., seized under section 13 to be taken before Magistrate.

14. (*1*) Any food, utensil or vessel seized under section 13, sub-section (*2*), shall, subject to the provisions of sub-sections (*3*) and (*4*) of that section, be taken as soon as may be after such seizure, before a Magistrate. [*Cf.* Ben. Act III of 1899, s. 505.]

(Chapter II.—General Provisions.—Clauses 15—18.)

(2) If it appears to the Magistrate that any such food is adulterated, or that any such utensil or vessel is used for preparing, manufacturing or containing the same, he shall cause the food, utensil or vessel to be forfeited to the local authority for the area in which the seizure has taken place, in order that it may be destroyed or otherwise disposed of by that authority, at the cost of the person in whose possession it was at the time of its seizure, and such cost shall be realized as if it were a fine imposed under this Act.

(3) If it appears to the Magistrate that any such food is not adulterated, or that any such utensil or vessel is not used for preparing, manufacturing or containing the same, the person from whose shop or place the food, utensil or vessel was taken shall be entitled to have it restored to him, and it shall be in the discretion of the Magistrate to award to such person from such fund as the Local Government may prescribe in this behalf, such compensation, not exceeding the actual loss which he has sustained, as the Magistrate may think proper.

Miscellaneous.

Duty of public analyst to supply certificate of analysis.

15. (1) Every public analyst to whom any article of food has been submitted for analysis under this Act, shall deliver to the person so submitting it a certificate in the form prescribed in the Schedule to this Act, specifying the result of his analysis, and shall send a copy of the same to the local authority concerned. [Cf. U. P. Act VI of 1912, s. 11.]

(2) Any document purporting to be such certificate signed by a public analyst shall be sufficient evidence in any inquiry, trial or proceeding under this Act of the result of such analysis:

Provided that any Court before which a case may be pending under this Act, whether exercising original, appellate or revisional jurisdiction, may, of its own motion, or at the request either of the accused or the complainant, cause any article of food to be sent for analysis to the Sanitary Commissioner for Bengal, or any other officer whom the Local Government may appoint in this behalf, who shall thereupon analyse the same and report the result of such analysis to the said Court; and the expense of such analysis shall be paid by the accused or the complainant as the Court may, by order, direct.

Cognizance of offences.

16. No prosecution for any offence under this Act shall be instituted without the order or consent in writing of the local authority within whose jurisdiction the offence is committed. [Cf. U. P. Act VI of 1912, s. 12.]

Jurisdiction.

17. No Magistrate whose powers are less than those of a Magistrate of the second class shall try any offence under this Act. [Cf. U. P. Act VI of 1912, s. 13.]

Limitation for prosecutions.

18. (1) No summons shall issue for the attendance of any person accused of an offence under this Act unless the same is applied for within thirty days from the date upon which the order or consent referred to in section 16, shall have been made or given. [Cf. U. P. Act VI of 1912, s. 15.]

(Chapter II.—General Provisions.—Clauses 19-20.)

(2) (Omitted.)

Fines, etc., how to be credited.

19. All fines realised under this Act in any local area to which all or any of the sections of this Act have been extended, and all other sums, if any, which the Local Government may direct to be utilized for the purposes of this Act, shall be credited—

(*i*) to the municipal fund, if the local area be within the limits of any Municipality;

(*ii*) to the cantonment fund, if the local area be within the limits of any Cantonment;

(*ii a*) to the district fund, if the local area be within the jurisdiction of any District Board; or

(*iii*) to such fund as the Local Government may direct, in the case of any other local area.

Certain persons to be deemed public servants.

19A. Every person authorised under section 13 shall be deemed to be a public servant within the meaning of section 21 of the Indian Penal Code. Act XLV of 1860.

Power of Local Government to make rules.

20. (*1*) The Local Government may, subject to the condition of previous publication, make rules to carry out the purposes of this Act. [*Cf.* Ben Act VI of 1914, s. 33.]

(*2*) In particular, and without prejudice to the generality of the foregoing power, the Local Government may make rules—

(*a*) determining what deficiencies in or additions to any article of food, the normal constituents of which have been declared under section 4, shall raise the presumption that such article is not genuine or is injurious to health;

(*b*) prescribing the proportion of non-fatty solids and of fat which must be contained in milk sold, exposed for sale or stored for sale;

(*c*) prescribing the maximum proportion of water which may be contained in butter sold, exposed for sale or stored for sale;

(*d*) prescribing the conditions to be fulfilled by any food notified by the Local Government under clause (*e*) of sub-section (*1*) of section 6;

(*e*) providing for the appointment by the Local Government, or by any local authority empowered by the Local Government in this behalf, of persons to perform the duties and to exercise the powers mentioned in section 11, or section 13;

(*f*) prescribing the fees to be charged by a public analyst for analysing articles of food under this Act; and

(*g*) prescribing the funds to which fines and other sums shall be credited under clause (*iii*) of section 19.

(Chapter III.—Penalties.—Clause 21.)

CHAPTER III.

PENALTIES.

Penalties

21. Whoever contravenes any of the provisions of this Act mentioned in the first column of the following table shall be punished, for a first offence, with fine to the extent mentioned in that behalf in the third column of the said table, and, for a second or subsequent offence, with fine or imprisonment, or with both, to the extent mentioned in the fourth column thereof.

Explanation.—The entries in the second column of the following table, headed "Subject", are not intended as definitions of the offences described in the provisions mentioned in the first column, or even as abstracts of those provisions; but are inserted merely as references to the subject thereof:—

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 20th March, 1919, and is hereby promulgated for general information :—

ACT No. X OF 1919.

An Act to impose a duty on excess profits arising out of certain businesses.

WHEREAS it is expedient to impose a duty on excess profits arising out of certain businesses ; It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Excess Profits Duty Act, 1919.

(*2*) It shall come into force on the 1st April, 1919.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

"accounting period" means the twelve months ending on the 31st March, 1919, or if the accounts of the business have been made up within the said twelve months for the purposes of the Indian Income-tax Act, 1918, in respect of a year ending on any date other than the said 31st March, then the year ending on that other date ; VII of 1918.

"business" includes any trade, commerce or manufacture, or any adventure or concern in the nature of trade, commerce or manufacture ;

"Chief Revenue-authority" means the Board of Revenue or the Financial Commissioner in provinces where those authorities exist, and in any other case such authority as the Local Government may declare to be the Chief Revenue-authority for the purposes of this Act ;

"prescribed" means prescribed by rules made under this Act.

All expressions used or embodied by reference in this Act which are not hereinbefore defined shall have the same meaning as is attributed to them by the Indian Income-tax Act, 1918. VII of 1918.

Application of Act.

3. This Act shall apply to every business (other than the businesses specified in Schedule I) which is, during any part of the accounting period, either carried on in British India by any person or owned or carried on in any place in India by a person ordinarily resident in British India.

Imposition of excess profits duty.

4. Subject to the provisions of this Act, there shall, in respect of any business to which this Act applies, be charged, levied and paid on the amount by which the profits in the accounting period exceed the standard profits, a duty (in this Act referred to as "excess profits duty") of an amount equal to fifty per cent. of that excess :

Provided that the amount of the said duty shall not exceed such sum as would reduce the profits in the accounting period below thirty thousand rupees.

Ascertainment of profits in the accounting period.

5. The profits of a business in the accounting period shall, at the option of the person by whom the excess profits duty in respect of that business is payable be or be deemed to be,—

(*a*) the taxable income as finally ascertained for the purposes of the Indian Income-tax Act, 1918, or VII of 1918.

(*b*) when the accounting period in respect of the business ends on any date other than the 31st March, 1919, and the accounts of the business are made up for an additional period ending on the said 31st March, a sum which bears the same proportion to the taxable income of the total period (such taxable income being ascertained as nearly as may be in accordance with the provisions of the said Act) as a period of one year bears to the total period.

Explanation.—The profits in the accounting period shall, notwithstanding any composition in force for the purposes of the said Act, be actually ascertained in accordance with the provisions of that Act.

Standard profits.

6. (*1*) The standard profits of a business shall be as follows :—

(*a*) an amount calculated at the rate of 10 per cent. or at such rate not being less than 10 per cent. as may be prescribed, on the capital of the business as existing at the end of the accounting period, in which case the capital of the business shall, for the purposes of this Act, be ascertained in accordance with the provisions of Schedule II ; or

(*b*) at the option of the person by whom excess profits duty in respect of the business is payable—

(*i*) if the profits of the business have been assessed in the years 1913 and 1914 for the purposes of the income-tax law then in force —the aggregate of half of the profits so assessed and half of the interest, if any, received in those years on securities forming part of the assets of the business ; or

(*ii*) if the profits of the business have been assessed for the said

purposes in the years 1913 and 1914, and in two only of the three years 1915, 1916 and 1917—the aggregate of one-fourth of the profits so assessed and one-fourth of the interest, if any, received in the same four years on securities forming part of the assets of the business; or

(iii) if the profits of the business have been assessed for the said purposes in all the five years 1913, 1914, 1915, 1916 and 1917—the aggregate of one-fourth of the profits assessed in the years 1913 and 1914 and in such two of the years 1915, 1916 and 1917 as may be selected by the said person and one-fourth of the interest, if any, received in the same four years on securities forming part of the assets of the business:

Provided that if the average capital employed in the business in the years adopted for the purpose of determining the standard profits is less or more than the capital so employed at the end of the accounting period there shall be made to or from the standard profits an addition or a deduction, as the case may be, which shall bear to the standard profits the same proportion as such increase or decrease of capital bears to the average capital so employed in the years so adopted.

Explanation.—For the purpose of ascertaining the average capital employed, the capital employed in the business in any year shall be deemed to be the capital so employed at the end of that year:

Provided further that if the assessment in any of the said years was made in respect of a period of less than twelve months, that assessment shall, for the purpose of determining the standard profits, be proportionately increased.

(2) If a composition for income-tax was in force in any of the years 1913, 1914, 1915, 1916 and 1917, such composition shall be deemed for the purposes of clause (*b*) of sub-section (*1*) to have been the assessment and the profits shall be determined in accordance therewith:

Provided that the person by whom excess profits duty in respect of the business is payable shall, notwithstanding any such composition, be entitled to have an assessment of the profits of the business made for the purpose of determining the standard profits, in the same way as the assessment would have been made if no such composition had been agreed upon.

(3) Each of the years referred to in sub-sections (*1*) and (*2*) shall be deemed to be the twelve months commencing with the 1st of April in the year mentioned.

(4) Notwithstanding anything contained in this section no increase of capital made after the 31st December, 1918, shall be taken into account in any case, and no such increase before that date shall be taken into account when it appears or to the extent to which it appears that the increase was made with intent to evade or has the effect of evading the payment of the excess profits duty.

Power to Collector to make allowances for special circumstances.

7. On the application (made in accordance with the provisions of clause (*b*) of sub-section (*2*) of section 11) of any person chargeable with excess profits duty alleging that, owing to any of the following circumstances, namely:—

(*a*) any change in the constitution of a partnership of which he is or was a member,

(*b*) any postponement or suspension, as a consequence of the present war, of renewals or repairs,

(*c*) any exceptional depreciation or obsolescence (including the cost of replacement during the accounting period) due to the present war of assets employed in the business,

(*d*) the provision in connection with the requirements of the present war of plant or machinery which will not be required for the purposes of the business after the termination of the war,

(*e*) the fact that the assets of the business consist to any material extent of shares in a company the business of which is itself chargeable to excess profits duty,

(*f*) the liability of any part of the profits of the business to excess profits duty in the United Kingdom, or

(*g*) any special circumstances connected with the nature of the business or the period for which any profits are ascertained or determined,

the provisions of this Act for the calculation of excess profits duty operate unfairly in his case, the Collector may make such allowances in calculating the amount of the duty as seem to him to be necessary to meet the special circumstances, provided that any such allowance shall not reduce the amount of duty payable under the provisions of the Act by more than twenty-five per cent. without the previous sanction of the Commissioner.

Appeal to Chief Revenue-authority.

8. (*1*) If any person who has applied under section 7 is dissatisfied with the decision of the Collector on his application, he may appeal to the Chief Revenue-authority which shall, at the option of such person, either itself decide such appeal or refer it to a Board of Referees to be appointed by the Local Government. The Board shall hear and consider any appeal so referred and shall communicate its decision to the Chief Revenue-authority.

(2) The Chief Revenue-authority and the Board shall be entitled to take into account any of the circumstances specified in section 7, and to modify the decision of the Collector with reference thereto in such way and to such extent as they may consider just and equitable.

(3) Every Board of Referees appointed under this section shall consist of three or, in cases which the Local Government considers to be of difficulty or importance, of four persons. When the Board consists of four persons, the Local Government shall appoint one of the members to be Chairman. In any case at least two members of

the Board shall be persons not in the service of Government and having in the opinion of the Local Government adequate business experience.

(4) In case of a difference of opinion between the members of the Board, the opinion of the majority shall prevail. When the Board consists of four members and the members are equally divided in opinion, the Chairman shall have a second or casting vote.

(5) The decision of the Chief Revenue-authority on any appeal under this section or of the Board where an appeal is referred to it shall, notwithstanding any other provision of this Act be final, and shall be deemed to be the basis of assessment in the particular case.

Power of Governor General in Council to deal with hardship in case of a class of business.

9. (1) The Governor General in Council may, on the application made before the 30th June, 1919, of any person alleging that owing to special circumstances to be stated in the application the provisions of this Act for the calculation of excess profits duty would operate unfairly in the case of any class of business in which such person is engaged, refer such application for the report of a Board of special Referees to be appointed in this behalf by the Governor General in Council.

(2) Every Board appointed under this section shall consist of four persons, of whom at least two shall be persons not in the service of Government. The Governor General in Council shall appoint one member to be Chairman.

(3) On receipt of the report of the Board, the Governor General in Council shall consider the same and pass thereon such orders as he thinks fit. Any such order may vary the basis or method of assessment in respect of the class of business so reported on, and any variations so made shall be deemed to be modifications of this Act in respect of the matters to which they relate, and this Act shall apply accordingly.

Notice to be given by liquidator that excess profits have been made.

10. Every liquidator of a company which is being wound up at the commencement of this Act or is wound up after the commencement of this Act and which is chargeable to excess profits duty shall before the 31st May 1919, or within two months of the commencement of the winding up, as the case may be, give notice of the fact to the Collector.

Returns for the purposes of the Act.

11. (1) The Collector may, for the purposes of this Act, require any person whom he believes to be engaged in any business to which this Act applies, or to have been so engaged during the accounting period or in the year ending on the 31st March, 1912, or on the 31st March in any year thereafter, to furnish him within two months after service upon him of a notice to that effect with such particulars in connection with the business as the Collector may require.

(2) At the time of furnishing such particulars such person shall—

(a) state the method which he desires to be adopted for the purpose of—

(i) ascertaining the profits of the business in the accounting period under section 5, and

(ii) determining the standard profits under section 6, and

(b) make any application which he desires to make under section 7 for an allowance in the calculation of the amount of the excess profits duty.

(3) Where any person fails, without reasonable cause or excuse, to comply with the provisions of clause (a) of sub-section (2), the Collector shall proceed to ascertain the profits of the accounting period and to determine the standard profits by such method provided in this Act as he thinks fit.

Penalty.

12. If a person fails, without reasonable cause or excuse, to give to the Collector in due time any notice required by section 10 or to furnish any particulars referred to in section 11, he shall on conviction by a Magistrate be punishable with fine which may extend to thirty rupees for every day during which the default continues.

Assessment.

13. The amount of excess profits duty to be paid in respect of any business shall be assessed by the Collector, who may in any case where he thinks fit allow the duty to be paid in instalments of such amounts payable at such times as he may direct.

Person liable to be assessed.

14. The duty may be assessed on any person for the time being owning or carrying on the business whether as agent for the owner or otherwise or, where the business has ceased during the accounting period, on the person who owned or so carried on the business immediately before the time at which the business ceased, and where there has been a change of ownership of the business during the accounting period, the Collector shall make the assessment in the prescribed manner.

Application of provisions of Act VII of 1918.

15. The provisions of sections 20, 21, 22, 23, 24, 26, 27, and of Chapters IV and V and of sections 42, 45, 46, 47 and 49 to 52 of the Indian Income-tax Act, VII of 1918. 1918, shall apply, with such modifications, if any, as may be prescribed, as if the said provisions referred to excess profits duty instead of to income-tax, and every officer or authority exercising powers under the said provisions may exercise the like powers under this Act in regard to excess profits duty as he or it exercises in regard to income-tax under the said Act:

Provided that references in the said provisions to the assessee shall be construed as references to a person by whom excess profits duty is payable.

Income-tax papers to be available for the purposes of this Act.

16. Notwithstanding anything contained in the Indian Income-tax Act, 1918, or in any Act repealed thereby, all information contained in any statement or return made or furnished under the provisions of any of the said Acts or obtained or collected for the purposes of any such Act may be used for the purposes of this Act. VII of 1918.

Prohibition of and penalty for fictitious transactions.

17. (1) A person shall not for the purposes of avoiding payment of excess profits duty enter into a fictitious or artificial transaction or carry out any fictitious or artificial operation, and if he has entered into any such transaction or carried out any such operation before the commencement of this Act shall inform the Collector of the nature of the transaction or operation.

Explanation.—For the purposes of this section an artificial transaction or operation includes every device of whatever nature adopted for the purposes of presenting the accounts of a business in a

misleading form or manner with intent to evade or having the effect of evading any obligation imposed by this Act.

(2) If any person acts in contravention of, or fails, without reasonable cause or excuse, to comply with, the provisions of sub-section (1), he shall on conviction by a Magistrate be punishable with fine which may extend to one thousand rupees.

Power to make rules.

18. (1) The Governor General in Council may, by notification in the Gazette of India, make rules for carrying into effect the provisions of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may provide for—

(a) the rate to be allowed in respect of any business or class of business for the purpose of clause (a) of sub-section (1) of section 6;

(b) the procedure to be followed by Boards of Referees appointed under this Act;

(c) the basis and method of assessment when there has been a change of ownership during any period which can be selected for the purpose of determining standard profits, or during any subsequent period prior to the commencement of this Act; and

(d) the adaptation to excess profits duty of any of the provisions of the Indian Income-tax Act, 1918, which are made applicable to that duty by section 15. VII of 1918.

(3) All rules made under this section shall have effect as if enacted in this Act.

Excess profits duty and super-tax to be alternately chargeable.

19. Where the profits of any business in the accounting period are chargeable to excess profits duty under the provisions of this Act and to super-tax under the provisions of the Super-tax Act, 1917, then— VIII of 1917.

(1) if the amount chargeable as excess profits duty exceeds that chargeable as super-tax, excess profits duty shall alone be charged, and

(2) if the amount chargeable as super-tax exceeds that chargeable as excess profits duty, super-tax shall alone be charged,

and the provisions of this Act and the Super-tax Act, 1917, shall be construed accordingly. VIII of 1917.

Excess profits duty an allowance for the purposes of Act VII of 1918.

20. The amount of excess profits duty paid in respect of any business shall be allowed as a deduction at the adjustment made in the year ending on the 31st March, 1920, in respect of the profits of that business for the purposes of section 19 of the Indian Income-tax Act, 1918: VII of 1918.

Provided that if the amount of excess profits duty payable has not been ascertained at the time when the said adjustment is made the amount by which the income-tax would have been reduced if effect had been given to the deduction shall be deducted from the amount payable for excess profits duty.

SCHEDULE I.

EXCEPTED BUSINESSES.

(See section 3.)

1. Any business the income from which is agricultural income.

2. Offices or employments.

3. Any profession the profits of which are dependent mainly on the personal qualifications of the person by whom the profession is carried on, and in which no capital expenditure is required or only capital expenditure of an amount which is small when compared with the profits which the person carrying on the profession makes:

Provided that the business of any person taking commissions in respect of any transactions or services rendered, or any agent of any description (not being a whole-time officer or servant of the business or a commercial traveller, or an agent whose remuneration consists wholly of a fixed and definite sum not dependent on the amount of business done or any other contingency) shall not be included in this exception.

4. Any business which is liable to pay in respect of the accounting period excess profits duty in the United Kingdom.

5. Any business of which the profits in the accounting period do not exceed thirty thousand rupees.

SCHEDULE II.

ASCERTAINMENT OF CAPITAL.

(See section 6.)

1. The amount of the capital of a business shall, so far as it does not consist of money, be taken to be—

(a) so far as it consists of assets acquired by purchase, the price at which these assets were acquired, subject to any proper deduction for depreciation or for unpaid purchase money,

(b) so far as it consists of assets being debts due to the business, the nominal amount of those debts subject to any reduction which has been allowed or is allowable in respect of those debts under the Indian Income-tax Act, 1918, and VII of 1918.

(c) so far as it consists of any other assets which have not been acquired by purchase, the value of the assets at the time when they became assets of the business, subject to any proper deduction for depreciation:

Provided that nothing in this provision shall prevent accumulated profits (other than those made in the accounting period) employed in the business being treated as capital.

2. Any borrowed money or trade debts shall be deducted in computing the amount of capital for the purposes of this Act.

3. Where any asset has been paid for otherwise than in cash, the cost price of that asset shall be taken to be the value of the consideration at the time the asset was acquired, but where the business has been converted into a company and more than two-thirds of the shares in the company are held by the person who was the owner of the business no value shall be attached to those shares, so far as they are represented by good-will or otherwise than by material assets of the company, unless the Collector in special circumstances otherwise directs. Patents and secret processes shall be deemed to be material assets.

H. M. SMITH,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 21st March, 1919, and is hereby promulgated for general information :—

ACT No. XI OF 1919.

An Act to cope with anarchical and revolutionary crime.

WHEREAS it is expedient to make provision that the ordinary criminal law should be supplemented and emergency powers should be exercisable by the Government for the purpose of dealing with anarchical and revolutionary movements ;

And whereas the previous approval of the Secretary of State in Council has been accorded to the making of this law ; It is hereby enacted as follows :—

Short title, extent and duration.

1. (*1*) This Act may be called the Anarchical and Revolutionary Crimes Act, 1919 ;

(*2*) It extends to the whole of British India ; and

(*3*) It shall continue in force for three years from the date of the termination of the present war.

Definitions.

2. (*1*) In this Act, unless there is anything repugnant in the subject or context,—

"Chief Justice" means the Judge of highest rank in a High Court ;

V of 1898. "The Code" means the Code of Criminal Procedure, 1898 ;

"High Court" means the highest Court of criminal appeal or revision for any local area ;

"Scheduled offence" means any offence specified in the Schedule.

(*2*) All words and expressions used in this Act and defined in the Code, and not hereinbefore defined, shall be deemed to have the meanings respectively attributed to them in the Code.

PART I.

Condition of application of Part I.

3. If the Governor General in Council is satisfied that, in the whole or any part of British India, anarchical or revolutionary movements are being promoted, and that scheduled offences in connection with such movements are prevalent to such an extent that it is expedient in the interests of the public safety to provide for the speedy trial of such offences, he may, by notification in the Gazette of India, make a declaration to that effect, and thereupon the provisions of this Part shall come into force in the area specified in the notification.

Initiation of proceedings.

4. (*1*) Where the Local Government is of opinion that the trial of any person accused of a scheduled offence should be held in accordance with the provisions of this Part, it may order any officer of Government to prefer a written information to the Chief Justice against such person.

(*2*) No order under sub-section (*1*) shall be made in respect of, or be deemed to include, any person who has been committed under the Code for trial before a High Court or a Court of Session, but, save as aforesaid, an order under that sub-section may be made in respect of any scheduled offence whether such offence was committed before or after the issue of the notification under section 3.

(*3*) The information shall state the offence charged and so far as known the name, place of residence, and occupation of the accused, and the time and place when and where the offence is alleged to have been committed and all particulars within the knowledge of the prosecution of what is intended to be proved against the accused.

(*4*) The Chief Justice may by order require any information to be amended so as to supply further particulars of the offence charged to the accused, and shall direct a copy of the information or the amended information, as the case may be, to be served upon the accused in such manner as the Chief Justice may direct.

Constitution of Court.

5. Upon such service being effected, and on application duly made to him, the Chief Justice shall nominate three of the High Court Judges (hereinafter referred to as the Court) for the trial of the information, and shall fix a date for the commencement of the trial :

Provided that, when the total number of Judges of the High Court does not exceed three, the Chief Justice shall nominate not more than two such Judges, and shall complete the Court by the nomination of one or, if necessary, two persons of either of the following classes, namely :—

(*a*) persons who have served as permanent Judges of the High Court ; or

(*b*) with the consent of the Chief Justice of another High Court, persons who are Judges of that High Court.

Place of sitting.

6. The Court may sit for the whole or any part of a trial at such place or places in the province as it may consider desirable:

Provided that if the Advocate-General certifies to the Court that it is in his opinion necessary in the interests of justice that the whole or any part of a trial shall be held at some place other than the usual place of sitting of the High Court, the Court shall, after hearing the accused, make an order to that effect, unless for reasons to be recorded in writing it thinks fit to make any other order. It shall not be necessary for the certificate of the Advocate-General to be supported by any affidavit, nor shall he be required to state the grounds upon which such certificate was given.

Application of Code of Criminal Procedure subject to this Part.

7. The provisions of the Code shall apply to proceedings under this Part, in so far as the said provisions are not inconsistent with the provisions of this Part and such proceedings shall be deemed to be proceedings under the Code, and the Court shall have all the powers conferred by the Code on a Court of Session exercising original jurisdiction.

Trial.

8. (*1*) The trial shall be commenced by the reading of the information, and thereafter the prosecutor shall state shortly by what evidence he expects to prove the guilt of the accused.

(*2*) The Court shall then, subject to the provisions of this Part, in trying the accused, follow the procedure prescribed by the Code for the trial of warrant cases by Magistrates.

Adjournment.

9. If a charge is framed, the accused shall be entitled to ask for an adjournment for fourteen days, or any less period that he may specify, and the Court shall comply with his request, but, subject to the adjournment provided for by this section, the Court shall not be bound to adjourn any trial for any purpose, unless such adjournment is in its opinion necessary in the interests of justice.

Record of evidence.

10. The Court shall cause the evidence of each witness who is examined to be recorded in full in such manner as the Court may direct.

Prohibition or restriction of publication of reports of trial.

11. The Court, if it is of opinion that such a course is necessary in the public interest or for the protection of a witness, may prohibit or restrict in such way as it may direct the publication or disclosure of its proceedings or any part of its proceedings.

Examination of accused.

12. (*1*) No questions shall be put by the Court to the accused in the course of a trial under this Part until the close of the case for the prosecution. Thereafter, and before the accused enters on his defence, the Court shall inform the accused that he is entitled, if he so desires, to give evidence on oath on his own behalf, and shall at the same time inform him that if he does so, he will be liable to cross-examination. Unless the accused then states that he desires to give evidence on oath, the Court may at any time thereafter question the accused generally on the case in accordance with the provisions of section 342 of the Code.

(*2*) If, when so called upon, the accused states that he desires to give evidence on oath, the Court shall not at any subsequent stage put any question to him:

Provided that if the accused does not so give evidence, then, after the witnesses for the defence have been examined, the Court may question the accused generally on the case in accordance with the provisions of the said section.

(*3*) The failure of the accused to give evidence on oath shall not be made the subject of any comment by the prosecution, nor shall the Court draw any inference adverse to the accused from such failure.

(*4*) If the accused gives evidence on oath, the following rules shall be observed, namely:—

(*a*) He may be asked any question in cross-examination notwithstanding that it would tend to criminate him as to the offence charged.

(*b*) He shall not be asked, and if asked shall not be required to answer, any question tending to show that he has committed or been convicted of, or has been charged with, any offence other than that with which he is then charged, or has a bad character, unless—

(*i*) proof that he has committed or been convicted of such other offence is admissible evidence to show that he is guilty of the offence with which he is then charged, or

(*ii*) witnesses for the prosecution have been cross-examined with a view to establish his own good character, or he has given evidence of his good character, or the nature or the conduct of the defence is such as to involve imputations on the character of the witnesses for the prosecution, or

(*iii*) he has given evidence against any other person charged with the same offence.

(*c*) Unless otherwise ordered by the Court, he shall give his evidence from the witness-box or other place from which the other witnesses give their evidence.

Right of reply.

13. If the accused or any one of the accused calls and examines any witness, the right of final reply shall lie with the prosecution, but in all other cases with the accused:

Provided that the examination of an accused as a witness shall not of itself confer the right of final reply on the prosecution.

Differences of opinion.

14. In the event of any difference of opinion among the members of the Court, the opinion of the majority shall prevail.

Accused may be convicted of any offence referred to in Schedule.

15. At any trial under this Part the accused may be charged with and convicted of any offence against any provision of the law which is referred to in the Schedule.

Sentence.

16. The Court may pass upon any person convicted by it any sentence authorised by law for the punishment of the offence of which such person

is convicted, and no order of confirmation shall be necessary in the case of any sentence passed by it:

Provided that a sentence of death shall not be passed upon any accused person in respect of whose guilt there is a difference of opinion among the members of the Court.

Exclusion of interference of other criminal Courts.

17. The judgment of the Court shall be final and conclusive and, notwithstanding the provisions of the Code or of any other law for the time being in force, or of anything having the force of law by whatsoever authority made or done, there shall be no appeal from any order or sentence of the Court, and no High Court shall have authority to revise any such order or sentence or to transfer any case from such Court, or to make any order under section 491 of the Code or have any jurisdiction of any kind in respect of any proceedings under this Part:

Provided that nothing in this section shall be deemed to affect the powers of the Governor General in Council or of the Local Government to make orders under section 401 or section 402 of the Code in respect of any person sentenced by the Court.

Special rules of evidence.

I of 1872.

18. (*1*) Notwithstanding anything to the contrary contained in the Indian Evidence Act, 1872, where—

(*a*) the statement of any person has been recorded by a Magistrate, and such statement has been read over and explained to the person making it and has been signed by him, or

(*b*) the statement of any person has been recorded by the Court, but such person has not been cross-examined,

such statement may be admitted in evidence by the Court if the person making the same is dead or cannot be found or is incapable of giving evidence, and it is established to the satisfaction of the Court that such death, disappearance or incapacity has been caused in the interests of the accused.

(*2*) Depositions recorded under section 512 of the Code may, in the circumstances specified in that section, be given in evidence at the trial of an accused under this Part.

Recall of witnesses on reconstitution of Court.

19. In case of any reconstitution of the Court during the trial, the Court so reconstituted shall, if the accused so desires, recall and re-hear any witness who has already given evidence in the case.

Power to make rules.

20. The Chief Justice may from time to time make rules providing for—

(1) the appointment and powers of a President of the Court, and the procedure to be adopted to complete the Court in the event of any Judge of the Court being prevented from attending throughout the trial of an accused; and

(2) any matters (including the intermediate custody of the accused and his release on bail) which appear to him necessary for carrying into effect or supplementing the provisions of this Part preliminary or ancillary to trials.

PART II.

Condition of application of Part II.

21. If the Governor General in Council is satisfied that anarchical or revolutionary movements which are, in his opinion, likely to lead to the commission of scheduled offences are being extensively promoted in the whole or any part of British India, he may, by notification in the Gazette of India, make a declaration to that effect, and thereupon the provisions of this Part shall come into force in the area specified in the notification.

Powers exercisable when Part II is in force.

22. (*1*) Where, in the opinion of the Local Government, there are reasonable grounds for believing that any person is or has been actively concerned in such area in any movement of the nature referred to in section 21, the Local Government may place all the materials in its possession relating to his case before a judicial officer who is qualified for appointment to a High Court and take his opinion thereon. If, after considering such opinion, the Local Government is satisfied that action under the provisions of this section is necessary, it may by order in writing containing a declaration to the effect that such person is or has been actively concerned in such area in any movement of the nature referred to in section 21, give all or any of the following directions, namely: that such person—

(*a*) shall, within such period as may be specified in the order, execute a bond with or without sureties undertaking, for such period not exceeding one year as may be so specified, that he will not commit, or attempt or conspire to commit, or abet the commitment of, any offence against any provision of the law which is referred to in the Schedule;

(*b*) shall notify his residence and any change of residence to such authority as may be so specified;

(*c*) shall remain or reside in any area in British India so specified:

Provided that, if the area so specified is outside the province, the concurrence of the Local Government of that area to the making of the order shall first have been obtained;

(*d*) shall abstain from any act so specified which, in the opinion of the Local Government, is calculated to disturb the public peace or is prejudicial to the public safety; and

(*e*) shall report himself to the officer in charge of the police-station nearest to his residence at such periods as may be so specified.

(*2*) Any order under clauses (*b*) to (*e*) of sub-section (*1*) may also be made to take effect upon default by the person concerned in complying with an order under clause (*a*) of that sub-section.

Service of orders under section 22.

23. An order made under section 22 shall be served on the person in respect of whom it is made in the manner provided in the Code for service of summons, and upon such service such person shall be deemed to have due notice thereof.

Enforcement of orders.

24. The Local Government and every officer of Government to whom a copy of any order made under section 22 may be directed by, or under the general or special authority of, the Local Government, may use all means reasonably necessary to enforce compliance with the same.

Interim nature of order made by Local Government.

25. An order made under section 22 shall only continue in force for a period of one month, unless it is extended by the Local Government as hereinafter provided in this Part.

26. (*1*) When the Local Government makes an order under section 22, such Government shall, as soon as may be, forward to the investigating authority to be constituted under this Act a concise statement in writing setting forth plainly the grounds on which the Government considered it necessary that the order should be made, and shall lay before the investigating authority all material facts and circumstances in its possession relevant to the inquiry.

Reference to investigating authority.

(*2*) The investigating authority shall then hold an inquiry *in camera* for the purpose of ascertaining what, in its opinion, having regard to the facts and circumstances adduced by the Government, appears against the person in respect of whom the order has been made. Such authority shall in every case allow the person in question a reasonable opportunity of appearing before it at some stage in its proceedings and shall, if he so appears, explain to him the nature of the charge made against him and shall hear any explanation he may have to offer, and shall make such further investigation (if any) as appears to such authority to be relevant and reasonable:

Provided that—

(*a*) nothing in this sub-section shall be deemed to entitle the person whose case is before the investigating authority to appear or to be represented before it by pleader, nor shall the Local Government be so entitled:

(*b*) the investigating authority shall not disclose to the person in question any fact the communication of which might endanger the public safety or the safety of any individual:

(*c*) if the person in question requests the investigating authority to secure the attendance of any person or the production of any document or thing, such authority shall, unless for reasons to be recorded in writing it deems it unnecessary so to do, cause such person to attend or such document or thing to be produced, and for that purpose shall have all the powers conferred on a District Magistrate in respect of those matters by the Code.

(*3*) Subject to the provisions of sub-section (*2*) the inquiry shall be conducted in such manner as the investigating authority considers best suited to elicit the facts of the case; and in making the inquiry, such authority shall not be bound to observe the rules of the law of evidence.

(*4*) Any statement made to an investigating authority by any person other than the person whose case is under investigation shall be deemed to be information given to a public servant within the meaning of section 182 of the Indian Penal Code. XLV of 1860.

(*5*) On the completion of the inquiry, the investigating authority shall report in writing to the Local Government the conclusions at which it has arrived, and shall adduce reasons in support thereof. In so reporting the investigating authority shall state whether or not, in its opinion, the person whose case is under investigation is or has been actively concerned in any movement of the nature referred to in section 21.

(*6*) If the investigating authority has not completed the inquiry within the period for which the duration of the order is limited by section 25, such authority may recommend to the Local Government that the period of duration of the order shall be extended for such period as it may consider necessary, and on such a recommendation the Local Government may extend the duration of the order accordingly.

27. (*1*) On receipt of the report of the investigating authority, the Local Government may discharge the order made under section 22, or may make any order which is authorised by that section:

Disposal of report of investigating authority.

Provided that—

(*a*) any order so made shall recite the conclusions of the investigating authority as reported by that authority; and

(*b*) a copy of such order shall be furnished to the person in respect of whom it is made.

(*2*) No order made under sub-section (*1*) shall continue in force for more than one year from the date of the order made under section 22.

(*3*) On the expiry of an order made under sub-section (*1*), the Local Government may, if it is satisfied that such a course is necessary in the interests of the public safety, again make in respect of the person to whom such order related any order which is authorised by section 22:

Provided that before an order is made under this sub-section, a copy of the order which it is proposed to make shall be furnished to the person concerned, who may submit to the Local Government a representation in regard to such order. Any such representation shall be forwarded by the Local Government to the investigating authority for inquiry and report, and such authority, after inquiry conducted in accordance with the provisions of section 26, shall report thereon, and the Local Government shall consider such report:

Provided further that no order made under this sub-section shall continue in force for more than a year from the date on which it was made.

(*4*) Any order made under this section may at any time be discharged or may be altered by the substitution of any other order authorised by section 22:

Provided that no such alteration shall have the effect of prolonging the period for which such order would have been in force.

(*5*) The provisions of section 24 shall apply to the enforcement of orders made under this section.

28. If any person fails to comply with, or attempts to evade, any order (other than an order to furnish security) made under section 22 or section 27, he shall on conviction by a Magistrate be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

Penalty for disobedience to order.

29. The provisions of section 514 of the Code shall apply to bonds executed under the provisions of this Part, with this modification that the powers conferred by that section on the Court shall be exercisable by any District Magistrate or Chief Presidency Magistrate, on application made on behalf of the Local Government.

Provisions as to bonds.

30. (*1*) As soon as may be after a notification has been issued bringing this Part into force, the Local Government shall appoint one or more investigating

Investigating authorities.

authorities for the purposes of this Part, and may appoint additional investigating authorities when necessary.

(2) Every investigating authority shall be appointed by order in writing, and shall consist of three persons, of whom two shall be persons having held judicial office not inferior to that of a District and Sessions Judge, and one shall be a person not in the service of the Crown in India.

(3) The Local Government may by like order appoint persons to fill casual vacancies occurring by reason of death, resignation of office or otherwise on any investigating authority, but in so doing shall observe the provisions of sub-section (2).

Visiting Committees.

31. (1) The Local Government shall by order in writing appoint such persons as it thinks fit to be Visiting Committees to report upon the welfare and treatment of persons under restraint under this Part, and shall by rules prescribe the functions which these Committees shall exercise:

Provided that, in making such rules, provision shall be made for periodical visits to persons under restraint under the provisions of this Part:

Provided further that a person in respect of whom an order has been made under section 22 or section 27 requiring him to abstain from any specified act or to report himself to the police shall not be deemed to be under restraint for the purposes of this section.

(2) All rules made under sub-section (1) shall be published in the local official Gazette, and on such publication shall have effect as if enacted in this Part.

Power to make rules by Local Government.

32. (1) The Local Government may make rules prescribing the authorities before whom and the manner in which bonds under this Part shall be executed, and providing for the procedure to be followed regarding the notification of residence and reports to the police by persons in respect of whom orders have been made under section 22 or section 27.

(2) All rules made under sub-section (1) shall be published in the local official Gazette, and on such publication shall have effect as if enacted in this Part.

PART III.

Condition of application of Part III.

33. If the Governor General in Council is satisfied that in the whole or any part of British India anarchical or revolutionary movements are being promoted and that scheduled offences in connection with such movements are prevalent to such an extent as to endanger the public safety, he may, by notification in the Gazette of India, make a declaration to that effect, and thereupon the provisions of this Part shall come into force in the area specified in the notification.

Powers exercisable when Part III is in force.

34. (1) Where, in the opinion of the Local Government, there are reasonable grounds for believing that any person has been or is concerned in such area in any scheduled offence, the Local Government may place all the materials in its possession relating to his case before a judicial officer who is qualified for appointment to a High Court and take his opinion thereon. If after considering such opinion the Local Government is satisfied that such action is necessary it may make in respect of such person any order authorised by section 22, and may further by order in writing direct—

(a) the arrest of any such person without warrant;

(b) the confinement of any such person in such place and under such conditions and restrictions as it may specify:

Provided that no such person shall be confined in that part of a prison or other place which is used for the confinement of convicted criminal prisoners as defined in the Prisons Act, 1894; and IX of 1894.

(c) the search of any place specified in the order which, in the opinion of the Local Government, has been, is being, or is about to be, used by any such person for any purpose connected with any anarchical or revolutionary movement.

(2) The arrest of any person in pursuance of an order under clause (a) of sub-section (1) may be effected at any place where he may be found by any police-officer or by any other officer of Government to whom the order may be directed.

(3) An order for confinement under clause (b) or for search under clause (c) of sub-section (1) may be carried out by any officer of Government to whom the order may be directed, and such officer may use all means reasonably necessary to enforce the same.

Arrest.

35. Any person making an arrest in pursuance of an order under clause (a) of sub-section (1) of section 34 shall forthwith report the fact to the Local Government and, pending receipt of the orders of the Local Government, may by order in writing commit any person so arrested to such custody as the Local Government may by general or special order specify in this behalf:

Provided that no person shall be detained in such custody for a period exceeding seven days unless the Local Government so directs, and in no case shall such detention exceed fifteen days.

Search.

36. An order for the search of any place issued under the provisions of clause (c) of sub-section (1) of section 34 shall be deemed to be a search warrant issued by the District Magistrate having jurisdiction in the place specified therein, and shall be sufficient authority for the seizure of anything found in such place which the person executing the order has reason to believe is being used, or is likely to be used, for any purpose prejudicial to the public safety, and the provisions of the Code, so far as they can be made applicable, shall apply to searches made under the authority of any such order and to the disposal of any property seized in any such search.

Application of Part II, procedure.

37. Where an order (other than an order for arrest or search) has been made under section 34, the provisions of sections 23 to 27 shall apply in the same way as if the order were an order made under section 22, save that, on receipt of the report of the investigating authority, the Local Government may, subject to the conditions prescribed by section 27, make any order which is authorized by section 34, and sections 23 to 27 and 29 to 32 shall be deemed to be included in this Part.

Penalty for disobedience to orders under this Part.

38. If any person fails to comply with, or attempts to evade, any order made under section 34 or section 37 other than an order to furnish security, he shall be punishable

with imprisonment for a term which may extend to one year, or with fine which may extend to one thousand rupees, or with both.

PART IV.

Persons already under executive control.

IV of 1915. **39.** (*1*) On the expiration of the Defence of India (Criminal Law Amendment) Act, 1915, every person in respect of whom an order under rule 3 of the Defence of India (Consolidation) Rules, 1915, was in force immediately before the expiration of that Act, and who has in the opinion of the Local Government been concerned in any scheduled offence, shall be deemed to be a person resident in an area in which a notification under section 21 is in force, and the provisions of Part II shall apply to every such person accordingly; and every person who is on such expiration in confinement in accordance with the provisions of the Bengal State Prisoners Regulation, 1818, shall be deemed to be a person resident in an area in which a notification under section 33 is in force, and the provisions of Part III shall apply to every such person accordingly:

III of 1818.

Provided that within one month from the expiration of the Defence of India (Criminal Law Amendment) Act, 1915, the Local Government may, subject to the conditions prescribed in the first proviso to sub-section (*3*) of section 27 as made applicable by section 37, make any order of restraint which is authorised by Part III in respect of any person who is in confinement in accordance with the provisions of the said Regulation, and if such an order is so made it shall be deemed to be an order made under sub-section (*3*) of section 27 as made applicable by section 37, and the provisions of that Part regarding such an order shall apply accordingly.

IV of 1915.

(*2*) On the expiration of the Ingress into India Ordinance, 1914, as continued in force by the Emergency Legislation Continuance Act, 1915, any person in respect of whom an order was in force immediately before such expiration under section 2 of that Ordinance read with clause (*b*) or clause (*c*) of sub-section (*2*) of section 3 of the Foreigners Ordinance, 1914, shall be deemed to be a person resident in an area in which a notification under section 21 is in force, and the provisions of Part II shall apply to every such person accordingly:

V of 1914. I of 1915. III of 1914.

Provided that within one month from the expiration of the Ingress into India Ordinance, 1914, the Local Government may, subject to the conditions prescribed in the first proviso to sub-section (*3*) of section 27, make any order of restraint which is authorised by that Part in respect of any such person, and if such an order is so made it shall be deemed to be an order made under sub-section (*3*) of section 27, and the provisions of that Part regarding such an order shall apply accordingly.

V of 1914.

PART V.

Effect of cancellation of notifications under section 3, 21 or 33.

40. When a notification issued under section 3 or section 21 or section 33 is cancelled, such cancellation shall not affect any trial, investigation or order commenced or made under this Act, and such trial, investigation or order may be continued or enforced, and on the completion of any such investigation, any order which might otherwise have been made may be made and enforced, as if such notification had not been cancelled.

Effect of orders made under Parts II and III outside notified area.

41. (*1*) An order made under Part II or Part III, directing a person to remain or reside in any area in British India outside the area in which such Part is in force, shall be as valid, and enforceable in like manner, as if such Part were in force throughout British India.

(*2*) An order made under clause (*a*) of sub-section (*1*) of section 34 for the arrest of any person may be executed at any place in British India outside the area in which Part III is in force, and the same procedure shall be followed as if Part III was in force throughout British India:

Provided that, if the arrest is made outside the province of the Local Government which made the order, the report required by section 35 shall be made to that Local Government, and the maximum period of detention limited by the proviso to that section shall be extended to twenty-one days.

Orders under this Act not to be called in question by the Courts.

42. No order under this Act shall be called in question in any Court, and no suit or prosecution or other legal proceeding shall lie against any person for anything which is in good faith done or intended to be done under this Act.

Powers of Act to be cumulative.

43. All powers given by this Act shall be in addition to, and not in derogation of, any other powers conferred by or under any enactment, and all such powers may be exercised in the same manner and by the same authority as if this Act had not been passed.

THE SCHEDULE.

Bills introduced in the Indian Legislative Council, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

BILL No. 1 OF 1919.

[AS AMENDED BY THE SELECT COMMITTEE.]

[Words printed in italics indicate the amendments suggested by the Select Committee.]

A Bill to provide for the amendment of the Indian Penal Code and the Code of Criminal Procedure, 1898.

WHEREAS it is expedient to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, in order to deal more effectively with certain acts dangerous to the State; It is hereby enacted as follows:—

(XLV of 1860. V of 1898.)

Short title.

1. This Act may be called the Indian Criminal Law (Amendment) Act, 191 .

Insertion of new section 196-B in Act V of 1898.

2. After section 196-A of the Code of Criminal Procedure, 1898, (hereinafter referred to as the said Code), the following section shall be inserted, namely:—

Preliminary inquiry in certain cases.

"196-B. In the case of any offence referred to in section 196 or 196-A, the District Magistrate or the Chief Presidency Magistrate may, notwithstanding anything contained in those sections or in any other part of this Code, order a preliminary inquiry by a police-officer not below the rank of an Inspector, in which case such police-officer shall have the powers referred to in section 155 (3)."

Amendment of section 343, Act V of 1898.

3. To section 343 of the said Code, the following *Explanation* shall be added, namely:—

"*Explanation.*—A promise of protection to an accused person against criminal force or any promise properly *and reasonably* incidental to a promise of such protection, shall not be deemed to be the use of influence within the meaning of this section:

Provided that the presiding Judge or Magistrate has been informed of the terms of any such promise before the accused person is examined as a witness.

Where the presiding Judge or Magistrate has been so informed, he shall not disclose to the defence the terms of any such promise except to such extent as he may consider it necessary so to do in the interests of justice."

4. After section 510 of the said Code, the following section shall be inserted, namely:—

Insertion of new section 510-A in Act V of 1898.

"510-A. On the trial of an offence under Chapter VI of the Indian Penal Code, the following facts shall be relevant *for the purpose of proving criminal intention*, namely:—

XLV of 1860.

Evidence of previous conviction and association with previous convicts *to be relevant for certain purposes* at a trial for offences under Chapter VI, Act XLV of 1860.

(*a*) that the person accused has previously been convicted of an offence under that Chapter, and

(*b*) that such person has associated *in such circumstances as afford reasonable grounds for believing that the association was for the purpose of committing an offence under that Chapter* with any person who has been convicted of an offence under that Chapter:

Provided that such facts shall nevertheless not be *proved* under the provisions of this section, unless written notice of the intention to call evidence thereof has been served on the accused at least seven days before *such evidence is tendered*, together with reasonable particulars of the conviction or association intended to be proved."

5. After section 565 of the said Code, the following section shall be inserted, namely:—

Insertion of new section 565-A in Act V of 1898.

"565-A. (*1*) When any person is convicted of an offence punishable under Chapter VI of the Indian Penal Code, the Court may, if it thinks fit, at the time of passing sentence on such person, order him, on his release after the expiration of such sentence, to execute a bond with sureties *undertaking, for such period not exceeding two years as may be specified in the order, that he will not commit, or attempt or conspire to commit, or abet the commission of, any offence under the said Chapter.*

XLV of 1860

Security on conviction of an offence under Chapter VI of Act XLV of 1860.

(*2*) An order under sub-section (*1*) may also be made by an Appellate Court, or by the High Court when exercising its powers of revision.

(*3*) If the Court makes an order under sub-section (*1*), it shall further direct that, until the person who is the subject of the order furnishes the required security, such person shall notify to the Local Government or to such officer as the Local Government may by general or special order appoint in this behalf, his residence and any change of residence after release for the period for which security is required.

(*4*) Where any person is under an obligation to notify, in accordance with the provisions of sub-section (*3*), his residence and any change of residence after release, the Local Government may by order in writing direct that such person—

(*a*) shall not enter, reside or remain in any area specified in the order,

(*b*) shall reside or remain in any area in British India so specified, and

(*c*) shall abstain from addressing public meetings for the furtherance or discussion of any subject likely to cause disturbance *of the public tranquillity.*

(*5*) Any person refusing or neglecting to comply with any direction under sub-section (*3*) or any order under sub-section (*4*), shall be punishable as if he had committed an offence under section 176 of the Indian Penal Code. XLV of 1860.

(*6*) If the conviction is set aside on appeal or otherwise, all orders made under the provisions of this section shall become void.

Explanation.—In this section the expression "public meeting" has the same meaning as is assigned to it by section 3 of the Prevention of Seditious Meetings Act, 1911." X of 1911.

CHINA SEA AND PACIFIC OCEAN.

Traffic Regulations, Extinction of Lights, and Discontinuance or Withdrawal of Aids to Navigation.

No. 70 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 155 of 1919), are republished:—

Former Notice.—No. 1245 of 1918; hereby cancelled.

1. PHILIPPINE ISLANDS.—MANILA BAY.

1. The south channel of the entrance to Manila bay is closed to all traffic, both incoming and outgoing, at all times, day or night, and under no circumstances shall it be used. The seaward limits of the entrance to this channel extend from La Monja island on the north to Limbones island on the south; and the inner limits from Corregidor island to San Nicolas shoal light.

2. The North channel is closed to traffic inward from sunset to sunrise, except to certain vessels engaged in public service. The seaward entrance to this channel is designated as being between Guardia shoal on the north and La Monja island on the south. Vessels will be permitted to leave Manila bay by the North channel without restriction as to time. The speed of all vessels passing through the North channel in the area enclosed by a line joining Guardia shoal and La Monja island, and one joining Lokanin (Limay) point and San Nicolas shoal light shall not exceed five knots.

3. The headquarters of the Naval Patrol is based in Mariveles harbour. A Naval Signal Station has been established on the highest elevation of Cochinos point at the western entrance to Mariveles harbour, as an adjunct to the Patrol Vessel.

4. A vessel desiring to enter Manila bay shall proceed to the vicinity of a position having La Monja island and Corregidor lighthouse in line, with Luzon point bearing 330° (*N. 31° W. Mag.*), flying her national colours, together with International Code number and there stop until communicated with by the Harbour Patrol Vessel which will be in that vicinity. In the event of the absence of the Patrol Vessel from this locality, the vessel will proceed at a speed not exceeding five knots toward a line joining Guardia shoal and La Monja island, and there await instructions from Cochinos point Signal Station; this line shall not be passed until permission to do so has been granted.

5. In the event of a vessel being ordered by the Patrol Vessel or Cochinos Signal Station to proceed into Mariveles harbour, she shall under no circumstances cross to the eastward of a line joining Gorda point and La Monja island.

6. When a vessel has been granted permission to proceed through the North channel she will be given a code signal which shall be hoisted immediately and kept flying while within the restricted area above described. Under no circumstance shall she, on entering, pass a line joining Gorda point and La Monja island without displaying this signal.

7. The Cochinos Signal Station is provided with International signals, but routine signals may be made by shapes; that is to say, by ball, cubes (showing as squares), and cones.

Signals.

Proceed.—One Ball on yardarm (or Flag Signal).

Stop.—One Cube (Square) on yardarm or Rocket followed by Red Star (or Flag Signal).

Enter Mariveles Harbour.—One cone on yardarm point up, or Rocket followed by two Green Stars.

Patrol Ship Will Visit You.—Two Balls in vertical line from yardarm.

Hoist Safe Conduct Signal.—Cone, apex down, over Cube (Square). To be accompanied by designated letters.

8. Vessels are cautioned to use clean signal flags of sufficient size to be readily distinguished.

9. In case of a typhoon, a vessel arriving off the entrance of the North channel, and seeking shelter at night, shall burn a flare-up light at intervals. The signal granting permission to enter will be a rocket followed by two green stars, and this signal shall be repeated by a rocket fired from Corregidor. The vessel will then be entitled to proceed to an anchorage in Mariveles bay.

Failure to comply with any of the above regulations may result in the destruction of the offending vessel.

Variation.—1° E.

SÚBIC BAY.

Súbic bay is closed to traffic; any unauthorised vessel attempting to enter the port does so at her peril.

III. SWATAU.

The following Regulations have been made by the Local Military Authorities at Swatau with reference to the existence of mines in the approaches to that port, and are now in force:—

1. Vessels are forbidden to proceed by the channel northward of Sugar Loaf lighthouse.

2. All vessels, including men-of-war, must enter and leave the port by the channel to the southward of Sugar Loaf lighthouse.

3. All vessels, including men of war, when entering and leaving, must, when at a distance of 3 miles from Sugar Loaf lighthouse, slow down to a speed not exceeding 6 knots.

4. Vessels leaving or approaching Sugar Loaf lighthouse may not anchor within a distance of 4 miles outside and 2 miles inside thereof, nor throw overboard heavy articles, to do so being dangerous.

5. A guardboat will be stationed by the authorities, which, in case of changes in the minefield, will approach and guide incoming and outgoing steamers.

6. All incoming and outgoing men-of-war and armed steamers should give 24 hours' notice of their expected arrival or departure to the Swatau police.

7. If vessels, including men-of-war, disregard the above rules and thereby incur risks, the local authorities will not accept responsibility.

8. The time for leaving and entering the port is fixed for the hours between 6 A.M. and 6 P.M.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, *i.e.*, by rail, river, canal, road, and sea, of the Calcutta Block* in certain selected articles during the months of April, 1918 to January, 1919, as compared with the corresponding period of 1917-18 and 1916-17. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta* by rail, river, canal, road, and sea (coastwise) during the months of April, 1918 to January, 1919, amounted to 12,675,000 maunds as against 11,175,000 maunds in the corresponding period of the preceding year,—an increase of 13 per cent. There was an increase (15 per cent) in the imports of coal and coke (72,370,000 maunds as against 62,653,000 maunds last year). The value of the imports by rail, river, road, and sea (coastwise) of Indian cotton piece goods showed an increase of 57 per cent, the total value amounting to Rs. 4,94,63,000 as against Rs. 3,14,72,000 last year. The quantity of indigo imported during the months of April, 1918 to January, 1919, decreased by 6,000 maunds, or 28 per cent, to 15,000 maunds. The imports of raw jute amounted to 4,283,000 bales as against 3,816,000 bales,—an increase of 12 per cent. The importations of gunny bags also showed an increase of 4 per cent (366 million bags as against 351 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) increased by 77 per cent from 3,665,000 maunds to 6,492,000 maunds. The imports of tea decreased by 19 per cent from 3,375,000 maunds to 2,724,000 maunds.

Exports.—The exports of cotton piece goods, foreign, from Calcutta* by all routes during the months of April, 1918 to January, 1919 increased by 7 per cent (Rs. 20,86,92,000 as against Rs. 19,40,30,000 last year). The exports of gunnybags (including the exports by sea to foreign countries) decreased from 1,161 million bags to 1,066 million bags, but the shipments of gunny bags to other Indian ports increased from 20 millions to 31 millions in number in the period under review. The quantity of kerosine oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) decreased from 4,694,000 maunds to 4,017,000 maunds, or by 14 per cent.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

† One maund of paddy is equivalent to 25 seers of rice.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 27th March 1919.

Summary.—There was practically no rain throughout the Presidency. Preparation of lands for jute and paddy is being greatly retarded owing to continuous drought. Harvesting of spring crops continues. The condition of standing crops is generally reported to be unfavourable. The average price of common rice remains almost stationary. Distress continues to prevail in Bankura and Brahmanbaria subdivisions of the Tippera district. In Bankura 3,149 persons were in receipt of gratuitous relief and 4,415 persons were engaged in District Board work. In Brahmanbaria Rs. 1,11,665 has been distributed as agricultural loans up to date and 1,289 persons worked daily on an average in test works.

3. No society shall make any payment of withdrawable share capital while any claim due on account of a deposit is unsatisfied.

Restriction on interest of member of society with limited liability and a share capital.

4. Where the liability of the members of a society is limited by shares no member other than a registered society shall hold more than one-fifth of the share capital of the society.

Application for registration

5.(*1*) Every application for the registration of a society shall be submitted to the Registrar in the form contained in the schedule to these rules and shall be signed by the applicants.

(*2*) With every such application there shall be submitted three copies of the by-laws which the society proposes to adopt signed by the applicants. On the approval and registration of the by-laws the three copies shall be stamped with the official seal of the Registrar. One of the said copies shall thereupon be retained in the Registrar's office, another copy shall be returned to the society, and the third copy shall be sent to the central bank, if

the society is affiliated to a central bank, or retained in the Registrar's office to be made over to any central bank to which the society may in future be affiliated.

(3) In any case where one of the applicants is a registered society, the application for registration and copies of the by-laws submitted therewith, under this rule, shall be signed on its behalf by the office-bearer who is empowered by the by-laws of such society to sign documents on its behalf.

(4) In every case in which an application is made in accordance with the provisions of this rule, except in the case of an application which is forwarded to the Registrar through a central bank of which the chairman is the Collector or Subdivisional Officer, a copy of the application shall be forwarded simultaneously to the Subdivisional Officer of the area in which it is proposed to start the society, or if there be no Subdivisional Officer for such area, to the Collector of the district, for information, and the Registrar shall be informed accordingly.

Procedure of registration on receipt of application.

6. (1) When the Registrar has received an application for the registration of a society, he shall defer the consideration of it for ten days in order to allow time to the Collector or Subdivisional Officer to report thereon and shall thereafter examine the application along with the by-laws submitted therewith and consider the report (if any) received from the Collector or Subdivisional Officer in order to satisfy himself as to—

(a) whether they are in conformity with the Act and the rules;
(b) whether the by-laws are suitable for ensuring the safe conduct of business and for carrying out the purposes of the Act; and
(c) whether the proposed society has complied with the provisions of the Act and the rules;

and may direct any alterations to be made in the application or by-laws in order to bring them into conformity with the Act or the rules.

(2) If the Registrar is not satisfied on all the points mentioned in clauses (a), (b) and (c) of sub-rule (1) he shall refuse to register the society; but if he is so satisfied, he may, if he thinks fit, register the society and its by-laws and grant a certificate of registration to such society.

(3) In every case in which the Registrar refuses to register a society he shall record in writing the reasons for his refusal and shall communicate his decision to the applicants.

Power to make by-laws.

7. (1) A society shall make by-laws in respect of the following matters, namely:—

(a) the name and registered address of the society;
(b) the area of its operations;
(c) the objects for which the society is established and the purposes to which its funds may be applied;
(d) the qualifications required for membership and the terms of admission of members;
(e) the rights and liabilities of membership;
(f) the manner in which the capital may be raised;
(g) the rates of interest to be charged on loans;
(h) the mode of appointment and removal of the Committee and officers of the society and the duties and powers of such Committee:
(i) the mode of summoning and conducting meetings and the right of voting;
(j) the general conduct of the business of the society; and
(k) the disposal of profits.

(2) In addition to the above, a society may make by-laws on any other matters incidental to the management of its business, including—

(a) the imposition of fines and forfeitures on members and the consequences of the non-payment of any sums due by members to the society; and
(b) the authorization of any officer or officers to sign documents on behalf of the society.

Amendment of by-laws.

8. (1) After the registration of a society and its by-laws such society may amend its by-laws by altering or rescinding any by-law or by making a new by-law. Every such amendment shall be made only in accordance with a resolution passed at a general meeting of the society:

Provided that—

(a) due notice of any proposal to amend is given in accordance with the by-laws;

(b) the resolution is passed by not less than two-thirds of the members present at the general meeting, and by not less than half of the total number of members; and

(c) the amendment is approved and registered by the Registrar:

Provided also that the Registrar may, in special cases, sanction and register an amendment passed by two-thirds of the members present at a general meeting at which the number of members required by proviso (b) did not attend, if he is satisfied, for reasons to be recorded by him in writing,—

(i) that it is impossible for the society to secure the attendance of half of the total number of members at a general meeting;

(ii) that the adoption of the proposed amendment would be in the interests of the society; and

(iii) that such amendment is likely to meet with the approval of the general body of members.

(2) In every case in which the by-laws of a registered society are amended an application for the registration of the new or altered by-law or for the rescission of an existing by-law shall be submitted to the Registrar signed by the Secretary and three members of the Committee of Management. The application shall contain information as to—

(a) the date of the general meeting at which the amendment was passed;

(b) the number of members present at the meeting;

(c) the number of the members who voted in support of the amendment; and

(d) the number of members on the roll of the society at the date of the general meeting.

Together with the application shall be submitted three copies of the new or altered by-law, or in the case of a rescinded by-law, three copies of the resolution approving the rescission

(3) If the Registrar considers that the new or altered by-law or the rescission and the method of its adoption are not contrary to the Act and the rules, he may—

(i) in the case of a new or altered by-law, register it and retain one copy in his office, return another copy to the society together with a certificate of registration and forward the third copy to the central bank, if the society is affiliated to a central bank, and if not, retain it until the society is so affiliated, and

(ii) in case of a rescinded by-law, retain one copy of the resolution approving the rescission, return another copy to the society with a certificate of approval and forward the third copy to the central bank, if the society is affiliated to a central bank, and if not, retain it until the society is so affiliated.

Restriction on membership of a society with unlimited liability.

9. No person who is a member of a society with unlimited liability and no person who has within two years ceased to be a member of a society with unlimited liability shall be eligible, without the special permission of the Registrar, for membership of any other society with unlimited liability.

Joint-stock company not to be a member of society.

10. No joint-stock company may be a member of a registered society.

Borrowing.

11. (1) A registered society may borrow, in accordance with law, from either members or non-members; and all borrowings shall be regulated by the by-laws:

Provided that the issue of debentures by any such society shall be subject to such conditions as the Registrar may prescribe.

(2) The maximum amount of borrowings of any registered society shall be determined annually at a general meeting of the society, but may be revised at any subsequent general meeting during the year. No registered society shall contract any loan beyond the maximum amount so determined and in force for the time being:

Provided that the Registrar may revise the limit fixed at any general meeting, and when he does so, the limit as fixed by him shall not be exceeded.

(3) No society with limited liability shall, by accepting deposits, borrowing or otherwise, incur liabilities exceeding ten times the sum of the paid-up share capital and the reserve fund for the time being separately invested outside the society.

(4) No society shall incur liabilities to persons or societies who are not members in excess of a maximum to be fixed from time to time in general meetings of the society and to be approved of by the Registrar.

Special general meeting.

12. Notwithstanding anything contained in the by-laws of a registered society as to the mode of summoning general meetings and the object, time and place of such meetings, the Registrar, or any person authorised by the Registrar in that behalf, may—

(a) summon at any time a special general meeting of the society in such manner and at such time and place as he may direct, and

(b) specify what matters shall be discussed by the meeting:

Provided that such meeting shall have all the powers of a meeting called according to the by-laws of the society.

Balance sheet of society to be laid before general meeting.

13. The balance sheet of each registered society shall be laid before a general meeting of the society once a year.

Membership of Managing Committee.

14. (1) In every registered society the members of the Managing Committee by whatever name it may be called shall be elected by nomination and open vote at a general meeting.

(2) In any registered society no person who is under the age of 21 years or who is in receipt of a salary from the society shall be a member of the Managing Committee by whatever name it may be called.

(3) In every registered society a member of the Managing Committee by whatever name it may be called shall cease to hold office (a) if he become of unsound mind, or (b) if he be adjudged an insolvent, or (c) if he has been sentenced by any Court for any non-bailable offence, such sentence not having been subsequently reversed or quashed.

Conditions of appointment of a salaried officer in a society.

15. The appointment of a salaried officer in any society shall be subject to such conditions as to qualifications and the furnishing of security as may be prescribed by the Registrar.

Prohibition against inspection of society by an unlicensed salaried officer.

16. No salaried officer of a registered society shall be authorized to inspect registered societies unless he holds a license from the Registrar to do so.

Power of Registrar to remove office-bearer or member of Managing Committee of an unlimited liability society.

17. In any registered society with unlimited liability the Registrar shall have power to remove any office-bearer or member of the Managing Committee by whatever name it may be called and to nominate a member of the society in his place.

Books and registers to be maintained by the Managing Committee.

18. The Managing Committee shall keep such books and registers as may be prescribed by the Registrar and in particular shall make and maintain correctly up to date a register of members.

Maintenance of accounts and books and publication of balance sheet.

19. A society shall keep such accounts and books as may from time to time be prescribed or approved by the Registrar, and shall publish a balance sheet annually in such manner as the Registrar may by general or special order prescribe.

Audit fees.

20. Every registered society shall pay the audit fee prescribed by Government.

Returns.

21. A society shall submit to the Registrar such returns as that officer may from time to time prescribe.

Certifying copies of entries in books.

22. For the purposes of section 26 of the Act, a copy of any entry in a book of a registered society may be certified by a certificate written at the foot of such copy declaring that it is a true copy of such entry, that such entry is contained in one of the ordinary books of the society, and was made in the usual and ordinary course of business and that such book is still in the custody of the society: such certificate being dated and subscribed by the Secretary of the society or by any other officer approved by the Registrar.

Register of members and of shares.

23. In every registered society there shall be made and maintained corrected up to date a register of members and, where the liability of the members is limited by shares, a register of shares.

Disputes.

24. (*1*) Any dispute touching the business of a registered society between members or past members of the society, or persons claiming through a member or past member, or between a member or past member or persons so claiming and the Committee or any officer, shall be referred in writing to the Registrar.

(*2*) The Registrar, on a reference being made to him under the preceding sub-rule, shall, at his discretion, either decide the dispute himself or shall appoint an arbitrator, or shall refer it to three arbitrators of whom one shall be nominated by each of the parties to the dispute and the third shall be nominated by the Registrar and shall act as Chairman. Where any party to a dispute fails to nominate an arbitrator within fifteen days the Registrar may himself make the nomination.

(*3*) In such proceedings the Registrar or the arbitrator or arbitrators shall have power to administer oaths or solemn affirmations, to summon and enforce the attendance of all parties concerned and of witnesses, and to compel the production of all books and documents relating to the matter of the dispute by the same means and in the same manner as is provided in the case of a Civil Court under the Code of Civil-Procedure, 1908.

(*4*) The Registrar or the arbitrator or arbitrators shall record a brief note in English or the vernacular of the evidence of the parties and witnesses who attend, and upon the evidence so recorded and after consideration of any documentary evidence produced by either side, a decision or award, as the case may be, shall be given in accordance with justice, equity and good conscience and shall be reduced to writing. In the absence of any party duly summoned to attend, the dispute may be decided against him in default. In cases where three arbitrators are appointed the opinion of the majority shall prevail.

(*5*) Any party aggrieved by an award of an arbitrator or arbitrators may appeal to the Registrar within one month of the date of the award. In cases which the Registrar has decided himself under sub-rule (*2*) without reference to arbitration, an appeal within one month of the date of the decision shall lie to the Commissioner of the Division in which the society is situate.

(*6*) An award of the arbitrators or a decision of the Registrar under sub-rule (*4*), if not appealed against within one month, and an order of the Registrar or of Commissioner in appeal under sub-rule (*5*) shall, as between the parties to the dispute, not be liable to be called in question in any Civil or Revenue Court and shall be in all respects final and conclusive.

(*7*) Decisions and awards mentioned in sub-rule (*6*) shall, on application to any Civil Court having local jurisdiction, be enforceable in the same manner as a decree of such Court.

(*8*) In proceedings held under sub-rules (*2*) to (*5*) no party shall be represented by any legal practitioner.

Withdrawal, removal or expulsion of member.

25. (*1*) A member of any registered society may, if he is not in debt to the society or is not surety for an unpaid debt, withdraw from the society after giving one month's notice in writing to the Secretary.

(*2*) A member may be removed or expelled from a registered society only for such causes and in accordance with such procedure as may be prescribed by the by-laws.

(*3*) A member withdrawing, removed or expelled from the society shall be entitled, after the period prescribed by section 23 of the Act, to repayment without interest of any money paid by him or his predecessor in interest towards the purchase of a share or shares.

(*4*) A member who ceases to be qualified under the by-laws may be removed by the Managing Committee.

Nominees of deceased members.

26. (1) Any member of a registered society may, by a writing under his hand delivered at or sent to the registered office of the society or by a declaration duly made, nominate any person to whom or to whose credit the share or interest or the value of such share or interest and all other moneys referred to in section 22 of the Act may, on the death of such member, be paid or transferred under the provisions of the said section:

Provided that—

(a) such member may from time to time revoke or vary such nomination by a writing under his hand similarly delivered or sent or by a declaration similarly made; and

(b) the value of a member's share or interest shall be represented by the sum actually paid by the member to acquire such share or interest.

(2) Every registered society shall keep a register of all persons (if any) so nominated.

(3) In case the nominee of a member dies the member shall report the death to the society.

(4) The nominee of a deceased member of a registered society may become a member of the society only if admitted by the Managing Committee.

Loans to members.

27. (1) No loan shall be made to an individual member of any registered society with unlimited liability which shall bring the amount of his debts to the society up to a sum exceeding Rs. 250 without the previous consent of the Managing Committee of any other registered society of which the aforesaid society is itself a member.

(2) In any registered society in which the liability of members is limited by shares, no loan shall be made to a member which shall bring the amount of his debts to the society up to a sum exceeding Rs. 1,000, without at the same time sending information to the Registrar that such loan is being given.

(3) In any registered society in which the liability of members is limited by shares, no loan shall be given to a member exceeding ten times the amount of the share capital paid up by him.

(4) In any registered society a member applying for a loan shall apply in writing and shall state in his application the purpose for which he requires the loan.

(5) No extension of the period for which a loan has been granted by a registered society to a member shall be made except for good cause shown and on the written application of the member and with the consent of his sureties.

Reserve fund.

28. (1) In every registered society in which the liability of members is limited by shares, not less than one-fourth of the net profits shall be annually carried to a reserve fund.

(2) In every registered society with unlimited liability and without shares, the whole of the net profits every year shall be carried to a reserve fund.

(3) In every registered society with shares and with unlimited liability, not less than one-half of the net profit in any year shall be carried to a reserve fund until that fund is equal to one-half of the total liabilities of the society other than the reserve fund and share capital. Thereafter not less than one-third of the net profits in any year shall be added to the reserve fund, provided that if, by any increase in liabilities other than reserve fund and share capital, the proportion of reserve fund to such liabilities is reduced below one-half, the share of the net profits to be credited annually to the reserve fund shall be raised to one-half until the proportion is restored.

(4) The reserve fund of every registered society shall be invested or deposited in one or more of the modes mentioned in section 32, sub-section (1), clauses (a), (b), (c) and (d) of the Act, or in any other way approved of by the Registrar.

Number of members of an unlimited liability society.

29. Without the sanction of the Registrar no registered society with unlimited liability shall have more than fifty members.

Limitation of dividend.

30. (*1*) In any registered society with shares and unlimited liability, the balance of the net profits in any year, after crediting the reserve fund with the amount prescribed in rule 28, sub-rule (*3*), under section 43, sub-section (*2*), clause (*p*) of the Act, may be divided among the share-holders as dividend on their shares, subject to a maximum of 6¼ per cent. per annum on the amount paid up on each share. No dividend shall be distributed in such societies without the previous sanction of the Registrar.

(*2*) In every registered society in which the liability of the members is limited by shares, dividends may be declared up to a maximum of 12½ per cent. per annum on the amount paid up on shares.

(*3*) In any society in which the liability of the members is limited by shares, if the auditor reports that any asset is irrecoverable, no dividend shall be paid without the sanction of the Registrar.

(*4*) Notwithstanding anything in the foregoing rules the Registrar shall have power to permit any registered society, in which the liability of the members is limited by shares, to declare a dividend at a rate higher than 12½ per cent.

Procedure to be followed by liquidator.

31. (*1*) (*a*) When a liquidator has been appointed under section 42, of the Act, the Registrar shall at once publish in the *Calcutta Gazette* and in such other manner as he may think proper a notice requiring all claims against the dissolved societies to be submitted to the liquidator within one month of the publication of the notice:

Provided that the liabilities recorded in the account-book of the society shall be deemed *ipso facto* to have been duly notified.

(*b*) When a liquidator is appointed under section 42 he shall forthwith take charge of the books of the society and all the property, effects and actionable claims to which the society is entitled in order to take necessary steps to wind up its affairs.

(*c*) If necessary, the liquidator may institute suits for the recovery of sums due to the society.

(*d*) The liquidator shall then proceed to determine the assets and liabilities of the society as they stood on the date of the cancellation of its registration. He shall next determine the contributions to be made by the members and past members of the society, respectively, to the assets of the society. He shall also determine by what persons and in what proportions the costs of the liquidation are to be borne.

(*e*) For the purposes of clause (*d*) the liquidator may issue summonses to persons whose attendance is required either to give evidence or to produce documents. He may compel the attendance of any person to whom a summons has been issued and for that purpose issue a warrant for his arrest

(*f*) The liquidator shall send all such notices, summonses or warrants for service to the District or Subdivisional Officer concerned.

(*g*) The District or Subdivisional Officer, upon receipt thereof, shall proceed as if such notices, summonses or warrants had been issued by him and shall return them to the liquidator with the record (if any) of the proceedings taken with regard thereto.

(*h*) The liquidator shall keep short notes of the depositions of the persons thus summoned to give evidence.

(*i*) The liquidator shall thereupon make an order, after consultation with the Registrar, if necessary, noting the names of members and past members of the society and the amount to be realized from each as contribution under clause (*b*) of sub-section (*2*) of section 42, as costs of liquidation under clause (*d*) of the same sub-section.

(*j*) If the liquidator decides to proceed by taking action in the Civil Court, a copy of the above order accompanied, if necessary, by a list of the property of each member or past member against whom the decree will have to be enforced, shall be filed in the Civil Court having local jurisdiction, to be enforced as laid down in clause (*a*), sub-section (*5*) of section 42.

(*k*) If the Civil Court is unable, under the above order, to recover the sums assessed against any member or members, the liquidator may frame a subsidiary order or orders against any other member or members up to the extent of the liability of each for the debts of the society. This subsidiary order or these subsidiary orders shall be filed in the Civil Court having local jurisdiction for enforcement until the whole amount due from the members is realized.

(2) If the liquidator decides to proceed under the Bengal Public Demands Recovery Act, 1913, he shall observe the following rules :—

(a) He shall proceed as in clauses (d), (e), (f), (g), (h) and (i) of sub-rule (1).

(b) He shall then prepare, in the form prescribed in the Bengal Certificate Manual, a requisition for a certificate against each member or past member for the amount of his contribution, and shall forward this requisition in duplicate to the Registrar, who may file one copy of the requisition in his office and return the other countersigned to the liquidator, or return both copies for such modifications as he may think fit and resubmission.

(c) When the liquidator receives the countersigned requisition from the Registrar, he shall file it in the court of the Certificate Officer having jurisdiction and thereafter proceed according to the instructions in the Bengal Certificate Manual and such further instructions as the Registrar may prescribe.

(d) If the contribution of any member is not realized within a reasonable time, the liquidator may frame subsidiary order or orders against any other member or members up to the extent of the liability of each for the debts of the society and submit subsidiary requisitions to the Registrar for countersignature and file the countersigned subsidiary requisitions in the court of the Certificate Officer having jurisdiction, and so on until the whole amount due from the member is realized.

(3) The liquidator shall submit to the Registrar a quarterly report in such form as the Registrar may prescribe, showing the progress made in the liquidation of the societies placed under his charge.

(4) All funds in charge of the liquidator should be kept and deposited in the Post Office Savings Bank or with such other bank or person as may be approved of by the Registrar.

(5) After recovery of the dues of the society and the realization of the contribution and costs of liquidation from the members and past members, the liquidator shall, after meeting the liabilities of the society, wind up the affairs of the society and submit a final report to the Registrar.

(6) No appeal shall lie from the order of a liquidator under section 42.

(7) The appointment of a liquidator shall be published in the *Calcutta Gazette*.

SECOND SCHEDULE.

SCHEME.

1. The Endowment hereby created shall be called "The Gopi Mohan Roy Charitable Dispensary Fund".

2. The Endowment is created for the maintenance of the Gopi Mohan Roy Dispensary in the village of Serajdikhan, in the district of Dacca, which shall be open to all indigent persons for treatment and medicine without charge, but persons who can afford to pay may also receive treatment and medicine on payment for the medicine at such rates as the administrators may from time to time determine.

3. The Fund shall be administered by a Committee consisting of four *ex-officio* members and three *non-official* members as follows:—

1. The Collector of Dacca (who shall be President)	*Ex-officio.*
2. The Sub-Registrar of Assurances at Sherajdikhan	*Ex-officio.*
3. The President of the Panchayat of Rasunia Union	*Ex-officio.*
4. The Chairman of the Union Committee, Rasunia Union	*Ex-officio.*
5. Babu Syam Lal Roy of Abirpara... ...	*Non-official.*
6. „ Tarini Charan Sarkar of Abirpara ...	*Non-official.*
7. Dr. Radha Ballav Pal of Abirpara ...	*Non-official.*

4. In the event of any of the said *ex-officio* members ceasing to be available for the purpose of the Committee by reason of the removal of the Sherajdihhan Registry Office or police-station to other places or the dissolution of the said Panchayat or of the said Union Committee other members may be appointed in their places by the Local Government upon the nomination of the Collector of Dacca. The decision of the Collector as to whether a member has ceased to be available shall be final.

5. If any non-official member shall die or resign the Local Government acting through the Commissioner of Dacca may appoint another member in his place upon the nomination of the Collector of Dacca.

6. The Committee shall meet and make such rules for the conduct of their business and for the management of the Hospital subject to the approval of the Local Government acting through the Collector of Dacca as they shall think fit.

7. At any prescribed meeting of the Committee any question shall be decided by a majority of the votes of those members present, and in case of equality of votes the President shall have a casting vote provided always that the sanction of the Collector shall in all cases be obtained to any proposed action by the Committee not authorized by the rules made under clause 6 hereof.

8. If upon enquiry the Local Government acting through the Commissioner of Dacca are satisfied that the dispensary is being mismanaged (as to which the decision of the Commissioner shall be final) all or any of the members of the said Committee may be removed by the Local Government acting through the Commissioner and any new members or member either *ex-officio* or personally may be appointed by the Commissioner in substitution therefor.

9. The income of the said fund shall be remitted by the Treasurer of Charitable Endowments when and as received by the Collector of Dacca or such person as he may appoint and be paid over to the Committee or as they may direct to be applied towards the maintenance and upkeep of the said dispensary including repairs to buildings as may be necessary. The Committee or the Collector may receive donations or contributions towards the expenses of the dispensary and shall apply the same as if part of the said income.

10. Proper accounts shall be kept by the Committee in connection with the dispensary and such accounts shall be submitted to and passed by the officer of the Local Government deputed for the purpose as may be required by Government and shall at all times be open to the inspection of any member of the said Committee or the Treasurer of Charitable Endowments or any officer of Government appointed for that purpose.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Post Graduate Research Scholarships to be awarded in 1919.

Post Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and who appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month and is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, paleography, epigraphy, philosophy, history, archæology, anthropology, etc., and the remainder will be awarded for research either in a literary or in scientific subject. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme indicating a definite course of inquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1919, but a scholarship may be renewed from year to year up to the limit of three years provided the candidate has throughout the year vigorously prosecuted original research in the subject which he selected.

4. Each candidate for a scholarship must submit his application through the head of the institution in which he read last to the Director of Public Instruction, Bengal, on or before 10th May next, and must produce evidence of having passed from a Bengal College, the M.A. or M.Sc. examination of the Calcutta University or of having obtained some other equivalent or higher degree, such as Doctor in Science or Master in Engineering of the Calcutta University in 1916 or 1917 or 1918. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigations. He must also indicate the institution in which he proposes to work with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Applications for this year's scholarships should be submitted in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

W. C. WORDSWORTH,
Director of Public Instruction, Bengal.

In the 2nd Court of the Sub-Judge, Alipore, District 24-Parganas.

SUIT No. 29 of 1916 (MORTGAGE) EXECUTION.

Peary Lal Shah, plaintiff decree-holder, *versus* Ram Lal Chaudhury and others, defendants judgment-debtors.

TO be sold by the Nazir of the Court in his sale room at the Judge's Court, Alipore, at 12 o'clock noon on the 14th of April 1919 the undermentioned properties for the realisation of the money, viz., Rs. 5,558-3, due to the abovenamed decree-holder on account of the mortgage decree in the above suit :—

Lot No. 1.—4 bighas 18 cottahs 12 chitaks 44 square feet of land included in old holdings Nos. 12, 13, 20 and 21, new holding No. 9, Division V, Subdivision B, mauza Koreya, Panchannagram, being premises Nos. 32, 33, 34-1 and 35, Karayabazar Road, for which an annual rent of Rs. 17-11-11 is payable to the Collectorate of 24-Parganas, being plot B-1 of the map of the Commissioner for partition in Suit No. 85 of 1907 of this Court. The abovementioned land with boundary wall, tank, trees, etc., with the passage on the east.

Lot No. 2.—3 cottahs 5 chitaks 7 square feet of land included in new holdings Nos. 73-75, Division IV, Subdivision A, mouza Karaya, Panchannagram, premises No. 8-1, Karayabazar Road, for which an annual rent of annas 15 is payable to the Collectorate of 24-Parganas.

The above two lots with property No 1 of Schedule "Kha" of the above mortgage decree are subject to the following incumbrances :—

(*a*) Mortgage decree for Rs. 8,948-5 in suit No. 10 of 1917 of this Court.

(*b*) Mortgage, dated 11th January 1909, for Rs. 2,750 carrying interest at 1 per cent. per month with quarterly rests. This mortgage debt now amounting to Rs. 9,066 is due to Musammat Janaki, widow of Ram Dayal Shah, deceased assignee of the said mortgage.

(*c*) Charge mortgage, dated 15th May 1909, for Rs. 1,500 carrying interest at 6 per cent. per annum. This charge mortgage debt now amounting to Rs. 7,177-8 is due to Kalika Prosad Tewari as assignee of the said charge mortgage.

The lots are to be sold subject to the abovementioned incumbrances.

Full particulars and details can be obtained on searching the records of the above case.

P. CHOWDHURY, Sub-Judge.

Alipore, the 4th April 1919. (971—1)

Sheriff's Sale Proclamation.

TO be peremptorily sold, pursuant to an order of the Calcutta High Court, dated the 3rd February 1919, in the matter of the Indian Arbitration Act, IX of 1889, and in the matter of a reference to arbitration (Syam Lal Sen *versus* Ram Lal Sen) and in execution of an award, dated the 24th June 1916, and filed on the 21st of July 1916, by the Sheriff of Calcutta by public auction in his sale-room in the court-house on Friday, the 9th day of May 1919, at 12 o'clock noon.

The right, title and interest of the defendant Ram Lal Sen, under the last Will of Ram Gopal Sen, deceased, to and in the undermentioned properties, namely :—

(1) All that the four-storied brick-built house together with the piece of rent redeemed land thereunto belonging and on part whereof the same is erected and built containing by estimation 8 cottahs be the same a little more or less, being premises No. 39, Armenian Street, in the North Division of the town of Calcutta, Block No. XII, Holding No. 118, and bounded on the north by the premises No. 13, Noormull Lohea Lane

on the south by Armenian Street, on the east by Noormull Lohea Lane and on the west by the premises No. 40, Armenian Street.

(2) All that the three-storied brick-built house together with the piece of rent redeemed land thereunto belonging and on part whereof the same is erected and built containing by estimation 10 cottahs be the same a little more or less, being premises No. 40, Armenian Street, in the North Division of the town of Calcutta of Block No. XII, Holding No. 119, and bounded on the north partly by premises No. 13, Noormull Lohea Lane, and partly by the tenanted house of Sarbaranjan Bysack, on the south by Armenian Street, on the east by the premises No. 39, Armenian Street, and on the west by the premises No. 41, Armenian Street.

(3) All that the partly two-storied and partly three-storied brick-built house together with the piece of land thereunto belonging and on part whereof the same is erected and built containing by estimation 10 cottahs be the same a little more or less, being premises No. 97, Beniatolla Street, in Sootanutty, in the North Division of the town of Calcutta, and bounded on the north and west by filled up municipal sewered ditches, on the south by Beniatolla Street and on the east by the premises No 96, Beniatolla Street.

(4) All that the partly two-storied and partly three-storied brick-built house together with the piece of land thereunto belonging and on part whereof the same is erected and built containing by estimation 10 cottahs be the same a little more or less, being premises No. 96, Beniatolla Street, in Sootanutty, in the North Division of the town of Calcutta, and bounded on the north by a filled up municipal sewered ditch, on the south by Beniatolla Street, on the east by the premises Nos. 95-1 to 95-4, Beniatolla Street, and on the west by the premises No. 97, Beniatolla Street.

It appears from searches made in the office of the Registrar of Assurances, Calcutta, that, with the exception of the charge mentioned in the following note (*b*), there are no prior encumbrances affecting the properties to be sold.

NOTE.—(*a*) The premises Nos. 39 and 40, Armenian Street are affected by Scheme No. XXVIII (Howrah Bridge Approach Alignment) of the Calcutta Improvement Trust which has been approved of and sanctioned by Government.

(*b*) The interest of the defendant Ram Lal Sen, in among others, the said premises Nos. 39 and 40, Armenian Street, and 96 and 97, Beniatolla Street, is charged by an Award, dated the 9th day of November 1885 and confirmed by a decree of this Court made in Suit No. 335 of 1886 and dated the 26th August 1886 with the payment of Rs 25,000 with interest thereon at the rate of 4 per cent. per annum to the estate of the said Ram Gopal Sen, deceased, there being a provision in the said Award and decree for the deduction of this sum and interest out of the share of Ram Lal Sen when the joint properties are partitioned. No partition has yet been effected.

N.B.—Ram Lal Sen contends that the decree is time barred.

(*c*) A suit, namely, Suit No. 44 of 1916 (Ram Lal Sen *versus* Bidhumukhi Dasee and others) is now pending on the Original Side of this Court for the construction of the Will of the said Ram Gopal Sen, for the declaration of the rights of the parties and for other reliefs

The sale has been ordered for the recovery of the sum of Rs. 7,000 together with interest thereon at the rate of six per cent. per annum from 10th July 1916 until realization payable by the said Ram Lal Sen under the said Award and the costs of execution herein.

The conditions of sale may be seen at the office of the Sheriff of Calcutta on any day before the sale and will be produced at the sale.

LIST OF BUSINESS—ITEM No. 1.

STARRED QUESTIONS.

The following questions which had been starred were put and answered :—

By the Hon'ble Rai Radha Charan Pal Bahadur:—

***1.**

(*a*) Is it a fact that a memorial was addressed to His Excellency the Governor of Bengal by the lower grade assistants of the Bengal Secretariat in December, 1917?

(*b*) If so, will the Government be pleased to state what action, if any, has been taken on it?

(*c*) Is it a fact—

(*i*) that the strength of the upper division is not sufficient to cope with the work, and that a fairly large number of the lower division assistants are actually employed to do the work without proper remuneration;

(*ii*) that many deserving assistants in the lower division who entered the Secretariat long before the re-organization scheme of 1910 and have put in a qualifying service of 15 years or more, are still in the grade of Rs. 70 or Rs. 80 and have not yet been promoted to the upper division; and

(*iii*) that many outsiders who have been appointed direct to the upper division do not possess the necessary office experience or better educational qualifications and in most cases do routine work?

(*d*) Will the Government be pleased to state the number of candidates who appeared at the clerkship examination for admission into the lower grade of the Bengal Secretariat during the years 1916, 1917 and 1918, as well as the number of vacancies which occurred in those years?

Answer by the Hon'ble Mr. Donald:—

" (*a*) Yes.

(*b*) It was held that the lower division clerks had no cause for complaint, except that in the case of two Departments orders passed in 1910 regarding the promotion of such clerks to the upper division had not been fully adhered to. Steps have been taken to remedy this grievance.

(*c*) (*i*) No.

(*ii*) No.

(*iii*) No.

Questions and Answers.

By the Hon'ble Rai Debender Chunder Ghose Bahadur:—

***11.**

Will the Government be pleased to state what proportion of the cost of primary education controlled or provided by local bodies in England, Wales, Scotland and Ireland is contributed by the State in those parts of the United Kingdom, respectively, so far as such information is available to the Government?

Answer by the Hon'ble Mr. O'Malley:—

" On the average of the five pre-war years 46·9 per cent. of the total expenditure on elementary education in England and Wales was from Parliamentary grants. Statistics for the war years are not available since the compilation of statistics in England and Wales was suspended during the war. For comparative purposes, therefore, the five pre-war years have been taken in the case of Scotland and Ireland. Expenditure from Parliamentary grants for education in Scotland during this period was 54·2 per cent. of the total expenditure by School Boards. It is not possible to say how much of this was on " elementary " as opposed to " secondary " schools, both of which are, in accordance with the Education Act of 1872, under School Boards. In Ireland the expenditure by the Commissioners of National Education from Parliamentary grants in the same quinquennial period was 84·9 per cent. This latter figure excludes 3·5 per cent. which is provided for the erection and maintenance of school houses provided for in the vote of the Board of Works."

UNSTARRED QUESTIONS.

(Answers to which were laid on the table)

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

1.

(*a*) With reference to the observations made by the Hon'ble Mr. Hornell, in connection with the discussion of the budget in April, 1915, in which he expressed his anxiety to overhaul the whole system of primary education, will the Government be pleased to state what progress, if any, has since been made in the matter, and when the whole question is likely to be referred to a " large committee " as foreshadowed by Mr. Hornell in his said speech?

(*b*) Has Mr. Hornell drawn up any programme in this connection?

Answer by the Hon'ble Mr. O'Malley:—

" (*a*) The reorganization of the system of primary education involves a number of reforms such as—

(1) the improvement of the pay and prospects of teachers,

(2) the training of teachers,

(3) the establishment of more primary schools and the proper maintenance and equipment of those already established, and

(4) the revision of the curriculum.

Progress has been impeded by financial exigencies imposed by the war, but during the quinquennium ending in 1917-18 the pay of trained teachers in aided primary schools and *maktabs* for boys was increased by Rs. 6 a month with the help of Imperial grants and that of untrained teachers by Re. 1 a month. An allotment has since been made from the 5½ lakhs grant to enable local bodies to raise the stipends of untrained teachers to Rs. 2 a month where they are below that figure. The stipends of *gurus* under training have been raised to Rs. 10 a month and a comprehensive scheme for training teachers has been prepared which will require the sanction of the Secretary of State. A scheme for establishing a lower primary school of an

Questions and Answers.

improved type in each panchayati union has been held in abeyance owing to financial stringency, but will now be resumed : it is hoped shortly to establish 120 schools of this class. As regards maintenance and equipment, arrangements have been made for district boards undertaking the annual repair of Board primary schools, Government contributing two-thirds of the cost, and about 50 per cent. of the existing primary schools have been furnished with additional equipment. A survey of primary education both in Calcutta and the districts has been carried out; and a revised curriculum has been prepared, which it is proposed to publish for criticism. It is not at present proposed to convene a committee.

(*b*) Mr. Hornell, who has been on deputation since the latter part of 1917, had a definite plan of action but did not submit a programme to Government."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

2.

(*a*) Are the Government aware that there is, in Bengal, a particular class of people who practise with remarkable success an indigenous system of treatment, and supply nurses, in small-pox cases?

(*b*) Has the attention of Government been drawn to the action recently taken by the District Board of Mymensingh in announcing rewards and prizes to these men for their encouragement and for promotion of the system of treatment they practise?

(*c*) Is it a fact that the number of these men has been decreasing in recent years?

(*d*) Are the Government considering the desirability of taking steps to insure that the above indigenous system of treatment of small-pox largely availed of by the people, particularly in rural areas, and often with very good results, may not die out for want of support?

Answer by the Hon'ble Mr. Donald:—

" (*a*) Government have made inquiry as to the facts relative to the Mymensingh district. It is said that there exists there a class of people called *tikadars* who nurse small-pox patients, but it is not clear that these persons possess or even claim to possess an indigenous system of treatment.

(*b*) and (*c*) In November last the Mymensingh District Board resolved to allot a sum of Rs. 2,000, in the budget for 1919-20, for rewards to persons credibly reported to have nursed small-pox patients. The sanitation committee of the Board had expressed the opinion that it was desirable to prevent the class of *tikadars* from dying out.

(*d*) The information available does not permit of a definite answer; further inquiry will be made."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

3.

(*a*) Are the Government in a position to make a statement showing how far the utilisation by the people of water-hyacinth for manurial and commercial purposes has helped to check the spread of the plant in the water-courses of Eastern Bengal?

(*b*) Is it a fact that Mr. R. S. Finlow, Fibre Expert, Government of Bengal, is of opinion that the low grade ash of water-hyacinth growing in shallow water cannot benefit either the producer or the buyer?

Questions and Answers.

(*c*) Is it also a fact that the low grade ash has only a restricted use as a manure and that Messrs. Shaw, Wallace & Co. are not prepared to buy water-hyacinth ash containing less than 15 *per cent.* of potash?

(*d*) If so, how do the Government propose to deal with the problem of checking the spread of water-hyacinth?

Answer by the Hon'ble Mr. McAlpin:—

" (*a*) It is too early to make any definite pronouncement on the subject. On inquiry it is, however, found that a considerable and increasing quantity of the plant is being used by the people for manure and fodder for cattle and also as fuel.

(*b*) Mr. R. S. Finlow, Fibre Expert to this Government, is of opinion that for commercial purposes the production of low grade ash will be unprofitable, but that for manurial purposes on the part of the producer or his immediate neighbours it is of value commensurate with its potash content.

(*c*) As to the first part of the question the Hon'ble Member is referred to the reply to question (*b*). The answer to the second part is in the affirmative.

(*d*) The question assumes that, because the low grade ash has only a restricted use, the problem of checking the spread of water-hyacinth is seriously affected thereby. This is not the case, as experiments show that a considerable proportion of the plant is capable of yielding an ash of sufficiently good quality for commercial purposes; morover, a simple process has been evolved for extracting the potash in the form of crystals.

The fact that low grade ash has only a restricted use is also not an undesirable drawback; for it is obvious that, if the ash were too profitable, there would be a tendency to cultivate the plant rather than to exterminate it.

At present it is considered that the best method of checking the spread of the pest is the extended destruction and utilisation of the plant by the people for (*i*) manure, (*ii*) fuel, (*iii*) fodder and (*iv*) the manufacture of ash.

The Public Works Department of this Government are taking steps to root out the plant gradually from all canals or *khals* maintained by Government or declared under the Canals or Embankment Act. Some of the District Boards are also co-operating in the matter of extermination."

By the Hon'ble Babu Bhabendra Chandra Ray:—

4.

With reference to my unstarred question No. 15, asked at the meeting of the Council on the 18th February last, suggesting that opinions should be invited from the local bodies regarding the proposals contained in the Government of India Resolution on Local Self-Government dated the 16th May, 1918, and the reply thereto, are the Government aware that opinions have been so invited and collected by the Government of Madras, and that the Government of the United Provinces of Agra and Oudh have appointed a committee consisting of the official and non-official members of the Legislative Council to consider the proposals made in the said resolution?

Answer by the Hon'ble Mr. O'Malley:—

" This Government have no information on the subject."

Questions and Answers.

By the Hon'ble Babu Bhabendra Chandra Ray:—

5.

With reference to my unstarred question No. 16 asked at the meeting of the Council on the 18th February last, inquiring as to whether Government have addressed the district boards for the purpose of ascertaining which among them desire to have non-official chairmen, are the Government aware that the Government of Bihar and Orissa have addressed the district boards in the matter?

Answer by the Hon'ble Mr. O'Malley:—

"The reply is in the negative. As stated in the reply to question No. 16 asked at the meeting of the Council on 18th February, 1919, Government are considering the question of extending the system of elected non-official chairmen of district boards; and it is hoped to make an announcement on the subject shortly."

By the Hon'ble Babu Bhabendra Chandra Ray:—

6.

Are the Government aware of the procedure by which, under rule 13 of the United Provinces Legislative Council Rules, a committee of official and non-official members of the Council is appointed to consider and recommend legislation on any particular subject, before a Bill is formally introduced into the Legislative Council of the United Provinces?

Answer by the Hon'ble Mr. Kerr:—

"Rule 13 of the United Provinces rules for the conduct of business empowers the President of the Council to appoint a committee of members of the Council for the consideration of any question of public interest on which legislation is proposed or likely to be required, and also to appoint a chairman of such committee.

The procedure for the appointment of such committee and of the chairman of such committee appears to be for the President to announce these appointments at a meeting of the Legislative Council."

By the Hon'ble Babu Bhabendra Chandra Ray :—

7.

Are the Government aware of the existence of a Board of Education in the United Provinces, and of its constitution and functions?

Answer by the Hon'ble Mr. O'Malley:—

"The answer is in the affirmative."

8.

(*a*) With reference to the questions asked at previous meetings of the Council regarding the imported Rangoon rice, the wholesale price of which has been fixed by Government for the Calcutta market, have the Government any information as to the appropriate wholesale and retail rates at which the said rice is available in the different district towns and subdivisional headquarters, as compared with the wholesale and retail rates in Calcutta?

Questions and Answers.

(*b*) (*i*) What quantities of the said rice have been imported into Calcutta, since its wholesale price was fixed;

(*ii*) how much thereof has been exported beyond the limits of Bengal; and

(*iii*) how much of the same has been supplied to the different districts?

Answer by the Hon'ble Mr. McAlpin:—

"(*a*) In view of the reply to question (*b*) (*iii*) this question asks for the solution of a hypothetical problem.

(*b*) (*i*) 79,485 tons passed through the Customs up to the end of February.

(*ii*) It is calculated that 47,000 tons out of the above amount were exported to other provinces up to the end of February.

(*iii*) So far as is known, nothing has been despatched to any district in Bengal."

By the Hon'ble Babu Bhabendra Chandra Ray:—

9.

(*a*) Are the Government considering the question of the organisation of a Provincial Department of Industries on the lines recommended by the Industries Commission?

(*b*) Is it a fact that the Government of India have asked for the views of the Local Government on the said question?

(*c*) If so, have the Government formulated their views thereon?

Answer by the Hon'ble Mr. Donald:—

"(*a*) Yes.

(*b*) Yes.

(*c*) The matter is under the consideration of Government, but it is hoped that it will shortly be possible to initiate action on the lines of the Report."

By the Hon'ble Babu Bhabendra Chandra Ray:—

10.

(*a*) Is it a fact that there has been recently an unusual outbreak of dacoities in certain parts of the province?

(*b*) Is it also a fact that an unusually large number of dacoities has been committed in the district of Bogra during recent months? If so, what special measures have been adopted for preventing and detecting such crimes in the said district, and with what results?

Answer by the Hon'ble Mr. Kerr:—

"(*a*) Yes. 753 cases of dacoity were reported in 1918, against 525 in 1917. The increase is most noticeable in the districts of Bogra, Rajshahi, Dinajpur, Pabna, Bakarganj, Hooghly, Birbhum, Murshidabad and Nadia.

(*b*) Yes. Twenty-seven cases of dacoity were reported in the Bogra district during the last half of the year 1918, against seven cases during the corresponding period of 1917.

Questions and Answers.

The following special measures have been taken to deal with the outbreak in this district, viz. :—

(*i*) An extra Assistant Superintendent of Police was posted there in January last.

(*ii*) Special police patrols have been introduced with the assistance of an extra force of sub-inspectors and constables.

(*iii*) Four officers of the Criminal Investigation Department are assisting in the investigation of the cases.

Several specific cases have been detected and it is believed that the gangs responsible for the outbreak have been traced. Since the introduction of these special measures, the number of cases has decreased."

11.

Will the Government be pleased to state—

(*i*) the names of the journalists who have been dealt with under the provisions of the Defence of India (Criminal Law Amendment) Act, 1915, up to the 31st January, 1919, and

(*ii*) the reasons for taking action in each case?

Answer by the Hon'ble Mr. Kerr:—

"Orders under the Defence of India Rules have been passed in respect of 22 persons who were journalists by profession, but in 13 of these cases the reasons for the orders were not connected with the journalistic activities of the persons concerned. Government do not consider it advisable in the public interests to give the names of the individuals, or the detailed reasons for the action taken. In each case the Local Government were satisfied that there were reasonable grounds for believing that the individual in respect of whom the order was passed had acted, was acting or was about to act in a manner prejudicial to the public safety."

12.

Will the Government be pleased to lay on the table the complete registers of water-supply up to date, the maintenance of which is authorised in Government resolution No. 15-18 L.S.-G., dated the 11th November, 1912 ?

Answer by the Hon'ble Mr. O'Malley:—

"Government regret that they are unable to comply with the request owing to the undue amount of labour which would be involved in making copies of the registers for all districts. The registers, for instance, of the 24-Parganas alone are contained in 38 volumes."

By the Hon'ble Babu Siv Narayan Mukharji:—

13.

Will the Government be pleased to lay on the table a statement showing the amount of Public Works cesses that is credited annually to the funds of the district boards of the Presidency and the expenditure incurred on sanitary and anti-malarial measures by the district boards, sub-division by sub-division, of the several districts, since the transfer of the Public Works cess to the district boards was effected in November, 1913?

Questions and Answers.

Answer by the Hon'ble Mr. O'Malley:—

"A statement is laid on the table. The information asked for as to the expenditure on anti-malarial measures is not available, as such expenditure is entered under different heads and figures for different sub-divisions are not compiled."

(*a*) Will the Government be pleased to state whether the rule insisting on the contribution of a third of the cost of works on water-supply has been relaxed? If not, why not?

Questions and Answers.

(*b*) Is the number of cases in which the rule has been so relaxed small? If so, are the Government considering the advisability of impressing on the district boards the necessity of taking adequate measures for the supply of pure drinking-water in the rural areas on an extensive scale, in view of the fact that the funds of the district boards have at present been augmented by the surrender of the Public Works cess?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) In circular No. 15 L.S.-G., dated 17th February, 1917, of which a copy is laid on the table, it was made clear that there is no rule or order of Government requiring the local public to contribute one-third of the cost of improving the water-supply in rural areas.

(*b*) The question does not arise."

Circular referred to in the answer by the Hon'ble MR. O'MALLEY *to question No. 14 (unstarred) asked by the Hon'ble Babu* SIV NARAYAN MUKHARJI *at the Council meeting of the 13th March, 1919.*

Circular No. 15 L.S.-G., dated Calcutta, the 17th February, 1917.

From—L. S. S. O'MALLEY, ESQ., I.C.S., Secretary to the Government of Bengal, Municipal Department,
To—All Commissioners of Divisions.

In continuation of the correspondence ending with Circular No. 13 L.S.-G., dated the 12th March, 1917, on the subject of expenditure on water-supply by District Boards, I am directed to forward a copy of a question asked and of the answer given to it at the meeting of the Bengal Legislative Council held on the 23rd January, 1917.

2. In circular No. 12 T.—M., dated the 20th May, 1904, Government made a promise that it would contribute a third of the cost of improving the water-supply in rural areas subject to a maximum of Rs. 5,000 for any one district and of Rs. 50,000 for the whole province, provided that the District Boards contributed one-third of the cost and the public another third. The condition that the public should contribute one-third of the cost before a Government grant was made was withdrawn in Eastern Bengal by Government letter No. 4945 M., dated the 20th July, 1908, to the Secretary, Sanitary Board, Eastern Bengal and Assam, in which it was stated that the grant placed at the disposal of the Sanitary Board for the improvement of the water-supply in rural areas should be allotted under such agreements as to private contributions as they might find practicable and suitable to local conditions. In West Bengal the condition was withdrawn in Circular No. 16 T.—L.S.-G., dated the 4th October, 1911, in which Government agreed to contribute one-third of the expenditure incurred by District Boards in any one year on the improvement of the local water-supply subject to a maximum of Rs. 3,000 in each case, irrespective of the amount contributed by the public. It was at the same time explained that the expenditure of the District Boards should supplement and not supersede local efforts. Subsequently the District Funds were considerably augmented by the surrender of the Public Works cess, and it was accordingly announced in resolution No. 228 L.S.-G., dated the 24th January, 1914, that Government would in future give no special grants for the improvement of water supply in rural areas as the District Boards should have no difficulty in providing sufficient funds for the purpose

3. I am to request that you will make it clear to District Boards in your division that there is no rule or order of Government requiring that the local public should contribute one-third of the cost of improving the water-supply. It is left to the discretion of the District Boards to decide what contribution the public should make, but as stated in Circular No. 16 T.—L.S.-G., dated the 4th October, 1911, the idea should not be allowed to gain ground that the need for local co-operation has disappeared.

[4. A copy of Circular No. 16 T.—L.S.-G., dated the 4th October, 1911, is enclosed.]

Questions and Answers.

Question asked and the answer given to it at the meeting of the Bengal Legislative Council held on the 23rd January, 1917.

Question.—With reference to the remarks made by the Hon'ble Nawab Sir Syed Shams-ul-Huda in the course of the debate on the rural water-supply resolution, moved in the Council by the Hon'ble Mr. P. C. Mitter in September last, are the Government considering the advisability of withdrawing the circular issued under orders of Sir Andrew Fraser which insisted upon a local contribution of one-third of the total expenses of excavating tanks, etc?

Answer.—The circular of 1904 to which the Hon'ble Member refers laid down *inter alia* that one-third of the cost of any project for improving the supply of drinking-water in rural areas should be met from public subscriptions before a Government grant was made. This condition was withdrawn by the Government of Eastern Bengal and Assam in 1908, and by the Government of Bengal in 1911. The orders contained in the circular of 1904 applied only when grants were made by Government to District Boards for the improvement of the rural water-supply and not when District Boards spent money for this purpose without receiving a Government subvention. As there appears to be considerable misapprehension on the subject, a circular will shortly issue explaining the position.

With reference to the answer to starred question No. 17 (*iii*) asked at the Council meeting of the 3rd July 1918, are the Government considering the advisability of developing the scheme for the erection of refuge mounds on the right side of the Damodar into a practical measure by excavating a number of tanks in the spill area, or at any rate for the present in certain important villages or centres within that area, and by utilizing the banks of these tanks to serve the purposes of refuge mounds?

Answer by the Hon'ble Mr. Cowley:—

"Government have under consideration proposals for the construction of refuge mounds on the right bank of the Damodar but not on the lines indicated in the Hon'ble Member's question."

16.

Will the Government be pleased to lay on the table a statement showing, district by district, the total number of suits, appeals and miscellaneous cases pending for six months and one year, respectively, in the different sub-judges' courts in the Presidency of Bengal up to December, 1918?

Answer by the Hon'ble Mr. Duval:—

"Statistics are not compiled of cases pending *for* six months and *for* one year. A statement showing, district by district, the total number of suits, appeals and miscellaneous cases pending for *over* six months and for *over* one year in courts of the subordinate judges in the Presidency, is laid on the table."

Questions and Answers.

By the Hon'ble Rai Mahendra Chandra Mitra Bahadur:—

17.

Will the Government be pleased to lay on the table a statement showing, in tabular form, the total number of—

(*a*) original civil suits, and

(*b*) (*i*) title, (*ii*) rent, (*iii*) money, and (*iv*) miscellaneous, appeals

decided by each of (*1*) the sub-judges, (*2*) the district judges and (*3*) the additional judges, in the various districts in the Presidency of Bengal during each of the three years 1915, 1916 and 1917?

Answer by the Hon'ble Mr. Duval:—

"Government have no information beyond that contained in the annual reports of the High Court on the administration of Civil Justice, to which the Hon'ble Member is referred. Government are not prepared to undertake the compilation of further statistics as it would involve an amount of trouble and labour wholly incommensurate with any object to be achieved."

By the Hon'ble Rai Mahendra Chandra Mitra Bahadur:—

18.

(*a*) Is it a fact that the litigants of the Court of Small Causes, Calcutta, experience inconvenience in filing suits for the want of the requisite stamps on the day they intend to file a suit and during the hours usually fixed for filing suits in the said court?

(*b*) What is the average number of stamps sold *per diem* there?

(*c*) What is the total number of suits filed daily during the month of January and up to the 15th February, 1919, in the said court?

(*d*) Will the Government be pleased to state the present arrangements for the sale of stamps in the said court?

(*e*) Are the Government considering the advisability of making some suitable arrangements to cope with the work in connection with the sale of stamps for the convenience of the suitors?

Answer by the Hon'ble Mr. Duval:—

(*a*) It is a fact that inconvenience has been recently experienced.

(*b*) 620·2.

(*c*) A statement is laid on the table.

(*d*) and (*e*) There are two salaried stamp vendors in the court. Owing to the absence in November last of one of them, who had an attack of influenza, inconvenience was caused to litigants and legal practitioners. On the representation of the Registrar and subsequently of the pleaders of the court, the Collector of Stamp Revenue has directed the sale of stamps up to 4 P.M. instead of up to 2-30 P.M. and is considering the question of strengthening the staff of the stamp department attached to the Court."

DEATH OF SIR ANDREW FRASER.

The President said :—

"Hon'ble Members will wish, I think, that there should appear on the record of our proceedings some expression of our feeling of sorrow at the death of an ex-Lieutenant-Governor of this Province, Sir Andrew Fraser. Sir Andrew Fraser came to Bengal to administer the Province at a time of great difficulty. He had to face the full force of public hostility which was roused by the partition of the Province and, as Hon'ble Members will remember, his life was saved on one occasion by an act of conspicuous gallantry on the part of my Hon'ble colleague the Maharajadhiraja Bahadur of Burdwan. Sir Andrew Fraser consistently endeavoured to bring the non-official and the public into close touch with the Government of the Province. For example, the practice of calling in

The Bengal Village Self-Government Bill.

Sir H. Wheeler.

non-official members to assist in the preparation of the Budget originated with him, and it was his invariable practice, I believe, to hold conferences and informal consultations with the representatives of the public upon all measures of importance which he had in contemplation. He was a man of very strong religious proclivities and he took an enthusiastic interest in all matters of social reform. It was under his administration that the Juvenile Jail was established and it was under his auspices that the Disorderly Houses Act was passed. His interest in the cultivator found practical expression in a variety of ways. As for example the passing of the Bengal Tenancy (Amendment) Act which had for its object the securing of the interest of landlord and tenant and the protection of the tenant from undue raising of rent. Again, he was deeply interested in the Agricultural Department, the Department of Land Records, the appointment of a Director as the head of the former, and the establishment of an Agricultural College at Sabour. As I have said he came to Bengal at a time of great difficulty. He retired from this country ten years ago after five years of very strenuous labour as Lieutenant-Governor and after a total of thirty-seven years of service in India, and I cannot doubt that when the dust raised by the acute political controversy which darkened his term of office in this Province has blown aside, there will stand revealed to the impartial eye of the historian a valuable output of solid and lasting achievement."

LIST OF BUSINESS—ITEM No. 2.

LEGISLATIVE BUSINESS.

THE BENGAL VILLAGE SELF-GOVERNMENT BILL, 1919.

The Hon'ble Sir Henry Wheeler presented the further report of the Select Committee on the Bengal Village Self-Government Bill, 1919.

He said :—

"My Lord, I beg to present the further report of the Select Committee on the Bengal Village Self-Government Bill, 1919.

The circumstances under which this Bill was recommitted to the Select Committee are fresh in the memory of the members of the Council. The only new material which the Select Committee had before it was the mass of amendments of which notice had been given in Council, and these papers, therefore, formed the basis of our further examination of the question.

The report draws attention to the important changes which we have made, and it will be seen that we started by going through the amendments which, had the Bill been taken in Council on the last occasion, would have been moved by myself. Of these we have embodied 14 in the Bill. We then went through various other amendments which, on the occasion of a previous examination of the list by the official members, seemed susceptible of acceptance without objection if the current of discussion in Council showed that feeling was in favour of them. Out of these amendments we have inserted some 16 in the Bill. Apart from that, there are two other small points in respect of which we made changes. Finally, our consideration of the amendments of which notice had been given, and the further incidental scrutiny of the papers, revealed three other points in which we thought that alterations might be made. In all, therefore, we have made 35 major changes in the Bill, and I hope to that extent the subsequent discussion of the Bill in this Council will be lightened.

The report explains most of them, and I need hardly go through them all. I would invite attention to the amendment mentioned in paragraph 2(10) which undoubtedly drew attention to a defect in the Bill, viz., the absence of any specification of the time within which notice of a desire to move for the transfer of a suit from the union bench should be given. The provision that we are now placing in the Bill is somewhat on the lines of the corresponding section of the Criminal Procedure Code. Then, in paragraph

The Bengal Village Self-Government Bill.

Sir H. Wheeler.

2(13), we have endeavoured, in part, to meet an amendment of the Hon'ble Babu Akhil Chandra Datta, who desired that the income derived from all pounds and ferries within the union should be made over to the union board. Under the Cattle Trespass Act that is already permissible and we have made no change, but we have amended the Ferries Act so as to render it similarly possible for Government to make over the proceeds from ferries to the union board. In paragraph 3 (*b*) reference is made to an amendment by which we have tried to meet a fairly widely expressed wish that, in respect of voters, the residential qualification should be made rather more elastic, though we have preserved it as originally drafted in respect of candidates. It seemed to us that it might reasonably be said that the member of a union board should be a *bona fide* resident of the area with the administration of which he has been charged, but on the other hand, a man might not have been resident within the original meaning of the draft Bill so as to entitle him to vote, whereas, owing to his interest in the union, he might reasonably be interested in the selection of his representatives.

In paragraph 3(*c*) we have endeavoured to make it clearer what person should vote on behalf of a joint family. The amendment accepted in paragraph 3(*f*) is of considerable importance, and we have practically reverted to the original position under Act VI of 1870 in respect of the appointment of daffadars. The change which the Bill contemplated, and for which there is much to be said, was the subject of some criticism by way of amendment, and on the whole we have thought it best to maintain the existing practice.

In paragraph 3(*j*) we have taken the opportunity of making what, I think, is an improvement in the basis of assessment, and in paragraph 3(*k*) we have referred to an amendment which was moved by Kumar Shibshekhareswar Ray which reduces the penalty realisable along with the arrear to half the arrear, instead of the whole which is permissible under the present Chaukidari Act. In paragraph 3(*o*) we have taken another amendment of the same Hon'ble Member which entails the omission of a section which was designed with the good intention of ensuring that the class of suits were instituted in the union court for which that body was intended, instead of being taken to the ordinary courts, but on further consideration, we thought that, as it appeared to be controversial and was unlikely often to be used, it might well be omitted. Otherwise, perhaps the most noticeable change we have made is in removing the authority to delegate to circle officers the power to amend an assessment list. A certain amount of wish had been expressed to that effect, which, on the whole, we thought it expedient to meet.

It will be observed that two minutes of dissent are annexed to the report. That of Babu Mahendra Nath Ray, who throughout has given us in the Select Committee much assistance in the consideration of these proposals, deals with two points, the most important of which is the question whether any statutory obligation should be laid on district boards to give financial assistance to union boards. The other note of dissent is by the Hon'ble Babu Bhabendra Chandra Ray, who, unfortunately, did not find himself able to attend our supplementary meetings, and we have therefore been unable to influence him by argument or discussion in respect of the points on which he has now put in a note of dissent.

The only other point to which I would like to invite the attention of the Council is that we propose to take up the consideration of this Bill on the 7th of April. That being so, the latest date for the filing of amendments will be 11 o'clock on the 24th March, and if Hon'ble Members still desire to move in respect of the re-amended Bill the same amendments of which they gave notice to the Bill as first examined by the Select Committee, it will be necessary to give fresh notice, because we must have a clear intimation as to how many of the amendments in that list still stand in the light of the further changes we have made in the Bill. Of couse it will be quite sufficient to refer to the numbers of that list in giving this second notice."

Revised Financial Statement.

LIST OF BUSINESS—ITEM No. 3.

THE REVISED FINANCIAL STATEMENT.

The Hon'ble Sir Henry Wheeler presented the Revised Financial Statement for Bengal for 1919-20.

He said :—

"My Lord, I have the honour to present the Revised Financial Statement of Bengal for the year 1919-20. Since the draft amended Financial Statement was laid before the Council, certain changes have been made in the figures, and these are dealt with in the Memorandum which I think is in the possession of Hon'ble Members. Under the instructions of the Government of India we have raised our receipts from Excise in the revised estimates for 1919-20 by Rs. 3 lakhs, all of which will come to us, and our receipts under Stamps by a like sum, of which we shall get half. So that we have benefited under those two heads to the extent of Rs. 4½ lakhs. In the Budget for the ensuing year there is a corresponding addition of Rs. 3 lakhs under the Excise head, while in respect of Income-tax certain changes contingent upon the Excess Profits Act and the exemption of small incomes, have now been inserted in the estimates.

On the expenditure side we have made some important changes, one of which, that relating to Famine Relief, affects some of the resolutions of which notice has been given to day. It will be noticed that a *communiqué* was issued recently improving the pay of the officers of the Imperial Police and the officers of the Indian Medical Service. In respect of these two re-organizations, we have had to make financial provision, which will entail an increase under Police of Rs. 2½ lakhs, and an increase under Medical of Rs. 1½ lakh. Under Scientific and Miscellaneous Departments we have made a further lump provision of Rs. 2 lakhs in the hope that during the coming year we may be able to make a beginning on the lines of the recommendations of the Industrial Commission—a provision which I trust will commend itself to all—while in respect of Famine Relief, the situation now being slightly worse than it was when we originally framed the Budget, we have made a further provision of Rs. 2 lakhs for relief measures, of which Rs. ½ lakh is debitable to us and the balance to Imperial. In the net result, at the end of 1919-20, our closing balance is estimated to be Rs. 3,23,23,000 in place of Rs. 3,22.23,000, at which it stood before.

Hon'ble Members will notice that there is an error of printing in the heading 'revised estimate, 1919-20', which really, of course, should be the revised estimate for 1918-19."

REVISED FINANCIAL STATEMENT, BENGAL, 1919-20.

GOVERNMENT OF BENGAL.

FINANCIAL DEPARTMENT.

Finance.

Calcutta, the 12th March 1919.

MEMORANDUM.

IN accordance with rule 14 (*1*) and (*2*) of the Bengal Legislative (Financial Statement) Rules, 1912, published with Notification No. 4482 F., dated the 10th December 1912, the following memorandum is circulated, indicating alterations in the figures which have been made since the circulation of the Amended Draft Financial Statement, Bengal, for 1919-20 on the 4th instant.

Revised Financial Statement.

2. The following changes have been made under the orders of the Government of India :—

REVISED ESTIMATE, 1918-19.

Receipts.

The revised estimates under the following heads have been raised by the amounts noted against each, with reference to the increase in receipts in February.

	Total increase.	Provincial share.
	Rs.	Rs.
IV—Stamps	3,00,000	1,50,000
V—Excise	3,00,000	3,00,000

3. These changes have raised the estimates of total receipts from Rs. 7,25,07,000 to Rs. 7,29,57,000. The closing balance now stands at Rs. 3,70,52,000.

BUDGET, 1919-20.

Receipts.

V. Excise—The estimate has been raised by Rs. 3,00,000, from Rs. 1,84,00,000 to Rs. 1,87,00,000, in view of the increase in the revised estimate for 1918-19.

The alterations mentioned in the memorandum circulated on the 4th March 1919, viz., VIII—Income-tax reduced from Rs. 1,15,00,000 to Rs. 88,75,000, and "Transfers between imperial and provincial revenues" raised from Rs. 5.34,000 to Rs. 31,59,000, have now been incorporated in the Estimates.

The total provincial receipts now stand at Rs. 7,29,83,000 against Rs. 7,26,83,000 as previously adopted.

Expenditure.

20—Police.—The estimate under this head has been raised by Rs. 2,50,000 to give effect to the revision of the rates of pay of Imperial Police officers which has recently been sanctioned by the Secretary of State.

The total estimate under this head is now Rs. 1,36,21,000.

24—Medical.—An additional provision of Rs. 1,50,000 has been made in view of the recent announcement in regard to the emoluments of the officers of the Indian Medical Service. The total allotment under Medical now stands at Rs. 27,69,000.

26-B.—Scientific and Miscellaneous Departments.—With a view to give immediate effect, as far as possible, to the recommendations of the Indian Industrial Commission, the lump provision of Rs. 50,000 for the development of industries has been raised to Rs. 2,50,000. The total estimate under this head now amounts to Rs. 10,68,000.

33—Famine Relief.—To relieve the distress prevailing in certain parts of the Presidency, owing to unfavourable agricultural conditions, a provision of Rs. 2,00,000 has been made for relief measures; of this sum Rs. 50,000 is debitable to provincial, and the balance to imperial, revenues.

4. The total charges for 1919-20 are now raised from Rs. 7,70,62,000 to Rs. 7,77,12,000 and the closing balance from Rs. 3,22,23,000 to Rs. 3,23,23,000 as shown below :—

	Revised estimate, 1918-19	Budget estimate, 1919-20.
	Rs.	Rs.
Opening balance ...	3,67,64,000	3,70,52,000
Receipts	7,29,57,000	7,29,83,000
Expenditure	7,26,69,000	7,77,12,000
Closing balance ...	3,70,52,000	3,23,23,000

5. Copies of the Revised Financial Statement incorporating these changes are circulated herewith.

Revised Financial Statement.

REVISED FINANCIAL STATEMENT OF THE GOVERNMENT OF BENGAL FOR 1919-20.

PART I.—Memorandum by the Finance Member.

General Financial Situation.

THIS statement is presented to the Council under rule 14(*1*) of the Rules for the Discussion of the Annual Financial Statement, published with Notification No. 4482-F., dated the 10th December 1912. On the 18th of December last, when the departmental budgets were under preparation, the Hon'ble Members of the Finance Committee were invited in an informal meeting to advise Government as to the selection of new schemes for inclusion in the coming year's budget. As required by rule 6(*1*) of the Bengal Legislative (Financial Statement) Rules, 1912, copies of the Draft Financial Statement were formally presented to the Finance Committee on the 24th January 1919, and the committee was asked to advise on the distribution of the "unallotted" expenditure provisionally allowed by the Government of India in passing orders on the first edition of the budget. On the 26th of February 1919, all the Hon'ble Members of this Council were supplied with copies of the Amended Draft Financial Statement, together with copies of the second edition of the Civil Budget Estimates.

This memorandum is divided into two parts. Part I gives a brief but fairly comprehensive review, and Part II more detailed particulars, of the provincial transactions. As Part II gives detailed explanations of the estimates of revenue and expenditure, it is not necessary here to do more than refer to the more important figures.

2. The budget for the current year provided for an opening balance of Rs. 3,77,52,000, but the actual opening balance amounted to Rs. 3,67,64,000 or Rs. 9,88,000 less than the estimate. This was the result of a diminution in receipts and an increase in expenditure in 1917-18 as compared with the results anticipated at the time the estimate was made. The fall in the receipts was shared principally by Income-tax (Rs. 1,54,000), Forests (Rs. 1,23,000), Jails (Rs. 1,98,000) and Miscellaneous (Rs. 1,30,000). These decreases were, however, counterbalanced to some extent by larger receipts under Excise (Rs. 1,36,000), Interest (Rs. 85,000) and Transfers between Imperial and Provincial (Rs. 2,87,000). The expenditure was Rs. 9,03,000 in excess of the revised estimate, due mainly to an increase under Police (Rs. 3,29,000), Ports and Pilotage (Rs. 1,25,000) and Civil Works, Public Works Department (Rs. 6,46,000). The excesses were, however, to some extent counterbalanced by savings under Sanitation, and under Scientific and Miscellaneous Departments. The transactions of the year thus showed a surplus of Rs. 28,00,000 against the surplus of Rs. 37,88,000 anticipated in the revised estimate, thereby reducing the opening balance by Rs. 9,88,000.

3. Turning now to the general financial situation of the province in the current and coming financial years, the following is a summary of the position :—

	Budget estimate, 1918-19.	Revised estimate, 1918-19.	Budget estimate, 1919-20.
	Rs.	Rs.	Rs.
Opening balance ...	3,77,52,000	3,67,64,000	3,70,52,000

Expenditure ...	7,36,54,000	7,26,69,000	7,77,12,000
Closing balance ...	3,37,32,000	3,70,52,000	3,23,23,000

Revised Financial Statement.

The current year's budget provided for an opening balance of Rs. 3,77,52,000, adding which to the revenue estimate of Rs. 6,88,67,000, and allowing for a net transfer from imperial to provincial revenues of Rs. 7,67,000, a total of Rs. 10,73,86,000 is arrived at. Of this sum it was proposed to spend Rs. 7,36,54,000, leaving a closing balance of Rs. 3,37,32,000. The revised estimates show how far these anticipations have been realised in actual working. They are an attempt to forecast the probable receipts and expenditure of the year by adding to the actuals of the first nine months an estimate of the transactions of the remaining period. As the actuals of each successive month become available, the estimates are further revised, and the figures, therefore, are liable to modification up to the time the budget is finally passed. So far as can be seen at present, receipts this year will be Rs. 33,23,000 better than the budget figure. The table below compares the budget and revised estimates for the current year under the chief major heads :—

The main features of the figures here presented are the large increases under Stamps, Excise, Income-Tax, Forests, Ports and Pilotage, Miscellaneous and Minor Works and Navigation, an increase in transfers between Imperial and Provincial, and a set back in Registration and Law and Justice—

Revised Financial Statement.

Courts of Law. The largest increase occurs under Excise. The revenue under this head recovered in 1917-18 from the fall in the three successive years ending in 1916-17. Particularly was this so in Calcutta, where the adoption of measures for the better control of the trade, and in particular the prevention of dilution and the fixing of maximum prices, contributed to a large increase in the consumption of licit country spirit. It was anticipated that this recovery would be followed by an increase in the receipts in 1918-19, and the budget estimate was placed at Rs. 5 lakhs above the revised estimate of the previous year. The growth of this revenue, however, has much exceeded the forecast and a yield of Rs. 18 lakhs over the budget figure is now expected.

The framing of the estimates of Income-tax under present conditions is a matter of great difficulty, not only because of the introduction of different rates of taxation, but also in consequence of the uncertain and varied effects of the war on trade generally; the increase in profits in various trades is also very unequal, and accentuates the difficulty in arriving at accurate figures. The jute trade enjoyed prosperity in the early part of 1917, and from companies engaged in this trade a considerable increase in income-tax was foreseen. Companies of other kinds, however, showed greater variations in their working. In view of these facts the estimate for the current year was fixed at Rs 1,07,50,000, but the first ten months' actuals indicate that this forecast was an under-estimate, and this year's receipts are likely to be higher by Rs. 2,50,000 than the sanctioned figure.

The receipts under Stamps fell off in 1914-15, but there was a satisfactory recovery in the two following years. In the year 1917-18 there was again a set-back, but a recovery was anticipated this year, and the estimate for 1918-19 was placed at Rs. 5 lakhs higher than the revised estimate for 1917-18. Owing to improved prosperity in certain trades the actual revenue has exceeded anticipations and is now expected to be higher than the budget figure by Rs. 3½ lakhs.

The large increase under Forests is due partly to larger supplies of timber and sleepers to the Munitions Board for war purposes and partly to the payment this year, by the Munitions Board, of the cost of timber and sleepers supplied to them in the latter part of 1917-18.

The increase under Miscellaneous is due to a special receipt from the sale of the police hospital in Amherst Street. The large increase under Ports and Pilotage is the result of the temporary imposition of a surcharge on pilotage fees in order to counter-balance the increase in expenditure due to the introduction of the system of guaranteed remuneration to the officers of the Pilot Service, while that under Minor Works and Navigation is due mainly to the improved condition of the Madaripur Bil Canal and to a general increase in water-borne goods traffic owing to the shortage of railway wagons.

Transfers between Imperial and Provincial funds show a *plus* entry of Rs. 1,17,000. This difference as compared with the budget figure is mainly due to the additional assignments of Rs. 1,50,000 for the Bengal War Publicity Board, Rs. 47,000 for the Director of Civil Supplies, Bengal, Rs. 95,000 for anti-malarial schemes, Rs. 1,07,000 for improvements and repairs to "Belvedere", Rs. 1,80,000 for agricultural education and Rs. 1,75,000 in connection with the financial arrangements made for the payment of quinine purchased in Java. These additions were counter-balanced to some extent by larger contributions from Provincial funds as compensatory payment to Imperial revenues for the additional taxation accruing from income-tax. The total yield from additional taxation under VIII—Income-tax, which was originally estimated at Rs. 55,72,000, will, it is now anticipated, amount to Rs. 60,00,000. The fall in revenue under Registration is mainly due to adverse economic conditions, and under Law and Justice—Courts of Law, to smaller receipts from fines and process serving fees.

On the expenditure side, against the budget estimate of Rs. 7,36,54,000, the revised estimate stands at Rs. 7,26,69,000, showing a net anticipated saving of Rs. 9,85,000. The conditions induced by the war have rendered the observance of strict economy essential, and expenditure which can be deferred for the present without causing serious administrative inconvenience has been

The largest difference between the budget and revised estimate appears under the head "22—Education", and it will be observed that a saving of Rs. 18,01,000 is expected under this head during the current year. The savings are mainly due to the non-utilization in full of the grants made by the Government of India, but are also partly due to the transfer of money to the Public Works Department for educational works. When the budget was framed the Imperial grants were provided in full in the hope that schemes would be ready early this year, and that most of the provision would be utilized. The nine months' actuals, however, indicate that these expectations are not likely to be fulfilled. Under "20—Police" a saving of Rs. 7,40,000 is expected. This is mainly due to the transfer of about Rs. 6 lakhs to the Public Works Department budget for the construction of buildings, the balance

Revised Financial Statement.

being due to vacancies in the rank and file of the force, which under present conditions it has been difficult to fill.

The savings under Land Revenue are partly due to savings under salaries owing to the deputation of a number of officers to military duty, and partly to the non-utilization in full of the provision for outlay on improvement in Government estates.

Large savings also occur under "Sanitation" and "Miscellaneous", but they are more apparent than real. The savings under the former head are mainly due to the transfer of Rs. 1,90,000 to Irrigation for anti-malarial works. It has been the practice to include under the head "Miscellaneous", a small reserve of Rs. 2 lakhs to meet expenditure under any head of account for which money may be immediately necessary. As the Local Government is precluded from drawing on its balances, it is essential that there should be some money in reserve, for though lapses do generally occur under many heads of expenditure, these lapses seldom become available until late in the year, and in the meantime some provision must be at hand to meet urgent and unforeseen demands. All appropriations out of this reserve, as well as all sanctions accorded by His Excellency the Governor from his petty grants allotment and the adjustments of expenditure on grain compensation allowance, appear under the appropriate major heads; this accounts mainly for the large savings under the head Miscellaneous. The largest excess in expenditure occurs under "Jails", and is mainly due to an increase in the number of prisoners, and to the abnormal rise in the price of cotton, woollen yarns, cloth, blankets, medicines and raw materials for manufacturing purposes.

The increased expenditure under "Law and Justice—Courts of Law", is mainly due to the appointment in several districts of additional District Judges, Subordinate Judges and Munsifs to clear up arrears of judicial work, and to the entertainment of establishment for them.

The difference between the budget and revised estimates for the current year under "26B—Scientific and Miscellaneous Departments" is the result of a large outlay in the purchase of quinine from Java to replace the stocks which have been largely drawn on for military requirements during the past four years.

The large increase under "45—Civil Works, Public Works Department" is chiefly due to the augmentation of the grant under this head by transfers of funds for Educational, Police, Jail and other works, and is, therefore, more apparent than real.

1. In consequence of these changes in the figures of receipts and expenditure, the estimated closing balance of the current year, which is the starting point of the budget for 1919-20, has been taken at Rs. 3,70,52,000, or Rs. 33,20,000 better than the budget. Of the closing balance Rs. 20 lakhs represents the prescribed minimum closing balance of the province, which must be kept intact, while Rs. 2,34,12,000 represents the unspent balances of Imperial recurring and non-recurring grants, or grants which are ear-marked for specific purposes, as detailed below, and which must be spent on those objects. The free Provincial balance, therefore, amounts to Rs. 1,16,40,000 which may be spent in future years :—

Beyond the explanations given in Part II of this memorandum few of the figures call for remarks. It is difficult at a time when everything is largely unsettled by the cessation of the war, and when the immediate future is to some extent uncertain, to adjust the revenues with reference to those of the past four years or to pre-war times. It is anticipated, however, that the improvement in the Stamp revenue will be maintained, and that the administration of the Excise Department will result in a still further rise in the Excise receipts. Income-tax receipts are expected, however, to be less than those of the present year. The profits of the jute industry are expected to be better, while there has been increased prosperity in certain mercantile trades. On the other hand, the cotton piece-goods trade has suffered, and there will be loss in revenue on account of the exemption from assessment of all incomes below Rs. 2,000 per annum, and also on account of the rebate of income-tax that shall have to be given in respect of the amounts paid as excess profits duty. Taking it all round, a decrease of Rs. 21½ lakhs as compared with the revised estimate for the current year is expected. With the cessation of the war the receipts from Jail manufactures and from the sales of quinine are likely to diminish also. In the Transfer Budget the only items calling for mention are the assignment in favour of the Government of Bihar and Orissa for the Ranchi lunatic

asylum, and the Imperial assignments to this Government for expenditure on the Director of Civil Supplies, Bengal, and for the improvement of the port of Chittagong, and the assignment to compensate this Government on account of the loss in income-tax revenue necessitated by the changes in taxation.

For next year a total expenditure of Rs. 7,77,12,000 has been provided, which is higher by Rs. 40,58,000 and Rs. 50,43,000 than the current year's budget and revised estimates, respectively. Details by chief major heads are given in the following table :—

In framing the estimates of expenditure full weight has been given to the spending power of the various departments, with particular reference to their ability to utilize the lump grants made to them for particular purposes, and while making full provision for these grants, large sums have been deducted as probable savings with reference to the expenditure of recent years. A large provision of Rs. 13,84,000, or Rs. 4,34,000 over and above the recurring Imperial assignment, has been made, in accordance with the policy initiated last year, for schemes of sanitary improvement and anti-malarial works, in addition to provision for an enquiry into the hookworm disease, for kala-azar research, for an investigation into river pollution and for other minor improvements. In the Irrigation budget too increased provision has been made for drainage schemes in connection with the malaria problem. The schemes for mitigating the effects of the floods of the rivers in the Burdwan Division and for creating a spill from the Bidyadhari river, for the partial canalization of Tolly's Nala, for the reconstruction of the Kidderpore Bridge and for the construction of buildings at Khulna required in connection with the establishment of a new permanent waterways division, have necessitated further large provision in the coming year's Irrigation budget. Agricultural development has also received marked attention. In continuance of the scheme for the distribution of improved paddy and jute seed it is proposed to establish two new district agricultural farms, while in order to complete the cadre

Revised Financial Statement.

of district agricultural officers, which is necessary in connection with this scheme, provision has been made for nine additional appointments of this class. It is also in contemplation to strengthen the establishment for the control and audit of Co-operative Societies, which are rapidly rising in numbers. Further, with the view of giving full effect to a resolution which was adopted by this Council in the course of the budget debate last year in regard to the development of Co-operative Societies for industrial purposes, a sum of Rs. 38,000 has been so allotted. These are the more important items of expenditure on Sanitation and Agriculture, and they follow on a further development of the policy which has been pursued during the current year. Turning to other important items of expenditure, there is a provision of Rs. 1,25,000 as a first instalment of the expenditure to be incurred on Circle officers appointed in anticipation of the hoped for development of village self-government. This and larger provision under Survey and Settlement operations in the Darjeeling, Terai and Kalimpong Government estates, and the provision of Rs. 25,000 for settlement of waste lands in the 24-Parganas, Sundarbans, under the raiyatwari system, account for the increase under the Land Revenue head. Under Registration a lump provision of Rs. 18,000 has been put down for a partial revision of the pay of the clerks and muharrirs of the sub-registry offices in the Presidency, a long delayed reform which has hitherto been barred by financial stringency. A provision of Rs. 11,000 has also been made towards the revision of the cadre of district sub-registrars, which has been sanctioned by the Secretary of State, and the introduction, as a tentative measure, in a few selected districts, of a system of district registrars, on the lines followed in Madras, by which district officers will be relieved of all legal and routine duties connected with registration. Another item which has often been the subject of attention in this Council is that of the pay of munsifs. The Governor in Council has recently published a Resolution on this subject in connection with the report of the Public Service Commission, and it seems probable that during the coming year effect will be given, at any rate, in part, to the revision of the pay of these officers. A provision of Rs. 1,25,000 has been made on this account. Under the Scientific and Miscellaneous head, funds have been set apart for the Director of Industries, the Director of Civil Supplies and their staff, while a sum of Rs. 78,400 has been allotted for the completion of the research tannery, together with its establishment, in addition to a lump provision of Rs. 2,50,000 for the development of industries, with a view to give immediate effect, as far as possible, to the recommendations of the Indian Industrial Commission. The estimate of Police expenditure is some Rs. 1½ lakh less than the budget provision of the current year. The reduction is due mainly to two causes. In the first place no allotment has been made for capital expenditure in connection with the reorganization of the subordinate police. Expenditure on this account has been shown in recent years under the head Police so long as the assignment for the purpose made by the Government of India remained unexhausted. That assignment having now been expended, further provision, will in future, be made under the Civil Works head. Secondly, large probable savings have been deducted in the light of the expenditure incurred by the department in recent years. While provision has been made for normal development, and for the furtherance of the schemes for raising the pay of head-constables and the proportion of the ordinary reserve, the only new schemes of importance are (1) revision of the rates of pay of Imperial Police officers recently sanctioned by the Secretary of State, (2) the reorganisation and extension of the traffic police, Calcutta—a measure necessitated by the growth of the city and the general extension of motor traffic, (3) additional staff in connection with the Public Vehicles Department—a consequence of the transfer from the Corporation of Calcutta to the Calcutta police of the control of hackney carriages, etc. (this it may be noted will be largely met by receipts), (4) the raising of the strength of the Dacca military police battalion by the addition of one company, and (5) the improvement of pay and prospects of European inspectors and sergeants of the Calcutta police in order to facilitate recruitment to make up the full complement. The large increase under Ports and Pilotage is mainly due to

Revised Financial Statement.

the necessity for provision to meet the additional expenditure consequent on the system of guaranteed remuneration to pilots, and to meet charges for the reorganization of the various shipping offices, provision for freight charges and for the purchase of marine stores. The provision for Education also shows a decrease of about Rs. 5 lakhs as compared with the current year. This reduction is more apparent than real, and is due to large deductions made on account of probable savings The department has been unable to spend in full the annual grants made to them by the Government of India, and in the case of several schemes it does not appear probable that sanction will be accorded, and expenditure incurred, during the coming year. A provision of Rs. 15 lakhs has been made, in accordance with the instructions of the Government of India for expenditure on schemes arising out of the report of the Calcutta University Commission, but as it is not anticipated that such expenditure will be of any considerable amount in 1919-20, a sum of Rs. 12 lakhs has been set off as probable savings against this item. The allotment for grant-in-aid has been increased by Rs. 1 lakh to meet a capital grant to the Calcutta Girls' High School and a provision of Rs. 1,55,000 has been made for the completion of the scheme for the improvement of the sewerage and drainage of the Sibpur Civil Engineering College. Other educational allotments of importance are those of Rs. 30,000 for the furtherance of the scheme of madrassa reforms, and Rs. 24,000 for the appointment of additional inspectresses of schools. Details as to the distribution of the Imperial grant of Rs. 5,50,000 for the development of primary education, are given in paragraph 28 in Part II of this memorandum. The increase under Medical is mainly due to a provision of Rs. 1,50,000 for raising the emoluments of the officers of the Indian Medical Service. Owing to the unfavourable agricultural conditions prevailing in certain parts of the Presidency a provision of Rs. 2 lakhs has been made under "33—Famine Relief" for expenditure on relief measures. Of this sum only Rs. 50,000 is debitable to Provincial revenues and the balance to Imperial revenues. In the Civil Works budget, there is provision to the extent of Rs. 34.20,000 for new works including minor works, details of which are given in Part II of this memorandum, while the usual necessary allotment has been made for works in progress, repairs and establishment. The allotment for works in progress and repairs is considerably higher than that of recent years, as it includes provision for the works in progress in connection with the partition of the districts of Midnapore and Mymensingh and the police reorganization schemes, and allows for the expenditure necessary to effect repairs neglected while the financial situation was adverse.

Large reductions appear under Jails and Scientific and other Miscellaneous Departments. The smaller provision under the former is due to a reduction in the estimate for the purchase of raw material, and under the latter mainly to the absence of any provision for the purchase of quinine from private firms.

The closing balance has been placed at Rs. 3,23,23,000. Of this Rs. 20 lakhs represents the prescribed minimum closing balance of the Province, which must be kept intact, while Rs. 2,21,27,000, represents the unspent balances of Imperial recurring and non-recurring grants, or sums which are ear-marked for specific purposes as detailed below, and which must be spent on those objects. The free Provincial balance therefore amounts to Rs. 81,,96,000 which may be spent in future years :—

REVENUE.

1. The Provincial share of this head of revenue is one-half, except for receipts from Government estates and from recovery of the cost of maintenance of boundary pillars, which are wholly provincial.

The budget estimate for the current year was fixed at Rs. 1,65,48,000, but on the basis of the latest actuals the revised estimate for the current year has been placed at Rs. 1,66,21,000. The increase of Rs. 73,000 in the revised estimate as compared with the sanctioned estimate, is mainly under the head—"Ordinary revenue—fixed collections" due to better collection of arrears in the earlier part of the year and under "Recovery of the cost of maintenance of boundary pillars". The sanctioned estimate under the latter

Revised Financial Statement.

head is only Rs. 1,000, but the revised estimate has been fixed at Rs. 21,000 on the basis of the latest actuals.

On the assumption that agricultural conditions next year will, on the whole, be normal, the estimate for the year 1919-20 has been fixed at Rs. 1,66,21,000 which is the same as the revised estimate for the current year.

EXPENDITURE.

2. The total provincial expenditure for 1919-20 is estimated at Rs. 38,14,000 against the revised estimate of Rs. 35,18,000 for the current year and the sanctioned budget estimate of Rs. 36,28,000 for 1918-19. The large saving in the revised estimate is mainly under the head "Management of Government estates," consequent on the non-utilization of the full provision for outlay on improvements in Government estates. It is also due to the discontinuance of the payment of exchange compensation allowance and savings under salaries owing to the deputation of additional officers to military duty.

As regards the budget estimates for 1919-20 larger provisions under (1) survey and settlement, and (2) charges of district administration account mainly for the increase of Rs. 1,86,000 as compared with the sanctioned estimate for the current year. The large increase under (1) is mainly due to a lump provision of Rs. 57,000 for the initiation of settlement operations in the Darjeeling Terai (Rs. 32,000) and Kalimpong Government estates (Rs. 25,000), and to increased provision for minor settlements. The main reason for the increase under (2) is the inclusion of a provision of Rs. 1,25,000 for the appointment of circle officers against a provision of Rs. 25,000 in the current year's budget for the same purpose. The war bonus recently sanctioned for menials also contributes towards the increase. Under management of Government estates, the estimate includes a lump provision of Rs. 25,000 for the settlement of waste lands in the Sundorbans, of the 24-Parganas, under the raiyatwari system, while the small increase under land records is due to larger provision for the revision of land registration registers and to the increase in the pay of menials recently sanctioned.

REVENUE.

3. The receipts represent the share, credited to this major head, of the sale-proceeds of the unified postal and revenue stamps, the sale-proceeds of bills of exchange and other general stamps, and of stamped papers for the copies of documents, court-fee stamps and plain papers, the duty on embossing receipt, cheque and other stamps, the duty levied under the Indian Stamp Act, 1899, on documents brought for adjudication and on documents unstamped or insufficiently stamped, and fines and penalties levied by Judicial and Revenue officers under the Stamp Act on insufficiently stamped instruments. The revenue from the unified postal and revenue stamps is credited to the imperial head "Post Office", but a sum of Rs. 4,99,000 is credited under the sub-head "Sale of general stamps", as the Civil Department share of the sale-proceeds of these stamps.

The actuals of 1917-18 amounted to Rs. 2,32,12,000, but the collections up to the end of December 1918 show an increase of Rs. 9,30.000 as compared with the corresponding period of the last year. The increase is mainly under the head "Sale of general stamps", and is partly due to improved prosperity in certain trades in the earlier part of the year in Calcutta, and partly to the execution of a greater number of documents in the mufassil on account of the high prices of food grains in the latter part of the year. Owing to adverse economic conditions, however, there has been a falling off in litigation. The fall in revenue under the head "Sale of court-fee stamps" would have been larger but for the payment of large administration duties in respect of certain estates as well as a large number of applications for administration grants in the High Court. With uncertainty as to trade, pending the final settlement of war and peace problems, no great increase in the revenue from "Stamps" can safely be anticipated during the next few months of this year, and the revised estimate for 1918-19 has been placed at Rs. 2,48,00,000.

With the prospect of new industrial development and a revival of trade next year an improvement in the stamp revenue may be confidently hoped for, and allowing for an increase of 7 lakhs over the revised the estimate for 1919-20 has been fixed at Rs. 2.55,00,000. The provincial share is one-half, and amounts to Rs. 1,24,00,000 for 1918-19, and Rs. 1,27,50,000 for 1919-20.

EXPENDITURE.

4. The estimate for 1918-19 was Rs. 7,37,000, but this has been reduced to Rs. 6,31,000 in the revised estimate owing partly to a fall in the consumption of plain paper, resulting in smaller charges under "Stamps and plain paper supplied from Central Stores", and partly to less expenditure under "Discount on sale of other general stamps," and "Charges on sale of court-fee stamps". The saving under the last named head is due to a falling off in litigation resulting in a fall in revenue, as already explained. The small saving under "Superintendence" is mainly under

Revised Financial Statement.

the head "Establishment" and is due to the Superintendent of the Stamp office having been transferred to the Income-tax office, no one being appointed to fill his post.

The budget estimate for 1919-20 has been fixed at Rs. 6,83,000, and includes larger provision as compared with the revised estimate for discount on the sale of stamps and a larger issue of stamp papers. The charges of this department are divided equally between imperial and provincial revenues, and the provincial shares amount to Rs. 3,16,000 and Rs. 3,42,000, respectively.

REVENUE.

5. The actuals of 1917-18 amounted to Rs. 1,56,36,000, and those in the first nine months of the current year show an increase of Rs. 14,84,000 as compared with the actuals of the corresponding period of the preceding year; the revised estimate for the current year has therefore been fixed at Rs. 1,78,00,000. The rise in revenue is mainly due to an increase in the consumption of country spirit in Calcutta and the adjoining districts of Hooghly, Howrah and the 24-Parganas; the total consumption for the first nine months of the year in this part of the Presidency has risen from 263,582 proof gallons in 1917-18 to 327,585 proof gallons in 1918-19. This increase is

Revised Financial Statement.

the result of the extension to the industrial areas round Calcutta, with effect from 1st April 1918, of the restrictive measures of fixed prices and the monthly adjustment of license fees which obtains in Calcutta. There has also been an increase in revenue from the duty on Indian-made foreign liquor and a rise in the opium receipts due to the higher treasury price of opium.

With the cessation of hostilities the probabilities are that there will be a further increase in the consumption of excisable articles, bringing in larger receipts in license fees and duty. The budget estimate for 1919-20 has therefore been fixed at Rs. 1,87,00,000.

EXPENDITURE.

6. The total expenditure for 1918-19 was originally estimated at Rs. 10,85,000, but in view of the actuals of the first nine months, the revised estimate for the current year has been placed at Rs. 10,47,000, savings being anticipated mainly in salaries under "Superintendence," and "Presidency Establishment" and in the estimates for establishment and contingencies under "Distilleries."

The estimate for the coming year has been framed at Rs. 11,37,000. Besides allowing a larger provision of Rs. 29,000 for travelling allowance of officers and establishment under "District Executive Establishment" based on recent actuals, the estimate includes Rs. 2,160 for the appointment of a prosecutor in Excise and Salt cases, Calcutta, Rs. 2,520 for the entertainment of additional establishment in the areas in which the tree tax system has been introduced, and Rs. 2,880 for the employment of female Excise preventive officers to detect smuggling of excisable articles by women employed by smugglers.

REVENUE.

7. Since the surrender of the Public Works Cess to District Boards this head of revenue is now practically confined to the general rates which are levied from Wards estates so as to cover approximately the cost of management (including supervision charges and contributions for pension and leave allowances) of the staff employed. The variations in the receipts from year to year are due to old estates being released from management by the Court of Wards and new ones being taken up. The increase in the revised estimate for the current year is due to the assumption of charge of certain large estates in the districts of Dinajpur, Malda and Mymensingh. The receipts would have been larger but for the release of the share of Babu N. G. Biswas in the Janbazar Estate No. 1 and the transfer of the management of the Balasore portion of Babu B. L. Mukerjee's trust estate to the Government of Bihar and Orissa.

8. Considering that several companies, in particular those connected with the jute trade, earned profits far beyond expectation in the early part of 1917, while others, which had up till then been working at a loss, were able to pay dividends; the estimate for the year 1918-19 was fixed at Rs. 2,15,00,000. against the revised estimate of Rs. 2,11,00,000 for 1917-18. The nine months' actuals, however, show that the actual receipts are likely to exceed the estimate for 1918-19 by Rs. 5 lakhs. The profits of the jute industry have been still better this year, while there has been increased prosperity in certain mercantile trades, and taking into consideration as against this, the state of the cotton piece-goods trade, the exemption of all incomes below Rs. 2,000 per annum from assessment to income-tax with effect from the 1st April next, and the rebate that shall have to be given for the purpose of the income-tax, in respect of the amounts paid as excess profits duty, the budget estimate for the next year has been placed at Rs. 88,75,000. As owing to the changes in taxation there will be a loss in the Provincial share of the income-tax otherwise leviable on income below Rs. 2,000 per annum and on that portion of the higher income which will be paid to Imperial Government as excess profits duty, an assignment of the amount so lost will be made by the Government of India through the "Transfer Budget".

With effect from the 1st of April 1916 the Government of India imposed additional taxation, and that part of the increase which depends on the increased rates is made over to the Government of India by means of an assignment under the transfer head in accordance with their decision to appropriate the whole of the extra receipts from the new rates to the needs of the Imperial Exchequer. Excluding, therefore, the full increment due to new taxation, the revenue from income-tax is shared equally between Imperial and Provincial. No part of the super-tax on incomes imposed under Act VIII of 1917 and the duty on excess profits proposed to be imposed from 1st April next are included under this divided head, as the proceeds are wholly Imperial.

EXPENDITURE.

9. The amount provided for 1919-20 is higher by Rs. 34,000 than this year's allotment and higher by Rs. 26,000 than the revised estimate. The

increase in expenditure is due partly to an enhancement in the pay of the Deputy Collector of Income-tax, but mainly to the revision of the strength and pay of the assessors employed in Calcutta, to the revision of the clerical staff of the Calcutta Income-tax office, and to the appointment of additional assessors and establishment in the Rajshahi Division, necessitated by the large increase in work consequent on the introduction of the new Income-tax Act, VII of 1918. The Provincial share is one-half, and amounts to Rs. 93,000 and Rs. 1,06,000, respectively.

10. Assuming that the demand of the Munitions Board for sleepers and timber for war purposes would be larger this year, the estimate for 1918-19 was fixed at Rs. 16,00,000 against the revised estimate of Rs. 15,00,000 for 1917-18. The demands of the Munitions Board for timber and of the Railway companies for sleepers have, however, far exceeded expectations, and a large increase in revenue under the head "Timber and other produce removed from the forests by Government agency" is therefore expected. The increase under this head is also due to the adjustment this year of the cost of timber and sleepers supplied to the Munitions Board at the end of last year. Considering this and the fact that there has also been an increase in the demand for timber by consumers and purchasers, the revised estimate for the current year has been fixed at Rs. 18,00,000.

Owing to the cessation of hostilities the demand for timber and sleepers for military purposes, will not continue next year, but following the end of the war, it is expected that there will be larger demands for all kinds of raw material from consumers and purchasers, and on this assumption the budget estimate for the next year has been placed at Rs. 16,30,000.

EXPENDITURE.

11. The sanctioned budget for the current year is Rs. 7,50,000 and the revised estimate has been taken at Rs. 8,30,000 to provide for larger

expenditure to meet the demand of the Munitions Board for increased supply of timber and sleepers. This increased outlay, however, it may be pointed out, will be accompanied by increased revenue during the year.

The budget estimate for the ensuing year has been passed for Rs. 7,66,000 which is higher by Rs. 16,000 than the sanctioned estimate of 1918-19, and lower by Rs. 64,000 than the revised estimate for the current year. Under "B—Establishment", besides provision according to the sanctioned scale, with the usual deductions for probable savings, a provision of Rs. 6,000 has been made for the appointment of two extra Assistant Conservators of Forests. The provision for timber operations by Government agency has been reduced, as the amount of business in timber contracts is not likely to equal that done in the current year. Provision has, however, been made for the feed and keep of a larger number of elephants and to meet the increased cost of maintenance of steam launches and flats. The next year's estimate also includes a lump provision of Rs. 24,000 for the purchase of barbed wire and sheep netting for the Buxa and Jalpaiguri divisions, and larger outlay on communications and buildings.

REVENUE.

12. Owing to adverse economic conditions the actual collections in the first nine months of 1918-19 show a falling off of Rs 1,25,000 as compared with those of the corresponding period of the preceding year, and the revised estimate has, therefore, been placed at Rs. 19,00,000 against the budget estimate of Rs. 19,60,000. As no increase in revenue is expected next year, the estimate for 1919-20 has been fixed also at Rs. 19,00,000.

EXPENDITURE.

13. The minor head "Superintendence" comprises charges on account of the Inspector-General of Registration, his office establishment and contingencies, while "District Charges" represent the salary of district sub-registrars and sub-registrars and their establishments and contingent charges. The decrease in the revised estimate for 1918-19 under the head "District sub-registrars and sub-registrars", as compared with the sanctioned estimate

for the current year is mainly due to savings under "Salaries" and "Establishment". The savings would have been larger but for the increased rate of pay recently sanctioned for menials.

The budget estimate for 1919-20 is higher by Rs. 64,000 than the sanctioned estimate for 1918-19. The increase is mainly due to a lump provision of Rs. 48,000 for a partial revision of the pay of the ministerial establishment of district headquarters and rural registration offices, and to larger provision for the opening of new sub-registry offices. A provision of Rs. 11,000 has also been made for the revision of the cadre of district sub-registrars which has received the sanction of the Secretary of State, and the introduction, as a tentative measure, of a system of district registrars on the lines followed in Madras.

EXPENDITURE.

14. The amounts shown above represents the debits to Provincial funds of the expenditure under refunds in proportion to the Provincial shares of the revenues under the respective heads in connection with which refunds are made. The charges under the head are of a fluctuating character and are not subject to any departmental control. Owing to the new procedure prescribed in the new Indian Income-tax Act, VII of 1918, in accordance with which income-tax is levied, in the first instance, at one anna in the rupee on the total profits of companies and owners of securities, refunds being subsequently allowed to individual share-holders or stock-holders, the amount paid in income-tax refunds has nearly doubled during the current year. The budget estimate for 1919-20 makes sufficient allowance for this.

EXPENDITURE.

15. The minor heads under this major head are treated as wholly Imperial, wholly Provincial, or divided between Imperial and Provincial, according to the classification of the corresponding heads of revenue, but purely Imperial minor heads which are not under the financial control of the Government of Bengal are not shown in the above statement. The charges consist chiefly of pensions paid to landholders as compensation for lands resumed by Government, malikana allowances and other special compensations. Excise compensations represent mainly the compensation paid by Government in lieu of abkari rights which have been resumed in Native States. The main items under this head are an annual payment to the Bhutan Darbar of a sum of Rs. 97,340 as compensation for the removal of liquor shops from the borders of the State, and of Rs. 4,000 to the Cooch Behar State for the transfer to Government of the excise administration of certain isolated areas belonging to the State.

REVENUE.

16. The revenue represents mainly the interest received by the local Government on advances and loans made from the Provincial advance and loan account. This account, the capital transactions of which are outside the budget figures, provides for the grant of loans to agriculturists, local bodies, etc. The monies required for the loans are furnished by the Government of India. The local Government pay interest thereon and bear losses due to bad debts. In order to cover risks and cost of management, the local Government charge a higher rate of interest than that which they have to pay to the Imperial Government. The revenue under this head also includes interest on Government securities belonging to institutions taken over by Government along with the endowments for the upkeep of such institutions, and also interest on advances to ex-students of weaving institutions. In spite of the enhancements, which are noticed below, of the rates of interest charged by the Government of India to this Government, no change has at present been made in the rate charged by this Government for loans to agriculturists. The rate of interest charged on loans to local bodies made after the enhanced rates came into force has, however, been raised to 6 per cent.

Revised Financial Statement.

The estimate of loans, as submitted to the Government of India, provides for a return in the way of interest during 1919-20 of Rs. 5,33,000 against Rs. 5,35,000, the revised estimate for 1918-19, as shown below :—

	Revised estimate, 1918-19.	Budget estimate, 1919-20.

Total ...	5,35,000	5,33,000

The variations between the revised estimate for 1918-19 and the budget estimate for the ensuing year are small and call for no remarks.

EXPENDITURE.

17. The interest which is paid to the Government of India by the local Government, on sums placed at the disposal of the latter for advances and loans to cultivators, co-operative societies, notabilities, municipalities (excluding Presidency corporations), district boards and ex-students of the Weaving Institute and for advances on drainage and embankment schemes, is shown as expenditure under this head, the interest being calculated on the mean between the outstanding balance of the Provincial advance and loan account at the beginning and at the end of each year. The rate of interest charged to the local Government by the Government of India was until recently, 3½ per cent. per annum, but with effect from the 1st October 1916 this rate was raised to 4½ per cent. in respect of loans sanctioned by them on or after that date, and again to 5½ per cent. in respect of loans sanctioned on or after the 1st April 1917, while loans sanctioned prior to those dates are charged at the old rate of 3½ per cent.

Revised Financial Statement.

EXPENDITURE.

18. The estimate for 1918-19 was fixed at Rs. 25,88,000, but considering the actuals of the first nine months of the current year, the revised estimate has been fixed at Rs. 26,11,000. The excesses occur mainly under the heads "Civil Secretariat" and "Commissioners". The increase under the former head is partly under the head "Salaries" due to the appointment of special officers to carry out special work which could not be foreseen when the budget was framed, and partly under establishment and contingencies consequent on the large increase in work caused by the war. The increase under the latter head is mainly under "Salaries and Establishment". The excesses would have been larger but for savings under "Staff and household of the Governor" owing to the non-utilization in full of the allotments for band and bodyguard establishments.

Against the actuals of Rs. 25,84,000 in 1917-18 and the sanctioned estimate of Rs. 25,88,000 for the current year, the budget estimate for next year has been fixed at Rs. 26,38,000. The increase is mainly due to a provision of Rs. 12,000 for the revision of the establishment of the Outside Audit Department of the Accountant-General's office, for which this Government will be fully reimbursed by the Government of India by an assignment through the transfer head, and to a provision of Rs. 35,000 for the construction of a new metre-gauge bogie saloon for the use of His Excellency the Governor. The war bonus recently sanctioned for menials also contributes towards the increase. Otherwise the usual provision has been made for officers on special duty and for temporary establishment, and the next year's estimates generally follow the sanctioned estimates for the current year.

Revised Financial Statement.

REVENUE.

19. The principal source of revenue is "General fees, fines and forfeitures". The revenue under this head is, however, liable to fluctuation as it depends largely on the amount of judicial fines inflicted. The total collections under the major head in 1917-18 amounted to Rs. 11,22,000, and taking into account the fees and commissions that would be realized by the Administrator-General and Official Trustee, the estimate for this year was fixed at Rs. 12,23,000. The actuals, however, indicate that the sanctioned estimate is not likely to be realized and the revised estimate for 1918-19, has therefore been passed for Rs. 10,67,000. The fall occurs under all the minor heads, but is most marked under the head "court-fee realized in cash" and under "General fees, fines and forfeitures".

Following the revised estimate and allowing for a small expansion of revenue, the estimate for 1919-20 has been placed at Rs. 11,88,000.

EXPENDITURE.

20. *High Court.*—Under this head are shown the salaries of the Judges and officers and establishments of the High Court, and the connected contingent expenditure. The saving in the revised estimate is mainly under "Salaries" owing to the two additional Judges, for whom a provision of Rs. 96,000 exists, not having been appointed; this provision has been appropriated to meet the cost of appointments of additional District and Sessions Judges in several districts. The ensuing year's estimates generally follow the revised estimates of the current year and include the following :—

	Rs.
Provision for an additional Judge at Rs. 4,000 per mensem for four months	16,000
Additional establishment for the reorganization of the record-room on the Appellate side	24,000

Law officers.—This minor head comprises the charges on account of the Advocate-General, the Legal Remembrancer, the Government Solicitor, the Standing Counsel, the Public Prosecutor and Government Pleaders in the High Court and in the mufasal. It also includes the fees paid by Government to pleaders in civil and criminal cases and the excess in the revised estimate is mainly under this head. The expenditure being dependent on the number and importance of the cases entrusted to pleaders, the charge is of a fluctuating nature. The decrease in the estimate for 1919-20 as compared with the estimates for 1918-19, is mainly due to less provision under "Fees to pleaders".

Civil and Sessions Courts.—To this minor head are debited the charges in connection with the Courts of District and Sessions Judges, Subordinate Judges and Munsifs and process-serving and copyist establishments.

The steady increase in Judicial work necessitated, in several districts, the appointment of additional District Judges, Subordinate Judges and Munsifs to relieve the congestion of work and there is consequently an increase in the revised estimate for the current year. The budget estimate for 1919-20 contains an enhanced provision of Rs. 1,35,000 under "Process-serving establishment", to meet the cost of the war bonus recently sanctioned for menials, and a lump provision of Rs. 1,25,000 for the improvement of the pay of the officers of the Provincial Judicial Service. It also includes a few other schemes involving small expenditure, details of which are given in the schedule attached as an annexure to this memorandum.

Courts of Small Causes.—The salaries of the Judges and officers of the Presidency and Mufassal courts, their establishment and connected contingent expenditure, are shown under this minor head. The only item of importance in the coming year's estimate is the provision of Rs. 14,724 for the appointment of a 7th Judge in the Calcutta Small Cause Court and his establishment.

Revised Financial Statement.

Criminal Courts.—Under this minor head the variations in the figures follow the corresponding alterations under the head "3—Land Revenue—Charges of district administration", a portion of which is transferred to this head. Larger provision under "Supplies and Services", and a lump provision of Rs. 1,25,000 for the appointment of circle officers, are the chief causes that have contributed to the increase in the budget estimate for 1919-20.

REVENUE.

21. The main source of receipts under the head "Law and Justice—Jails", is the sale-proceeds of articles manufactured in jails and supplied to the public and public departments. The revenue also includes the sale-proceeds of quinine packets. The fall in the revised estimate is mainly due to the Commissariat Department having ceased to indent for their supply of gunny cloth in the jails of this Presidency. The receipts during the last three years were swelled by the sale-proceeds of articles of jail manufacture to the Military Department, but as no such revenue is expected next year owing to the cessation of hostilities the budget estimate for 1919-20 has been fixed at Rs. 10,01,000.

EXPENDITURE.

22. Under this head are shown (*a*) the salary of the Inspector-General of Prisons and the cost of his office establishment and contingencies, (*b*) the expenditure connected with the staff employed in the supervision of jails, (*c*) the charges for the maintenance of convicts, and (*d*) the cost of the purchase of raw materials for jail manufactures. The items (*c*) and (*d*) are fluctuating being dependent on the strength of the jail population and on demands for jail manufactures. Variations in the price of food-grains, and outbreaks of epidemic diseases in jails, also affect the charges for maintenance of prisoners.

Jails.—Owing to the rise in the price of food-grains, cotton clothing blankets, and medicines and other hospital equipment, which has been accompanied by an increase in the number of prisoners, the revised estimate for 1918-19 has been placed at Rs. 21,07,000 on the basis of recent actuals. In

Revised Financial Statement.

the hope that economic conditions will be better next year, and that the prices of clothing, blankets, and medicine may gradually come down more nearly to the rates which prevailed in pre-war times, the ensuing year's estimate has been fixed at Rs. 20,43,000. The only noticeable item in the estimate for 1919-20 is the provision for the opening of a new sub-jail at Sherpur in the Mymensingh district.

Jail manufactures.—The increase in the revised estimate for the current year as compared with the sanctioned estimate for 1918-19, is mainly due to the rise in the price of cotton, woollen yarn and other raw materials used by the jails. The enhancement in the cost of European stores and freight charges due to the war and larger demands for police uniforms also contribute to some extent to the increase. Owing to the cessation of hostilities it is hoped that there will be some diminution in the price of raw materials, and on this assumption the budget estimate for 1919-20 has been fixed at Rs. 9,60,000. The next year's estimate includes a provision of Rs. 2,400 for the establishment of a central depôt, in the Juvenile Jail, for the distribution of quinine.

REVENUE.

23. The receipts under this head consist mainly of (*a*) fees and fines levied under the Cattle Trespass Act, (*b*) the recovery of the cost of Police supplied to public departments, private companies and persons and (*c*) fees levied under the Motor Cycles Act. The increase in the revised estimate for the current year as compared with the sanctioned estimate for 1918-19 is mainly due to the credit of a sum of Rs. 57,000 under this head, being the amount realized from the Military Department in payment for the steam launches commandeered by them for military purposes. With the passing of the Calcutta Hackney Carriage Act the control of vehicular traffic in Calcutta will now devolve on the Presidency Police. The budget estimate for 1919-20, therefore, includes an income of Rs. 30,000 from fees and fines leviable under the Act.

EXPENDITURE.

24. *Presidency Police.*—The sanctioned estimate for 1918-19 under this head was Rs. 22,13,000, but in view of the actuals of the first nine months, this has been reduced to Rs. 21,53,000 in the revised estimate for the current year. The decrease is mainly due to savings under "Police force" and to the non-utilization in full of the provision for river patrol arrangement, owing to the steam launch "John Lambert", which was being constructed in the dockyard for the purpose, having been commandeered by the military authorities for war purposes.

The budget estimate for the coming year which has been fixed at Rs. 22,77,000 includes the following noticeable items :—

	Rs.
For the improvement of pay and prospects of European inspectors and sergeants	50,000
Reorganization and extension of the Indian traffic police	24,550
For the creation of three posts of Assistant Commissioners (Provincial) in lieu of three posts of Superintendents (Provincial) and the substitution of an Imperial Assistant Commissionership for one Provincial Assistant Commissionership	3,220
Additional police staff in connection with the loading and unloading of petroleum from vessels at Budge-Budge	1,401
Additional staff in connection with the Public Vehicles Department	40,000
Purchase of mosquito nets for head-constables and constables	5,000
Construction of a launch to replace the launch "John Lambert"	40,000

Revised Financial Statement.

25. *District Executive Force.*—The salaries of District Superintendents, Assistant and Deputy Superintendents and of their establishments, and the cost of the District Police Force, and the Provincial police training schools at Sardah, Dacca and Berhampur are included under this head. The expenditure under this minor head represents nearly 69 per cent. of the expenditure under the whole major head. The decrease noticeable in the revised estimate is mainly due to the transfer of Rs. 5,75,000 to the Public Works Department for new works and works in progress in connection with the reorganization of the subordinate police in Eastern Bengal, but is also due to savings under the police force. A provision of Rs. 1 30,759 was made in the current year's budget in connection with the scheme for raising the proportion of the ordinary reserve of head-constables and constables. During the year a proposal was made that this provision should be utilized in the formation of a reserve police battalion, but this was subsequently abandoned. The recruitment of constables in part accomplishment of the original scheme thus began late in the year, and this accounts for a saving of Rs. 25,000 under this head. Four launches which were under construction in the dockyard were to have been delivered to the Police Department early this year, and provision for crew and stores was made for the whole year. Only three launches were delivered, and that not till after September, while one was not delivered at all, and consequently there was a saving of Rs. 22,000 out of the lump provision of Rs. 1,48,596 for the reorganization of the river police in Eastern Bengal.

The budget estimate for 1919-20 has been fixed at Rs. 93,22,000 against the sanctioned estimate of Rs. 96,58,000 for the current year. The large reduction in the next year's estimate is more apparent than real, as it is mainly due to large deductions of probable savings on the basis of recent actual expenditure, as well as to the absence of any provision for capital expenditure on buildings, in connection with the reorganization of the subordinate police in Eastern Bengal, the necessary provision for this purpose being made in the Public Works Department budget. Besides providing for normal development the coming year's estimate provides Rs. 2,50,000 to meet the cost of the revised rates of pay of Imperial Police officers recently sanctioned by the Secretary of State, Rs. 2,17,260 for raising the pay of head-constables, Rs. 1,38,037 for raising the proportion of the ordinary reserve in pursuance of the scheme already undertaken, Rs. 11,019 for the entertainment of crews of five thana launches, Rs. 12,126 for raising the number of head-constables in Eastern Bengal to ultimate strength, and Rs. 6,601 for the appointment of additional constables for employment as armourers.

Special Police.—Under this minor head are recorded the accounts of the Bengal Military Police, the Frontier Police, Chittagong, and the charges of the Upper Burma Police Depôt. The increase in the ensuing year's estimate as compared with the sanctioned and revised estimates of this year, is mainly due to a provision of Rs. 32,207 for raising the strength of the Dacca Military Police battalion by the addition of a company, and Rs. 6,570 for the payment of allowances to non-commissioned officers and sepoys of the Dacca Military Police deputed for guard duty at jails.

Railway Police.—This head includes the cost of the supervising staff and their establishments and the police force employed in the East Indian, Eastern Bengal, Bengal-Nagpur and Assam-Bengal Railways. Except in the case of expenditure in the Eastern Bengal railway, which is wholly met from Provincial revenues, the line being a State railway, seven-tenths of the total cost is realized from the railway companies concerned, the recoveries being shown as deductions from the charges. The budget estimate for 1919-20 provides for normal charges.

Criminal Investigation Department.—The large increase in the revised estimate is mainly due to the revision of pay of the ministerial establishment of the Criminal Investigation Department, and to the entertainment, as a temporary measure for two years, of three inspectors and 13 sub-inspectors and 19 constables for the surveillance of the registered members of criminal tribes in the districts of 24-Parganas, Midnapore and Bakarganj. The budget estimate for 1919-20 generally follows the revised estimate for the current year and calls for no remarks.

REVENUE.

25. The large increase in the revised estimate as compared with the sanctioned estimate for 1918-19 is partly due to the imposition of surcharge pilotage fees in order to counter-balance the increase in expenditure due to the introduction of the system of guaranteed remuneration to officers of the Pilot service, and partly to the adjustment in the accounts of this year of Rs. 58,413 paid as hire by the Government of India for the pilot vessels "Fraser" and "Lady Fraser". The pilotage surtax, it may be mentioned, was discontinued from the 1st December last, as sufficient revenue had been obtained to meet the extra charges.

Owing to the cessation of hostilities, it is hoped that tonnage will gradually improve, causing a recovery in the receipts under the head "Pilotage receipts—Calcutta" and the budget estimate for 1919-20 has, therefore, been placed at Rs. 12,64,000.

EXPENDITURE.

26. The sanctioned budget estimate for the current year was Rs. 11,12,000, but on the basis of the actuals of the first nine months of the current year, the revised estimate for 1918-19 has been placed at Rs. 12,47,000. In view of the decrease in the earnings of the pilots owing to the shrinkage of tonnage visiting the port of Calcutta, Government have guaranteed a minimum remuneration to them, and the increase in the revised estimate is partly due to this, and partly to a grant of Rs. 1 lakh

Revised Financial Statement.

sanctioned for the improvement of the port of Chittagong. As pointed out above the extra cost on account of the extra remuneration to the pilots will be more than covered from the revenue realized by the imposition of the surtax. The increase in expenditure would have been larger but for the savings caused by the failure of Mr. Mott to submit his report on the construction of the new Howrah Bridge and the non-payment to him of the fee of Rs. 15,750 provided for the purpose in this year's budget.

In the budget estimate for 1919-20 provision has been made for payment of remuneration to the pilots under the guaranteed system, besides larger provision for the purchase of marine stores and for mooring hire. It also includes Rs. 18,480 for the appointment of mate pilots as chief officers, and of outsiders as junior officers, of the two pilot vessels "Fraser" and "Lady Fraser", in order to set free the leadsmen apprentices to study the conditions of the river, Rs. 3,000 for the appointment of a superintendent for the branch shipping office, Kidderpore, Rs. 8,180 for the revision of the strength of shipping establishments and Rs. 2,400 for increase in the salary of first engineer and shipwright surveyor. The usual annual grant of Rs. 1,50,000 for the Chittagong Port Fund has also been provided.

Revised Financial Statement.

REVENUE.

27. The actuals in 1917-18 amounted to Rs. 9,52,000 and the budget estimate for 1918-19 was Rs. 9,79,000. This has been raised to Rs. 9,89,000 in the revised estimate with reference to the actuals of the first nine months of the current year. Considering the steady increase in revenue during the last three years, the estimate for 1919-20 has been passed for Rs. 10,29,000 and includes larger collections from Government colleges and schools—General.

EXPENDITURE.

28. The provision for education shows a decrease of about Rs. 5 lakhs as compared with the current year's sanctioned estimate and is mainly due to larger probable savings having been deducted in the light of the expenditure incurred by the department in recent years, as explained in detail below. Considering recent actuals, therefore, the budget for the coming year is a progressive one.

University.—The budget estimate of Rs. 16,15,000 is made up of recurring Imperial grants of Rs. 30,000 for administration, Rs. 20,000 for Law Colleges and Rs. 65,000 for the development of the University. Besides the above usual provision a lump provision of Rs. 15 lakhs has been made, at the instance of the Government of India, to provide for capital expenditure which the recommendations of the University Commission might entail. As it is unlikely, however, that any schemes following on these recommendations will mature early enough in the coming year to admit of so large an expenditure as Rs. 15 lakhs, a lump deduction of Rs. 12 lakhs has been made, and a net provision of Rs. 3 lakhs allowed to stand as the first instalment of the expenditure to be incurred in 1919-20.

Direction.—Under this minor head are shown the salaries of the Director of Public Instruction and of his Assistants; also the pay of the establishments of the Director's office and the connected contingent expenditure. The reduction in the revised estimate is mainly due to savings under "Salaries" owing to the permanent head of the department being absent on deputation and the post of the Director of Public Instruction being held by an officiating officer. The budget estimate for the next year provides for normal charges.

Inspection.—The sanctioned estimate was Rs. 9,28,000; but the revised estimate has been placed at Rs. 8,88,000 in view of the actuals of the first nine months of the current year. The decrease is mainly under "Inspectors of other Schools", "Salaries" and "Allowances" and is due partly to the deputation of certain officers to military duty, and partly to the discontinuance of the payment of exchange compensation allowance. The budget estimate for 1919-20 includes a provision of Rs. 36,134 out of the Imperial grants for the appointment of additional inspectresses of schools, Rs. 3,960 for house allowances to assistant inspectresses, and Rs 1,080 for the entertainment of additional establishment in the office of the inspector of European schools.

Government Colleges—General.—The decrease in the revised estimate for 1918-19 occurs under "Salaries" and "Allowances", and is due mainly to the difficulty of recruitment and to the deputation of certain officers to military duty. The reduction in the budget estimate of 1919-20 as compared with the sanctioned estimate for the current year, is mainly due to the deduction of large sums as probable savings based on previous actuals. The estimate for 1919-20 includes a provision of Rs. 5,550 for the extension of affiliation of the Hooghly College in philosophy and economics, and Rs. 1,500 for the appointment of a lecturer in mathematics for the Rajshahi College, besides provision for the whole year for one appointment of professor in the Hooghly College and one lecturer in the Chittagong College sanctioned in June and July 1918, respectively. A provision of Rs. 2,400 has also been made for the post of a lecturer of philosophy and logic in the Dacca College.

Government Colleges—Professional.—The reduction in the revised estimate for 1918-19 is chiefly due to savings under "Salaries" in the Law College,

Revised Financial Statement.

Training Colleges and in the Civil Engineering College, and to the non-utilization of the lump provision of Rs. 40,000 for the proposed Secondary Training College for women teachers at Ballyganj. The estimate for 1919-20 has been fixed at Rs. 3,77,000 against the sanctioned estimate of Rs. 3,94,000 for 1918-19 and the revised estimate of Rs. 3,65,000 for the current year. The decrease in next year's estimate as compared with the sanctioned estimate for the current year, is mainly due to the omission of the lump provision of Rs. 40,000 for the Training College for women teachers at Ballyganj. The coming year's estimate includes provision of Rs. 4,500 for the appointment of an instructor in mechanical drawing, and Rs. 1,728 for a lecturer in architecture, in the Civil Engineering College, Sibpur. Larger provision under supplies and services and contingencies has also been made according to the requirements of the Civil Engineering College.

Government Schools—General.—The sanctioned estimate for the current year was Rs. 27,68,000, but considering the actuals of 1917-18 which amounted to Rs. 22,30,000 and the actuals of the first nine months of this year, the revised estimate has been fixed at Rs. 22,75,000. The large savings in the revised estimate are mainly due to the non-utilization of the provision of Rs. 14,25,000 from Imperial grants in full. In the budget estimate for 1919-20, though the Imperial grants have been repeated, large deductions have been made as probable savings on the basis of recent actuals. The next year's estimate includes Rs. 8,520 for the payment of house allowances to zenana governesses and mistresses, the provision being in pursuance of the policy to replace male teachers in girls' schools by women teachers, and Rs. 720 for the appointment of an additional teacher of English for the Eden High School for girls.

Government Schools—Special.—Considering the actuals of 1917-18 which amounted to Rs. 7,11,000 and the first nine months' actuals of the current year, the revised estimate for this year has been fixed at Rs. 7,09,000 against the sanctioned estimate of Rs. 10,49,000 for 1918-19. The savings are partly under "Salaries" and "Supplies and Services" and partly due to the transfer of allotments to the Public Works Department for the construction of educational buildings; large lapses also occurred out of the provisions from Imperial grants owing to schemes not having matured in time to admit of the full provision being utilized. In the next year's budget estimate the Imperial grants have been repeated, but as it does not appear probable that sanction will be accorded and expenditure incurred in full, large deductions have been made as probable savings. The coming year's estimate includes Rs. 9,600 for the appointment of a member of the Indian Educational Service as Principal of the Government Commercial Institute, Rs. 4,200 for special Islamic Matriculation examinations, Rs. 1,24,000 for the construction of buildings for *guru*-training schools, and Rs. 12,270 for the training of Moslem women teachers. Of the last two allotments Rs. 1,12,270 have been provided from the recurring Imperial grant of Rs. 5,50,000 for the improvement of popular education.

Grants-in-aid.—The sanctioned estimate of Rs. 23,29,000 for 1918-19 includes Rs. 10,22,000 out of the Imperial grants. The large saving noticeable in the revised estimate is due partly to the inability of the department to utilize the Imperial grants in full, and partly to the transfer of sums to the Public Works Department for the construction of educational buildings. Though the Imperial grants have again been repeated in the coming year's budget, large deductions as probable savings have been made on the basis of recent actuals. Noticeable features in next year's budget are a provision of Rs. 1 lakh to meet a capital grant to the Calcutta Girls' High School and Rs. 30,000 for the furtherance of the madrassa reform scheme.

Scholarships.—The sanctioned estimate for 1918-19 was Rs. 2,81,000, but this has been reduced to Rs. 2,69,000 in the revised estimate in view of the actuals of the first nine months of the current year. The budget estimate closely follows the revised estimate for the current year, and includes a provision of Rs. 2,000 for the grant of stipends to the children of Indian soldiers, and Rs. 5,400 to the children of indigenous *dhais*.

Revised Financial Statement.

Miscellaneous.—Under this minor head provision is made for the payments of grants for the encouragement of literature, examination charges and other miscellaneous charges of the Department. The large reduction in the revised estimate of the current year is mainly under the lastnamed head, and is chiefly due to the non-utilisation in full of the provision for Calcutta messes and hostels out of the imperial grants. In the next year's budget besides normal provision the following allotments have been made :—

	Rs.
Calcutta hostels	1,89,000
Sewerage and drainage scheme, Sibpur Civil Engineering College	1,55,000
Appointment of a physical adviser	4,500

Lump grant for the development of Primary Education.—In passing orders in the second edition of the estimates for 1918-19, the Government of India sanctioned a recurring assignment of Rs. 5,50,000 from imperial revenues for the development of primary education. The assignment is shown on the receipt side in the budget for 1918-19 under the head, "Transfers between imperial and provincial revenues," and an equivalent amount is provided in lump under the head "22—Education". Out of the lump grant Rs. 5,26,000 have been distributed as follows in the budget for the coming year :—

	Rs.
Increase in the pay of teachers of aided primary schools and maktabs for girls in District Board areas at the rate of Re. 1 per mensem and in urban areas by Rs. 2 a month	80,000
Establishment of primary schools for girls in panchayati unions	30,000

29. The estimate of Rs. 3,96,000 for the year 1919-20 is less by Rs. 9,000 than the sanctioned estimate of Rs. 4,05,000 for the current year

Revised Financial Statement.

This is mainly due to a fall in revenue under the head "Receipts from paying patients," owing to the transfer of the European inmates of the Bhowanipur Lunatic Asylum to Ranchi. The fall in revenue under the abovementioned head is, however, counterbalanced to some extent by the increase in income from hospital receipts.

EXPENDITURE.

30. *Medical Establishment.*—Under this minor head is shown the salaries of the Surgeon-General, the Civil Surgeons and their establishments and contingent charges. It also records the pay of the assistant and sub-assistant surgeons paid by Government and of the reserve medical officers and subordinates. The decrease in the revised estimate is partly due to the transfer of a part of the provision of Rs. 54,670 for the revision of the pay of sub-assistant surgeons to other minor heads, to which their pay is debitable, and to savings on account of the late introduction of the revised scheme. The estimate for 1919-20, which generally follows the sanctioned estimate for the current year, includes, besides the increased rates of pay sanctioned recently for sub-assistant surgeons for the whole year, a provision of Rs. 3,300 for the appointment of second clerks in the offices of certain Civil Surgeons, and Rs. 1,50,000 to give effect to the proposal for an increase in the emoluments of the officers of the Indian medical service, which has been recently announced.

Hospitals and Dispensaries.—The accounts of all the Presidency hospitals and of the grants to hospitals and dispensaries together with the Government share of expenditure in mufassal hospitals and dispensaries are recorded under this head. The expenditure of the Albert Victor Asylum for lepers is also shown here. The large increase in the revised estimate, as compared with the sanctioned estimate for the current year, is mainly due to the revision of the pay of sub-assistant surgeons and to the increase in the pay of menials recently sanctioned. Larger expenditure under contingencies in the Medical College and General Hospitals, and under "Supplies and Services" in the General Hospital, also contribute towards the increase. The increase in expenditure under "Contingencies" and "Supplies and Services" is mainly due to the general rise in the price of all articles of contingency and medical stores.

The budget for 1919-20 has been fixed at Rs. 12,39,000 against the sanctioned estimate of Rs. 12,85,000 for the current year. The reduction is mainly under the head "Grants to hospitals and dispensaries" and is due to the absence from the next year's estimate of any provision for the non-recurring grant to the Belgachia Institute, as the last instalment amounting to Rs. 1,62,000 of the promised grant of Rs. 5,00,000 towards the cost of the buildings of the Institute will be paid in full this year. Next year's estimate provides for normal growth, and includes Rs. 11,970 for the revision of the pay of the menials of the Medical College and Presidency General Hospitals for the whole year, Rs. 2,748 for the appointment of two emergency officers for the Campbell Hospital, and Rs. 5,000 for the grant of war allowance to the nurses of the Campbell Hospital, besides several other schemes involving small expenditure, the details of which are shown in the schedule appended to this note. A sum of Rs. 20,000 has also been added for converting the Dacca Mitford Hospital into a State institution.

Medical Schools and Colleges.—Against the sanctioned estimate of Rs. 5,10,000, the revised estimate for the current year has been fixed at Rs. 4,87,000 in view of the actuals of the first nine months, the savings being mainly under salaries. The estimate for 1919-20 generally follows the sanctioned estimate for the current year, the small increase in next year's estimate as compared with the sanctioned estimate for the current year being mainly due to the inclusion of the new schemes shown in the schedule attached to this note and to larger provision under "Supplies and Services" and "Contingencies" based on recent actuals.

Lunatic Asylum.—The reduction in the revised estimate for the current year and in the budget estimate for the coming year, as compared

Revised Financial Statement.

with the sanctioned estimate for 1918-19, is mainly due to the transfer of the European lunatics from the Bhowanipur Lunatic Asylum to Ranchi. For next year provision has been made for normal expenditure.

REVENUE.

31. The current year's estimate was framed in the hope that a grant of Rs. 12,000 would be received from the Indian Research Institute for the enquiry into diabetes. As this enquiry has been practically concluded a grant of only Rs. 2,000 is now expected and the revised estimate has accordingly been fixed at Rs. 8,000. In the year 1919-20, in addition to the normal revenue under this head, an income of Rs. 4,000 is expected from the sale of lymph and Rs. 3,200 as fees for water analysis. The estimate has therefore been fixed at Rs. 10,000.

EXPENDITURE.

32. *Sanitation and Vaccination Establishment.*—The budget estimate for 1919-20, besides providing for normal charges on account of the staff of the Vaccine Department and the Sanitary and Deputy Sanitary Commissioners and their staff and establishment, includes Rs. 75,000 for an enquiry into the hookworm disease, Rs. 25,000 for an investigation into river pollution, Rs. 28,000 for the construction of a cold storage room in the Vaccine Depôt, Rs. 5,000 to give a course of training to enable young medical men to take the Calcutta D. P. H. degree, so as to qualify for appointment as district health officers, Rs. 4,500 for the appointment of a special officer to scrutinize college and school buildings from the point of view of hygiene and Rs. 10,000 for the establishment of a Publicity Bureau to educate the general public in regard to public health matters.

Grants for Sanitary Purposes.—Under this head are debited the grants to local bodies for minor sanitary works and for water-supply and drainage schemes which are sanctioned out of the lump provision for sanitation. This accounts for the increase in the revised estimate for the current year, which

Revised Financial Statement.

includes a grant of Rs. 50,000 to the Krishnagar municipality for water-supply, Rs. 10,500 for the Jungipur drainage scheme, Rs. 10,400 for the Utterpara water-supply scheme, Rs. 25,000 for the Kurseong drainage scheme, besides several small grants for sanitation purposes. The estimate of Rs. 12,000 in the budget of 1918-19 represents the provision for the enquiry into deabetes. As the enquiry has been stopped no provision has been made next year.

Expenses in connection with Bubonic Plague, Malaria and Epidemics.—The increase in the revised estimate for 1918-19 is mainly due to the purchase of quinine for distribution. The budget estimate for the coming year includes provision of Rs. 11,000 for Kala-azar investigation.

Lump provision for Sanitation.—The reduction in the revised estimate for the year 1918-19 is more apparent than real, as it is due partly to the transfer of a sum of Rs. 1,90,000 to the Irrigation Department for anti-malarial schemes, and of Rs. 23,000 to the Public Works Department for the improvement of the Berhampore sluice, and for the purchase of steel rods, etc., for sanitary projects to be undertaken by the Sanitary Department, and partly to some of the sanctioned expenditure having been debited under the heads "Grants for Sanitary purposes" and "Expenses in connection with malaria". The large provision in the budget for 1919-20 is in accordance with the policy initiated last year for schemes of sanitary improvement, and anti-malarial works. The details of the schemes proposed to be undertaken next year will be found in the schedule which forms an annexure to this note.

Expenditure.

33. The estimate for 1918-19 was Rs. 2,99,000 but in the revised estimate this has been reduced to Rs. 2,88,000, chiefly owing to a decrease in the charges arising from the internments under the Defence of India Act. The budget estimate for 1919-20 has been fixed at Rs. 2,70,000, and besides providing for the normal charges includes Rs. 2,25,000 for the payment of personal and family allowances to *détenus* under the Defence of India Act, and Rs. 8,796 for the introduction of the scheme for the reporting of Bengali and Urdu speeches of importance in Calcutta and in the mufassal.

REVENUE.

34. The agricultural receipts consist mainly of the sale-proceeds of farm produce at district farms and of receipts from sericultural nurseries. The budget provides for a small increase as compared with the sanctioned estimate for the current year, the increase expected being from the centres of demonstration of the Kakya Bombai jute and Indrasail rice cultivation, which the Agricultural Department have undertaken as an experimental "measure".

The head veterinary receipts includes mainly fees levied for the treatment of horses and cattle at veterinary hospitals.

EXPENDITURE.

35. *Veterinary charges.*—The small decrease in the revised estimate as compared with the sanctioned estimate for the current year is chiefly due to savings under salaries. The estimate for 1919-20, besides providing for the normal development of the veterinary department, includes a provision of Rs. 6,000 for the appointment of a second Imperial service officer in the staff of the Bengal Veterinary College, and a sum of Rs. 29,310 for the revision of pay of veterinary assistants; two-thirds of the cost of this revision, it may be mentioned, will be recovered from local bodies.

Agriculture.—The Agricultural Department at present comprises the following principal officers :—(*a*) a Director of Agriculture, (*b*) two Deputy Directors of Agriculture, (*c*) a Fibre Expert, (*d*) an Agricultural Chemist, (*e*) an Economic Botanist, (*f*) a Superintendent and a Curator for Botanical Gardens, and (*g*) Superintendent of Sericulture, and 22—District Agricultural officers.

The large increase in the revised estimate as compared with the budget estimate for 1918-19 is mainly due to the transfer of a sum of Rs. 20,000 to this head for the purchase and distribution of cotton seeds, to an additional grant of Rs. 7,000 for experiments in water hyacinth, and to a larger expenditure of Rs. 25,000 under sericulture with a view to utilize the exceptionally good mulberry crop of the year. The cost of removal of the Director's office from Calcutta to Dacca, the appointment of ten district agricultural officers, together with the additional expenditure incurred in the extension of the areas under experiment, also contributed largely towards the increase. In September last the Government of India sanctioned an additional grant of Rs. 1,80,000 from Imperial revenues for the development of agricultural education, and though this amount does not appear in the civil estimates among the sanctioned allotments of the current year, it is available for expenditure. A sum of Rs. 50,000 has already been transferred to the Public Works Department for the construction of certain buildings in connection with the establishment of an agricultural middle school at the Dacca farm. The budget estimate for the year 1919-20 provides for further development of the department. The estimate includes Rs. 90,000 for the establishment of two new district agricultural farms, and Rs. 19,872 for the entertainment of nine district agricultural officers, in pursuance of the scheme for the distribution of improved paddy and jute seed, Rs. 11,192 for the appointment of a third Deputy Director of Agriculture, Rs. 2,280 for the entertain-

ment of 19 durwans for guarding the seed stores. Rs. 5,500 for the appointment of temporary establishment in connection with the census of cattle, Rs. 3,000 for additional establishment under the Economic Botanist, and Rs. 10,000 for the construction of a model rearing house at Berhampore. A provision of Rs. 1 lakh out of the Imperial grant of Rs. 1,80,000 for agricultural education has been made in next year's budget. A sum of Rs. 13,600 has also been added for the construction of certain agricultural buildings, and Rs. 1,080 for additional establishment under the Weaving Expert.

Co-operative Credit.—The budget estimate for 1919-20 has been fixed at Rs. 3,46,000 against the sanctioned estimate of Rs. 2,56,000 for the current year. The coming year's estimate includes Rs. 21,672 for the appointment of additional auditors, the entire cost of which will be recouped by the levy of audit fees on the societies, Rs. 21,192 for the appointment of 4 sub-deputy collectors, 8 non-gazetted inspectors and 12 peons for strengthening the inspecting staff and Rs. 5,000 for the revision of establishment of the Registrar's office. A provision of Rs. 38,000 has also been made for the development of cottage industries.

REVENUE.

36. Owing to large demands from the Madras Government and the Military Department for the supply of sulphate of quinine, the current year's estimate under this head was fixed at Rs. 19,09,000, counting on a revenue of Rs. 18,00,000 from the sale of quinine alone. This expectation has not been fully realized, the revenue anticipated this year being Rs. 17,00,000 only.

For the next year an income of Rs. 10,82,000 is estimated, as with the cessation of hostilities a fall in the demand for quinine from the Military Department is expected.

EXPENDITURE.

37. The original estimate for 1918-19 was fixed at Rs. 19,60,000, but it has been raised to Rs. 22,09,000 in the revised estimate, mainly owing to increased expenditure in the purchase of quinine and to an expenditure of Rs. 47,000 on the Director of Civil Supplies. Of the excess expenditure under quinine Rs. 1,75,000 will be provided from Imperial revenues and the cost of the Director of Civil Supplies will be eventually fully recouped by an assignment through the transfer head from the Government of India. The expenditure under this major head would have been still larger but for the transfer of Rs. 75,500 to the Public Works Department for the acquisition of land and the construction of buildings for the research tannery at Tangra.

The estimate for 1919-20 which has been placed at Rs. 10,68,000, besides allowing for larger provision for extension of the areas under Cinchona plantation in each of the plantations at Mungpoo and Munsong, includes Rs. 18,000 as a grant to the Bengal Home Industries Association, Rs. 78,400 for the equipment, establishment and other recurring and non-recurring charges of the research tannery, Rs. 2,50,000 for the development of industries, to give immediate effect, as far as possible, to the proposals of the Indian Industrial Commission, Rs. 3,000 for experiments in connection with hand-loom and other industries, Rs. 4,500 for the appointment of three District Fishery officers, the cost of two of whom will be borne by this Government and the Government of Bihar and Orissa in equal shares, and of the third by this Government wholly, and Rs. 50,000 to meet the salary of the Director of Civil Supplies and the cost of his establishment and contingencies.

REVENUE.

38. The receipts under this head consist chiefly of contributions for pensions and gratuities on account of officers of Government lent to foreign service for employment under the Court of Wards, municipalities and other local bodies and Native States. Deductions for pilot service pension funds are also shown under this head. The variations in the estimates are small and call for no remarks.

EXPENDITURE.

39. This head comprises charges for pensions, gratuities and compassionate allowances, and for the commuted value of pensions to Government servants. The decrease in the revised estimate for 1918-19 as compared with the sanctioned budget is due to smaller expenditure under "Superannuation and retired allowances". The budget for 1919-20 provides for normal expansion of the pension list.

REVENUE.

40. The actuals of 1917-18 amounted to Rs. 1,40,000 and in view of the actuals of the first nine months of the current year, the original estimate of Rs. 1,22,000 for 1918-19 has been raised to Rs. 1,42,000 in the revised estimate. Following the revised estimate and allowing for small expansion the estimate for 1919-20 has been fixed at Rs. 1,49,000.

EXPENDITURE.

41. The increase in the revised estimate is under the head "Stationery supplied from central stores" for which Rs. 9,00,000 has been taken against the sanctioned estimate of Rs. 8,50,000. This is due to the rise in the prices of paper and other articles of stationery. The small decrease under "Government Press" is mainly due to savings in the Jail Press owing to less expenditure in contract and miscellaneous printing and European stores.

For next year Rs. 9,25,000 has been provided under "Stationery supplied from central stores" and Rs. 34,000 for the purchase of two linotypes and Rs. 4,000 for a book sewing machine for the Secretariat Press; otherwise the estimate provides for normal requirement.

REVENUE.

42. The receipts for 1918-19 were estimated at Rs. 6,81,000 against the actuals of Rs. 5,66,000 of 1917-18, which included Rs. 4,50,000 from unclaimed deposits. In view of the actuals of the first nine months of the current year, the original estimate of Rs. 5,50,000 for 1918-19 has been reduced to Rs. 5,10,000 in the revised, while on the latest actuals the revised under "Fees from Government audit" has been raised by Rs. 16,000. The large increase under the head "Sale of land and houses" in the revised estimate is mainly due to the credit under this head of the sale proceeds of the Amherst Street Police Hospital.

The estimate for 1919-20 is Rs. 6,99,000 and includes Rs. 5,10,000 for unclaimed deposits, Rs. 66,000 for "Fees for Government audit" and Rs. 75,000 under "Miscellaneous".

EXPENDITURE.

43. The estimate for 1918-19 was originally fixed at Rs. 9,14,000, but in the revised estimate this has been reduced to Rs. 7,96,000. The reduction, which is more apparent than real, is chiefly due to the adjustment under appropriate heads of the expenditure sanctioned by His Excellency from his allotment for petty grants, to the adjustment under the appropriate heads, expenditure on grain compensation allowance, and to the reappropriation of the reserve provision of Rs. 2,00,000 in order to meet expenditure

Revised Financial Statement.

under other heads. The expenditure Rs. 1,50,000 on the War Publicity Board is debited to this head. The charges on this account will, in the first instance, be debited to provincial revenues, but will eventually be recovered from the Government of India. Savings under this head have also been utilized in paying off the loans on account of the Bistupur embankment, Uttarbagh work and the Moshagram-Dehaty embankment, and in making a remission in accordance with previous arrangements of Rs. 3,00,000 of the loan granted to the late Nawab Salimullah of Dacca.

As the War Publicity Board has been abolished no provision has been made for it in next year's budget. The coming year's estimate includes the following provision :—

	Rs.
For allotment of petty grants by His Excellency ...	40,000
For payment of Grain Compensation Allowance ...	4,00,000
For gratuitous relief	75,000
General reserve for unforeseen requirements ...	2,00,000

44. The increase in the revised estimate as compared with the budget estimate for 1918-19 is chiefly under navigation receipts, due to the diversion of railway goods traffic, on account of the shortage of railway wagons to boat traffic on the canals. It is not now anticipated that this increase in canal-borne goods traffic will continue, and therefore the budget estimate for

1919-20 has been placed at a lower figure as compared with the revised estimate for 1918-19.

EXPENDITURE.

45. As compared with the actuals of 1917-18, the larger provision in the current year's budget is intended to meet necessary repairs which for many years had been postponed on account of the financial stringency. The decrease in the revised estimate is chiefly under "Establishment" and is due to the revised method of distribution of establishment charges recently adopted under the orders of the Government of India.

The decrease in the budget estimate for 1919-20 is chiefly under maintenance and repairs of the Hijili Tidal Canal and is due to the absence of any provision for special repairs to the canal next year.

REVENUE.

46. The large increase in the revised estimate as compared with the sanctioned estimate for the current year, is due in part to the increase in water-borne goods traffic consequent on the scarcity of railway wagons, and in a large measure to the increased traffic in the Madaripur Bil Canal. The estimate for next year follows the revised estimate for the current year.

Revised Financial Statement.

EXPENDITURE.

47. The revised estimate for the current year is higher by Rs. 1,34,000 than the sanctioned estimate for the year 1918-19, and is mainly due to the transfer to this head of a sum of Rs. 1,90,000 from the sanitation grant for expenditure on anti-malarial drainage projects. The excess would have been larger but for the credit of Rs. 89,000 on account of compensation awarded for the steam tug "Dunnedaw" and two coal barges which were taken over by the military authorities for service in Mesopotamia. The large provision in next year's budget, as compared with the sanctioned estimate for the current year, is due to provision for certain drainage projects, connected with anti-malarial measures, viz., Rs. 1 lakh for the Pichaboni project, Rs. 1 lakh for the Amirabad and Rs. 50,000 for the Bullee Bil projects, for the improvement of waterways in the district of Dacca, and for the formation of a new Waterways Division for the management and development of the inland waterways in the districts of Khulna, Jessore, Faridpur and Bakarganj. Large provision has also been made for the continuance of the works already started, with a view to the investigation of the effects of floods in the Presidency, which includes Rs. 1,50,000 for the Hoorhoora Khal, and Rs. 1,00,000 for the Sagarputul Bexibazar escape. Other items of importance are the provision of Rs 4,50,000 for widening the Madaripur Bil route, a work of urgent necessity owing to its great advantages as a route for steamers running to Cachar and Assam, and of Rs. 2,10,000 for creating a spill from the Bidyadhari river. The coming year's estimate also includes provision for the partial canalization of Tolly's Nala, for the reconstruction of the Kidderpore bridge, and for the purchase of one steam tug and barges as coaling plant for the dredgers "Foyers" and "Alexandra" to replace the plant taken over by the military authorities.

Revised Financial Statement.

REVENUE.

48. *Civil Works in charge of Civil Officers.*—The bulk of the revenue under this head is from tolls. Considering the first nine months' actuals the revised estimate has been fixed at Rs. 1,40,000. The budget estimate of Rs. 1,69,000 for the coming year allows for normal expansion.

Civil Works in charge of Public Works Department.—The large increase in the revised estimate is mainly due to the payment of Rs. 24,000 by the Calcutta Corporation as the difference in the value of Government and Corporation lands exchanged in connection with the improvement and extension of the Campbell Hospital, of Rs. 25,000 in part payment of the cost of the site of the Police outpost at Kalighat, taken by the Corporation, and Rs. 19,000 on account of arrear recovery from the Port Commissioners of Calcutta of the half-yearly rent of the Strand Bank land. The estimate for 1919-20 includes the balance of Rs. 55,000 payable by the Corporation of Calcutta for the Kalighat Police outpost site and provides for normal expansion.

EXPENDITURE.

49. *Civil Works in charge of Civil Officers.*—Commissioners of divisions and Collectors of districts have been empowered, with reference to the recommendations of the Decentralization Commission, to make discretionary grants for general purposes of a public nature calculated to be of benefit to their districts. The expenditure so incurred is budgetted for under this head in the first instance, and the actual charges incurred are subsequently adjusted to the appropriate heads of accounts.

The estimate for the coming year includes the following :—

	Rs.
Augmentation grant	8,04,114
Grant to the Calcutta Improvement Trust ...	1,50,000
Special grants at the disposal of Divisional Commissioners and District Collectors ...	1,52,000
Imperial grant for the improvement of the port of Chittagong	3,25,000

Civil Works in charge of Public Works Department.—The increase in the revised estimate is more apparent than real, as it is mainly due to the transfer to this head of allotments from other heads for new works and for works in progress of the Police, Education and other departments. The large increase in the estimate for 1919-20 is mainly due to larger provision for urgent new works, for works in progress, for repairs and for minor works. The table below shows the position :—

	Budget 1918-19	Budget 1919-20
	Rs.	Rs.
Establishment ...	12,00,000	12,40,000
Tools and Plant ...	60,000	50,000
Stock and Suspense ...	10,000	10,000
Repairs ...	28,00,000	32,00,000
Works in Progress ...	19,00,000	33,80,000
New Works (including Minor Works.)	25,18,000	34,20,000
	84,88,000	1,13,00,000

Revised Financial Statement.

Provision for buildings in connection with the Police reorganization schemes has hitherto been made under "20—Police", but from next year such provision will be made under this head. Next year's provision for works in progress includes Rs. 3,80,000 on this account. Owing to war economy the expenditure on repairs has been kept down to the minimum during the past three years, and the larger provision, for the purpose in the next year's budget, is to make up in part for the deficiencies thereby caused. A list of new works for the next year is annexed.

50. The increase of Rs. 1,17,000 in the revised estimate as compared with the sanctioned estimate is mainly due to the payment by the Government of India to this Government of Rs. 1,50,0 0 for the Bengal War Publicity Board, Rs. 47,000 for the Director of Civil Supplies, Bengal, Rs 95,000 for anti-malarial works, Rs. 1,07.000 for improvements and repairs to Belvedere, Rs 1.8),000 for agricultural education, and an assignment of Rs. 1,75,000 as compensation for the loss in exchange for the purchase of quinine at Java. Against these additional receipts must be set off the larger contribution from provincial funds to imperial revenues on account of the provincial share of the extra income-tax accruing from additional taxation.

Beyond the assignments from imperial revenues of Rs. 50,000 for the Director of Civil Supplies, Bengal, Rs. 6,000 to meet the cost of investigation of the fibre resources of India by the Bengal Fibre Expert, Rs. 3,25,0 0 for the improvement of the Port of Chittagong, Rs. 26,25,000 on account of the loss in income-tax revenue necessitated by the changes in taxation, and a larger payment to imperial revenues as the provincial share of the extra income-tax due to additional taxation, the assignment budget of the coming year calls for no remarks. No assignment will be made next year on account of the non-recurring grant to the Dacca University, the last assignment of the promised grant of a lakh each year for five years from 1914-15 having been paid this year.

To give partial relief it is proposed to sanction an increase of 20 per cent. on the pay of the ministerial staff in the sadar and mufassal offices. The details of the scheme are :— (*i*) Revision of establishments in the headquarters offices on the basis of actual requirements so as to increase the total strength and the rates of pay. (*ii*) Raising the pay of the clerks and muharrirs employed in the headquarters joint offices from Rs. 20 and Rs. 15 to Rs. 30 and Rs. 25 per mensem, respectively. (*iii*) Enhancement of pay of clerks and muharrirs employed in the mufassal registration offices from Rs. 20 and Rs. 15 to Rs. 25 and Rs. 20 per mensem, respectively. (*iv*) Payment to temporary moharrirs employed in registration offices at Rs. 20 instead of at Rs 15. (*v*) Employment of paid probationers on Rs. 10 per mensem, the sanctioned number for each district being fixed at 8½ per cent. of the total permanent establishment in it.

RESOLUTIONS.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 1.

The Hon'ble Mr. Phelps moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) provision be made in the Budget for Rs. 2,00,000, or such sum as may be profitably spent, for the improvement of the medical services in the hospitals of Calcutta ;

(*b*) this sum be provided for by a corresponding reduction in the estimated expenditure under the head "Civil Works in charge of the Public Works Department ".

He said :—

"My Lord, in moving this resolution I desire to call attention to the item '21A Medical' on page 2 of the Amended Draft Financial Statement. So far as I can understand, it is proposed to spend Rs. 48,000 less in 1919-20 than in 1918-19, and Rs. 1,85,000 less than in 1917-18, on medical services.

It is admitted on all hands, I think, that the hospitals in Calcutta are on an imposing scale, but from personal experience and from what I hear from several quarters it would appear that these splendid hospitals are woefully under-staffed and the officers are overworked. I have had painful experience of this, and my experience is corroborated by others who are in a position to judge.

It is well known that a very large percentage of medical officers have been, and are, employed on military duty owing to the war, but it is felt some explanation is due to a patient public as to what steps are being taken to bring the cadre up to its full strength in the hospitals.

I have searched in vain for information on this point in the otherwise lucid explanations given in Part I by the Hon'ble Finance Member."

The Hon'ble Sir Henry Wheeler said :—

"My Lord, I think I can set the Hon'ble Member's mind at rest in respect of any idea that we have reduced the expenditure on Calcutta hospitals during the current year. Whatever alterations there may have been in the figures—and I have not, at the moment, traced the details to which he refers—they must be due to ordinary, what I might call, Budget corrections, made in view of the actuals of past years, for instance, or circumstances affecting the ordinary fluctuations as between year and year. There has been nothing in the nature of any general retrenchment of expenditure on the Calcutta hospitals.

In referring to the general standard of work in the Calcutta hospitals during this year, I think it is essential that we should bear in mind the over-shadowing effect of the war. As we all know, our medical cadre has been particularly depleted owing to a large portion of it being put to the purpose for which it was intended, namely, that of a war reserve, and we have had to carry on the medical administration of the province, not only in Calcutta, but still more markedly in the districts, with a staff which is far below the level that would be maintained in normal times, and far below the level at which we would have maintained it, if we had had a free hand in the matter. Obviously we have not had a free hand ; we had to give way to the preponderating necessities of the war. I think, too, that in considering the question we should bear in mind the strain under which these medical officers in Calcutta have been working, and pay a tribute to the devotion to duty and the energy which alone enabled the hospitals in Calcutta to run during these years of heavy strain at the level of efficiency at which they have been kept. It must be common knowledge to all of us that the strain has told on

Resolutions.

Mr. Cumming.

a good many of our officers, mostly senior officers, who are working in Calcutta at the present time. Some of them are overdue for retirement, and last year we would have had a serious break-down had we not been able to give a rotation of short leave to a few. Rotation of short leave does not make for efficiency, but if we had not done this, the officers would not have been able to carry on.

Well, Sir, the Hon'ble Mr. Phelps has asked particulary when we intend to bring the hospitals in Calcutta up to their full strength. The actual facts are that at present the Medical College is short by one resident medical officer, as also is the Presidency General Hospital, while in respect of the latter institution, had the conditions been normal, it is likely that we might have taken up a request that has been pressed upon us, namely, to post a third medical officer there. We have not been able to do that as no men are available owing to our inability to get back from military duty some of our officers who are still thus engaged. We are in constant communication with the Army Department, pressing our needs upon them, but there again, we can only bow to their decision, which is come to in the light of their military requirements. So much then, for the pre-war standard. There is, of course, the general question whether the whole staff of some of the Calcutta hospitals does not require to be strengthened. I think there is a considerable reason for thinking that step to be desirable, but it is impossible to undertake it now, while our cadre is so depleted, and, again, the whole question of the Indian Medical Service and its future is being examined by the Medical Reorganization Committee which is now sitting, and until we know the result of its deliberations, it is impossible to make large proposals involving gazetted officers.

That is the position as regards gazetted officers, but in respect of the minor establishments, we have, even during the war, been not neglectful of their needs. We have had to raise the pay of nurses, and we have raised the pay of menial servants. We have tried to the best of our ability to maintain a reasonable standard of efficiency, and when we complain of slight defects and deficiencies in Calcutta, let it be remembered how much more serious the defects and deficiencies have been for those living in the mufassal, most of whom have been deprived for the last four years of any hope of the ordinary Civil Surgeon to whom they ordinarily look. Let us bear their troubles in mind, when we harp upon our own.

Sir, for these reasons, I do not think a provision of Rs. 2 lakhs is required in the Budget, and I do not propose, therefore, to accept that recommendation."

The Hon'ble Mr. Cumming said :—

"My Lord, in this resolution and in several others which are in the agenda, proposals have been made for meeting suggestions for new expenditure by diversion from Civil Works in charge of the Public Works Department. It would probably be convenient if at this stage I make a general statement regarding the financial position of the Public Works Department in reply to these suggestions for diversion. The total Budget estimate for 1919-20 is Rs. 1 crore and 13 lakhs and is in excess over that of the previous year by Rs. 28 lakhs. Some Hon'ble Members have been tempted to consider that it is a sea of gold into which they can dip their hands at will. The position in some respects is not unlike that of the grant for railways in the Imperial Budget.

Now, let me shortly show what this total for 1919-20 really means. We may exclude the small item of 'Tools and Plant' and the fixed item of 'Establishment'. There remain 'Works in Progress,' 'Repairs' and 'New Works'. To complete 'Works in Progress,' Rs. 34 lakhs are required, and no one can suggest that there is any economy in stopping such works.

Resolutions.

Mr. Phelps; Rai M. C. Mitra Bahadur.

As regards 'Repairs', the grant of Rs. 32 lakhs is Rs. 3 lakhs less than the amount for which the Department has asked; and in view of the fact that during the past three or four years there has been a minimum of expenditure on public buildings, which, though inevitable for the time being, is not economical in the long run, this sum of Rs. 32 lakhs cannot be considered excessive.

Finally, as regards 'New Works' a sum of Rs. 5 lakhs has been devoted to 'Minor Works' distributed over all the departments of Government, and there is no extravagance in this item. Under the head of 'Communications', I made certain requests in my capacity as Member in charge of the Public Works Department, but my requests were cut down by half; and as regards 'New Civil Works', they are the ultimate residue of a very large number of works which were examined by the Finance Committee. It may be held that the Public Works Department is after all only an adjective department and that as far as its operations are concerned, they are at the instance of, and on behalf of, all the other departments of Government. Nevertheless, in view of the statement of facts which I have given, speaking as Member in charge of the Public Works Department, I deprecate any further reduction of any of the items in the Public Works Budget."

The Hon'ble Mr. Phelps said:—

"My Lord, I beg to thank the Hon'ble Member for his very kind and elaborate explanation. I have also got to thank him for the provision—a very substantial provision—in the Revised Statement for Hospitals, although the Hon'ble Member does not see his way to accept my resolution. I thank the Hon'ble Member for the liberal provision and I am perfectly satisfied with his reply. I would now withdraw my resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 2.

The Hon'ble Rai Mahendra Chandra Mitra Bahadur moved the following resolution:—

This Council recommends to the Governor in Council—

(*a*) that provision be made for two lakhs of rupees for the Medical College, Calcutta, for the following purposes:—

(*i*) a special Out-patient Department for skin, throat, nose and ear diseases,

(*ii*) a Dental College,

(*iii*) a Physical Laboratory, and

(*iv*) a Materia Medica Museum, and

(*b*) that the expenditure be met out of the grant of 2½ lakhs of rupees provided for the scheme for the development of Kalimpong.

He said:—

"My Lord, in this connection I would refer to the letter No. 14471, dated Calcutta, the 21st September, 1918, from the Hon'ble Surgeon-General with the Government of Bengal to the Secretary to the Government of Bengal, Financial (Medical) Department, published in the annual report of the Medical College, Calcutta, for the session 1917-18.

With these few words, I move this resolution for the acceptance of your Excellency's Council."

Resolutions.

Sir H. Wheeler; Mr. Cumming.

The Hon'ble Sir Henry Wheeler said :—

"My Lord, on the merits of the four schemes on which the Hon'ble Member would like to see money spent, there is no disagreement, and obviously that will be so, as I think he has taken them from the annual report of the head of the institution, and the advice that Colonel Calvert gives us as to the improvement of the Medical College is more likely than not to be sound. All these projects figure in our papers as desirable works. Also, among the list there is that which is the subject of the third resolution, and which is equally desirable. A special out-patient department for skin, throat, nose and ear diseases is undoubtedly wanted, and a dental college is a need of Calcutta at the moment. Unfortunately these schemes are terribly expensive, and, as an example, I may mention that in a project for a dental college which was sent up to us not long ago, we had an item of Rs. 4,71,000 for the acquisition of land alone, and apart from the cost of buildings, which has not yet been estimated, we had items of Rs. 37,000 for equipment, Rs. 7,800 for furniture and Rs 33,000 for establishment. It will thus be seen that these works, eminently desirable as they are, do entail a great deal of money. The physical laboratory and a materia medica museum would, I believe, be most useful, but they have not yet attained even the dignity of an outline scheme. All these works we should like to see accomplished, and the reason why we have not been able to insert them in the Budget is that we have given preference to matters connected with the Medical College which we thought even more urgent. These are briefly, the improvement of the nurses' quarters, which is a most necessary work, because, on the provision of accommodation for more nurses depends all these subsequent developments and enlargements of the institution. They will call for more nurses, and if there are more nurses, there must be somewhere to put them, so that work really stands on the threshhold of all these subsidiary projects. Secondly, after consideration in the Finance Committee, we decided to make a beginning with the Eye Hospital, and the provision in the Budget is only a beginning. This is a very large and expensive scheme which has been hanging fire for many years, and which I am assured by Colonel Maynard is a most crying need. Apart from that, let it not be overlooked that in this year and in the ensuing year we have spent, and shall spend, some Rs. 8 lakhs on the acquisition of land near the Medical College for future extensions. That is a very heavy bill, and in the light of it, it cannot rightly be said that we have not recognized the needs of the Medical College. When the large new avenue was being put through by the Improvement Trust to the west of the College, thus clearing frontage sites which would serve as an excellent boundary to the College on that side, we thought it would be folly to let the chance slip through our fingers, and we took up this land even at a very high cost. We now have room for expansion and it will be a matter of carrying out these different works in an orderly programme as our funds permit. I can assure the Hon'ble Member that we have not overlooked them, but our feeling is that we must consider other demands upon us, and, compatibly with them, it is not possible to spend more money this year on medical institutions in Calcutta. We have done more than we have been able to do for several years past, while we have also got to remember that there are the needs of the districts, and that it is a complaint which we have heard in the past, not altogether without justification, that, in proportion, more money is spent on medical institutions in Calcutta than on those in the *muffasal*. Therefore, Sir, I do not see my way to accept this resolution."

The Hon'ble Mr. Cumming said :—

"My Lord, in view of what the Hon'ble Sir Henry Wheeler has said, it is hardly necessary for me to make any remarks on the second item, namely,

Resolutions.

Rai M. C. Mitra Bahadur; Sir N. Sarkar.

that provision be made by a corresponding reduction in the estimated expenditure under the head 'Civil Works in charge of the Public Works Department'; but, as this appears in the agenda, I may simply inform the Council that Government are already committed to the expenditure, and, in the second place, that the project will be a remunerative one."

The Hon'ble Rai Mahendra Chandra Mitra Bahadur said :—

"My Lord, I am thankful to the Hon'ble Members for explaining the situation. I am also thankful to get the information from them that Government has full sympathy with the resolution which I have had the honour to move before the Council, that it is desirable that these improvements should be taken up, and that Government has spent and is spending large sums of money over the improvement of medicial institutions is a matter of gratification to me; but it will be for your Lordship to consider whether the improvements which have been suggested in my resolution demand the immediate attention of the Government. If it be said that these matters may stand over for some time longer, I have nothing to say on the subject, and, therefore, I think it necessary, after the explanations given by the Hon'ble Sir Henry Wheeler and the Hon'ble Mr. Cumming, that I should withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 3.

The Hon'ble Sir Nilratan Sarkar moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a sum of Rs. 1,00,000 non-recurring and Rs. 20,000 recurring be allotted for the extension of the Eden Hospital and for starting an Extern Maternity in connection with the same; and

(*b*) that the non-recurring expenditure be met out of the sum of Rs. 33,80,000 provided for works in progress (Civil Works in charge of Public Works Department), and the recurring expenditure be met out of the sum of Rs. 2,00,000 provided as General Reserve for unforeseen requirements.

He said—

"My Lord, I would have been the last person to move this resolution if I had not felt that the proposal contained in it was for some unforeseen requirements of an extremely urgent character. The Eden Hospital is the only hospital for clinical training in obstetrics for the students of the Medical College, Calcutta. The number of beds that are available for the purpose of such training are 16 and the number of admissions to such beds in the course of a year comes up to about 600 or a little over. Out of these 600 cases the students generally get about 400, the other 200 being allotted to the clinical teaching of the *dahis* and nurses. It would thus appear that these 400 patients have to be utilized for the training of about 180 students, 150 of whom are the University students, 20 military students and about 10 lady students, on an average. The average number of patients allotted to each student thus comes up to 2·2, while the University requirement is a minimum number of 6 patients to each student. It would thus appear that the number of patients in the Eden Hospital is inadequate to meet the

Resolutions.

Sir N. Sarkar.

requirements of clinical teaching and that extension is necessary in the interests of the students This has become particularly so on account of certain developments in which our students—I mean the local medical graduates—are about to loose some privileges in Great Britain and elsewhere which they had been enjoying for some time past, on account of inadequacy of training in this particular subject of obstetrics.

I have said something about the needs of the students, and I may be permitted to devote a few minutes to discuss the needs of the carrying-women in Calcutta. The number of women in Calcutta of the child-bearing age comes to about 108,000. The number of births registered annually comes up to about 18,000. About 1,600 of such confinements take place in hospitals and the remaining 16,400 outside hospitals. Probably 50 *per cent.* or about 8,000 of these women go without any help or they can get only the help which is worse than any help—the help of ignorant *dahis.* The infant mortality in this city during the first week of delivery comes to about 33 *per cent.* There is no organization for treatment in prepuerperal or post-puerperal state.

It would appear from the facts that I have already given that the average stay of a patient in the Eden Hospital cannot be more than 9 days, which means that many of those patients are admitted into the hospital already in a certain stage of labour, and they stay there for a week or a little over, and then discharged. In this country, my Lord, it is generally held that 4 weeks would be the proper time for which a woman should receive treatment in confinement. The higher authorities everywhere hold that a woman in a delicate condition should receive proper treatment for 4 weeks before and 6 weeks after labour. If we compare the state of things in Calcutta with those prevailing in Madras, we find that in the Medical College Hospital there a fairly good number of patients in delicate condition are kept for a certain period during which they are well fed, well taken care of, and in proper time they receive proper help. On the other hand, we have here in Calcutta only 16 beds for about 600 patients, and the average stay is only 9 days. Some of the patients in the most delicate condition have to incur the odium of overcrowding the wards on extrabeds or even on the floor; and they have to do that in preference to leaving the hospital unattended. There is no question about the need of extension from the point of view of patients also.

One word, my Lord, about the need of the extension from the point of view of professors and teachers. Every teacher in the medical line thinks of enlarging the bounds of his knowledge by observations and at the present moment prenatal physiology and prenatal pathology have become extremely interesting subjects of study. There is no opportunity for our professors and demonstrators to make such study in the Eden Hospital.

Looking at the matter whether from the point of view of the pupil, the professor, or the patient, the need appears to be urgent. I know there are difficulties. I know also that one ward accommodating another 16 beds could not solve the difficulty, but it would give relief to another 600 women and that is a good deal. My resolution seeks to give relief to a larger number of patients by the introduction of a system of an Extern Maternity in connection with the Eden Hospital. I am extremely happy to find that the Calcutta Corporation has realized the necessity of such a step and have already made some progress in this direction. The Extern Maternity that I propose is somewhat of a modified form of the maternity that has been introduced by the Calcutta Corporation. With the Eden Hospital as the centre, a maternity may be organized with a presiding officer, say of the rank of an assistant surgeon, who will always be present in the hospital, with 2 or 3 nurses and *dahis* and a number of students and who would be always available

for helping such patients. I know there is a misapprehension in some quarters that this help would not be availed of on account of the prejudices in the minds of our women. It is held in certain quarters, and I believe without sufficient justification, that many of our women would prefer death to being treated on such occasions. I claim to know something of our women in Bengal, particularly of the Hindu community, and in my experience I have never met with a case in which a woman has refused to be treated under such circumstances when treatment was necessary for her; and my assertion would be borne out by the fact that at the present moment there are about a dozen of practitioners who practise in this line, and in this line alone, some of whom have turned to be specialists of the highest order. The increasing number of patients in the Eden Hospital which has made it necessary for the Campbell and Belgachia Hospitals to admit labour cases also supports my view that there is a great demand for such help. I have no doubt that if an Extern Maternity be organized with the Eden Hospital as the centre, our women folk would avail themselves of the help and it would be also of great benefit to the students who will be able to profit by the clinical experience gained there.

I believe, my Lord, that I am not justified in trying to enforce upon the Hon'ble the Finance Member a resolution like this, particularly after the decisions in the Finance Committee. But my plea is this: that it is one of the unforeseen requirements for which provision has been made to the extent of Rs. 2,00,000, and as regards the capital expenditure I have just nervously proposed to utilize a portion of the Rs. 33,80,000 which is reserved for works in progress. So far as I understand, all these works are not likely to be finished within the course of the next year and, I believe, if Government will graciously accept this resolution there will not be much difficulty about spending this small sum for meeting the very urgent needs that I have pointed out.

With these few words I beg to commend the resolution for the acceptance of the Council."

The Hon'ble Sir Henry Wheeler said :—

"My Lord, the general line of answer to which I would refer the Hon'ble Member is that which I have just followed in connection with the previous resolution, and I would ask him to take those arguments in the main, without their repetition by me, viz., that we are already spending heavily on these Calcutta institutions, and in fact, up to the limit to which in the current Budget we think we are justified in going. Two points have a particular bearing on this question of the Eden Hospital, viz., preliminary provision for the accommodation of more nurses—obviously nursing plays an important part in cases of this kind—and the acquisition of land, part of which is specifically designed for this extension of the Eden Hospital. As to the merits of this project I am in full sympathy, and in fact, I have here before me notes outlining the very urgent needs of this hospital to the extent roughly of 2 wards with 20 beds in each, 10 more private rooms, a new out-patient block for the diseases of women, and accommodation for private rooms for nurses, surgeons, clerks, servants' quarters and out-patients. So we are perfectly conscious of the need, and I am also aware that the wards are overcrowded. Indeed, I am told that the Calcutta University Commission are likely to refer to that fact. Therefore, I do recognize this scheme as one of the most pressing wants, and when we get through with those works which we have in hand, I should *primâ facie* be inclined to put this Eden Hospital extension as the next scheme to be undertaken. That may not be pleasant to the Hon'ble Rai Mahendra Chandra Mitra Bahadur since it does not figure in his list, but it is essential to bring people into the world under as healthy conditions as possible, and we may well give a high place to this work in

Resolutions.

Sir N. Sarkar; Rai M. C. Mitra Bahadur.

anything connected with the medical improvement of the country. But, Sir, we do not see our way to make this addition to the present Budget, and there is another point of practical difficulty. ' At the present moment the Public Works Department is depleted in its staff, like every other department, and I understand that with the projects which we contemplate in the Budget they will have their hands full, if not more than full, during the coming year. But I can assure the Hon'ble Member that I will see that all the requisite preliminaries of plans and estimates to the best of our ability are pressed on, and that if I find any opportunity during the year of beginning this work, we will seize it.

As regards his suggestion for an extern maternity work, which I understand is on the lines followed in hospitals in London, where students attend outside cases, thereby helping the patient and gaining experience themselves, the idea, in connection with the Eden Hospital, is new to me, and I am glad to hear from Sir Nilratan Sarkar that he does not think that prejudices will stand in its way very much. *Primâ facie* I should have anticipated obstacles of that kind, but I am quite willing to refer the suggestion to the Superintendent, and if anything can be done on those lines, to try it. But the expenditure involved in this respect would scarcely be heavy, even if there would be any addition at all ; anyhow, it would not be more than we can find funds for. But regarding the major project of the building scheme, our attitude will be that of pushing on the preliminaries with a view to undertaking it at the first opportunity that presents itself, although we cannot now promise when that opportunity will arise."

The Hon'ble Sir Nilratan Sarkar said :—

"My Lord, having regard to the sympathetic attitude of the Hon'ble the Finance Member, I would ask permission to withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 4.

The Hon'ble Rai Mahendra Chandra Mitra Bahadur moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that provision be made for four lakhs of rupees in the Budget Estimates for 1919-20 for Famine Relief for Bankura and other districts ; and

(*b*) that the charge for the Provincial share be met from the General Reserve Fund of rupees two lakhs under the head 32—Miscellaneous for unforeseen requirements.

He said:—

" My Lord, I had not the opportunity of receiving the Revised Statement which has been subsequently brought to the notice of the Council ; the reason which led me to bring this resolution to the notice of this Council was that I felt strongly as to the distress prevailing in Bankura. Being one of the representatives of the Burdwan Division I thought it my duty to bring it to the notice of Government and that was the reason which led me to place the resolution for the consideration of the Council. It is a great pleasure to me to read the Revised Statement and to find that a provision of Rs. 50,000 has been made out of the Rs. 2,00,000—Imperial Reuenue is to be one of the component parts. My Lord, it is a gratificimperial Revenue is to be one small

provision has been made. I have great doubts whether Rs. 50,000 will be sufficient for the purpose, but I shall not venture any discussion on the subject. I ought to be satisfied now with the provision that has been made, and therefore, My Lord, with your Excellency's permission, I would withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 5.

The Hon'ble Maulvi A. K. Fazl-ul-Haq moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a lump-provision of Rs. 3 lakhs be made for famine relief operations in Bankura ; and

(*b*) that the money required be provided for—

(*i*) by curtailing the expenditure by Re. 1 lakh under Agriculture 26A—Co-operative Credit (reducing the Budget allotment from Rs. 3,46,000 to Rs. 2,46,000) ;

(*ii*) by curtailing expenditure under Sanitation 24B (reducing the Budget allotment under the sub-head "Sanitation and Vaccination Establishment" by Rs. 1 lakh) ; and

(*iii*) by alloting Re. 1 lakh from the lump-provision of Rs. 2 lakhs for unforeseen requirements (Misc.—32).

He said :—

"My Lord, the resolution about which I have given notice deals with the subject of making some provision in the Budget for the relief of distress in the district of Bankura, and if I may now add 'in some other places in this Presidency'. I would not have pressed this resolution but for the fact that in my humble opinion the provision that has been made is grossly inadequate. The reports that we have received during the last few days from Bankura and certain parts of the Tippera district point to the very widespread scarcity that has been prevailing in those parts for some time past, and which threatens to turn into a very widespread famine unless precautions are taken at once and in an adequate measure. Rupees 50,000 would hardly be a sufficient contribution towards the money which would be requisite. Even with the Imperial contribution of Re. 1½ lakh it would mean only Rs. 2 lakhs and I need hardly take up the time of the Council by trying to emphasize the fact that a sum of Rs. 2 lakhs is hardly sufficient to cope with the immensity of the work which officers on relief duty will have to face. I, therefore, press this resolution, although I do so with some regret. The question arises as to where the money, which I have proposed should be set apart, is to be got. I propose that the Provincial share should be Rs. 3 lakhs, and the balance should be got from the Imperial grant. Rupees 10 or Rs. 12 lakhs would, therefore, be at the disposal of your Excellency's Government, and it would be in some respects a tolerably good contribution towards the funds for the relief of distress. The suggestion that I have made refers to two of the departments of Government as to which there has been an impression that there ought to be as much grant as possible from Provincial revenues. As regards the Department of Co-operative Credit Societies which appeals so much to popular fancy, and which has received the benediction of the highest in the land on several occasions, and is daily praised by officials and non-officials, I might perhaps be accused of being a

Resolutions.

heretic for standing up in this Council to propose that there should be a curtailment of the Budget allotment on this head. I consider it my duty to point out that although this department is one of the most important of which the Government has got to take charge, there is still a limit to the extent to which public money should be spent on this department, and there are occasions when one has got to point out that these Government grants will not only do no good, but may be instrumental in doing positive harm and mischief. My Lord, I do not know if many of my colleagues are aware of the fact that I was connected with the working of this department some years ago, and at the time when this movement had to be guided through the struggles of early infancy. It was in those days that in consequence of the agitation over the Partition of Bengal, anything that was being proposed by Government was regarded as ban and anathema by the people. They used to think that every movement started by Government carried with it a sort of insidious desire to decoy people into unknown regions where they might be landed in some unforeseen difficulties. In those days there was one Registrar only, Mr. K. C. De, who is now the Commissioner of the Chittagong Division, and he had only two gazetted assistants and half-a-dozen Inspectors, and every time the Registrar went up to Government for financial help, he was told that this was a movement which ought to grow up spontaneously, and that it should not be forced on the people, as if it were an exotic growth on an uncongenial soil. We were also told, on the authority of no less a man than Mr. Woolfe, who is justly regarded as one of the highest authorities, not merely in England, but also on the continent and America, about the inadvisability of officialising a popular movement like this. I, therefore, submit that although Government ought to contribute towards this department in order to help the growth of this movement, Government should also take care that in course of time it does not become an official department like the other departments which your Excellency's Government has got to control. I find from the Budget estimates that the allotment this year exceeds by a little over a lakh of rupees the actual expenditure that has been incurred within nine months, and on that basis the actual expenditure which will be credited to this department by the end of this month will be a lakh and-a-half of rupees more than last year's expenses. The plain question is whether there is any necessity for increasing the Budget allotment by so large an amount, even conceding that the movement has been making progress and some Government help is necessary.

Now, my Lord, I looked up the figures and I find that there are at the present moment something like 52 central banks, and agricultural societies numbering a little over 3,300. For the control, and if I may say so, for the guidance of these societies it is proposed to give the Registrar not merely a Personal Assistant but four Joint Registrars on so high a salary as Rs. 500 and Rs. 400 a month, *plus* Rs. 100 local allowance, one Chief Auditor, 42 Inspectors and 2 Additional Inspectors. This means that the staff is going to be increased by 20 Inspectors and two Additional Inspectors, although the increase in the number of societies is not to be more than 300 in all. I would not have grudged this expenditure but for the fact that this large army of officials going about the country would naturally place the people in a position from which they will gradually lapse into a condition of lethargy and indolence. Why should this large army of officers be required? Hon'ble Members may not be aware, because one who has not actually been in touch with the working of the department, is not in a position to know that the work of these officers in the co-operative department is not of a very exacting character. The societies are situated somewhere in the interior of the district; the Inspector or the Joint Registrar or any other high officer of the department goes there and sends for the Chairman of the society, a few members may

Maulvi A. K. Fazl-ul-Haq.

appear and he enquires of them whether there has been any defalcation or embezzlement. The actual auditing does not take more than twenty minutes even in the biggest societies that now exist. That is not the sort of work which puts any strain either on the physical or mental capacity of these officers. There are Government servants who are four times as hard-worked who have not got this local allowance of Rs. 100 nor have they got the privilege of seeing their services mentioned in eulogistic terms every year in Government resolutions. My own impression is that the advance in this movement has not been so great or so marked as to necessitate an extra expenditure of a lakh and more which it is proposed to place at the disposal of the department. The extra expenditure will entail an allotment of over Rs. 60,000. Then, I find there is provision for temporary establishment costing over Rs. 15,000. There is then a lump-provision for additional establishment costing over Rs. 32,000, and office expenditure under head 'Miscellaneous Works' works out to Rs. 15,000. I submit, my Lord, that going over the question very carefully I do not find any sufficient justification for all the big provision that is going to be made for this department. There is another item which has called for lengthy changes costing over Rs. 9,000. I do not understand the utility of that lengthy change; at any rate Rs. 9,000 is a very big figure. I, therefore, think that instead of spending this money in this way it might be more usefully spent in alleviating the distress and discharging one of the highest and most humanitarian duties of which mankind can be capable.

On the second head, I have referred to 'Sanitation' under head 24-B. This is another department about which it would be blasphemous to say anything except in praise, but if I venture to make one or two remarks it is only with a view to point out that there are some allotments under this head, the money for which might be more usefully employed in affording relief to famine-stricken people; I hope I shall be excused. There is a provision relating to the hookworm disease of Rs. 75,000; then there is a lump-provision of Rs 10,000 for the Publicity Bureau; then there is a provision of Rs. 25,000 for investigating the cause of river pollution. So far as some of these works are concerned I do not know, at least the necessity of investigating the causes of hookworm disease as I am not a medical man, but I know the disease is somewhat prevalent amongst the people of this country; this is a kind of disease whose germs flourish very much in tropical countries, and if we find it prevalent in this country we may be sure that it is owing to our people living amongst the most insanitary surroundings which tend to develop the disease. I do not know how this money is to be spent for investigation; at any rate I consider it a high figure for an investigation of this kind. Then there is Rs. 10,000 for the Publicity Bureau. That figure seems to me to be very high, because, so far as the dissemination of news is concerned, it can be done through the vernacular newspapers, and for which no Publicity Bureau is necessary. Then, about the question 'of river pollution' I do not understand the problems nor appreciate the money spent over it, but even admitting that this Rs. 10,000 is necessary, I would suggest that the money be found from the lump-provision under head 'Sanitation' of Rs. 13,17,000, of which, by the way, we have not been given any details, but I think that this Rs. 1,10,000 can very well be got out of that lump-provision. All things considered, that sum might easily be set apart from allotments made under the head 'Sanitation.'

Lastly, there is a reference to unforeseen charges. There again, I submit that a lakh of rupees can easily be set apart for these purposes. My Lord, on these grounds I beg to propose that over and above the allotment that has already been made, viz., Rs. 50,000, another allotment of about 3 lakhs of rupees ought to be made under the 'head Famine Relief' and that the money be found by curtailing expenditure under the heads 'Co-operative Societies,' 'Sanitation' and 'Unforeseen Charges'. Before I sit down I do not wish to say

Resolutions.

Mr. Cumming.

that the expenditure of the Co-operative Societies is as a rule very much more than its normal requirements. What I mean to say is that the expenditure might be kept for the present within the limits which appeared to have been sufficient for the work during the last year. I only object to the extra expenditure for which I see no warrant."

The Hon'ble Mr. Cumming said :—

"Sir, the substantive part of the Hon'ble Member's resolution is that a sum of half-a-lakh which he understands is devoted to famine relief is not sufficient. It may be pointed out that his resolution refers only to one district, Bankura; and I suggest that he went beyond the bounds of his resolution in discussing areas in which scarcity is likely or imminent. He should have spoken on the previous resolution of the Hon'ble Rai Mahendra Chandra Mitra Bahadur, which was a general resolution. However, I may point out that had I spoken on that resolution, I would have been quite prepared to place the Council in possession of the facts regarding famine relief regarding which both Hon'ble Members appear to be under a misapprehension; but before doing so now, I think it is only right to point out that the Hon'ble Member who has spoken has devoted a disproportionate part of his time to the discussion of defects which, he alleges, exist in the existing co-operative organization.

I proceed to the substantive part of his resolution. It is not a fact that only Rs. ½ lakh has been given. The total sum placed under the head '33—Famine Relief' is Rs. 2 lakhs altogether, because one and-a-half lakh is obtained from Imperial sources and half-a-lakh is derived from Provincial sources. Practically the whole of that will be devoted to Bankura. A sum of Rs. 75,000 also appears in our Budget under another head and is available for gratuitous relief; and for the present it is ear-marked for the other area, Brahmanberia, to which the Hon'ble Member drew attention. Both Hon'ble Members who have spoken have entirely overlooked the fact that in famine relief organization there is, to use the language of the United Provinces Government, 'a recognized prophylactic', the free and liberal distribution of agricultural loans. For both areas during the present year I have placed at the disposal of the District Officers more money than they have been able to distribute so far; and for the forthcoming year, we have entered no less than Rs. 6 lakhs in the Loans Budget. Originally the amount estimated was Rs. 4 lakhs, and that has been increased to Rs. 6 lakhs; and if operations are extended and we require more, more will be obtained; but the sums which have been allotted for relief work, gratuitous relief and agricultural loans in the ensuing year will not bear unfavourable comparison with the amount spent in the previous years for which we have records of distress in these two areas. If we are fortunate enough to have a good monsoon in the present year, I foretell that by October next in both areas there will be no further necessity for any special expenditure by the State. We should not overlook the fact that in both areas the District Boards are expected to do something, and I think we are entitled to call upon them to do something. So much, Sir, for the substantive part of the resolution.

As regards the excessive expenditure in the co-operative credit movement to which the Hon'ble Member has taken exception, he no doubt is a practised advocate and can argue on both sides of any question. I have heard him accusing Government for its laxity in not spending more on this movement. As regards the head 'Sanitation' the Hon'ble Maharajadhiraja Bahadur will deal with that point. I propose to visit shortly the two areas in question. I have refrained from doing so hitherto in order that the situation might sufficiently develop. The Hon'ble Members will realize that after many years of experience of famine conditions, not only in Bengal, but in other Provinces, I am not likely to be lax in seeing that Government do their duty."

Resolutions.

Babu S. N. Ray ; Mr. P. C. Mitter.

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I am sorry I have to oppose that part of my hon'ble friend's resolution which seeks to curtail expenditure under 'Sanitation—24B' (reducing the Budget allotment under the sub-head 'Sanitation and Vaccination Establishment' by Re. 1 lakh). As a member of the Sanitary Board I have seen the work which has been done and also as a member of the Malaria Sub-Committee I have seen the work which is now being done by that Sub-Committee. Hitherto our grievance has been, at least for the last two or three years, that Government have not allotted a sufficient sum for 'Sanitation', but this year a decent sum has been set apart by Government for sanitation—Rs. 13,00,000—that will meet some of our crying needs. Having got that sum allotted for sanitation we now say that a sum of Re. 1 lakh ought to be curtailed and spent for other purposes.

Then, as regards the hookworm disease, it is well known that it is prevalent in damp places, in mining districts and in tea gardens. In fact, it came as news to us when we heard for the first time from some of the experts that nearly 80 *per cent.* of the people of these localities were infected with the disease. Your Lordship was pleased to convene a meeting of the representatives of the mining districts and tea gardens here, and we all here heard your Excellency's speech and also what the other gentlemen, some of them experts, had to say on the subject. It is necessary, we all thought, that a sufficient sum of money should be set apart to tackle this question, and it is better to spend money, not in driblets, but in a lump-sum, so that we shall be in a position to exterminate the disease, root and branch, from the infected localities. My friend says that it is much better that we should spend money in feeding people ; that is no doubt a very good thing, but can you say that simply by feeding people you guard against this hookworm disease? I was told just now by a friend of mine that it is just like building a house at a very large expense in order to prevent the house from catching fire. We may spend any amount of money, but if there is a fire near by, the house is sure to catch fire. So we must spend sufficient money to try to exterminate this disease, especially in mining districts, and in those tea garden areas and also in damp places where it is prevalent. The purpose of my hon'ble friend is no doubt very good—he wants Rs. 3 lakhs for famine relief operations in Bankura. Government will provide a sufficient sum of money for famine relief, but I am bound to say that this provision ought not to be made by curtailing expenditure on sanitation."

The Hon'ble Mr. P. C. Mitter said :—

"My Lord, I do not really know whether my hon'ble friend Maulvi A. K. Fazl-ul-Haq, is serious. So far as I remember, last year about the Budget time I moved a resolution for allotting Rs. 50,000 for improvement of co-operative societies, and so far as I remember the then Hon'ble Member in charge, Mr. Beatson Bell, opposed my motion. That motion was put to vote, and if I remember aright, my hon'ble friend, Maulvi Fazl-ul-Haq, voted with me. Since then and in spite of the opposition of the Government the motion was passed and Government, to give effect to that resolution, provided Rs. 12,000 last year, because no complete scheme was ready then. This year as that resolution had already been passed by the Council I brought it to the notice of the members of the Finance Committee and the Finance Committee came to the conclusion that the balance of Rs. 38,000 should be provided. Last year when my hon'ble friend voted with me perhaps he was not a great disbeliever in the benefits which our people derive from the co-operative movement. I do not know what is the real reason which makes him change his opinion. Perhaps my hon'ble friend's reason is that whatever the Government does must be opposed irrespective of any consideration as to

Resolutions.

Maharajadhiraja Bahadur of Burdwan.

whether such opposition is detrimental or beneficial to the interests of his countrymen whom he professes to represent in this Council. If that be the reason then his position is explained :—when I was against Government my hon'ble friend was with me and now that the Government is giving effect to the resolution which was passed with his support he his consistent in his principle of opposing the Government. My Lord, I should have thought that of all persons my hon'ble friend who was connected with this department for some time as a member of the Provincial Civil Service and who is presumably conversant with the rural areas knew what great benefits this department could confer upon the poorer section of my countrymen. I should have thought that my hon'ble friend knows that although a large sum like one and-a-half crore is now invested in agricultural credit loans, not even 5 *per cent.* are the members of the co-operative societies. I should have thought that my hon'ble friend knows that in jute alone the raiyats of Bengal lose 28 crores of rupees through middlemen. My Lord, I do not desire to deal with this question further, but my hon'ble friend's opinion is so contrary to all opinions—Indian or European—that I can hardly think that my friend is serious especially after his vote last year in favour of extension of co-operative movement.

My Lord, his second point of attack is 'Sanitation.' For years past educated Indians have been urging that Government were not spending enough on sanitation. Only the other day I was reading in the papers of a slight breeze between the Hon'ble Mr. Ironside and the Hon'ble Babu Surendra Nath Banerji. If that debate had taken place a few days later Mr. Ironside could use Mr. Hughe's speech as a very effective weapon against Mr. Banerji.

But here again I hardly think my hon'ble friend is serious. His position seems to be that whatever Government do must be attacked. About sanitation we all know that 71 persons out of every 100 in Bengal die before they attain the age 30, 85 per cent. die before 40 and 93 persons out of 100 die before they reach 50. In view of this deplorable state of public health, can any one who represents the public in this Council urge the curtailment of provision made for expenditure on sanitation? I do hope, my Lord, that my hon'ble friend is not serious and that he will yet see his way to withdraw the resolution and withdraw his remarks opposing spending money on sanitation and co-operative societies."

The Hon'ble Maharajadhiraja Bahadur of Burdwan said :—

"My Lord, I have to get up to defend the provisions that have been made under the head of 'Sanitation' by the department under me. Already the Hon'ble Babu Surendra Nath Ray and the Hon'ble Mr. P. C. Mitter have spoken on the necessity of the provision made by the Government under head 'Sanitation', and it is not my desire therefore to make a further defence of any provision under the head of 'Sanitation' generally, but to point out to the hon'ble mover of this resolution that when he made those remarks about the provision which we have made under the head 'Sanitation', he evidently did not take the trouble to study the question carefully. I think pages 75, 76 and 83 of the amended draft Financial Statement make amply clear all the various important schemes that we have to take up and propose to take up in this connection, and hope to try and start within the year under Budget. I think his memory is particularly short regarding the discussion that took place in this Council in connection with river pollution, and it was because although I was not able to meet the requirements of the Hon'ble Rai Mahendra Chandra Mitra Bahadur at the time that I promised on behalf of Government to go into the question of river pollution that this provision has been made. If we turn to the figure for the amount provided for enquiry

into the hookworm disease, the survey regarding the havoc played by kala-azar and other matters connected with the prevention of disease in Bengal, it will be seen that in view of the well-established fact that these different diseases are playing such havoc on the public health of Bengal that the provisions really are very modest.

He perhaps might attack us on the question of the establishment of the Publicity Bureau. Here again, what I have to bring forward is that in every country, in every civilised country, it has been thought necessary to educate the public mind through such a medium and we are only following the lead given in other countries in a matter of this nature. Therefore here again if we look at the provision and if we look at column 9 of the remarks on page 76 where this provision occurs, we will find that the provision is really a very modest one. I do not think, Sir, that any very strong case has been made out by the hon'ble mover of this resolution. He brings it in first of all with a pleading for the famine-stricken people of Bankura with whom I am personally concerned. Then he attacks the co-operative movement with which I have no concern directly, but regarding the question of sanitation all I can say is that the amount that we have provided under the different heads is the minimum amount that we could possibly have provided and that it would not be possible to reduce it further, and I therefore strongly oppose any amount being taken from the head of Sanitation for the purposes which the Hon'ble Member has in view."

The Hon'ble Sir R. N. Mookerjee said :—

"My Lord, I have listened to the debate with great attention. There is one important point which I think has not been touched upon, viz., the direct effect of the improvement of sanitation on the economic condition of the masses. It is amazing to me that our political leaders, who either in this Council room or on outside platforms always advocate the improvement of the condition of the masses and the development of industry should take up such a position and ask for a curtailment in the expenditure on sanitation. It is true that Indian labour is apparently very cheap, but it is also true that we cannot compete with foreign labour. The reason is that Indian labour is generally inefficient owing to their bad health. Your Excellency has very prominently brought to the notice of the public the bad effect of the hookworm disease on our labour. It has been satisfactorily proved in the investigation by the Industrial Commission that hookworm disease renders our labour inefficient. Although we generally pay only four to eight annas a day per head as compared with two to three shillings a day in Europe, still the quality and quantity of work of our cheap labour is from ¼th to ⅛th to that of foreign labour. The reason for this is the inefficiency of our labour chiefly owing to bad health from hookworm disease. It is indeed amazing to me that a member like my friend Mr. Haq who takes so much interest in the general welfare of the country should come forward and ask for a reduction of grant under the head of 'Sanitation' and to divert it to Famine Relief Fund. The object of my friend's resolution is undoubtedly very noble, but we know from past experience that whenever there has been a famine, Government has always come forward to save the lives of the people and we therefore need not and should not ask Government to reduce expenditure on sanitation to save money for famine relief."

The Hon'ble Kumar Shib Shekhareswar Ray said :—

"My Lord, I do not accuse the hon'ble mover of the resolution of opposing the Government for the sake of opposing them, as my friend the Hon'ble Mr. Mitter has done. In fact, I have the greatest regard for him as our political leader, and a more unselfish and devoted patriot is hard to get in the

Resolutions.

whole of the presidency of Bengal. But I must oppose the resolution. Perhaps my hon'ble friend, when he sent in notice of this resolution, did not know that a sum of Rs. 2,00,000 was to be spent on famine relief, but it is now a fact and so in a way, out of my hon'ble friend's demand for lakhs, 2 lakhs have already been allotted for famine relief and for the remaining 1 lakh he can certainly depend on the Government, and should a necessity arise the Government would not be so irresponsible and callous as not to come forward with the necessary contribution from the Unforeseen head. The hon'ble mover wants to curtail the expenditure on Co-operative Movement and also on Sanitation and in doing this he apparently overlooks the fact that it is by the diffusion of the principles of co-operation and proper sanitary arrangements that we hope to fight famines in future. It is therefore that every pie spent on co-operation and sanitation is an investment which would in times of real necessity repay hundredfold. My friend remarks that the work of auditing accounts is an easy job, but, my Lord, I think it otherwise. I am connected with two or three rural banks—of course they are not co-operative banks—and I know that it took two weeks for an auditor to audit their accounts and we had to pay Rs. 150 for each of them. I therefore object to any curtailment of the budgeted amounts on Co-operative Movement and Sanitation."

The Hon'ble Maulvi A. K. Fazl-ul Haq said :—

My Lord, I find from the discussion that if I carry this resolution to a division I will find very few supporters, but having been responsible for having made two suggestions at any rate, which have brought down on my devoted head remarks from the other side of this House, I do not think I can with justice to myself make a precipitous retreat without saying a word or two by way of personal explanation.

It has been remarked that I have been labouring under a misapprehension as regards this point, but I also beg respectfully to point out to Hon'ble Members who have accused me of carelessness, if nothing worse, that they have misunderstood not merely the purpose of the resolution but what I submitted for the consideration of this Council when I moved this resolution. It was never my intention, so far as the Co-operative Societies Department is concerned, that the expenditure should be curtailed below what experience has taught us to be the normal requirements of the department, but what I suggested was that the increased allotment that now figured in the Budget estimates should be deleted, and this money be utilised for a very exceptional purpose—a purpose not merely exceptional but of the utmost urgency, and regard for which should take precedence of our anxiety to help the administration in other matters. I simply suggested that the extra staff that it is proposed to place at the disposal of the Registrar is not necessary and therefore that expenditure might very profitably be postponed for one year more.

My hon'ble friend, Kumar Shib Shekhareswar Ray, has pointed out that I was not quite correct when I said that it required only a few minutes to audit the accounts of a society. Ordinarily my own experience is that it does not take more than a few minutes. If certain auditors took two weeks to audit the accounts of a rural society, they must have been very dull. I do not know who they were, but the society's accounts may also have been of abnormally large proportions. So far as my recollection goes it never took me or any of the officers who were working at that time more than half-an-hour to audit the accounts of the most complicated society that then existed. I know that the movement has made great progress, but at the same time what the department is doing is this :—It is splitting up large societies into

Resolutions.

Maulvi A. K. Fazl-ul-Haq.

smaller ones so that the increase in number is more illusory than real. However, I am not here to say anything as to the merits of demerits of the movement because I do not for the moment wish the Council to believe that I am not one of the greatest enthusiasts that can possibly be in favour of this movement. I have spent some of the best days of my life in whatever service I could render in popularizing the movement among my own countrymen, and I do not think that I would be recanting the many advantages that I derived from my life as an officer of that department were I at this moment to express anything but approbation of the work that is being done by this department.

My Lord, as regards 'Sanitation' I fully agree with the Hon'ble Babu Surendra Nath Ray that this one of those departments as to which Government cannot be too generous in making allotments in the annual Budget, but this I pointed out as one of two items of expenditure which might not do much harm or injury if postponed for a year, and I even said that if no postponement was possible that the money requisite might be got from the lump-provision of about 13 lakhs under the head of 'Sanitation'. I know that the Sanitary Board is going to wage war against the hookworm; I do not propose to take sides either with them or with the bureaucrats; let them fight it out, but what I suggested was that if the money was absolutely necessary, the money could have been got from the unallotted lump-provision that was made under the head of 'Sanitation'.

Before I sit down, my Lord, I must say a word or two as regards the observations made by my friend, the Hon'ble Mr. P. C. Mitter. He has got the great privilege of being one of my friends ever since the time we entered the Presidency College together, and he can certainly draw upon that circumstance with as much liberty as he likes in making any remarks that he pleases, but I wish to point out that it never occurred to me that during my activities in this Council I posed always as an unrelenting antagonist of Government. I cannot see how a proposal to allot Rs. 3 lakhs could be called going against the Government. I think one ought to be credited with the best of intentions when one really comes forward with suggestions to fight famine, and if I have ventured to make a suggestion I have done so in response to a duty which I think Government equally like myself owe to the people of this country. It is difficult for men in the position of my hon'ble friend living in palatial buildings in Elgin Road and Theatre Road to conceive the appalling distress which prevails in mufassal districts when agricultural conditions become unfavourable—conditions which at the present moment are aggravated by the fact that the price of cloth and other commodities of life has taxed to the utmost the slender resources of the people of the land. My Lord, it was not in a spirit of opposition that I brought up this resolution before the Council. I do not know if I can be accused of being a perpetual antagonist of Government just as much as there are some persons in this Council who can be accused of going in favour of Government on every and any occasion whether Government take a reasonable attitude or not. There are people who always oppose the Government and there are people whose mission in life is always to support the Government, but I belong to neither category. When I put forward my suggestion it was with the best of intentions to suggest to Government ways and means for finding out necessary expenditure on famine relief operations. I placed before the Council my most earnest conviction that Rs. 2 lakhs will be absolutely insufficient to meet the needs of the situation. Two lakhs of rupees would not be sufficient to meet the funeral expenses of the dead, it would not be sufficient for the needs of the dead if there is a widespread famine. It is for this reason that I suggested that a larger allotment

Mr. Cumming ; Babu B. C. Ray.

should be made. With Rs. 9 lakhs to be got from the Government of India it would make Rs. 10 or 12 lakhs which I wanted for this purpose. There has been tremendous opposition lest the co-operative fund be depleted or the funds of the Sanitary Board, but this is also a duty of your Excellency's Government, and it is for your Excellency's Government to decide what to do in this matter."

The Hon'ble Mr. Cumming said :—

"Sir, I may be permitted to make two observations before this debate closes. The first is that I am sure there is really no difference of opinion about the propriety of making due provision for famine relief. If that general proposition is accepted, I must still protest against the abuse of the English language. The word 'famine' has a very definite signification. I have seen famine in the United Provinces; I have seen it in Bihar; but except for a certain period in Bankura there has not been in Bengal famine—as the word is really understood in the Famine Code—for almost twenty-five years.

In the second place I wish to observe that the total amount that has been allotted during the current year is not inconsiderable. Hon'ble Members should remember that considerable sums have been given for relief works, for agricultural loans and for gratuitous relief. In the forthcoming year, the estimates of which we are discussing to-day, the total amount allotted under different heads, apart from expenditure which the district boards may make, is 8¾ lakhs; and as I have said before if, as time progresses, it is found necessary to spend more money in view of developing circumstances Government will be prepared duly to recognize and meet the new situation."

The resolution was then put and lost.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 6.

The following resolution stood in the name of the Hon'ble BABU BHABENDRA CHANDRA RAY :—

This Council recommends to the Governor in Council—

(*a*) that the provision for gratuitous relief under the expenditure head "Miscellaneous" be raised from seventy-five thousand rupees to two lakhs of rupees; and

(*b*) that a deduction of Rs. 1,25,000 be made from the provision for Police buildings to counterbalance the said increase.

He said :—

"My Lord, in view of the provision already made under the head 'Famine Relief' in the revised Financial Statement, I think that I should withdraw this resolution."

The resolution was then, by leave of the President, withdrawn.

Resolutions.

Babu K. M. Chaudhuri.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 7.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved the following resolution :—

This Council recommends to the Governor in Council that no expenditure be incurred next year for the Dacca University pending the action taken on the recommendations of the Calcutta University Commission, and that the sum of Rs. 3 lakhs set free be spent for the spread of primary education.

He said :—

"My Lord, before I say anything on this resolution I think I should make my ground clear in order to guard myself against any attack coming from any of my friends from the Eastern Quarters interested in the establishment of the Dacca University. I know fully well that it is a decided proposition now and that it is sure to come into existence at no distant future. But I think the sum set apart in the next year's Budget could be spent for some more useful purpose for the present. Your Excellency's announcement, if I remember aright, at Dacca was that at least Rs. 15 lakhs would be spent next year for the furtherance of that scheme. It is mentioned in the Budget that Rs. 15 lakhs would have been spent, but for reasons known to the department at least Rs. 12 lakhs would be set back and only Rs. 3 lakhs would be spent. As far as I understand it is pending the consideration of the recommendation of the University Commission upon the report of which body the Government's policy will have to be considered, which will surely take some time. It may be, my Lord, that at the end of the year we would hear that money could not be spent. This year at least a very large sum could not be spent for reasons best known to the department, though we hear that out of the Rs. 18 lakhs shown to be unspent some amount had been spent for the construction of building and so forth. My idea therefore is that this paltry sum of Rs. 3 lakhs may not be provided in the next years' Budget. The establishment of the Dacca University would require a large sum and your Excellency's Government would be able to secure that amount out of the cash balance with the sanction of the Government of India which can be provided next year. No useful purpose will be served by an expenditure of Rs. 3 lakhs. As soon as my hon'ble friend Babu Surendra Nath Ray's Primary Education Bill is passed into law, which, I hope, is sure to be passed on the 27th of this month, a large sum would have to be spent by Government to give it a fair start, encouraging the mufassal municipalities to come forward and take advantage of the provisions of the Bill: and it is for that purpose that I have put forward my proposal that the Rs. 3 lakhs set apart for the Dacca University be allotted for the spread of primary education. I know Government are very anxious to develop the village life, and the village self-government is also very likely to come into existence; but in the village life the most important thing is the adequate arrangement for the primary education. So any sum that can be spent for primary education ought to be spent at any cost. I need not say much on the importance of the primary education, but whatever is done either for imparting improved knowledge in sanitation or any knowledge in agriculture or industrial knowledge, primary education is the basis. The sum set apart for primary education, to my mind, is very inadequate. I do not like to take much of the time of this Council by discussing this question and with those few words I beg to recommend the resolution for the acceptance of this Council."

Resolutions.

Babu S. N. Ray.

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I have great pleasure in supporting this resolution. It appears that your Excellency's Government have already made some provision for the development of primary education in rural areas. I find in page 33 of the draft Financial Statement that there is a lump-grant of Rs. 5,50,000 for the development of primary education, but it appears that a large portion of this amount will be spent in rural areas. It appears that the following are some of the items :—

	Rs.
Increase in the pay of teachers of aided primary schools ...	80,000
Establishment of primary schools for girls in Panchayati unions	30,000

and so on. I find that out of this Rs. 5,26,000 only Rs. 78,000 or in round numbers about Rs. 80,000 may be said to be allocated to municipal areas, and one of them the following :—

Building for model primary schools for girls ...	Rs. 16,000

Even if the whole amount be spent in municipalities, the grant to local bodies to enable them to raise the rate of stipends of untrained teachers in aided primary schools and muktabs for boys will be Rs. 60,000, provision for lower primary schools in municipal areas Rs. 2,664, making a total of Rs. 78,664, but as my friend has already suggested that if the Primary Education Bill be passed, a sum of at least 3 lakhs will be necessary for the development of primary education in municipal areas. I find from the opinions given on the Primary Education Bill one opinion given by Mr. Samman who was the Education Secretary to your Excellency's Government and he gives this opinion. He says : 'Municipalities already spend more than one lakh of rupees a year on education of all sorts. With a population of less than 2 millions only, four lakhs would be required for universal free education of boys between the ages noted. The difference of 3 lakhs represents an incidence of only 2½ annas a head of the municipal population of Bengal outside Calcutta.'

According to his estimate, and he was an authority on those matters, it will be necessary to have at least 3 lakhs of rupees for the development of primary education in municipalities. Of course I admit that we ought to levy an education cess for the development of primary education in mufassal municipalities, but if we depend entirely upon education cess for the development of primary education, then all I can say is that primary education will not be developed. We require some help from Government, and I find also from the last report of the progress of education in India a remark by the Education Secretary to the Government of India, Mr. Sharpe, that the Government ought to be prepared to meet some portion of the cost for the development of primary education and ought not to leave everything to local bodies. The other day when the Hon'ble Mr. Sarma asked for a grant of one crore and 80 lakhs for the development of education and sanitation of the country, the Finance Member said that those are local matters and ought to be tackled by the local Governments. So I think it is a matter which entirely rests with your Excellency's Government. I find that provision has been made for all and sundry requirements, but no provision has been made for the development of primary education in the mufassal municipalities. I am glad to see that a very good sum, I think about

The Maharajadhiraja Bahadur of Burdwan.

5 lakhs of rupees, has been set apart in the Budget of the Calcutta Corporation for the development of primary education within the town of Calcutta, and that without the imposition of an education cess. So it will be necessary to make some allocation of funds for the development of primary education in the mufassal municipalities.

Then as regards ways and means, I do not agree with my hon'ble friend; it is for your Excellency's Government to find out ways and means."

The Hon'ble Maharajadhiraja Bahadur of Burdwan said :—

"My Lord, the resolution before us has been worded in the usual characteristic picturesque way of the Hon'ble Member, but I am not very much concerned with that. From the point of view of Government what I have to say is that it is quite impossible for the Government to divert the three lakhs of rupees from the scheme intended for the Dacca University. On the question of primary education generally, which has been brought forward not only by the hon'ble mover of this resolution, but by the gentleman who has followed him, I shall say a few words when I conclude. Meanwhile, I would like to point out to the hon'ble mover of the resolution that I confess I cannot follow the working of his mind regarding the Dacca University scheme. He does not want that the Dacca University scheme should not be proceeded with, but then he argued that because he thought all the money would hardly be spent, that it may be spent on something more useful. Well, of course, primary education is undoubtedly a matter on which, as this Council knows very well, the Government is only too anxious to make a real start, but when it comes to taking that money from the Dacca University, I am afraid that that cannot be done. The hon'ble gentleman has himself said that we are pledged to the scheme; he has himself referred to the speech your Excellency made the other day when at Dacca in connection with making an early start with this scheme, and in spite of these two very important facts, he still wants to defer making any expenditure during the current year. He knows full well, if he had the time to read this morning's paper, that the report of the University Commission is likely to be sent in soon, and that the European members of that Commission are about to proceed to England after their work. What does all this mean? It means that before very long the Government may naturally expect to know what the Commission have recommended. I may say at once that in the matter of the Dacca University, the Government are bound to fulfil its pledges. What is more, we have been recently told by the Government of India that they consider it very important that no time should be lost in giving effect to such of the proposals of the Commission as may be approved after full consideration, that in view of this we must really begin the work during next year. I therefore do not see how we can possibly expect the large saving which the Hon'ble Member says we shall have in the provision we have made for the University requirements. It is a curious working of the mind, too, when we come to realise that when the question of primary education is perhaps more before the country than it is now, whether Hon'ble Members of this Council would propose that higher education is to suffer at the expense of primary education. On this large question I do not propose to go into at present.

I shall now turn to what has fallen, curiously enough, from the Hon'ble Member in charge of the Primary Education Bill which he thought would be passed into law at the last meeting of the Council. He has brought in a Bill for the introduction of a voluntary system of education for rural and urban

Resolutions.

Babu K. M. Chaudhuri.

areas, and to-day we find him not only stating facts which we know to be true, namely, that we cannot entirely depend on the levy of an education cess, but what is surprising is that he is supporting this resolution because he is jealous that we have provided Rs. 5½ lakhs for district boards and not for municipalities ; well, that is a very narrow point of view to take, especially when he knows that ample opportunity will be given to municipalities when the new Bill becomes law to try and improve their requirements so far as the needs of primary education in these areas are concerned. My Lord, I regret that I cannot recommend to this Council the acceptance of the resolution moved by the Hon'ble Babu Kishori Mohan Chaudhuri. I think that the Government have delayed long enough giving effect to the recommendations of the Dacca University Commission, and it was only because Government thought that as the Calcutta University Commission had been appointed that they stayed their hands for the time being so as to enable them to give effect to whatever changes in the Dacca University scheme the Commission might recommend. This Government did not for a moment think and do not think that the University Commission would in any way recommend the abandonment of the scheme or modify it in such a manner as would again mean further delay, and I therefore recommend that the resolution be opposed."

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

"My Lord, I am sorry I am opposed in this by the Hon'ble Maharajadhiraja Bahadur of Burdwan, the Member in charge of Education. I am not really convinced that this paltry sum will be of any avail in giving a start to the establishment of the Dacca University. Of course, I saw from your Excellency's announcement at Dacca that at least Rs. 16 lakhs would be provided, and if that was so, I should have been the last to say anything about it. I think if it be necessary to give the Dacca University a start, Rs. 3 lakhs would be a very unsuitable sum to provide for it. What I mean, my Lord, is that if it is urgently necessary to start the college this year, then a large amount which is in the hands of Government may be made available. I have seen the detailed Budget and I have not heard any details of the Rs. 3 lakhs which it is proposed to provide in next year's Budget. The only thing which struck me is that the sum is a very paltry one and to give a start to the Dacca University that sum is quite inadequate. If it be necessary to do something for the satisfaction of the Dacca people, that a start is being made, that can be done in other ways. Without seeing the details of the Budget I am sorry I have not been convinced as to the necessity for keeping this sum especially reserved for the purpose and not spending anything out of it for any better purpose. Though there is some provision for the levy of an education cess, still if anything is to be done to give a fair start to the working of the Primary Education Act when it is passed into law, I think Government should be liberal enough to spend a decent sum for the help of the mufassal municipalities for the present. It is with this view that I brought this motion forward, and I would have been glad if anything came of it. I propose Rs. 3 lakhs; if Government think a lesser sum would be enough, I would accept it, but I am sorry, my Lord, that I am opposed entirely. It was far from my mind to doubt the utility of the establishment of the Dacca University. I did not bring forward this proposal with any idea that we should discourage the establishment of the Dacca University in any way. My idea was that to give a fair start to primary education, an adequate sum is necessary and that Government should come forward with some substantial help, and in that view I brought forward this proposal. I still hope that Government will see their way to accept the resolution."

APPENDIX TO THE LIST OF BUSINESS—Item No. 8.

In the absence of the **Hon'ble Babu Akhil Chandra Datta** the following resolution which stood in his name went by default :—

This Council recommends to the Governor in Council—

(*a*) that suitable provision be made in the next year's Budget to give effect to the scheme of water-works for the Chandpur Municipality; and

(*b*) that the necessary amount be taken out of the provision of Rs. 1,25,000 in the Land Revenue Budget as a first instalment of the expenditure to be incurred on circle officers.

AFTER LUNCH.

APPENDIX TO THE LIST OF BUSINESS—Item No. 9.

The Hon'ble Maulvi Abul Kasem moved the following resolution :—

This Council recommends to the Governor in Council that the sum of Rs. 1,620 allotted for the grant of personal allowance of clerks in the office of the Commissioner of Police, Calcutta, be added to the grant for the provision of primary scholarships.

He said :—

"My Lord, by moving this resolution I beg to bring two facts to the notice of your Excellency's Government. Firstly, it is proposed in the Financial Statement to grant personal allowances to five of the clerks in the office of the Commissioner of Police, and it appears from the statement that these clerks draw a salary of Rs. 100, Rs. 125, Rs. 150 and Rs. 200 and it is proposed to add to their remuneration by the grant of personal allowances, and the only reason that I find in the statement for the grant of these allowances is that they have had no increase of pay for 5 years. My Lord, I beg to submit that if an increment is to be granted in the pay of ministerial officers, the case of the clerks and assistants in the offices of District Magistrates and District Judges should receive prior consideration than that of those ministerial officers employed in Calcutta. The head assistants and superintendents as well as the senior assistants in a Magistrate-Collector's office and the sheristadars, naziras and head clerks in the District Judge's office have to perform certainly more responsible duties than the assistants in the office of the Commissioner of Police and their work is certainly much harder than that of these clerks. I am afraid, my Lord, that in the case of the presidency police the Government have to concede generally the proposals made by the authorities of the police, and in making these allotments the cases of other officers of Government are not properly considered. I suggest that this sum may be added to the funds allotted for the provision of primary scholarships and I make this suggestion because I think the amount allotted for these scholarships which is a little over Rs. 2,000 is not sufficient for the purpose. I beg to submit, my Lord, that this grant of personal allowance is to my mind a little bit of extravagance and should not be granted, and that the money can be better utilized either by increasing the grant for primary scholarships or in even other better purposes than this. With these words, my Lord, I beg to commend the resolution to the acceptance of the Council."

Resolutions.

Mr. O'Malley; Maulvi Abul Kasem; Babu K. M. Chaudhuri.

The Hon'ble Mr. O'Malley said :—

"My Lord, the hon'ble mover is under a misapprehension in stating that only Rs. 2,000 has been allotted for scholarships. If he will turn to page 110 of the Civil Budget Estimates, he will see that altogether Rs. 14,500 are allotted for upper primary scholarships and Rs. 1,500 for lower primary scholarships; the total provision for primary scholarships in the Budget therefore comes to Rs. 16,000 and this figure is based on actual requirements. It represents the sum which Government provides for primary scholarships, and in addition to them scholarships are also provided by local bodies. The resolution starts with the assumption that the sum of only Rs. 2,000 is allotted for primary scholarships, and that it is necessary to increase it by Rs. 1,620 to bring it up to the total of Rs. 4,000; and I think therefore that when a total of Rs. 16,000 has already been provided, it will be realised that the object of the mover is met. I submit also that it would not be fair to dock the clerks of the office of the Commissioner of Police of their allowances. The sum of Rs. 1,620 would not go far in providing scholarships throughout the province, but its loss would mean a great deal of difference to clerks living in Calcutta in these days of high prices, who receive these allowances only in cases of hardship and long service on the same pay. For these reasons, I am unable to recommend the resolution to the acceptance of the Council."

The Hon'ble Maulvi Abul Kasem said :—

"My Lord, when I gave notice of this resolution I never intended to press it to a division, but I only wanted to bring to your Excellency's notice and that of your Excellency's Government the fact that the money was wanted for primary scholarships and also the fact that it is not fair to grant personal allowances to clerks in the office of the Commissioner of Police whose office is situated at Government headquarters. The Hon'ble Mr. O'Malley has said that it will not be fair to deprive them of these personal allowances in these hard times, but I submit, my Lord, that in these days the work of the clerks and ministerial officers in mufassal stations is much harder than that of the ministerial officers at headquarters. What I wanted to do was to submit for your Excellency's consideration and that of Government the fact that the first party who deserves consideration at the hands of the Government in the matter of personal allowance were the ministerial officers employed in mufassal offices, but if Government think otherwise I must submit to it and I must withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 10.

The Hon'ble Babu Kishori Mohan Chaudhuri moved the following resolution :—

This Council recommends to the Governor in Council that the increase in fee receipts and the savings, if any, for each of the Government colleges be spent for the improvement and development of that institution by bettering the prospects of the teaching staff and meeting other requirements of the college, and that necessary changes be made in the Budget accordingly.

He said :—

"My Lord, recently, about a year ago, increment has been made in fee rates for the Krishnagore, Hooghly, Chittagong and the Rajshahi Colleges.

Babu K. M. Chaudhuri.

and last year I brought forward a resolution—that fee rates should not be increased—for the benefit of the poorer section of the student community. Unfortunately I was not successful. The reply of Government was that a uniformity of rate should be observed. I expected not only a uniformity in fees but a uniformity in other advantages, that uniform educational facilities would be provided and the money would be utilized for that purpose. I do not know what has been done about the other colleges—I mean the Krishnagore, Hooghly and the Chittagong Colleges—but I know something of the Rajshahi College. The number of students in Rajshahi College is about 800, next to Dacca I believe, where the number is about 900, only a difference of about 100 students, and in other colleges, namely, Krishnagore, Hooghly and Chittagong Colleges, the number does not exceed 250. The fee rate in the Rajshahi College has been raised from Rs. 4 to Rs. 6, thus effecting a monthly gain of about Rs. 1,500 with 800 students which comes to about Rs. 18,000 annually. If this increment be utilized for providing facilities in educational matters and other requirements of the college, the institution will no doubt be much benefited, but unfortunately this is not done, inasmuch as there is not a single officer of the Indian Educational Service in that college. I noticed from the last quinquennial report that there are about 11 officers of the Indian Educational Service in the Dacca College and even in the Krishnagore, Hooghly and Chittagong Colleges there is one such officer in each of these institutions, though their number of students does not exceed 250. On account of the absence of an officer of the Indian Educational Service in the Rajshahi College the senior officers in that college do not get the benefit of officiating vacancies, while in other colleges the junior professors do benefit by acting allowance, and the result has been that some of the best professors have left the institution for better prospects and some are trying to go elsewhere. That is a thing, my Lord, which I think that Government should not consider reasonable, and it is for this reason that I have brought forward this resolution to draw the attention of your Excellency's Government to it. If the students are to have the benefit of getting lessons from the best professors in the department the prospects should be made attractive to draw the best men to the service. In this year's Budget there is a provision of Rs. 120 a month for the appointment of a lecturer in Mathematics. I think a man standing high in Mathematics cannot be satisfied with Rs. 120 for any length of time. One may be very anxious to get the appointment, but after a year or so he will be dissatisfied and will go elsewhere. As far as I know there is no adequate arrangement for the library in the Rajshahi College. There are lots of other requirements. Then there is the question of the erection of a hostel for the construction of which only Rs. 50,000 has been allotted, though there has been such a large increase in the recurring income, while the cost of a decent hostel cannot be anything under 2 or 3 lakhs. It is more for drawing the attention of your Excellency's Government to this inequality of advantage in the Rajshahi College that I bring forward this resolution. My proposal is that if an uniformity of rate is to be observed the uniformity of advantages for imparting education in all these colleges should also be considered. Then there is the case of the Professor of Mathematics who is serving for the last 30 years with credit and that of the Principal of the institution who, at a time when Government was anxious to abolish the institution, saved the situation, and it is now one of the most efficient Colleges in the mufassal, still nothing has been done for them, and I hear that they are discontented with their present appointments. I therefore venture to think that arrangements should be made for giving two or three officers of the Indian Educational Service to this college, and if the professors who are serving there for a long time are thought competent may be promoted or transferred elsewhere, they being replaced by men of superior merits. Such an arrangement will benefit the students also considerably."

Resolutions.

Mr. O'Malley.

The Hon'ble Mr. O'Malley said :—

"My Lord, the hon'ble mover refers in this resolution to certain orders of Government which were passed nearly two years ago which raised the fees in four Government colleges from Rs. 4 and Rs. 5 to Rs. 6 a month. My hon'ble friend now wishes that the additional income obtained from fees in these colleges should be spent on their improvement and development. He has fortified his case by referring solely to the Rajshahi College in which he himself is keenly interested, and as I have told him before I am myself interested as having been at one time President of the Governing Body. As regards his reference to savings, I presume he means the excess of fee receipts over the cost of maintenance. I can assure him that in none of these schools are there any savings at all. After allowing for the receipts from fees and endowments, the last of which are comparatively small—the amount is only Rs. 17,000 a year—there is a deficit every year in every Government college, which has to be made good by Government. So far, therefore, from the increased fees to which I have referred having resulted in savings, there is still a heavy deficit. I will quote some figures.

The Krishnagore College costs Rs. 56,000 a year, of which only Rs. 15,000 is obtained from fees. In the Sanskrit College, another college in which fees were increased, the fees after the increase accounted for Rs. 11,000, and there is a difference of Rs. 17,000 which is made up by Government. The cost of the Chittagong College is Rs. 49,600, of which only Rs. 26,000 comes from fees. The expenditure on the Rajshahi College is Rs. 89,000 and fees and endowments account for Rs. 65,000, leaving Rs. 24,000 a year to be found by Government. There is no surplus to be spent on the improvement and development on these colleges; they have to depend on the grants made from our general revenues. The increase in fees has undoubtedly increased the income which Government derive from the colleges, but they are far from being paying concerns; and as I shall mention shortly, Government has incurred considerable additional expenditure since the fees were increased and will shortly incur more. In any case it is out of the question for Government to treat each college as a separate entity in this way. Government is anxious to improve the colleges in which fees have been increased; but it is also equally anxious to improve colleges in which fees have not been raised. The claims of all the different colleges have to be considered and money allotted for their requirements according to the relative urgency of the reforms which have to be introduced. Apart from this, it would be out of the question to spend extra receipts in bettering the prospects of the teaching staff in four out of our eight Government arts colleges. The hon'ble mover has drawn rather a moving picture of the poor prospects of the professors and lecturers of the Rajshahi College, but I may remind him that the teachers and professors belong to graded services and they must receive the pay and promotion common to those services. It would be impossible to give them preferential treatment while they are at a particular college, say, the Rajshahi College, and to give them extra pay temporarily as a special concession merely because the fees in that college had been raised two years ago. If this were done, the teachers of other colleges would be clamorous for transfer to the Rajshahi College, simply in order to get the extra pay, and the teachers left in the other colleges would have good cause for complaint.

I would remind the hon'ble mover too that since the fees were increased Government has done a great deal for these colleges. My hon'ble friend has referred to the proposal to entertain an extra lecturer in Mathematics at the Rajshahi College. There is an increasing number of students taking Mathematics up to the B. A. and B. Sc. standards and the work has proved to be too much for the existing staff, and it is therefore

Resolutions.

Babu K. M. Chaudhuri.

sought to relieve the staff by appointing an extra lecturer. Then again, Government has provided the sum of Rs. 50,000 for a new hostel. Here I think the hon'ble member is under some misapprehension. He assumes that that is all that Government intend to give for the hostel. He says that the hostel will cost 2 or 3 lakhs. I think his estimate is somewhat excessive—it may have been raised since I last saw the plans—but I think it is under two lakhs. The half-lakh now budgetted for is merely the first instalment of the cost of that scheme. The whole amount has not been provided for in one year because the building will not be built in one year; the requisite amount sufficient to carry out the scheme will be provided in subsequent years. He has neglected the case of other colleges like Krishnagore for which Government is doing a great deal. It is important that these mufassal colleges should be developed, especially in regard to the selection of subjects taught, because in the mufassal colleges, unless there is a considerable variety of subjects, students will flock to Calcutta and the mufassal colleges will not attract them. The Krishnagore College up to 1917 had only limited affiliation. It was affiliated in Political Economy, Political Philosophy and Persian up to the B. A. Pass standard, and the only affiliation up to the B. A. Honours standard was in Sanskrit, which does not appeal to a very large number of students. It was desired to extend the affiliation. In order to do that a number of additional appointments were made last year—a professor of English, a lecturer in English and a teacher of Mathematics and a professor of Philosophy. The college has consequently been able to obtain affiliation in English up to the B. A. Honours standard, in Philosophy up to the B. A. Pass standard, and in Mathematics up to the B.A. and B.Sc. Honours standards. Additions to the building and equipment of the college as well as to its library have also been made, and Government is now considering the question of appointing a Professor of Political Economy and Political Philosophy. The efficiency and popularity of the college have been greatly increased by these measures since the fees were raised. To take the case of Chittagong, another college in which the fees were raised, only last year Government appointed a lecturer in English, a lecturer in Logic and a professor in Economics so as to allow of affiliation in English up to the B.A. Honours standard and in Economics up to the B. A. Pass standard, and in Logic up to the Intermediate standard. The Hon'ble Member has also referred to the case of the Hooghly College. He is under a misapprehension in thinking that the fees were raised in that college. Before 1917 the fees stood at Rs. 6 and they have remained at that figure. I may however tell him that in that college an additional Professor of English was appointed last year. It is also proposed to extend the subjects taught at this college and to obtain affiliation in Philosophy and Economics up to the B. A. Pass standard from the commencement of the next session. It is on this account that Rs. 5,500 has been provided in the budget for a Professor in Economics and a Professor in Philosophy as shown at page 71 of the Financial Statement.

I am afraid, my Lord, that I cannot recommend the resolution for the acceptance of the Council."

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

"My Lord, I am glad that attention is being given to the reforms of these colleges, but what I complain of is this :—I know that Government is spending a good deal on these colleges, but what I mean is that there is no uniformity of expenditure in these colleges. A large sum is spent for Rajshahi, but the expenditure per head would not be more than Rs. 50 or Rs. 52—it ought to be Rs. 150 per head. In the Presidency College it is of course very high; in Dacca it is over Rs. 200. Government in introducing a uniform fee rate should see that there is uniformity of advantages allowed to

Resolutions.

Babu K. M. Chaudhuri.

the students as well as to the teachers. I explained in detail the difficulties of the professors in the Rajshahi College. I understand that Chittagong and Hooghly are going to be affiliated in Economics and by that arrangement they are going to have professors of the Indian Educational Service for Economics. In the Rajshahi College in the last 6 or 7 years. they have been teaching Economics—it is only affiliated in Pass standard—and a man in charge of Economics is a lecturer on Rs. 100 or Rs. 150 a month—and the result is that the man is anxious to leave and is trying to secure an appointment either in the Hooghly or Chittagong College. If there is a new affiliation the man who is doing good work for the last 6 or 7 years ought to be given some preference, but that has not been done and in other colleges where there is new affiliation, men in superior service are going to be appointed. In the case of the Rajshahi College, the present incumbent is anxious to leave. My point is that if there is some increment in fee rates—I do not mean to say Government is going to be relieved of the entire charge for the college—that increment should be utilised in the improvement of the college. The per head expenditure in the Rajshahi College was previously about Rs. 50 or Rs. 52; it is now come down below Rs. 30; that should not be the case. It is to bring these inequalities to your Excellency's notice that I brought forward this resolution. I do not press for any decision at once. With these remarks I beg to withdraw my resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 11.

The Hon'ble Babu Kishori Mohan Chaudhuri moved the following resolution:—

This Council recommends to the Governor in Council—

(*a*) that provision be made for additional medical schools either in Calcutta or in suitable mufassal districts other than Burdwan, as may be recommended by a special committee appointed for the purpose; and

(*b*) that the same be met from the allotment of Rs. 1,25,000 provided for the appointment of circle officers.

He said:—

"My Lord, the arrangements for medical help in the mufassal are very inadequate. I know that in my thana, though there are over 80 villages, with a population of 2 lakhs, there are only two or three qualified civil hospital assistants under the service of the district board, and there is no other qualified doctor there. This is the case in the interior of Rajshahi. I believe that this is the case almost everywhere in the mufassal in this Presidency. The other day my hon'ble friend, Mr. P. C. Mitter, was giving me details of the state of medical aid in the mufassal, and he has made a special study of this, and I hope in this resolution he will see his way to say something about the state of medical help in the mufassal. There are some arrangements for municipal town headquarters of each district where there is a supply of medical practitioners, but the state of things in the mufassal is very deplorable. Your Excellency's Government are anxious to develop the resources of village life, and the proposed Act of Village Self-Government that is going to be passed very soon is an instance. The Act will no doubt develop the resources of the village and will see to the needs of sanitation and agriculture and so forth, but anyone having means will naturally be anxious to leave the village for the safety of his life and for the sake of his health, owing to the fact that there is no adequate arrangement for medical help in the

Resolutions.

Mr. P. C. Mitter.

mufassal. In this state of things, my Lord, it is urgently necessary that some more medical schools should be started. I am glad arrangements have been made for opening a medical school at Burdwan and that enquiries had been made for starting a school elsewhere, but the difficulty of want of suitable hospitals stood in the way. But in Calcutta there are several hospitals, such as the Mayo Hospital, the Sambhu Nath Pundit Hospital and other institutions where a medical school on the lines of the Campbell Medical School can be started. Recently there is a great demand for medical education, and most of the students applying for admission in medical schools are being disappointed. On the one side there is great demand and on the other side there is great anxiety for it. In the mufassal, I think some quacks supply the need or some homeopathic doctors are doing something, but that is not enough, and that is no real help. In this state of things my proposal is that some more money should be spent on medical schools. I see that there is an allotment of Rs. 1,25,000 provided for the appointment of circle officers who are to educate the people in the better management of local institutions to be started under the new Act, I mean the Village Self-Government Act. As far as I have been able to follow, I think the final arrangement is that the local boards are not going to be abolished as was the first proposal. The officers under the district boards and local boards for the present may be sufficient for the purpose of additional supervision. The people should live first and then they should have political education or political training. So these circle officers I do not think will be of very great utility to the villages. When the Act comes into operation there will be many other officers who will be able to educate the people in respect of political education and training, and the appointment of circle officers may be postponed for the present. The present need of medical aid may be considered and the appointment of circle officers postponed for the present."

The Hon'ble Mr. P. C. Mitter said :—

"As the Hon'ble Member has invited me to speak I should like to indicate that I am strongly in favour of clause (*a*) of the resolution, but I am sorry I cannot support clause (*b*) of the resolution. The question referred to in clause (*a*) of his resolution is what I consider to be one of utmost importance for Bengal and for rural Bengal specially. At the present moment we have 3,000 registered medical practitioners for the whole of Bengal, of whom about 2,000 practise in municipal areas where 3 out of our 45 millions live. So that in rural areas we have less than 1,000, or in other words we have one qualified medical man to every 42,000 of inhabitants. It is apparent that this is very inadequate. In England I believe there are about 1,200 or 1,250 inhabitants to one medical man. I speak subject to correction, as I speak from memory. I think the average in Europe is 1 to 1,500. Although our country is poorer in the rural areas of Bengal medical men can make a living by earning fees which are comparatively smaller than what medical men in Europe require. Bengal however is so insanitary that there is greater necessity of having more medical men in rural areas. I venture to think, my Lord, that if we have 10,000 or 12,000 more medical men in rural areas it will mean about 3,000 or 3,500 men to one medical man. Therefore these medical men will not only be able to make a living for themselves, but they will be filling up a great necessity of society and society will be very greatly benefited by them. At the same time these medical men will relieve congestion in clerical appointments and other professions. For this reason I am strongly in favour of clause (*a*) of my hon'ble friend's resolution.

As regards clause (*b*) I for one venture to think that if we are to take away the allotment made for circle officers then the line on which the future

Resolutions.

Babu S. N. Ray.

development of rural areas and the village union committees are contemplated by Government would be seriously interfered with. I do not think that the question of the future programme of medical education is a question which can be properly considered and adequately given effect to in a discussion on the Budget by suggesting that a sum be taken away from this particular item or that particular item. I would therefore appeal to my hon'ble friend to withdraw his resolution and at the same time I would appeal to Government to take this matter into their consideration and formulate something definite next year by which Government can provide for more medical men. There are many hospitals where with comparatively small expenditure provision for medical education can be arranged for. My friend has referred to the Mayo Hospital, Sambhu Nath Pundit Hospital and various other hospitals where at a comparatively small expense medical education can be provided for. But it is a problem which must first of all be considered by the Government in consultation with its own officers For these reasons I strongly ask my hon'ble friend to withdraw his resolution."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I wish to say a few words with reference to this resolution. The need of more medical institutions in this country is admitted on all hands and I think it is in contemplation of Government to establish more medical institutions. It appears that the Hon'ble Babu Akhil Chandra Datta has also given notice of a resolution to have a medical institution in Comilla and Sir Deba Prasad Sarbadhikari has also given similar notice to raise the status of the Medical School at Dacca to that of a college. All these resolutions point to the fact that people feel the need of more medical men in the country. I think it was in the year 1913 that the public came to know that more than 500 boys apply every year to the Calcutta Medical College for admission, but only about one-fourth of the number got their admission. That is in the Calcutta Medical College. In the Campbell Medical School I think a larger number of boys used to apply and they were refused, and the reason given is that there is not sufficient laboratory arrangements for all these boys. The best solution of the difficulty would be, I think, to have more medical institutions outside Calcutta, but to have more medical institutions outside Calcutta it is necessary that there should be proper hospital arrangements in mufassal towns, and unless there are proper hospitals it is useless to have medical schools. I think about two years ago Dr. M. N. Banerjee moved a resolution in the Supreme Council to impart medical education in vernacular and to have a number of such institutions all over the country. That resolution was accepted on behalf of Government by the then Surgeon-General Sir Pardey Lukis, but since then it appears that nothing has been done. In answer to my question at the last meeting of the Council as to whether anything has been done towards this direction, the answer given was in the negative. Though that resolution was accepted by the Imperial Council it appears that nothing has been done by the local Governments at least by your Excellency's Government. Then as regards the ways and means, I quite agree with my Hon'ble friend, Mr. Mitter, that this item of Rs. 1,25,000, which has been allotted for the appointment of circle officers, ought not to be diverted to any other purpose. If the Village Self-Government Bill be passed into law, as we hope it will be in April next, it will be necessary to appoint these circle officers in order to give the union boards a good start, and I think not only Rs. 1,25,000 but more money will be needed if we want a very large number of union boards all over the country. So in these circumstances I think this allotment of Rs. 1,25,000 should not be diverted from the purpose for which it has been made. I need hardly say that Government will be able to see their way to provide funds for this purpose from another allotment."

Resolutions.

Sir Henry Wheeler.

The Hon'ble Sir Henry Wheeler said :—

"My Lord, this resolution is one of three which deal in varying aspects with the same subject, and it may possibly shorten the discussion hereafter, and enable a more comprehensive consideration of the whole question, if I now make remarks which are more or less applicable to them all. The first resolution is that which has just been moved and which recommends the opening of additional medical schools at places to be determined by a committee. The second is to open a medical school at Comilla, and the third, so far as I am now concerned with it, is to open a medical school either at Mymensingh or Chittagong. Therefore they all have the same object in view, namely, an increase in the number of medical schools, though two of them are more specific than the present one as to where they want the schools to be located.

With the desirability of offering additional facilities for medical education in Bengal the local Government are in agreement, but I would venture to utter a word of warning against our being carried away by the appreciation of the medical needs of the country (a striking demonstration of which was afforded by the recent influenza epidemic) into thinking that we should embark headlong on an indiscriminate policy of placing a medical school at any district headquarters which in any way could be imagined to lend itself to it. We must proceed with caution. We have got to consider the facilities of the particular centre we are choosing, the opportunities it offers for supervision and hospital practice, and the area from which it is likely to draw both patients and pupils, as well as other incidental factors. But, Sir, we admit the need of increasing the number of these schools, and in our present Budget we have taken a step in that direction by making provision for a school at Burdwan. That is a beginning of a forward policy, and for the present I submit that we would do well to complete this scheme, and see how it works before we proceed to rather indiscriminate expansion. The provision of one lakh is not sufficient even to complete the Burdwan scheme. The total capital expenditure involved is Rs. 1,57,000, while if we add another desirable feature, a hostel, it would cost another one and-a-half lakh. So we may reasonably finish what we have begun before embarking on anything new.

I would also like to explain to the Council the circumstances in which we chose Burdwan, especially as one of the suggestions of the Hon'ble Babu Kishori Mohan Chaudhuri is that we should send round a peripatetic committee to discover other centres. Most of the facts which are relevant in this connection are already known to us, and when we selected Burdwan, we had regard to what the alternatives were. First of all, there were certain alternatives in Calcutta. There was a possibility in connection with the National Medical School of Dr. Mullick, which was examined very carefully by a special committee, but which, after full consideration, did not appear to afford a thoroughly satisfactory solution. The financial position was in no sense assured; the aid which might have been expected from private sources was vague and ill-defined; the buildings could never have been made entirely satisfactory for the purpose; the facilities for clinical teaching would have been inconvenient, and, at best, it would have meant opening another medical institution in Calcutta, thus adding to the congestion of students which already exists in this city. On the educational side we are always talking of the evils of that congestion, and we have to spend large sums on hostels, etc., in order to try to remedy them. Therefore it is only reasonable that we should exercise caution before embarking on a policy which can only add to the present number of such students. Another alternative was to start a medical school at Howrah. We have there a very fair hospital, thanks largely to the energies of Colonel Waters and the liberality of the local mill-owners, but there again it would have been a repetition, in only a slightly less degree, of the objections of adding

Resolutions.

Sir Henry Wheeler.

to the number of metropolitan students, while again it would have involved the acquisition of a site amid very expensive surroundings. I have given instances this morning of the Medical College, where every addition and every improvement which has been made or has to be made hereafter, runs into lakhs of rupees for land before even building operations are commenced. Therefore we discarded that idea. Mention has been made of the possibility of utilising the Mayo Hospital or the Sambhu Nath Pundit, but I believe the Belgachia authorities are rather anxious to obtain facilities for training their students at the former hospital, which, if that scheme went through, would not be available. No definite plan has yet been formulated, but the possibility was mentioned to me by Surgeon-General Robinson before he left.

Going outside Calcutta, we then looked round for other possible centres. We did not consider the particular case of Comilla, which the Hon'ble Babu Akhil Chandra Datta has indicated in his resolution because, I think, he must have been moved more by local patriotism than by arguments justifying any such expenditure. I have visited the hospital at Comilla. It is one of the worst mufassal hospitals I have ever seen, and only contains 28 beds, and it is impossible to start a school there.

Next we considered the case of Chittagong, which *primâ facie* offered various advantages. It is in an out-of-the-way corner of the province, which is apt to be neglected; it is a large railway centre and a port. However, we found that the local hospital, though it is a very fairly well-run institution, did not lend itself to teaching; it was inconveniently placed, and the wards were too narrow; the proposition, as put before us by the Civil Surgeon and the local officers, was that we should build an entirely new hospital on a better site. That obviously would have increased very largely the cost of the total project. Then we thought of Mymensingh, where the hospital has been rebuilt in recent times; a little while ago it was in financial difficulties, and last year in addition to sums that we had already given, we made a further grant, but just recently, I am glad to say, the leading zemindars of the district seem to have come forward and subscribed with commendable generosity, which, I hope, will enable the hospital to be placed on a satisfactory footing. But for the present it is rather in the making, and one objection to choosing Mymensingh was that it would be rather next-door to Dacca (at any rate it is not very far away), where we already have a flourishing school.

For these reasons we turned to Western Bengal, and chose Burdwan because there is a good hospital there and facilities which held out good expectations of the success of the school, not the least being the co-operation which was generously promised to us by the Maharajadhiraja Bahadur. For these reasons we settled upon Burdwan, and I mention these facts merely in order to explain to the Council that while we have sought for other places, there are in this matter factors to which weight has to be given. It is very easy to say—'Here is a district headqurters, let us place a medical school here,' but it does not follow that a suitable scheme would be achieved. I would further again remind the Council that in addition to this new school, we have given additional facilities by raising the number of admissions substantially both at the Campbell and the Dacca schools.

I would merely add a few words as regards the resources from which it is suggested that this new expenditure may be met.

Taking the three resolutions, the suggestions which cover the finding of the money are, firstly, that we should take it from the provision for circle officers. I may have more to say about that when the Village Bill comes up, and I will only remark briefly here that circle officers, to my mind, are an integral part of any scheme for the furtherance of village government in

Resolutions.

Babu K. M. Chaudhuri.

Bengal, and the cutting away from the complaint, which is so often advanced against the provincial administration, that we do through the police so many things which in other provinces are done through the subordinate revenue establishments. Things have been done through the police in Bengal because there has been nobody else to do them, and the scheme of circle officers helps to remedy that defect by supplying a local agency which will be in constant touch with the villagers, and will enable them by encouragement and advice to foster the growth of small village organisations. It has been correctly remarked by one Hon'ble Member that the provision of Rs. 1,25,000 is only a portion of what will be required, if, as is hoped, there is a general development of village government and a gradual extension of it throughout the province.

The next resolution proposes to take the money from the nurses' quarters at the Medical College Hospital, but that would entirely frustrate progress in the improvement of that institution—progress which, if has been argued this morning, is already too slow.

The third resolution, in addition to mentioning public works, with which Mr. Cumming has already dealt, refers to the expenditure on the traffic police in Calcutta, and on the improvement of the prospects of European sergeants and inspectors. The traffic police is already working in this city, and the reasons for its employment can be demonstrated to anybody who cares to take a walk along the streets. The improvement of the prospects of European sergeants has been forced upon us in order to get men to fill these posts. At present there are 58 vacant posts, and some 35 which should be held by a better class of men, and we see no prospect of getting better men unless we offer better prospects. There is, therefore, no very satisfactory head amongst those which have been enumerated which lends itself to economy, and from which we can find sums for carrying out any alternative proposal.

For the reasons I have given I would represent to the Council that, in doing what we have done in making a beginning with this new school at Burdwan, we are taking a reasonable step towards the advancement of medical education, and a step which we had better complete before we look round for fresh ground to break."

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

"My Lord, I am glad that there is no difference of opinion as regards the necessity of the spread of medical education and I am glad that it is engaging the serious attention of Government and that Government is going to open a school at Burdwan. That is no doubt very desirable, but we should see how the circumstances stand. I am also glad to learn that arrangements have been made for taking more students at the Medical College as well as at the Campbell Medical School. I did not mean that a committee should be appointed and that it should go from place to place—a sort of peripatetic committee. Of course in view of the enquiries that have been made by Government, I do not think it is necessary to make any further enquiries. These enquiries may be taken as a guide when further provision is made for medical education either in Calcutta or the mufassal. As the matter is already engaging the attention of Government, I am not particularly anxious for a decision at once. As regards ways and means, there is some difference of opinion As regards the utility of Circle officers, we should not anticipate the decision on a Bill which will come up for consideration very soon. If it is considered that there is need for further medical education and supply of more medical men, I am fully convinced that the Government has been and is doing their best. In that view I do not think I would press this resolution and beg leave to withdraw it."

The resolution was then, by leave of the President, withdrawn.

Resolutions.

The President; Mr. P. C. Mitter.

APPENDIX TO THE LIST OF BUSINESS—ITEMS Nos. 12 and 13.

12. The following resolution stood in the name of the Hon'ble Babu Akhil Chandra Datta :—

This Council recommends to the Governor in Council—

(*a*) that a sum of Rs. 1 lakh be provided in the next year's Budget for the foundation of a Medical School at Comilla ; and

(*b*) that this sum be taken out of—

(*i*) the provision of Rs. 4,30,000 in the Budget for the acquisition of land for the new nurses' quarters in the Medical College Hospital ; and

(*ii*) the provision of Rs. 2,00,000 in the Budget for nurses' quarters in the Medical College Hospital.

13. The following resolution stood in the name of the Hon'ble Sir Deba Prasad Sarbadhikari :—

This Council recommends to the Governor in Council—

(*a*) that provision be made in the Budget for a non-recurring expenditure of two lakhs and a recurring expenditure of Rs. 74,540 for—

(*i*) the purpose of raising the Dacca Medical School to the status of a Medical College ;

(*ii*) establishing a Medical School at Mymensingh or Chittagong as the Government may think fit ; and

(*b*) that the necessary funds—

(*i*) for the non-recurring expenditure be obtained by reducing the expenditure under the head 45—Civil Works in charge of the Public Works Department by two lakhs and

(*ii*) for the recurring expenditure be obtained by omitting the items of Rs. 50,000 for the improvement of pay and prospects of European Inspectors and Sergeants and the reorganisation and extension of the Indian Traffic Police Rs. 24,550.

The President said :—

"No. 12 is already covered, so is No. 13(*a*) (*ii*). but I understand the Hon'ble Mr. P. C. Mitter will move 13(*a*) (*i*)."

The Hon'ble Mr. P. C. Mitter, in the absence of the Hon'ble Sir Deba Prasad Sarbadhikari, moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that provision be made in the Budget for a non-recurring expenditure of two lakhs and a recurring expenditure of Rs. 74,540 for—

He said :—

"After what has fallen from the Hon'ble Sir Henry Wheeler I propose to be very brief as regards the resolution which stands in the name of the Hon'ble Sir Deba Prasad Sarbadhikari, so far as item (*a*) (*i*) is concerned. My Lord, the question of the condition and the number of medical men generally in this province is a question which has great bearing on the question of the establishment of a medical college at Dacca. While I admit that Government has taken, if I may say so, a step in the right direction by establishing a medical school at Burdwan, the needs of the province are such that there is much scope for extension of medical education, whether it be in medical colleges or medical schools. My Lord, we are going to have a University at Dacca, and if we have a medical college at Dacca even on a modest scale, say, a college with about 50 students, it will be, I venture to submit, of great assistance to the University when it is actually established. My Lord, I hope in the residential University of Dacca the troubles and difficulties which we had in our University in Calcutta will not be repeated. I hope that the bulk of our students will not be forced to drift into law colleges for want of any better vocation in life. I hope, my Lord, that the establishment of this college will divert our youths from striving after Government appointments. When the needs of society require training of our educated men in the medical profession rather than in literary walks of life, we cannot blame those young men if they drift to law and Government service if the Government or the University does not provide for suitable education in other walks of life. I think it would be helpful if your Excellency's Government, which is so anxious to make the Dacca University a success, will do a little spade-work and start a medical college there in advance. My Lord, we know that medical education takes a fairly long time. It is generally divisible into three stages. The first is the stage of preliminary scientific training when the student is taught chemistry, physics, botany and zoology. In the second stage he is taught anatomy, materia medica, physiology and organic chemistry. In the third stage he is taught medicine, midwifery, biology, hygiene and medical jurisprudence. I believe it takes about six years. If your Lordship's Government is pleased to make a beginning now, the immediate expense will not be very much, but ultimately I think the expense estimated by my hon'ble friend Sir Deba Prasad Sarbadhikari, namely, a recurring expenditure of Rs. 74,540, would prove to be too little, but the question of ultimate expense is involved in the question of the total expense of the Dacca University as a whole. For the first year it will be the preliminary scientific course with which we shall be concerned. Of course we should not start a medical college unless your Excellency's Government is prepared to have a medical college there as soon as the Dacca University is started. But as I think your Excellency's Government will be so prepared, I venture to think that this is an additional reason why a beginning should be made as early as possible for starting a medical college at Dacca. The general aspects have already been discussed, and I do not propose to take up

Resolutions.

Sir Nilratan Sarkar.

the time of the Council long, but I would like to say this, my Lord, that after the last speech of the Hon'ble Sir Henry Wheeler, I do not think I would press for this resolution, if the Government would be pleased to accept the general idea of starting a college at Dacca, I leave it to the Government to find out whether money would be arranged from the grant for the Dacca University."

The Hon'ble Sir Nilratan Sarkar said :—

"My Lord, I have looked at the matter from the point of view of the future university of Dacca whether the University of Dacca would be complete without a medical college—I believe it will not be complete without a medical faculty. Such a defect would be extremely prejudicial to the interests of the University. In the first place such a defect would materially restrict the scope of the activity of the workers whose duty it would be to build up the fabric of the University. Many of the professors will miss the opportunity of making research work in connection with many of the sciences concerned in the study of medicine. Such a defect would also restrict the number of the careers open to the graduates of the University—careers which we need so much in Bengal, careers other than law. Sir, such a defect would deprive young men of the opportunity of growing under the constructive, creative and original influence of the training in the sciences of life. I have no doubt that very soon the defect of such a training would be found out in the new University if it were started without a faculty of medicine. Another effect of such a defect would deprive the University of the sympathy of future benefactors who would not come forward with endowments. No University in these days can depend upon grants from Government alone. The public must come forward with help and endowments, and it is not likely that the University without a medical faculty would enlist the sympathy or the enthusiasm of the public in this connection. It would be like a fungus baby with one of its most important limbs mutilated—not exactly a case of mutilation—but with one of the limbs stifled because already that limb is in a nascent state. Any medical school can be developed with a little effort into a well-grown college.

My Lord, there is the other side of the question—the question of indefinitely multiplying the number of medical men with higher training, but I submit that in our colleges the training given to medical students is not exactly what is called higher training in medicine. In Great Britain there is one standard of training prevailing in all the colleges and schools. In this country having regard to the circumstances prevailing here at present, there are two standards of training prevailing in different schools and colleges. In the colleges there is a higher standard than that prevailing in schools, but I submit that the standard that is prevailing in these schools will disappear in the course of time and that the time is not so very distant, and in the near future it will be quite possible that all our schools will be raised to the standard of existing colleges, and I believe that one advantage of the addition of one college in Bengal will be an acquisition to the people of Bengal generally and not to the people of Dacca only. As regards the practicability my hon'ble friend has already spoken, and I will not repeat it. I am concerned in showing that there is necessity from the point of view of the authorities and from the point of view of the professors and of the students. It would be a boon to the people of Eastern Bengal. It is a practicable scheme and the expense is not very high. Under the circumstances I submit that Government would kindly consider the desirability of establishing a medical college in the Dacca University from the very start."

Resolutions.

Sir Henry Wheeler; Mr. P. C. Mitter.

The Hon'ble Sir Henry Wheeler said :—

"My Lord, apart from such considerations as I have already represented and which more or less are relevant in this connection also, my chief objection to the acceptance of the resolution is that, as matters stand, it is somewhat premature. It has been recognised by both the Hon'ble Members who have spoken that the scheme is closely wrapped up with the project of the Dacca university. I find that when the details of a university at Dacca were first under consideration by a committee, it was proposed that medical students should be taught at Dacca up to the level of the first M. B. Examination, leaving them to come to Calcutta to complete their course. That was the definite proposal of the first committee. The total outlay involved under their proposals was, as probably we all know, very large, and in the hope of getting something done a call was made by the Government of India for what was known as the 'minimum scheme'; that was meant to cover the essential features of a university, which it might be possible to finance immediately and so make a beginning. In preparing the 'minimum scheme' this idea of medical education was jettisoned in order to lighten the ship, but even the 'minimum scheme' did not go through, as the whole matter then became involved in the investigations of the Calcutta University Commission, the result of which we are still awaiting. Therefore, obviously, when we get the report of the Calcutta Univesity Commission, and see, as we hope we shall see, their recommendations in connection with the initiation of a university at Dacca, we shall have to consider what remarks, if any, they have made on the subject of medical education, and we shall then have to decide what we can do. But at present I find it difficult to give any assurance beyond that. The idea of a new medical college at Dacca has obvious attractions, as Sir Nilratan Sarkar has said, and a medical faculty is a desirable part of any complete university. We want to see the Dacca university a success, and we would willingly see it provided with these facilities, quite apart from any wish to enhance the status and reputation of the ancient city of Dacca. In all these ways, the scheme, as I say, is attractive. Again, Dacca has already a hospital which is considerably above the *mufassal* standard, and although there may be reasons for caution, I am prepared to investigate the facilities at Dacca for running a medical college. Of course Calcutta is an ideal centre for such an enterprise, largely because of its size, which gives ample material for clinical training, and because of the prospects which it offers of private practice, hospital experience, and general enhancement of medical reputation, which attract the pick of the service from Northern India as professors. Obviously in these respects Dacca will fall short of Calcutta, and that aspect of the question will have to be considered. I would ask the Hon'ble Members who have spoken to be content to leave it at that, that when we get the report of the Calcutta University Commission the question will receive our careful consideration."

The Hon'ble Mr. P. C. Mitter said :—

"My Lord, it cannot be doubted that there is need for extension of medical education and it cannot be doubted that wherever facilities for giving further medical education exist full advantage should be taken of such facilities. The Hon'ble Sir Henry Wheeler has been pleased to indicate that Government will take the matter up, although for certain reasons given by the Hon'ble Member Government is not prepared at the present moment to move quickly. I am sure that apart from the reasons given by the Hon'ble Member in charge, your Excellency's Government agree with our view. The difference between us is more a difference of one of ways and means than anything else. But when the time ultimately comes for consideration of the question perhaps it will be helpful for your Excellency's Government to

Resolutions.

The President; Maulvi A. K. Fazl-ul-Haq.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 14.

The following resolution stood in the name of the Hon'ble BABU AKHIL CHANDRA DUTTA :—

This Council recommends to the Governor in Council—

(*a*) that suitable provision be made in the next year's budget for establishing a Medical College at Dacca; and

(*b*) that the necessary amount be taken out of—

(*i*) the provision of Rs. 4,30,000 for the acquisition of land for the New Nurses' Quarters for the Medical College Hospital; and

(*ii*) the provision of Rs. 2,00,000 for the Nurses' Quarters, Medical College Hospital.

The President said : "Item No. 14 is covered by the decision at which the Council has just arrived."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 15.

The Hon'ble **Maulvi A. K. Fazl-ul-Haq** moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a lump provision of Rs. 4 lakhs be made for the relief of distress in the country consequent on the high prices of cloth; and

(*b*) that the requisite money be found by curtailing expenditure under the following sub-heads :—

		Rs.
(*i*) Agricultural Education	...	1,00,000
(*ii*) Experimental Farms	...	1,57,000
(*iii*) Agricultural Experiments	...	1,52,500
(*iv*) Divisional Seed Stores	...	30,000
(*v*) Sericulture ...	...	1,54,000

He said :—

"My Lord, I do not think I need take up the time of this Council by saying very many words as to the acute distress that is prevailing in this country in consequence of the high price of cloth. The complaint about this high price of cloth has been going on in this country for nearly two years, and although efforts have been made to bring some relief to the people, so far as can be said at the present moment, all these efforts have hitherto proved futile. I believe everyone who knows anything at all about the situation is most anxious that some relief should be afforded to the people, and the only question is one of ways and means. It has struck me in glancing through the various budget allotments that some money might profitably be set apart this year to relieve the distress from which the people are suffering. Coming to the suggestion that I have made I feel that I have suggested the curtailment of expenditure with regard to another department which appeals very largely to the imagination of the people and as to which also I might be accused of something like want of sympathy for a movement which is apparently of immense good to the agricultural population of the Presidency. I confess that in theory the department of agriculture is all that can be desired, but so far as my own personal experience goes, I do not think the

Resolutions.

Kumar Shib Shekhareswar Ray.

achievements of this department in improving the methods of agriculture have been such as to justify the large outlay which Government proposes to set apart with references to the activities of this department. I have suggested that the Rs. 4 lakhs be taken from the following sub-heads: (1) Agricultural education for which Rs. 1 lakh has been budgetted for. I do not quite understand what this agricultural education means. It is very good in theory, but I do not think the officers of the Agricultural Department have been so far successful in imparting any kind of education to the agriculturists either towards teaching them to improve their methods of agriculture or enabling them by the education that has been imparted by the department to make even one single blade of grass grow than they grew before. Whatever that may be, even conceding that some money should be set apart for argicultural education, I think Rs. 1 lakh is a little too much and some portion of it might be set apart for the purpose which I have in view in the first portion of my resolution. Then there comes the item Experimental Farms, under which there is a provision for miscellaneous expenditure to the extent of Rs. 81,000. I do not understand what this miscellaneous expenditure means, and unless I find something definite to prove that the department is going to undertake work of a substantial character, I am disposed to think that this Rs. 81,000 represents more or less a wasteful expenditure. Then the next item is Agricultural Experiments, and under this sub-head I find a provision of Rs. 1 lakh for the distribution of seeds. The distribution of seeds is not so urgently needed at the present moment, and even if some money is required I again consider that the provision that has been made is extremely liberal, at any rate not what the department could claim in view of their achievements in the past. Then there is the item of Divisional Seed Store, and under the head Seeds and Implements I find there is a provision of Rs. 32,000. Here again I consider this expenditure to be not justified by the work which the department will have in hand; and lastly there comes the item Sericulture, under which there is an allottenent under the head miscellaneous of Rs. 60,000. I again confess I cannot understand what this miscellaneous expenditure is going to be. This seems to be an extravagance and having regard to the fact that we have not been given any explanations as to how this miscellaneous expenditure is going to be met, I will submit that this expenditure ought not to be sanctioned. If we add up the allotments that have been made under these various sub-heads I find that Rs. 4 lakhs can easily be budgetted out of these amounts which can be more usefully employed in relieving the distress owing to the high price of cloth than in carrying on experiments with the officers of the Agricultural Department—experiments which are more or less of a doubtful utility. I submit, therefore, for the consideration of this Council the resolution which stands in my name, and I hope it will be accepted by your Excellency's Government."

The Hon'ble Kumar Shib Shekhareswar Ray said :—

"My Lord, I rise again to oppose my esteemed friend. I admit that just at present there is an acute distress prevailing in the country owing to the abnormal rise in the price of cloth, but I also believe that we have somehow managed to get over the worst. In view of the probable increased output of cloth in England and transport facilities, I am sure that the prices would soon come down, and, moreover, we expect a good price for our jute this year. Thus, it would seem that much of the prevailing distress would soon cease to exist. I am, therefore, led to believe that my friend's resolution comes a bit too late to be of any real service to my countrymen. But what my chief objection to my friend's resolution is that he wants to curtail the expenditure on agriculture and allied subjects, and I beg to remind my friend that the Agricultural Department has been long neglected by the Government

Resolutions.

Sir Henry Wheeler.

It was my friend himself who on several occasions in the past brought this fact to the notice of the Government. Now that the Government have come forward to our help, I do not think it would be quite judicious on our part to ask them to curtail their expenses in this direction. In our country much depends on how the Government take to a subject. Because the Government neglected agriculture, we also found it hard to take to it. The whole thing appeared so vast and beset with difficulties that we became rather possimetic and left it to the State to do what they could. Now, because the Government are enthusiastic about it, we too are considerably encouraged, and I am sure my community, I mean the landlords, would not fail to notice that the Government are showing active sympathy and would heartily co-operate with them. There is another matter, my Lord—some of the items under this head, as, for example, Sericulture, form part of a settled programme. Much has already been spent on them. If we now stop the work it would only mean a total loss of what has already been spent on them and, along with the monetary loss, it will mean a waste of much useful work. I would, therefore, request my Hon'ble friend not to press his resolution, and even if he does, I would appeal to him to leave the Department of Agriculture alone and cast his eye on some other really extravagant departments of the Government. Perhaps my Hon'ble friend thinks that the Agricultural Department is not properly worked. Well, if this is so, then it is our duty to watch the working of the department and not to give it up as hopeless."

The Hon'ble Sir Henry Wheeler said :—

"My Lord. I trust I may be excused from speaking at length on this resolution, firstly, because it was only a few days ago that we discussed at length this problem of cloth supply in Bengal, and secondly, because the Hon'ble Mover, as in another resolution which he has fathered to-day, has been little concerned with the actual proposal on which he desires to incur further expenditure, but has chiefly directed his criticisms to the working of a department from which he hopes to abstract some of its present allotments. I am particularly concerned with the cloth problem, and as regards that one finds it difficult to answer the resolution, as the Hon'ble Mover has told us so little as to what he wants to do with this large sum of Rs. 4 lakhs which he wishes us to put in the budget. He expressed a vague hope that, in some way undefined, we may relieve the distress consequence on the high price of cloth, but before we could consent to setting aside this very substantial sum, we may reasonably ask for something more definite. One can best consider the question in respect of those areas in which actual distress may prevail during the year—distress necessitating relief by Government measures in the ordinary sense. As regards the areas in which distress does not exist to that extent, but in which people are pinched, as they have been pinched all over the world, Government can hardly do anything. But as regards the first category, I said on the occasion of our debate about cloth the other day that if it seemed desirable, as a matter of relief, that facilities should be given for bringing in cheaper cloth into these areas, Government would consider that course as part of the machinery of assistance of distress, and if as a result of the Hon'ble Mr. Cumming's approaching visit to Bankura, Brahmanberia and elsewhere, we are told that it would help to give relief to the poor in those areas in which distress prevails in the matter of cheap cloth, we shall have to do our best to do so. But as regards the other areas, I cannot give the same assurance. The ordinary remedy which has been mooted since the price of cloth has risen is that of the manufacture of standard cloth and the placing of it upon the market. But the standard cloth scheme does not contemplate the incurring of expenditure by Government, so a provision of Rs. 4 lakhs is not necessary for the purpose. All that will be, and that is being, done in other provinces in the working of that

Resolutions.

Maulvi A. K. Fazl-ul-Haq.

scheme is to arrange for the supply of cloth at a particular price by special arrangements with the Bombay mills, to bring it to the local market, and to sell it at a price which covers the original cost and the transit expenses. There is little need to make a provision of Rs. 4 lakhs for this purpose, but, as I explained the other day, we have not hitherto thought it desirable to embark upon that enterprise. If we do not work the standard cloth plan in the usually accepted sense, what does this resolution really want us to do? If it desires us to exercise indiscriminate charity in the sense of buying cloth, whether it be standard or any other cloth, and placing it on the market at less than cost price, accepting the difference as a legitimate charge against the general tax-payer, then I am afraid we must say we cannot contemplate such action. I am talking of areas in which distress does not prevail in the sense that Government has undertaken measures and recognized the necessity of relief. There is no doubt that people would be more happy if times were more normal, but in such areas we cannot contemplate a general pauperization of the people in the sense that we should buy a certain amount of cloth at a high price and retail it at less. Therefore, Sir, on the merits of the proposal I submit that a case has not been made out.

As regards the sources from which the Hon'ble Member would find the money, I scarcely think that to-day he has been as happy as usual in his proposals for retrenchment. He enumerates five heads which altogether cover approximately Rs. 6 lakhs, and he says that we can easily find Rs. 4 lakhs out of them. If we can easily find Rs. 4 lakhs, all I can say is that it reflects most seriously on the reckless carelessness with which Mr. Donald has passed the departmental budget, and I have no reason for thinking that Mr. Donald has shown any such extravagance. Therefore, practically, to take Rs. 4 lakhs out of Rs. 6 lakhs, obviously means breaking up the work of the Agricultural Department, which, as the Kumar Shib Shekhareswar Ray has said, is carrying out work of benefit and utility. Therefore, on neither ground can I advise the Council to accept this resolution."

The Hon'ble Maulvi Fazl-ul-Haq said :—

"My Lord, I have very little to add to what I have already said in respect of the recommendation contained in this resolution. It is true I have not been able to formulate any definite proposals as to how the money would be spent for the purpose of relieving the distress. The reason is that it is very difficult to make definite proposals unless and until the materials necessary for coming to a decision on a question like this are at one's disposal. But I thought that if the money could be procured, Government might by some means or other find out suitable means of utilizing the amount in undertaking work which Government has as much at heart as myself or any other member of this Council. The question of getting Rs. 4 lakhs out of the allotments of Rs. 6 lakhs under the various sub-heads in the Department of Agriculture has given rise to a little adverse criticism from my esteemed friend Kumar Shib Shekhareswar Ray. I did not for a moment belittle the importance of the Agricultural Department, but what I really meant is this—and the Kumar has already anticipated me there—that I do not think that the department is being properly worked, and I, therefore, feel that if this large money is placed at the disposal of the department it may not serve the very useful purpose which the Government has got in view. I do not wish to take up the time of this Council by going into details so far as this question is concerned, but I wish to point out to the Council one singular fact which will throw some light on the exact question which arises out of the proposals which I have made. We find in every year's budget provisions made of large sums of money for the distribution of seeds, for agricultural education and so forth. I know something of the condition prevailing in mufassal, but personally I have not

Resolutions.

Babu B. C. Ray.

yet come across any tangible results of the activities of this department within at any rate the last five or six years for which I have scrutinized the budget for the purpose of making suggestions for curtailing the expenditure of this department. When I say that the department is not being properly worked I mean in reality that they have already got more money than they can usefully dispose of, and I, therefore, see no merit in accumulating money for the purpose of the expansion of a department which has not yet shown its aptitude for taking up the work and spending the money as usefully as one would expect from a department like that of Agriculture. Then, as regards the question which has been discussed by Sir Henry Wheeler of purchasing cloth at a low price and distributing it in selected areas, that was not exactly what I meant when I gave notice of this resolution. As I have said I have no definite proposals to make and I have only suggested that the money should be set apart and if necessary expert advice should be taken in order that some definite scheme may be formulated for spending this money for the purpose which I recommend by means of this resolution. If Government thinks that the proposal cannot be accepted, of course there is an end of this matter; but I want once more to emphasize the fact that the distress prevailing in consequence of the high price of cloth is still a very acute one, and it is not quite correct to say that we have somehow managed to tide over the period of real difficulty. The distress is still real and very acute, and if not by the means I have suggested, some other means ought to be found for removing the acute distress that is now prevailing. I do not wish to waste the time of this Council and with these words I beg to recommend the resolution for the acceptance of this Council."

The motion was then put and lost.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 16.

The Hon'ble **Babu Bhabendra Chandra Ray** moved the following resolution:—

This Council recommends to the Governor in Council—

(*a*) that an allotment of Rs. 2 lakhs be provided as subvention to the District Boards and the mufassal municipalities for enabling them to make arrangements for the retail sale of food-grains and other necessaries of life at cost price in selected areas; and

(*b*) that a corresponding reduction be made in the provision for the nurses' quarters in connection with the Calcutta Medical College.

He said:—

"My Lord, it is obvious that scarcity does not prevail all over the country in the same degree just now, though prices of rice, and particularly pulses, rule very high everywhere. Relief in its usual forms can be expected to be organized only in localities where definite famine conditions prevail. And even then, the middle classes—who are in one sense the worst sufferers—are not benefited thereby, because they prefer to starve in secret, as pointed out by Mr. Vas in his appeal in connection with Bankura famine.

My Lord, I do not desire to take up any more time of the Council in discussing my proposal in details. I believe the resolution carries with it its conviction. It is to be hoped that my suggestion, if accepted, will enable the district boards and municipalities to bring relief to the door of such people as are now beyond the reach of existing relief organizations, without, at the same time, doing violence to Government's policy of non-interference with trade.

Resolutions.

Mr. Cumming; Babu B. C. Ray.

Now, to turn to the retrenchment suggested by me, I think that if once the contention put forward by me is accepted, there is hardly any item in the budget which ought not to submit itself to a process of shearing. If I have selected the new nurses' quarters at the Medical College it is because I agree with Sir Henry Wheeler that they are 'unfortunately expensive', and for the additional reason that this capital expenditure may with advantage be spread over two years."

The Hon'ble Mr. Cumming said :—

"My Lord, in this matter I do not think that it is necessary to say anything further than what was stated by the Hon'ble Sir Henry Wheeler on the occasion of the debate at the previous meeting of this Council. It was then stated that in the areas in which scarcity exists special measures might be taken. The Hon'ble Member proposes that Rs. 2 lakhs should be given to local bodies to enable them to make arrangements for the retail sale of food grains and other necessaries of life. He qualifies his proposal by saying that he does not wish to effect any interference with trade, but I would suggest to him—how can any such arrangement be effected without interference with trade? In fact, it is self-evident that it is not a business proposition that Government should take over the detailed distribution of these articles. As regards the particular items that might be considered, I may mention what has been done and what can be done. As regards salt, it is within the knowledge of all members present that the situation has been considerably improved by ensuring a sufficient supply and also by taking measures regarding the price. As regards kerosene oil, another practical essential to the life of the mufassal, it may be said that the measures taken under Sir Henry Wheeler's auspices in co-operation with the great importers of oil, have been successful in ensuring as far as possible a fair supply at a fair price, and also in preventing profiteering as far as possible. There remains the item of food grains itself. As has been stated earlier in to-day's proceedings, Government will take measures within areas in which scarcity exists and the normal procedure of relief will follow. As regards the particular class of persons whom the Hon'ble Member has mentioned, viz., the middle class community who are reluctant to come forward for public relief, in the areas in which such people have been found special measures have been taken; and Government have already given special grants which have been placed at the disposal of the local charitable relief committees who may distribute relief at their discretion. These being the facts, Sir, I do not think it is sound to ask for a subvention; and certainly a subvention of Rs. 2 lakhs for the whole province of Bengal would be of very little benefit. I, therefore, consider that the resolution in its present form should not be accepted.

As regards the second portion of the resolution, viz., that money should be taken from the provision for the nurses' quarters in the Calcutta Medical College, the matter has already been the subject of debate, and Sir Henry Wheeler has placed before the members of Council the reason why no further deduction should be made from this head."

The Hon'ble Babu Bhabendra Chandra Ray said :—

"Knowing full well, my Lord, what the fate of my resolution will be, I do not wish to press it. Of course I am assured, and I have come to know that special arrangements have been made for the relief of the middle class people by giving money by charitable associations. I think it would be waste of time to press this resolution. I therefore beg leave to withdraw it."

The motion was then, by leave of the President, withdrawn.

Resolutions.

Babu K. M. Chaudhuri; Mr. Cumming.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 17.

The Hon'ble **Babu Kishori Mohan Chaudhuri** moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that at least three model dairies be started at suitable centres in the mufassal with special arrangements for the improvement of the cattle breeding ; and

(*b*) that the sum required be met from a portion of the sum provided for agricultural education.

He said :—

"My Lord, Mr. Blackwood some time ago submitted his report in connection with the improvement of cattle in this province, and he suggested that cattle farms should be established here and there, and that would give a training to the people. It is in this connection that I bring forward this proposal. It is intimately connected with the improvement of agricultural education. What I say is this. that in these cases Government should show the way, and I suggest that three model dairies—whether three, two or one, it does not matter—may be started by Government. At least a beginning should be made. It will be a training-ground for the people in general, and it will serve the purpose of bull-rearing and improvement of cattle. People will learn by seeing the result of what is being done in the experimental agricultural farms, and they will see the utility of maintaining cattle, and what can be done for the supply of fodder, and how the supply of milk can be improved, and the benefits that can be derived. It is in this view that I have suggested the opening of a few model dairies, and I hope there will be no difficulty in accepting this resolution."

The Hon'ble Mr. Cumming said:—

"Sir, the request of the Hon'ble Member is to the effect that three model dairies should be started at suitable centres in the mufassal, special arrangements being made for the improvement of cattle breeding. It is somewhat difficult for Government to satisfy such contending requests as have been put forward to-day. On the one hand Government is accused of going too fast and too far in connection with agriculture and on the other hand of not going far enough or fast enough. The model dairy cannot be a commercial success if it is attached to a cattle farm. The main object is the improvement of cattle and not the sale of milk. We have already one such model dairy attached to the Rangpur farm, as regards which I made the following remarks at a recent meeting of this Council : 'Already there is an indication that the selection of the best cattle from acclimatized indigenous stock produces better results, both in the outturn of milk, and in bone and muscle. If this inference is supported, as time goes on, it will be desirable to create similar farms at many other places in the Presidency ; and this, I suggest, is the proper line of action for the improvement of cattle.' At the present moment I cannot recommend to the Council the starting of other dairies, inasmuch as the data to be obtained before taking such a step can only be obtained by the slow, gradual process of time ; and we must see whether the data satisfy us that the selection of indigenous cattle is desirable. We shall, however, endeavour to open new farms with the ultimate object of improving the breed of the cattle and the milk supply in Bengal. But as the resolution stands at present I am afraid I must ask the Council not to accept it."

Resolutions.

Babu K. M. Chaudhuri; The President; Maulvi A. K. Fazl-ul-Haq.

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

"My Lord, I have very little to add to what I have suggested. My idea is that it is intimately connected with agricultural education, and of any sum set apart for this purpose, a portion may be usefully utilized in starting these model dairies, which will have the effect of improving cattle-rearing, bull-rearing and other connected matters. Of course it is for Government to consider in what way it should be done, but it was recommended by Mr. Blackwood and in that connection I have brought forward this resolution. I beg permission to withdraw this resolution."

The resolution was then, by leave of the President, withdrawn.

The President said :—

"The Hon'ble Rai Radha Charan Pal Bahadur is absent for the moment on public duty elsewhere. In these circumstances I have agreed to the postponement of the motions (items Nos. 18, 19 and 22) standing in his name until he is able to return."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 20.

The Hon'ble Maulvi A. K. Fazl-ul-Haq moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a lump provision of Rs. 3 lakhs be made for hostels for Muhammadan students in Calcutta and the mufassal ; and

(*b*) that the money be provided for by a grant of Rs. 2 lakhs from the budget provision for Calcutta hostels (Rs. 2,89,000) and the mufassal hostels and messes (Rs. 1,09,376), and Rs. 1 lakh by a lump deduction from the budget provisions for the Departments of Fisheries and Director of Industries (26-B).

He said :—

"My Lord, I beg to move the resolution which stands in my name on the agenda paper. It will be in the recollection of this Council that this question has been pressed upon the attention of Government many times within the last few years, and if I have ventured to bring this question for discussion again to-day. it is in view of the fact that the question of hostel accommodation for Muhammadan students is becoming day by day one of increasing difficulty and also of urgency. I wish to place before the members of this Council for their consideration certain figures which I have collected and which will show how urgent and pressing is the necessity for providing hostel accommodation for Muhammadan students. To begin with, I wish to emphasize the fact that the need of the hostel accommodation for Muhammadan students is far more pressing than the necessity for such accommodation for non-Muhammadan students and for that purpose I will mention the following reasons amongst others. In the first place the existing hostel accommodation for Muhammadan students is insufficient as I would presently show ; secondly, if any private houses are hired and the students are to live there according to the rules and regulations of the University, there are

Resolutions.

Maulvi A. K. Fazl-ul-Haq.

very few Muhammadan landlords in Calcutta and the Hindu landlords are very reluctant to let Muhammadan students occupy their houses. I do not make this a point of complaint. It may be from their point of view the Hindu landlords are quite justified, but the result is that the Muhammadan students cannot, without much difficulty, hire a house belonging to a Hindu landlord. Then the Muhammadan students have, comparatively speaking, fewer relatives in Calcutta or in the headquarters stations in the mufassal with whom they can stay, and that again makes it very important that there should be hostel accommodation for them.

As regards my first point that the need for hostel accommodation is very pressing, I wish to submit for the consideration of your Excellency's Government the following figures The total number of Muhammadan students in all the colleges in Bengal—I am speaking not merely of Calcutta but of the mufassal also—comes up to about 2,600. Of this number about 700 reside in hostels, about 350 with approved guardians, about 200 with their own guardians and about 150 in attached messes. And, therefore, it would appear that about 1,200 are living in very undesirable surroundings. Hostel accommodation is, therefore, needed for about 1,200 college students, not to speak of a large number of high school students. The need is greatest in Calcutta where the number of Muhammadan students—to be exact—is 1,483, of whom about 300 live in hostels, 110 in attached messes and about 510 reside in approved hostels as will appear from the following figures : in the Elliot hostel 45, in the Baker hostel 196, in the Tayler hostel 73 and in the Carmichael hostel 166. Therefore, it would appear that there are in Calcutta 575 students for whom there is no approved hostel accommodation. Now, my Lord, if there are 1,500 students in colleges and if we have only been able to find accommodation for about 950, it is high time that steps should be taken as early as possible to remedy a state of things which compel students to live not only in insanitary surroundings but also under conditions which are absolutely condemnable from all points of view.

I find that there are provisions in the budget for Calcutta hostels amounting to nearly Rs. 2,89,000 and for mufassal hostels amounting to Rs. 1,00,000. But I do not find anything in the budget to show what portion of the grants should be utilized, if at all, for hostels and messes for Muhammadan students. I think that out of this sum, a large portion should be set apart for the Muhammadan hostel, and if there is any residue left it might be got from the provision under the head Fisheries and Industries. Here again I touch upon controversial grounds. I am not denying the importance of the Departments of Fisheries and Industries, although I am not quite prepared to give a certificate of efficiency to the Department of Fisheries, but at the same time I think that out of the large allotments that have been made under these two heads some money might be found which could be set apart for Muhammadan hostels in Calcutta and mufassal. This is a matter about which there can be no difference of opinion, and it is a matter about which I know Government is extremely anxious, and, therefore, I need not take up the time of the Council by dwelling on this point at some length. Government themselves have acknowledged that as much money as could possibly be found should be spent on Muhammadan hostels and they have given their pledges on it from time to time. I have collected some figures—which I have reasons to believe are correct—to show that in Calcutta about 600 students and in Calcutta and mufassal together about 1,200 students cannot find any accommodation. Under those circumstances I think that more provision should be made under this head, and I do not know what stronger case I can make out for this need of the Muhammadan students and for more provision for it in the budget. With these words I commend the resolution for acceptance by your Excellency's Government."

Resolutions.

Maulvi Abul Kasem ; Mr. Wordsworth.

The Hon'ble Maulvi Abul Kasem said :—

"My Lord, I rise to support the resolution which has been moved by my hon'ble friend Maulvi Fazl-ul-Haq. In doing so I must in the first place acknowledge our gratitude to the Government of Bengal for the steps taken by them in providing hostel accommodation for Muhammadan boys in Calcutta and at certain mufassal towns, but what I submit, my Lord, is that the accommodation provided is as yet quite insufficient and further provision should be made. As has been said by my Hon'ble friend Government are only too anxious to provide such accommodation and to help the cause of advancement of Muhammadan education, and the only difficulty Government finds is that of ways and means. We, on our part, my Lord, have tried several measures in order to provide funds for the advancement of Muhammadan education, but we have failed in all directions, and naturally we have to fall back on public revenue. The need for Muhammadan hostels is specially necessary on account of the fact that the system of education now imparted in our collegiate schools is not well suited to the members of the Muhammadan community. We want to give some sort of home training and religious education ; that we cannot do unless we have special Muhammadan hostels. For that reason and also for the reason stated by the Hon'ble Maulvi A. K. Fazl-ul-Haq that the Muhammadan boys find it extremely difficult to find a place to live in during their student career, this makes our case strong enough for the favourable consideration of Government. As regards the amount to be secured by a deduction from the Department of Fisheries, I might remind this Council, my Lord, that a couple of years back I suggested the abolition of the department, and my proposal was criticized by the Hon'ble Member in charge as preposterous. For these few years, my Lord, I have tried to find out whether the Department of Fisheries has in any way helped either the cultivation of fish or has increased the supply in this province, but I fail to see any improvement at all. We have now a Director of Fisheries, and he has got a larger staff than he had formerly, on which much money is spent, but as yet we have had no tangible result of the work of the department beyond certain experiments which are as yet only of academic value and nothing more. I submit, my Lord, that the question of providing hostel accommodation for Muhammadan boys is a very important question and should receive early consideration at the hands of Government, and as soon as funds are available that provision should be made. I think that according to the relative importance of the Department of Fisheries and the provision of hostel accommodation for Muhammadan boys, preference should be given to the latter. With these remarks I beg to support the resolution of my Hon'ble friend."

The Hon'ble Mr. Wordsworth said :—

"My Lord, I would first say a word about the items that are proposed to be reduced. The first educational item is described as Rs. 2,89,000 for Calcutta hostels ; Rs. 1,89,000 of that is pledged to the University in continuation of schemes almost completed, and in view of the urgency of the case Rs. 1 lakh is pledged to the Civil Engineeing College at Sibpur for certain improvements in their sanitation. The item Rs. 1,09,000 is not capable of reduction. This is an item of recurring expenditure and represents our proper recurring expenditure according to arrangements entered into with various hostels and colleges in the mufassal. I am informed that the budgets for the Departments of Fisheries and Director of Industries represent merely the actuals with the exception of Rs. ½ lakh for development under the Director of Industries. This Rs. ½ lakh itself is not capable of reduction because it is an instalment towards carrying out certain proposals made in the report of the Industrial Commission, and I am informed—although on

Resolutions.

Maulvi A. K. Fazl-ul-Haq.

this point I do not speak with authority—that a representation has already been made for an increase of the budget provision under this head.

Turning now to the constructive part of the resolution, I may remind the Council that the matter has been debated here several times, and that last year in particular it was discussed at some length. The Hon'ble Mover on that occasion after hearing the situation explained on behalf of Government, withdrew his resolution, and the language with which he withdrew it is this : 'I have taken the assurance of the Director of Public Instruction and beg to withdraw the resolution, especially as there is no help for it.' I trust, my Lord, that the assurance then given and now repeated will be accepted as equally satisfactory. If it was then agreed that the Department of Education had done its best to meet the needs of the Muhammadan community, I would venture to assure the Hon'ble Mover that there has been no relaxation of will and vigilance in the department since that time. For such purposes as are contemplated in this resolution we have as resources either Imperial grants or Provincial grants. The Imperial grants are distributed for such purposes and on such conditions as the Government of India may care to lay down. Provincial grants are distributed under the grant-in-aid system and the grants-in-aid system of the Government of Bengal is the contrivance for testing needs and differentiating them from mere wishes or aspirations. Judged by this test there are few needs in the Muhammadan community in the matter of accommodation in college hostels. We have a fairly elaborate machinery in the Education Department for finding out these needs. The University itself is always accessible and as a member of the Department of Education and of the University, I would say that very few needs have been brought to notice during the last year. It is rather a naive way of representing the situation to subtract the number of students in hostels from the total number in educational institutions and to assume that their number is a measure of the need. I am unable to accept that as a test of the situation ; nor am I aware that the needs of the Muhammadan community in this respect are any greater than the needs of the Hindu community or of those classes that are known as backward classes. I would gladly see more provision made under this head if we were likely to spend it, but schemes mature slowly and, especially grants-in-aid schemes, depend on local contribution, and I am not acquainted with any scheme or needs or definite proposals that need pledge the department to greater expenditure during the next year than the expenditure already provided for. During the last three years we have spent practically Rs. 3 lakhs in capital expenditure for this purpose—I have not the figures for recurring expenditure immediately available. We have a number of schemes for hostels in Government institutions and non-Government institutions ; the schemes for Government institutions come to about Rs. 1½ lakh and those for private institutions to Rs. 1,30,000, and only one new scheme has recently been presented to us ; this will cost about Rs. 12,000 ; it is receiving attention, and if it matures, will be financed without delay. I, therefore, consider, my Lord, that we have sufficient provision in our budget for probable needs under the appropriate head of grants-in-aid, and I would assure the Hon'ble Mover that if our expectations are not fulfilled, and if the demand proves greater than our expectations, we strain every nerve and make every effort to meet the just needs of the Muhammadan community."

The Hon'ble Maulvi A. K. Fazl-ul-Haq said:—

"My Lord, I have placed certain figures before this Council for the consideration of the members and I may say that I took some pains to ascertain the facts as correctly as I could possibly do, and the figures that I have placed before the Council are, I believe, substantially correct. The Director of

Resolutions.

Maulvi A. K. Fazl-ul-Haq.

Public Instruction has said that it is not a good test to subtract the number residing in hostels and messes from the total number of students in colleges and schools, and then inferring from the figures arrived at that the question of hostel accommodation is of any great urgency or necessity. There is one little matter which I would respectfully like to remind him of and it is this: There are hundreds of students every year who cannot pursue their studies in Calcutta for want of sufficient hostel accommodation and who cannot take admission in colleges simply because of the insufficient accommodation in Muhammadan hostels. Therefore, the number which we have got at present on the college rolls—I mean the number of Muhammadan students—is much less than what it would have been if we had sufficient hostel accommodation for them. The absence of sufficient hostel accommodation really reacts on the number that take admission in colleges, and I think it is a very safe guide to find out whether the necessity is urgent or not by finding out how many of the college students are without any kind of hostel accommodation. It is true that on the last occasion when I brought this question up before the Council, the Director of Public Instruction speaking on behalf of Government was pleased to give me the assurance that the matter would receive his anxious consideration and that he would, as he has promised this afternoon, strain every nerve in its accomplishment if we could make out that the case of hostel for the accommodation of Muhammadan students is one of urgent necessity. It is very difficult for us to go about seeking students who go away from Calcutta disappointed by not getting seats in colleges and hostels and bringing every such instance to the notice of the Director. But, if he wishes it, I can do so, though I warn him that it would greatly interfere with his departmental duties if he is going to be beseiged by an army of Muhammadan students every day. It is true that assurances have been given from time to time, and although I greatly acknowledge the efforts that have been made for providing hostel accommodation for Muhammadan students from time to time, within the last 12 years in this very Council, very little tangible effect has been produced towards that direction. I find various budget allotments, under the head Education which the department has not been able to utilize. I wonder how, with the anxious solicitude on the part of Government, grants that have been made by the Imperial Government and other large sums of money were allowed to lapse simply for want of suitable schemes for spending the money on—the money at the disposal of the Provincial Government. I cannot understand why with such a pressing need before them—a need to which attention of the Government is drawn every year in the Council by discussions and resolutions—that money is allowed to lapse for want of definite schemes. I do not wish to say anything further on the subject, because I find that I have not been able to convince the Director of Public Instruction that the need for hostel accommodation for Muhammadan students is really as urgent as I have represented it to be. I wish to challenge only that portion of his statement wherein he says that the difficulty of Muhammadan students in getting hostel accommodation is not greater than non-Muhammadan students. I have already pointed out the special difficulties of the Muhammadan students. I need not go into details. These difficulties do not stand in the way of non-Muhammadan students, and I have not come across one non-Muhammadan leader who has not acknowledged his anxious solicitude for Muhammadan education even at the sacrifice of the interests of his own community. Whenever we have brought up the question of Muhammadan hostel accommodation and Muhammadan education, we have received nothing but sympathy from the leaders of the non-Muhammadan communities. Because they appriciate our difficulties at the present moment they sympathize with us, and if I am to press this resolution to a division I am sure every one of them will vote for me. But I do not wish to take up the time of the Council. I brought up this matter for consideration and it rests with your Excellency's Government to accept it or not."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 21.

In the absence of the **Hon'ble Sir Deba Prasad Sarbadhikari** the following resolution which stood in his name went by default :—

This Council recommends to the Governor in Council—

(*a*) that a sum of Rs. 3 lakhs be provided in the budget for the improvement of private colleges ; and

(*b*) that the necessary funds be obtained by a corresponding reduction in the provision for Civil Works in charge of the Public Works Department.

Resolutions.

Rai M. C. Mitra Bahadur.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 23.

The Hon'ble Rai Mahendra Chandra Mitra Bahadur moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that provision be made for Rs. 5 lakhs for granting some allowance to all clerks drawing a monthly salary of one hundred rupees and less, employed under the Government of Bengal; and

(*b*) that the expenditure be met out of the grant of Rs. 34,20,000 provided in the budget for New Works (including Minor Works) under the head 45—Civil Works in charge of the Public Works Department.

He said :—

"My Lord, the resolution speaks for itself. I need not take much time of the Council in moving this resolution. It is well known to your Excellency's Government that the price of all food-stuffs such as rice, flour, *ghee*, mustard-oil, spices, etc., etc., and other necessaries of life, *e.g.*, cloth, medicine, etc., have risen abnormally high. The hard-worked clerks under your Excellency's Government drawing a monthly salary of Rs. 100 and below find it very difficult to make both ends meet and maintain the members of their family and dependents properly. It is no exaggeration to state that many have been obliged to take one meal a day. Respectable merchants have kindly increased the salary of their clerks and further granted them a war bonus. Persons employed in the printing department of the Government of India in Calcutta and also a large number of persons in the Postal and Telegraph Department clerks under the various provincial Government have been granted allowances as detailed below :—

Statement showing allowances sanctioned by different Local Governments and Imperial Departments.

Name of Local Government or Imperial Department.	Date from which the sanction has effect.	Rate of allowances sanctioned.
Post and Telegraphs	1st November 1917	Five per cent. of salary to all non-gazetted officers drawing pay up to Rs. 600 in addition to all other emoluments (*i.e.*, grain compensation allowances).
	1st November 1918	Additional 5 per cent. of salary to all non-gazetted officers drawing pay up to Rs. 70.
Controller of Printing, Stamps and Stationery.	1st April 1918 ...	Five per cent. of salary to all members of superior establishment up to Rs. 600. Clerks drawing under Rs. 25 to get Rs. 25. Inferior servants to receive allowance under the Bengal Government scheme. These allowances may be drawn in addition to grain compensation allowance.
	1st November 1918	Additional 5 per cent. of salary to all members of superior establishment drawing pay up to Rs. 70.

Resolutions.

Rai M. C. Mitra Bahadur.

Name of Local Government or Imperial Department.	Date from which the sanction has effect.	Rate of allowances sanctioned.
Government of Madras.	1st January 1919	Rupees 4 when salary is Rs. 9 and under; Rs. 5 when salary exceeds Rs. 9 but not Rs. 16; Rs. 6 on salaries of Rs. 50 and under; men drawing over Rs. 50 but less than Rs. 56 should be given such sum as is necessary in each case to bring the pay to Rs. 56. Grain compensation allowance is not admissible in addition.
Mysore Presidency (Bangalore).	1st March 1918 ...	Five per cent. of salary to all public servants drawing Rs. 50 and less in addition to grain compensation allowance.
United Provinces of Agra and Oudh.	1st December 1918	Rs. 4 to all whole-time Government servants on pay exceeding Rs. 30 but not exceeding Rs. 50 till declaration of peace.
Punjab Government	1st October 1918	Five per cent. of salary to all public servants drawing Rs. 50 and less in addition to grain compensation allowance.
Government of Bombay.	1st January 1918	Thirty-three per cent. on salary from Rs. 20 to Rs. 30; 25 per cent. on salary above Rs. 30 to Rs. 70; minimum pay of all clerical appointments to be raised to Rs. 20 and war allowance paid on it; and Rs. 4 to other superior servants on pay less than Rs. 20. Rs. 4 to inferior servants. Grain compensation allowance is not admissible in addition. (It has also been decided that a substantial portion of this allowance is to be eventually consolidated in pay.) Those drawing between Rs. 30 and Rs. 32 to be brought by an allowance to Rs. 40 and those above Rs. 70 to be brought to Rs. 87-8.
Central Provinces...	1st October 1918	Rupees 3-8-0 to all whole-time Government servants drawing Rs. 16 and less; Rs. 6 to those drawing more than Rs. 16 but less than Rs. 50. (Grain compensation allowance is not admissible in addition.) Men drawing over Rs. 50 but less than Rs. 56 should be given such sum as is necessary in each case to bring the pay up to Rs. 56.

Building materials including bricks are very costly now. If the construction of buildings be postponed for a year, the charges will be less. I, therefore, move this resolution for the kind consideration of your Excellency's Council that provision be made for Rs. 5 lakhs for granting some allowance to the clerks and this expenditure be met from the grant of Rs. 34,20,000 provided in the budget for new works (including Minor Works) under the Head 45—Civil Works in charge of the Public Works Department.

The question for consideration is whether the prices of food-stuffs and other necessities of life has risen abnormally high. On a previous occasion I brought to the notice of your Excellency's Council that this is a fact which cannot be denied and it is beyond dispute, and labouring under that idea I have ventured again now to bring forward the case of poor and hard-working clerks to your Excellency's notice. It is not necessary for me to plead their

case, but I base my arguments entirely upon facts. I have brought the matter to your Excellency's Council, and it would be an act of justice to take their case into consideration and increase their pay as suggested by me. With these words, my Lord, I commend the resolution to your consideration."

The Hon'ble Sir Henry Wheeler said :—

"My Lord, this resolution is by way of being an echo of a resolution which was moved by the Hon'ble Maulvi Fazl-ul-Haq at Dacca on the 19th August last, with this difference that while that resolution referred to public services in general, the present resolution refers only to clerks. Otherwise the Hon'ble Maulvi Fazl-ul-Haq made a somewhat similar proposal to that now put forward. I then opposed it on the general ground that in these days of economy we cannot always be as generous as we would like to be ; at that time grain prices were not high, which was a great relief to the poorer classes, and what we had done was mainly directed towards helping our menial establishments. With reference to them we had given relief involving an expenditure of Rs. 4 lakhs, out of a total scheme which would have entailed an outlay of some Rs. 17 lakhs. I said that, all things considered, that was about as far as we found that we could go. The proposal of last August is now practically repeated, but a general proposition of this kind should not be allowed to obscure the fact that in individual cases, according as they arise and according to their merits, we do give, and have given, relief even since August last to various lowly paid servants of Government. I have already referred to the fact that we have raised the pay of the menial servants in certain of the Calcutta hospitals. We have raised the pay of our press establishment on the lines of the action taken by the Government of India, which are included in the statement which the Hon'ble Member read out, and in the budget of this year we have a provision for helping the lowly paid clerks in the Registration Department. Therefore, it is not correct that we are unmindful of the needs of these low paid establishments, and in minor cases their grievances are constantly coming before us. That being so, the question is whether we should undertake a liability for this very large expenditure which the Hon'ble Mover estimates at Rs. 5 lakhs. I am not aware on what basis he has arrived at these figures, and bearing in mind that what we recently did for our menial staff involved us in an expenditure of Rs. 4 lakhs, I should think any measure of relief on the scale he has outlined must be a decidedly more expensive matter than he has mentioned. I do not think, Sir, that we should be justified even if we found the money, which it would be very difficult to do, in undertaking the liability suggested, and neither do the precedents that he has given us altogether make out a case for so doing. It is perfectly true that relief has been given to the Post and Telegraph Departments as well as to the Press and Railway establishments, but these are under the control of the Government of India and are more or less commercial departments which were subjected to a very heavy strain during the war, and I imagine that to that fact weight was attached. But apart from those instances, I cannot find in the statement a single province that has gone up in the way of relief to anything like those who are drawing Rs. 100 or under. Bombay seems to have gone up to those in receipt of Rs. 70, but the conditions of Bombay have been very special ever since the beginning of the war ; references to it have appeared in the papers, and I mentioned it in this Council, in particular, in the course of the Dacca debate. Otherwise other provinces do not seem to have admitted to help anyone drawing more than Rs. 50, and even such action has been taken only in Madras, the United Provinces, the Punjab and the Central Provinces, in all

Resolutions.

Rai R. C. Pal Bahadur.

of which areas, I may remind the Council, famine conditions are prevailing, which is not the case with us here in Bengal. On the precedents, therefore, I do not think the Hon'ble Member has justified his claim that we should help everybody up to Rs. 100, and the most I can hold out any hope of doing is in connection with papers which have just been handed to me to-day in Council. I see that in connection with one of these complaints which are constantly coming up from various sections of our staffs, we have been trying to work out a proposal to extend grain compensation allowance, possibly, to the clerical establishments in receipt of Rs. 30 and under. Grain compensation allowance, as the Council is aware, is an allowance which has now been in force for some years, and in this province it is regulated by orders passed in 1912. Its general principle is that it is regulated by a standard price of grain; if grain rises above a certain price those in receipt of a pay of Rs. 12 and under automatically get certain additions to their pay. In these papers it is suggested that we might give a similar measure of relief to clerks who are in receipt of Rs. 30 and under, and for that there is some precedent, since this Rs. 30 rate was in force at one time in place of Rs. 12 which is now adopted. I am willing to examine this suggestion further, and if we can see our way to find the money and work out a practical scheme on these lines, I will prepare a case and put it before your Excellency and my Hon'ble colleagues. There is some justification for doing so, as in my remarks at Dacca in August last I claimed that food prices were low; that, unfortunately, is no longer correct, although the prices are even now not as high as they have been in past years. However, they are not now low, and I think it is arguable that we should try and do something on these lines. I cannot be more explicit as I have not had time to examine the figures and work out details, but as a general measure of relief it looks as if something of this kind might be feasible. It does not go as far as the Hon'ble Member represents, but as I have explained, the conditions here are not the same as in other provinces, and we cannot go as far as he would wish. It is not unfair that we should relieve those drawing Rs. 30 and under, because it is those on the lowest rates of pay who have the first claim on our sympathy. I cannot accept the resolution, but I offer this possible solution to the Hon'ble Member for what he may consider it to be worth."

The Hon'ble Rai Radha Charan Pal Bahadur said :—

"My Lord, I rise to support the motion of my Hon'ble friend the mover of the resolution, and in doing so I may say that I have listened with very great attention, as far as I could hear, the observations of the Hon'ble Member who spoke on behalf of Government. My Lord, I acknowledge with gratitude that relief has been given in individual cases in the case of menial servants in hospitals, in the case of the press establishment and in the case of some low-paid clerks in the Registration Department. But, my Lord, the members of your Excellency's Government and the experienced members of the Indian Civil Service who are Government members here are well aware of the fact that the poorer *bhadralog* classes have been much impoverished in recent times. They are, generally speaking, people of very moderate means, earning Rs. 2 or Rs. 3 a day. They belong generally to the smaller trading community and also to the subordinate clerical establishment of Government. And, although, I observed a note of sympathy in the observations that have fallen from the Hon'ble Sir Henry Wheeler that he is prepared to grant some grain compensation allowance to clerks drawing up to Rs. 30 a month, I would ask him and your Excellency to consider this fact that in these days a man earning Rs. 2 a day cannot maintain a family of 10 or 12 heads, and such persons have consequently to starve on one meal a day

Resolutions.

Rai M. C. Mitra Bahadur.

or run into debt. I am not exaggerating, and I feel bound to give expression what is already prevailing in Bengal. I would respectfully ask your Excellency and specially the members of your Excellency's Executive Council to consider how it is possible for a *bhadralog* earning Rs. 2 or Rs. 3 a day to maintain a family of 10 or 12 persons in these days of high prices of food-stuffs and cloth and everything else. There is lamentation throughout the country. Of course, I know it is so all over the world. But in those countries Government is prepared to help the people under their charge, and if I may be permitted to make a suggestion, your Excellency's Government may be pleased to raise the Rs. 30 standard to a maximum of Rs. 60. It will then to some extent relieve the distress of the poorer *bhadralog* classes who are very hard pressed in these times of high prices. They are a mute class and they do not shout forth their grievances from public platforms or send lengthy memorials to Government. But all the same they are a long-suffering class and, therefore, if the Government can see their way to raise the maximum to Rs. 60 it will be received with as much gratitude as the announcement of the exemption from income-tax of incomes below Rs. 2,000 a year. If the Government of India can show that generosity I think your Excellency's Government can also extend their generosity by granting a grain compensation allowance to persons getting Rs. 60 a month or under. Mention has been made of the Post and Telegraph men who, it has been said, have been granted allowances because they worked very hard during war time. No doubt they have worked hard, but they surely got extra remuneration. Besides, the Posts and Telegraphs men are comparatively better paid than the class I am speaking of who are getting Rs. 60 and under and towards whom, I hope, the same concession will be shown. In Bombay, it has been stated, allowances are given to those who are drawing Rs. 70 or under—I do not know whether I have heard the Hon'ble Member right—but if that is so, I think it will be no extravagance if we extend the allowance to men drawing Rs. 60 or under. I hope this question will be sympathetically considered and that something will be done to give relief to the poorer *bhadralog* classes."

The Hon'ble Rai Mahendra Chandra Mitra Bahadur said :—

"My Lord, I have listened to the speech delivered by the Hon'ble Sir Henry Wheeler. I consider it a very important subject, because, when I put to the Council the condition of those clerks who are suffering much, I think I should also appeal to the generosity of your Excellency's Government. The Hon'ble Rai Radha Charan Pal Bahadur has said that they are suffering much ; they are toiling much from day to night ; no one to take care of them and no one to plead for them. Now, that, my Lord, is the position of these clerks. It is very gratifying to hear from what the Hon'ble Member of Government has said that Government will consider the case of those who are drawing Rs. 30 or so. My proposal is to the effect that the case of those who are drawing monthly Rs. 100 or below should be considered. The state of things if described properly to the Council is that every person who knows the conditions of life of these poor clerks will sympathize with me when I put forward the resolution. I repeat once more that your Excellency's Government ought to take notice of these poor clerks. I did not formulate the amount which is to be fixed as increased pay over the amounts which these men are drawing. The reason is simply because I left the matter entirely to Government officers to settle. It is not for me to formulate or to put forward an *ipsi dixit* on the point, but I left the case to the Government and the consideration of the Council."

[The discussion on the Resolutions on the Revised Financial Statements was resumed.]

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 24.

In the absence of the Hon'ble Sir Deba Prasad Sarbadhikari the following resolution which stood in his name went by default :—

This Council recommends to the Governor in Council—

(*a*) that a sum of rupees five lakhs be provided in the Budget for—

(*i*) providing counter-attractions against drink and drug habits in Calcutta and selected district towns ;

(*ii*) improving the pay and prospects of the Excise service ; and

(*iii*) facilitating temperance teaching in educational institutions; and

(*b*) that the necessary funds for the purpose be obtained by reducing to the necessary extent the charges for Civil Works in charge of the Public Works Department.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 25.

The Hon'ble Babu Ambika Charan Mazumdar moved the following resolution :—

This Council recommends to the Governor in Council :—

(*a*) that a sum of Rs. 75,000 be provided in the budget of 1919-20 for the construction of the proposed record-room at Faridpur for the custody of the District Settlement records ; and

(*b*) that this sum be met—

(*i*) by curtailment of the provision for "Criminal Investigation Department" under head 20—Police ; or

(*ii*) from the provision made for "sub-deputy collectors as circle officers" under head General Establishment.

He said :

"My Lord, the subject matter of this resolution is one of purely local interest, and I cannot expect to attract much sympathy from the non-official members of this Council, so I shall mainly appeal to the official members of the Council. I think, at the very outset I ought frankly to confess that I do not pretend to be altogether so very disinterested in this matter as the wording of this resolution might apparently indicate. Your Excellency is aware that a College has recently been established at Faridpur mainly through your Excellency's generous considerations, and I take this opportunity of giving public expression to the debt of gratitude which the Faridpur people owe to your Excellency personally in this connection. It was your Excellency who as Governor of the Presidency granted the land required for the College without which the project would have been nipped in the bud and again it was your Excellency who as Rector of the University obtained the affiliation of the College under circumstances of no ordinary difficulty. My Lord, the humble individual who is now addressing you will always remember with gratitude and respect the generous considerations which your Excellency has from time to time shown for the accomplishment of this project. Now, my

Resolutions.

Babu A. C. Mazumdar.

Lord, the land granted by the Government for this College contains an old building which the College Council has purchased from the Municipality, but it is occupied at the present time with the settlement records of the district. In granting this land your Excellency's Government insisted upon two conditions, namely, that the College building in whatever shape and form it might be started at the beginning must be constructed independently of, and perfectly detached from, this old building and the other condition was that this old building though purchased from the Municipality would not be given to the College authorities until Government were in a position to remove these valuable records somewhere else. The College Council has loyally submitted to both these conditions and the College building which is now nearing completion is being constructed entirely on one side of this old building and perfectly detached from it. The College has fortunately proved a success much beyond our expectation, and there seems to be a great future before it. Although we have in constructing this new building provided for nearly 500 students I believe as the run for admission in the College seems to be so great that probably even with this building the accommodation will be found insufficient, so that the College Council will shortly have to look to this old building for further expansion of the College. This old building which is now occupied by the settlement records cannot be availed of until Government constructs a record-room of its own. It may be remembered that an estimate was prepared soon after the completion of the settlement in the district of Faridpur for the custody of the settlement records—a portion of the materials was also collected and they are still lying on the ground where the building is to be constructed, but soon after the project was started the war broke out and the matter was allowed to drop. This has involved some loss also to Government, as in keeping the settlement records in this old building Government have to maintain a separate establishment of not only record-keepers and copyists but also a number of guards, and besides it has to pay a rent of Rs. 720 a year to the municipality for the use and occupation of this building. With all this, my Lord, the supervision of the Collector over this building is very imperfect for the reason that this building stands, on an isolated ground far remote from the other buildings of the Collectorate. The valuable records are kept in this building in huge masses. My esteemed friend, the hon'ble Mr. Wordsworth, who went to inspect the locality at the very inception of our project knows very well how heavily it is stuffed from floor to ceiling with these records with scarcely two feet of space between each two racks for a man to pass through and then these records are being subjected to ravages of cockroaches and whiteants: so that the sooner the Government construct the record-room which was already in contemplation in 1914 the better for Government as also for the College, because in that case the College authorities will be in a position to utilize this building and expand the College further.

In placing this resolution before your Excellency's Council I have referred to two sources from which money might be drawn—first, from the allotment made for the Criminal Investigation Department under head 20—Police. My Lord, from the Financial Statement it will be seen that ever since 1915-16 the provision under this head has steadily gone on increasing. I think we live in much calmer times at the present moment. Whatever the situation might have been in 1916-17 I think we have passed the breakwater-line and are now sailing on a much smoother water. Consequently I think it will not be too much for me to expect that the provision for the Criminal Investigation Department, however necessary it may be, is susceptible of some reduction when affairs are so much changed for the better. The second source to which I have referred is the allotment for 'Sub-Deputy Collectors as Circle officers'. I would be the last man to ask for any curtailment from the allotment for the expansion of village self-government, but I do not know if I am labouring under a mistake. It seems to me that the Village Self-Government Bill, as amended by the Select Committee, does away with circle

Resolutions.

Mr. Cumming; Babu A. C. Mazumdar.

boards which was the original intention of the Bill, and if the circle boards are eliminated I doubt if the Circle officers should not go with it. In this view I have referred to this source also. I do not know, my Lord, if I am quite happy in my suggestions about the sources, but whatever that may be if I have made out a good case for the construction of a room for settlement records I believe Government will be able to find money—not a very large sum—in order to complete the record-room at Faridpur and thereby not only preserve the records in a much better form and condition but also provide expansion for a college for which the Government has done so much. With these observations I commend the resolution to your Excellency's Council."

The Hon'ble Mr. Cumming said :

My Lord, as the Hon'ble Member has stated, this resolution is one of purely local interest, but even so I am glad to be in a position to meet the Hon'ble Member, although not perhaps to the extent as stated in his resolution. The project to which he has referred, viz., the construction of a record-room at Faridpur is mutually advantageous both to Government and to the Faridpur Rajendra College, the construction of which is so near to his heart. On the one hand, this project has been an important one for which Government have been desirous of supplying funds for several years. It was administratively approved five years ago. As the Hon'ble Member has explained, the existing arrangements are by no means suitable and owing to the difficulties which have arisen on account of the war it was not possible to obtain the materials which were required; and so the project has been allowed to remain in a state of suspension. It is now hoped that it will be possible to make a start with the building in the present year. On the other hand the proposal is primarily in the interest of the college for which Government have given a grant of land of over 5 acres in the immediate vicinity of this building; and my last visit to Faridpur has confirmed me as to the suitability of the proposed arrangement whereby the existing record-room should be given up for the purposes of the college as soon as possible. On these two grounds, Sir, that it is advantageous to Government and advantageous to the new college, an endeavour will be made to erect the building during the ensuing year. The Hon'ble Member, however, has entered a sum of Rs. 75,000 and has made a suggestion that it should be met from two heads. Government, however, think it more appropriate that the money should be supplied from another head regarding the diversion of which there can be no dispute. We have a sum of Rs. 40,000 under the heading of General Administration which is immediately available for diversion; and, if the Hon'ble Member would be prepared to substitute Rs. 40,000 for Rs. 75,000 in the substantive part of his resolution and will cancel clause (*b*), he may rely on Government that the financing of the building will be started and carried out in due course. So far as this resolution goes, Government will accept it if the Hon'ble Member accepts the changes to be made which I have indicated.

The Hon'ble Babu Ambika Charan Mazumdar said :

My Lord, after the very kind assurance which has been given by the Hon'ble Mr. Cumming I do not think I need press for a division in this case. I am glad that something is being done in this direction, whether it be Rs. 75,000 or Rs. 40,000 it will not matter much. As the Hon'ble Mr. Cumming has said, I know that if Government once takes it up it will be able to complete this building within a much shorter time than we can possibly expect. I again thank Government and the Hon'ble Mr. Cumming for the suggestion he has made and with your Excellency's permission I would beg leave to say that instead of Rs. 75,000 it may be reduced to Rs. 40,000 to

suit the convenience of the department, and that it may be taken from the General Administration head.

The Hon'ble Sir Henry Wheeler said:

My Lord, I would like to say just a word to elaborate what the Hon'ble Mr. Cumming has said about the source from which this allotment is to be taken. I do not wish Hon'ble Members to think that there are odd sums of Rs. 40,000 lying about in the budget which can without inconvenience be diverted to other purposes. The head to which Mr. Cumming refers is the provision for the Press Censorship. There is money available under that head because when the budget was under preparation we made a provision on the same scale as in the previous year, but, as Hon'ble Members may have seen, we have recently closed down the Press Censor's establishment, and therefore the full sum will no longer be required. This change of policy was adopted after the estimates were framed.

The President said:

The position is this. Government are prepared to accept the Hon'ble Member's resolution subject to certain modifications. The first modification is the substitution of the words '40,000' for the word '75,000' and the second modification is the substitution for part (*b*) of the following: "from the lump provision for the Press Censor and his establishment under head 18—General Administration." If the Hon'ble Member is prepared to move his resolution in that form, Government will accept it.

The Hon'ble Babu Ambica Charan Mazumdar said:

I thankfully accept both the amendments.

The resolution was then put in the following modified form and agreed to:—

"This Council recommends to the Governor in Council:—

(*a*) that a sum of Rs. 40,000 be provided in the budget of 1919-20 for the construction of the proposed record-room at Faridpur for the custody of the district settlement records; and

(*b*) that this sum be met from the lump provision for the Press Censor and his establishment under head 18—General Administration."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 26.

In the absence of the **Hon'ble Babu Akhil Chandra Datta,** the following resolution which stood in his name went by default:—

This Council recommends to the Governor in Council—

(*a*) that a sum of twenty thousand, or some other suitable sum, be provided in the next year's Budget for the improvement of the Comilla Civil Court's compound and the buildings thereof; and

(*b*) that this amount be taken out of—

(*i*) the provision of Rs. 2,00,000 for the improvement of the Duars Road in Jalpaiguri; or

(*ii*) the provision of Rs. 1,00,000 for laying the Maidan Roads in Calcutta with tar macadam metalling.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 27.

In the absence of the **Hon'ble Babu Akhil Chandra Datta** the following resolution which stood in his name went by default :—

That this Council recommends to the Governor in Council—

(*a*) that suitable provision be made in the Budget for 1919-20 for a project for mitigating the effects of flood in the country in the district of Tippera ; and

(*b*) that the necessary amount be taken out of the provision of Rs. 4,54,000 for widening the Madaripur Bil route.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 28.

The Hon'ble Maulvi Abul Kasem moved the following resolution :—

This Council recommends to the Governor in Council that the sum of Rs. 40,000 allotted for the construction of a steam-launch, be allotted for the purpose of mitigating the effects of the floods of the Adjai in the Ausgram, Mungulkot and Ketugram thanas of the Burdwan district.

He said : "My Lord, I would be failing in my duty if in moving this resolution, I do not on behalf of my countrymen acknowdge with thanks the sympathetic attitude taken by your Excellency's Government and the Public Works Department towards the mitigation of the effects of the floods in the Burdwan Division. Even this year in the Financial Budget, provision has been made for the mitigation of the floods both on the side of the Damodar as well as Adjai, and last year also some provision was made under this head, but up till now as far as the Adjai floods are concerned, the attention of the department has been directed entirely to the scheduled embankments up to Sagarputul and no further, and my grievance is that the people lower down the river in the whole of the Kutwa sub-division are suffering and their crops are destroyed every year, but that has not drawn much attention because it has been the normal state of affairs for the last 30 years. I do not ask for any embankment. I myself have tried in this Council on various occasions by several resolutions to draw the attention of Government and I understand that a survey has been made of the whole tract of land, but no scheme has yet matured and no funds provided for the purpose. But I hope, my Lord, this matter will receive the attention of the Government and as I had to suggest the amount to be found somewhere, I thought that the provision of a steam-launch to replace the 'Sir John Lambert' was the proper thing to do, because, I believe, that not much necessity has been shown for the construction of this launch. However that is a minor matter, and I am less anxious for the non-replacement of this steam-launch than that some provision should be made for mitigating the effects of the floods in the area mentioned in the resolution. The situation is very grave, and I might say that in several villages in this area many people have had to leave their homes on account of the distress caused by these floods. I do not mean abnormal floods like the great floods of 1913 and 1916 and 1917, but I mean the ordinary rise of the river on account of large breaches on the banks of the Adjai, the whole tract of the land lying on the right side and some portion of the left side up to Katghiri are practically desolated because the crops are destroyed every year and sand is laid on arable land making it unfit for further cultivation, and as enquiries have already been made into the matter by the Public Works Department, I hope this question will be taken up without further delay. I appeal to the officers of the Department as well as to your Excellency's Government to give this matter consideration. With these words I commend the resolution for acceptance.

Resolutions.

Mr. Cumming, Maulvi A. Kasem.

The Hon'ble Mr. Cumming said:

In this case also, my lord. I am speaking from personal experience. I visited the area in question with the Hon'ble Mr. Cowley. It was decided that in addition to the improvement of the embankments under the control of Government which are known as schedule D embankments, there should also be expenditure for the purpose of mitigating the floods lower down in the areas to which the Hon'ble Member has drawn attention. He complains that no money has been set aside for the purpose. It is true that the money that has been set aside is now borne in the grand total under the head of Minor Irrigation; but it is not Rs. 40,000 but one lakh of rupees which has been set aside for the purpose of constructing a scheme which will prevent anything but the super-excessive floods from deluging the country, and will permit the overflow in the case of ordinary floods to be kept within bounds. In view of these facts, Sir, that far from there being no provision of outlay there is a provision of one lakh and that the money provided will be sufficient not only for the initiation of the scheme, but for its completion within the present year, I hope the Hon'ble Member will see his way to withdraw his resolution.

The Hon'ble Maulvi Abul Kasem said:

My Lord, as I began by saying that I cordially acknowledge that some provision was made for Safarpulat escapement, but my point was that that escapement will no doubt mitigate the effects of the floods in the western area in certain portions of the Sadar subdivision, my point is that no escapement has been provided in the Kutwa subdivision. Owing to breaches on the banks of the Adjai the country is inundated every year on account of the river bed being much higher than the land on the opposite side. There are breaches even this year, all the water passing through the river instead of passing through the canal escapement from these breaches into the whole area. Therefore I wanted to draw the attention of Government to this matter, but as I have done so I do not think any good will come in pressing this resolution. therefore I beg to withdraw it.

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 29.

The Hon'ble Maulvi Abul Kasem moved the following resolution:—

This Council recommends to the Governor in Council that the sum of Rs. 32,207 allotted for raising the strength of the Dacca Military Police Battalion be allotted for the purpose of increasing the pay of teachers in primary schools in rural areas.

He said:

My Lord, there is a provision made in this year's budget for increasing the pay of teachers in primary schools in rural areas by Re. 1 a month, but I submit, my Lord, that this is very inadequate. Government spend a fairly good amount of money in guru-training schools where teachers in these primary schools are supposed to be trained, but the difficulty is that when these teachers are trained they cannot find any employment because the pay and the remuneration of the teachers in these primary schools in the rural areas is much less than the ministerial officers in Government offices and so they can better employ their time in other vocations than in teaching little boys in rural areas, and I think it is the duty of Government to see that proper qualified teachers and that a sufficient number of

teachers are attracted to their work by at least a living allowance and for this reason, my Lord, I beg to move this resolution and in doing so I might only add that at the present moment there is not much necessity for adding any other battalion to the Dacca military police. It might be said that the necessity has been felt and that it will certainly improve the police administration at Dacca, but I submit that the relative necessity and importance of the two questions should be considered, and in my opinion I think the teachers of rural schools have better claims than the strengthening of the military police, and if we go through the budget for the last three or four years we find that the expenditure on the police and the strengthening of the police force has gone on increasing in a rather high proportion, and I submit, my Lord, that it is time now to curtail it or an attempt be made to curtail it. With these words I submit this resolution to the Council for acceptance.

The Hon'ble Mr. Wordsworth said :

"My Lord, the improvement of the condition of teachers in our rural primary schools has long exercised us and is likely long to exercise us. The difficulties are, as the Hon'ble Maulvi has pointed out, difficulties relating to resources, but there are also difficulties relating to the esteem or rather the want of esteem in which primary school-teachers and primary school work is held even by those sections of the community who profit most by it. We have devoted of late generous resources, using the word generous in a comparative sense, towards the improvement of the position of these teachers. So far as I remember the figures there was spent last year directly on primary education something over 7 lakhs from district board funds, about 16 lakhs from Government funds contributed by the Government of India and about 2 lakhs from provincial revenues. This Government was amongst other things able to increase the aid which was given to trained teachers in primary schools by a figure of Rs. 6 a month and to untrained teachers, that is, teachers who have no qualifications at all for the work, up to Rs. 2 a month. We would gladly welcome any additional resources, but the additional resources which the Hon'ble Member proposes would enable us to increase the pay of teachers in rural areas by something between half and three-fourths of an anna a month. I presume that the item which it is proposed to reduce has been framed in accordance with strict necessity, but even if that were not so, I doubt whether I should be able to recommend the Council to accept the resolution, seeing that it would have very little influence upon the welfare of the class whom it is intended to serve."

The Hon'ble Sir Henry Wheeler said :

"My Lord, I would like just to say a word as to the source from which the Hon'ble Member wishes to take the money, as he seems to be under the impression that this is some unnecessary provision for the improvement of the local Dacca police. That is not so. As the Council is aware, in this province (apart from Darjeeling) we have practically no troops outside the city of Calcutta. If, therefore, there were disturbances necessitating the intervention of other than the ordinary police, we should either have to bring troops from Calcutta or look to the only other force which we have, namely, the military police, which happens to have its headquarters at Dacca. That force at present consists of six companies, four of which are supposed to be concentrated at Dacca, one at Hooghly, to control the large mill population employed on the banks of the river, and the other at Buxa in connection with frontier precautions. Experience has shown that we cannot ordinarily move either the company at Hooghly or that at Buxa.

Resolutions.

Maulvi A. Kasem.

The four companies at Dacca number 448 men; our object is to provide a moveable column of 150 men which can be sent rapidly to any place at which disturbances may take place. Far from the cases being few in which such a need has arisen, there have been 65 occasions since April 1912 on which we had to utilise the military police at Dacca. But the miscellaneous duties which this small detachment at Dacca is called upon to perform take away so many men that we cannot in the event of an emergency count with certainty upon even the small column of 150 which our scheme contemplates. It is therefore proposed, and it has been approved by the Government of India, to add another reserve company to the Dacca military police, and only last year we would have very much welcomed the presence of such a reserve in connection with *hât* looting. Owing to its not being available, we had to ask Assam for assistance, which they were unable to give owing to their own frontier troubles, and we had to warn the Government of India that we might have to ask them for help. It is that contingency which this scheme is intended to meet."

The Hon'ble Maulvi Abul Kasem said:

My Lord, I beg leave to withdraw the resolution.

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 30.

The Hon'ble Maulvi Abul Kasem moved the following resolution:—

This Council recommends to the Governor in Council—

(*a*) that a sum of Rs. 10,000 be allotted for the grant of special scholarships for Muhammedan boys in rural areas; and

(*b*) that the amount be met from the lump sum of Rs. 23,158 unallotted.

He said:

"My Lord, I need hardly submit to your Excellency's Government or to this Council the necessity for granting scholarships to Muhammadan boys. It is well known that the members of my community are very poor and the greatest block to the advancement of education among Muhammadans in this province, at any rate, is due to the want of means on the part of Muhammadan parents to educate their boys. The number of scholarships reserved for Moslem boys in primary and also secondary schools are very few, and I think the time has come when that number should be increased and the poor boys in rural areas, who prove themselves intelligent and industrious, should receive encouragement to prosecute their studies further. In this connection, my Lord, I beg to submit, and this I do with some amount of diffidence, that the attention of the department and of Government have of late been directed towards the Muhammadans of Eastern Bengal districts more favourably than the Muhammadans in the Burdwan and Presidency Divisions. The distribution of scholarships both for higher schools and colleges, as well as for primary schools, among the Muhammadans of Eastern and Western Bengal is in my humble opinion neither fair nor just, and that distribution has been made, I believe, on the strength of the Muhammadan population in Eastern Bengal which is very large. That may be so, but I think that the Moslems of the western districts of this Presidency have also by their past record proved

Mr. Wordsworth.

themselves deserving of special consideration, and as this amount is suggested to be drawn from the unallotted balances, I hope, my Lord, that this resolution will be accepted by your Excellency's Council."

The Hon'ble Mr. Wordsworth said:

"My Lord, the case of additional scholarships for Muhammadan boys has been receiving consideration for the last year. It was recommended by the last Muhammadan Conference that more scholarships should be reserved for Muhammadan boys in lower primary schools, and Government has accepted that resolution among others as a basis for further consideration of the question. It has long been part of the policy of Government to reserve special scholarships for Muhammadans, while at the same time allowing them full opportunity of competing for all other scholarships available. The principle has been accepted and the proposal now under consideration is merely one of degree and not of principle. It was pointed out by that Muhammadan Conference that of the scholarships in lower primary schools, which are given by district boards and not by Government, only some 40 out of a number of 700 were specially reserved for Muhammadans. We have been in correspondence with district boards for the last year endeavouring to secure accurate facts and to arrive at the basis of proposals for the consideration of Government. Progress has been slow mainly owing to the difficulty that district boards appear to have found in giving us facts, but I think the end is in sight and our proposals will soon be submitted to Government. It must, however, be remembered that these proposals were not based on any inequality in opportunities of education as between Muhammadans and any other class. The recommendation of the Committee was simply this: 'The results of the scholarship examinations for the past few years show that the ratio of the number of scholarships gained by Moslem boys to the number gained by Hindu boys is much less than the ratio of the number of Moslem school boy, to the number of Hindu school boys. We think that this may be due to the method of selecting candidates from the various schools. Government has already accepted the principle of reserving scholarships for Moslem boys, but we consider that the number reserved is totally inadequate.' The problem therefore before us is to consider whether we should by any administrative regulations provide that Muhammadan boys should receive that proportion of the total number of scholarships available which their number would appear to justify. That is the question under consideration. It might be advisable if I explain to the Council the position of Muhammadan boys in regard to scholarships and the number of scholarships reserved for Muhammadan students. This number is not so small as the Hon'ble Member would suggest. In upper primary schools 24 are reserved out of 210, in middle schools 55 out of 210; of junior scholarships in the first two years of college including scholarships paid for by Mohsin endowments, the Muhammadans have 163 reserved out of 279, and of senior scholarships for the last two years of college the Muhammadans have 59 reserved out of 103. This does not mean that the other communities have the balance. The Muhammadans have their own preserve, and have also equal opportunities with all other classes in relation to other scholarships. There are no scholarships reserved for Hindus with the exception of one or two trust scholarships which we administer, and of a few for those classes which we call the backward classes. It is not clear, therefore, that the Muhammadans are at present at any great disadvantage in this matter although Government will be shortly addressed on the question of increasing the number of scholarships to be reserved for Muhammadans by district boards. These scholarships are not proposed by the Muhammadan Conference with a view to redress any inequality of numbers between the members of the various communities in schools. My last figures are that in primary schools Muhammadan pupils

Resolutions.

Maulvi A. Kasem.

are 50 per cent. of the whole; in middle schools 33 per cent. and in High schools 20 per cent. The Hon'ble Member has stated but has given no arguments in proof of his position that the distribution of these special privileges for Muhammadans as between Eastern and Western Bengal has not been fair to the Muhammadans of Western Bengal. As I am not aware of his arguments or his evidence, I am taken at a disadvantage. I can only say that I have never had this brought to my notice before and that I shall give it my careful attention at once. There is nothing in our scholarship rules, nothing in our distribution of scholarships under these rules, to suggest such an inference, and I think that so far as privileges in high schools are concerned I believe we have been careful to equalise opportunities of special scholarship as between Eastern and Western Bengal so far as lies in our power. The sources which it is proposed to use for this purpose consists of the sum of a number of small balances left from Imperial grants. These Imperial grants are large recurring grants given to us for specific purposes. We have worked out various schemes and the Rs. 23,000 merely means that our schemes have not worked up to the full allotment; *e.g.*, for female education we have Rs. 2,000 a year left, for technical education, we have Rs. 4,000 a year left. These small sums will enable us to finance any small needs in connection with the expansion of those schemes as they may arise."

The Hon'ble Maulvi Abul Kasem said:

"My Lord, I have to thank the Hon'ble Mr. Wordsworth for the hope held out to us that the question of granting more scholarships to Muhammadan boys is now engaging the attention of his Department and that he will move Government in the matter at an early date. I have only to say in reply to his statement that in moving this resolution I never meant to say or to suggest that there was an inequal treatment between Hindu boys or Muhammadan boys or the Muhammadan boys as such were not receiving the same facilities which are open to the Hindu boys. I know that no scholarships are reserved for Hindu boys except the few mentioned by him, but my grievance is, and on which I base my claim, the fact that Muhammadans are comparatively very poor and they have up till now been backward in education. A time will come, and I hope it will come very soon, when there will neither be an occasion or reason for asking for special facilities for Muhammadan boys. We do it to-day because we want that the Muhammadan boys should come up to the standard of the Hindu boys and that they may compete with each other on equal terms in the open field. The Director of Public Instruction has said that the number of Muhammadan students in primary schools is 50 *per cent.*, that is, about the proportion of the population of this Presidency, that in Middle schools it is 33 and that in the High schools it is 20 *per cent.* and I believe if we come up to the college classes, we will find the proportion reduced further, and I may tell him that the reason why this proportion goes down is mainly, if not solely, due to the fact that the Muhammadan boys find the want of means to prosecute their studies further after the primary stage, and for this reason I move this resolution and submit to your Excellency's Government the need for further additional scholarships for Muhammadan boys. As an assurance has been given by the Director of Public Instruction. I beg to withdraw this resolution. But as regards the fact that the division between Western and Eastern Bengal is not fair, I submit that according to the population the number may be fair, but if I may say so, that of the Muhammadan scholarships the larger number go to the eastern districts and the smaller number go to the western districts. This is a matter which I hope the Director of Public Instruction will look into and I need not trouble the Council or your Excellency's Government with any remarks on it."

The resolution was then, by leave of the President, withdrawn.

Resolutions.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 31.

The Hon'ble Maulvi Abul Kasem moved the following resolution :—

This Council recommends to the Governor in Council that the sum of Rs. 50,000 allotted for the improvement of the pay and prospects of European Inspectors and Sergeants be added to the sum of Rs. 80,000 allotted for the extension of Panchayati Union School for boys.

He said :

"My Lord, in moving this resolution I have only to submit that in my opinion and I believe that my opinion is shared by a good many of my Indian colleagues on this side of the house, that the pay of the European inspectors and sergeants is already sufficiently attractive and that they get better and more pay than officers of equal rank who have to perform similar duties. I have to add that these inspectors and sergeants in addition to their pay also get accommodation free, and the accommodation which is provided for them is very good and comfortable and much higher rent is paid for their houses than many of the judicial officers have to pay for their houses in mufassal towns, and considering all this, to add to it will be rather an extravagance. I therefore submit that the Government will not be justified in increasing the pay of these inspectors and that the money might be better utilised by the extension of primary schools in this province. With these few words I commend this resolution to the Council."

The Hon'ble Mr. Crum said :

"My Lord, I think the Hon'ble mover must be under a misapprehension as to what the European sergeants at present draw and as to the present cost of living. At the present moment there are two grades of European sergeants, as I understand. In the first, the appointment is on Rs. 100 rising by Rs. 2-8 a year to Rs. 125 a month and the second is on Rs. 130 rising by Rs. 5 to Rs. 150 a month. They also, as the Hon'ble mover says, get quarters, that is to say, the married sergeants get quarters and the rest live in barracks. About the quarters of the married seargeants, which are not very satisfactory, the Finance Committee was, I may say, very much pressed by the Police for their improvement. But the Committee have decided that nothing could be done now but that they will have to take up the question in the near future. There are now considerable difficulties in getting an improved class of sergeants. I have been a member of the Bengal branch of the Employment and Labour Board and one of our duties is to recommend to the military authorities the releasing of soldiers. Long before this question of Police came up, we had discussed very fully the rate of pay at which men of the status of sergeants in the British army could live on in Calcutta. The rate of pay proposed for the sergeants was considerably higher than what the Police sergeants get at present, but it was also higher than what is proposed to be given to them now, that is, Rs. 125 rising by Rs. 5 a year to Rs. 175 a month. The present position is this : I understand the Police require 70 new sergeants and they have applied to the Employment and Labour Board for the releasing through that Board of all the policemen required from the army. But even with the improved pay the Employment and Labour Board are exceedingly doubtful as to whether they will recommend the military authorities to release these men for service. It comes to this : Unless this Council are prepared to pay a reasonably living wage to the European sergeants in Calcutta, there won't be any European sergeant left here. And I may say that as long as Government is entrusted with the looking after of law and order I hope this will not be the case. I hope the Hon'ble Member will therefore withdraw his resolution."

Resolutions.

Mr. O'Malley; Maulvi A. Kasem.

The Hon'ble Mr. O'Malley said :

"My Lord, Mr. Crum has pointed out that the Hon'ble Member is under some misapprehension as to the pay and prospects of European inspectors and sergeants. It is now my duty to point out that he is also under a misapprehension regarding the provision which has been made in the budget for the extension of punchayati union schools. If he will refer to page 33 of either the revised or amended financial statement, he will find that the allotment for the extension of punchayati union schools for boys is Rs. 1,20,000 and not as stated in his resolution Rs. 80,000. He has proposed a diversion of Rs. 50,000 in order to make a total allotment of Rs. 1,20,000, but Rs. 1,20,000 has already been provided, only Rs. 10,000 less than the total provision which he wishes to make. I think that he will scarcely quarrel about this small difference. The term 'Extension of punchayati union schools' is a somewhat cryptic phrase, and I may therefore explain briefly to the Council that this is a scheme to which Government attaches considerable importance. The idea is to make provision so that boys in each locality shall have some chance of proper primary education. The object is to provide in each punchayati union for at least one decent school staffed by teachers drawing a reasonable salary instead of the poor pittance drawn by many gurus in pathsalas. It is not altogether a new scheme; it was started some years ago and carried on till about 5,000 unions had been provided with union schools. It is now proposed to revive this scheme thanks to the grant of 5½ lakhs which has been given by the Government of India, and the sum of Rs. 1,20,000 has consequently been allotted. This will enable 120 new schools to be started. The grant will be recurring; each year more schools will be started and at the same time provision will be made for the maintenance of those schools previously established. I trust that the Hon'ble Member will accept this assurance and I suggest that in the circumstances it is scarcely necessary for him to proceed with his resolution."

The Hon'ble Maulvi Abul Kasem said :

"My Lord, when I said that the pay of the European sergeants and inspectors was sufficient, what I meant was this : when the Government pays sub-inspectors of the Calcutta police who are in charge of thanas or outposts, whatever you may call them, they get only a salary of Rs. 125, I thought that the pay of the sergeants was sufficiently attractive, but from the statement made by the Hon'ble Mr. Crum and the Hon'ble Mr. O'Malley, I have to withdraw this resolution, and I have only to point out that when I gave notice of the resolution, it was only by mistake that I put the figure 80,000 instead of 1,20,000. I got the figure from that very page which is just above that allotment. I am glad that the question is engaging attention, and I think no useful purpose will be served by pressing this resolution and I therefore beg leave to withdraw it.

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 32.

In the absence of the Hon'ble Babu Akhil Chandra Datta the following resolution which stood in his name went by default :—

This Council recommends to the Governor in Council—

(*a*) that suitable provision be made in the next year's Budget for a grant to the Comilla Municipality for the introduction of waterworks ; and

Resolutions.

Babu K. M. Chaudhuri.

(*b*) that the necessary amount be taken out of—

(i) the provision of Rs. 1,00,000 in the Budget for laying the Maidan roads in Calcutta with tar macadam metalling; or

(ii) the provision of Rs. 4,30,000 for acquisition of land for the new nurses' quarters for the Medical College Hospital.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 33.

The Hon'ble Babu Kishori Mohan Chaudhuri moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that the salary of the lecturers of first grade colleges be raised to a minimum of Rs. 200 a month ; and

(*b*) that a corresponding reduction be made in the provision for miscellaneous charges under 32—Miscellaneous.

He said :

My Lord, yesterday my friend the Hon'ble Rai Radha Charan Pal Bahadur made a very pathetic appeal for some of those hard-pressed clerks and to-day I rise to make an appeal of a similar nature on behalf of the lecturers engaged in the first grade Government colleges. My resolution is that the salary of the lecturers of first grade colleges be raised to a minimum or Rs. 200 a month, and that a corresponding reduction be made in the provision for miscellaneous charges under 32—Miscellaneous. These officers are now included in the Subordinate Educational Service, and I am sure the case of these members of the Subordinate Educational Service will come up for the consideration of Government very soon, but what I mean to say is this—that the case of these lecturers may be considered specially. These officers are engaged in the performance of important duties. It is not only for the benefit of those lecturers but also for the benefit of the students committed to their charge that I make this appeal. These officers were appointed some on Rs. 100 or Rs. 125 and they are now drawing a pay of Rs. 150 or so at most or it may be Rs. 175. They are engaged not for teaching school students for which no work at home is necessary. If they are to make their lectures interesting, if they are to look to the interest of the students committed to their charge and examine papers and point out deficiencies and make suggestions to their pupils in what way they are to improve their lessons, I beg to submit, my Lord, that all this work requires at least a considerable time to be devoted at home to it, so that the work may be quite up to the mark. But now-a-days it is very difficult for any man of ordinary means, specially of Indian habits, who are generally beset with a number of dependants upon them to manage with a pay of Rs. 100, Rs. 125 or Rs. 150 and they naturally look to other sources of income either by literary work or by doing some work as a private tutor to some pupils. It is not possible for them to be self-supporting without looking to other sources of income, and it is impossible for them to devote their whole time to college work. It is for this reason and for the fact that they have become very hard pressed owing to the fact that the necessities of life have become very costly, that I have ventured to make this appeal on their behalf to your Excellency's Government and I hope your Excellency's Government will do something as early as possible for the relief of these members of the Subordinate Educational Service. Of course I have suggested that a corresponding reduction be made in the provision for miscellaneous charges under 32—Miscellaneous, but this

Resolutions.

Mr. Wordsworth.

is a mere suggestion. If your Excellency's Government are convinced that something ought to be done, money may be found anywhere. All I can say is that something ought to be done to relieve these officers. With these words I commend this resolution to the acceptance of the Council.

The Hon'ble Mr. Wordsworth said :

" My Lord, the Hon'ble Member has spoken in generous terms on behalf of the lecturers in our Government Colleges, but has spoken in such general terms that I find it difficult to reply. At one moment his arguments appeared to be based entirely on the economical ground that the cost of living is such as to make their salary insufficient. If this is so, the same conditions apply to headmasters of Government schools and to other officers in the Subordinate Educational Service. At another moment he appeared to base his arguments upon the consideration that lecturers work harder than masters in schools. That, sir, is not my experience. I believe that the work of the headmasters and other masters in our schools is more arduous and headmasters certainly have larger responsibilities. The Hon'ble Member moved the same resolution last year. On behalf of Government I then replied at considerable length, and, I thought at the time, with considerable illumination. I do not appear to have convinced the Hon'ble Member and I can only repeat briefly now what I then said at greater length. Our Government Colleges are manned by two classes of officers—professors and lecturers. Professors are either Englishmen brought out from England in the Indian Educational Service or Indian gentlemen recruited locally in the Provincial Educational Service. They are assisted in their work by a class of junior officers whom we call lecturers and who are supposed to do less responsible and less arduous work, and are placed in the subordinate service. They are usually appointed on Rs. 125 a month and rise by degrees to a maximum of Rs. 250 a month. It has been frequently pointed out—I believe it was pointed out by the Hon'ble Member last year—that the academic and other qualifications of the lecturers are fully equal to those of Indian gentlemen in the Provincial Educational Service. I admit this in many cases. I must question it in many cases. But the position from the administrative standpoint is that when they applied for lecturers' appointments they were prepared and even anxious to get those posts and they knew that the posts carried with them an assurance but not a certainty of appointment as professors in the higher service when opportunities arrived. Appointments to Colleges are made in fact by the governing bodies who are expected to consider, and it is their practice to consider, the claims of all lecturers already in Government service whenever they make appointments. A man who is already serving in a Government College has certain claims to consideration. He has certain advantages in his favour in all competition for posts in the higher service. But it depends partly upon the fortunes of life whether he succeeds in obtaining a higher post or not. For those who are acquainted with colleges in England I may instance a similar arrangement whereby we have assistant lecturers to profesors. Those assistant lecturers are usually paid at a much lower rate than profesors. They are often equally qualified with their professors in an academic sense and they hope to become professors some day. We have full sympathy with those of our lecturers who do not succeed in obtaining entrance to the higher service but we can scarcely be called upon to redress the inequalities of fortune by administrative action especially as that administrative action would mean a considerable additional burden to the Indian taxpayer and would mean very little, if any, addition of efficiency to the work of our colleges. We have nearly 50 such lecturers. The proposal is to give them an initial salary of Rs. 200 a month, that is to say, to include them in the Provincial Educational Service. This will mean roughly a recurring charge of Rs. 90,000 a year and the proposal is to meet this recurring charge out of a head which

is non-recurring. It may be that some other member will speak on that point, but the meaning of this item which it is proposed to reduce—Miscellaneous item—is set out in the pages of the Financial Statement, and I think it is clear that what is budgetted for is nearly actual expenditure. These lecturers are in pay practically on the same basis as our headmasters, but while the headmasters of our schools who have more arduous and more responsible duties to perform and who carry them out at least with equal efficiency and loyalty, are seldom appointed headmasters until they have done many years' service as assistant masters on small pay, these lecturers who may be equally qualified with more highly paid officials or who may not be better qualified than many of our school-masters, commence at a much younger age on a salary of Rs. 125 a month. Therefore, as compared with our headmasters, they are many years ahead in advantage. For these reasons I am unable to recommend to the Council the acceptance of this resolution."

The Hon'ble Babu Kishori Mohan Chaudhuri said :

"My Lord, I have been trying no doubt for some time past to effect an improvement in the pay and prospects of the poorly-paid professors. I stated on some other occasion that we must arrange to attract better qualified men to these posts. It is no answer to say—'why they accept a post on so low a pay and very soon begin to clamour for higher pay'. When one is in need of some employment he must be anxious to get any whether it be on small pay or high pay. But some consideration ought to be shown to him for the special nature of work in which he is engaged. Even in the Reforms Scheme the pay and prospects of the civilians are under consideration. It is true that the head masters are also engaged in doing important work and that they also get a very small pay, and if it is necessary to do something for them I have no objection, but my point is that something should be done for these lecturers also so that there may not be any demoralising effect upon their zeal and devotion to work. It is hardly necessary for me to point out that the amount allowed to them is hardly sufficient to maintain them with decency. Considering the nature of work in which they are engaged—which I have already explained to your Excellency—I think their case deserves separate and special consideration, and it is with this view that I have brought forward this resolution. I am sorry for the reply that has been given to me and I would have been glad even if some hope had been held out that something would be done for them in the near future. If something is done for them then the present incumbents of the posts of lecturers would not be anxious to go elsewhere whenever they get an opportunity. I would say that either at once or as early as possible something ought to be done and I have nothing more to add."

The resolution was then put and lost.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 34.

In the absence of the Hon'ble Babu Akhil Chandra Datta the following resolution which stood in his name went by default :—

This Council recommends to the Governor in Council—

(*a*) that suitable provision be made in the Budget for 1919-20 for giving effect to the scheme for raising the Comilla Faizennessa Girls' School to the standard of a High English School ; and

Resolutions.

Rai R. C. Pal Bahadur ; the President.

(*b*) that the necessary amount be taken out of—

(*i*) the provision of Rs. 1,24,000 for the construction of buildings for guru-training schools ; or

(*ii*) the provision of Rs. 1,00,000 for a capital grant to the Calcutta Girls' High School ;

(*iii*) the provision of Rs. 50,000 for the extension of the Dow Hill Girls' School, Kurseong.

The Hon'ble Rai Radha Charan Pal Bahadur said :

"My Lord, I have a personal appeal to make to your Excellency. I am grateful to your Excellency for having allowed my resolutions to stand over during my temporary absence yesterday. I was late in coming to-day, but I was under the impression that my resolutions will be taken up last. And if your Excellency will kindly allow me to move my resolutions, I shall be glad to move them now."

The President said :—

"The Hon'ble Member yesterday asked me to postpone his resolutions on the ground that he had to be absent in connection with public work elsewhere and I regarded that as sufficient reason for acceding to his request for postponing his resolutions. When I called upon him this morning he was not present. I understand he now says that he thought that I intended to postpone his resolutions until the end of the Agenda paper. If that is so, I am prepared to grant the Hon'ble Member permission to move his resolutions."

The Hon'ble Rai Radha Charan Pal Bahadur said :—

"My Lord, I beg to express my gratitude to your Excellency in giving me permission to move my resolutions."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 18.

The Hon'ble Rai Radha Charan Pal Bahadur moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that Rs. five lakhs be provided for the extension of primary education within the municipal limits of Calcutta ; and

(*b*) that the amount be met by a corresponding reduction in—

(*i*) the provision of Rs. 6,30,000 for building nurses' quarters at the Medical College Hospital ; and

(*ii*) the grant-in-aid for education amounting to Rs. 26,43,000.

He said :—

"My Lord, it is an old question and it has been raised for years past in this Council. I am myself one of them who have for the last two or three years moved in the matter and tried to divert some money for the promotion of primary education in Calcutta. The history of the subject is this : Mr. Hornell, the then Director of Public Instruction, finding the keen interest taken by the people of Calcutta in the matter of primary education delivered an interesting lecture on educational organization in Calcutta under the auspices, I believe, of the Social Study Society. In the course of his admirable address he observed that the condition of primary schools in

Calcutta was simply disgraceful. This attracted the attention of the Calcutta Corporation who, under the guidance of the late Sir Charles Allen, submitted to Government that they were prepared to take charge of the primary education in Calcutta if the Government would favour them with sufficient grants for the purpose. The matter was further inquired into by the Corporation and it was found by Sir Archdale Earle, the then Chairman and who was sometime the Director of Public Instruction, that the minimum cost would be not less than six lakhs of rupees to start with. The cost seemed to be prohibitive and a representation was made by the Corporation to the Government to the effect that they would be prepared to confer with Government in this matter if the Government would furnish them with a practical scheme on the subject. The question was then further considered by Mr. Hornell who said that if the Corporation were prepared to capitalize the present grants-in-aid contributed towards primary schools to defray the cost of building houses for these schools in Calcutta the Government might consider the question of maintaining these schools. The Corporation without definitely committing themselves stated that they were prepared to consider Mr. Hornell's proposals and that they were also prepared to pay a contribution from the capital loan fund extending over a certain number of years to meet the cost of building several suitable houses for primary schools in Calcutta. At a rough estimate it was found that the whole thing would cost ten lakhs of rupees but that if it were spread over a number of years the Corporation was prepared to finance it from the loan fund. This matter was raised in this Council and during the Budget debate of 1915-16 the Hon'ble Mr. Hornell stated that it was a very complicated and difficult subject and that nothing could be done without a proper survey. In reply to my motion he said :—

'. . . . . the Corporation of Calcutta appointed a Committee to consider the question of school arrangements for Calcutta. The Committee decided that they could do nothing until they had ascertained what Government proposed to do. I was consulted in June last, and I advised Government that they would not be able to move in the matter until they knew more of what the problem of school provision in Calcutta really is, both as regards boys and as regards girls. I urged that the next step should be the carrying out of an educational survey of the whole municipal area, and, as a result, Mr. K. C. De was placed on special duty with specific instructions for the drawing up of the survey. When the war broke out, Mr. De's services were requisitioned for other activities, but he decided, in addition to his other labours, to do what he could to carry on the survey which he had begun with considerable vigour, and I understand though he has not completed his work which he would have done if he had not been called upon to do other work in connection with the war, he is well on with it, and that before very long the survey will be submitted. . . . . Besides, we do not really know what the problem in Calcutta is, and until we do know this. I do not see how we can inaugurate a scheme of improvement even if we had the money, which we have not.'

My Lord, that was in 1915-16. That report, however, could not be finished by Mr. De as he was soon after placed on certain special duty and Mr. J. N. Roy was asked to take up the work. He finished his work and the report was submitted to Government on the 15th November, 1915. The account that is given in the report of the conditions of primary schools in Calcutta was enough to make not only the residents of Calcutta but also the Corporation and the Government feel ashamed. The majority of them were badly equipped and the staff was insufficient. The houses were ill-lighted and the ventilation was bad. I need not quote anything further from Mr. Roy's report. But that was the condition of the primary schools in Calcutta. Mr. Roy suggested in his report that there was urgent need for model primary schools in Calcutta and that they should be started at once. He also suggested that strict rules should be laid down for all

Resolutions.

middle English and primary schools as to the condition of buildings and the adequacy of sanitation and the distance of one school from another. As regards Muhammadan schools he suggested that the Moslem schools attached to mosques were very neat and tidy but that they should be developed and that they should have well-paid teachers on their staffs. These are the recommendations that were made. In subsequent years I again moved in the matter and to my great disappointment I was told again that although the report had been received another report was awaited and that maps must be prepared to show the location of the existing schools so that they might determine where the model schools should be constructed. In reply to my resolution the Hon'ble Mr. Hornell said :—'The Inspector of Schools in the Presidency Division is now having maps prepared of the whole of the Calcutta municipal area showing what schools there are, both primary and secondary, and indicating on this map with reference to the population, what primary schools should be erected, when funds are available.' That was in the year 1917-18. A copy of the report is now in my hands, but I have not got the plan although this report says that the plan accompanies the report of Mr. Dunn who was Inspector of Schools, Presidency Division, in 1918 when he wrote the report just one year ago. He says that in addition to the informations contained in that communication there were certain maps compiled by the Survey of India Office showing the location, etc., of these schools. It will be seen that this second report was prepared by Mr. Dunn and submitted to Government last year with the map. Mr. Hornell assured us that he was arranging for a survey showing the different places in which the schools are situated. The Government seemed to be anxious to take up the matter in right earnest as soon as informations were forthcoming. All informations were collected last year. But unfortunately nothing has practically emerged from the Government assurance. I do not know when something practical will be done. And therefore I have returned to my subject this year and whatever may be the fate of this resolution—we all know what fate awaits it—I still think it my duty to press the resolution to the attention of Government. But before doing so, I will also place certain other facts before them. Here in Calcutta we have got a population of 896,000. Out of that, 15 per cent., that is, about 135,000 are of schools going age. Forty eight per cent. of the latter are at present receiving their education in Calcutta. And I am glad that Mr. Dunn mentions in his report that the credit of giving education to these boys is due to private enterprise of public-spirited individuals. When a responsible officer of Government states that it is entirely due to private efforts and private enterprise then I think the people of Calcutta might take some credit and ask the Government for more help. How far the public can proceed? I find the Government grant is only Rs. 32,600, and the Corporation grant is Rs. 66,000 besides remission of rates to school premises. It will therefore be seen that the Government grant is deplorably inadequate. Turning to the report again I find some very interesting statements. Mr. Dunn has found that there is a laudable demand for education by the people of Calcutta—by the lower class population. The report says that the working class people are very anxious to get some sort of elementary education and that is a very hopeful feature. Mr. Dunn also states that out of 521 primary schools in Calcutta 169 are *maktabs* or primary schools for Muhammadans and that the Muhammadans are also very anxious to extend primary education. These schools although aided by Government depend on subscriptions from local people. These schools are without control although Government grants Rs. 32,000 for their aid and the fees realized by them amount to Rs. 70,000. There is a Sub-Inspector for these schools but he visits them once a year only and the ward Commissioner reports once a year how they are conducted before the Corporation grants their aid. These schools are started in a perfunctory way by pandits here and there and

Resolutions.

Mr. Carter.

they are never conducted in an efficient manner. As regards teachers, out of 711 teachers 586 are untrained and I find from Messrs. De and Roy's report that they get even lower salaries than menial servants, only Rs. 7 or 8 a month and they can give lessons only in বর্ণপরিচয় etc. There is hardly any other training in these schools. Another difficulty is this. Out of 135,000 boys only 65,000 receive some sort of education in some schools; 69,000 go without any education. And if my hon'ble friend Babu Surendra Nath Roy's Bill becomes law and its provisions are extended to Calcutta then these boys must receive compulsory training. Therefore it will be seen that there is an urgent need for provision by Government. Of the boys who receive education I find that about 36,000 only are comparatively better instructed in secondary schools where there are more efficient primary classes, as in Metropolitan College, City College and other institutions where there are better qualified teachers. The remaining 29,000 receive only a sort of *namka waste* education which is very unsatisfactory. Mr. Dunn says in his report that the condition of these schools for 29,000 boys requires immediate improvement and this is a matter of great urgency. He also suggests the creation of new schools for those who are not receiving any education at all. It will be thus seen that the question of providing funds for the improvement of primary education in Calcutta can no longer be deferred. It may be said and it has often been said that the Corporation should take up this task. As Sir Charles Allen observed and as has been observed in the Corporation debates that although the Corporation have recently agreed to share in this task, it is not part of their duty to do so. The Calcutta Municipal Act lays down certain statutory obligations on the Corporation. But this does not come under these obligatory duties. There is what is called a discretionary clause under which the Corporation can, if funds permit after meeting the obligatory duties, devote surplus funds towards objects of public utility. When this provision was being discussed in Council I think no less an authority than Sir Alfred Croft laid down that the duty of contributing towards education did not come within the purview of the Corporation. I think Sir Gurudas Banerjee moved a motion to the effect that as the suburban municipalities which were going to be incorporated with the Calcutta Municipality, paid Rs. 3,000 to some patshalas, that sum should now be paid by the Calcutta Corporation towards education in the suburban areas. The Council after some discussion agreed to the proposal. That sum of Rs. 3,000 has become one lakh at the present day. The case of Bombay is cited. But in comparison with Bombay our case is quite different. Bombay maintains well conducted primary schools and spends Rs. 6,93,000 towards education, but my Lord, Bombay, in addition to rates and taxes, has got an extra revenue which Calcutta has not. From town duties alone Bombay gets 20 lakhs of rupees. Then there are the excise duties from which they get Rs. 1,44,000 and from other duties Rs. 3,71,000. It will therefore be seen that while Bombay gets about 26 lakhs of rupees over and above their income on rates and taxes, Calcutta gets nothing. If we are to spend anything outside our statutory obligations we must in the absence of an extra revenue impose additional rates. That will not be fair to the population of Calcutta. The Government should contribute substantially towards this object or surrender some revenue and that was also the opinion of an eminent member of the Civil Service who, if he were alive to-day, would have occupied a seat on your Excellency's right—I mean the late Sir Charles Allen. The Corporation is prepared to share the burden with Government, but the Government should make substantial contribution at least—

[The Hon'ble Member having exceeded his time limit, resumed his seat.]

of his resolution which is that the provision of Rs. 6,30,000 for building nurses' quarters at the Medical College Hospital should be taken away for the purpose of giving effect to the suggestion made in the first part of his resolution. The position as regards house accommodation for the nurses at the Medical College Hospital has already been explained fully by the Hon'ble Sir Henry Wheeler, but I notice that the Hon'ble Member still wants, from the wording of his resolution, to cut down the sums allotted for this purpose. No less than five resolutions at this meeting aim at reducing this grant. I do not know that I am very much surprised at this as for some time now the non-official Indians of this city have never taken any great interest in this most deserving Institution—the Calcutta Hospital Nurses' Institution. Subscriptions towards this fund from my Indian friends are far below those contributed by the Europeans and yet the whole group of hospitals at the Medical College are for the relief of dying and suffering amongst the Indians. I can assure my hon'ble friend that the accommodation is really needed and I should like to say that there are now in the nurses' quarters exclusive of *dhais* 125 nurses and the quarters are so crowded that many of the smaller rooms contain two beds. In addition to overcrowding the quarters have not a sufficient number of bathrooms and other sanitary accommodation. It is not possible to find accommodation for a single extra nurse in the present quarters, and it is proposed shortly to construct a new Eye Hospital containing 175 beds as also to extend the Eden Hospital which is at present very greatly overcrowded. In addition to these there are the new Tuberculor Wards which are shortly to be constructed. The new Tuberculor Wards, the Eye Hospital and the extended Eden Hospital cannot be got into use until quarters have been built for more nurses. The nurses' duties are highly arduous and laborious and the work they are expected to perform in a tropical climate like this will entitle them to double pay elsewhere. Perhaps the Hon'ble Member has never visited the nurses' quarters at the Medical College to see the misery there with his own eyes. Had he done so I am pretty sure that no attempt would have been made on his part to reduce the sum budgetted for the building of their quarters. No arrangement to make the nurses willing to stay on should be questioned by anyone, least of all by those who from lack of professional knowledge are unable to appreciate their priceless services. I hope in the next budget Government will see their way to set aside a sum to improve the nurses' quarters at the Presidency General Hospital which also badly requires reconstruction.

The Hon'ble Sir R. N. Mookerjee said :

My Lord, I beg to oppose the motion not that I am opposed to the extension of primary education not only to Calcutta but to every corner of Bengal. I am an advocate of primary education and I think that it is essential to extend primary education throughout Bengal in such a manner as to enable us to keep pace with the progress of the world. I object to the method which my Hon'ble friend suggests to adopt to find money—I mean the sources from which he wants to draw the money. My Lord, I do not belong to the medical profession and therefore I am not an authority to say anything on the necessity of these nurses. My Hon'ble friend Mr. Carter, who is the President of the Calcutta Hospital Nurses' Institution, of which I am also a Member, has told the Council how necessary it is to provide accommodation for these nurses, but in my opinion a patient is more competent to give his opinion as to the best means of alleviating human suffering in the sick bed. It is universally admitted by the medical profession and by the outside public that since the introduction of this nursing system that human suffering or at any rate the mortality has been reduced to almost an irreducible minimum. Now-a-days a physician finds himself helpless to attend a typhoid or pneumonia case if there is no nurse to attend the patient. A surgeon also refuses to make a

Resolutions.

Rai D. C. Ghose Bahadur.

major operation if he does not find a nurse ready to help him. In these circumstances I am surprised that my friend has come forward with a proposition interfering with the provision of quarters for nurses who obviously mitigate human suffering. Calcutta has been very meagre in its supply of nurses to all the hospitals. Owing to the war Government I believe could not make sufficient provision for the construction of nurses' quarters for the last four years, and when Government have provided a good sum for completing these quarters, I am really amazed that a man of the standing of my Hon'ble friend, who takes such interest in the mitigation of the distress of the poor, should come forward and ask Government to postpone the construction of the nurses' quarters. Secondly, I am also opposed to his proposal of taking money from one item and devoting it to another. He must be aware as a Member of the Finance Committee that after great deliberation the Finance Department have allotted certain amounts of money to certain heads and to come forward at the eleventh hour asking for diversion of money is simply, to say the least, to bring the machinery to a standstill. Finally, my Lord, I think it is time that our countrymen should recognise that if we want to extend our primary education we must nationalise it. It will never make any progress or headway if we are dependent only on the doles of Government. The Calcutta Corporation, the Corporation of the premier city of India, should first take the lead and set an example of nationalising the primary education system. It is nothing for the Calcutta Corporation to provide 6 lakhs and I would say that the poorer municipalities have a stronger claim on Government in these matters than the Calcutta Corporation which is rich enough to maintain their own schools.

The Hon'ble Rai Debender Chunder Ghose Bahadur said :

"My Lord, I should take a different position from that taken up by Sir Rajendra Mookerjee. I think I ought to support the motion of my hon'ble colleague Rai Radha Charan Pal Bahadur—not that I deprecate the idea of constructing the nurses' quarters, but as a rule the non-official members have to indicate the source from which the funds required have to be taken and I think my hon'ble friend Rai Radha Charan Pal Bahadur found no other alternative than to fall on this allotment of 6 lakhs, which is rather an expensive grant. But having regard to the fact that there had been no appeals in this Council for the construction of such quarters and that there had been repeated appeals in this Council for the extension of primary education, it is somewhat extraordinary that Government find their way to allot the whole sum necessary for the complete construction and equipment of the nurses' quarters and are not content to make an allotment for a partial construction of these quarters this year, leaving the completion of it to the succeeding year. I am a little familiar with the working of the Hospital Nurses' Institution, and therefore I am not one who is wanting in appreciation of the benefits arising from the labours of the nurses belonging to that institution. A remark has been made by the Hon'ble Mr. Carter about the want of support by the Indian community to this institution. The remark is quite true that the Indian community as a whole have not actually supported this institution, and the reason for it is clear. The Hospital Nurses' Institution has to bring its efforts to the knowledge of the people of the Indian community who ordinarily do not avail themselves of medical aid in hospitals. Our people from the lowest to the highest refuse to go to the hospital, and that being so they cannot imagine what benefits the nurses can give to the patients in hospitals. The efforts of this institution would have been brought to the knowledge of the Indian community if calls for attendance on sick patients at their homes had been responded to. But I can say that the nurses of this institution do not go for attendance at the residences of members of the Indian community. There might be some social difficulties

Resolutions.

Maharajadhiraja Bahadur of Burdwan.

or other difficulties and I can quite understand why they are not sent out by the authorities, but there remains the fact that such nurses are not sent out to the residences of members of the Indian community, and that being so, the complaint of the Hon'ble Mr. Carter loses much of its force. What I suggest, my Lord, is this—that half the amount which has been budgetted for the Hospital Nurses Institution this year may be allotted for the actual construction of the building and the rest next year. We know that the cost of a building this year would be much more than the cost of a building next year, owing to the present abnormal rise in the price of all sorts of building materials. It would certainly be an economy if you do not spend the whole of this 6 lakhs this year, and therefore I would pray to your lordship that a certain portion of this money, say a sum of 1 lakh or 2 lakhs, and a certain sum from the grant-in-aid for education might be devoted for the purpose of starting primary schools in the town of Calcutta. If the Hon'ble Sir R. N. Mookerjee had honoured the Corporation with his presence he would have probably seen that the Corporation are not wanting in their duty and that they have certainly been doing their best unaided for the last 10 years, and that although Sir Charles Allen and his successors tried to do something in this direction, I may mention that only this year during the Chairmanship of the Hon'ble Mr. Payne a sum of 5 lakhs has been earmarked in the budget for the promotion of primary education in Calcutta. The true difficulty is this—there is a certain want of earnestness on the part of Government in this matter of promotion of primary education. We have read and heard that elsewhere very lately. Whenever there has been any question about primary education, the reply has been that unless there are trained teachers you cannot have primary schools and that this is a matter for the Provincial Government and not for the Imperial Government.' When we come to the Provincial Government we are told that there are no funds : there are funds for every possible thing but there are no funds for this thing, and we are told on the eve of the constitutional reforms by one party that you cannot enlarge the franchise because there is no mass education. I appeal to your Excellency whether my Hon'ble friend Rai Radha Charan Pal Bahadur has been failing in his duty in bringing this question to your Lordship's consideration or whether he has been trying to do his duty. Nothing has been said as yet by any Hon'ble Member as to why we should not get in the matter of promotion of primary education in the city of Calcutta a certain decent sum from the sum of 33·86 lakhs for works in progress as we find in the budget. That being so, I think that Government will feel some difficulty in not allotting a sum equal to what the Corporation has earmarked, that is a sum of 5 lakhs of rupees for the promotion of primary education in the city of Calcutta. The Hon'ble Mr. Wordsworth who wants that the purse strings of Government should be held very tight has found to his satisfaction that a sum of over 18 lakhs of rupees has remained unexpended when the year came to a close. I think better consideration of the educational needs of the province would have enabled him to expend the whole of this balance, and I think that if he will place himself in the position of an inhabitant of this place he, instead of counting his days for pension and retirement, would have sympathised with us and would have done something better than what he has done.

The President said :—I think it would be a convenience to the Muhammadan members if we take the adjournment now.

(AFTER LUNCH.)

The Hon'ble Maharajadhiraja Bahadur of Burdwan said :—

My Lord, the Hon'ble Rai Radha Charan Pal Bahadur has brought to the notice of the Government the question of the extension of primary education in Municipal Calcutta, and he has given a history of the activities of the

Corporation and its Chairman and members from time to time drawing the attention of Government on the subject. If I have caught him aright, he begins by saying that an early speech of Mr. Hornell really drew the serious attention of the Calcutta Corporation to the subject. Then he refers to certain matters which the late Sir Charles Allen, Sir Archdale Earle and others had expressed on the subject in the Corporation. I think that so far as his case regarding the proposal that Government should make a grant of Rs. 5 lakhs is concerned. I do not think that at the present moment he has been able to make out a strong one at all. On the other hand, of course, he is justified to a certain extent in complaining that he is not aware what action has been taken on the subject of Mr. Dunn's report on an exhaustive survey of the question of primary and technical education in the city of Calcutta. First of all. I shall take the point about Mr. Dunn's report. I regret that there has been a good deal of delay in the department concerned regarding the taking up of this report. It is quite true that the date of the report is February 1918, and that practically a year has elapsed since the report was submitted, but there have been certain circumstances over which the Education Department had no control and, further, there has been this general question of primary education receiving the attention of Government which has. I may say to a large extent, been responsible for no departmental action having been as yet taken on Mr. Dunn's report excepting the fact that the Director of Public Instruction has informed the Chairman of the Corporation of the report and has also intimated the Government of it. The Government is awating the opinion and proposals of the Director of Public Instruction on Mr. Dunn's report. The hon'ble mover will admit that although there has been delay, Government must now await the report from the Director on the subject and send it on to the Corporation and stay action until the proposals of the Corporation are received.

I shall now deal with the question of the proposed provision of Rs. 5 lakhs on the part of Government, the Hon'ble Member himself knows that although the Calcutta Corporation. according to a subsequent speaker Rai Bahadur Debender Chander Ghose, has earmarked Rs. 5 lakhs for the purpose of the extension of primary education—and that information is no doubt gratifying to Government—there are no schemes ready at present, I think therefore that before Government could be expected to provide any funds in the budget it must have from the Corporation the information as to whether or how far they are willing to accept Mr. Dunn's proposals and on those proposals what they themselves propose to do for the extension of primary education in the city, because it may be quite possible that when they have considered Mr. Dunn's report they may find that the sum which they have earmarked may be quite inadequate, or that revised figures will be required. All these matters have got to be taken into consideration before one could expect Government to put in any figure in the budget. But on this point I may say that if during the current year the Corporation after hearing from Government officially on Mr. Dunn's report and after going into the thing thoroughly they bring forward before the Government a crystallized scheme for consideration, that later on we might possibly be able to give it a start say, by next year, and Government would then consider favourably the question as to whether or not it would be possible for Government to make a grant from the savings from the grants-in-aid, but at the present moment it is quite impossible for Government to hold out any promise or to put into the budget any definite figure. Moreover, I think the Hon'ble Rai R. C. Pal Bahadur must realize that we are about to go into the whole question of primary education on a voluntary basis if the Bill of Babu Surendra Nath Ray is passed into law which contemplates the provision of an adequate system of voluntary education; and that being so, I may say that Government is bound, in making any programme for the extension of primary education, to look into the claims of municipalities

Resolutions.

Rai R. C. Pal Bahadur.

and district boards first. I do not say for a moment that Government does not propose to consider favourably the question of primary education in this city, but as Sir R. N. Mookerjee has very rightly pointed out, the poorer municipalities and urban areas should, I think, have prior claim in this matter. As I have already said, when Mr. Dunn's report has been sent on officially to the Corporation and the Corporation has considered the proposals carefully, I am quite prepared to look into the matter and see if it be possible, say this time next year, to contribute something towards it. But as things are at present, while I regret the delay on the part of the department concerned in going into the merits of Mr. Dunn's report and proposals, there being no proposals of the Corporation before Government, Government would not be justified in making any provision in the budget, and I think also that the Bill of Babu Surendra Nath Ray and the effect it has on municipalities at large should be watched. For these reasons I trust that the Hon'ble Rai Radha Charan Pal Bahadur will not press for his resolution. All that I can say is that Government are fully alive to the requirements of the City of Calcutta and it is for that very reason that they appointed Mr. Dunn to go into the question. It is to be regretted that the consideration of the report has been delayed, but there is no reason why it should not be gone into in the present year and that a crystallized scheme might be possible to work upon from the very next year. For these reasons, my Lord, I cannot recommend the Government to accept the proposal made by the Hon'ble Rai R. C. Pal Bahadur.

The Hon'ble Rai Radha Charan Pal Bahadur said :—

My Lord, I have listened to some of the criticisms on my resolution and the most courteous way in which the Hon'ble Mr. Carter has opposed my motion with special reference to my proposal to appropriate some of the money in connection with the nurses' institution deserves a courteous reply. I quite recognize the importance of the provision of quarters for nurses in connection with the Medical College. I was in the Finance Committee, when this matter came up, and I may say, if I am permitted to observe, there was some suggestion that the whole sum may not possibly be spent this year. This Rs. 6,30,000 comprises Rs. 4,30,000 for acquisition of land and Rs. 2,00,000 for building. From our experience in other public bodies with which I am connected, I may state that the acquisition of land cannot be done in the twinkling of an eye. It goes through a certain process and there is inevitable delay and I do not know whether it would be possible to acquire the land and construct the buildings, that is to say, to spend the whole sum of Rs. 6,50,000 during the next twelve months. I made this suggestion not with a view to curtail the expenditure but with a view to utilize the probable savings. This is my explanation. The proposal was not made in an unsympathetic spirit or in a spirit to deprive the nurses of the quarters which they well deserve, and I hope this explanation will be accepted by my hon'ble friend. As regards the observations of Sir R. N. Mookerjee I must say that I do not know what reply I should give. As regards the nurses I have submitted my explanation which covers also his observation with reference to my proposal. I suggested that a certain sum of money from the grant-in-aid for education be given towards primary education and Sir Mookerjee said that Government after considering all the needs had prepared the Budget. As far as I have been able to follow him, he does not think that a responsible member of this Council should propose any reduction of the allotment which Government have thought fit to make from the budget and suggest utilization in another way. My Lord, I have been for two generations associated with the public affairs of the city and I do not know whether any responsible member would be doing his duty shrinks from making a suggestion in moving a resolution that a certain sum of money may be appropriated from a particular head because Government have thought fit to allot that sum of money on that head

Resolutions.

Maharajadhiraja Bahadur of Burdwan; Rai R. C. Pal Bahadur.

It may be that the proposal as regards the appropriation from this particular head is not quite possible or feasible, but we non-official members are outside the Government machinery and if we do not suggest possible items from which appropriation may be made our resolutions will not be admitted, and if we are not to say anything on any item and to sit quiet and say "*Sallam* Sir, we pass the budget" then what is the good of holding these Council meetings. I do not think, my Lord, that is the experience of public life whether in your country or mine.

I am quite grateful to the Hon'ble Maharajadhiraja of Burdwan for the sympathetic way in which he has received the proposal and as your Excellency must be well aware during your short stay in this country that we Indians are very grateful for a little sympathy, whether it may prove substantial or not and, therefore, I am rather grateful to the Hon'ble Member for the assurance he has given. But, my Lord, I may be permitted to state that to a certain extent I have been justified in my observation that there has been such a long delay in this matter that one cannot help drawing the attention of Government to the urgency of the matter. I forgot to mention that the Corporation has earmarked Rs. 5 lakhs in anticipation of any scheme that may be prepared, but there is one thing in the speech of the Hon'ble Maharajadhiraja Bahadur of Burdwan: He says that the Corporation should prepare the scheme, but I find from Mr. Dunn's report that the Education Department will prepare the scheme, because they are in a better position to do so, and then the scheme will come up to the Corporation for consideration. That was the proposal, and I do not know whether it is now to be left to the Corporation to prepare the scheme.

The Hon'ble Maharajadhiraja of Burdwan said :—

May I explain? What I meant was this, that when the Government sends to the Corporation the proposals made by Mr. Dunn it will no doubt at the same time outline the scheme which Government thinks should be considered by the Corporation and that I think is what the Hon'ble Rai Bahadur Radha Charan Pal is aiming at. No doubt the scheme will be outlined by Government itself and not by the Corporation and it will then be for the Corporation to consider the proposals they receive from Government.

The Hon'ble Rai Radha Charan Pal Bahadur then continued :—

Now I quite follow it. I understand that the report will be forwarded with the proposals of the Director of Public Instruction to the Corporation. I hope, my Lord, that will be soon done, and then, I think, that during the next twelve months perhaps some progress will be made, and having regard to the present state of primary schools in Calcutta, I think, if some provision is made in the budget, there will be a possible chance of expediting the work or rather the education department would be compelled to bring the subject to a practical shape. This is another aspect of my proposal. Further, the Corporation has earmarked Rs. 5 lakhs without any scheme before them, and the amount of Rs. 5 lakhs which I have proposed is only an equivalent sum and nothing more, and if this sum is also set apart for the promotion of primary education in Calcutta, I do not think that will be spent at once, but possibly a certain sum of money will be available for a workable scheme within the next 6 months. It may be said—why should we so earmark Rs. 5 lakhs when the scheme is not before us? But, there is such a thing as transfer from one head to another or savings and utilization of savings. I do not think Government will be hampered in any way. If the amount of Rs. 5 lakhs is set apart and if the whole sum is not spent together with the Corporation money, I think Government will be in a position to transfer the savings to another item they may think fit. This is

Resolutions.

Sir Henry Wheeler.

important and it will have the effect of urging the Education Department to go on more expeditiously than they have hitherto gone in connection with this matter and that some practical results will ensue within a reasonable time during the next twelve months. I do not know whether I should press this motion, because I quite see the fate of this motion, but I am quite content to leave the matter in the hands of Government. I have done something, that is, I have drawn the attention of the Government and I hope this subject will not be allowed to lie pigeon-holed anywhere. I may be pardoned if I say tha Government may be charged with the same charge that the Corporation was charged some years ago—it is, of course, ancient history. Towards the end of seventies a very clever Secretary to Government who was always opposed to the Corporation—I refer to Sir Alexander Mackenzie—in this Council said: "the Corporation is an arsenal of delays and manufactory of speeches." May I not also say that the Government department is an arsenal of delays and manufactory of red-tape. I hope that now that this matter has been brought prominently to your Excellency's notice speedy progress will be made.

The Hon'ble Sir Henry Wheeler said :—

MY Lord, there are two points on which there appears to be a misapprehension which I should like to clear up at the close of the debate. The first is with reference to the remarks which have just fallen from the Hon'ble Rai Radha Charan Pal Bahadur, that there will be no harm in reducing the allotment which has been made for the acquisition of land for the nurses' quarters, in so far, as I understand, that land acquisition proceedings ordinarily take time and therefore money to this large extent is not likely to be spent during the ensuing year. I think the Hon'ble Member forgets the fact, which as a member of the Improvement Trust he might have remembered, that we are taking up this land on the frontage of the avenue which has already been acquired by the Trust, and we can pay the Trust for it in one lump-sum by a cheque, a process that should not take an undue time, even in a red-tape Government office.

The second point has reference rather to an incidental issue, and I mention it, especially in the absence of the Hon'ble Mr. Carter, who, if he had been here, would probably have desired to challenge the implication made. I have not the slightest intention of going into the merits or demerits of the comparative subscriptions respectively made by the European or Indian community to the Calcutta Hospital Nurses' Institution, but I gather from the speech of the Hon'ble Rai Debender Chunder Ghose Bahadur, that he argues in extenuation of the allegation that adequate Indian help is not forthcoming, that the Institution is rather designed to supply private aid to Europeans which is denied to Indians. The facts are not so, and I think it should be made clear that they are not. I have here the report of the Calcutta Hospital Nurses' Institution for the year 1917, and I find that the Institution was founded in 1859 chiefly owing to the influence of Lady Canning, wife of the first Viceroy of India. *The main object of the Fund is to train and provide nurses free of charge in the leading Calcutta hospitals*, although it is true that the Lady Canning Home nurses are supplied at moderate charges for private cases. A few *dhais* are also maintained at the Eden Hospital for private work among Indian families. It is hospital nursing which is the main object of the scheme. When we turn to details, we find that in the Presidency General Hospital, as against the hospital staff which numbers 67, there are only 6 Canning Home nurses. Even as regards them it is mentioned in the report that these out-nurses nursed only 110 cases, and that many had to be refused especially in October and November when Canning nurses had to be employed on ward and night superintending duties owing to shortage of the hospital staff from illness and nurses leaving. When we come to the

Resolutions.

Rai R. C. Pal Bahadur.

expenditure on the Canning Home nurses we find 3 items totalling Rs. 7,817, against which we have fees from out-cases amounting to Rs. 8,541. Thus it will be seen that these out-nurses are apparently self-supporting. When we come to the Medical College, we find in the Medical College Hospital, Prince of Wales Hospital and Eden Hospital altogether 90 nurses, and no out-nursing staff except *ahais* who are employed in Indian homes. I think, my Lord, it is desirable to correct the misapprehension that the work of the Institution is primarily concerned with private European out-nursing instead of with the hospitals, in which European and Indian patients are nursed alike.

The resolution was then put and lost.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 19.

The Hon'ble Rai Radha Charan Pal Bahadur moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a provision of Rs. 1 lakh be made for water-supply and for the general sanitary improvement of the riparian municipalities in the vicinity of Calcutta ; and

(*b*) that the expenditure be met from the allotment of Rs. 33,80,000 for works in progress.

He said : —

" My Lord, in moving this motion I have to make one preliminary observation to make it clear. It is a very modest sum of Rs. 1 lakh that I have asked for and my object is that that sum may be given to the riparian municipalities by way of subvention for the improvement of water-supply and drainage for those municipalites. Looking to the history of the water-supply to the riparian municipalites I find, my Lord, that the long-thought of scheme of a combined water-supply has been before the Government for the last twenty years. I do not know where that scheme may be lying now—rather what has become of that scheme. This scheme was brought forward, as far as my memory goes, some twenty years before to enable the riparian municipalities in the vicinity of Calcutta to introduce water-supply in their area. I think it was estimated to cost about Rs. 30 lakhs. But very little attention has been shown to it in this Council. The Hon'ble Sir Syed Shamsul Huda, in the budget debate of 1916-17, in reply to the Hon'ble Babu Surendra Nath Banerjee, who referred to the scheme of water-supply to the riparian municipalites and who said that the municipalities concerned knew nothing whatever as to what was going on, declared that nothing would be done without consulting the municipalities concerned. Again, in the budget debate of 1916-17, we were told that there was a large scheme, known as the riparian water-supply scheme and that details of that scheme were being worked out and that the report of the Sanitary Board was being awaited. The Bihar and Orissa Government have already established a water-board at Jherria. But here this scheme is being considered and re-considered over and over again and it has not yet taken any practical shape or effect. I think, my Lord, that something should be done in view of there being so much delay in maturing that scheme to help these neighbouring municipalities to improve their water-supply and drainage and also in view of the fact that the surplus population of Calcutta is moving in that direction. The operations of the

Resolutions.

Improvement Trust and the operations of the Calcutta Municipality are displacing a large number of people. Having regard to this fact and also to the fact that there is a pressing necessity of improving the water-supply and drainage of the suburban area, I have moved the resolution.

The Hon'ble Rai Mahendra Chandra Mitra Bahadur said :

"My Lord, I wish to make a few observations in this connection. It is a known fact that the supply of filtered water to the riparian municipalities is a great advantage to them who have to reside there. Malaria, cholera, etc., have now been stamped out by the introduction of water-works. If your Excellency refers to municipalities on this side of the river in the vicinity of Calcutta your Excellency will find a desire for filtered water prevailing to a great extent among the people. The matter was brought to the notice of the Government several times and the Sanitary Engineer, I am told, have prepared schemes for water-supply. But these schemes have not been operated upon and nothing has yet been done. My submission is that early steps should be taken to give effect to these schemes. The Hon'ble mover of the resolution has asked for a grant of Rs. 1 lakh. I submit it is a very small amount. But whether small or great the question before the Council is that the riparian municipalities should be provided with a supply of filtered water. The question, as my hon'ble friend pointed out, was proposed twenty years ago. Even before that the scheme was considered but nothing definite was done. Some riparian municipalities who have independent means have been able to provide water-supply without the help of Government, but others have been left in the dark. As the question has now come before the Council I think Government should lose no time in giving effect to the scheme. If the scheme is not a general one I submit to your Excellency's Government that they will take the matter up in right earnest. All that I can say from the weight of my limited experience is that if the scheme is to be in operation many diseases will be stamped out and even malaria would cease to exist. My Lord, I think there ought to be a scheme for the supply of filtered water within the jurisdiction of District Boards. I myself thought out a plan in this connection and, if the scheme which is now under the consideration of Government, I am sure that the days are not distant when all the villages and towns in Bengal will be supplied with filtered water, and if this is done I am sure that malaria and other diseases will go away for ever. With these words I beg to support the resolution."

The Hon'ble Rai Debender Chander Ghose Bahadur said :—

"My Lord, I will not take up much of the time of the Council and that for one reason. I have no exact knowledge of affairs of the riparian municipalities except in the 24-Parganas. I would, therefore, confine myself to one particular point. If these riparian municipalities were to get a supply of filtered water it will not only be of help to the people in those localities, but also a great relief to the residents of Calcutta. At the present moment we have to sell a good portion of our water to these municipalities. It is not a case of voluntary sale, but we are commanded by the Government to do so. Of course we get a price, but it is also a fact that we do not sell the water of our own accord. We have got a great need for water ourselves. My Hon'ble friend, Mr. Phelps, may not feel the want of it as he lives in the southern portion of the town, but those who live in the northern division feel the insufficiency of water-supply. That has been a grievance with our people, but I am glad to say that the Chairman of the Corporation and many of the Commissioners are alive to it. It stands to reason that these riparian municipalities on the river Hooghly, or very close to it, should have their own machinery for the supply of filtered water and they should discontinue having filtered water from the

Resolutions.

Babu S. N. Ray.

Calcutta Corporation. I do not know whether the grant of Rs. 1 lakh will be a substantial help in forwarding this project. Probably the Hon'ble Member has mentioned this sum for the consideration of this Council, showing the necessity of getting the riparian municipalities to combine to have their own water-supply. I beg to support the resolution."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I should like to say few words with reference to this resolution. My Hon'ble friend, Rai Radha Charan Pal Bahadur, is probably under a misapprehension when he said that there has been a scheme—a matured scheme—for the last twenty years. A scheme was prepared only about four years ago, and that scheme was matured through the kind exertions of the President of the Sanitary Board—the Hon'ble Mr. Stevenson-Moore; and by that scheme we wanted to supply all the municipalities from Cossipur-Chitpur up to Kanchrapara—there are about 13 to 14 municipalities—and the original cost of that scheme was estimated to be at least Rs. 35 lakhs, and now it is estimated to cost about Rs. 43 to Rs. 44 lakhs. There was a conference of mill-owners on the east of the river Hooghly as well as some of the leading municipal Commissioners and Chairmen of municipalities and some of the members of the Sanitary Board under the Presidentship of the Commissioner of the Division, Mr. Lang. At first the mill-owners wanted to co-operate with the Government in this riparian scheme, but on account of the war nothing happened. In the meantime the number of mills increased and the mill-owners installed their own machinery; and in Garulia, Jagadal, Bhatpara and in Naihati, the mill-owners set up their own machinery and supplied the people of the locality with their own water. So the original scheme which would have cost about Rs. 35 to Rs. 40 lakhs cannot be given effect to. It is only in municipalities from Cossipore-Chitpur up to Barrackpore that we can give effect to a portion of the scheme. So it is no doubt a fact that we wanted to bring the scheme as early as practicable to the notice of Government, and in fact a draft Bill was ready, but on account of the war nothing could be done. But now it would be impossible to give effect to the original scheme, having regard to the attitude of the mill-owners. Probably it is not a fact known to my friend that most of the municipalities from Garulia up to Naihati are managed by mill-owners, and it is the mill-owners who supply filtered water in many places not only to their own workmen but also to the people of those localities. Even if the scheme be revised and a new scheme be prepared, designed to supply filtered water to the municipalities from Cossipore-Chitpur up to Barrackpore, that scheme would, I think, cost no less than Rs. 35 lakhs, and the grant of Rs. 1 lakh to these riparian municipalities would mean a drop in the ocean. Of course, it will be for the Sanitary Board to approach Government with this modified scheme, and now that the war is over it is probable that Government will also be able to help us with some money, and then it will be necessary for us to find out the ways and means. The Calcutta Corporation has always been a very conservative Body—at least that has been my experience of the institution. My Hon'ble friend told us an ancient history. I have also some ancient history to tell. It is about eighteen years ago that I was Vice-Chairman of the Garden Reach Municipality and a Commissioner of the Calcutta Corporation. The Garden Reach Municipality wanted filtered water very badly. I moved a resolution in the Calcutta Corporation to supply the Garden Reach Municipality with filtered water. But the attitude of the Commissioners was anything but friendly and it was only through the help of the then Chairman, Mr. Bright, that the Garden Reach Municipality was supplied with filtered water, and then a clause was inserted in the Bill of 1899 that some of the municipalities in the neighbourhood of Calcutta would get a supply of filtered water from the Calcutta Corporation—I think it is section 278 of the Calcutta

Resolutions.

Maharajadhiraja Bahadur of Burdwan; Rai Radha Charan Pal Bahadur.

Municipal Act. That gave power to the Government to order the supply of filtered water to the neighbouring municipalities. Some of the municipalities have already been supplied with filtered water by the Corporation; and they are the South Suburban, Tollygunge and Cossipur-Chitpur municipalities, because these municipalities agreed to take a certain quantity of water. But now on account of filtered water being appreciated by other municipalities, the demand on the Calcutta Corporation is daily increasing, and what is the result? The result is that instead of charging four annas per thousand gallons as they used to charge before, the Calcutta Corporation is now charging six annas, not only for the excess quantity but also for the agreed quantity; I do not suppose that the supply of water of the Calcutta Corporation is unlimited, but still they have got to supply the neighbouring municipalities with water. Therefore, I think, that the Government might consider the desirability of supplying the Calcutta Corporation with new pipes so that these neighbouring municipalities might be supplied with a larger quantity of water and the charge which the Calcutta Corporation is now making be reduced to four annas per thousand gallons as before.

The Hon'ble Maharajadhiraja Bahadur of Burdwan said :—

My Lord, the Rai Bahadur at first sight appeared to be approaching this subject with a very charitable intention towards these riparian municipalities, but now that he has let the cat out of the bag I gather that the real object is that the Calcutta Corporation should be relieved of the amount of water they have to supply to these riparian municipalities. Hence this resolution. Government have not been idle over this matter. I do not know of any old scheme which perhaps the Rai Bahadur who generally has a weakness for looking up old reports might have come across; we only know of the scheme that was prepared a few years ago by Mr. Williams and regarding which reference has been made by the Hon'ble Babu Surendra Nath Ray. That matter has been before the Sanitary Board and, I believe, it is still before them, and has to be taken up again. The question is this: There are quite a number of these municipalities, regarding which Government have prepared a large water-supply scheme, the cost of which comes up roughly to about Rs. 36 lakhs, and of this, the share of the municipalities concerned is estimated at a little over Rs. 9 lakhs. Of these municipalities two have declined to join—one municipality has said that it cannot afford to take advantage of the scheme. Then, we come to the mill areas to which some reference has already been made by the Hon'ble Babu Surendra Nath Ray. We find that a number of these mills have got their own arrangements for water-supply and are therefore strongly opposed, because they fear that water-tax will be levied on them in spite of their having their own water-supply. We have thoroughly gone into the question, but so far have been unable to meet the mill-owners so we have again referred the matter to the Sanitary Board whose views are awaited. That being the case, I think it must be apparent to the Hon'ble Members present here that to ask to provide Rs. 1 lakh, when there is no definite scheme before us and when no particular municipality has been specified, would be not only futile, but, if I may say so, absurd. That being so, my Lord, I do not think that any case has been made out for which the Government should make a provision of Rs. 1 lakh for the improvement of water-supply to the riparian municipalities, and I cannot, therefore, recommend to Government the acceptance of this resolution.

The Hon'ble Rai Radha Charan Pal Bahadur said :—

My Lord, I have listened to the observations made by the Hon'ble Maharajadhiraja Bahadur of Burdwan. He thinks that the cat is out of the

Resolutions.

Rai R. C. Pal Bahadur.

bag because the Corporation wanted to be relieved of the obligation for the supply of water to the neighbouring municipalities. I think, my Lord, that was not letting the cat out of the bag, because it is well known that the Corporation desire to be relieved of the obligation and that, although they are willing so far as practicable to help the neighbouring municipalities with their limited resources, they think that we must press the Government to bring the scheme to a head. Of course I do not want to quarrel about the age of the scheme. I would not care how many schemes have been superseded or not. The question is one of combining these municipalities into one for the purpose of promoting a water-supply scheme as was proposed in 1878. If my hon'ble friend would look into the proceedings of the Legislative Council of the year 1878, he will find that the scheme was proposed in Sir Ashley Eden's time. This subject is as old as 1878 and probably older. I distinctly remember, and I am speaking from my memory that the scheme was started in Sir Ashley Eden's time when the Hon'ble Mr. Mackenzie was the Municipal Secretary, and the Government insisted on the Calcutta Municipality supplying water to the neighbouring municipalities. Though the Corporation are supplying water their resource is limited. I know, of course, that Rs. 1 lakh is merely a drop in the ocean considering their needs. I have explained that I have suggested that amount only to bring the matter to the attention of Government who may see the necessity of doing something to provide riparian municipalities with an efficient water-supply. That is the reason that I have mentioned this sum.

The resolution was then put and lost.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 22.

The Hon'ble Rai Radha Charan Pal Bahadur moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a grant of Rs. 1 lakh be made in favour of District Boards and Municipal Charitable Dispensaries for the introduction of the Ayurvedic system of medicine, and

(*b*) that the amount be met from—

(*i*) the provision of Rs. 45,000 for the Press Censor under the general administration charges, and

(*ii*) the balance from the general reserve of Rs. 2 lakhs for unforeseen charges under 32—Miscellaneous.

He said :—

My Lord, with reference to this motion, I understand that some of the municipalities and district boards are inclined to take up this matter themselves, so there is no need for me to move this resolution. They have expressed a very laudable desire, but I do not know how far the desire will be fulfilled. But I should like to wait and see the result. But I think the sum of Rs. 45,000 for the provision of Press Censor may be utilized otherwise, as I understand the Press Censorship has been abolished, and there is no need for this sum now.

Resolutions; Adjournment.

Sir. Henry Wheeler.

The Hon'ble Sir Henry Wheeler said :—

I may remind the Hon'ble Member that this sum has already been allotted on the resolution of the Hon'ble Babu Ambika Charan Mazumdar.

The resolution was then, by leave of the President, withdrawn.

RESOLUTION—No. 1094Medl.

READ—

This Government Resolution No. 2545Medl., dated the 11th August 1914, and the Statutes of the State Medical Faculty of Bengal published therewith.

In the Resolution cited in the Preamble Government sanctioned the creation of State Medical Faculty in Bengal for the purpose of conducting examinations of medical students and of granting them diplomas of Membership or Licentiateship of the Faculty, with a view to their registration under

the Bengal Medical Act VI of 1914. In paragraph 6 of the Statutes referred to in the Preamble it is provided that the Governing Body of the State Medical Faculty shall arrange to hold at regular intervals examinations in all the recognised subjects of a complete medical curriculum for the admission of Members and Licentiates to the Faculty and in paragraph 7 thereof it is stated that only students, who undergo a course of study in medical science in Government medical schools or colleges or in schools or Colleges, which have been recognised in this behalf by the Bengal Council of Medical Registration, shall be allowed to present themselves for examination for Membership and Licentiateship of the Faculty. The Governing Body of the State Medical Faculty, at the instance of the Bengal Council of Medical Registration, now recommend that students, who have completed their courses of study in American medical schools or colleges, and obtained degrees of Doctor or Bachelor of Medicine or Surgery of an university in America recognised by the conjoint Examining Board of the Royal College of Physicians of London and the Royal College of Surgeons of England, for the purpose of admission to their examination, may be allowed to come up for the Final Membership or the Final Licentiateship Examination of the Faculty, so that on their successfully passing one of these examinations they may be eligible for registration under the Bengal Medical Act, 1914. The Governor in Council accepts the above recommendation and directs that the following addition be made to the Statutes of the Faculty after paragraph 7 thereof :—

"8. Any Doctor or Bachelor of Medicine or Surgery of a University in America, recognised from time to time for the purpose of admission to their examination by the conjoint Examining Board of the Royal College of Physicians of London and the Royal College of Surgeons of England, who shall have passed such an examination or examinations at his University as shall comprise the subjects of the Primary, Intermediate and Final Examinations for the Membership or Licentiateship of the State Medical Faculty of Bengal, and who shall have completed the curriculum of medical study required by the rules in the schedule attached to these Statutes, shall be eligible for admission to the Final Examination for the Membership or Licentiateship of the Faculty, on payment of the prescribed fee and on production of his diploma. Any such candidate who shall have passed the Final Examination shall be entitled to receive the diploma of Member or Licentiate of the Faculty as the case may be."

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette* for general information.

Ordered also that a copy of the Resolution be forwarded to the President of the State Medical Faculty of Bengal for information and guidance.

RESOLUTION ON THE REPORT OF THE ROYAL COMMISSION ON THE PUBLIC SERVICES IN INDIA.

GOVERNMENT OF BENGAL.

COMMERCE DEPARTMENT.

CALCUTTA, THE 1ST APRIL 1919.

RESOLUTION—No. 1505Com.

READ—

The Report of the Royal Commission on the Public Services in India.

THE Governor in Council has recently had under consideration the recommendations of the Royal Public Services Commission in respect of the Factory Inspection Department as contained in annexure V of their Report. This department was reorganised in 1912 as a result of the report of the Indian Factory Labour Commission, and the new scheme had been in operation for a short time only when the Public Services Commission made their enquiry. The Commission have in consequence suggested but few alterations in regard to this department. The Governor in Council, however, takes this opportunity of inviting the public to express their opinion on the proposals before he arrives at a final decision in the matter.

2. The Commission were of opinion that the inspection of factory work, in order to be efficiently done, (1) does not essentially require previous experience in Europe, and (2) is not such as necessarily to demand the appointment of Europeans, with the consequence that the department should be thrown open to Indians. They recommend that Inspectors of Factories should ordinarily be recruited in India after advertising vacancies, but that recruitment should not necessarily be confined to natives of India; further that, only if no qualified candidate is procurable locally should steps be taken for the appointment of officers from Europe, the selection being made after advertisement and with the advice of the Home authorities.

3. The Commission approved the existing arrangements by which candidates for inspectorships are expected to have a liberal education, and, in addition, a good theoretical training in engineering together with a thorough practical training in mechanical engineering; also to possess a general knowledge of the principles of sanitation. In the case of selections in India the Commission thought that it would suffice if candidates had practical experience of factories in this country and they did not consider that in their case experience in Europe was necessary.

4. All new officers, according to the Report, should be required to undergo a period of two years' probation before they are confirmed in their appointments, and further all Inspectors of Factories should be made to pass a colloquial test in the vernacular of a higher character than is ordinarily enforced in Government departments.

5. The present scales of pay of the Chief Inspector and other Inspectors of Factories in Bengal (who are all Europeans) are Rs. 800—50—1,000 and Rs. 400—30—700, respectively. The Commission considered that the salary of the Chief Inspector of Factories should be fixed at Rs. 1,000—50—1,250, whether he be a European or a statutory native of India, that the other (junior) Inspectors of Factories, if recruited in Europe, or if recruited in India, but not being statutory natives of India, should be graded on a scale of Rs. 400—30—900, and that a separate scale, viz., Rs. 300—25—700, should be allowed to statutory natives of India recruited locally.

6. In the matter of leave the Commission recommended that in future all (junior) Inspectors of Factories appointed at the higher of the two rates of pay should be allowed leave under the European service leave rules, while the Indian service leave rules should be applicable in the case of

others. The ordinary pension rules should apply to the whole of the Factory Inspection Department, subject to the proviso that Inspectors should be allowed to reckon as service qualifying for superannuation pension the number of complete years by which their ages at the time of appointment exceeded 25 years. The existing general practice in the department to recruit only such persons as are not more than 30 years of age should be made absolute.

7. As the Government of India desire to be furnished with the views of the Local Government as early as possible, it is requested that any criticisms or remarks which any persons or public bodies interested may desire to offer may be submitted to the Secretary to the Government of Bengal, Department of Commerce and Industry, not later than the 1st May 1919.

ORDER.—Ordered that a copy of the Resolution be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council.

Secy. to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 3rd April 1919.

Summary.—With the exception of the Chittagong Division there was practically no rain throughout the Presidency where it is badly wanted for agricultural operations. Harvesting of spring crops continues. The condition of standing crops are reported to be fair in some places. The average price of common rice has risen by 2 per cent. Distress continues to prevail in Bankura and Brahmanbaria subdivisions of the Tippera district. In Bankura 5,885 persons are already in receipt of gratuitous relief and 4,369 persons are engaged on District Board work. In Brahmanbaria Rs. 1,59,953 has been distributed as agricultural loans up to date and 1,584 persons worked daily on an average in test works.

No. 1430.—The following Order in Council, dated the 28th February 1919 is published for general information :—

AT THE COUNCIL CHAMBER, WHITEHALL.

The 28th day of February 1919.

By the Lords of His Majesty's Most Honourable Privy Council.

Whereas it is provided by section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under section 8 of the Customs and Inland Revenue Act of 1879, as amended by the Act now in recital, may, whilst a state of war exists. be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade;

And whereas it is provided by section 2 of the Customs (Exportation Restriction) Act, 1914, that any Proclamation made under section 1 of the Exportation of Arms Act, 1900, may, whether the Proclamation was made before or after the passing of the Act now in recital, be varied or added to, whilst a state of war exists, by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas by a Proclamation, dated the 10th day of May 1917, and made under section 8 of the Customs and Inland Revenue Act, 1879, and section 1 of the Exportation of Arms Act, 1900, and section 1 of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited:

And whereas by subsequent Orders of Council and by a Proclamation, dated the 18th day of December 1918, the said Proclamation was amended and added to in certain particulars:

And whereas there was this day read at the Board a recommendation from the Board of Trade to the following effect:—

That the articles indicated in the Proclamation of the 10th day of May 1917, as amended and added to by subsequent Orders of Council, and by the Proclamation of the 18th day of December 1918, as being prohibited to be exported to all destinations in European and Asiatic Russia and in other foreign countries in Europe and on the Mediterranean, except France and French Possessions, Italy and Italian Possessions, Belgium, Portugal, Greece, Serbia, Roumania, Spain, Morocco, and Palestine and Syria as far north as a line Alexandretta to Aleppo inclusive, and as far east as the Hedjaz railway inclusive, Czecho-Slovakia, Alsace-Lorraine, and the portions of Austria-Hungary and territories on the left bank of the Rhine in the occupation of the Armies of the Associated Governments, and to all ports in any such foreign countries, should be prohibited to be exported to all destinations in Europe and Asiatic Russia and in other foreign countries in Europe and on the Mediterranean, except France and French Possessions, Italy and Italian Possessions, Belgium. Portugal, Greece, Serbia, Roumania, Iceland and the Faroe Islands, Spain, Morocco, Palestine and Syria as far north as a line from Alexandretta to Aleppo inclusive, and as far east as the Hedjaz railway inclusive, Czecho-Slovakia, Alsace-Lorraine, and the portions of Austria-Hungary and territories on the left bank of the Rhine in the occupation of the Armies of the Associated Governments, and to all ports in any such foreign countries.

Now, therefore, their Lordships, having taken the said recommendation into consideration, are pleased to order, and it is hereby ordered, that the same be approved.

Whereof the Commissioners of His Majesty's Customs and Excise, the Director of the War Trade Department, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Post Graduate Research Scholarships to be awarded in 1919.

Post Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and who appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month and is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, paleography, epigraphy, philosophy, history, archæology, anthropology, etc., and the remainder will be awarded for research either in a literary or in scientific subject. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme indicating a definite course of inquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1919, but a scholarship may be renewed from year to year up to the limit of three years provided the candidate has throughout the year vigorously prosecuted original research in the subject which he selected.

4. Each candidate for a scholarship must submit his application through the head of the institution in which he read last to the Director of Public Instruction, Bengal, on or before 10th May next, and must produce evidence of having passed from a Bengal College, the M.A. or M.Sc. examination of the Calcutta University or of having obtained some other equivalent or higher degree, such as Doctor in Science or Master in Engineering of the Calcutta University in 1916 or 1917 or 1918. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigations. He must also indicate the institution in which he proposes to work with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Applications for this year's scholarships should be submitted in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

W. C. WORDSWORTH,
Director of Public Instruction, Bengal.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Unconvenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

FOREST DEPARTMENT, BENGAL.

Stipendiary Studentships for the Provincial Forest Service Class, 1920-22.

APPLICATIONS for one stipendiary studentship for the Provincial Forest Service class will be received by the Conservator of Forests, Darjeeling, up to the 15th of May 1919.

2. Applicants must be not less than 18 and not more than 25 years of age on the 1st April 1920.

3. Applications should be made in the applicant's own hand writing and must be accompanied by the following certificates (in original) :—

(*a*) Certificate that the candidate is a "Native of India" within the meaning assigned to those words by section 6 of 33 Vict., cap. 3.

(*b*) A certificate of age.

(*c*) A health certificate in the form prescribed by article 49 of the Civil Service Regulations, 5th edition, signed by the Civil Surgeon of the district and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough outdoor life in the Forest Department, and to the fact that he bears on his body marks of successful vaccination or of small-pox.

(*d*) A certificate showing that the candidate is of good social standing and good moral character.

(*e*) A certificate that the candidate possesses a thorough knowledge of colloquial English which will permit of his following a highly technical course and generally of good education.

(*f*) A certificate showing the highest educational tests passed by the candidate.

NOTE.—The certificates (*c*) and (*d*) must bear date not further back than the 1st April 1919 and certificates (*d*) and (*e*) must be signed by a gazetted officer of high standing.

4. Applications should be submitted through the Collector of the district in which the candidate resides, and also through the Divisional Forest Officer if the candidate resides in a Forest Division.

5. From the applications received the Conservator will make a preliminary selection and those candidates will be required to undergo a qualifying examination in English and in Mathematics. From the candidates who qualify at these examinations the Conservator will select not more than two who will be tested in the Forests by a course of preliminary training for not less than four months, commencing in November 1919, during which the candidates will receive a monthly allowance of Rs. 40.

6. The final selection of the candidate for deputation to the Forest Research Institute will be made by the Government of Bengal in accordance with the results of the preliminary training, preference being given to the man who is considered likely to make the best Forest Officer. The selected candidate will be obliged to execute the agreement and security bond prescribed by Government.

7. While at the Forest Research Institute, the selected candidate will be granted a monthly stipend of Rs. 50 (which will be supplemented by a bonus of Rs. 1,000 at the end of the course only if the candidate passes the course with "Honours" and if he is well reported on by the President: the amount of the bonus is reducible by Government in the event of the report not being entirely satisfactory).

Questions and Answers.

(UNSTARRED QUESTIONS.)

(Answers to which were laid on the table).

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

1.

Will the Government be pleased to make a statement showing the industries that have been started in the Presidency since the outbreak of the war for the manufacture of goods of which Germany was the sole or chief importer?

Answer by the Hon'ble Mr. Donald:—

"The Hon'ble Member is referred to the answer to his question No. LXVIII put on the 3rd July, 1918."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

2.

(*a*) With reference to the recommendations made by the Board of Agriculture at the meeting held in December, 1917, at Poona, will the Government be pleased to state what action has been taken in pursuance thereof?

(*b*) Is it a fact that at the said meeting the Board specially recommended the early establishment, as an experimental measure, of a limited number of vernacular agricultural middle schools in the provinces?

(*c*) If so, what steps have the Government taken in this direction?

(*d*) Are the Government aware that four such schools have been started in the Bombay Presidency, and that the official reports state that they have been very popular and that there are demands for the opening of more such schools from many quarters in the Presidency of Bombay?

Answer by the Hon'ble Mr. McAlpin:—

"(*a*) The following action has been taken by this Government on the recommendations made by the Board of Agriculture at their meeting held at Poona in December, 1917:—

Subject.	Action taken.
Subject VIII—Veterinary education.	It has been decided to improve the prospects of the Veterinary Assistants and to raise their pay from Rs. 30—$\frac{1}{5}$—70 to Rs. 50—$\frac{1}{5}$—100 a month with effect from 1st April, 1919.
Subject IX—Manure	Steps have been taken to encourage the use of manures of proved suitability, such as bonemeal and the like, by the advance of loans under the Agriculturists' Loans Act to cultivators for the purchase thereof.
Subject XII—Co-operation between District Boards and the Agricultural Department.	Measures have been adopted for enlisting the interest of District Boards in agricultural work by co-operation in payment for the establishment and maintenance, and in the management of agricultural farms at the headquarters of districts.

Questions and Answers.

Subject.	Action taken.
Subject XII—The best means of bringing improved methods of agriculture to the notice of cultivators.	The report of the sub-committee appointed to consider this question, which was adopted by the Board of Agriculture, has been commended to the attention of all District Boards and District Agricultural Associations.
Subject XVII—Agricultural education.	The Hon'ble Member is referred to the answer given to question (*c*) below.

Some of the subjects are still under the consideration of the Government of India, and their orders are awaited.

(*b*) The answer is in the affirmative.

(*c*) The Government of India have sanctioned a grant of Rs. 1,80,000 for expenditure on agricultural education in this Presidency. It has been decided to utilise this amount by the establishment of two agricultural middle schools—one at Dacca and the other at Chinsura. A scheme has been prepared, and steps have been taken for the construction of the buildings.

(*d*) The answer is in the affirmative."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

3.

Will the Government be pleased to make a statement—

(*a*) showing, year by year, the total number of Bengali students in the Sabour Agricultural College and the ratio they form of the total number of students in the College; and

(*b*) showing the contributions made by the Government of Bengal towards the upkeep of the institution since its establishment?

Answer by the Hon'ble Mr. McAlpin:—

"(*a*) A statement is laid on the table furnishing the information required.

(*b*) The College was designed to serve the needs of both the provinces of Bengal and Bihar as at present constituted: and before the redistribution of territories on the 1st April, 1912, the cost of maintenance was borne entirely by the Government of Bengal as then constituted. Since then, the institution has been maintained by the Government of Bihar and Orissa, and no contribution has been made by the Government of the Bengal Presidency."

Statement referred to in the answer by the HON'BLE MR. MCALPIN *to question No. 3 (Unstarred) asked by the* HON'BLE BABU BROJENDRA KISHOR RAY CHAUDHURI *at the Council meeting of the 27th March, 1919, showing, year by year, the number of Bengal students in the Sabour Agricultural College and their ratio to the total number of students in the College.*

Year.	Total number of students in the College.	Number of Bengal students	Ratio per cent.
1910-11	18	13	72
1911-12	29	21	72
1912-13	27	21	78

Questions and Answers.

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

4.

Are the Government aware of the grievances of the public who travel on the Mymensingh-Bhairab Railway arising out of an excessive rate of fare, and the want of a regular provision of inter-class carriages, particularly for ladies, in most of the trains running on this line?

Answer by the Hon'ble Mr. Cowley:—

" The Hon'ble Member in the first part of his question probably alludes to the question relating to the subject of fares and pontage charge over the Mymensingh-Bhairab Bazar Railway asked by the Hon'ble Rai Sri Nath Ray Bahadur at the Council Meeting held on 20th November, 1917. The Hon'ble Member is referred to the reply given on that occasion.

In regard to the second part of the question Government are aware that the Coaching stock of the Assam-Bengal Railway at present available is inadequate to provide fully for the requirements of the travelling public. The situation has been created by the war. The Railway authorities report that additional stock is expected during the coming financial year but it will be some time before the stock of the line will be sufficient to meet all requirements."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

5.

(*a*) Is it a fact that economic distress has been caused by the rise in the prices of food-stuffs?

(*b*) If so, will the Government be pleased to state whether there is any likelihood of the prices going down in the near future, particularly in so far as rice, kerosine oil and cloths are concerned?

Answer by the Hon'ble Mr. Donald:—

" The Hon'ble Member is referred to the Hon'ble Sir Henry Wheeler's speech on this question at the meeting of this Council on the 18th and 19th, February. It is difficult to forecast the future in the matter of prices as so many factors are involved, including supplies, monsoon and labour conditions, freight and tonnage. These factors are more than local and concern the world generally. It is thus impossible to prophesy as to the future trend of prices one way or the other."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

6.

Will the Government be pleased to make a statement showing, district by district, the progress of literacy among the rural population in the Government estates in the Dacca division, and the steps taken for agricultural improvement in the aforesaid areas, in 1916-17 and 1917-18?

Answer by the Hon'ble Mr. McAlpin:—

" A sum amounting to 1 per cent. of the gross collections in Government estates is annually spent on education in Government estates, distribution being made by the Education Department. Government have no special information regarding the spread of literacy in such areas in the Dacca division.

Questions and Answers.

During the years 1916-17 and 1917-18 sums of Rs. 7,000 and Rs. 15,000 were allotted by the Board for agricultural and sanitary improvements in Government estates of the Dacca division, excluding the Sundarbans; these sums are distributed by the Commissioner between different districts."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

7.

Will the Government be pleased to make a statement showing, for the last five years, the management charges of the estates under the Court of Wards, explaining, in each instance, the causes responsible for exceeding the standard of 10 *per cent?*

Answer by the Hon'ble Mr. McAlpin:—

"The Hon'ble Member is referred to columns 10 and 11 of Appendix II of the Annual Reports on the administration of Wards', Attached and Trust Estates in the Presidency of Bengal for the years 1913-14, 1914-15, 1915-16, 1916-17 and 1917-18, which show the management charges of the estates under Court of Wards and the percentage of such charges on the current rent and cess demand; and to paragraph 10 of the Reports which give the causes responsible for the excess over the standard of 10 *per cent.* so far as available."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

8.

(*a*) Will the Government be pleased to state the number of deaths of infants under one year in Bengal in 1917-18?

(*b*) Is it a fact that infantile mortality is high? If so, are the Government considering the desirability of instructing the Sanitary Commissioner, Bengal, to draw up a scheme for its prevention?

(*c*) If any such scheme has already been submitted, what action, if any, has been taken to carry out the suggestions contained therein?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) The number of deaths in 1917-18 was 308,537.

(*b*) and (*c*) Infantile mortality is undoubtedly high in Bengal. No scheme for the prevention of infantile mortality has yet been prepared, and, as stated in the reply given to question No XII asked by the Hon'ble Raja Mahendra Ranjan Ray Chaudhuri at the meeting of the Council held on 6th March, 1916, the causes responsible for the high proportion of infantile deaths are so inextricably bound up with the domestic life and social customs of the people that they cannot be eradicated by any special action on the part of Government. As stated, however, in the reply to question No. 20 by the Hon'ble Sir Nilratan Sarkar, Government intend to take up the question of child welfare, with special reference to infant mortality, and to consider what measures can be taken to reduce the present high death rate among infants."

Questions and Answers.

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

9.

(*a*) Are the Government aware of the particulars of a comprehensive scheme of agricultural education recently adopted by the Punjab Government?

(*b*) Is any similar scheme under the consideration of the Government of Bengal?

Answer by the Hon'ble Mr. McAlpin:—

"(*a*) The answer is in the affirmative.

(*b*) The Hon'ble Member is referred to the answer given to question 2 (*c*) asked by him."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

10.

(*a*) Has the attention of Government been drawn to certain resolutions recently adopted by the District Board of Dacca regarding the question of communications in that district and the desirability of opening railways through certain localities?

(*b*) If so, what action, if any, do Government propose taking in the matter?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) The attention of Government has been drawn to the resolutions in question.

(*b*) No proposals from the District Board have yet been received by Government."

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

11.

(*a*) Is there any truth in the statement that the High Court has suggested the desirability of making certain rules by which all petitions, plaints, written statements, etc., in the *mufassal* courts, will be required to be made only in the English language?

(*b*) If so, are the Government aware—

(*i*) that there is a strong feeling of opposition to this suggested innovation; and

(*ii*) that it is likely to cause great hardship to the legal profession and the litigant public.

Answer by the Hon'ble Mr. Duval:—

"(*a*) The High Court has issued a general letter to District and Sessions Judges asking their opinion as to the possibility of declaring English the court language in civil and criminal cases for certain classes of cases.

(*b*) (*i*) and (*ii*) Government have so far no information in the matter."

Questions and Answers.

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

12.

With reference to the recent resolution of the Government of Bengal regarding the training of Indian boys in railway workshops, will the Government be pleased to state the purport of the opinions of the Agents of the East Indian, Bengal-Nagpur and Eastern Bengal Railways, respectively, on the proposals contained in the said resolution?

Answer by the Hon'ble Mr. O'Malley:—

"Copies of the Agents' letters on the subject are laid on the library table."

By the Hon'ble Maulvi A. K. Fazl-ul-Haq:—

13.

With reference to the reply to my unstarred question No. 25 asked on the 5th March 1919, will the Government be pleased to furnish the information asked for by giving a reply either in the affirmative or in the negative?

Answer by the Hon'ble Mr. McAlpin:—

"Government have nothing to add to the answer already given, and do not propose to make any other inquiries in the matter."

By the Hon'ble Babu Siv Narayan Mukharji:—

14.

(*a*) Will the Government be pleased to state, sub-division by sub-division, of the several districts of the Presidency, how many tanks were excavated by each of the district boards and what action has been taken by them in regard to the measures for providing pure water-supply in the interior of the rural area as directed in the Government resolution No. 1518 L.S.-G., dated the 11th November, 1912?

(*b*) Will the Government be pleased to state how many union committees have at present been formed in the districts of West Bengal and what amount has been annually placed at their disposal out of the funds of the district boards to increase the number of tanks in rural areas?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) A statement is laid on the table. In accordance with the orders conveyed in the resolution referred to, a survey of the existing sources of water-supply has been made and registers prepared by District Boards.

(*b*) A statement is laid on the table."

(*a*) Are the Government aware that the district boards of the 24-Parganas, Jessore and Murshidabad, with non-official chairmen, have embarked on an elaborate programme of drinking-water tanks in rural areas within their respective jurisdiction? If so, will the Government be pleased to state what is the guiding policy involved in these measures?

(*b*) Are the people of the areas where these tanks are excavated required to supplement the expenditure incurred by the district boards? If so, in what proportion?

Questions and Answers.

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) and (*b*) Copies of reports on the subject from the chairmen of the district boards of the 24-Parganas, Jessore and Murshidabad, are laid on the library table."

By the Hon'ble Babu Siv Narayan Mukharji:—

16.

Are the Government aware that the district boards of Burdwan, Hooghly and Howrah have not so far taken any steps in the matter of drinking-water tanks in the rural areas, and especially in the portions within the spill area of the Damodar basin? If so, are the Government considering the desirability of directing those district boards to devote a substantial portion out of the Public Works cess for the improvement of water-supply, especially in the area affected by the Damodar spill?

Answer by the Hon'ble Mr. O'Malley:—

"From the statement laid on the table it will be seen that the assumption of the Hon'ble Member is not correct."

(*a*) Are the Government aware that under paragraphs 62 and 170 of the Report of the ministerial officers' committee of Eastern Bengal and Assam, 1908-09, which were adopted by the late Eastern Bengal and Assam Government in its Circular No. 1738-86 F., dated 27th March, 1911 [Appendix B, paragraph 2 (*5*)], promotions of clerks in the grades up to Rs. 50 should ordinarily go by seniority and no one should be superseded except on account of his own demerits?

(*b*) Is the circular in question in force in the whole of the present Presidency of Bengal?

Questions and Answers.

Answer by the Hon'ble Mr. Duval:—

" (*a*) Yes.

(*b*) No; the circular is in force only in the Dacca, Rajshahi and Chittagong divisions."

By the Hon'ble Khan Sahib Aman Ali:—

18.

(*1*) Are the Government aware—

(*a*) that the present District Judge of Chittagong has promoted some junior clerks of his office to the grades of Rs. 40 and Rs. 50 by superseding a number of senior officers having good records of service; and,

(*b*) that in one case he promoted a very junior officer of about two years' standing in the grade of Rs. 30 direct to the grade of Rs 50 in supersession of the claims of senior clerks in the grades of Rs 30 and Rs. 40?

(*2*) Will the Government be pleased to state—

(*i*) whether similar instances of promotions have occurred in any other judicial offices in Eastern Bengal; and

(*ii*) if so, whether Government are considering the desirability of taking steps, as suggested in paragraph 171 of the Report of the ministerial officers' committee of Eastern Bengal and Assam, 1908-09, to amend section 30 of the Bengal, Agra and Assam Civil Courts Act, 1887, so as to subject the District Judges' power of appointment to the control of the Local Government?

Answer by the Hon'ble Mr. Duval:—

" (1) (*a*) and (*b*) No.

(2) (*i*) Government have no information in the matter.

(2) (*ii*) The question does not arise "

19.

(*a*) Will the Government be pleased to state whether any memorial has been submitted to Government by the zamindars of the Rajshahi district on the subject of the postponement of the recovery of settlement costs?

(*b*) If so, will the Government be pleased to lay on the table a copy of the memorial, together with a list of the signatories thereto?

(*c*) Will the Government be also pleased to state what action, if any, they propose to take in the matter?

Answer by the Hon'ble Mr. McAlpin:—

(*a*) Yes.

(*b*) A copy is laid on the table with a list of the signatories thereto

Questions and Answers.

(*c*) The prayer of the memorialists is, that in consequence of the damage done by the severe floods in Rajshahi, last year, the realisation of settlement costs from proprietors and tenure-holders should be postponed. A report has been received by Government on the memorial Out of the 24 memorialists only eight have any settlement costs still to pay for property in Rajshahi. Of these eight, four own no property in badly affected areas By the other four payments have already been made aggregating 83, 87, 83 and 94 per cent., respectively, of the amounts due by them; the highest percentage has been paid by the proprietors of the estate most affected. Moreover, most of the tenure-holders as well as *raiyats* have paid their costs in the thanas affected by the floods.

Regarding the allegation in the memorial that the situation of the memorialists has been aggravated by the strict realisation of the settlement costs from their tenants it may be mentioned that last September, just after the floods, orders were issued by Government to suspend recovery in certain of the flooded areas, but on the representation of certain tenants who preferred to pay at that season rather than later, it was continued on the understanding that no pressure or coercive measures for enforcing payment should be used in the case of persons whose crops or houses had been destroyed by the floods.

In all these circumstances Government are of opinion that no general action is required on this memorial. The Settlement Officer has discretion, on the receipt of representations regarding individual cases of hardship, either to allow instalments of payment or to defer the issue of coercive process under the Certificate Act."

His Excellency The Right Hon'ble Lawrence John Lumley Dundas, Earl of Ronaldshay, G.C.I.E., Governor of the Presidency of Bengal.

The humble memorial of the undersigned Landholders of the district of Rajshahi

MOST RESPECTFULLY SHEWETH,

THAT the estates belonging to your humble memorialists have been affected very severely by the recent unprecedented floods in the Rajshahi district,

THAT, in consequence, your Excellency's humble memorialists are unable to realize rents and other dues from their tenantry, and considering the distressed condition of the tenants, Your Excellency's memorialists find it extremely hard to press for their demands or execute existing decrees till the next harvest,

THAT the situation has been further aggravated by the strict realization of the settlement recovery costs from the tenants,

THAT for the reasons stated above, the collection of rents and dues of the undersigned memorialists has fallen off so considerably that they find it very difficult to meet the current demands of Government revenue and their own domestic and establishment charges,

THAT the present distress of Your Excellency's memorialists has been greatly enhanced by their being called upon to pay large settlement recovery costs, which it is practically impossible for them to pay without incurring debts at a very high rate of interest,

THAT, in conclusion, Your Excellency's memorialists beg to pray that Your Excellency be pleased to direct that any further realization of settlement

(*a*) Will the Government be pleased to state whether they have taken any action with regard to any scheme in connection with child welfare?

(*b*) Are the Government considering the desirability of making any arrangement for the dissemination of knowledge regarding child welfare?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) and (*b*). The Hon'ble Member is probably aware of the work of the maternity and baby welfare section of the Health Department of the Calcutta Corporation. Work of this nature is not, so far as Government are aware, carried out in other municipalities. In November 1917 the Sanitary Commissioner circularized the Chairmen of all municipalities and District Boards and suggested that local authorities should take steps to arouse public interest in the conditions producing high infantile mortality and should organize baby shows for this purpose. A baby show was held in Howrah in August 1918 and in a circular of 20th January, 1919, of which a copy is laid on the table, the Sanitary Commissioner urged Chairmen of District Boards and municipalities to organize similar shows.

No general scheme of child welfare has been elaborated, but Government propose to take up the question with special reference to infant mortality."

Circular referred to in the answer by the HON'BLE MR. O'MALLEY *to question No. 20 (Unstarred) asked by the* HON'BLE SIR NILRATAN SARKAR *at the Council meeting of the 27th March, 1919.*

OFFICE OF THE SANITARY COMMISSIONER FOR BENGAL.

Dated Calcutta, the 20th January 1919.

From—DR. C. A. BENTLEY, M.B., D.P.H., D.T.M. & H., Sanitary Commissioner for Bengal,

To—The Chairman of District Board and Municipality.

IN continuation of this office circular letter No. 14736-14876, dated the 19th November, 1917, I have the honour to enclose a copy of the proceedings of the sub-committee appointed to organize a "Baby Show" in Howrah, dated the 1st November last. It is requested that you will be so good as to organize a similar show in your jurisdiction.

Proceedings of the Sub-Committee appointed to organize a Baby Show in Howrah, dated the 1st November, 1918.

PRESENT:

(1) BABU NITYA DHON MUKHARJI, *President.*
(2) MILLAR M. KING, ESQ.
(3) BABU CHARU CHANDRA SINHA, M.A., B.L.

Resolved—That the report of Mrs. King, the President of the committee of ladies, be adopted and sent to the Chairman, Howrah Municipality, for placing before the Commissioners at a meeting.

NITYA DHON MUKHARJI,
President.

The 1st November, 1918.

Report about the Baby Show held on the 25th August, 1918.

A COMMITTEE of ladies, with myself as its President, was formed at the request of the committee appointed by the Municipal Commissioners to organize a Baby Show. There were in all six meetings of that committee. Three meetings were held in my house, and the other three in the room of the Vice-Chairman of the Municipality who also attended the meetings and rendered very valuable assistance in organizing the show.

The show was held at 4 P.M. on the 25th of August last in the hall of the Ripon Collegiate School which was selected by the committee after a local inspection of the building. It was advertised by publication of notices in the local newspapers, by the distribution of hand-bills printed in Bengali, Hindi, Urdu and English, and also by beat of drums. Special letters with a copy of English notices were also sent to the residents of the town, intimating that strict *purdah* will be observed and requesting their attendance. It was also advertised that on the receipt of previous intimation conveyance will be arranged for bringing respectable Indian ladies and children from their houses and taking them back.

Questions and Answers.

The services of three cars were placed at the disposal of the committee for the above purpose and several carriages were also hired.

All classes of people were invited and strict *purdah* was observed. Children of less than five years were allowed to compete. For the purpose of location and distribution of prizes two separate divisions were made for two classes of people, viz., one for the ladies and children of respectable families and the other for lower classes.

The expenses in connection with the show were met by donations paid by several gentlemen and certain firms, the major portion of which was paid by Mr. M. King and his firm.

The following prizes were given :—

I. Ten special prizes which consisted of toys were awarded to children belonging to the better class of society.

II. The prizes for children belonging to the poorer or lower class of society were divided into two classes :—

(1) The First Class prizes which were three in number consisted of Rs. 10 in cash and a *sari* which were given to the mothers of the babies winning the prizes.

(2) The Second Class prizes which were seven in number consisted of Rs. 5 in cash and a *sari* which were given to the mothers of the babies winning the prizes.

Besides the prizes mentioned above, there were about 100 consolation prizes for each class of children attending the show.

The attendance was beyond our expectation. It was more than 700 in number, about 300 of whom came from the better class of people and 400 from the lower class.

Besides children several *purdah* ladies attended the show and special care was taken for their comfort. *Pans* were distributed, there was arrangement for drinking water and sweetmeats was distributed amongst all class of children.

There was a special prize consisting of a nice *shawl* given to the healthiest and cleanest baby among the lower class of people attending the show.

Out of the lady members, the President, Mrs. Waters, Mrs. Millar, and Mrs. Steen were selected as judges to decide to whom the prizes should be given.

Miss Chaudhuri and Miss Anthony then delivered lectures on simple diseases amongst the children and impressed on them the importance of taking early measures to arrest the progress of those diseases.

The children were then examined by the Committee of Judges and prizes, as stated above, were distributed to the deserving babies and children.

At the request of the committee the Civil Surgeon very kindly allowed some nurses from the hospital to be present at the show, and to arrange and help the distribution of prizes.

The school building was nicely decorated on the day of the show.

L. KING,

President.

The 25th August, 1918.

21.

(*a*) Will the Government be pleased to state who is the lowest gazetted officer responsible for the supervision of the Bengal Secretariat record room?

(*b*) Does the clerical staff employed in the said record room and that employed in its administrative department belong to the same establishment or to different establishments?

Answer by the Hon'ble Mr. Kerr:—

"(*a*) The Under-Secretary in the Political Department is the lowest gazetted officer responsible for the supervision of the Bengal Secretariat record room.

(*b*) The clerical staff employed in the record room and that employed in the administrative department (Political) belong to separate establishments"

22.

(*a*) Will the Government be pleased to state who is the lowest gazetted officer responsible for the supervision of the Bengal Secretariat Book Depôt?

(*b*) Does the clerical staff employed in the said Book Depôt and that employed in its administrative department belong to the same establishment or to different establishments?

Answer by the Hon'ble Mr. Kerr:—

"(*a*) The Bengal Secretariat Book Depôt is subordinate to the Legislative Department of the Secretariat. It is under the administrative control of the Assistant Secretary of that Department and is under the supervision of the Registrar of that Department in matters of discipline and routine.

(*b*) The ministerial establishment of the Book Depôt is distinct from that of the Legislative Department."

23.

(*a*) Will the Government be pleased to state whether extensions of service are being granted to the ministerial officers in the Education Department?

(*b*) Is it a fact that there has been a serious block in promotion in the office of the Director of Public Instruction, Bengal?

(*c*) Is it also a fact that extensions of service are being refused as a rule to the officers of the Education Department, namely, teachers, lecturers, etc.?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) Yes. Extensions of service are given to ministerial officers in accordance with clause (*a*) of article 459, Civil Service Regulations, of which a copy is laid on the table.

(*b*) The answer is in the negative.

(*c*) Yes. Extensions of service in these cases are refused in accordance with article 459, Civil Service Regulations."

Questions and Answers.

Article 459 of the Civil Service Regulations, referred to in the answer by the HON'BLE MR. O'MALLEY *to question No. 23 (Unstarred) asked by the* HON'BLE RAI MAHENDRA CHANDRA MITRA BAHADUR *at the Council meeting of the 27th March, 1919.*

459. (*a*) Ministerial officers who have attained the age of 55 may be required to retire, but should ordinarily be retained in service so long as they remain efficient until they come under the provisions of clause (*e*).

(*b*) Officers, other than ministerial, who have attained the age of 55 should ordinarily be required to retire, and should not be retained in service except where unquestionable public grounds for retention exist, and there is no doubt as to the physical fitness of the officer.

(*c*) Each officer's case should be taken up when he is approaching the age of 55 and before the expiry of each extension of service. Extensions may not be granted for any period exceeding one year at one time.

(*d*) The powers given by the preceding clauses may be exercised by the authority competent to fill the appointment (if vacant) of the officer who is required to retire or retained in service.

(*e*) An officer who has attained the age of 60 cannot be retained in the service of Government save in very exceptional circumstances, and with the sanction of the local Government.

(*f*) No claim to compensation from an officer who is required to retire under the provisions of this Article will be entertained.

By the Hon'ble Babu Akhil Chandra Datta:—

24.

(*a*) Is it a fact that a special allowance of Rs. 50 *per mensem* is given to armed inspectors?

(*b*) Is this allowance given alike to European and Indian armed reserve inspectors?

(*c*) Is this allowance given in consideration of any meritorious work or on account of the nationality of the recipient?

(*d*) If on account of the latter, will the Government be pleased to state—

(*i*) the reason for this distinction between European and Indian inspectors, and

(*ii*) whether it is the intention of Government to remove this distinction?

Answer by the Hon'ble Mr. Kerr:—

"(*a*) and (*b*) A compensatory local allowance of Rs. 50 a month has been sanctioned for 31 posts, which are ordinarily, but not necessarily, held by European inspectors, usually men who have served as non-commissioned officers in the British Army. Of these 31 posts, 17 belong to the headquarters force, 8 to the town police, 4 to the railway platform police, while 2 are held by officers employed as drill instructors.

(*c*) and (*d*) The allowances were granted because suitable men of the type required for these posts cannot be obtained on the ordinary scale of inspectors' pay The Police Commission of 1903 in paragraph 80 of their report recognised the necessity of employing a certain number of European inspectors in such posts, and proposed that instead of being borne on a separate list and receiving a higher scale of pay than ordinary inspectors, they should be given a local allowance, where necessary, to cover the higher cost of living. Government do not propose to alter the existing arrangements."

Questions and Answers.

By the Hon'ble Babu Bhabendra Chandra Ray:—

25.

(*a*) Has the attention of Government been drawn to the system of open-air schools which is being tried in certain parts of Bihar and Orissa?

(*b*) Are the Government aware that the Government of Bihar and Orissa have pointed out to the local bodies the necessity of adopting a simple standard for the building and equipment of primary schools in that province, and that the standard so advocated is less costly than that set up in Bengal?

(*c*) Are the Government considering the desirability of making a reference to the Bihar and Orissa Government on these subjects?

Answer by the Hon'ble Mr. O'Malley:—

" (*a*) A copy of a resolution moved by the Hon'ble Babu Gopabandhu Das at the meeting of the Bihar and Orissa Legislative Council held on 22nd January 1919 and of the reply given by the Hon'ble Mr. Le Mesurier is laid on the table. It has been ascertained that the Director of Public Instruction, Bihar and Orissa, circulated in 1915 a type plan of an " open air " primary school to the chairmen of district boards and district committees of public instruction with the request that they would consider its suitability for their districts. It is understood that the plan has been accepted in several districts in Bihar and Orissa.

(*b*) As stated by the Hon'ble Mr. Le Mesurier in the speech referred to in part (*a*) of this reply the attention of district boards and other bodies in Bihar and Orissa has been drawn from time to time to the necessity of keeping down expenditure on school buildings within the limits of what is strictly necessary. The Government of Bihar and Orissa sanctioned in 1917 a proposal to create village school committees in selected localities and to utilise their agency in providing cheap houses for primary schools at an average cost of Rs. 100 to Rs. 150, the district boards paying to the committees for each house an initial building grant of Rs. 50 and a recurring grant of Rs. 10 for annual repairs.

(*c*) The progress of the experiment will be watched by this Government."

Resolution (together with its reply) referred to in the answer by the HON'BLE MR. O'MALLEY *to question No. 25 (Unstarred) asked by the* HON'BLE BABU BHABENDRA CHANDRA RAY *at the Council meeting of the 27th March, 1919.*

Council Resolution regarding encouragement of open-air schools in Bihar and Orissa.

Resolution moved by the HON'BLE BABU GOPABANDHU DAS *at the meeting of the Bihar and Orissa Legislative Council held on the 22nd January, 1919.*

This Council recommends to the Lieutenant-Governor in Council that in the primary and secondary schools of this Province open-air conditions of living and teaching be, as far as practicable, encouraged, and that costly buildings of a type plan as a condition for the recognition of the school be dispensed with where the institution can be run on open-air lines with advantage.

Questions and Answers.

Reply given by the Hon'ble Mr. LeMesurier

"Your Honour,

"The Hon'ble Member has the full sympathy of Government in his wish to extend, to suitable localities, the system which he has himself adopted and works so successfully at the Satyabadi school. As he acknowledges, his wishes have been anticipated; for, more than three years ago, the Director of Public Instruction addressed all Chairmen of District Boards and Committees of Public Instruction with reference to a tentative scheme of an open-air primary school, and Government attach due importance to the approval which Satyabadi system secured from Dr. Lankester during his inquiry into the prevalence of tuberculosis in certain parts of India and they desired to see the scheme tried wherever conditions were favourable. I cannot, however, admit what appears to be the Hon'ble Member's opinion that all type plan buildings are necessarily expensive or are invariably imposed on the promoters of private schools. On the contrary the Primary Education Committee gave much time and attention to reduce the necessity of school buildings to the very simplest and most inexpensive fundamentals and from time to time the attention of District Boards and other bodies has been drawn to the necessity of keeping down expenditure within the limits of what is strictly necessary.

2. The Hon'ble Member knows by his own experience that at certain seasons and under certain conditions it is impossible to conduct the classes out of doors, and there must therefore be some provision for adequate shelter from wet and stormy weather. It is also necessary that the grounds in which the school should be held shall be so arranged even when the weather is suitable that the different classes shall not interfere with one another, *i.e.*, must not be so close to one another that the noise of one interferes with the other. In fact it would be better that each class should be out of sight of the other.

3. Government fully recognize the great hygienic advantage of an open-air school, and the Director and myself will make it a point during the visits which, as already announced in Council, we are paying to divisional head-quarters with a view to discussing schemes of educational progress with the Chairmen of District Boards, to bring to their notice the advantages of the open-air system wherever local conditions make it practicable to try it."

(*v*) for what reasons in each particular case?

Questions and Answers.

(*e*) (*i*) How many of such persons whose allowances have been discontinued since or after "home-internment" have any independent means of livelihood and are not dependent on others for their patronage?

(*ii*) how may are capable of earning their living and are actually earning it?

(*iii*) how do the rest maintain themselves?

(*h*) What pursuits are being followed by those who were students before they were interned, and are now interned at home?

(*i*) What is the total number of students of this class, and how many of them have been granted permission to resume their studies, and under what conditions?

(*j*) Are the Government considering how the rest should keep themselves engaged, or how they are likely to maintain themselves in future?

Answer by the Hon'ble Mr. Kerr:—

"(*a*) 143.

(*b*) (*i*) 75.

(*b*) (*ii*) At rates varying from Rs. 5 to Rs. 90.

(*c*) (*i*) Yes.

(*c*) (*ii*) Allowances to persons detained in home domicile are only granted when the District Magistrate recommends this as necessary. In making their recommendations District Magistrates enquire into the facts of each case. The consideration of the circumstances, occupation, etc., is necessarily left to them as they are in the best position to judge.

Government are not prepared to collect from districts extensive statistics relating to a transitory period which would be out of date in many cases by the time the information was obtained and the value of which would not be commensurate with the labour involved: 36 of those at present in home domicile are already under orders of release as soon as suitable sureties for their future conduct are forthcoming.

(*d*) (*i*) Yes, in most cases.

(*e*) (*i*), (*ii*) and (*iii*) The Hon'ble Member is referred to the reply to (*c*) (*ii*).

(*f*) (*i*), (*ii*) and (*iii*) The Hon'ble Member is referred to the reply to (*c*) (*ii*).

(*g*) This depends on the circumstances of each case.

(*h*) The Hon'ble Member is referred to the reply to (*c*) (*ii*).

(*i*) Out of the 68 persons who are in home domicile and who receive no allowance 50 belonged to the student class before arrest. No *détenu* has been granted permission, while the orders against him are in force, to join an educational institution. There is no objection to a *détenu* continuing his studies privately.

(*j*) Detention in home domicile is probationary in character, and as soon as Government is satisfied that a *détenu* means to reform and adopt an honest means of livelihood steps are taken towards his release."

Questions and Answers; Budget.

By the Hon'ble Babu Bhabendra Chandra Ray:—

27.

(*a*) Is it a fact that one Satyendra Mohan Sen, B.A., a medical practitioner, who has been under orders of internment for some time, has recently been given a home domicile?

(*b*) What was the amount of the allowance granted to him during the period of his internment away from home?

(*c*) Is it a fact that his allowance has been discontinued since he has been domiciled at home? If so, why?

(*d*) Is it also a fact that he made an application for the continuance of his allowance, or in the alternative, for permission to practise as a physician at his native town, or, failing both, to be sent back to his former place of internment where he was in receipt of an allowance?

(*e*) Is it the case that none of these requests have been granted?

(*f*) Will the Government be pleased to lay on the table a copy of the aforesaid application, if any, together with a copy of the reply thereto?

Answer by the Hon'ble Mr. Kerr:—

"(*a*) Satyendra Mohan Sen was transferred to home domicile on the 19th December 1918.

(*b*) An allowance of Rs. 40 was granted to him at his previous place of internment.

(*c*) The allowance was discontinued on the man's transfer to home domicile as no recommendation was received from the District Magistrate for the grant of it. It will be seen from the reply to point (*e*) below that the matter is now before the District Magistrate and final orders will be passed on receipt of his report.

(*d*) An application for the continuance of his allowance or for release in order to earn his own livelihood was received by Government on the 10th February 1919. He did not ask for permission to practise as a physician while in home domicile.

(*e*) He was informed that allowances for *détenus* in home domicile were not granted except on the recommendation of the District Magistrate.

The District Magistrate, Dacca, has reported that a petition was presented to him by a pleader on the 19th March, and it is at present under the District Magistrate's consideration.

(*f*) A copy of the petition addressed to the Additional Secretary and of the reply are placed on the library table."

BENGAL BUDGET FOR 1919-20.

The Hon'ble Sir Henry Wheeler presented the Budget of the Government of Bengal for 1919-20.

He said :—

"My Lord, I beg to present the Budget of the Government of Bengal for the year 1919-20. A copy of the accompanying memorandum is in the hands of Hon'ble Members, and it explains the present position. As a matter of fact, there has been no change in the figures, as the transfer of

the small sum of Rs. 40,000 which was approved by the Council at its last meeting will be made by an executive order for reappropriation as soon as the financial year begins. As far as we can ascertain, that change has not been incorporated in the Budget figures as approved by the Government of India, who, possibly, did not think it necessary to alter their figures in this minor respect. However, the net result will be the same whichever procedure is adopted."

THE BENGAL FOOD ADULTERATION BILL, 1919.

The Hon'ble Sir Bijay Chand Mahtab, Maharajadhiraja Bahadur of Burdwan, presented the Report of the Select Committee on the Bengal Food Adulteration Bill, 1919.

He said :—

"My Lord, in presenting the Report of the Select Committee on the Food Adulteration Bill I beg to make a few observations.

The Bill has been changed in certain details and the modifications made in the Bill are explained in the Report of the Select Committee and I need only refer to the more important changes. One of the most important is the addition of wheat flour to the articles specifically provided for in clause 6. It was pointed out by some of the public bodies consulted that flour is largely adulterated with soapstone and *chaoline*, and should therefore be added to the list of articles mentioned in that clause; and it was felt by the Select Committee that flour being an article of common consumption, it was necessary to provide against this practice. There are also two new provisions regarding *ghee*. The British-Indian Association, the North Bengal Zamindars' Association, and the Bengal National Chamber of Commerce were unanimous in suggesting that pure *ghee* in Bengal being manufactured only from the milk of cows and buffaloes, it was desirable that it should be clearly laid down that *ghee* should not contain any substance which is not derived exclusively from the milk of these animals. At the same time, an exception has been made in the case of curds, as unfortunately unscrupulous vendors use curds for adulteration, and it has been thought necessary to guard against such a dishonest practice. Weighty objections were also made in the opinions expressed on the Bill to the provisions of clause 5(*1*) (*c*) and (*d*) and clause 6(*3*), protecting vendors who can produce warranties or show that the food they sell is in the same state in which it was purchased by them. It has been pointed out that manufacturers often live outside the jurisdiction of the Bengal Government; and that apart from this, Calcutta being excluded from the operation of this Bill, there is nothing to prevent an unprincipled manufacturer in Calcutta from supplying vendors in the mufassal with the necessary warranty to ensure the uninterrupted sale of his adulterated article. It is represented that an open door would be left to dishonest vendors for setting up the defence that they sold their articles in the same state in which they purchased them although they themselves might have adulterated them. The British-Indian Association point out that 'emboldened by the knowledge that the law is powerless to touch them, unscrupulous manufacturers would fraudulently furnish the requisite warranty without any hesitation or fear, in order to push the sale of the articles manufactured by them.' The Marwari Association say that if the possession of a warranty guarantees impunity, it may be reasonably apprehended that in view of the large profits that can be easily gained by adulteration, 'many vendors, both in Calcutta

Maharajadhiraja Bahadur of Burdwan.

and in the interior, will knowingly import adulterated articles from other provinces where, the law being inoperative, it will be easy to get warranties from the manufacturers. Similarly, if the sale of articles in the state in which they were purchased is made no offence, unscrupulous vendors will be able to sell adulterated articles easily under a declaration, and adulteration will go on as ever. As the evil of adulterating articles of food has assumed dangerous proportions, this Association are unhesitatingly of opinion that, in the interests of the general public, the principle laid down in the Statement of Objects and Reasons that 'a person who sells food must take responsibility that the food is not adulterated—should be rigorously enforced in cases of both the manufacturers and the vendors, and the latter should not be allowed to go scot-free merely on the production of a warranty'. For these reasons we have, after due consideration on the Select Committee, thought fit to delete the provisions regarding warranties in clauses 5(*1*) (*c*) and (*d*) and clause 6 (*3*) of the Bill.

In clauses 5 and 6, a few words have been added to make it clear that the employer is liable for the sale of adulterated food as well as the actual salesman. Rai Mahendra Chandra Mitra Bahadur in recording his opinion on the Bill pointed out that it was desirable to add a provision that a person is liable for the acts of his servants even though they are unauthorized and against his express orders; and we think that the addition made in this clause will meet his point.

To turn to Chapter I of the Bill, it is now provided in clause 1 that the Act shall not be extended unless after previous publication; in view of the representation made by the Calcutta Trades' Association that in case of the operation of the Bill being extended to different articles of food, sufficient notice should be given to importers so as to enable them to dispose of their existing stocks and to give timely notice to home manufacturers and exporters in regard to future supplies. Some changes have also been made in recognition of the position of local authorities. In the Bill as introduced, a local authority outside a municipality or cantonment was to be the district magistrate or subdivisional magistrate. It is now provided that in rural areas the local authority shall be such authority or officer as the local Government may appoint, so that the district boards may come within the scope of the definition, while in a district, such as Darjeeling, where there is no District Board, the Deputy Commissioner would naturally constitute the local authority. Clause 3 has again been changed so as to provide for the appointment of public analysts by local bodies, when empowered to do so by the local Government. This is necessary, because, although Government must at first arrange for analytical work, this duty will have to be delegated sooner or later to local authorities who will have to appoint public analysts and establish laboratories for the purpose. It is now also provided in clause 19 that fines under the Act when imposed in an area under a district board shall be credited to the district fund.

Another change of considerable importance has been made in clause 21 which in the Bill as introduced allowed only of fines being imposed as penalties for offences under the Act. It was represented in various quarters that fines would be no deterrent. The Indian Association, for instance, remarked 'that punishment of fine alone would not be sufficiently deterrent to unscrupulous men who make huge profits by adulteration of food-stuffs.' They, therefore, suggested that the alternative of imprisonment should be provided for the second or at least the third offence. The North Bengal Zamindars' Association again pointed out 'that the year before last the Marwari Panchayat of Calcutta imposed fines of from Rs. 25,000 to Rs. 1,00,000 on some of the big *ghee* dealers of Calcutta without their feeling them'. Mere fines, they said, 'will not be deterrent punishment in the case of the big merchants who may have amassed fabulous wealth by their nefarious

The Bengal Primary Education Bill.

trade.' It is, therefore, now provided that a sentence of imprisonment not exceeding three months may be imposed for a second or subsequent offence as an alternative or in addition to fines.

There are also some formal changes due chiefly to adopting definitions given in the English Sale of Food and Drugs Acts of 1875 and 1899, while the title of the Bill has been changed to the Bengal Food Adulteration Bill as having the advantage of brevity and clearness.

I am glad, Sir, to be able to present an unanimous report on this rather important Bill."

LIST OF BUSINESS—ITEM No. 4.

THE BENGAL PRIMARY EDUCATION BILL, 1919.

The Hon'ble Babu Surendra Nath Ray moved that the Bengal Primary Education Bill, 1919, as amended by the Council on the 18th and 19th February, 1919, be taken into consideration.

LIST OF BUSINESS—ITEMS Nos. 5. & 6.

The Hon'ble Babu Ambika Charan Mazumdar moved—

(1) that after the words "Education Department" in line 6 of sub-clause (*1*) of clause 2 the words "or the Education Board, if any," be inserted, and

(2) that after sub-clause (*2*) of clause 2 the following be inserted, namely :—

"(*2a*) 'Education Board' means a Board composed of not less than five members, with a non-official majority, appointed by the Government to exercise the powers and discharge the functions prescribed by rules made under this Act."

He said :—

"My Lord, I feel it my duty to thank your Excellency for the opportunity which has been given to us for a further discussion of this important measure. I think I may be permitted to say that whatever others may think I do not believe that I am either an obstructionist or an enemy of progress. I only wish that the country could have made half the speed in making progress that I wish it to make. I yield to no one in my earnest desire to see this Bill successfully passed and put into active operation for the promotion and extension of primary education. The only thing is that I am unable to surrender my judgment hood-winked.

My Lord, I would ask your Excellency's permission to put the first two amendments—rather to argue the first two amendments, that is, items 5 and 6 together. Your Excellency may put these amendments in any way you like, but I think it would be convenient both for me as well as for this Council to follow the trend of my argument if I were to put them together.

My Lord, it is now several years past that a cry has been raised in the country that there should be an Education Board. People are not wanting who

The Bengal Primary Education Bill.

Babu S. N. Ray.

say that the Education Department is an Archaic Institution. Call it Archaic, call it classical, call it by any name you like, there can be, however, no denying of the fact that the Education Department is one of the heaviest as well as most important departments of the State. My Lord, in a province consisting of 44 colleges, over 2,700 secondary schools including more than 500 high English schools and over 50,000 primary schools—I say in a province like that—the work of the Education Department cannot be a very light task. Add to that the difficulties of the department which must necessarily arise when this measure is put into operation, and the Council will at once see how very onerous the task of the Education Department must be. However capable, however devoted, however Herculean the Director of Public Instruction may be, I do think that it is beyond the power of a single administrator to control and efficiently manage a department like the Education Department. I think it is high time that we should come to the rescue of the Director. It is improper and unfair to expect of him what it is not in human power to do, and I think we ought ungrudgingly to help him by establishing an Education Board. No doubt the Director will be the head of the Board, but it would be some relief and active help to him to have an Advisory Board to help him in the direction of Education, particularly as far as the primary education is concerned. I would, therefore, humbly propose that measures should be taken, and advantage should be taken of this important measure, to inaugurate a much-needed reform for which the people have urged for a long time, namely, to establish an Education Board.

I have, my Lord, not deliberately fixed the maximum number of members: various interests may have to be considered, various communal questions may arise and, therefore, I have studiously avoided fixing the maximum number, leaving it entirely to the discretion of Government as circumstances permit them to do. I have only said that the Board should consist of not less than five members which I believe ought to be the minimum. But, my Lord, as there is no constituency by which we can have the members of the Education Board elected, it must go without saying that the Education Board must at the present moment be appointed by Government, but with this reservation—that as there can be no election the non-officials should have a majority on this Board and their duties and functions, I think, may well be left to the rules which will be prescribed under this Act.

The other amendment, namely, item No. 5, is a consequential provision; if item No. 6 is carried item No. 5 will necessarily follow, and I hope the Council will consider that it is high time that we should provide this machinery, this useful machinery, for the promotion of education, particularly primary education, in this country. Some other provinces have already given their attention to this very matter, and I do not think that Bengal will lag behind. With these observations I beg to commend my amendments to the consideration of the Council."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I shall deal with these two amendments separately. With reference to the first amendment, namely, the insertion of the words 'or the Education Board, if any,' after the words 'Education Department'; if there is anybody in this Council who ought to favour this amendment it is myself. Your Lordship probably knows that on the 4th September, 1917, I moved a resolution in this Council for the appointment of an Education Board for advising Government in respect of secondary and primary education of the

The Bengal Primary Education Bill.

Babu S. N. Ray.

province. That resolution was unfortunately opposed by most of the Muhammanan members of this Council, but it appears that the Muhammadan members of this Council were labouring under a misapprehension. One of them said: 'I should also tell my Muhammadan friends that the day is probably not very far off when free and compulsory primary education will have to be introduced in this country. If and when that day comes sectarian tendencies and sectarian interests will disappear and the common aspirations and common endeavour of the people will lead the two communities to grow up side by side and build up institutions worthy of a great people.' I quote this from the speech of my hon'ble friend Mr. Aminur Rahaman. He also said: 'In Bengal, I do not know of other provinces—the Muhammadans, on account of their backward condition have been receiving special treatment at the hands of the Government. Rightly or wrongly they insist on that.' It then appears that my Muhammadan friends thought that the special treatment which they had been receiving so long would disappear if there be an Education Board in this province: but now that we are going to have compulsory education, and I may also say free education as regards the poorer classes of the population who cannot afford to pay for education, the time is come when an Education Board ought to be established, and with reference to this amendment I am glad to see that the proposal has come from no less a body than the Calcutta Corporation. The Calcutta Corporation has given the following opinion:—

That the Corporation approve the principle of the 'Bengal Primary Education Bill, 1917'.

That with this object in view, it should be provided that, within one year from the passing of the Act, it shall be incumbent upon the Commissioners of every Municipality to submit to the Board of Education detailed statements, etc.

Then, there is, of course, the constitution of the Education Board suggested by them, but I shall deal with that point later on. So, it appears, that those who have thought over the matter have come to the conclusion that there ought to be an Education Board in the province to deal with the numerous questions which may arise with reference to the primary education of the province. It is however said that when I moved my resolution we never thought that the Reforms Scheme was coming, and the division of subjects into transferred and reserved subjects and the appointment of a minister were not even dreamt of then. Now that we are going to have a division of subjects, and primary education will also be one of the transferred subjects and will be in the hands of the minister, there ought not to be an Education Board. This has been suggested by some of my friends and it is also suggested that there will be Standing Committees to assist all the departments of the State, and these Standing Committees will perform the functions of the Board which has been suggested by my hon'ble friend, Babu Ambika Charan Mazumdar. These are no doubt subjects which should be taken into consideration in considering the question of the appointment of an Education Board. So, I leave this matter entirely to Government to deal with—whether it will be practicable or not now to constitute an Education Board, if not for anything else, at least to assist the Director of Public Instruction in his multifarious duties.

Then, as regards the constitution of the Education Board, there is a great difference of opinion. The Hon'ble Babu Ambika Chandra Mazumdar

The Bengal Primary Education Bill.

Mr. O'Malley.

has suggested that the minimum number ought to be 5, while the suggestion of the Calcutta Corporation is this—

'That within 3 months after the passing of this Act, a Provincial Board of Education be constituted as follows :—

(*a*) One member elected from each of the five Divisions of Bengal	5
(*b*) One member appointed by the University of Calcutta	1
(*c*) One member appointed by the Corporation of Calcutta	1
(*d*) Three members appointed by the Local Government ...	3'

This gives a total number of 10. Of course, my hon'ble friend, Babu Ambika Charan Mazumdar, has only suggested that the minimum number should be 5. As there is a good deal of difference of opinion with reference to this question, I would leave the matter entirely in the hands of Government."

The Hon'ble Mr. O'Malley said :—

"My Lord, I submit that the proposal to create a Board of Education goes a good deal beyond the scope of the Bill, the object of which is to enable the municipalities to provide for the promotion and expansion of primary education. It comes to this—that a change of large administrative importance is mooted in the form of an amendment to the Bill, and that, at the eleventh hour. But the constitution and functions of such a body require much more careful thought and consideration than can be given in a somewhat brief discussion of an amendment to a Bill. The idea is not new; but it has never been fully debated so far as I am aware in this Council. The Hon'ble Babu Surendra Nath Ray introduced a motion on the subject, proposing, I think, that a Board of Education should be created with advisory powers only; but that motion was withdrawn, and Government have not even a recommendation to the Council in its favour on the subject. I also take this point that the constitution and functions proposed for a Board of Education under the various amendments of the hon'ble mover are wanting in precision and definiteness. It is not stated, for instance, how long the members of the Board are to hold office—whether for life or a term of years—who shall be the President, whether different interests are to be represented, and so on. I submit, Sir, the constitution of a Board of Education with important functions to discharge should be much more definitely stated.

Apart from its constitution, the powers and duties of the Board are not clearly defined in the amendments. Under the amendment numbered 6 on the Agenda paper the Board is to exercise the powers and discharge the functions prescribed by rules under the Act, but the rules are at present an entirely unknown quantity. In introducing the motion the hon'ble member said that his object was to afford relief to the Education Department which will be overburdened by the onerous duties imposed by the Bill, and then he proceeded to say that what he had in mind was an Advisory Board—not a Board with executive powers, but an Advisory Board. This, however, does not agree with the other amendments, which fill in the frame-work a little. According to the amendment numbered 5 the Board is to have power to make rules and orders. That does not quite agree with the idea of an Advisory Board. On the other hand, if a Board of Education was established, having power of control over primary education, the Education Department would merely carry out its instructions. The rules and orders would be those of the Board and this amendment would, therefore, be superfluous. The same argument applies to the amendment numbered 8 under which the Education Board would have power to recognize schools. Here again, if the Education Board

The Bengal Primary Education Bill.

Babu A. C. Mazumdar.

was to have power of control, the Education Department would be subject to it. If, on the other hand, it is merely an Advisory Board, I do not see how it could have power to recognize schools. Turning again to amendment numbered 30 on the Agenda paper, which also stands in the name of the hon'ble mover, that amendment contemplates inspecting officers being entertained by the Board of Education, as if it were to be quite separate from the Education Department. There are these objections to the various amendments put forward. If the Board of Education is to be merely advisory, the Board will not have the power of making rules and orders, recognizing schools or appointing inspecting officers. Apart from this, there is the consideration pointed out by the hon'ble member in charge of the Bill that it certainly is a matter for consideration whether a body should be created by a statute at this stage, without any idea so far as we can see of co-ordinating it with the Minister and Standing Committees proposed by the Secretary of State and the Viceroy. It seems as if that the hon'ble mover either wishes to anticipate the Reform Scheme or that he has not perhaps fully considered what would be the relation of the Board to the Minister and the Standing Committees. I would invite his attention to clause 3 of the Bill under which a year or such other period as may be prescribed by Government is to be given for the survey of the educational needs and resources of different municipalities before action is taken under this Bill. It also provides in the alternative for another period to be prescribed, the idea of the Select Committee being that some municipalities might not be able to carry out the scheme within a year. In this connection, I may say that I was somewhat surprised by the fact that in the last debate on this Bill not a single member, if I remember aright, referred to the possibility—it may be even a probability, but of course we cannot forecast future events—that a Minister will be in charge of primary education and that if this is the case, he will be responsible for the administration of the Act. I am afraid, my Lord, that I cannot recommend the Council to accept these amendments."

The Hon'ble Babu Ambika Charan Mazumdar said :—

"My Lord, I cannot clearly understand what the real objection of the Hon'ble Mr. O'Malley is. He seems to think that I have sprung upon him a new idea at this late stage. Well, if the matter had been brought before the Council at its first hearing I should have been now out of court. It is no objection that the matter comes now for the first time in Council : in fact, the idea with which the adjournment of the discussion was applied was simply to make out a Bill as good as possible and then if there is nothing objectionable in the proposal to establish an Education Board, I do not think it suffers from the objection that it was not urged before. In the second place I beg to point out that this is only an enabling provision, that is to say, it does not demand that the Government must at once establish an Education Board, but it makes it possible for Government to establish an Education Board under whatever circumstances they think fit if it is found necessary to do so for the proper operation of this important measure. So I think there is no danger in arming ourselves with the power to create an effective body to control primary education. As regards the minimum number to which the hon'ble member in charge of the Bill has referred, I have gone on the line of the least possible resistance. I have already said that there are numerous interests whose case ought to be taken into consideration in connection with the Board. Therefore, I have fixed the minimum at 5. It may be that Government may have to fix it at 10 or 12, but that does not matter. The thing is, that if Government think that an Education Board would be an improvement, I think the amendment ought to be accepted. But, if Government think that it must go on in the old stereotyped fashion, subject to

The Bengal Primary Education Bill.

Babu A. C. Datta; Babu S. N. Ray; Mr. Wordsworth.

criticisms by the public, for which the skin of the Government seems to be too thick, they may stick to the old institution and allow the people to complain, to censure and to criticize. Well, it is entirely at the option of Government, but I do think it will be a real improvement; if you really mean that progress under this important measure must be effective, well, in that case I believe it will be only wise to take steps to arm ourselves with power to make that measure effective. I have nothing further to add."

The motion was then put and lost.

LIST OF BUSINESS—ITEM No. 7.

The Hon'ble Babu Akhil Chandra Datta moved that at the end of sub-clause (5) of clause 2, the following be inserted, namely:—

"after inviting and considering the views of the municipalities."

He said:—

"My Lord, in support of this motion I do not propose to make any lengthy observation. All that I want to submit, my Lord, is this—that as the municipalities will provide for the elementary education of boys and girls, it is only proper that their views ought to be invited and consulted before any plan is finally settled."

The Hon'ble Babu Surendra Nath Ray said:—

"My Lord, I am sorry that I cannot accept the amendment. This would make the curriculum of primary education dependent on the views of the municipalities which would be hardly desirable. But the Education Department should draw up the curriculum after consulting public opinion generally. In reply to a recent question in the Council Government have promised to publish a revised curriculum for primary schools for public opinion."

The Hon'ble Mr. Wordsworth said:—

"My Lord, on behalf of Government I endorse what has been said by the hon'ble member in charge of the Bill. The object of the hon'ble mover of the amendment is to secure that no system of primary education shall be drawn up and that no alteration in the existing system shall be made without consulting public opinion. That is quite reasonable and I trust that he will accept my assurance that this is done and will be done. Primary education in particular is necessarily a reflection of a wide public opinion as to the needs of the province, but the ultimate decision as to details of curricula and other arrangements must be retained in the hands of those who are able to equate demands and resources and who alone are able to say what the available teaching power can do. The system of primary education now in vogue in this province is being reconsidered and will shortly be published with proposals for modifications and amendment. I can assure the hon'ble member that we shall circulate our papers as widely as possible, not only among municipalities and District Boards, but also amongst all who may be able to assist us by opinion and criticism. But, for the reason stated by the hon'ble member in charge of the Bill, that primary education is a far wider thing than primary education in municipalities, I cannot recommend the Council to accept the amendment, which would pledge us by legislative enactment to consult municipalities alone of authorities interested in the welfare of primary education."

The Bengal Primary Education Bill.

Babu A. C. Datta; Babu K. M. Chaudhuri.

The Hon'ble Babu Akhil Chandra Datta said :—

"My Lord, I am rather surprised that this very modest amendment should be opposed by the hon'ble member in charge of the Bill. All that this amendment seeks is that the views of the municipalities should be invited. It does not ask that the views of the municipalities will in any way be binding upon the local Government, nothing of that sort. I thought that it was very innocuous and a small proposal. After all, this Bill relates to that portion of the primary education which will be provided by the municipalities. With the larger question of primary education to be imparted by the district boards, by Government and other bodies, this Bill has nothing to do. I am thankful to the Hon'ble Mr. Wordsworth for the kind assurance that the views of the public will be consulted. I do not quite see the objection in accepting the amendment, because, after all, my amendment does not go further than that."

The motion was then put and lost.

LIST OF BUSINESS—ITEM No. 8.

The following motion, which stood in the name of the **Hon'ble Babu Ambika Charan Mazumdar,** being covered by the debates on items Nos. 5 and 6, was held to be withdrawn :—

That after the words "Education Department" in line 4 of sub-clause (*6*) of clause 2 the words "or the Education Board, if any," be inserted.

LIST OF BUSINESS—ITEM No. 9.

The Hon'ble Babu Kishori Mohan Chaudhuri moved that Part II of the Bill be omitted.

He said :—

"My Lord, the amendment which I am going to submit for the consideration of this Council relates to the omission of Part II from the Bill. I may be permitted to submit that this amendment and other amendments regarding this Part II of which I have given notice have not been brought forward with any desire on my part to be an obstructionist to the smooth working of the Bill which has been introduced for the spread of primary education first within municipal areas. In this Part two things are aimed at—*firstly*, collection of some information regarding the state of primary education within municipal areas; and, *secondly*, making over the charge of primary education to the Municipal Commissioners, not only for boys for whom compulsion is proposed to be introduced, but also for boys and girls who are likely to attend primary schools voluntarily. There is this difference—that in one case the girls and boys up to the age of 11 are to be thought of, but compulsion is limited to boys only up to the age of 10. Whatever may be the state of things in the Calcutta Corporation, I am rather anxious for the welfare of mufassal municipalities. So far as I know, it will be very difficult for the mufassal municipalities to take advantage of the provisions of this Bill if it be necessary for them at first to provide for the education of all persons likely to attend the primary schools voluntarily—I mean, not only for boys for whom compulsion is to be introduced, but also for girls and boys up to the age of 11. For this purpose, it is also provided that, if necessary, any sum that will be required for the purpose should be raised by taxation. So far as I can see, the primary object of this Bill is confined to the development of primary

education. If that is so, the duty which will be imposed upon the municipalities and upon Government under this Bill will be of doing the necessary things for the education of boys and girls who are likely to attend voluntarily. The apprehension is that if this is to be done, the Bill when passed into law will probably be a dead-letter. Whatever information is necessary for the consideration of Government whenever any proposal comes for introducing the principle of compulsion that can be done under the provisions of clause 6. So if the voluntary portion, which it is not the primary object of this Bill to take charge of, be left as it is, I do not see why this Part II should be retained in this Bill. It is in this view and on account of my apprehension that in mufassal municipalities, where the majority are very poor, any taxation will tell heavily upon the resources of the poorer sections of the community, that I have proposed that this Part may be omitted altogether, both as regards the collection of necessary information and as regards voluntary primary education for all; and the arrangement that if Government is satisfied that the municipality is in a position to take charge of the entire thing and is able to provide the necessary funds, if necessary by taxation, then only compulsion is to be introduced, may also be omitted altogether. The Bill may be confined to the compulsory education only. Whatever information may be collected under the provision in clause 6, the special charge, as contemplated in the Bill, only may be limited to the compulsory portion—I mean the education of boys of the age of 6 to 10 only—and no further charge need be taken by the municipality. Government should not—as is proposed—make over, as preliminary to the introduction of the principle of compulsion, the entire charge of the primary education to the municipality. With these few words I submit the proposal for the consideration of your Excellency's Council."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I have not been able to follow closely the arguments of my hon'ble friend; but I shall try to meet them as far as I can. The Bill was originally introduced as a permissive or adoptive measure by virtue of which a municipality could introduce compulsory primary education for all male children within its jurisdiction, subject, of course, to Government sanction. But, before a municipality could take recourse to compulsion, it would be required to make full provision for the primary education of all male children and Government would be quite competent to refuse sanction if they thought such provision to be inadequate.

The Bill as re-drafted introduces a stage before the introduction of compulsion during which expansion will have to be made in primary education by providing facilities for such education in the case of all male children who attend school voluntarily. This portion of the Bill has been inserted at the suggestion of the Corporation of Calcutta. The Select Committee having thought it proper to accept this provision, it would not be desirable to disregard them. I think these provisions in the Bill are worth a trial. For these reasons, I cannot accept the amendment."

The Hon'ble Mr. Arden Wood said:—

"My Lord, the object of the hon'ble member who has proposed this motion is to make the Bill under consideration what it was before it went to the Select Committee, that is, a Bill for the immediate introduction of compulsory education in Bengal.

I have listened carefully to the remarks made by the hon'ble member. I also paid attention to the remarks made by the Hon'ble Babu Ambika Charan Mazumdar in objecting to the passing of the Bill on the 18th February, and I have read them since, but I have not been able to find in them any

The Bengal Primary Education Bill.

arguments that justify the position they have taken up. The Hon'ble Babu Ambika Charan Mazumdar has a sentimental feeling for compulsory education, as being likely to be a benefit to his ignorant fellow-countrymen, which is entirely honourable to him, but which has made him, I think, in this matter, an unpractical legislator. He objects to an education cess if primary education is not to be free as well as compulsory. It seems to me, if I may say so, a curiously inconsistent position to take up, to object to an education cess on the ground of the poverty of municipalities, and yet to agree to it if education is to be compulsory, and at the same time free; when to abolish fees would be to sacrifice Rs. 17 lakhs. Those who are to be *compelled* to attend school are to be paid for out of public funds, but not one pie is to be given to help those whose zeal for education makes them attend school of their own accord, while attendance is still voluntary. The hon'ble member is also very suspicious of the powers proposed to be given to the Education Department, and he is dissatisfied with Government because they have not committed themselves to definite statements as to the contribution they will make towards the cost of extended primary education."

The Hon'ble Kumar Shib Shekhareswar Ray said :—

"Is the hon'ble member in order in referring to these matters?"

The President said :—

"I think the Hon'ble Mr. Arden Wood is in order. The amendment asks for the omission of Part II of the Bill which opens up the whole question of compulsory and voluntary education; as far as I can see the argument of the Hon'ble Member is quite in order."

The Hon'ble Mr. Arden Wood continuing said :—

"My Lord, I think that the Hon'ble Babu Ambika Charan Mazumdar's zeal for education might very appropriately have been associated with greater faith.

The Select Committee took the view that the immediate introduction of compulsory primary education was neither desirable nor possible: that, having in view the present provision of primary education, and its character, the transition to compulsory education must be by stages. Part II of the Bill, which the hon'ble member proposes to omit, will secure, first, that local authorities will be compelled to face the problem before them, and to realize what the provision of primary education means, financially and otherwise; and secondly, it will secure the provision of primary education for all children between six and eleven for whom it is voluntarily sought, if the Local Government consider the local authority able to provide it with such assistance as Government may be able to give. It is surely reasonable that before children are *compelled* to attend school, those who are to have the power of compelling them should be themselves required to make an adequate provision of schools and teachers for those who are willing to attend school without compulsion. In thus transforming the Bill, as has been said by way of a grievance, 'almost beyond recognition,' the Select Committee was amply justified by the most authoritative and weighty of the opinions on the Bill circulated to Members of Council. We were told in those opinions that only a third of the total number of boys between the ages of six and ten in Bengal were receiving elementary instruction; that while in municipalities there was over-abundance of schools, leading to competition and inefficiency, in rural areas there was a deficiency of schools; that primary schools were miserably housed, nominally equipped, and inefficiently and insufficiently staffed; that the number of elementary schools was so small in proportion to population

The Bengal Primary Education Bill.

Mr. Arden Wood.

that compulsion would be a farce; that education should not be made compulsory in any area (municipal or non-municipal) until Government were satisfied that elementary schools had actually been established in sufficient numbers; that there were not nearly enough schools in existence at present to admit of a jump being made to wholesale compulsory education; and that any attempt to introduce compulsion without preparing the ground would only result in the perpetuation of the present defective system; and we were also told, this time by the Calcutta University, that the compulsory provision of suitable schools by local bodies has always preceded compulsory attendance at schools. These opinions undoubtedly justified the Select Committee in considering that if they left the Bill as it was orginally presented to Council it would be an empty Bill. The Hon'ble the Director of Public Instruction in his opinion on the Bill remarked that the ignorance of the masses is being steadily broken down by the accumulating influence of thousands of *inefficient schools.* It is satisfactory to find that he sees ground for hope even in this state of things, but he would admit, I think, that what he describes is, after all, only guerilla warfare against ignorance—irregular and unscientific. If the Bill before the Council is to be useful it must help to substitute scientific warfare for unscientific warfare; there must be an organized as well as a general advance. I think it is certain that the Bill as it was would have rather tended to produce educational anarchy. The Select Committee have tried, by inserting Part II of the Bill, to make organized progress possible. They have introduced the necessary intermediate stage that was wanting in the original Bill, the stage in which effort must be concentrated on providing sufficient schools of a new type for those children who will attend school voluntarily. It is the stage in which a really effective educational machinery has to be built up, which can be multiplied and extended as required. It is the stage in which a body of teachers who know what their work is, and can do it, will have to be brought into existence.

Again, it is certain that the immediate introduction of compulsory education would be impossible for financial reasons. An estimate has been made of the cost of introducing compulsory education in Calcutta. The cost, on the same scale of expenditure, of introducing it in the municipality of which the hon'ble member in charge of the Bill is the Chairman, would be some Rs. 37,000 per annum, about the present total income of the municipality. Even taking the more moderate scale of expenditure, which is certainly well under the mark, which has been adopted in several of the estimates given in the printed opinions, the South Suburban Municipality would have to spend some Rs. 11,700 per annum upon primary education as against its present expenditure of Rs. 900. In another municipality the cost of compulsory education calculated on the same scale would mean that, even if Government met half the cost, the rates would have to be increased by 33 per cent. It is obvious that the many municipalities that expressed themselves enthusiastically in favour of compulsory education did not in the least realize what the provisions of the Bill amounted to. For financial reasons only, the Bill, as originally drafted, was bound to be a dead-letter if passed into law.

The retention of Part II of the Bill is of great importance for another reason. I said, in speaking on the Bill on a previous occasion, that it was by no means yet certain what is the best form of elementary education. We are, I hope, feeling our way towards it, and it would, therefore, be a fatal mistake if we introduced compulsory primary education in Bengal now, for, in doing so, we should almost inevitably stereotype the existing form of primary education, which is, in its essence, literary, and which has the great disadvantage, remarked upon by so many of those who contributed opinions on the Bill, of tending to turn boys away from their ancestral occupations.

The Bengal Primary Education Bill.

Babu A. C. Datta.

Education has to play a great part in making possible an improvement in the material condition of the masses of the people, who are, and will remain, cultivators and artizans. I feel sure that, with this end in view, elementary education must, in future, be mainly based upon work done in the school garden, and in the manual training room and drawing class, rather than on the work done in the ordinary class room where only the three 'R's' are mechanically taught by untrained and ill-educated teachers. The whole bias of elementary education has to be changed.

The retention of Part II of the Bill will mean, I hope, a gradual and steady advance towards the desired goal of compulsory education, and will make it eventually possible for education to be compulsory for all boys between the ages of 6 and 10. But does anybody suppose that if compulsory education is in any sense a success it is going to stop at the age of ten? A boy of ten is about half-way through his education, as elementary education is tending to be in other countries. And with a more liberal view of what elementary education should be, and the super addition to it of vocational education, we may be quite sure that the future Minister of Education will have to face and provide for a vastly increased expenditure upon it. For this reason again it is desirable that we should act with deliberation in this business, making it our aim to secure efficiency, and not merely a showy rapidity of educational advance.

I should like to ask the Hon'ble member who has proposed the omission of Part II of the Bill in whose interests he is proposing it. Does he think he is proposing it in the interests of those whom this Bill seeks to benefit: the children we desire to help? If he does, I do not agree with him. I think he is fighting against them instead of for them, and I think that with clearer vision he would come to hold the same opinion."

The Hon'ble Babu Akhil Chandra Datta said:—

"My Lord, the introduction of compulsory education was the object of the Bill as originally presented to the Council. But the Select Committee have materially modified not only the *form* but also the *intention* of the Bill by the introduction of provisions relating to voluntary primary education. Part II may be described as an interpolation made against the spirit of the original Bill. It is based on the assumption that there are few municipalities in Bengal which are now in a position to contemplate the introduction of compulsion. Compulsion was the essence of the reform which the Bill was intended to introduce. The principle of compulsion has no doubt been recognized in the Bill, but it is a half-hearted recognition lacking in anything like enthusiasm and spontaneity. The Select Committee have emphasized the supreme importance and efficacy of the voluntary system and set up the compulsory system as an ideal more or less remote. Compulsion in the first instance has not only been discountenanced but practically prohibited. The whole Bill may be described as a code of instructions issued to the municipalities as to their duties in the matter of mass education within the municipal areas. Now, the first and foremost instruction given in Parts II and III is to give a further trial to the voluntary system. The original Bill wanted compulsion, but Part II cries 'halt' to the municipalities and says to them: 'Don't think of compulsion at present. Concentrate your energies and resources upon the voluntary system. You must first carry out the orders of the Education Department regarding building, furniture and staff of the primary schools under the existing system. When you have done all that then and not till then are you to contemplate the adoption of compulsion'. The merits and demerits of the

The Bengal Primary Education Bill.

Babu A. C. Datta.

compulsory and voluntary systems of primary education—that is an old controversy and both the Government and the people have said their last word upon that controversy. It is now about ten years ago that Mr. Gokhale introduced his Primary Education Bill in the Imperial Council, and while opposing the Bill the Government suggested that Bills might and should be introduced in local Councils for the introduction of compulsion. Accordingly Bills have been introduced in the different provinces and the system of compulsion adapted. The matter is so absolutely uncontroversial that we find that in the Punjab the initiative has been taken by the Government itself and a Government Bill has been introduced in the Legislative Council for that province. My Lord, it is only here in Bengal, the most advanced province in the whole of the Indian continent, that the old controversy as to voluntary and compulsory systems has been revived. We thought it was too late in the day to raise this controversy, we thought the principle of compulsion had been adapted once and for all and that all that was necessary was to give a practical shape to it and to put it on a practical basis. But ours is a land of surprises and Part II is a great surprise sprung upon the country.

The whole question, my Lord, is how to attract those boys to schools who now keep away. What is the reason for the failure of the guardians to send their children to school? The reason is two-fold which the guardians sustain if they have to send their children to the schools rather than to the fields and factories? They feel that they can ill-afford to forego the little earnings of the children and their disinclination is intensified when they find that over and above this negative loss they will have to incur positive loss in the shape of fees and other expenses.

The question, therefore, arises how to overcome this disinclination? Now, the positive loss can only be met by making elementary instruction free. But free education is not necessary when children attend school voluntarily. It is necessary only when boys are compelled to come to school. So it is absolutely meaningless to speak of the positive loss as a retarding cause, as long as the voluntary system continues. There remains, therefore, only one reason which we have got to consider, namely, the disinclination of people to send children to school because they are eager to obtain what advantage they can from their children's earnings. Now, the question is, what is the real remedy to get over this difficulty. There can be only one answer to this question, and that is compulsion. If we think it is hard to poor people to deprive them of what relief the small earnings of their children bring them, then the matter ends there and we should not think or speak of universal mass education. If, on the other hand, we care at all to carry elementary education at least to that fraction of His Gracious Majesty's subjects who live in towns and municipalities in this country, then the only solution is the introduction of compulsion. Some people think that it is not the people's poverty but their indifference to the moral and intellectual welfare of their children which is the real explanation for their failure to send them to school. But I should think this indifference is mostly due to nothing but poverty. In any case this indifference cannot be got over except by compulsion. What is the remedy provided by Part II of the Bill before us? It proposes to empower the local Government to insist upon the municipalities to provide the necessary school accommodation, staff and equipments for all children between 6 and 11 years of age likely to attend primary schools voluntarily and to assume direct management and control of all such schools and gives power to them to levy taxation if the municipal funds are insufficient. But it is very difficult to understand how these provisions for voluntary education will solve the problem of educating those children who will not attend school voluntarily and whose parents will not send them to school voluntarily? For, we must not lose sight of the real problem we have got to

The Bengal Primary Education Bill.

Babu A. C. Datta.

tackle, namely, how to overcome the disinclination of those people who do not send their children to school. You may impose an education cess and augment the resources of the municipalities, but what will be achieved thereby? With increased funds the municipalities may set up more schools and better schools. But the system being voluntary, how will this ensure the attendance of the wards of unwilling guardians? Is there any reason to think that poor and ignorant people do not send their children to school because the houses are not comfortable or the teachers are not brilliant? Mr. Richey thinks that inefficiency of schools is one of the main retarding causes. But I speak with knowledge when I say that there is absolutely no justification for such a conclusion. Then, it is said in certain quarters, multiply schools and children will attend in large numbers. There is certainly wisdom in this advice, but the remedy will not go far enough in overcoming the disinclination of those unwilling guardians whose wards do not go to school, not because there are no schools to go to, but because the boys are expected to help them at times of sowing, weeding and reaping, to tend cattle, do jobs about the house or add to the family earnings in various ways. Various devices have been adapted in various provinces to enable the son of the agriculturist and the labourer to help in the fields and yet continue his education, but none has been particularly successful. It is said that the whole problem is fraught with difficulties and doubts. Compulsion may be a drastic remedy, but it is the only effectual one. My contention is that mere multiplication of schools will not take us appreciably nearer the goal. This is not a matter of speculation, but my contention is supported by facts and figures. In the Punjab the number of new schools opened in the quinquennium 1912-17 was six times that of those opened in the preceding period; but the increase of pupils was only double that of the preceding period. I cannot in this connection emphasize too much the difference between rural and municipal areas. In the rural areas the opening of new schools will certainly lead to an instantaneous and remarkable increase of pupils. But things are quite different in towns and municipalities where the lower classes of high English schools and middle English and middle vernacular schools serve the purpose of primary schools. I should think there are not many municipalities with respect to which it can be said that it is want of schools which stand in the way of the expansion of primary education. Some years ago it was estimated that 3·2 *per cent.* of the ordinary income of our municipalities was sufficient for the elementary instruction of half the boys of school-going age who are likely to attend school voluntarily. I find that in 1916-17, 88 out 113 municipalities came up to this standard and that 42 municipalities spent more than 5 *per cent.* of their income on primary schools. So that, taking the province as a whole, the voluntary system may fairly be said to have yielded as much result as can be expected from it. I am, of course, speaking of municipalities. If, however, the system is capable of yielding further result, and if application of further funds will lead to extension of elementary education, even on a voluntary basis, that can be accomplished by insisting on the municipalities to loyally follow the very wholesome principle laid down by the Government of India in reviewing the recommendations of the Decentralization Commission that expenditure on secondary education should not be incurred by municipalities until the requirements of primary education are fully met. But the fact remains that the voluntary system of primary education has not solved the problem of mass education in any civilized country. It won't do to taunt at the Indians for their indifference to the intellectual welfare of their children. Even in England primary education could not make sufficient progress without compulsion in spite of her civilization and wealth. In 1870 Mr. Gladstone remarked: 'I think it is a scandal and a shame to the country (England) that in the midst of our advanced civilization and

The Bengal Primary Education Bill.

Rai R. C. Pal Bahadur.

enormous wealth we should at this time of day be obliged to entertain the principle of compulsion.'

It passes my comprehension, my Lord, why we in Bengal should have greater faith in the voluntary system than the people of other countries and other provinces. I have great pleasure, my Lord, in supporting the amendment of my friend Babu Kishori Mohan Chaudhuri."

The Hon'ble Rai Radha Charan Pal Bahadur said :—

"My Lord, I do not quite follow the proposal of the hon'ble mover. He wants to delete Part II of the Bill That part originally dealt with compulsion, but it has been recast mainly on the suggestion of the Corporation of Calcutta. What the Corporation suggested was this: the introduction of compulsory primary education should be obtained step by step. That is to say, it should be seen first whether there is an adequate provision for voluntary education and whether the municipalities concerned are in a position to provide accommodation for their pupils who are anxious to go forward voluntarily, and if that proves to be the case, then to go in for compulsory primary education. I think, my Lord, that all of us here have got the same object in view, and that is, the introduction and extension of primary education in Bengal. But, I think, that this should be gradually achieved. There are, however, certain defects in Part II. The Corporation, while recommending that a statement on the lines suggested in clause 3 (school accommodation, staff, etc.), should be submitted by the municipality, suggested that the statement should be prepared on the assumption that the local Government contributed towards voluntary primary education an amount not less than the amount raised or set apart by the municipality from its own resources for expenditure of primary education—and not less than double the amount raised or set apart by the municipality for compulsory primary education. The next suggestion of the Corporation was that the Board of Education, the formation of which they suggested after receipt of the statement and after considering the condition of each municipality, would be competent to issue an order to any municipality to provide the necessary school accommodation, staff, etc., and to undertake the complete maintenance and control of primary education on a voluntary basis, to be carried out by successive stages. Then, the Corporation touched upon the compulsory form of primary education. In this Bill, although the suggestion of the Corporation has been partially accepted, the principal suggestion as regards the provision to be made by Government has not been accepted. And I am afraid that if it is not accepted the Bill will be of no effect. Now, my Lord, after receipt of this statement and after determining the amount to be paid by Government the local Government may, after satisfying itself, direct the Commissioners to provide the necessary school accommodation. Now, suppose after such an order is passed on a municipality it is found that the receipts from the education cess are not available and the Government contribution is also not adequate—then what will happen? Of course, so long as your Excellency is at the head of the Government and Mr. O'Malley at the head of the department, there is no fear. But, supposing the Government is not inclined to afford that assistance to the municipality which the municipality may consider necessary in order to supplement their resources, then I am afraid the Bill will be inoperative.

I am at the same time afraid that I cannot support the motion for deleting Part II altogether. Having regard to the present state of the country I think it is necessary to help the municipalities in attaining the object of this Bill and I also think that Government have got a responsibility in the matter. They should see that the municipalities do make sufficient provision for school accommodation, etc., in order that they may be able gradually to

The Bengal Primary Education Bill.

Babu Ambika Charan Mazumdar.

introduce the compulsory system. In my opinion Part II of the Bill is necessary, as it lays down the terms of introduction of the compulsory education and as otherwise, nothing will be done in case the municipalities refuse to levy an education cess and Government refuse to make an adequate grant."

The Hon'ble Babu Ambika Charan Mazumdar said :—

"My Lord, I wish to make only one observation. It seems to me that there is some misapprehension both in this Council as well as outside the Council as regards the attitude of some of us, and this misapprehension to my mind is confirmed by what has fallen from the Hon'ble Mr. Arden Wood. Nobody denies that the successive stages provided for any reform must be accepted as salutary. What some of us have been contending throughout is this—not that we are opposed either to an education cess or to the spread of primary education but we would rather go a step further and say that if an education cess is to be levied by all means it should be levied, but make primary education compulsory and free so that the Act may be fully effective. That is our position. The Hon'ble Mr. Arden Wood has told us that without these successive stages there may be altogether a failure of primary education in this country. There seems to be some mistake on this point. Some of us belong to the holy order of the Calcutta Corporation, some do not and those who receive inspiration from the Calcutta Corporation which is responsible for this change in the Bill seem to think that that is the be-all and end-all of all devices. But the condition of Calcutta is perfectly different from the condition of municipalities in the mufassal, particularly as regards primary education. I am bold enough to say that primary education has made much greater strides in the mufassal municipalities than in Calcutta. There is scarcely a municipality in Bengal where the preliminary stage has not been fully complied with. There are large numbers of primary schools in municipalities where they spend 3 to 6 *per cent.* of their income annually without any taxation for the purpose of primary education and the mufassal municipalities are not so backward as far as the arrangements for primary education are concerned as Calcutta. So what may be considered as very important for Calcutta for the spread of primary education is not necessarily what ought to be done for the mufassal municipalities. I heard of the state of the poor progress made in this metropolis as regards primary education and in fact I was surprised to hear that its progress was so slow and so unsound as compared with the progress made in regard to primary education in the mufassal municipalities. Of course the provision in Part II is perfectly good and legitimate as far as the board's jurisdiction is concerned, but I do think that as regards the municipalities where the Act will have its first operation, Part II will have very little application. My friends have told your Excellency that there are primary classes in almost all the schools, and in every municipality there are not less than half a dozen primary schools excepting the high schools, the middle English schools and the middle vernacular schools which also contain primary classes; so that there is no dearth of schools or of accommodation—of course, they are not palatial. I heard to my great relief from my hon'ble friend Mr. Wordsworth that he is not very much in love with very ostentious display of school buildings and school furniture. If that is so, I think, that Part II, carrying with it an education cess will have very little encouragement for the mufassal municipalities. It may have much encouragement for Calcutta, and it may be a very good incentive for the rural areas outside local municipalities. So that our attitude is not that we are opposed to primary education nor to the education cess, but what we mean is that if we want really to make a substantive progress in primary education within municipalities outside Calcutta it ought to be compulsory. That is the main position and, in fact, we ought not to be misunderstood in this respect."

The Bengal Primary Education Bill.

Sir D. P. Sarbadhikari.

The Hon'ble Sir Deba Prasad Sarbadhikari said :—

"My Lord, I happen to belong to the 'holy order' as it has been put, of the Calcutta Corporation and to other 'holy orders'. I am reminded by my friend Sir Rajendra Mukerjee that my belonging to the Corporation order is of recent days. My friend forgets that as one of the Twenty-eight, whose resignation led and will still further lead to municipal improvement. I used to belong to that order years ago; and in spite of the intermediate and obligatory lapse, I have in spirit always belonged to it. I cannot, however, subscribe to the proposition that what the municipality of Calcutta has put forward is likely to put off real compulsion to any appreciable extent. If Part III of the Bill was not a part of the Bill and Part II stood by itself, much of the criticism that has been levelled towards it would have been intelligible. What does Part II of the Bill—for which the Corporation has made itself responsible—really amount to? It is something like a buffer—and insists that an educational survey be made in the first instance to find out the position as well as the resources and requirements. It also seeks to find out exactly how and when Part III, which deals with compulsion, can advantageously be introduced. That is all that Part II of the Bill aims at and its object cannot possibly be to put off the evil day; and the Council will be ill-advised in leaving out so healthy a provision.

"My Lord, to have a mere paper provision for compulsion and not to be compelled to provide for that compulsion would be a strange situation for which all really interested in the educational welfare of the country would be truly sorry. Can any of my friends from the mufassal say that any primary schools or lower classes in higher or middle schools that take the place of primary schools are empty or nearly so? Is it the case that the schools that have been established are starved for want of students? If that was the case and there was no doubt or misgiving on the score of requirements or resources the case for compulsion would be immediate, and the necessity for Part II of the Bill would disappear. My Lord, whether in the higher stage, or in the University stage or the middle or primary stage there is not a school or *patsala* all over the whole country that cannot be filled twice over. The number of students that has to be turned away from the doors of our schools and colleges every year is admittedly large and to talk specially of compulsion without providing in the first instance for those willing to attend without any compulsion is, to say the least of it, neither honest nor businesslike. You would be unwarantably and needlessly weakning the whole situation. That being the situation, our first care should be to provide for those who are ready to go to school, and when that is done and you know where you are going to put those who do require compulsion, to take steps for compulsion, which ought to come as early as possible. To take to compulsion where it is not yet required is to try to have a mere paper provision when we have not the means of compelling that compulsion.

My Lord, I do not think that the Hon'ble Mr. Majumdar or anyone will charge me with advocating the necessity of having palaces for housing our schools. The charge against me so long has been that I do not believe in the superabundance of brick and mortar in connection with education, but am fully prepared to accept schemes of work such as the Satyabadi School in Orissa follows. None has tried to stand out for that ideal more than myself. I believe that sometimes beneath the outstretching branches of a tree or in the courtyard of a family dwelling house, where our *patsalas* used to meet a school can be well conducted. I have seen illustrations of this in many parts of Bengal and I fully believe that, without overmuch brick and mortar, it would be possible to have excellent educational institutions. But the most important matter is the question of good teachers and teachers' pay and one has to consider various other matters connected with it which could be best

The Bengal Primary Education Bill.

solved by proceeding slowly, and that process of slow but steady progress, I think, have the full co-operation of the people whose needs we are trying to meet. Let us in the first instance provide schools which could be filled without having recourse to compulsion. It is not the 'holy order' of the Corporation of Calcutta alone that was responsible for the outrageous provision that finds place in Part II of the Bill. The Senate of the Calcutta University, whose holiness will, I hope, be left unimpaired, may grow more in the skilful hands of our hon'ble colleague, Sir Nil Ratan Sirkar, is somewhat of the same opinion. The Hon'ble Mr. Arden Wood has already referred to it. I might read to the Council the full text of their opinion. This is what they say: 'We feel, however, that before compulsion is introduced, education should be made free.' They further say: 'We hope that local bodies here will of their own good will take upon themselves the responsibility of providing an adequate number of schools for all the children residing within these areas.' That is the first proposition which Part II of the Bill seeks to provide. When all that is possible and what is necessary in the shape of complying with the requirements of Part II is forthcoming. Part III comes in almost automatically. The municipalities ought not to be called upon to take more burden upon themselves than they can adequately bear without a thorough understanding of the situation. We have been told of the mufassal municipalities and their enourmous possibilities. Only a few days ago I was present at Dinajpur where a very large public meeting was held to consider this question. After going through the facts it was found that even if Government were prepared to pay Rs. 10,000, but the municipality could ill-afford to pay as much to provide for the number of children the municipality had of the school-going age. There may, of course, be some municipalities which may be fortunate enough to come up to the standared laid down by Mr. Majundar and after the survey these will take up the work the soonest, but we know of municipalities where the question will be very acute and without properly considering their resources, to say at once that Part III should come into operation is at least short-sighted and not favourable to the point of view which I am sure is in the minds of all of us. I would emphasize the supreme necessity of having compulsion at the end, and the surest and most effective way is provided by Part II. I do not, therefore, understand the object of omitting it and hope that the plea for this omission will not prevail."

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

My Lord, I have tried to explain in the beginning that my object is that compulsion and taxation should go hand in hand: if the compulsory primary education is to be introduced, of course, the taxation will be justifiable. If that is not done, I believe it will rather hamper the progress of education and the poorer municipalities will not be in a position to come forward at first to provide for the education on a voluntary basis and to assess any tax for meeting the expenses for that and then and then only to come for compulsion. It is not my intention that we should not satisfy Government first as to what is necessary for the spread of primary education and then to apply for compulsory education, but my amendment is that we should not think of assessing any tax before we are prepared to introduce compulsory primary education. I do not mean to say that we do not care whether all children up to a certain age are educated or not, but what I want to say is that when the compulsory education scheme contemplates a provision of education of boys up to the age of 6 to 10 only, in that case if we are to satisfy Government by a preliminary survey of educational requirements, we should confine our attention to that portion only. It is in that view that I think that Part II is not at all necessary, for the scope of the Bill is to deal with compulsory primary education only, and if we are to introduce it, and if we are to see that

Babu K. M. Chaudhuri; Babu S. N. Ray; Rai R. C. Pal Bahadur.

up to the age of 10 all boys are educated we should confine our attention to that portion only; and if they mean to prosecute their studies further they will do it themselves on a voluntary basis or in any other way that may be thought advisable to the guardians and themselves. It is not necessary for me to say more and I submit my amendment for the consideration of your Excellency's Council."

The motion was then put and lost.

LIST OF BUSINESS—ITEM No. 10.

The **Hon'ble Babu Kishori Mohan Chaudhuri** moved that sub-clause (*a*) (*i*) of clause 3 be omitted.

He said :—

"My Lord, my next item is, as I have explained already, that if any survey is to be made, it may be made for those for whom compulsory education is to be provided. It is not necessary to make a survey of the existing state of primary education in the municipalities. It is desirable no doubt for Government to see that before introducing the principle of compulsion it should be seen that what is required is being done, but as the scope of the Bill is to deal with compulsory primary education, it is not necessary, in making the survey, to go into the requirements of all children both boys and girls for whom it is not intended to introduce the principle of compulsion. I may be permitted to deal with the proposals contained in items 10, 11, 12 and 15 because the main idea is the elimination of those for whom the compulsion is not intended. If that is accepted the other amendments will be simply incidentally necessary. If that principle is not accepted then it is not necessary to move them separately."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I am sorry I have to oppose this amendment for the reasons already given by me in opposing my friend's other amendment."

The Hon'ble Rai Radha Charan Pal Bahadur said :—

"My Lord, I have tried to follow my hon'ble friend but I do not quite understand what useful purpose will be served by omitting clause 3(*a*). If a statement is to be prepared and submitted to the local Government it is stated here that it would include the number of children not being less than 6 or more than 11 years of age within the municipality. I do not understand why my friend wants to omit it. Does he mean to say that the term 'children' includes boys and girls and that girls ought to be excluded from the statement. I cannot quite follow it. This is a statement which ought to be the necessary basis of information before compulsory primary education is introduced, and I do not quite follow my friend what he means by proposing that the sub-clause should be omitted."

The motion was then put and lost.

The Hon'ble Rai Radha Charan Pal Bahadur moved that before the word "receipts" in line 2 of sub-clause (*f*) of clause 3 the word "probable" be inserted.

He said :—

"My Lord, this is merely a verbal amendment designed to clear up the meaning of the section. When the statement under section 3 will have to be submitted, the levying of an education cess will be an uncertain future event. It is not the intention of the framers of the Bill that such a cess will be levied in every case before compulsion can be introduced. Possibly the misapprehension that the Bill is designed to be a measure of taxation should be avoided and therefore I think, my Lord, that the word 'probable' would make our intention clear. It would not break my heart if it is not accepted."

The Hon'ble Babu Surendra Nath Ray said :—

The following motion, which stood in the name of the Hon'ble BABU KISHORI MOHAN CHAUDHURI was, by leave of the President, withdrawn :—

That the words "after complying with the directions of the Local Government under section 4" in lines 1 and 2 of sub-clause (*1*) of clause 6 be omitted.

LIST OF BUSINESS—ITEM No. 19.

The Hon'ble Babu Ambika Charan Mazumdar moved that after the words "Local Government" in line 1 of sub-clause (*2*) of clause 6 the words "after considering the application and after determining the financial assistance from the Government which may be necessary to provide for compulsory primary education within the municipality, shall", be inserted, and the word "shall" in line 3 of this sub-clause be omitted.

He said :—

"My Lord, this is not merely a verbal amendment. In considering this amendment I would invite the attention of the Council to the wording of clause 4. In case of primary education on voluntary basis, it has been said that after considering the statement of the municipalities concerned and after determining the amount of financial assistance from the Government which may be necessary Government will grant such permission with reference to voluntary education. Now here in clause 6 we have to consider a similar provision with regard to compulsory primary education, and I wish to have it added that the same provision which we have in clause 4 should be repeated in clause 6 : that is to say, as in the case of voluntary education, Government will have to determine the amount of financial assistance which it can render, so in the case of compulsory education it shall have to do the same thing. It may be argued that Government has already under clause 4 determined the financial assistance, so that it is no longer necessary to repeat it in clause 6. I think that is not exactly the correct position, for it must go without saying that when Government comes forward, although Government has not committed itself to any financial assistance, as we know from the heated debate on the last occasion on this measure, yet I am more than confident, as every hon'ble member of this Council is confident, that Government for its own credit will surely come forward with some assistance, and some substantial assistance, for the help of primary education. Although it has

The Bengal Primary Education Bill.

Babu S. N. Ray; Mr. O'Malley; Maulvi Abul Kasem.

not committed itself to any definite proportion, I am sure that simply for its own reputation, if not for anything else, it will make a substantial contribution. Now that contribution will at once be determined in the case of voluntary education under clause 1, but in case of compulsory education I am fully convinced that the cost of compulsory primary education will be much larger than that required for voluntary education and Government is sure to contribute more for compulsory primary education than for education on a voluntary basis. Therefore I think it is necessary to repeat in clause 6 that Government after determining the financial assistance that may be necessary for compulsory primary education shall grant the application. In the first case under clause 1 it will consider what amount of contribution is necessary for primary education on a voluntary system and in the next case in Part II when dealing with an application under clause 6 Government will have again to consider what contribution it ought to make for making education compulsory and therefore the repetition of 'after determining the financial assistance, etc.,' is not a merely verbal one. I think it ought to be repeated there."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I have great pleasure in accepting this amendment."

The Hon'ble Mr. O'Malley said :—

"My Lord, Government is prepared to accept this amendment."

The motion was put and agreed to.

LIST OF BUSINESS—ITEM No. 20.

The Hon'ble Maulvi Abul Kasem moved that at the end of clause 7 the following be added, namely :—

"Provided also that the Committee shall always include a number of Muhammadan members whose proportion to the total number of members on the Committee shall not be less than the proportion of Muhammadans to the total population in the municipality".

He said :—

"My Lord, the question of communal representation whether it be on the local governing bodies or the school committees is no doubt an evil, but circumstances as we are in at present it is a necessary evil, and in the interest of the Muhammadan community I put forward this amendment for the consideration of your Excellency's Government and the Hon'ble Members of this Council."

The Hon'ble Babu Surendra Nath Ray said :—

'My Lord, I am sorry I have to oppose this amendment. I cannot understand why my friend the Hon'ble Maulvi Abul Kasem who is always wide awake should in this matter be a Rip Van Winkle. It seems that this Bill is before the Council for more than a year and at the last stage of the Bill he brings forward an amendment which we had not time to consider in the Select Committee. The Hon'ble Maulvi A. K. Fazl-ul-Huq was in the Select Committee and probably there is no greater exponent of the views of the Muhammadan community than my friend, but he never suggested any such proposal in the Select Committee. Now I think it is too late in the day to make any such suggestions here. When the Bill was before the Council only

The Bengal Primary Education Bill.

Babu A. C. Mazumdar : Maulvi A. Kasem.

the other day no amendment of this nature was brought forward by any of the Muhammadan members here. This amendment introduces a communal consideration which is unnecessary and unwarranted, and as I have said the Hon'ble Maulvi Fazl-ul-Huq never suggested any such representation. Supposing the Commissioners looked after the schools themselves and there was no provision for school committees, no such communal question would arise because the existing municipal constitution does not recognise communal representation. Unless and until communal representation is recognised in municipalities this principle should not be introduced in a lesser body subordinate to and appointed by them. Moreover, primary education is a matter in which communal questions rarely arise. For these reasons, my Lord, I oppose this amendment."

The Hon'ble Babu Ambika Charan Mazumdar said :—

"My Lord, I am really very sorry to have to say that this is an impossible proposal. Of course the Hon'ble Maulvi Abul Kasem is perfectly right in guarding the interests of his community in season and out of season, but here is a proposal which is absolutely impracticable. I daresay my hon'ble friend surely understands that the school committee will not be a large body like the Bengal Legislative Council, but it will be a small working committee which I do not think in any case will consist more than half-a-dozen members. You must have in the first place as we have laid down that the Deputy Inspector or the Sub-Inspector must be a member of it, and that is quite right, and then at least one of the Commissioners must also be there, and, thirdly, you have laid down that at least two members outside the Corporation must be on it : so that you may have one or two members more at most. If there be five members you will have only one left. I leave it to my hon'ble friend who is a watchful guardian of his communal interest to find out the arithmetical proportion of the percentage to be worked out in an area where the Muhammadan population is 60 per cent. and the Hindu population is 40 per cent, and there is only one vacancy. I do not know how to work out this proportion without dissecting the member. In the second place what does my hon'ble friend mean? He knows that I have bestowed my thought upon all questions affecting my Muhammadan brethren and I may tell him that this is a case of pound, shilling and pence and not merely of numerical strength. Now in a municipality where Rs. 2,000 have to be raised by education cess the Muhammadans will probably contribute not more than Rs. 200. If he goes upon numerical strength what becomes of the financial position. If we are only to consider the numerical strength of a population in order to decide the number of the controlling body, then cannot the other side also say that as we are going to pay for the piper why should we not command the tune. So that these little things ought not to go in the minds of persons wholly interested in the broad welfare of the country in considering the constitution of the school committee. It is an impossible amendment and in the second place it is unfair because you cannot go simply upon a numerical strength and you have also to consider the financial side."

The Hon'ble Maulvi Abul Kasem said :—

"My Lord, I am really surprised and I did not expect that the amendment which I have just moved would extort the reply that has been given to it. In the first place my hon'ble friend, the member in charge of the Bill, has said that we have not drawn attention to this side of the question so long, that is, as long as the Bill was before the Council and that in the Select Committee the Hon'ble Maulvi Fazl-ul-Huq did not bring it to notice. I admit, my Lord, that I took no action in this matter and I also admit that

The Bengal Primary Education Bill.

Maulvi Abul Kasem.

my friend, Maulvi Fazl-ul-Huq, has been also guilty of a little negligence, but that is absolutely no reason why the interests of the community which we represent in this Council should be overlooked. From the opinions received from many of the Muhammadan Associations it appears that some of them have no doubt stated that they want Muhammadan representation and that Muhammadan interests should be safeguarded. The Hon'ble Babu S. N. Ray has said that this question of communal representation cannot be introduced at this stage unless and until communal representation is recognised in municipalities. My Lord, I beg to submit that we the Musalmans have asked for a communal representation on municipalities and District Boards and to some extent your Excellency's Government has also recognised our demand. When the Bengal Local Self-Government Act and the Municipal Act were passed it was presumed that Muhammadan interests would be safeguarded by Government appointments, but recent events have shown that that has not been done always in the majority of cases. So your Excellency's Government had to issue a resolution directing Government officials in making their recommendations for Government appointments to keep in view the question of Muhammadan representation, and I hope, my Lord, that that resolution is given effect to. There have been many controversies over this matter, and as regards the remark made by the Hon'ble Babu Ambika Charan Mazumdar that not only the numerical strength but the financial question should also be taken into consideration, if I am assured that the second resolution of which I have given notice is accepted by the hon'ble member in charge, I am quite prepared to withdraw this amendment. I certainly admit, my Lord, that there is a good deal of justification in the argument that the representation should not only be on the basis of population but as well as on the basis of taxation. What I want to do is that Muhammadans would have a fair representation on school committees, and I do it not only on sentimental grounds but on the ground of necessity as well. We have found to our cost whether it is in a municipality or a District Board that simply owing to the absence of Muhammadan members or an adequate number of Muhammadans, Muhammadan interests have suffered. That has been done, and there is no denying the fact. I do not mean to say that non-Musalman members of the school committees or other local committees do anything deliberately wrong, but they overlook Muhammadan interests unconsciously, and my friend and myself have put forward demands times without number that in all administrative questions wherever a resolution has been put forward we have suggested that a committee of officials and non-officials be appointed simply because the non-official point of view should be pressed before the committee. For that reason I want that Muhammadans should be sufficiently and well represented on all these committees in order to bring forward Muhammadan interests and the views of the Muhammadan community on these questions, and therefore I hope and trust that as this amendment does not refer to financial question, I will be justified in pressing it. I myself admit the justification, but I hope that the second amendment will be accepted by the Council. I beg to withdraw the amendment."

The motion was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 21.

The Hon'ble Maulvi Abul Kasem moved that at the end of clause 7 the following be added, namely :—

"Provided also that the Committee shall always include an adequate number of Muhammadan members."

The Bengal Primary Education Bill.

Babu S. N. Ray; Maulvi Fazl-ul Haq.

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I am sorry I cannot accept this amendment. These matters may be safely left to the Local Government which may either frame rules to secure communal interests, if any, or issue general instructions to secure the object."

The Hon'ble Maulvi Fazl-ul-Haq said :—

"My Lord, much against my will I wish to say a few words on this amendment. The amendment as it has been worded only suggests that an adequate number of the members should be Muhammadans. The word 'adequate' is so beautifully vague that I do not think that my hon'ble friend in charge of the Bill can possibly take any objection to it, at least on any ground which I can at the present moment conceive. I do not think he wants to take up the position that there may be questions affecting the Muhammadan community as to which Muhammadan members can throw better light than members belonging to other communities and yet as certain number of Muhammadan members should not be associated in the deliberations of the committee. If he does not take up that position, I do not see how and on what reasons he can object to an amendment of such an innocuous character. He has suggested that the matter may be left to Government to be dealt with by rules. We object to that on principle. If I remember aright, on the last occasion when this Bill came up for consideration, we objected that important matters of principle should be included in the provisions of the Bill and not left to be dealt with by rules to be framed by the Local Government, and that is the principle we have been fighting for. I do not understand how in a matter affecting the interests of such a large section in this Presidency, when we want to make some definite statutory provision we should be asked to settle this matter by means of rules. Why cannot the Act itself provide for some statutory powers to be vested in the committee, so that the committee might not merely represent a particular section or various sections that go to make up the great mass of the people? I cannot understand, my Lord, why this matter should be left to be regulated by the rules to be framed by the Local Government.

Before I sit down I would like the hon'ble member in charge of the Bill to look at this matter from the point of view from which we are looking at it. We are all working towards a common object, and there can be no doubt that we are all anxious that the administration of this Bill should be rendered as successful as possible, and in order to do so we should try to remove all possible causes of friction. We need not speculate whether there is any possibility at any future date of any questions coming up as to which first-hand knowledge of the community directly affected might be of use in the deliberations of the committee It is for meeting a possible emergency that we want it to be statutorily provided that an adequate number of Muhammadans should be represented on the school committee. I would ask my friend to consider that if he sets his face against a proposition of this character, an impression will be created outside the Council that those who are in charge of the Bill have not given adequate consideration to the interests of a community which forms the majority of the population in the Presidency—interests which deserve consideration at the hands of those who are in charge of an important measure like this. With a view to avoid any misconception of this kind the hon'ble member in charge should except the amendment. There could be no practical difficulties in carrying out this provision; otherwise a wrong idea would be created in the minds of the people outside this Council. Therefore I submit that on grounds of prudence, expediency and good feeling between all sections of the people, my hon'ble friend would reconsider the position and accept this proposition.

The Bengal Primary Education Bill

Rai R. C. Pal Bahadur; Maulvi Abul Kasem; Babu A. C. Mazumdar; The President.

The Hon'ble Rai Radha Charan Pal Bahadur said :—

"My Lord, I sympathise with the observations that have fallen from the last speaker, but in considering the matter dispassionately I find certain difficulties. Suppose this motion is carried and we are committed to have a certain number of Muhammadan members in the school committee. What will happen if there are no Muhammadan residents in a municipality or if there are, they are not fit or willing to serve in the committee? What are we to do in such cases? These difficulties may arise. I am moreover surprised that such a suggestion should come from those who profess themselves to be ardent Home Rulers. It seems they have no confidence in their own countrymen irrespective of nationality. Are all their declarations empty words? Cannot they trust the municipalities for selecting suitable Muhammadans wherever possible or leave it to the Government to make rules in that behalf? I find clause 18 of the Bill contains a provision which will obviate the difficulty. I do not think that there is any necessity for this amendment."

The Hon'ble Maulvi Abul Kasem said :—

"My Lord, I very much regret that this amendment has not been accepted by the hon'ble member in charge. Even such an amendment which does not fix a number is not accepted by men like the Hon'ble Babu Ambika Charan Mazumdar who would call it delightfully vague and the Hon'ble Rai Radha Charan Pal Bahadur.

The Hon'ble Babu Ambika Charan Mazumdar said :—

"I have said nothing yet."

The Hon'ble Maulvi Abul Kasem said :—

"At least you have not supported it. I say that when Members of this Council, leaders of public opinion, are of opinion that Muhammadans should not be adequately represented in the school committee what can my community expect from members of other communities scattered over small rural and urban areas who have got more prejudice and more personal interest to serve than members of this Council? My Lord, it has been said that the matter will be left to Government But from clause 15 it appears that the Commissioners of municipalities and members of local boards will frame the rules and not the Local Government. We have been asked to look at the question from a broad national point of view. So we do. It is all very well to speak thus from platforms, but when an opportunity comes all these platitudes come to nothing. We know that even from men like the Hon'ble Rai Radha Charan Pal Bahadur we do not get that fair treatment which we are asked to expect from members of the school committee. We have been told that suitable Muhammadans are not available. If we compare the needs of our community with the number of suitable appointments held by Muhammadans we find that there are very many suitable Muhammadans who have been left out. It has been suggested that 'adequate' is a vague term. Well, I am prepared with your Excellency's permission, to modify this amendment so as to read that there should at least be one Muhammadan member. Although this will not fully meet with my wishes, I am still prepared to move it if your Excellency permits me to do so and if it is accepted by the hon'ble member in charge."

The President said :—

"The hon'ble member should have given notice of his amendment beforehand. It is very inconvenient for the hon'ble members of this

Council to consider an amendment at the last moment without any opportunity of studying it before. I cannot say that I should be prepared to allow this amendment to be moved at this stage unless the hon'ble member in charge is prepared to accept it."

The Hon'ble Babu Surendra Nath Ray said :—

"I am sorry I cannot accept this amendment."

The President said :—

"In that case I cannot allow the amendment to be moved without proper notice."

The Hon'ble Babu Ambika Charan Mazumdar said :—

"My Lord, I want to make one or two personal observations. My hon'ble friend has complained that Muhammadans do not get fair treatment at the hands of the members of other communities. I would not go into that question, but I would tell him for his information that I come from a district where the sitting Vice-Chairman of the District Board is a Muhammadan elected by a Hindu majority. At the last municipal election the Hindus joined hands with the Muhammadans to return the two Muhammadans who were candidates for municipal seats.

The Hon'ble Maulvi A. K. Fazl-ul-Haq said :—

"May I rise to a point of order, Sir? It is absolutely irrelevant to the point at issue."

The Hon'ble Babu Ambika Charan Mazumdar said :—

"It is not irrelevant. When you throw dirt on other people they must have a right to defend themselves."

The President said :—

"I think it is desirable that the hon'ble member should adduce arguments either for or against the amendment under consideration."

The Hon'ble Babu Ambika Charan Mazumdar said :—

"I have nothing further to add."

LIST OF BUSINESS—ITEM No. 22.

The following motion which stood in the name of the Hon'ble Babu Kishori Mohan Chaudhuri, was, by leave of the President, withdrawn :—

That after the word "Municipality" in line 4 of sub-clause (*1*) of clause 17 the following be inserted, namely :—

"for boys referred to in clause (*a*) of section 3".

LIST OF BUSINESS—ITEM No. 23.

The Hon'ble Rai Radha Charan Pal Bahadur moved that after the words "the Commissioners may" in line 4 of sub-clause (*1*) of clause 17 the following be inserted, namely :—

"after making an application under section 6, sub-section (*1*), and".

He said :—

"My Lord, my object is that an application must be made under section 6 (*1*), *i.e.*, the imposition of the cess should be made after an application is made by the Commissioners to the Local Government for the introduction of compulsory primary education within their area. My amendment seeks to fix the time and certain conditions under which the municipality will be entitled to levy a cess. In the original Bill the education cess was proposed to be levied only for the purpose of compulsory education, but in the amended Bill the cess is proposed to be levied for the purpose of financing voluntary education as well. At the last meeting when the Bill was considered some amendments were brought forward with the object of making the imposition of the cess dependent on the introduction of compulsory education. These amendments were lost. The present amendment is midway between the provisions as made in the original Bill and those as amended by the Select Committee. It will not bar the cess being levied before the introduction of compulsion as it lays down that the cess may be imposed only after sufficient progress has been made under the scheme of

The Bengal Primary Education Bill.

Babu S. N. Ray; Mr. Wordsworth.

voluntary education and after an application has been made by the Municipality to the Local Government for permission to introduce compulsory education within their area. My Lord, a similar provision exists in the Bombay Act, the Punjab Act, the Bihar and Orissa Act and in the United Provinces Bill and in none of these measures an education cess is contemplated without the introduction of compulsion. It would be rather a complete innovation to sweep away all safeguards and to retain the present provisions, and what I seek to introduce is this: that before an education cess is levied there must be some progress of primary education at its voluntary stage which would justify the imposition of an education cess preparatory to the introduction of compulsory education. I hope that this suggestion will be favourably considered by Government, for it will dispel the impression, which has at present been unfortunately created, that it is merely a taxing measure, and is really not for attaining the object which the framers of the Bill have in view. It would not bar any municipality in imposing an education cess for voluntary purposes as well, but I think it should not be levied at the initial stage, and it should be levied only after some progress has been made in voluntary education within the municipality. I seek to introduce this amendment with a view to reassure the public mind on the subject.

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I am sorry I cannot accept this amendment of my hon'ble friend. Under this amendment a municipality would be enabled to impose an education cess only after having made an application to Government for permission to introduce compulsory education made under Part III, but before actual introduction of compulsion. The cess will be available for expenditure on voluntary education as well, but this amendment marks a stage when alone can such cess be imposed—a stage when a municipality is seriously thinking of introducing compulsion. For these reasons I cannot accept the amendment."

The Hon'ble Mr. Wordsworth said :—

"My Lord, I had no wish to speak on this amendment, but the hon'ble mover has stated his wish to hear what the representative of Government has to say and therefore I shall say only a few words. The Bill as it stands allows those in charge of education in the municipalities which accept the Bill to impose a cess or not at their discretion. It allows them to impose the cess at any stage of progress, and the hon'ble mover is less generous than the Bill in that he seeks to limit their power and to force them to impose the cess only at the stage when and if they contemplate the introduction of compulsory education. We have already debated this point in several amendments this morning, and I think the attitude of Government is sufficiently clear to the Council already. I am unable on behalf of Government to recommend to the Council the acceptance of this amendment.

The hon'ble mover has referred to various other Bills—the Bihar and Orissa, the Punjab and other Education Bills of a like nature. The reference really does not carry us any further. These Bills, like our own, are experimental: they have only just been introduced and we do not know what degree of success they are likely to attain. We cannot obtain any guidance from the experience of other provinces in this respect. We have our own problems, we have made our own progress, and we have to frame our own legislation in relation to our own conditions as we interpret them. I am therefore unable to recommend the acceptance of this amendment."

The Bengal Primary Education Bill.

Rai R. C. Pal Bahadur; Babu A. C. Datta.

The Hon'ble Rai Radha Charan Pal Bahadur said :—

"My Lord, with reference to the remark of the Hon'ble Mr. Wordsworth about the provision in other Bills of other legislatures, I may point out that the provision in the other Acts goes much further than what I have suggested. For instanced, in the Bihar and Orissa Act it is stated that the imposition of the cess shall only be permissible after compulsory education has been introduced. This is a condition precedent to the imposition of the education cess in other provinces. What I seek to introduce is this condition. After an application has been made to Government by the municipality for the introduction of compulsory education within their area the Commissioners may impose an education cess. I do not think that this will in any way hamper the municipality. It may be said that the municipality will not be able to impose an education cess from the very beginning, but that is not, I believe, the object of the framers of the Bill; that from the beginning before any progress has been made in connection with primary education that an education cess will be levied. I think there must be some justification to show that the education cess should be levied in any area by proving that some progress has been made in voluntary education there, and therefore I think that the addition of these words to the clause will greatly reassure the public mind."

The motion was then put and lost.

LIST OF BUSINESS—ITEM No. 24.

The following motion which stood in the name of the Hon'ble BABU KISHORI MOHAN CHAUDHURI was, by leave of the President, withdrawn :—

That for the words "and all amounts derived therefrom shall be devoted solely to the purposes of primary education, whether voluntary or compulsory, within the municipality" in lines 6 to 9 of sub-clause (*1*) of clause 17, the words "for the purpose" be substituted.

LIST OF BUSINESS—ITEM No. 25.

The Hon'ble Babu Akhil Chandra Datta moved that at the end of sub-clause (*1*) of clause 17 the following be added, namely :—

"provided that not less than 80 *per cent.* of the amounts so derived shall be devoted to compulsory primary education."

He said :—

"My Lord, after seeing the fate of the other amendments I think I would rather withdraw this amendment."

The motion was, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 26.

The Hon'ble Rai Radha Charan Pal Bahadur moved that after the word "purpose" in line 3 of sub-clause (*2*) of clause 17 the following be inserted, namely :—

"and confirmed at a subsequent special meeting.

The Bengal Primary Education Bill.

Babu S. C. Ray; Rai R. C. Pal Bahadur; Babu A. C. Mazumdar.

He said :—

"My Lord, this is merely a formal amendment and what I want to do is to add the words 'and confirmed at a subsequent special meeting' after the word 'purpose' in line 3 of clause 17 (*2*). I think that is the usual procedure followed everywhere, and I hope it may be accepted by the hon'ble member in charge of the Bill."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I do not think that I can accept this amendment. It will amount to this—that the proceedings will have to be confirmed by a two-thirds majority. That being the case, I do not think I can accept this amendment."

The Hon'ble Rai Radha Charan Pal Bahadur said :—

"There is some misapprehension, my Lord : the two-thirds majority is not for the confirmation of a resolution : it is for the passing of a resolution that the two-thirds majority is proposed. It is not here in the Bill."

The motion was then put and lost.

LIST OF BUSINESS—ITEM No. 27.

The Hon'ble Rai Radha Charan Pal Bahadur moved that for the words "a majority of the total number of" in line 4 of sub-clause (*2*) of clause 17 the words "two-thirds of the" be substituted.

He said :—

"My Lord, in connection with the provisions in this section, my hon'ble friend, Kumar Shib Shekhareswar Ray, asked for a three-fourths majority of the Commissioners. That was not accepted in this House, but subsequently a suggestion was made. although there was no formal motion, that two-thirds majority might be substituted, and that was in the original Bill, and. as far as I remember, the hon'ble member in charge of the Bill said that if that was formally moved he was prepared to accept it. Following the hint that was given by him, I have given notice of this motion."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I have great pleasure in accepting this amendment."

The motion was then put and agreed to.

LIST OF BUSINESS—ITEM No. 28.

The Hon'ble Babu Ambika Charan Mazumdar moved that at the end of sub-clause (*3*) of clause 17 the following be added, namely :—

"and the cess so levied shall be a rate amounting to the sum required, after deducting the Government grant, the school receipts and the receipts from endowments and contributions, to meet the expenditure on primary education, together with ten *per cent.* above such sum to meet the collection charges and the probable losses due to non-realization from defaulters."

The Bengal Primary Education Bill.

Babu S. N. Ray ; Babu A. C. Mazumdar.

He said :—

"My Lord, at an earlier stage of this Bill I tried to have an amendment accepted which purported to lay down certain principles to indicate the incidence of taxation. That was lost. Here I beg to move that there ought to be some indication as to the amount which should actually be levied from the rate-payers. Now it may be argued that in an earlier clause we have it laid down that no portion of the education cess shall be spent on any other matter. My Lord, if I could have persuaded myself to think that this clause is quite sufficient to safeguard the interests of primary education, I would not feel myself pressed to move this amendment, but unfortunately I am not so inclined to think. There are provisions of this nature in other enactments. In the Local Self-Government Act and in the Road Cess Act there are provisions that the road cess should be used for the purpose of improving communications within the district, and yet we know that for many many years the road cess was diverted to other purposes. In the present Bengal Municipal Act there is a section which says that the latrine rate levied under Part IX of the Bengal Muncipal Act cannot be used for any purpose except that of improving the conservancy. But in spite of that we know that many municiplities are guilty of having diverted a portion of this rate to other purposes. Therefore, I think that besides the provision which we have already got in this Bill, viz., that the education cess shall not be spent for any other purpose, some other safeguard is necessary, and therefore I want to have it laid down that the cess levied shall be the amount required, after deducting the Government grant, the school receipts, contributions and endowments, to meet the expenditure on primary education, *plus* 10 per cent. to meet the collection charges and the probable losses due to non-realization from defaulters. This would sufficiently safeguard the interest of primary education, because if we proceed on these lines there will be very little left to be diverted to any other purpose.

My Lord, in framing this amendment I take my stand upon a similar provision made in Sir Henry Wheeler's Village Self-Government Bill. There also the same safeguard has been taken. There it has been said that the amount levied must be the residue of what is required for the purposes of union boards and so forth, after deducting the Government grant and other things, and in this case also I propose the same safeguard. In clause 17(*3*) it is laid down that the education cess shall be levied according to the rules framed by Government and what my amendment seeks to do is to add that the cess so levied shall be a rate amounting only to the sum required, after deducting the Government grant, the school receipts, endowments and contributions, if any, to meet the expenditure on primary education, together with a sum of 10 *per cent.* to meet the collection charges and the probable losses due to non-realization from defaulters. So that we shall have a consolidated amount required exactly for primary education which it will not be possible for any municipality to divert to any other purpose. I have said that I have taken this from another cognate subject and I believe it will meet with the acceptance of the Council."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I accept this amendment."

The motion was then put and agreed to.

LIST OF BUSINESS—ITEM No. 29.

The Hon'ble Babu Ambika Charan Mazumdar also moved that after the word "inspection" in line 4 of clause 19 the words "free of any charge" be inserted.

The Bengal Primary Education Bill.

Babu S. N. Ray; Mr. O'Malley; The President.

He said :—

"My Lord, this is a very simple thing. It is laid down in this clause that the schools shall be subject to inspection by officers of the Education Department. We welcome their assistance, but it should be free of any charge. If the municipalities have to contribute it will be an additional burden to them as well as to the rate-payers. I think Government officers who will inspect will only be too glad to inspect them free of charge."

The Hon'ble Babu Surendra Nath Ray said :—

"My Lord, I accept this amendment."

The Hon'ble Mr. O'Malley said :—

"My Lord, I may explain that the inspecting officers of the department do not charge for inspecting private schools and there is no intention on the part of Government that they should charge for it. The amendment argues, if I am permitted to say, a certain misconstruction of the intention of Government. The idea seems to be that it is possible that Government may charge for such inspection, but as there is no such intention Government will have no objection to accepting the amendment."

The motion was then put and agreed to.

LIST OF BUSINESS—ITEM No. 30.

The following motion which stood in the name of the HON'BLE BABU AMBICA CHARAN MAZUMDAR being covered by the debate on items Nos. 5 and 6 was held to be withdrawn:—

That after the words "Education Department" in lines 4 and 5 of clause 19 the words "or the Education Board, if any," be inserted.

LIST OF BUSINESS—ITEM No. 31.

The following motion stood in the name of the Hon'ble RAI RADHA CHARAN PAL BAHADUR namely :—

That after clause 21 the following be inserted, namely :—

"22. The Local Government may delegate their powers and duties under this Act to a Board of Education which may be constituted for the control and guidance of primary education."

The President said :—

"The Council decided this morning that the question of Education Board should not be introduced in the Bill. The new clause proposes to do what the Hon'ble Babu Ambika Charan Mazumdar proposed to do by an amendment to an earlier clause. The Council has already come to a decision on that point, and unless the hon'ble member can show me that the object of his new clause is different to the object of the amendment which has already been disposed of, it will not be in order for him to move it."

The Bengal Primary Education Bill.

Rai R. C. Pal Bahadur; The President; Babu S. N. Ray.

The Hon'ble Rai Radha Charan Pal Bahadur said :—

"I may be permitted to explain, my Lord, that this is a different amendment. The amendment of the Hon'ble Babu Ambika Charan Mazumdar was to substitute 'Education Board' for 'Education Department' but here this is a new clause to empower the Local Government to delegate their powers and duties to a Board of Education which may be constituted for the direction and control of primary education."

The President said :—

"That is precisely the same proposal that was made by the Hon'ble Babu Ambika Charan Mazumdar. If the hon'ble member will look back to item No 5 on the agenda paper, he will see that that amendment was to insert after the words 'Education Department' the words 'or the Education Board, if any'. That seems to me to be precisely the same proposal that the hon'ble member now wishes to make."

The Hon'ble Rai Radha Charan Pal Bahadur said :—

"I respectfully submit to your Excellency's ruling."

LIST OF BUSINESS—ITEM No. 32.

The following motion, which stood in the name of the Hon'ble Babu Surendra Nath Ray, was not made as no amendments were carried in Council necessitating any renumbering namely :—

"That the Secretary be directed to renumber the clauses and sub-clauses of the Bill in consecutive order and to make corresponding alterations in all cross-references thereto."

LIST OF BUSINESS—ITEM No. 33.

The Hon'ble Babu Surendra Nath Ray moved that the Bill as amended by the Council on the 18th and 19th February, 1919, and as settled by the Council on the 27th March, 1919, be passed.

He said :—

"My Lord, I am grateful to your lordship for the kind reference to my work in this connection in the Social Service Exhibition at Dacca. I have always been a believer in the great future that is before us and I sincerely believe that the salvation of India will be by the spread of education, by the development of its industries, and by a more perfect system of sanitation. For centuries the country was immersed in Cimmerian darkness, without hope, without light, till the sun of western culture and western civilisation began to dispel the gloom. All this we owe to British administration. But the work has not finished. I would say that the real work of regeneration has only begun, and it is the duty of Government to crown it with success. I need not repeat what I have already said that without substantial aid from Government this measure of primary education, whether it be on a voluntary or on a compulsory basis, will be unsuccessful. If the objects aimed at in fostering elementary education are the provision of facilities within easy reach of every child and the continuation of the child's education to the stage at which he may be regarded as permanently literate, Government help is essential. In the seventh Quinquennial Review of the Progress of Education

Resolutions.

Mr. P. C. Mitter.

in India, 1912-17, just published by the Government of India, it is admitted that it is unlikely that the local rates, even if boards elect substantially to enhance their taxation, will suffice unless supplemented by Government funds.

My Lord, in your own country the movement towards popular education received a great impulse from the Educational Conference held in 1857 under the presidency of Prince Consort, and culminated in a statute in 1870 by which it was enacted that there shall be provided for every school district a sufficient amount of accommodation in public elementary schools available for all the children resident in such district, for whose elementary education sufficient and suitable provision is not otherwise made. Whether the present Bill when passed into law will have the same effect in this country as the Act of 1870 in England is yet to be seen. All I can say is that the people of this country appreciate the enlightenment of education more than anything else, but if they are unable to pay for such education, it is entirely due to their extreme poverty. What President Jefferson said more than a hundred years ago, is true for all time. 'I look,' he said, 'to the diffusion of light and education as the resources most to be relied on for ameliorating the condition, promoting the virtue, and advancing the happiness of men and I do hope, in the present spirit of extending to the great mass of mankind the blessings of instruction, I see a great prospect of great advancement in the happiness of the human race and this may proceed to an indefinite although not an infinite degree.' I am sure, my Lord, that those words will find an echo in every heart that is animated with the desire of promoting and advancing the peace and happiness of individuals and through them of nations."

The motion was put and agreed to.

RESOLUTIONS.

(*Under the rules for the discussion of matters of general public interest.*)

The following resolution stood in the name of the **Hon'ble Mr. Provash Chunder Mitter** :—

This Council recommends to the Governor in Council that inquiries be made in the year 1919-20 with a view to establish more medical schools in the province beginning from the year 1920-21.

He said :—"The Council will remember that at the last sitting this question was discussed thoroughly and the Hon'ble Sir Henry Wheeler, on behalf, assured the Council that the object of this resolution would receive sympathetic consideration at the hands of Government. That being so, my Lord, I would ask your Excellency's permission to withdraw it."

The resolution was, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 35.

The Hon'ble Mr. Provash Chunder Mitter moved the following resolution :—

This Council recommends to the Governor in Council that investigations be made during the year 1919-20 in order to ascertain the possibilities of increasing the income of the Government of Bengal by the development of the natural resources of the Province.

Resolutions.

Mr. P. C. Mitter.

He said :—

"My Lord, before I go into the merits of this resolution, I desire to offer certain preliminary remarks. In the first place I should like to preface my remarks by saying that I do not intend to deal with the possibilities of increasing the income of Government by the development of the natural resources of the Province exhaustively. I would leave it to Government to find out by proper enquiries and investigations the various points on which such increase may be possible. My principal object in bringing forward this resolution is to draw the attention of Government to the possibilities; but my knowledge is necessarily limited. I daresay the Government, with the knowledge and opportunities at their disposal, will be able to investigate the matter thoroughly. The second point which I should like to state at the outset is this :—I do not intend that Government should trench upon vested rights or vested interests. The last preliminary remark that I desire to make is that in view of the necessities of education, sanitation and various other things which will be necessary in the near future for the Government to undertake and in view also of the increased expenses which the reforms are sure to entail, it is necessary to find out how far the income of the State can be increased without additional taxation. The question of additional taxation ought to come after we have exhausted these possibilities. At any rate these possibilities ought to be enquired into fully. My Lord, with these preliminary remarks as I shall proceed to make some definite suggestions but shall confine my remarks on the following heads :—*first* as to the possibilities of increasing our resources by the development of our forests; *secondly*, as to the possibilities of increasing our resources by the development of our fisheries and, lastly, the possibilities of increasing our resources by the development of the cinchona estates of the Government.

As regards forests, my lord, your Excellency's Government knows very well that there are 6,8(3,367 acres of forest area in Bengal or in other words, 10,630 square miles of forest area. This means that about 13 per cent. of the total area of the Province of Bengal is forest land. The actual net income from this large area is a little over 6 lakhs of rupees or little over 1 anna 4 pies per square acre. These figures show that the income derived from the forest area in Bengal is low considering the demands of the population. It is hardly necessary for me to point out that in trying to get an increased income from forest areas the future must be kept in view. It is essential to preserve the forests with an eye to the future, but paying all possible attention to the necessities of forest preservation, I believe enquiries properly conducted will show that our forests in Bengal are capable of yielding much larger revenue. I believe a fair improvement in revenue as well as conservation are only possible if more money be available for the development and conservation of forest. I have no doubt the Government in the past was fully alive to a general sense of necessities of this department, but the Government had so many important calls on their finance that it was perhaps difficult for the Government in the past to have undertaken a constructive programme for the development of our forest resources. With these general observations I proceed to indicate some special suggestions regarding points of enquiry.

Of the ten thousand and odd square miles only about 4,800 square miles are reserved forest. The Chittagong Hill Tracts consisting of about 4,000 square miles is still an unclassed State forest. I believe enquiries will show, and so far as my information goes it is admitted by the department, that the Chittagong Hill Tracts consist of a very valuable forest area. If this area is properly surveyed from the point of view of forest officials and if this area be protected and facilities of transport are provided for, I believe improvements in revenue will follow. Besides, this unclassed forest area of 4,000 and

Resolutions.

Mr. P. C. Mitter.

odd square miles we have still more than 1,700 square miles of protected forest, bulk of which is in the Sundarbans. With regard to all classes of forest areas, reserved, protected or unclassed, facilities of transport and suitable increase in the staff of forest officials is likely to result in improved finances. I do not know if it will be possible for our Provincial Government to provide money for these purposes. If money be not available from the Provincial Budget, even if money has to be borrowed or otherwise arranged for from the Imperial Government and even if some reasonable interest were to be paid on the amount so borrowed, I believe enquiries will show that the future revenue from forest areas will increase by a very fair amount. Bengal is a thickly populated Province and with proper facilities of transport and with better organisation forest produce are likely to sell more advantageously than at present. In my suggested enquiry the possibilities of utilising hydro-electric power may also be kept in view. A careful survey of forest produce, including medicinal and other useful plants to be found in our forest and a more thorough publication of the results of such surveys are likely to produce better results. Without enquiries it is not possible to say what sums can be usefully spent in improving facilities for transport and providing for better survey. If I assume merely by way of illustration that 50 lakhs will be necessary, the interest on that sum will be less than 3 lakhs a year. I am sure the increased revenue will be several times 3 lakhs. The total area of the reserved forest (if Chittagong Hill Tracts be surveyed and reserved) will be very nearly double and under ordinary circumstances the income also will be very nearly double. The gross income is about 12 lakhs. Of course from this gross income something ought to be deducted for increased expenditure. Facilities of transport will also produce increased income. I should not be surprised that if half-a-crore of rupees be laid on the lines indicated above, our future net forest revenue will be somewhere between 20 to 30 lakhs instead of 6 lakhs as at present.

Bengal abounds in rivers and estuaries. I am aware that most of the smaller rivers and a good portion of the bigger rivers in their upper-reaches form part of permanent-settled estates, but the estuarine portions of our big and and small rivers contain very valuable fisheries which at the present moment yield very little to the Government, partly because of want of facilities of transport and partly because of want of organisation. The Sundarbans alone cover an area of about 5,700 square miles. Comparison of price of fish in the estuarine fisheries of Sundarbans with the Calcutta market will show that the difference in price is very great indeed. Enquiries may be instituted as to whether facilities of transport or establishment of stations for buying and preserving fish will produce better results. The general position is such that with proper investigations and with proper organisation money laid out in developing fisheries in rivers and estuaries which belong to the Government will produce very satisfactory results. As in the case of forest so in the case of fisheries it may be necessary to spend a fairly large sum of money, say between quarter to half-a-crore of rupees and that money can only be available to our Provincial Government by a loan from the Imperial Government, yet that money if properly laid out is sure to bring in a large revenue in the future. Enquiries may also be made about the establishment of refrigerating plants specially in the estuarine Sundarban areas where salt water is easily available. I do not suggest that the Government should enter into the fishery trade, but what I say is that the Government should take proper steps to increase the value of its fishery estates, and if suitable steps are taken I believe the Government will get a large income from the rivers which belong to the Government.

Cinchona cultivation brings in an appreciable income to Bengal. Paragraph 7 at page 3 of the Report of the Government Cinchona Plantations and Factory in Bengal (1917-18) will show that the total receipts amounted to over

Resolutions.

Sir Henry Wheeler.

20 lakhs and paragraph 8 will show that the value of the stock is over 18 lakhs. Of course this income was above the ordinary and was largely due to war conditions, but the average income in ordinary times is not negligible considering that the net provincial income is only a little over 6 crores of rupees. The answer given by Hon'ble Mr. McAlpin, No. 36, page 276 of the *Calcutta Gazette* of 12th December 1918, will show that cinchona plantation has been further extended. The income from cinchona will therefore be higher in the near future. To a malaria-ridden province like Bengal cinchona cultivation is of special importance. I am aware that it is asserted that no further land is available for extension of cinchona cultivation. The opinion of those who assert this are entitled to great weight, but I would appeal to the hon'ble members of the Government to consider the following points :—The present area of the two plantations in the district of Darjeeling is comparatively small. The Mungpoo Plantations (in two divisions) contain less than 500 acres and the Munsong Plantations (in four divisions) contain only about 2,100 acres. Most of these divisions consist only of a few square acres of land. The extension by a few more square acres will mean a considerable increase in the total area. Is it possible that land which is suitable for cinchona up to a particular point will suddenly become unsuitable say 100 yards beyond that point ? Further, is it likely that these few square acres spread over six divisions are the only favoured spots in the district of Darjeeling where cinchona can be grown ? 2,500 square acres mean only about 4 square miles. These 4 square miles are again divided into six divisions. If it were possible to extend cinchona cultivation from 4 square miles to say 20 to 25 square miles in various divisions, then the income from this head alone will perhaps be more than half-a-crore of rupees.

I have only indicated certain points which have struck me. I would suggest that the Government should frame certain definite questions on my resolution and circulate the same to its own officers in the various districts and to selected men all over the Province. Such other enquiries as the Government deems suitable should also be made. But above all, what is most necessary is that the result of the enquiries should be properly utilised."

The Hon'ble Sir Henry Wheeler said :—

"My Lord, a resolution of this kind is naturally one which appeals to the cupidity of the Finance Department, and I have not the slightest objection to accepting it ; but in so doing, I would like to safeguard myself from the possible charge hereafter that I have given the impression that the Finance Department will be able to work miracles or discover *El Dorados* which have hitherto been withheld from our ken. That I do not think is likely ; and I do not wish it to be thought that there is a probability of our entering upon a *règime* of affluence, sufficient to supply not only our present, but our increasing, needs without the inconvenient necessity of encroaching in any way upon the pockets of the tax-payer. So golden a future is not likely to be realised ; but in so far as the resolution asks us to make investigations and enquiries, I shall be glad to enquire into the three specific points which the hon'ble member has brought forward and into any others which may suggest themselves to anyone else. Of course, it can be said, and it can be said accurately, that the resolution is only asking us to do what we already do. There was a time when the whole revenues of India were more or less centralised in the Government of India : the local Governments had no independent power of expenditure and had to go up to the Government of India for everything which they wished to do. At that time it might have been said that it did not much matter to the local Government what happened to its natural resources, but that system broke down in the course of the development of the country, to be replaced by our present financial system which,

Resolutions.

Sir Henry Wheeler.

in brief, rests on the devolution of certain functions to local Governments by the Government of India along with various fixed assignments of revenue and assignments of heads of growing revenue, either in whole or part, from which these functions are financed: and although in the days of the quinquennial settlements it might still have been said that the interest of the local Government in husbanding its resources was blunted by the fact that it was apt to lose the benefits of economies and developments on the occasion of the next re-settlement, yet that also is no longer true now that we have *quasi*-permanent, and, finally, more or less permanent settlements of revenue as between the provinces and the Government of India. So it has for some time past been to the interest of a provincial Government to develop its heads of revenue, since to the extent that it shows diligence in so doing it adds to its profits, and I think I may claim that the point has received attention from our predecessors in this province as elsewhere. In connection with the Commercial Departments of Government such as Forests, etc., hon'ble members must have seen constant references in resolutions, etc., to the desirability of Government deriving from its properties the utmost profit which is legitimately due to it, and the success and efficiency of the head of the department is judged, among other considerations, by the extent to which he is able to achieve that result. But, as I have said, I am perfectly willing to examine any directions in which *primâ facie* there may be possibility of doing more.

It may also be said that to some extent a resolution of this kind is at the present moment premature, in so far as our financial future is in a state of some uncertainty. I have outlined the scheme of financial settlements by which we have hitherto been governed, but, as we all know, the Reforms Scheme has foreshadowed a definite separation of revenue as between Imperial and Provincial, under which we shall be given various definite heads and more extended powers of taxation; but as we stand to-day, we do not exactly know what the details of that division will be, or what our precise powers of taxation will be; and it can, therefore, be argued that it is useless to enter upon a detailed examination of what the resources of the province may in future years produce.

I think both these criticisms are valid to some extent, *namely*, that the resolution is not asking us to do anything particularly new, while it is asking us to make detailed enquiries which are complicated by the uncertainty of the financial future; but I do not wish to ride off the resolution on those two grounds, and we will do our best to meet the wishes of the hon'ble member, within the limitations to which I have already made reference. When the hon'ble member suggests to us in the Finance Department that without encroaching on vested rights and vested interests, and without resort to taxation, we should increase the income of the State, I cannot but think that he is setting us a task which the boldest financier in the world would be rather shy of accepting. I do not see any prospect of the financial needs of this province being met in the future—assuming that it is the wish of the province to advance on more rapid lines in certain directions than has been the case in the past—if the two limitations of the hon'ble member are insisted upon. However, for our present purposes, we accept them; and I do not understand him to be offering his resolution as a final solution of our financial difficulties. In fact, he himself restricts it by the reference to the development of natural resources only, and he has practically restricted it still further by mentioning only the three heads of Forests, Fisheries and Cinchona. On these three detailed points, my friend the Hon'ble Mr. Cumming, in whose department they particularly fall, will have some remarks to make, and I will not anticipate him beyond saying that I doubt whether any of the three is of great financial importance except the of-

Resolutions.

Mr. Cumming.

Forests. Even in respect of Forests when we look at the figures as reproduced in the budget we find that we derived in the past the following gross revenue, viz.: Rs. 11 lakhs in 1915-16, Rs. 13 lakhs in 1916-17, Rs. 13¾ lakhs in 1917-18 and Rs. 18 lakhs in the Revised Estimate of 1918-19 due, of course, largely to the war, the end of which is reflected in the fall in the budget of the current year to Rs. 16 lakhs. When we look at these figures, we cannot but feel that there is a long long trail before us before we get anything like the Rs. 20 or 30 lakhs of net revenue which the Hon'ble Member has foreshadowed. But we will hear from Mr. Cumming what has been done in the past, and if there is any prospect of doing more in the future we will attempt it.

Apart from the three heads mentioned by the Hon'ble Member, I do not know what he would regard as coming within the definition of natural resources. Thus, Land Revenue is a natural resource, though I daresay the Hon'ble Member would at once tell me that its discussion trespassed upon vested interests. Stamps is not, I suppose, a natural resource: Excise might be argued to be so, though I fancy that other Hon'ble Members would tell me that our progress under Excise is already sufficiently rapid to satisfy even the most rapacious Finance Member. Income-tax is certainly not a natural resource, neither are Registration, and Law and Justice. Jail manufactures might be argued to be so; as also the resources of our Ports, yet we know the demands for expenditure on our Ports are likely to exceed in the immediate future any increased receipts which they may bring in. Apart from that there is the Miscellaneous head, under which Fisheries and Cinchona fall, and we have Public Works, covering our irrigation canals and navigable channels. I believe schemes are already being elaborated for the further improvement and utilization of our water-ways, which will bring in a larger income, but we can direct the attention of the Public Works Department to them and examine what they have to say. But I rather wish the Hon'ble Member could give us more light as a guide to our enquiries. When the stage conjurer produces an unlimited quantity of paper from a hat or a rabbit from his left boot, we may be fairly certain that he put it there beforehand while the attention of the spectators was otherwise engaged. I rather feel that the Hon'ble Mr. Mitter is handing me a hat without placing many things in it or even telling me where I can find them, whereas he expects me to produce abundant gifts for the amazement of the audience. However, we will do our best and will try to work out these and any further suggestions that any other Hon'ble Member may wish to offer us."

The Hon'ble Mr. Cumming said :—

"My Lord, the financial aspect of the resolution of the Hon'ble Mr. P. C. Mitter has been dealt with by my hon'ble colleague, Sir Henry Wheeler, but it would perhaps be convenient if I were now to place before the Council some information regarding the economic aspect. The subjects which were particularly mentioned were Forests, Fisheries and Cinchona, and with these I am the more directly connected. I may say at the outset that we welcome the ventilation of suggestions of this kind; but I hope I may be able to show that in all these three cases Government have to a considerable extent anticipated the enquiries for which the Hon'ble Member has asked.

As regards the first subject of Forests, no doubt the Hon'ble Member's main proposition can be accepted by every one, namely, that by increased and prudent expenditure there would be remunerative results. That has been said by many great men who knew the resources of India with reference to India's forest assets; and last year I had occasion to draw attention to the matter. The Hon'ble Member has pointed out in particular that in Bengal by increased facilities of transport and by increase of staff some effective results might be obtained. But one thing must be remembered in

Resolutions.

Mr. Cumming.

this connection. The Forest Department in India is after all not a very old department, and its primary object has been the conservation of forests. Indeed, the very terms we use in the department indicate this. The Head of the Department is called Conservator and his officers are called Deputy Conservators and Assistant Conservators. But at the same time Government now-a-days cannot but be alive to the necessity of systematic and prudent exploitation coincidently with conservation. There are many difficulties, first of money, and then of men: during the last few years, the cadre in the department has been depleted. Nevertheless, we have been able to do something definite. During last year we made one very important enquiry; and we made two very important appointments. The enquiry was to the following effect,—to enquire into the trade requirements of forest products and the possibility of supplying them; and was made in direct consultation with the Director of Industries. The gentleman, who was appointed to make that enquiry. was a very competent officer, who had experience of what has been done in America; and he furnished Government with an excellent set of suggestions. Those suggestions have been followed up by the appointment of an officer under the title of *Forest Utilization Officer* who has to work in direct co-operation with our Director of Industries. I need not elaborate what the special duties of this officer are, but they include the marketing of timbers and the examination of the special needs of industries that require wood. Quite apart from timber the work of the officer includes the examination of tan-stuffs and the question of the supply of material for the manufacture of paper. That, Sir, is a very important appointment. We have followed the example of the United Provinces Government and we have obtained a very suitable officer for the purpose. There has also been another appointment. The Hon'ble Mover has drawn attention to the Chittagong Hill Tracts. In that area an officer has been specially appointed as a *Working Plan Officer* for the commercial development of that area. He will make a survey of the nature which the Hon'ble Member has mentioned; and his duties will include the exploitation of the local timbers and of such forest products as are found there, such as bamboo and grass. Therefore, I suggest that, to a considerable extent, Government have anticipated the Hon'ble Member in making these enquiries; but I do not for a moment suggest that that is everything or that Government will now become supine. He may take it that we are alive to the commercial possibilities of our forests in addition to our duties as conservators.

The next subject on which I may shortly dilate is Fisheries. Here the prospects are not so good, and possibly there is some misapprehension on the point. The Hon'ble Member has drawn attention to Government fishery leases; but the amount of money that Government derive from fisheries in this province is comparatively small. For half a century—I have studied the papers as far as 1860—Government have endeavoured to assert the rights which they had lost, or to which they thought they were entitled Let me explain very shortly that after all Government cannot own very much in the way of fisheries. In the inland tracts, fisheries are the property principally of zemindars under the Permanent Settlement. In the Bay of Bengal outside the 3-mile limit, the fisheries belong to the world. In tidal waters fisheries are the property of the public, but Government are the trustees of the public. I have found that the cases in which Government can or should re-assert its ownership are comparatively few and that the subject is a very difficult one. Quite recently, however, a fresh enquiry in the matter has been instituted. What the result may be I cannot at present say; but, from what I have said, it will be gathered that Government are alive to the possibility of expanding their revenue under this head. As regards the fisheries which are leased by Government,—technically called *ialkars*,—definite instructions were given

Resolutions.

Mr. P. C. Mitter.

in 1916. When any of these leases come to an end there is to be a reconsideration; (*i*) as to whether they should be placed in the hands of the Department of Fisheries, (*ii*) as to whether particular fisheries should be placed in the hands of Co-operative Societies; and (*iii*) as to whether the lease should contain new and more drastic terms. I find that my predecessor, the Hon'ble Sir Nicholas Beatson Bell, recorded—and I am fully in agreement with him—that the object of Government throughout has not been so much the increase of revenue under this head, to which the Hon'ble Member is directing our attention to-day, as the protection of fish, that is to say, the protection of fish in the close season and the prevention of the improper destruction of fry, and also the protection of fishermen who are undoubtedly oppressed by the middlemen in this province. So much for fisheries.

As regards Cinchona, the prospects are still less attractive. It is true as the Hon'ble Member has said that, here in Bengal with its vast area, the total area under cinchona is roughly 4 square miles in two plantations in the Darjeeling district. He may take it from me that if there had been any opportunity of making any great increase in revenue from this source, action would have been taken before now. He says—is it not possible to extend the cultivation beyond the few favoured spots where it is cultivated at present? I have visited the Sarail Cinchona estate in Bengal; and can give an answer. Cinchona is undoubtedly a very difficult plant to cultivate. It requires a special combination of soil, altitude, temperature, aspect and rainfall; and our expert, who is recognized as an expert authority not only in this country but in other countries, advises us that opportunities for extension in the Darjeeling district are extremely few. Hence the increase of revenue, to which the Hon'ble Member looks forward under this head, is very small indeed. In accordance with the instructions of the Government of India issued two years ago, a very elaborate investigation was made in every part of India and Burma where cinchona could possibly be grown. The results of that investigation are at present before the Government of India; and we await the final decision of the Imperial Government on the subject.

Therefore, my Lord, with reference to the three points which the Hon'ble Member has mentioned in particular, I may say that as regards Forests there is undoubtedly a possibility of some increase of revenue. Under the head Fisheries, there is a possibility of a small increase of revenue, and as regards Cinchona there is practically no possibility.

As regards the other heads, to which Sir Henry Wheeler has drawn attention, I need perhaps mention only the head of the improvement of our water-ways, especially on the main route between Eastern Bengal and Western Bengal. The Madaripur Bhil route has proved wonderfully successful: it is likely to give us a remunerative return for our money, and by expenditure of more money we hope to get a still larger return. I suggest that this is a development of our natural resources which will give an increase of revenue to the province; but, as regards the other three heads, I have already stated what the existing facts are and have shown that we have, to some extent, anticipated the Hon'ble Member in his desire for an enquiry."

The Hon'ble Mr. P. C. Mitter said:—

"I am thankful to the Hon'ble Members who have replied on behalf of Government for their sympathic reply and for the acceptance of my resolution. My Lord, it is admitted that the appointment of a special officer has been productive of very good results. That proves that there existed a considerable field for improvement in this direction during the last half a century or so. But that no steps towards that direction were taken until very recently. This shows that improvements were possible though not undertaken for a considerable time. In spite of the Hon'ble Mr. Cumming's

Resolutions.

Maulvi A. Kasem.

assurance, I venture to express my doubt that the income under "Forests" has reached its maximum limit. There is room for further improvement. If the reserve area is more than doubled, and that doubling includes valuable forests, then there is every likelihood of the income being increased to Rs. 20 or 30 lakhs. The Hon'ble Mr. Cumming has given us certain figures. These figures undoubtedly show that the forest income has increased in the past and is capable of further increase, though it is a fact that the increase in recent years is due more on account of the war than for any other normal reason. But if we take the figures back to a long series of years, we find that there had been no such increase in past years. I may, however, again point out that the forests in the Chittagong Hill Tracts are a possible source of increased income specially as these areas are within easy reach of the port of Chittagong. The present income from these tracts is smaller as compared with those derived from Jalpaiguri, Darjeeling and other places.

As regards fisheries, it is quite true that a considerable number of fisheries are private properties. The Hon'ble Mr. Cumming has said that he has looked up the papers from 1860 down to the present time and he has found that there is very little chance of increasing the income under this head as most of the inland fisheries are private properties. But I would point out that the income can be increased at least so far as Sundarbans are concerned, which are *khas mahal* properties of Government which are generally settled on 40 years lease. There are a large number of creeks in Sunderbans which are certainly Government properties where fish grows in abundance and a good income can be derived therefrom. We all know that the price of fish has risen considerably of late. The difference in the price of fish in town and in rural areas is great. Income can be increased by offering increased facilities for preserving fish. I never said nor do I say now that I have discovered something very new nor did I hold out hopes to the Hon'ble Finance Member of an *El Dorado* from which the needs of my province will all be met. But even the addition of a few lakhs to our existing income will be welcome. I have not blamed Government or anybody else for not taking steps in this direction in the past, but I suggest that inquiries in these matters, specially on scientific lines, will prove helpful. I am thankful to Government for accepting my resolution."

The resolution was then put and agreed to.

LIST OF BUSINESS—ITEM No. 36.

The Hon'ble Maulvi Abul Kasem moved the following resolution :—

This Council recommends to the Governor in Council that proper steps be taken against the person or persons responsible for the publication in the *Epipheny* newspaper of the 18th January, 1919, of the unwarrantable attack on the character of the prophet of Islam.

He said :—

"My Lord, it was with very great reluctance that I gave notice of this resolution, but I did it in obedience to the wishes of my constituents. But I am glad to say that the action taken in regard to the publication 'Prophet of Islam' has satisfied the Muhammadan community and has served the purpose for which I gave notice of this resolution. I, therefore, beg with your Excellency's permission to withdraw this resolution."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEMS Nos. 37 AND 38.

The Hon'ble Maulvi Abul Kasem also moved the following resolution :—

This Council recommends to the Governor in Council that steps be taken to establish a Polytechnic College at Calcutta at an early date.

The Hon'ble Mr. Provash Chunder Mitter moved, by way of amendment, that in the resolution (item No. 37) moved by the Hon'ble Maulvi Abul Kasem, for the words "establish a Polytechnic College at Calcutta at an early date" the following shall be substituted :—

further as early as possible technical education at Calcutta and elsewhere in Bengal on the lines indicated in the Report of the Indian Industrial Commission, 1916-18.

The Hon'ble Maulvi Abul Kasem said :—

"My Lord, at the very outset I desire to state that I gladly accept the amendment of which notice has been given by my hon'ble friend, Mr. P. C. Mitter. It moves on the line of least resistance and it serves the purpose which I had in view when I gave notice of this resolution equally well. I think I would not be justified in taking up the time of this Council by making a speech on this resolution. The object is well known—we want to give our boys industrial education. We have just accepted a resolution to the effect that we should investigate the resources of the country, and in order to make that investigation successful or to make the resources of the country useful, we must train our young men. And the best course is to start technical and industrial schools all over the province. A great Commission sat over the question and they have made certain recommendations. No doubt the Government have not yet considered the recommendations of that Commission as a whole. But I am sorry to say, my Lord, that Government move rather too cautiously and too slowly in this matter. And the object which I had in view in giving notice of this resolution was to make the pace a little quicker. The matter is very urgent and I think it would not admit of any further delay. More avenues of employment would be open to our young men and it will result in greater benefit politically and economically than anything else. Government will find this if they accept the amended motion which is now placed before the Council. With these words, my Lord, I commend this resolution to the acceptance of the Council."

The Hon'ble Mr. P. C. Mitter said :—

"My Lord, I expected that my hon'ble friend, the mover of the resolution, would go into the matter more fully and I would have confined myself to the point raised by my amendment. But I am afraid he has not done so. However, I shall try to do justice to the amendment as it stands. At the outset I desire to say that I have taken care to make this recommendation in a limited form, namely, that further facilities for technical education should be provided in Calcutta and elsewhere in Bengal. I have limited it in that way because I know that the recommendations of the Industrial Commission have not yet been finally considered and the Government of India have not yet finally decided in what way these recommendations are to be given effect to. My Lord, the Industrial Commission have made various suggestions, some of which have already been given effect to by your Excellency's Government, *e.g.*, the one about the training of our young men in the railway workshop at Kanchrapara as I believe provision has already been made in that direction. My Lord, the Industrial Commission have clearly indicated the different lines along which technical education is to proceed. I do not think

Maharajadhiraja Bahadur of Burdwan.

it is necessary for me to go into the question of those recommendations in detail. But about the general necessity of providing for better facilities of industrial and technical education there can be no question, and I hope your Excellency's Government will admit that such a necessity exists. Seventy-five per cent. of our raw materials go not to Great Britain—the country with which we are so intimately connected—but to non-British countries and countries absolutely outside the British Empire. Now, if our British non-official friends here, some of whom have in the past helped in developing Indian resources, were to attempt to turn the raw materials which go to non-British countries into finished commodities and even if they were to try their best, I make bold to say that, without training Indians in industrial and manufacturing lines, they will never succeed in their attempt. At the present moment, speaking only of my own province of Bengal, we have about 14,000 Britishers here. Out of this number about 11,000 are concerned with public services as administrators, policemen, or as sailors, professional men, and so on, and the vast work of the development of a province like Bengal is in the hands of about three thousand persons, as only about that number is concerned with trade, commerce and manufactures. The task is too heavy. There are various difficulties in bringing out experts from Great Britain. Some of these difficulties have been pointed out in the report of the Industrial Commission. The raw materials available here can now be turned to finished commodities so as to compete successfully in price with other countries if we were to depend on British experts only. We require the best British experts and experts from other countries as well, but if we require them we also require properly trained Indians along with them. Educational developments on these lines will also solve various political problems and will create better feeling between Britishers and Indians. When people meet each other in common work they get to know each other. The Indians will realize that the Britishers are not so bad after all and the Britishers also will realize when they come in closer contact with Indians that they are better than what they thought them to be. I hope your Excellency's Government will agree as to the general desirability of pushing forward with the work of providing better facilities for instruction in railway workshops and in existing technical and industrial institutions, such as Sibpur College, and this I hope your Excellency's Government can do even without waiting for the final decision of the Government of India. I hope also that steps will be taken for providing better facilities in industrial and technical education."

The Hon'ble Maharajadhiraja Bahadur of Burdwan said :—

"My Lord, my task has been somewhat simplified by the Hon'ble Maulvi Abul Kasem throwing the onus of moving the subject-matter of the resolution on the Hon'ble Mr. P. C. Mitter, and the Hon'ble Mr. Mitter taking a line quite different from what I must candidly confess I was prepared for. I thought that a strenuous fight would be put up, that Government had neglected Calcutta badly regarding the establishment of a Polytechnic Institute in Calcutta ; but evidently the Hon'ble Maulvi Sahib's love for Calcutta is not so great and in consequence we have been let off lightly. My Lord, although the Hon'ble Mr. Mitter's resolution is of a general kind, and I may say at once that the Government will be pleased to accept the resolution, I do think, however, that as this matter of a polytechnic institute for Calcutta is of importance to Calcutta itself and that as it has been the subject of a recent debate in the Calcutta Corporation, I should, therefore, say a few words regarding the proposal of a Technological Institute in Calcutta ; for, I think, those who are interested in the development of industrial education in this city would like to know that Government has not been entirely unmindful of this important project. It might be in the recollection of members, not

Maharajadhiraj Bahadur of Burdwan.

only of the present Council, but of the past, and of gentlemen interested in the proposal for the furtherance of industrial and technical education in the province, that two committees were formed some years ago to go into the whole question of a Technological Institute in Calcutta; and, at that time, I may say the Committees were rather under the delusion that the Government of India under Lord Hardinge having left Calcutta post-haste after the Delhi Reforms and the announcement of the Delhi move, some of the Imperial buildings would be available, and that it would be possible to accommodate such an Institute in one of those vacated buildings. The result was that estimates were prepared and the cost of construction was put down at a considerably modest figure. In fact, it was thought that no great expenditure under head 'Construction' would be necessary. Then again, of course, the matter was really mooted originally at a time when there was a proposal of moving the Sibpur College to Ranchi. All that is past history now, and I do not propose to take up the time of the Council unnecessarily. What I want to point out very briefly is this—that although we have not been able to make a start as yet with the question of establishing a Polytechnic Institute in Calcutta, we have not been idle in this matter as well as in the matter of general advancement of industrial education. It may be in the recollection of the Hon'ble Members of this Council that it was a little over a year ago, in connection with a debate on a budget resolution in 1918, that my esteemed friend, the Hon'ble Sir R. N. Mukerji, drew the attention of Government to the necessity of making provision for the higher technical instruction of Mechanical and Electrical Engineers; and although this resolution was opposed by Sir S. P. Sinha on behalf of Government, it was carried by a non-official majority, and in consequence of it, a provision was made in the budget of 1918-1919 for establishing workshops at Kanchrapara but as it was not possible to spend the money within that year, provision has been made in the budget of the next financial year for a hostel at Kanchrapara; and as there has been some difference of opinion regarding the training of such Mechanical Engineers, Government have recently appointed a Committee to go into the question, and of which committee the Hon'ble Sir Rajendra Mokerjee is the President. Then, again, now that we have decided to keep the Sibpur College where it is, we are expecting from the Governing Body of that College proposals for its extension, and we have recently also received a scheme drawn up by Mr. Everett for the establishment of a Polytechnic Institute in Calcutta; so that it may be taken that now that a scheme has actually been outlined for Calcutta, it will be gone into by the Education Department as soon as possible. I should like to go a little further and state what the other activities of this Government have been with regard to this important branch of education. We are in communication with the Bihar and Orissa Government about the development of evening classes in the mine fields and about the possibilities of establishing a school of mines. As all these relate to the same question of technical and industrial education, I have just thought fit to mention them to this Council. It must be understood, however, that the question of the development of industrial and technical education has got to be tackled by the Government as a whole when it takes into consideration all these different schemes, as also the proposals recently made by the Industrial Commission, regarding which some reference at length has been made by the Hon'ble Mr. Mitter. The difficulty, I may say, has hitherto been one of funds, owing to rigid economy being exercised in connection with the war; and although hostilities have ceased, peace is not yet in sight and the financial exigencies imposed by the war have by no means come to an end. We realize, however, the need for the development of technical and industrial education, and I can assure this Council that this Government intends to develop it so far as we have power to do so and have the means at our disposal. The Industrial Commission have drafted a programme and they

Resolutions.

Mr. P. C. Mitter; Maulvi A. Kasem.

speak with the authority of experts and specilists of a high order. That programme will receive the co-operation not only of Provincial Governments but also of the Government of India, because as Hon'ble Members are fully aware, some parts of their recommendations which relate to the creation of a department of industries with control over technical education open up new vistas and must necessitate eventually the whole of technical education being handed over to a new department altogether; but that is essentially one for the Government of India to decide and for us to follow. The great thing, however, is that the report chalks out lines of advance, and we are anxious to advance in this important branch of education. For these reasons, as I have said, Government are pleased to accept the resolution of the Hon'ble Mr. P. C. Mitter; and I can at the same time give this assurance that the question of a polytechnic institute in or near Calcutta will not be lost sight of. I have already referred to the proposal which Mr. Everett has submitted only a few days ago. There are many attractive parts in his scheme and Government will examine these recommendations at an early date and give it its close and careful consideration. I trust the Hon'ble Members will believe us when we say that we realize, just as much as the mover of this resolution and the gentleman who has moved an amendment to it, the necessity of advancing in this important branch of education; and I hope that with this assurance and with the assurance conveyed by the fact that we are going to accept the resolution of the Hon'ble Mr. P. C. Mitter, the Council will realize that we have not been idle in this matter."

The Hon'ble Mr. P. C. Mitter said :—

"My Lord, I am thankful to Government for accepting my resolution. After the speech of the Hon'ble Maharajadhiraja Bahadur of Burdwan, I do not think it is necessary for me to address the Council further on the matter."

The Hon'ble Maulvi Abul Kasem said :—

"My Lord, I have nothing except to express my thanks to Government and to the Hon'ble Member in charge for the sympathetic reply and for the assurance that he has given. We are also glad to know that Government is in this instance moving quicker than usual."

The resolution was put in the following amended form and agreed to:—

This Council recommends to the Governor in Council that steps be taken to further, as early as possible, technical education at Calcutta and elsewhere in Bengal on the lines indicated in the Report of the Indian Industrial Commission, 1916-18.

LIST OF BUSINESS—ITEM No. 39.

The Hon'ble Maulvi Abul Kasem moved the following resolution :—

This Council recommends to the Governor in Council that steps be taken for the establishment of a Subordinate Judge's Court at Malda.

He said :—

"My Lord, at this fag-end of the day I am sorry to bring forward a resolution which however has an ancient history. It is nearly two decades since the people of Malda moved the Government of Bengal for the establishment of a subordinate judge's court in their town—the headquarters of that

Resolutions.

district. At that time inquiries were made and it was found that the prayer could not be reasonably granted. The people of Malda, however, continued to move Government from time to time, and so far back as 1913 when His Excellency Lord Carmichael visited the ancient town of Malda they made this prayer in the address given to His Excellency and they made also the alternative suggestion that failing that a subordinate judge may be asked to divide his time between Malda and Rajshahi. His Excellency was impressed with this aspect of the question and he promised an inquiry. The High Court was subsequently consulted and in the reply to a question put in this Council on the 26th July, 1915, the Hon'ble Mr. Kerr said that 'the High Court recognized that there were strong administrative grounds for meeting the wishes of the inhabitants of Malda, and suggested that a subordinate judge might be posted to Malda temporarily as an experiment, if an officer could be provided without prejudice to the requirements in the matter of additional subordinate judges elsewhere. Owing to lack of funds and the more urgent requirements of other districts, it will not be possible to give effect to the High Court's suggestion this year, but the matter will be further considered when staff and funds become available.' Since then, my Lord, another memorial has been sent to your Excellency's Government and I may here draw the attention of this Council to the strong recommendations of Mr. Cornes who was the District Judge of Rajshahi in 1913. He strongly urged that a subordinate judge's court should be established at Malda, and he declared that great inconvenience was being felt by the people in instituting their suits. He says : 'I am strongly in favour of the proposal, but only on condition that the strength of sub-judges for Rajshahi and Malda be permanently retained as two.' 'It is clear, however, that there is a good deal of work for a sub-judge at Malda.' 'I am informed and find no difficulty in believing that at present considerable claims are remitted frequently in order to bring suits within the jurisdiction of the senior munsif at Malda. The cost of conducting an original suit of Malda at Rampur-Boalia is prohibitive.' It is a very serious matter, my Lord, for the people giving up their rightful claims to avoid the difficulty of coming over to Rajshahi to fight out their cases. These are facts which are recognized by Government, and I hope your Excellency's Government will accept this resolution and give effect to it at an early date.

One difficuly has been mentioned both by the High Court and by Mr. Cornes, and it is about the accommodation of the sub-judge's court. I now learn that the members of the bar library are willing to give up their library room for the accommodation of the sub-judge's court. There is also another house available for that purpose. So this difficulty is removed, and as an additional subordinate judge has been permanently located since 1913 the question of funds does not arise. When I moved a similar resolution some time ago for the establishment of a sub-judge's court at Asansol my hon'ble friend, Babu Kishori Mohan Chaudhuri, assured this Council that although he was the member for Rajshahi he had no objection to a sub-judge's court being established at Malda. So I take it that the people of Rajshahi have no objection to it. Under the circumstances I hope your Excellency's Government will accept this resolution."

The Hon'ble Mr. Ashraf Ali Khan Chaudhuri said :—

"My Lord, representing the Malda district as I do in this Council I cannot give a silent vote in favour of this resolution. I will give the present history, as my hon'ble friend, the mover has given a past history of the facts of the case. I shall first deal with the inaccessibility of getting from Rajshahi to Malda. Once I had the pleasure of going with Cook's party for a trip to Holland, and I remember having enjoyed five sorts of

Resolution; Adjournment.

Maulvi Asraf Ali Khan Chaudhuri.

conveyances, when I went to Manikin Island I started in a cab, then got into a train, then went by steamer, then had the pleasure of going by a sailing boat, then an electric tram and then a small country boat in a canal drawn or rather towed by a horse. The people of Malda, when they want to go to Rajshahi enjoy the pleasure of using five or more sorts of conveyances, but under different circumstances. They start first in a bullock cart, they have then to cross the river by ferry boat, then they have to take the train to Godagari and then they have again to change to steamer and when the steamer is stuck on a shoal or *char*—and it often does—they have to get a fishing boat in order to get to Rampur-Boalia, and finally, when they get to Rampur-Boalia, the landing ghat is generally 4 to 5 miles away from the town in dry season. Therefore the journey has to be completed in a *tum-tum* which is peculier to Rajshahi, over sand. In this way they have to perform a journey of about 70 miles from the district town of Malda to the district town of Rajshahi, *i.e.*, Rampur-Boalia. It may easily be imagined how very difficult the journey will be when the people have to come from the interior of the border of the Malda district.

The next matter is the difficulty about living at Rajshahi. The people of Malda who have not any friends or acquaintances find it difficult to hire houses or to live in hotels. Mr. Cornes, a former District Judge, said in his letter to the High Court that the accommodation was miserable and the lodging houses were generally situated at a great distance from the Courts. I believe the Hon'ble Mr. O'Malley who was some time ago District Magistrate of Rajshahi will bear me out that the Courts are at a great distance from Ghoramara, where the pleaders live; that is, my Lord, another difficulty. My friend the Hon'ble Maharajadhiraja Bahadur of Burdwan, who is in charge of this department, knows very well how difficult it is for Zemindars to maintain two establishments in two different districts. Some people who have got their own family lawyers at Malda have again to keep another set of lawyers at Rajshahi.

We are thankful to Government for distributing the courts, both civil and criminal, all over the Presidency. But in Malda we have not got a Sub-Judge's Court to settle disputes as to question of right, and for settling such cases the people of Malda have to go to Rajshahi. The influential and wealthy people, or rather unprincipled and unscrupulous people, can easily oust another person from his just rights as they know very well that the poor would find it very dificult to travel such a long distance to Rajshahi in order to institute a suit against his powerful opponent and bring all his witnesses over a distance of about 70 miles, and then arrange for their accommodation in a place like Rajshahi. The witnesses also do not like to live in Rajshahi for a long time, and as generally the cases are frequently adjourned the poor people find it very difficult to manage it and consequently fail.

As regards accommodation, I believe the Bar Library has offered to let their room for a small rent of Rs. 30. If, however, Government would care to have a separate building for the sub-judge's court, they could easily build a new house near about the criminal courts or they could easily have another storey on the top of the munsif's court.

The other argument which can be adduced against this resolution is: whether it would pay Government to have a sub-judge's court at Malda. I remember that in Bogra there was formerly no sub-judge's court; but as soon as such a court was established then the number of cases went up by leaps and bounds, as many people have availed themselves of the facilities of instituting their cases which they could not do before.

I do not know, my Lord, whether it would be good form on my part to advocate anything on behalf of lawyers, as I am myself a practising member

of the legal profession. But I may submit that the pleaders at Malda deserve a little encouragement. They can justly claim their legitimate share of the work which is at present the monopoly of the Rajashahi pleaders. If, therefore, Government be kind enough to create a sub-judge's court at Malda it would not only be beneficial to the public, but also to the pleaders there; and since the Rajshahi bar does not object to the resolution, it will perhaps be accepted by Government."

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

"My Lord, I said on another occasion that the people of Malda aspire to have a separate sub-judge's court as they feel very inconvenient to come to Rajshahi to institute suits. Government should consider if there is sufficient work for a sub-judge at Malda, and if that proves to be the case, a sub-judge's court may be established there. At present there are two sub-judges at Rajshahi—one of them may be posted at Malda. There is a sugestion that the present munsiff at Malda who has power to try cases up to Rs. 2,000 may be removed and then there will be found sufficient work for two sub-judges, one of whom may be located at Malda. The people of Rajshahi have no objection to a sub-judge's court being established at Malda and I beg also to suggest in this connection that Malda can be developed into a first class district. If it is decided that only one sub-judge should be appointed, then he shall have to spend six months at Rajshahi and six-months at Malda, but that would be very inconvenient for the people of both these places. The subordinate judge at Rajshahi has to do all the account works as the District Judge has no time to attend to them, and the work at Rajshahi is not insufficient to fully employ the sub-judge. If there is sufficient work for two officers one should certainly be posted at Malda. There are, of course, difficulties, but if these can be removed it would be a good thing to have a sub-judge at Malda."

The Hon'ble Rai Debender Chunder Ghose Bahadur said :—

"My Lord, I have no personal knowledge of the district of Malda and the only knowledge I have about this question has been derived from certain papers which I have here and to which reference has already been made by the hon'ble mover. From those papers I gather that the people of Malda feel great inconvenience and the inconvenience is felt by the local authorities too. From the letter addressed by Mr. Cornes to the Registrar of the High Court I gather that he suggested that one sub-judge could be spared from Rajshahi and that one sub-judge could be placed at Malda permanently and that he will have enough business to justify his being placed there. If half of the subordinate judge's time at Rampur-Boalia is occupied in hearing Malda cases then it must follow that if a sub-judge is placed at Malda he will have more cases and they will occupy his whole time. We have had a discussion in Council about the development of revenues of the Province of Bengal. We forget that if we increase the number of law courts it will increase the revenue, for the money realized as court-fees besides meeting the expenses of civil courts also pay for the expenses of criminal courts, and there is always a large surplus. What I mean is that there ought not to be any difficulty in acceding to the prayer of the Malda people as it will be a paying thing. It will not only pay the cost of establishing the Court, the salary of the sub-judge and of the ministerial establishment, but it will leave a surplus. The Malda people have been trying for it for the last 18 years, but their cries have not attrached the sympathetic attention of Government. But now that we have had an opportunity of placing the matter before your Excellency's Government, I have no doubt that early

orders will be issued for the establishment of a sub-judge's court at Malda. It may be said that this will encourage litigation, but as Mr. Ashraf Ali says that the people of Malda have neither the time nor the money to carry on litigation for the mere fun of it; they have their rights and the Government should provide facilities for vindicating such rights."

The Hon'ble Sir Deba Prasad Sarbadhikari said :—

"My Lord, having recently visited the part of the country in question I may say something from the point of view of the litigants and to voice the strong feeling that obtains in the district of Malda. One should think that the views put forward by some that litigation would be kept down by not establishing a sub-judge's court at Malda has no force whatever. As has been pointed out there is the other side of the question and sometimes justice cannot be obtained if one has to go all the way to Rajshahi. It is refreshing to note that the members of the Rajshahi bar have not put obstacles in the way, and I am sure not only the members of the Malda bar but the people also would welcome a sub-judge's court in their district. The question of accommodation does not arise. The work may be re-arranged in the way suggested by the Hon'ble Babu Kishori Mohan Chaudhuri and it may be possible to remove the munsif with large powers from Malda or to divide the time of a sub-judge as is done in the neighbouring districts of Jalpaiguri and Dinajpur. When at Rajshahi I satisfied myself about the inconvenience felt by the people owing to the want of a sub-judge's court there, this was very great. I did not feel disposed to face the inconvenience of a travel from Rajshahi to Malda much as I wanted to see the ruins of Gour. I do not know why this primitive mode of travelling has been allowed to go on for so many years. The smaller districts ought to be as self-contained as possible while we are dividing the larger districts. I hope for these reasons the resolution ought to be accepted by Government."

The Hon'ble Maharajadhiraja Bahadur of Burdwan said :—

"My Lord, I must confess that the arguments put forward regarding the establishment of a sub-judge's court at Malda have in no way convinced me, because, if I may say so, the arguments which have been put forward are more for personal comfort—nice buildings and making Malda more easily accessible. Nobody seems to have advocated in this Council to-day as to whether or not the work at Malda is sufficient to justify Government's putting a sub-judge there for all the year round. The Hon'ble Maulvi who has been entrusted to move this resolution has limited his remarks to the memorial submitted to your Excellency, printed copies of which I believe have been rather freely distributed among the Members of this Council, and he has also brought into prominence a letter of the then District Judge, Mr. Julian Cornes, which was written about five years ago. Then we have had Mr. Ashraf Ali giving us what he called the present history of Malda and explaining to us some of the shilling delights that he had enjoyed at some obscure island in Holland where, among other things, if I caught him aright, he travelled in a boat driven by horses."

The Hon'ble Mr. Ashraf Ali Khan Chaudhuri said :—

"I beg your pardon, I said towed by horses and not driven by horses.

The Hon'ble Maharajadhiraja Bahadur of Burdwan continuing said :—

"Whatever that may be I do not know whether the shilling delights that he enjoyed in Holland could very well be compared with the delight of the

70 odd miles of travelling which is required from Rajshahi to Malda in the four or five different kinds of vehicles and conveyances which he mentioned. But I think in this connection it is well to remember what Bengal is. We have only got to look at Eastern Bengal and find out for one's self that these difficulties of travelling cannot be entirely got over until perhaps some enterprising gentlemen in Bengal, like the Tata Brothers in Bombay, start an aerial service, nor do I think can the question of accommodation or the sentimental desire to have a sub-judge placed at Malda weigh entirely with the Government. Then I do not know if as a lawyer he had a brief from his zemindar friends round about Malda, when he brought out the fact that the zemindars round about there have got to have two institutions, one their family lawyer from the place from which they hail, and another at Malda. My Lord, this is the case all over Bengal and when larger districts are subdivided more and more—a matter which Mr. Kerr would be able to more eloquently explain than myself, I think that the zemindars have got to realize that these multiplications of their legal staff are necessary unless they themselves can minimize the difficulties of law suits. This is a thing which cannot be helped, and it is a thing which is bound to grow as more partitions are sanctioned for the efficiency of government in the country.

Then again we have had the representative from Rajshahi who, I may say, has rather damned the scheme with faint praises: as he could *not* very well wriggle out of it altogether, but he had not very much to say in favour of it either. I shall now put before the Hon'ble Mover of this resolution as well as its supporters the statistics of court work at Malda. It has already been pointed out by various gentlemen present here to-day that the question of posting a sub-judge at Malda has been before Government for a good many years and it has been brought to the notice of Government by the people of the district and by the local bar there. This is true and Government has naturally consulted the Hon'ble High Court in the matter and is anxious so far as it reasonably can to meet the aspiration of the people in the district. But from an examination of the work which arises in the civil courts from the Malda district however it appears that though there are two munsifs stationed there they have an average amount of work to do. The number of cases arising valued at over Rs. 2,000 has in the last five years only averaged 20 with 14 miscellaneous matters and the number of suits of a value of between Rs. 1,000 and 2,000 which are tried at present by the senior munsif only averages 48. And I believe these figures include non-contested and contested suits, and I think it must be quite clear to the Hon'ble Mover of this resolution as well as to the gentlemen of the Council present here to-day from these figures that under these circumstances it would be impossible to put a sub-judge for the whole year at Malda to hear this small number of cases and a few appeals, unless of course the Hon'ble Member with shilling delights would like the sub-judge who may be placed there to roam about the beautiful mangoe gardens there and work only for two months in a year. I do not think there is any justification for having a sub-judge when these are the figures which are before the Government. At Rampur-Boalia where at present the cases of Rs. 2,000 and over in value are tried, there is only one permanent sub-judge. He has a considerable number of cases arising within the district of Rajshahi to hear, and it would only be inconvenient to depute him for a part of the year to sit at Malda. Government does not therefore see its way to follow the procedure pursued in regard to the districts of Dinajpur and Jalpaiguri under which the sub-judge of Dinajpur is deputed for three short periods during the year aggregating in all about two months to try cases at Jaipaiguri. In recent years it has, however, been found necessary to depute an additional sub-judge to Rampur-Boalia for part of the year to assist the permanent Judge. The High Court, however, do not consider that in normal years this is a thing that Government should indulge in. In view,

however, of the fact that the people of Malda have been asking since a long time to have a sub-judge placed there permanently, Government is prepared in consulation with the High Court, to consider whether it would not be possible to depute as an experimental measure an Additional Sub-Judge for part of the year to Malda to try cases; and I hope that the Hon'ble Mover of this resolution and its supporters will agree that this is a fair proposal and that this may be tried and I trust that after my explanation the Hon'ble Mover may see his way to withdraw this resolution."

The Hon'ble Maulvi Abul Kasem said :-

"My Lord, from the beginning of the speech of the Hon'ble Maharajadhiraja Bahadur of Burdwan I little anticipated that I will have the agreeable surprise of the assurance given that Government is prepared to try the experiment of deputing an Additional Sub-Judge for a certain time of the year to Malda. This will certainly not only satisfy myself but the people on whose behalf I was deputed to speak and who had asked me to do so. As that has been done I do not think I should detain the Council any longer, and, therefore, with Your Excellency's permission I beg to withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

ADJOURNMENT.

The Council was then adjourned to Thursday, the 3rd April, 1919, at 11 A.M., at Government House, Calcutta.

LIST OF BUSINESS—ITEM No 1.

STARRED QUESTIONS.

The following questions which had been starred were put and answered :—

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

***1.**

(*a*) Is it a fact that Chaitanya Charan Sett instituted a suit to recover compensation for malicious prosecution against Muhammad Yusuf, a sub-inspector in the Bengal Police, and another, in the court of the subordinate judge at Dinajpur?

(*b*) If the answer to clause (*a*) be in the affirmative, will the Government be pleased to state—

(*i*) whether it is a fact that Government paid the expenses of the first-named defendant in the above-mentioned suit; and

(*ii*) whether the Government pleader of Dinajpur and another pleader of the local Bar were engaged on behalf of the defence at the cost of the Government?

(*c*) If the answer to clause (*a*) be in the affirmative, will the Government be pleased to state the total amount spent by them for the defence, including pleaders' fees?

(*d*) Is it a fact that the above suit has been dismissed, and that no costs have been awarded to the first-named defendant on the ground that the said defendant did not exercise proper care in the investigation of a murder case?

(*e*) If the answer to clause (*b*) (*i*) be in the affirmative, will the Government be pleased to state whether they propose to realize from the defendant the amount of the costs incurred by them in the case?

(*f*) Are the Government aware that the said defendant intends to prefer, or has preferred, an appeal against the decision of the subordinate judge with regard to the costs?

(*g*) If so, do the Government propose to defray the costs of the said defendant in the appeal?

(*h*) Has the attention of Government been drawn to the judgment of the subordinate judge? If so, will the Government be pleased to state whether they propose taking any steps regarding the said defendant sub-inspector's conduct as disclosed in the judgment of the subordinate judge?

Answer by the Hon'ble Mr. Kerr:—

" (*a*) Yes.

(*b*) Yes.

(*c*) Rs. 2,135.

(*d*) Yes.

(*e*) No.

(*f*) It is reported that the defendant intends to prefer an appeal at his own cost.

(*g*) No.

Questions and Answers.

(*h*) Government have read the judgment of the Subordinate Judge. The Court held that the sub-inspector was not liable for compensation for malicious prosecution and added:—'The acts done by the defendant No. 1 for which he may be blamed are trifling acts of carelessness or indiscretion which did not influence or mislead the other investigating officers to send up the plaintiff as an accused for trial, but as the defendant No. 1 ought to have exercised proper care in the investigation of a murder case, I do not allow him costs'

As a matter of fact the prosecution was actually undertaken under the order of Mr Ray, who was then Assistant Superintendent of Police in charge of the Balurghat subdivision. In these circumstances, Government do not propose to take any action in regard to the sub-inspector."

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

***11.**

(*a*) Is it a fact that Babu Akshaya Kumar Ganguli, who had been an officer in the Excise department for about 22 years, was some time ago degraded to the next lower grade from the grade in which he was at the time serving?

(*b*) If so, will the Government be pleased to state the reason why he was so degraded?

(*c*) Is it a fact that the said Babu Akshaya Kumar Ganguli appealed to the Commissioner of Excise, Bengal, against the order degrading him, and that the Commissioner of Excise thereupon passed an order dismissing him from the service?

(*d*) If the answer to clause (*c*) is in the affirmative, will the Government be pleased to state whether the order dismissing him was in connection with the same offence for which he was degraded as referred to in clause (*a*)?

(*e*) If not, will the Government be pleased to state the reasons for such dismissal?

(*f*) Is it a fact that the said Babu Akshaya Kumar Ganguli appealed to His Excellency the Governor in Council, or to the Hon'ble Member in charge of the Excise department, against the order of dismissal from service by the Commissioner of Excise?

(*g*) If so, will the Government be pleased to state what action, if any, the Government took in the matter?

(*h*) If the Government have not taken any action in the matter, are they considering the desirability of instituting an inquiry into the matter?

Answer by the Hon'ble Mr. Donald:—

"(*a*) Yes.

(*b*) False entries in his diaries and disobedience of orders.

(*c*) Yes.

(*d*) Yes.

(*e*) His conduct in connection with the offences for which he had been degraded and his previous bad record.

(*f*) Yes.

(*g*) Government considered the memorial and declined to interfere.

(*h*) The question does not arise."

Questions and Answers.

UNSTARRED QUESTIONS.

(*The answers to which were laid on the table.*)

By the Hon'ble Babu Brojendra Kishor Ray Chaudhuri:—

1.

What progress has been made in the work of the committee which was appointed by the Government of Bengal, with Sir Asutosh Mukerjee as President, for the purpose of advising Government as to the future organisation of the Hindu girls' education?

Answer by the Hon'ble Mr. O'Malley:—

"The Committee in question submitted its report on 31st March, 1916, and has ceased to exist."

By the Hon'ble Maulvi A. K. Fazl-ul-Haq:—

2.

With reference to the answers to my unstarred question No. 17 asked on the 5th March, 1919, regarding the co-operative societies sent into liquidation, will the Government be pleased to state—

(*i*) under which of the classes—"bad" or "hopeless"—each such society was placed initially, and on what dates;

(*ii*) how many of such societies were personally inspected by the Registrar, Co-operative Societies, after such classification, and on what dates;

(*iii*) what exact steps were taken by the Registrar to rescue the societies from ultimate liquidation; and

(*iv*) in what way do the Central Bank and the Government staff keep a *strict* watch over each such society?

Answer by the Hon'ble Mr. McAlpin:—

"(*i*) There are no records before 1915 of the classification of societies. A statement is, however, laid on the table giving particulars of the years in which the societies were so classified initially since that date. It is not in the public interest to say under what particular class each society was placed initially.

(*ii*) There is no record of the number of societies under liquidation which were personally inspected by the Registrar.

(*iii*) In different cases different steps were taken. Members were warned of the consequences of liquidation and exhorted to rescue their societies; time was allowed to them; the periods of kist instalment were extended; officers were sent to the societies to encourage the members to improve their societies; local people of influence were induced to take an interest in the societies; and Central Banks and inspecting officers were instructed to pay as much attention as possible to the societies, to inspect them freely, and to preach the principles of co-operation to the members. Sometimes societies when unwieldy were split up, the office-bearers were removed and new office-bearers appointed; bad members were expelled and better men induced to join the societies; and so on.

(*iv*) By frequent inspection and careful checking of accounts and Registers."

By the Hon'ble Babu Akhil Chandra Datta:—

3.

Will the Government be pleased to state whether the rules of recruitment for the subordinate civil service are the same as those for the provincial civil service (executive branch), requiring in both cases the same qualifications, educational and otherwise?

Answer by the Hon'ble Mr. Kerr:—

"The qualifications prescribed for candidates for appointment by direct recruitment to the subordinate civil service and to the provincial civil service are the same. Appointments by promotion to the provincial civil service are usually made from the subordinate civil service, and appointments by promotion to the subordinate civil service from lower services and departments."

Questions and Answers.

By the Hon'ble Babu Akhil Chandra Datta:—

4.

(*a*) Will the Government be pleased to state if members of the provincial executive service and of the subordinate civil service have to undergo the same training during their probationary period and are required to pass the same departmental examinations—by the lower and the higher standards?

(*b*) If so, will the Government be pleased to state since when this system has been in vogue?

Answer by the Hon'ble Mr. Kerr:—

"(*a*) Yes.

(*b*) Since 1892."

By the Hon'ble Babu Akhil Chandra Datta:—

5.

Is it a fact that members of the subordinate civil service are doing the same kind of responsible work as the members of the provincial executive service?

Answer by the Hon'ble Mr. Kerr:—

"Generally speaking, sub-deputy collectors are employed on work of less importance and responsibility than deputy collectors, and a large proportion of sub deputy collectors are employed as sub-treasury officers, circle officers, *tahsildars* in Government estates and in other posts which are not held by deputy collectors."

By the Hon'ble Babu Akhil Chandra Datta:—

6.

Is it a fact that the members of the subordinate civil service are placed in independent charge of important revenue departments, *e.g.*, settlement, *khas mahals*, certificate, partition, cess revaluation, land registration, court of wards, etc., like the members of the provincial executive service?

Answer by the Hon'ble Mr. Kerr:—

"It will be seen from pages 70—89, of the Civil List that both deputy and sub-deputy collectors are employed on settlement work, in Government estates and on partition and cess revaluation work. No deputy collector is at present employed under the Court of Wards, though two sub-deputy collectors are so employed. Sub-deputy collectors are not ordinarily vested with the powers of a certificate officer under the Public Demands Recovery Act. Officers are vested with these powers by the Collector with the sanction of the Commissioner and complete information regarding the officers at present exercising these powers is not available. Under section 84 of the Land Registration Act the Collector may delegate powers and functions under that Act to any assistant, deputy or sub-deputy collector, and Government have no information as to the officers at present exercising such powers. Neither deputy nor sub-deputy collectors are in independent charge of any of the departments here mentioned. They all work under the supervision and control of the Collector or Settlement Officer."

Questions and Answers.

By the Hon'ble Babu Akhil Chandra Datta:—

7.

(*a*) Is it a fact that in recent years a number of sub-deputy magistrates have been vested with first class and other special powers under the Code of Criminal Procedure, which were formerly exercised exclusively by the deputy magistrates?

(*b*) If so, will the Government be pleased to lay on the table a list of such officers, giving—

(*i*) the dates of their appointment to the subordinate civil service;

(*ii*) their present grades; and

(*iii*) the special powers with which they have been vested, together with the dates of such investment?

(*c*) On whose recommendations are the sub-deputy magistrates vested with first class powers?

(*d*) Is there any guiding principle underlying the investment of sub-deputy magistrates with first class powers under the Code of Criminal Procedure?

(*e*) Have the recommending authorities been instructed by any general letters, orders or circulars to adopt certain definite principles in making the recommendations?

(*f*) Was there any circular or order issued on this subject in August, 1911?

(*g*) If so, will the Government be pleased to lay on the table all letters, circulars and orders on this subject?

Answer by the Hon'ble Mr. Kerr:—

"(*a*) Until recently, sub-deputy magistrates were vested with first class magisterial powers only in exceptional cases. In 1916, however, owing to the absence with the Indian Army Reserve of Officers of a number of junior members of the Indian Civil Service, the rules were temporarily relaxed, and Commissioners were asked to nominate for first class powers sub-deputy magistrates who had exercised second class powers for some time and could be recommended as thoroughly fit to exercise first class powers.

(*b*) A statement is laid on the table.

(*c*) On the recommendation of Commissioners.

(*d*) and (*e*) The Hon'ble Member is referred to the answer to clause (*a*) above.

(*f*) Yes.

(*g*) Copies of Government circulars No. 3885 A., dated 8th August, 1911, and No. 9041 A., dated 16th December, 1916, are laid on the table."

Questions and Answers.

Circulars referred to in the answer by the Hon'ble MR. KERR *to question No. 7 (Unstarred) asked by the Hon'ble* BABU AKHIL CHANDRA DATTA *at the Council meeting of the 3rd April, 1919.*

No. 3885 A., dated Calcutta, the 8th August 1911.

From—THE HON'BLE MR. C. J. STEVENSON-MOORE, I.C.S., Chief Secretary to the Government of Bengal,

To—All Commissioners of Divisions.

THE question of vesting selected Sub-Deputy Magistrates and Collectors with first class magisterial powers has been recently under the consideration of Government. Although the primary duties of these officers are connected with the revenue administration, their services are also utilized for the trial of criminal cases. They are required to pass the Departmental Examinations by both the lower and higher standards, including the examination in Civil Law, but they are not at present given powers higher than those of a Magistrate of the second class. Some of these officers, however, have shown themselves possessed of an aptitude for magisterial work, which would justify the grant of full powers, and the Lieutenant-Governor in Council sees no valid reason why the administration should be deprived of the full value of their services. Such cases should, however, be regarded as exceptional and first class powers should only be conferred on those officers who from their standing and abilities are likely to be promoted within the next two or three years to the rank of Deputy Magistrate and Deputy Collector. I am to request that, subject to the above conditions, you will bear it in mind that it is open to you to recommend Sub-Deputy Magistrates for investment with first class powers.

No. 9041-45A., dated Calcutta, the 16th December 1916.

From—THE HON'BLE MR. J. H. KERR, C.I.E., Chief Secretary to the Government of Bengal,

To—All Commissioners of Divisions.

I AM directed to invite a reference to the circular letter No. 3885 A., dated the 8th August 1911, in which it was laid down that only those Sub-Deputy Magistrates should be recommended for first class magisterial powers who possessed special aptitude for magisterial work and who from their standing and abilities are likely to be promoted within the next two or three years to the rank of Deputy Magistrate and Deputy Collector. Owing to the deputation to the I. A. R. O. of a number of junior civilians who would ordinarily be holding charge of important subdivisions, there is a great scarcity of Deputy Magistrates with first class powers at present, and it is difficult to meet the demands for such officers. In these circumstances Government are willing to relax temporarily the existing orders about the grant to Sub-Deputy Magistrates of first class powers and to vest a limited number of Sub-Deputy Magistrates with such powers, provided they have exercised second class powers for some time and can be recommended as thoroughly fit to exercise first class powers. I am, therefore, to request that you will be so good as to report to Government at an early date the names of any such officers in your Division.

By the Hon'ble Babu Akhil Chandra Datta:—

8.

Is it a fact that the Government contemplated to confer first class powers only on those sub-deputy magistrates who were likely from their standing and abilities to be promoted within two or three years to the rank of deputy magistrates? If so, has this intention been given effect to?

Answer by the Hon'ble Mr. Kerr:—

"The Hon'ble Member is referred to the answer to question No. 7."

Questions and Answers.

By the Hon'ble Babu Akhil Chandra Datta:—

9.

Is it a fact that several important Government estates are managed by sub-deputy collectors, and that one of them has a rent-roll of 3 lakhs and 78 thousand rupees?

Answer by the Hon'ble Mr. McAlpin:—

"The Hon'ble Member will find full information on the subject at pages 78-81 of the Bengal Civil List for January, 1919."

By the Hon'ble Babu Akhil Chandra Datta:—

10.

Is it a fact that the services of the sub-deputy collectors were requisitioned by Government for recruiting and other work during the period of the war in the same way as those of the deputy collectors?

Answer by the Hon'ble Mr. Kerr:—

"Thirteen sub-deputy collectors were employed solely on recruiting duties for different periods during the war, and others did recruiting work in addition to their ordinary duties. No sub-deputy collector was employed on any form of war work except recruiting. No deputy collector was employed solely on recruiting work, but several assisted in recruiting work in addition to their ordinary duties. Five deputy collectors joined the Indian Army Reserve of Officers, and two were employed in the Military Accounts Department during the war."

By the Hon'ble Babu Akhil Chandra Datta:—

11.

Is it a fact that the sub-deputy collectors, are, as a rule, hard-worked officers and are entrusted with important and responsible duties?

Answer by the Hon'ble Mr. Kerr:—

"Generally speaking, the statement is correct."

By the Hon'ble Babu Akhil Chandra Datta:—

12.

(*a*) Will the Government be pleased to state whether it is a fact that at present some of the members of the provincial executive service, who are holding listed appointments, were formerly sub-deputy collectors?

(*b*) If so, will the Government be pleased to lay on the table a list of such officers?

Answer by the Hon'ble Mr. Kerr:—

(*a*) and (*b*) Two members of the provincial civil service who are now holding listed appointments, were formerly sub-deputy collectors, namely:—

(*1*) Khan Bahadur Muhammad Abdul Mumin, now Magistrate and Collector, 3rd grade, and Settlement Officer, Jessore.

(*2*) Khan Bahadur Saiyid Abdul Latif, Under-Secretary to Government, Revenue Department.

Questions and Answers.

By the Hon'ble Babu Akhil Chandra Datta:—

13.

Will the Government be pleased to lay on the table a statement showing the officers of the provincial and subordinate civil services who are at present holding independent charge of the following departments:—

(*i*) *khas mehal;*

(*ii*) certificate;

(*iii*) cess revaluation;

(*iv*) land registration;

(*v*) court of wards;

(*vi*) settlement; and

(*vii*) partition?

Answer by the Hon'ble Mr. Kerr:—

"The Hon'ble Member is referred to the answer to question No. 6"

By the Hon'ble Babu Akhil Chandra Datta:—

14.

(*a*) Are the Government considering the question of recruitment of the subordinate civil service and other matters relating thereto, which were stated to be "in the melting pot" by the Hon'ble Mr. Kerr in the course of his reply to the resolution moved by the Hon'ble Rai Mahendra Chandra Mitra Bahadur at the meeting of the Council held on the 19th August, 1918, with respect to the subordinate civil service?

(*b*) If so, will the Government be pleased to state what progress has been made in the matter?

Answer by the Hon'ble Mr. Kerr:—

"(*a*) and (*b*) The Hon'ble Member is referred to this Government Resolution No. 2160 A., dated the 25th March, 1919, which was published in the *Calcutta Gazette* of the 26th March, 1919, and in which *inter alia*, the question of the promotion of members of the subordinate civil service to the provincial civil service was discussed in connection with the recommendations of the Public Services Commission relating to the latter service. The Public Services Commission did not deal with the subordinate civil service, and the position of that service is not at present under the consideration of Government except to the extent stated."

By the Hon'ble Babu Akhil Chandra Datta:—

15.

(*a*) Have the Government invited the opinions of public bodies, divisional commissioners, district and subdivisional officers, and the members of the services concerned, in connection wth the recruitment, etc., of the subordinate civil service?

(*b*) If not, are the Government considering the desirability of inviting such opinions by a resolution as was recently done in the case of the provincial judicial service and of the Excise department?

Questions and Answers.

Answer by the Hon'ble Mr. Kerr:—

"(*a*) Only to the extent stated in the answer to question No. 14.

(*b*) Government propose to await opinions on the resolution relating to the provincial civil service before considering whether any action should be taken in regard to the subordinate civil service."

By the Hon'ble Babu Akhil Chandra Datta:—

16.

(*1*) Is it a fact—

(*a*) that one Shaju Khatun, wife of Kajem Mashalchi, resident of village Baburchar, police-station Sadarpur, district Faridpur, was arrested in a cloth looting case as she had on a new *sari* which was suspected to be stolen property;

(*b*) that she was in an advanced stage of pregnancy;

(*c*) that she was made to walk on foot a long distance from Maheshwardi to Bhanga;

(*d*) that after walking some distance she informed the constable and the chaukidar that she had a pain in her abdomen and asked for permission to rest a while;

(*e*) that in reply she received a blow from the said constable;

(*f*) that after walking for about three hours she began to bleed;

(*g*) that her cloth being stained with blood, her brother, also an accused in the same case, gave her a cloth to protect her from the gaze of the people;

(*h*) that on the following day she was again made to walk from Talma to Faridpur where she was admitted into the jail with her cloth soaked with blood;

(*i*) that within a few hours after her admission into the jail she was delivered of a still-born child; and

(*j*) that she was in the jail when the Hon'ble Mr. J. G. Cumming, C.S.I., C.I.E., inspected the Faridpur jail in February last?

(*2*) If so, are the Government considering the desirability of making a full inquiry into the matter and of laying the result thereof on the table?

Answer by the Hon'ble Mr. Kerr:—

"(*1*) From a preliminary inquiry which was ordered by the Inspector-General of Police when he saw a report of this case in the newspapers, it would appear that the facts are substantially as stated in the question, except that it is denied that the woman was assaulted by a constable. It is reported that when the woman was arrested, the police offered to release her on bail, but no one was willing to stand surety for her. It is also stated that on the day previous to her arrest, the woman walked ten miles of her own accord from her home at Baburchar to her father's house at Maheshwardi?

(*2*) The District Magistrate of Faridpur has directed the Sadar Subdivisional Officer to hold a full inquiry into the matter and the result will be laid on the table in due course."

(*a*) Are the Government considering the desirability of allowing the students who were permitted to appear at the Final Licentiate Examination of the State Medical Faculty but could not, owing to unavoidable circumstances, appear at the said examination or got plucked in more than two subjects in 1916, an opportunity of appearing at the said examination to be held in November, 1919?

(*b*) Do the Government contemplate asking the sanction of the Government of India for the extension of this privilege to the said students?

(*c*) Was there any memorial received by Government from the public for granting the above concession to the said students?

(*d*) If so, will the Government be pleased to lay the memorial on the table?

Answer by the Hon'ble Mr. Donald:—

"(*a*) No. Government do not propose to go beyond the concession intimated in the press *communiqué* of the 3rd February, 1919, a copy of which is laid on the table.

(*b*) No.

(*c*) The Chittagong Association submitted a memorial asking that the privilege of appearing at the Faculty Examination for a considerable period, or at least till November, 1918, be extended to all those who could not avail themselves of the opportunity of appearing at the examination held in November, 1916.

(*d*) A copy is laid on the table."

PRESS COMMUNIQUÉ.

Calcutta, the 3rd February, 1919.

IN modification of previous orders on the subject, the Governor in Council has now decided that candidates who were permitted to appear at the Final Licentiate Examination of the State Medical Faculty of Bengal, held in November, 1916, under the certificates granted by Government under the Transitory Provisions of the Statutes of the Faculty, but who failed in one or two subjects, will be allowed to re-appear at the examinations of the Faculty up to and including the examination to be held in November, 1919. Such candidates will be exempted from the obligation of undergoing further instruction in the subject or subjects in which they may have failed. The examination to be held in November, 1919, will be the last examination under the Transitory Provisions of the Statutes of the State Medical Faculty.

Questions and Answers.

Memorial referred to in the answer by the Hon'ble MR. DONALD *to question No. 17 (Unstarred) asked by the Hon'ble* KHAN SAHIB AMAN ALI *at the Council meeting of the 3rd April, 1919.*

From—The Joint Secretary, Chittagong Association, Chittagong,
To—His Excellency The Right Hon'ble Lawrence John Lumley Dundas, Earl of Ronaldshay, G.C.I.E., Governor of the Presidency of Fort William in Bengal in Council, Calcutta.

May it please Your Excellency,

I have been asked by the Chittagong Association to lay the following facts for favourable consideration of Your Excellency in Council.

1. That your Excellency's Government was pleased, when the Bengal Medical Act was passed, to permit the passed students of the Calcutta Medical School, Belgachia, to appear at the Final Licentiate Examination of the State Medical Faculty within two years of its constitution; and the passed students of other medical institutions were allowed the same privilege about one year after that. At the same time this fact was not known to many passed students of these institutions. Some, no doubt, appeared at the examination, but with a few exceptions, got plucked in it as they were unable to prepare themselves for the examination within the short time at their disposal after they came to know of the permission.

2. That your Excellency's Government has been further pleased to allow those practitioners only who failed for the first time in one or two subjects of the Faculty Examination held in November, 1916, to appear again at the next examination. But unfortunately the same privilege has not been extended to those who could not appear at the said examination as owing to shortness of notice, illness or other accidental causes, they could not prepare themselves for it. Thus some persons will enjoy greater privileges which will be denied to those of at least equal ability simply because the former has the chance of appearing at the examination which the latter could not avail themselves of.

3. My association thinks that it will really be very hard for those medical practitioners who for reasons mentioned above could not appear at the examination to carry on the very useful work that they have been doing in the whole country and to earn their own living even, if they be not granted the privilege of qualifying themselves as medical practitioners according to the Bengal Medical Act.

4. That two years mentioned in paragraph 1 having now expired a large number of practitioners are placed into disability to continue their profession and those in whose services they have been so employed are not willing to retain them in service unless they pass the prescribed examination.

5. Your Excellency's Government has already been signalised by a great effort towards the amelioration of the condition of the people by fighting against the diseases in the country, malaria, cholera, etc. Your Excellency is not unaware of the fact that medical practitioners are very few in number in proportion to the population of the country and the people therefore are in need of an adequate number of passed practitioners in view of great many diseases carrying away thousands of people every year.

6. My association therefore prays that your Excellency's Government will be graciously pleased to extend the privilege, viz., the time of appearing at the Faculty Examination for a considerable period or at least till November, 1918, to all those who could not formerly avail themselves of the opportunity.

I have the honour to be,

Your Excellency's most obedient servant,

PARESCHANDRA SEN, Vakil,
Jt. Secretary, Chittagong Association.

CHITTAGONG;
The 14th February, 1918.

Questions and Answers.

By the Hon'ble Khan Sahib Aman Ali:—

19.

With reference to the reply to my unstarred question No. 2 asked at the meeting of the Council of the 21st January last regarding the grant of hill allowance to the teachers of the Rangamati Government High English School, are the Government considering the desirability of—

(*i*) taking up at an early date the case of those poorly paid teachers residing at Rangamati with its many disadvantages, without waiting for the Director of Public Instruction to move in the matter; and

(*ii*) giving them the privilege with retrospective effect from the date on which the allowances of other officers were increased?

Answer by the Hon'ble Mr. O'Malley:—

"(*i*) The Director of Public Instruction is being asked to give the matter his early attention.

(*ii*) It is not usual to grant retrospective effect to any such privilege, nor can any hopes be held out that orders will issue with retrospective effect in the present case."

By the Hon'ble Khan Sahib Aman Ali:—

20.

(*a*) With reference to the reply to my unstarred question No. 3 asked at the meeting of the Council of the 21st January last regarding the new recurring grant for Government high school teachers, will the Government be pleased to state why the teachers cannot get the benefit of that grant from the 1st April, 1917?

(*b*) If the increment of pay from that very date cannot be granted, will the Government be pleased to grant some bonuses to the poorly paid teachers in the place of increment of pay?

(*c*) Is there any likelihood of the educational grant lapsing after a period of three years from the date of the grant?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) and (*b*) It is not possible to utilize the grant for the benefit of the teachers in question until the sanction of the Government of India to the proposals of this Government is received.

(*c*) It is presumed that the question relates to the possibility of the 9 lakhs grant made to this Government by the Government of India being discontinued. The grant is recurring and is therefore not likely to be discontinued within three years after it was first made."

Questions and Answers.

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

21.

(*a*) Will the Government be pleased to state—

(*i*) how many appointments in the provincial judicial service are likely to be made up to the end of March, 1920;

(*ii*) whether the nomination for probable vacancies up to the end of March, 1920, has already been made; and

(*iii*) how many appointments have been made since April, 1918?

(*b*) Is it a fact that the names of certain enrolled candidates have been removed from the "list of enrolled candidates" on the ground that they are not likely to get an appointment by March, 1920?

Answer by the Hon'ble Mr. Duval:—

"(*a*) (*i*) Fifteen.

(*ii*) Yes.

(*iii*) Eighteen.

(*b*) Yes."

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

22.

Will the Government be pleased to lay on the table a tabular statement showing—

(*a*) the names and residences of the persons referred to in clauses (*a*) and (*b*) of question No. 21;

(*b*) the ages of the persons referred to in clauses (*a*) and (*b*) of question No. 21 on the dates of—

(*i*) their nomination,

(*ii*) the removal of their names from the list of enrolled candidates, and

(*iii*) their appointment,

referred to in clauses (*a*) and (*b*) of question No 21;

(*c*) in detail the educational career of the persons referred to in clauses (*a*) and (*b*) giving the division in which such persons passed the B.A. or B.Sc. or M.A or M.Sc. and B. L. examinations; and

(*d*) the special reasons, if any, for—

(*i*) their nomination,

(*ii*) the removal of their names from the list of enrolled candidates, and

(*iii*) their appointment,

referred to in clauses (*a*) and (*b*) of question No. 21?

Answer by the Hon'ble Mr. Duval:—

"(*a*), (*b*) and (*c*) Statements containing this information are laid on the table.

(*d*) Government cannot give the reasons for the nomination or striking off the list of each candidate. The Hon'ble High Court fully considered the case of every candidate before removing his name from the list."

"Copies of the petition and the order of the Presidency Magistrate are laid on the table."

JITENDRA LAL BANERJEE, of 84, Sitaram Ghosh's Street, Calcutta,

versus

A. B. JOHNSTON, of 33-1, Amherst Street, Calcutta.

CHARGE :—Under Section 295, I. P. C.

Facts in brief.

The complainant is a member of the Hindu community and is a Hindu by faith and practice. The accused is a Christian and is the Principal of the St. Paul's Cathedral Mission College, Calcutta. As Hindus, the complainant and other members of the Hindu community worship *Saraswati*, the goddess of Learning, and hold her image as a sacred object.

This year some Hindu students of the St. Paul's College performed the worship of *Saraswati*, by erecting an image and with proper ceremonial, on the 5th of February last, at a house in Nursing's Lane. But as the house had to be vacated on the very next day and as the said students could not arrange for the immersion of the image so had the same removed on 6th February, 1919, to the dining-hall of a Hindu mess attached to their college and located within the college precincts. The accused, on receiving information of this, came down from his quarters, enquired of some students as to why the image had been brought there and by whom, and directed it to be removed at once. Accordingly the students instructed a Hindu servant of theirs to take back the image to the place where it had been worshipped and keep it there for the night. It being past 9-30 P.M. the students could not leave their quarters to accompany the servant; but the accused followed the servant outside the compound and there ordered the servant to deposit the image on the footpath. The servant having done so, the accused caught hold of the image and threw it into a dustbin which stood near by and which is meant as a receptacle for street refuse, thereby defiling an object held sacred by the complainant and the Hindu community generally and committing a grave and wanton outrage on the feelings of the Hindu community.

The accused was asked to apologise but has not done so though sufficient time was granted to him for the same.

(*a*) Is it a fact that the late Mr. B. Pal Chowdhury, zamindar of Nadia, left a bequest of a considerable portion of the income of his estate, estimated at between 30 to 40 thousand rupees a year, to the District Board of Nadia, for the purpose of establishing and maintaining primary schools in villages appertaining to his estate, and also for establishing and maintaining a technical institute in Krishnagar or in any other suitable place within the estate?

(*b*) If so, will the Government be pleased to state what steps have been taken by the District Board of Nadia in the matter?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) Government are informed that in his will Mr. B. Pal Chaudhury, zamindar of Maheshganj, Nadia, made a bequest under certain conditions of a percentage of the profits of his estate approximately for the purposes mentioned in the question.

(*b*) It is reported that the District Board has for some years past been trying to obtain the money from the trustees of the estate, but have met with the reply, first that there were no profits up to the end of the Bengali year 1324 and recently that the scheme contained in the will for the appointment of a Board of Trustees is not valid in law and that the Board which was formed has no *locus standi.*"

By the Hon'ble Babu Bhabendra Chandra Ray:—

25.

(*a*) With reference to the answer to my unstarred question No. 9 of the 5th March last, regarding free-studentships in primary schools, will the Government be pleased to state whether the rules for the award of free-studentships in Government and Government aided schools, referred to therein, prescribe any maximum number of such studentships?

(*b*) If so, what is the purport of such rules?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) and (*b*) A copy of the rules for the award of free-studentships in Government as well as in Government-aided schools is laid on the table."

Questions and Answers.

Rules referred to in the answer by the Hon'ble MR. O'MALLEY *to question No. 25 (Unstarred) asked by the Hon'ble* BABU BHABENDRA CHANDRA RAY *at the Council meeting of the 3rd April, 1919, for the award of Free-studentships in Government as well as in Government-aided Schools.*

1. (*a*) Free-studentships in Government schools under the control of managing committees are awarded by the committee.

(*b*) The Inspector and the Inspectress of Schools control the award of free-studentships in Government schools for boys (including mixed schools) and Government schools for girls, respectively, which are not under managing committees.

2. Teachers in Government schools, drawing salaries not exceeding Rs. 50 a month, are allowed the privilege of educating, in the school in which they are employed, one child free and one child at half the usual rate of fees. Head Masters or Head Mistresses may grant these concessions.

3. Government pensioners (other than menials) who have retired from service in the Department of Public Instruction, and whose pensions do not exceed Rs. 25 a month, may be allowed the same privileges as teachers in Government schools. The concessions may also be extended to the orphans of officers who died in the service of the department while in the receipt of pay not exceeding Rs. 50 a month; and also to the orphans of pensioners of the department (other than menials) who were drawing pensions not exceeding Rs. 25 a month.

4. In Government as well as in Government-aided schools the numbers of non-Muhammadan and Muhammadan free students will ordinarily be five per cent. of their respective enrolments, excluding free places granted in terms of the two preceding rules as well as scholarship-holders who have been granted free tuition.

5. In view of the backwardness of the Moslem community, Muhammadan pupils in Government as well as in Government-aided schools will be allowed additional free places (over and above those provided for in the preceding rule) up to a limit of a further ten per cent. of their own enrolment.

6. No pupil shall be eligible for a free-studentship who is above the age-limits prescribed in the Appendix on the 1st January of the year in which the award is made.

7. Boys above those age-limits, who have already been awarded free-studentships, may be allowed to enjoy these privileges so long as they fulfil the condition laid down in rule 8.

8. Free-studentships are awarded on conditions of good conduct and satisfactory progress as determined by school examination.

With reference to the probable savings of Rs. 12 lakhs and odd shown under the expenditure head of "Education" in the Budget estimate of 1919-20, will the Government be pleased to state how this figure has been arrived at, and what particular savings are expected to be made under each minor head?

Answer by the Hon'ble Mr. Donald:—

"The Government of India directed the inclusion in the Budget estimates of the following allotments to give effect to the recommendations of the Calcutta University Commission for—

(*a*) schemes recommended by the Commission—Rs. 10 lakhs, and
(*b*) the new Dacca University—Rs. 5 lakhs.

Government were of opinion that a decision was not likely to be arrived at on the recommendations of the Commission in time to admit of expenditure

during the year to an amount in excess of Rs. 3 lakhs, and a saving of Rs. 12 lakhs is, therefore, shown against the total of these allotments. Should it be found, however, that a large expenditure is practicable, sums up to the full amount of Rs. 15 lakhs will be available."

(*a*) With reference to the answer to my unstarred question No. 11 of the 5th March last, regarding the manufacture of salt by Indians, will the Government be pleased to state the "conditions" under which Mr. P. C. Dass of Cox's Bazar desired to manufacture salt, and in what respects the said conditions did not provide adequate safeguards for the Government revenue?

(*b*) How do the said conditions differ from the conditions under which Mr. Glen George is manufacuting salt, in so far as security for Government revenue concerned?

(*c*) With reference to the two applications made by Surendra Chandra Ghosal and others, as also by Mahendra Chandra Ghosal and others of Chittagong, have the Government made any inquiries from them since they were asked to consult the salt department?

Answer by the Hon'ble Mr. Donald:—

"(*a*) The applicant desired that no special arrangements should be made for the necessary supervision over manufacture and that no extra preventive staff should be entertained for this purpose till such time as the project was matured. Government concurred in the opinion of the Commissioner of Excise and Salt and of the local authorities that as the manufacture would extend over a considerable area, and as it was quite possible that even with the best intentions the applicant would be unable to guard against illicit appropriations, this condition could not be accepted.

(*b*) Mr. Glen George has agreed to the employment of a special staff for the purpose of supervising the manufacture of salt.

(*c*) No."

By the Hon'ble Babu Bhabendra Chandra Ray:—

(*a*) Are the Government aware of the suitability of the brine on the Chittagong side for the manufacture of salt, and have they any information as to the comparative advantages of such manufacture on the Midnapore and Chittagong sides, respectively?

(*b*) What steps, if any, have Government so far taken to encourage the manufacture of salt on the Chittagong side?

Answer by the Hon'ble Mr. Donald:—

"(*a*) The Hon'ble Member is referred to the speech made in this Council by the Hon'ble Mr. Donald on the 22nd January, 1918, in the debate on the resolution moved by the Hon'ble Babu S. N. Ray. While on the one hand the brine on the south of the Chittagong district may be better than that off the Midnapore coast, Chittagong is unfavourably situated as compared with Midnapore in respect of other factors—proximity to the chief markets, coal, etc.

(*b*) Government have taken no further action than that already indicated in the speech referred to."

LIST OF BUSINESS—ITEM No. 2.

DISCUSSION OF THE BUDGET OF THE GOVERNMENT OF BENGAL FOR 1919-20.

The Hon'ble Babu Siv Narayan Mukharji said :—

My Lord, I feel sure I have the concurrence of my hon'ble colleagues in my conviction that we are grateful for the opportunity afforded to us, by the invitation of your Excellency's Government, of advancing our views on the Budget for the coming year which was presented at the last meeting of this Council. Concocted by the brains of able financiers and passing through the deft fingers of expert statisticians the statement, with all its seeming discrepancies punctiliously explained away, its dry-as-dust character relieved by the almost irrefutable logic of expediency and justice, stands out to-day, in all its wealth of details and its hopeful forecast of a year of prosperity, as a finished piece of financial programme for the dawning year. Ordinarily the long arrays of figures which increase the bulk of such statements have either a sleep-inducing tendency or have the effect of scaring away the superficial observer. But, having regard to the abnormal conditions that prevailed during the four eventful years of the great European War, and from the effects of which this country has not yet completely recovered, it may be asserted without fear of contradiction that the Hon'ble Finance Member has deserved well of the country for having rendered real service to the State by introducing a statement which, on its receipts side, reveals a state of prosperity and advancement and on its expenditure side (except perhaps in the case of certain important branches of administration) gives clear indication of a policy of strict economy quite in keeping with the situation created by the war. But, while I feel bound to congratulate the Hon'ble Finance Member on his anticipating still further growth of revenue under stamp, excise and income tax in particular, as also on his providing for a large increase of expenditure under education, sanitation and public works, I cannot help giving expression to a sense of disappointment for the absence of any provision first for bringing down and then regulating the prices of food-stuffs and clothes. In seeking the indulgence of submitting to this House, by way of a digression of outstanding significance, this question of questions, that of the prime necessaries of life, I hope I do not expose myself to the imputation which the foremost British statesman of the last century levelled against certain members of Parliament when he declared that "efforts are constantly being made by the different sections of the House of Commons to press for an increase in the public expenditure for the promotion of their own favourite ideas." The prices of food and raiment have gone up beyond all expectation, more in fact than double of what 20 years ago would have been considered as famine prices, and people of all classes have begun to throw up their arms in despair. Is it not, my Lord, time that Government should, even at some cost, devise means to feed and clothe their many millions of subjects at a moderate cost, and with that object in view, will it not be politic, nay, will it not be just, to make some provision in the Budget estimates for the approaching year? But, while I expouse the cause of those who are at this hour actually feeling the pinch, I am confronted with the fact that the expected increase in the income under excise is due to the increased consumption of country spirits in certain districts. Paradoxical though it may appear I have my explanation in the fact that I plead not for those low class men who are either employed in the mills or who live on daily wages and have no thought for the morrow and with whom the epicurean doctrine of "eat, drink, and be merry" is the guiding rule of life, but for those of the better classes whose frugality, sobriety and continence are of very little avail in their hard struggle for existence. To them the State is morally bound to render every help in order that they may get on and not die of absolute want. The fact

therefore, of the probable revenue under "excise" exhibiting extraordinary elasticity would form an index to the extent of the moral depravity of those sections of the population that would contribute towards it.

We have the assurance of the Hon'ble Finance Member that the imposition of the excess profits duty will result in a loss of income-tax since a rebate will be given. This apparent loss, because only a paper transaction, will, however, be accentuated by the decision of the Government of India to exempt incomes below Rs. 2,000 *per annum*. This latter concession will be hailed by the public as a real blessing, and as such will be thankfully appreciated by them.

The Province cannot be too grateful to Government and to your Excellency personally for the generous provision made in the Budget under Sanitation for combating malaria, which claim over 40,00,000 annually as its victims, and furthermore for your Excellency's humane efforts to run to earth the insidious new malady known as the "hookworm disease," by ordering organized investigations to be made under the ægis of medical experts. But, my Lord, I crave the liberty to share the general impression that these maladies, malaria, hookworm, and all the rest, owe their origin to insufficient and unwholesome food, to insanitary habitations, and scanty clothing, and are but the inevitable offsprings of poverty. If, therefore, these evils have to be exterminated, and if real, permanent relief is to be imparted to the millions suffering from these scourges the condition of the ill-fed, ill-clothed masses will have first of all to be improved, and what in modern scientific parlance is known as their opsonic index will have to be raised. Until that is done there is very little hope of all humane efforts in this direction proving of any avail.

The expenditure side of the estimates does not show signs of any especial provision having been made for improving the local habitations and the general status of the primary schools which are going to be started when the Bill of which my friend the Hon'ble Babu Surendra Nath Ray is the sponsor becomes law. For some years past the unspent educational contribution of the Government of India has been allowed to be a veritable dead-letter and to swell the balance at the end of the year. The extent to which the resources of the Province will be drawn upon in giving effect to the recommendations of the education commission is not known; but there is no denying the fact that the demand upon the public revenues will be very large.

I cannot conclude without quoting what the late Mr. Gladstone once said regarding the guiding principles in matters of this kind:—"I admit that public economy is a matter of first importance, but it is not the only principle of sound finance."

The Hon'ble Kumar Shib Shekhareswar Ray said:—

"My Lord, this year's Budget is of special interest to the community which I have the honor to represent in this Council, namely, the zamindars of Bengal. We and our tenants are vitally interested in agriculture, co-operative organization, primary education, village sanitation and general rural development, and I notice with grateful appreciation the liberal manner in which provisions have been made for these subjects in the current year's Budget.

Under the head "Agriculture", I find that arrangements have been made to give a District Agricultural Officer to each district and a new appointment of a Deputy Director of Agriculture has been sanctioned. An increase has also been made in the strength of farm superintendents. Provisions for buildings for imparting agricultural instructions and experimental farms also have received a fair treatment. Allotments to "divisional seed stores" and "public exhibitions", though do not show an increase over last year's

Discussion of the Budget.

Kumar S. S. Ray.

Budget estimate, yet are in excess of what we find in the Revised Estimate of that year. I also understand that the residue of the special grant made by the Government of India last year, amounting to Rs. 1 lakh, is also available for expenditure this year.

Considering the importance of the subject and the wide scope of development and expansion which this subject affords, the allotments are by no means adequate, but in view of the present general want of activity, and disorganized condition of the Agricultural Department, I ought to say that the funds which have been placed at its disposal are ample and satisfactory for the present. It is to be regretted, my Lord, that the department could not spend the sum that was allotted to it last year under the heads "seed stores" and "public exhibitions", two of the most important items which could bring home to us the practical usefulness of the department. There is a general impression in the public mind that this department is doing no useful work; the other day, my friend, the Hon'ble Maulvi Fazl-ul-Haq, gave vent to this feeling here, in this Council; and I know, my Lord, that his views are shared by a large section of the public, though I, for myself, do not quite subscribe to his views. I have gone through the various reports of this department and I must say that, after all, this department is rendering some service to the country, but I must admit at the same time, my Lord, that this department has practically failed to secure public interest in its work, and the fault, undoubtedly, is to be attributed to the Agricultural Department. The officials here, unfortunately, maintain an aloofness of experts and the reserve of a superior personality. They seem to forget that it is a department, succes of which, entirely depends on public co-operation and encouragement from the big landholders. To give an instance, from the reports I find that there is a big establishment at Rajshahi, but I am sorry to observe that though I own a considerable tract in Rajshahi, and have much sympathy in matters concerning agriculture, yet I have not been able to discern any sign of its activity that, independently of its reports, would have led me to believe that there was such an establishment at Rajshahi, which, according to the reports, is, presumably, doing some useful work. My Lord, such is the case almost everywhere as I learn from my friends in other parts of the province. This is a sad state of affairs: without public sympathy the department can never flourish, and unless it co-operates with the public and makes an effort to come in closer contact with the people, all its experiments and researches come to naught. It is, therefore, necessary that this department should be carefully organized to interest the public in its activities. It should not be allowed to finish its duty merely by carrying on experiments and researches away from the public gaze and publishing belated annual reports and issuing occasional statistical returns mostly based on guess-work, nor should we permit it to continue its mysterious methods of distributing seeds, its want of system in giving practical demonstrations, and above all its present stand-offish attitude and exaggerated notions of self-sufficiency Much surely depends on the various heads of this department; if they are popular, energetic and have a heart in the success of their department they can surely evolve schemes and give effect to them and thereby make the whole thing a subject of popular interest. This is a matter which, if properly handled, is sure to attract the zemindars and raiyats alike. But, my Lord, it appears that this department is manned, from top to bottom, only by learned experts engrossed in their theoretical experiments and scientific researches. In this way the department will surely become a highly qualified and academically valuable State Research Society, but never an institution from which our average agriculturists might expect some practical help. I would, therefore, most respectfully urge, my Lord, that this department be properly organized on practical lines of public utility and general popularity, and that a man or two, endowed with a little power of imagination, and having some initiative and organizing capacity, be taken into

Kumar S. S. Ray.

the department, so that, my friend, the Hon'ble Maulvi Fazl-ul-Haq, may not have an occasion next year to denounce the department as he did this year so eloquently, surely not because of its uselessness as a department, but, I think, rather because of its failure to demonstrate its usefulness.

My Lord, I now turn to a more popular department, namely, the Co-operative Department. What the personality of the head of a department and his determination and sincerity of purpose can achieve, is amply illustrated in this department. I am glad to find that this department has received a grant of Rs. 1 lakh in excess of its last years Budget, and an additional grant of Rs. 30,000 for quarters for the Joint-Registrar at Naogaon. Speaking of these quarters, I fail to understand why an out-of-the-way place like Naogaon has been selected for the seat of the Joint-Registrar. Naogaon is a ganja growing tract, and ganja has undoubtedly a peculiar charm about it, and presumably co-operation must have been highly successful among people living in a ganja atmosphere to justify the selection of Naogaon for the quarters of the Joint-Registrar, but as a matter of principle, these seats should be located at the headquarter stations of the districts where these officers would have a much greater field for their work. I am also led to think that a very large portion of the allotment to this department is being absorbed in salaries, and I beg to submit that a larger portion should be spent on propaganda work, including public lectures and publication of useful literature. A decent provision has been made for the development of industrial societies and we eagerly wait to see the schemes which the Registrar is going to give effect to, in this connection.

My Lord, Sanitation has received a very liberal consideration this year. We eagerly look forward to the results of various new investigations that are proposed to be taken up by this department. A lump-allotment of nearly Rs. 14 lakhs has also been made to this department, but no detail of the schemes has been given on which the money is to be spent. The very vagueness about the allotment makes one to entertain the doubt that much of this amount would ultimately go to swell up the opening balance next year. I, however, hope that the Hon'ble Member in charge of this department would be pleased to give us some details regarding the proposals on which the amount is likely to be spent during the year, so that we might know in what way we are going to be benefitted by this generous allotment to this department. I find that a sum of Rs. 10,000 has been provided for a Publicity Bureau in connection with Sanitation. I am, however, afraid that this is a very inadequate provision for the many useful and instructive schemes which the department proposes to undertake in this direction. I would, therefore, strongly urge upon the Government to divert, if possible, to this branch of work, some decent amount from the lump-allotment of Rs. 14 lakhs to Sanitation. It is undoubtedly an excellent idea, but the work must be done on a scale which would enable us to properly appreciate the utility of a work of this nature.

My Lord, influenza has played havoc in the rural areas, and I would have felt much assured if the Government had properly realized the situation and made an adequate provision to combat the disease in these areas. I, however, still entertain a hope that special grants would be made to the Local Bodies to enable them to take precautionary measures against further ravages of this terrible disease in our rural areas.

My Lord, before I conclude, I acknowledge with much pleasure the consideration that has been shown to the petty clerks of the Registration Department, and this tempts me to hope, my Lord, that ere long, your Excellency's Government would do something to improve the condition of the ministerial staff attached to the mufassal courts with a view to enable them to desist from resorting to extortion and other under-hand practices which have become a matter of serious concern to the litigant public in the mufassal.

Discussion of the Budget.

Sir D. P. Sarbadhikari.

By the Hon'ble Sir Deba Prasad Sarbadhikari said :—

I congratulate the Hon'ble Sir Henry Wheeler on his lucid presentment of the year's Budget. Its easily intelligible form is very acceptable, and next year further improvement may be possible in the shape of a good index or some method of flagging. There is noticeable increase of expenditure in some of the long neglected directions, and though the increase is not adequate under important headings like education, sanitation, co-operation and productive public works, there is a welcome advance which makes one hope better for the future.

The grant to private colleges through the Director of Public Instruction on the recommendation of the University had been suspended for the past few years. This has told heavily on the situation, and the colleges whose sources are extremely limited have not been able to show the good work that could be well expected of them. The provision of Rs. 3 lakhs made in the Budget for University improvements will not meet the requirements about which I speak. The private colleges require their old grant, and if the arrears cannot be paid off all in one year, the payment ought to be spread over a short number of years. In Calcutta Lord Hardinge's generous hostel gift has, to a certain extent, relieved the situation so far as the residential question is concerned, but the other difficulties continue and both the Calcutta and mufassal private colleges badly require the arrears of this grant as early as possible.

The need of strengthening medical and technological education has been strongly brought out. The primary education bill and the clearly indicated need of improving literacy in connection with the co-operative movement, will put the claims of primary education on an altogether new basis. Anxious enquiries are often made about the Royal special grant for education, but the answer has not proved satisfactory. The pay and prospects of our teachers in the lower grades is another matter of anxiety. It is gratifying that in the higher Educational Service recognition has at last been accorded to some selected members of the Provincial Service ; but it will always be noteworthy that the recognition came too late and that men like Sir P. C. Roy ended their career in the Provincial Service. With the end of the war many of the Professors who have rendered admirable war service would be naturally returning to their posts and will have a warm welcome. Their return, however, will naturally displace some worthy men who consented to take up temporary work, and would be now out of service. I would plead for their claims being recognized whenever possible. The success of the Bengal Ambulance Corps inaugurated within two days after the war broke out, which was followed by the Bengali Regiment, the Bengal Light Infantry and the Calcutta University Corps makes one think that the authorities would be inclined to nurse this spirit. If this spirit is to be effectively nursed the Boy Scout movement has to be placed on a more satisfactory footing and compulsory drill should be introduced in our schools and colleges.

This year there has not been the usual crop of resolutions for improvement of the Provincial Executive and Judicial Services. This silence is not due merely to hoarseness of voice brought on by incessant but fruitless cries in the past ; nor is it silence of despair or of protest. Some of us successfully objected to the appointment of a fresh committee to consider the recommendation of the Public Services Commission on these subjects. Action in this direction will be immediately necessary.

Though the public does not know much about it, the question of medical service is before what one cannot help calling a service committee. Your Excellency has expressed great solicitude for the future of the medical and sanitary services of your Government, and it is to be hoped that their interest will not be allowed to suffer by any side-issues raised through an agency that does not take the people sufficiently into its confidence. The Sanitary Department and the Sanitary Engineer's Department, that have begun

Discussion of the Budget

Sir D. P. Sarbadhikari.

excellent work, have been gradually remoulded for comprehensive work, and it is hoped that in districts city-sanitation will improve in consequence.

It is gratifying to note that important developments in connection with the co-operative movement are in contemplation, and one can only hope that the resolutions adopted in conferences like those at Simla and Calcutta this year and last year, will find acceptance. Without strengthening of the people's finances, by means of sound co-operation, the Reforms for which we are anxiously looking forward and all that is expected in their train, will be indfinecitely deferred.

There is an element which cruelly threatens people's prosperity and the strength of the Government from a different direction. Some of our friends in the official ranks took unaccountable pleasure in telling temperance representatives last year that the seeming shrinkage in the people's drink bill was not due to triumph of temperance principles, but to the passing disturbing factors of the moment and that the drink bill will go up with returning prosperity. They have, I am sorry to admit, partially proved good prophets, and though drink does not and cannot lead to prosperity returning, prosperity has apparently led to more drink.

The Hon'ble Member in charge has described the Excise revenue as the mainstay of the finances of the province, or in other words, the Prosperity Budget of Bengal is fattened by alcohol and drugs.

The Excise receipts for 1916-17 were Rs. 1,44,00,000 as against a Rs. 1,84,00,000 for the year before us. According to the revised figures there is a further increase of Rs. 3 lakhs under this head.

The introduction of many reforms, for which temperance workers are very thankful, partly accounts for this formidable increase. In Calcutta and some selected districts the auction system has been replaced by the fixed-fee system. More effective steps have been taken for stopping adulteration and illicit practices. But such abnormal increase makes not only temperance people but the whole country anxious.

I shall not for the moment raise the cry of total prohibition. It must, however, be the temperance cry in the immediate future, whatever the financial results may be; and in a matter like this Government will not be guided by mere considerations of finance. A great experiment is going on in the West and the Far West and nearer home in the Bhownagar State, the results will have to be carefully watched. If the evil is long allowed unchecked embarrassing complications will arise, and the East may have to witness what the West must be ashamed of to-day.

It cannot be questioned that no more than 10 per cent. of the people of Bengal are affected by drink and drug habits so far, and of this 10 per cent. 8 per cent. is guilty of excess and at the most 2 per cent. can be reckoned as legitimately wanting drink and drugs. With a people situate like this it would be very short-sighted indeed not to take early and effective steps for stopping excess in the case of the 8 per cent. and absolutely protecting the large residue of 90 per cent., who by heredity traditions, climatic and economic conditions and social requirements are averse to drink and drugs.

Temperance workers are not the idealists and faddists that former Excise authorities proclaimed them to be and they try to meet the authorities half-way and to get the best that they can out of the situation. The dry educational area in Calcutta, started as an experimental measure, has entirely succeeded and I have no doubt that the experiment will be further carried out not only in Calcutta but in other towns also. Better hours are now in force and a better class of vendors is being secured. It is almost settled that next year 15 country-spirit shops will be abolished, and with regard to location and sites the exertions of the licensing board have commended themselves to the Excise authorities in most instances. I take this

Discussion of the Budget

Sir D. P. Sarbadhikari.

opportunity of paying a warm tribute of whole-hearted admiration to Mr. A. N. Moberley who as Excise Commissioner, has done yeoman's service in the cause of temperance, without in the least hurting revenue.)

(He was loyally seconded by his personal assistant, his deputy commissioners, his superintendents and other officers who have all deserved well of temperance workers and the country. The department is daily having imposed on it more and more responsibilities and delicate duties and as a self-contained department I would do much to see it placed on a more satisfactory footing. Purity and singleness of purpose must be the key-note of the success of the service. I believe in giving credit where it is due, and it is because so much has been done in the past that more is naturally expected in the larger interest that I have the honour to represent.)

(We must now insist upon effective steps being taken to limit the consumption, both of country and foreign liquor, as has been done in the case of opium. In the 24-Parganas the increase was as much as 79 per cent. as compared with the previous year. In Hooghly the increase is 52 per cent. Similar increase is noticeable in Howrah. In Calcutta the increase is 10 per cent. In in the district of Mymensingh the increase was noticeable though in the neighbouring district of Dacca, to its credit, no increase is noticeable. This would go against the theory of increase in country spirits being due to the higher price of foreign liquor, and it will probably appear on closer investigation that the increase is quite independent. For the lay outsider to get the innerness of the situation is exceedingly difficult, particularly as statistics are not furnished in the same way as is done in Great Britain and other countries where the situation is always closely watched. I am aware that a bold increase in the price and duty has been effected only very recently, namely, from 1st February. It is quite possible that a welcome change may follow this measure, initiated by the incoming Excise Commissioner, Mr. Mukherjee, whom I warmly welcome to the department.)

(We ought undoubtedly to wait and watch. In the meantime, however, there are some practical measures which may be well commended to the attention of the Government. Is there any reason, for example, why the strength of the country spirits should not be lower? The consumer would be no worse for getting 30 under-proof in the place of 25 or 50 under-proof in the place of 40. It would be all the better for him and revenue would be no worse. In the second instance it may well be urged that the experiment tried in the case of opium, namely, restricted consumption by placing a limit on the quantity allowed to be sold by each shop, which has led to good results, should, at least in selected areas, be tried in the case of country liquors. It has also been suggested that the mixed system of what is known as off-and-on sale, that is to say, sale by bottles and sale by measures, for consumption on the premises may be done away with and some shops should be restricted to off-sales and others to on-sales at least in Calcutta. Some important changes have also to be introduced in the Foreign Liquor Traffic—the current licensing fee system has to be revised, which, I am sure, would result in a large increase of revenue; the credit sale system has to be stopped immediately and, accounts and records ought to be kept properly.

That is not all. We require powerful counter-attraction as well. I claim with confidence that the difficulty elsewhere is not Bengal's difficulty yet, although a large labouring population from the United Provinces and Bihar has probably contributed to increase of consumption in the mill population and other labouring classes, for which Bengal proper cannot be held accountable. Popular entertainments, cinema shows, lectures and better organised tea-houses in suitable localities will yet counteract the evil.

Not the least important of our safeguards would be a well organized, contended and pure service.

Discussion of the Budget.

Sir R. N. Mookerjee.

Increase of revenue ought not to be the passport to an officer's preferment and he ought to feel the strength of security which a well-organized service alone can procure. The officer in this department ought not to enjoy a lesser status and lower pay than members of the Provincial Executive Service. I shall not now attempt to go into this question in detail, as the Public Service recommendations will soon come up for considertaion.

It may appear remarkable in a temperance advocate to advocate the betterment of the pay and prospects of the department that he has constantly to challenge and fight. The reason is obvious and simple : better workers and better organization in the department itself is the only chance of temperance principles being ultimately and effectively enforced, for the ill-informed outsider, however critical, can but do little.

The Hon'ble Sir Rajendra Nath Mookerjee said :—

My Lord it is a matter of satisfaction to the people of Bengal that the Government after having indulged in its traditional habit of *laissez faire* for over a century in industrial affairs as compared with other provinces is now showing signs of activity. The increased provisions in the Budget under the heads of Sanitation, Agriculture, Irrigation, Fishery and Development of Industries clearly indicate that the Government is earnest to take an active part in the industrial organization of the province. Agriculture and sanitation are the two important factors in the development of industries, and they are essential for the improvement of the economic condition of the people of this country, especially of the masses. We cannot be fully prepared to expand our industries until we are able to train labour to a higher standard of work. Industrialists in Bengal hailed with joy your Excellency's ardent desire to combat the malady of hook-worm. It is clearly established that this disease greatly impairs the energy and efficiency of our labour, and if this degenerating malady can be completely eradicated from the province of Bengal it will be a great blessing and will help the cause of industry. My Lord, I may be permitted to offer our grateful thanks to your Excellency for your foresight in this matter. Adverse criticisms have been made in this Council in regard to the grant in the Budget of a small sum of money for the expenditure on Fishery. Any one who has read the report of the Industrial Commission on this subject should be convinced of the prospects of this branch of industry in Madras where nearly two lakhs of rupees were expended in 1916-17, and I see no reason why in Bengal we should not be equally successful. In many countries this branch of industry is considered a national asset. In Bengal fish is a staple food and, therefore, Fishery should be organized on a scientific basis not for the sole purpose of increasing Government revenue but to develop this branch of industry in Bengal.

My Lord, attempts have been made by well-known leaders to divert the funds provided for Sanitation, Agriculture and Fishery to other channels. It is painful and hard to believe that our politicians are still not convinced and cannot yet realize that our political regeneration which we all cherish at heart depends upon the development of the industries and resources of the country.

Government have already taken steps to facilitate and improve technical education. It is also believed that Government will be able to give tangible assistance to mufassal municipalities who will be anxious to promote primary education on the lines of the new Act passed the other day, but who will be unable, owing to the poor condition of the people, to meet the increased expenditure that must be incurred. Technical and primary education must precede the progress of the expansion of industry.

The increased provision in the Budget for co-operative societies and the continuance of the support for the improvement of Cottage and Home Industries are calculated to further the cause of the improvement of the economic condition of the masses.

Discussion of the Budget.

Maulvi Fazl-ul-Haq.

It is obvious that Government are now seriously directing there attention to these matters, and I beg leave to congratulate the Government and to tender our grateful thanks to your Excellency for the interest Government are now taking for the improvement of the material condition of the province and to express an earnest hope that the Government will year by year steadily increase the Budget grants under the heads I have mentioned as circumstances could permit.

The Hon'ble Maulvi Fazl-ul-Haq said :—

My Lord, in offering a few remarks on this year's Budget, I wish to draw your Excellency's attention to the wasteful expenditure on certain departments, which in my opinion might profitably be stopped, and the saving thus effected utilised for more urgent and pressing needs of the country. I do not know whether your Excellency will condescend to take these remarks into consideration, but I shall feel very much relieved when I have had my say in these matters, because I will then have the satisfaction of having raised a note of warning in time and thereby humbly attempted to have discharged my duty both towards your Excellency's Government and my country.

The first major head of expenditure on which I wish to offer a few remarks is Agriculture. The following figures will show the expenditure under this major head for the present as well as previous years :—

1916-17	7,56,116
1917-18	7,80,000
1918-19	10,80,000
1919-20	11,58,000

There is far more beneath this dry roll of figures than appears on the surface. During the three financial years 1916—19, a sum of more than 26 lakhs of rupees has been spent out of the revenues of the country over this particular department, and the public have a right to enquire what beneficial results, if any, have followed all this heavy expenditure. On a question like this, the self-laudatory annual reports of the department are of very little value. The departmental officers have got to justify themselves and their work, and they cannot but speak in the highest terms of their own achievements. The Government resolutions on the annual reports of the working of the various departments cannot also be expected to be too critical : for I believe it is a rule of official etiquette for Government officials not only to say no ill of one another, but, to heap even ill-deserved praise on subordinates all along the line. In order, therefore, to get at correct facts and to form an accurate estimate of the working of any department, we have to look outside the pages of official reports and resolutions. We live in this country, and if anything remarkable has really been achieved, it ought to strike the eyes of the lay and unprejudiced public. In order to test the work of this particular department, from the point of view of actual achievements, let us see what the facts really are.

If we turn to the report of the department for 1917-18, we find that the Director of Agriculture claims that during the last 3 years the department has been able to show considerable progress. But when we come to read his summary of the progress it amounts to this, that there is now scarcely "a district in the province where the seed of departmentally-selected varieties has not been distributed." Over and above this, the activities of the department seem to have been confined to certain matters about which a vague idea is conveyed to the public mind by means of the technical botanical terms in which this portion of the report is couched. The most important part of the work is no doubt about the experiments conducted in what is

Discussion of the Budget.

Maulvi Fazl-ul-Haq.

known as the Kakhya-Bombai jute and the Indra-Sail variety of rice. This is all the sum total of the results of the many-sided activities of the department for which more than 26 lakhs of public money have been spent during only the last 3 years.

My Lord, the popular feeling is that the department is not being properly worked and that the money spent is disproportionately excessive as compared with the results achieved. This is not my own personal view, but I believe this view is shared by many of my colleagues in this Council and by an overwhelming number of my countrymen outside. My friend the Hon'ble Kumar Shib Shekhareswar Ray has lent the weight of his opinion to the view which I now put forward in this Council, and I am glad that he has spoken out in clear and unmistakeable terms. The following are however the chief points on which efforts should be concentrated to economize expenditure.

First.—There is hardly any necessity for the highly-paid staff which is being maintained by the department. We find that out of the 26 lakhs which I have spoken of as having been spent on the department, a sum of over Rs. 8 lakhs has been absorbed by the salaries and allowances of the Director and his troop of assistants. This is really paying too much for the whistle. I do not object to one or two experts being retained in the department, but most of the other posts ought to be either abolished or replaced by others of lesser value. This is one of the few departments where the head of the department need not be a highly-paid European officer at all. The Director might more properly be an Indian with the necessary qualifications, and I believe there are even now several Indian officers in the department who can be safely placed in charge of the work.

Secondly.—Government must realize that for a large amount of the work of the department, non-official help and sympathy must be sought and secured. It is no use telling us that non-officials are not coming forward in larger numbers. Proper efforts must be made and in the proper spirit, and it will be found that non-officials will come forward far beyond expectation.

Thirdly.—Strict watch should be kept over the amounts spent under the head "touring charges." In last year's Budget a sum of Rs 55,000 had been allotted, and this year the allotment has gone up to Rs. 66,000. I can assure your Excellency that the major portion of these allotments represents money that has been absolutely mis-spent in the past and will not be better spent in the current year. The system itself is also responsible to a certain extent for all this waste. We are told that there are officers who have spent as many as 28 days out of every 30 days on an average on tour. This is a physically impossible feat and it is obvious that much of the touring can be classed in that category only technically, and ought never to entitle the officer to any touring allowance. Under present conditions, an officer has only to move more than 5 miles away from his headquarters and he is then supposed to be on tour, even though he may be on a visit to his father-in-law's house or to renew old ties with distant relations and friends or have a good time of it with a cousin of a sister-in-law. He is entitled under the rules to be reimbursed from public coffers, and this at so generous a rate that the officer is able not only to recoup himself, but also make a substantial profit which he looks upon as a legitimate addition to his salary. It is difficult for the head of the department to exercise any effective check or control on such irresponsible touring, for the officer concerned has only to mention that he was imparting agricultural education or carrying on demonstrations at some experimental farm, or supervising the demonstration of Kakhya-Bombai jute or distributing packets of Indra-Sail seed for transplanted winter rice. I confess that all these remarks imply a serious reflection on the integrity and honesty of the officers; but I can assure your Excellency that this picture is not at all drawn from my imagination, but generally reflects the popular impression in these matters.

Discussion of the Budget.

Maulvi Fazl-ul-Haq.

Fourthly.—More money should not be handed over to the department than can be properly utilized or spent by it. In every case sufficient details ought to be given of the nature of the contemplated expenditure. It is extremely objectionable to hand over large sums to a spending department under the head "Miscellaneous" and then give the officers of the department a blank cheque to deal with this money as they please. We find that under the head of "Experimental Farm" a sum of Rs. 81,580 and under the minor head of "Sericulture" a sum of Rs. 60,000 have provided for under this vague heading of "Miscellaneous." I can only say that a provision in the Budget for an expenditure of nearly a lakh and-a-half, without any specification of what the expenditure is likely to be, seems hardly a justifiable method of imparting information to the public as to the manner in which public money is going to be spent.

My Lord, I next pass on to another department, where again public money is being wholly wasted under a delusion that the greatest possible good is being done to the people of the country by the activities of the department. I refer to the Department of Co-Operative Credit. Here again I do not wish to underrate the importance of the department itself, for I know very well that co-operation in various forms has produced marvellous results in all civilized countries; and I can have no doubt that, if properly guided, the co-operative movement will also do for my countrymen what it has done for mankind in other parts of the world. Unfortunately, however, in this department too, money is unnecessarily wasted and the tendency of Government is to go on increasing the Budget allotments without waiting to see whether money already placed at the disposal of the department has been properly utilized or not. The Registrar himself is a highly-paid officer on Rs. 1,500 a month *plus* a local allowance of Rs. 150 a month; he has one Personal Assistant on Rs. 400 a month, and 4 joint-registrars, 1 on Rs. 500 a month and 3 on Rs. 400 a month, each drawing a local allowance of Rs. 100 a month. Over and above all these, there is a chief auditor, 22 inspectors, 14 auditors and it is proposed to appoint 20 more inspectors and 2 divisional auditors with a correspondingly large increase in the clerical staff of the department. Now, what is the work which all these officers are expected to do? There are roughly 3,200 co-operative societies of all kinds in the province and if this number is distributed amongst the 64 officers I have mentioned, they will each have about 50 societies a year to look after. Having regard to the fact that the officers of this department are supposed to be exceptionally brisk and active and can spend on an average about 300 days in the year on tour, each officer will have roughly 6 days to devote to a co-operative society in his charge. I do not mean to say that this is exactly what will happen; but this calculation will give the members of this Council an idea of the disproportionately large increase of officers as compared with the co-operative societies placed in their charge. I wish to make the following specific remarks as regards this department:—

First.—The Registrar need not be a highly-paid member of the Indian Civil Service. I believe there is a standing circular order of the Secretary of State that the Bengal Registrar must always be an I. C. S. man; I am speaking from memory, and if I am right in my recollection, this bar to the appointment of other qualified men to the post should at once be removed. In my opinion the Registrar need not be an I. C. S. man at all, but an Indian on a much lower pay.

Secondly.—The Registrar may be given one Personal Assistant, but all his other gazetted appendices should be removed as early as possible.

Thirdly.—Strict control should be exercised over the touring expenses of officers. The same remarks apply here as in the case of officers in the Agricultural Department. There is an allotment in the Budget of Rs. 60,000 as the travelling allowance of officers and establishment; this is simply a monstrous

Discussion of the Budget.

Maulvi Fazl-ul Haq.

waste. I have no doubt that a large portion of this amount will be absolutely unjustified expenditure.

I find also the following allotments for this department in the Budget :—

	Rs.
Temporary establishment	15,000
Lump provision for additional establishment ...	32,336
Office expenses and miscellaneous ...	15,000

My remarks with regard to the allotments under the head "Miscellaneous" in connection with the Department of Agriculture apply to these allotments also. As it is, the department can hardly be credited with having usefully spent the money placed at their disposal and it is a bad policy to encourage them in their wasteful expenditure by placing large sums of money without specific limitations as to the manner in which the money is to be spent.

My Lord, I am sorry I had to speak so disparagingly of two departments which have got the possibilities of being amongst the most beneficial of the departments of the administration ; but I have yielded to a sense of duty in making remarks which I should like to have been the very last to make. I can assure your Excellency that I have not given full vent to my feelings ; and it is obvious that the rules of debate to-day impose a serious restriction to a detailed examination of the questions from all points of view. I will, however, make certain suggestions to remedy what I consider to be the present defects in the working of these departments, and I hope your Excellency will take these remarks into consideration. In the first place, the fact must be recognized that without the fullest measure of non-official help and co-operation, all the activities of these departments are bound to end in failure. Non-officials are always ready to co-operate with officials, but in order that the right type of men may be got in adequate numbers, the officials must come forward to enlist non-official sympathy and co-operation in the right spirit. When this non-official help and co-operation is secured the work which is now being done by Government servants should be delegated more and more to non-official workers. It does not stand to the credit of the Department of Co-operative Societies that there are at the present moment only 50 honorary organizers in the field of actual work. It is a mistaken policy to officialize a department like this ; this kind of officialization has produced the most baneful results in other parts of the world, and there is no reason why different results from such a system will follow in India. If non-officials can be secured, a small remuneration by way of travelling allowance (and so forth) will suffice for their compensation and there will be an immense saving effected in the Budget allotments for the departments.

Secondly, till this non-official help is secured, the work that is being done by the present staff of Government servants in the Departments of Agriculture and Co-operative Societies may profitably be handed over to circle officers who will be appointed under the forthcoming Village Self-Government Act. These officers should be entrusted with the actual work of imparting all the knowledge about improved methods of agriculture to cultivators, looking after their agricultural needs and requirements, as also supervising the work of co-operative societies within the area placed in their charge. They ought to have a place of residence within this area of their charge, and they should be required to go out constantly on tour to form a real link between the Government and the people. Several lakhs might be cut down from the Budget allotments under the head of "Agriculture and Co-operative Credit" and might be better utilized in appointing a large number of circle officers for the purpose of supervising the working of the departments like that of Agriculture and the Co-operative Credit.

Discussion of the Budget.

Raja Hrishikesh Laha.

My Lord, I had a mind to say a few words about the expenditure on the Police Department, but I find the time at my disposal is limited and, moreover, experience teaches me that all remarks regarding the curtailment of expenditure regarding the Police Department always fall on deaf ears. I would only say that in my humble opinion Sir Henry Wheeler, the Finance Member, ought not to be entrusted with the portfolio of such a spending department as that of the Police.

[The Hon'ble Member having exceeded his time-limit had to resume his seat.]

The Hon'ble Raja Hrishikesh Laha said :—

Your Excellency, I must congratulate the Government on the very satisfactory Budget which has been presented to the Council and which affords little scope for criticism, I am glad to note that ample provision has been made for carrying out urgent and important schemes of sanitary improvement. After the pointed attention which was recently drawn by your Excellency to the alarming prevalence of the hook-worm disease, I welcome the provision made in the Budget for an enquiry into this insidious disease which is sapping the energies and enfeebling the constitution of such a large proportion of the population. Your Excellency, shortly after the assumption of the charge of this Presidency, announced that the carrying out of anti-malarial measures would receive your special attention. I am glad to be able to bear my humble testimony to the methodical manner in which effect is being given in successive years to this most timely announcement.

Provision has been made for the establishment of two new District Agricultural Farms in continuance of the scheme for the distribution of improved paddy and jute seed and for the appointment of nine additional District Agricultural officers. In this connection may I be permitted to add that the agriculturists gratefully appreciate the fact that, in spite of the enhancements of the rates of interest charged by the Government of India to your Excellency's Government, no change has been made in the rate charged by your Excellency's Government for loans to agriculturists. I should like to suggest that portion of the sum of Rs. 1,80,000, which is available for the development of agricultural education, may be profitably utilized in carrying on propaganda work in the direction of popularizing improved methods and implements in carrying out agricultural operations, as is proposed to be done in regard to the education of the people concerning matters of sanitation.

My Lord, now that the Primary Education Bill has been passed, I consider it an auspicious augury that the Government has in hand a sum of Rs. 1,17,00,000, representing the unspent balance of Imperial grants for education, and I do hope that it may be found possible to utilize a portion of this money in assisting district boards and municipalities in disseminating primary education over and above the lump-grant of Rs. 5,50,000 provided in the Budget for the development of primary education.

The Munsiffs are among the most hard-worked public servants. I therefore welcome the provision of Rs. 1,25,000 for the increase of their pay and of Rs. 50,000 for providing residences for Additional Sessions Judges and eleven Munsifs.

My Lord, I am not in favour of starving the policemen, notwithstanding their various short comings. I, therefore, approve of the provision made in the Budget for raising the pay of head-constables. In this connection may I suggest that regard being had to the difficulty experienced in obtaining recruits from Upper India for the rank of the constable an experiment may be made in the direction of attracting Bengalee youths, possessing the requisite qualifications, to the Police Department to join as constables by offering them a slightly higher pay, especially for service in Calcutta. I venture to think that the Bengalee soldiers who have returned from the war would furnish excellent material for such recruitment.

Discussion of the Budget.

Rai Sri Nath Ray Bahadur.

I welcome the provision of Rs. 5,000 for a course of training to enable young medical men to take the Calcutta D. P. H. degree, so as to qualify for appointment as District Health Officers.

The demand for D. P. H. men to be employed as District Health Officers is already in excess of the supply, and it will increase year after year.

A salutary provision has been made in the Budget for the payment of half the salaries of Health Officers to be employed by the municipalities. I earnestly hope that the same liberal principle will be followed in regard to the salaries of the additional sanitary staff that may have to be employed by the more progressive municipalities in order to carry out sanitary reforms and improvements. As the District Boards will be required to appoint Health Officers in 1920-21, I hope Government will show equal generosity to the Boards and provide in the Budget for the year for half the salaries to be paid to them.

The Hon'ble Rai Sri Nath Ray Bahadur said:—

My Lord, we are grateful to your Excellency's Government for the grant of fifteen lakhs of rupees for the Dacca University. The University Commission has now finished its labour and we hope that the Dacca University will soon be an accomplished fact. I may here mention that the Uviversity will be incomplete without a Medical College. Year before last I brought this matter to the notice of your Excellency's Government, and this year also a resolution to that effect was moved by the Hon'ble Mr. P. C. Mitter, and I am glad to say that on both these occasions Government had been sympathetic to the proposal and was only waiting for the Commission's report. It is a patent fact that the Calcutta Medical College has to refuse admission to a good number of boys every year, most of whom unhappily happen to be East Bengal students. A Medical College at Dacca will thus go to remove a long-felt grievance of the people of my part of the country.

My Lord, there is a feeling in the country and a feeling justified by facts that a large portion of money under Education is eaten up by excessive number of inspection staff and by erecting large magnificent hostels; that paraphernalia engages the attention of the Government more than the actual spread of education. My Lord, the people want education first and not palatial buildings fitted up in the most costly modern fashion. The country is poor and cannot afford to spend so big a sum on mere luxury. There is another aspect of it. It is not the rich alone that come in for education. Our schools and colleges are mostly fed by boys of poor parents. They live in their homes in humble huts and in a modest style. They come to the hostels from the log cabin to the White House. What is the effect of these palatial buildings on the young impressionable boys? They unconsciously adopt a style of living that they can vainly seek to find at home. A feeling of discontent is the result. There is another evil also. The hostel charges are gradually increasing, and is a serious strain on the purse of the poor parents and guardians. General education should not be made costly. It should be within the reach of the people of all classes. I must not be misunderstood to say that I am against hostels and boarding-houses. They are necessary. Our complaint is that hostels should not be fine specimens of Gothic or Saracenic structures embellished with electric lights, fans and other costly unnecessaries. The money saved thereby—and I am sure a good decent sum it will be—can best be utilized by educating a comparatively larger number of boys.

The question of waterways in East Bengal stands in need of immediate solution. We are grateful to your Excellency for allotting Rs. 50,000 this year for the improvement of khals at Dacca. The money is rather inadequate. In reply to my interpellation last year the Government was pleased to state that the project report was not completed yet. I believe it is still unfinished and hence this small sum. More than six months in the year the channels

Discussion of the Budget.

Mr. Philps.

remain dry and the difficulty of conveyance is great. In order to meet the expenses for re-excavating and keeping in order the silted-up khals I suggested the levy of small tolls on every boat that passes through them. I am sure nobody will grudge it, as the people now pay a much heavier sum for other forms of conveyances and an incalculable benefit can thus be done both in improving the communication and rural sanitation. In East Bengal, specially in the Dacca district, channels are the principal, if not the only means of communication, other means not being feasible. I urge upon the Government to see that the entire allotted sum be spent during the year and, if necessary, more money may be found for the improvement of khals. In this connection I may add that in reply to my interpellation to consider the desirability of either permanently retaining an officer at Dacca or until such time as all necessary projects for improving the waterways and channels are completed, the Government was pleased to state that the question of the desirability of extending the scope of the enquiries was under the consideration of the Government. I now urge upon the Government that in order to effectively carry on the work of the improvement of rivers and khals in East Bengal an Irrigation Division be opened there. I understand that a new headquarters station is proposed to be located at Khulna. Khulna is not suitable to be the headquarters, as it is not the central place. Most of the affected rivers and channels are within the districts of Dacca, Faridpur and Mymensingh in East Bengal, and if the headquarters of the new proposed division be located either at Dacca or Faridpur, the work can most effectively be carried out. Besides, in Sundarbans, only waste-lands will be reclaimed, but here thickly-populated areas will be immensely benefited.

My Lord, we are glad that the Government has granted Rs. 25 lakhs for sewerage at Dacca and has allotted Rs. 3 lakhs for the year. I believe the attention of the Government has been drawn to the speech recently delivered at Dacca by Mr. Williams, where he told a most melancholy tale about the sanitary condition of the town of Dacca, justly described as the most filthy municipality in the world. Though the sum seems to be insufficient to meet the exigency of the situation I appeal to your Excellency's Government that the entire allotted sum for the year be spent during this year and, if possible, more money be found for it. This is a matter which cannot wait any longer. I urge upon the Government to allot a very big sum, if not the entire balance in the next year's Budget. It will not be out of place to mention here that your Excellency's Government has announced the intention to partition the Dacca district. Though I make bold to say that on the face of the very strong protest against the proposed measure, which in the opinion of the people concerned is not at all to their interest, Government will consider the advisibility of dropping the scheme altogether; but in case the Government is bent upon doing so, a plea may not then be raised to stop or postpone the carrying out of the project of improving the municipality. So I urge that the sooner it is finished the better.

The attention of the Government must have been drawn to the prevalence of small-pox in Dacca. The people have suffered for want of immediate help. For some days there were no lymphs or only bad lymphs were available. Many people could not be vaccinated in time and, if vaccinated, most of the cases were unsuccessful. I ask the Government to open a lymph depôt at Dacca and direct immediate steps to be taken by the municipality to combat this fell disease.

The Hon'ble Mr. W. H. Phelps said :—

My Lord, I congratulate the Government on the very satisfactory Budget which has been presented to the Council.

I am convinced as a business-man, long resident in this great country, that the welfare of Europeans in India is so bound up with the best interests

Discussion of the Budget.

Mr. Philps.

of the Indian people, that it behoves us to work hand-in-hand with the people, and it equally behoves the patriots of India to cherish our comradeship and our energies in the advancement materially and morally of the body politic.

There is, I regret to say, still lingering in the minds of a few of my countrymen a sort of indefinable dread of the loss of prestige lurking in political reform. There was the same honest dread lurking in the minds of English conservatives when compulsory education was advocated in England fifty years ago. The dread was, as I say, an honest one, but it was none the less a misplaced and unnecessary one as was proved before many years had elapsed. The conservatives of the present day are more liberal than the liberals of a former generation, and I have not the slightest doubt that the spirit called liberal will continue to assert itself in English minds as it is striving to do in the minds of the leaders of thought in this country.

Nothing can stop it; I am convinced that it is the will of God. If it were not so, we should not have made the progress we have already made, we should not see the signs of progress we see to-day. We should not see the strivings after education and sanitation, pure food and local self-helpful government in the cities and in the rural districts.

It sometimes raises a feeling of distrust in the minds of the rich and the educated when they see leaders from among the people come forward as champions of the poor, but is not history in this respect repeating its better self? Let us have, therefore, less suspicion of others who have a mind to co-operate for the general good, even if their position in life is lowly and their education in book-learning is defective.

Touching the education of the masses I often think that much more might be done in the matter of hygiene and sanitation, in farming and in the industrial world, if the Government could be induced to set apart a modest sum for a touring department of educational cinematography. Just think how quickly and forcefully conviction could be brought to the minds of the most ignorant and illiterate by a series of living pictures illustrating the advantages of public hygiene! Why, a person might learn in a single hour as much as a reader might learn in a month. And this might be learnt by those who were utterly unable to read.

And look what millions of drab lives might be gladdened for a brief spell and given an impetus to think, by the expenditure of a comparatively small sum. There would be no necessity to build halls and theatres; the entertainments could be given free in the open under the healthiest conditions.

Your Excellency's Government must have noticed that even in such simple matters of the need for elementary education and village sanitation the general education of the masses lags behind legislation; the people are legislated for in advance of demand of any but the more public-spirited few, and even after all your legislation there is a dead mass of inertia to contend with before the benefits of the legislation can be appreciated. How much better it would be if enlightenment could receive first attention so that the people could *ask* for legislation instead of having it thrown to them or thrust upon them.

It has been observed by the best educationalists that the best form of education is that which equips a young person with a desire to learn and a capacity to think.

Whilst I am on this subject I should like to observe that as a film censor I have constantly regretted that so little provision has been made to suit the requirements and attainments of the Indian youths who flock by their hundreds to cinemas where they are often entertained with English social problem plays and the adventures of very undesirable persons including dacoits and sharpers and even murderers. Many of these poor people will

Discussion of the Budget.

Rai M. C. Mitra Bahadur.

spend a day's pay on an entertainment which is of less than doubtful good to them, although quite harmless and even of positive benefit to others of European tastes and education.

It is notorious that stripped of all the accessories of gorgeously-decorated theatres and other luxuries the cinema in itself is about the cheapest form of entertainment and most instructive and might easily be provided in the open, immediately after sunset, free of all charge in rural districts, and would not only entertain the populace, but afford them something to think about, and develop a desire to improve their condition.

It is quite possible to attach too much importance to cheap labour. Conservative minds are apt to make this mistake, but English employers are becoming convinced that what we want most urgently is efficiency even at the price of better wages.

There has been too much restfulness and contentment in India with the one-man-one-job kind of contentment which prohibits a man or woman from extending their usefulness to their employers. So long as this remains a special feature of the average Indian, so long as he refuses to become more versatile and accept new ideas, so long will he relegate himself to the restrictions of grinding poverty.

My Lord, in making these remarks of a general nature I do not claim a mandate from anyone but my own experience, but I have lived long enough in India to love it and I am prepared to devote the rest of my days to the service of this great country.

The Hon'ble Rai Mahendra Chandra Mitra Bahadur said :—

My Lord, I beg to congratulate your Excellency's Government for a larger grant made this year under the head of Sanitation for the lasting benefit to the people. I invited the attention of your Excellency's Council by moving several resolutions and also asking many questions in connection with the pollution of the water of the Bhagirathi, the Amta Drainage Scheme in the district of Howrah, the improvement of the Berhampore Sluice in the district of Murshidabad, famine relief for Bankura, prevention of floods in the districts of Howrah, Hooghly, Burdwan and Midnapore, the appointment of some additional district judges, subordinate judges and munsiffs to relieve the congestion of judicial work which is steadily increasing in several districts, the improvement of the pay of the officers of the provincial judicial service, the establishment of the hygiene institute, and a new medical school to afford increased facilities for medical education, the new eye hospital at the medical college, Calcutta, the increase in the number of district agricultural farms as well as district agricultural officers and seed stores and the establishment of agricultural middle schools at Chinsurah and Dacca. On behalf of the public, I thank your Excellency's Government for providing funds for all these items in the Budget for 1919-20.

My Lord, the Hon'ble Finance Member should be congratulated on the aggregate increase of revenue, but I feel disappointed to point out to your Excellency's Council that a portion of it has not been applied to minimise the suffering of the loyal band of hard-working clerks drawing a salary of Rs. 100 or less per month who are ungrudgingly offering their best services in the various departments of your Excellency's Government within the presidency of Bengal.

I deeply deplore the fact that nothing has been done as yet for improving the prospects of the teachers in the subordinate educational service, specially those in the lower subordinate grade. Owing to high price of food-stuffs and other necessaries of life, the sufferings of these under-paid teachers employed in Government Schools are evidently on the increase, and

Discussion of the Budget.

Rai M. C. Mitra Bahadur.

it is certainly a disgrace to the Department of Public Instruction which has so long overlooked the just claims of these loyal servants who are devotedly rendering most valuable services to our country by training children, the future citizens of the Empire. It is a pity that persons responsible for the efficient administration of this department have hitherto failed to cure the gravest evils of the existing system. I was surprised to go through the revelations made at Dacca in connection with the social service exhibition which was opened by your Excellency the other day and proceedings of which appeared in the columns of the *Englishman* of 8th March last that "Indian school-masters are worse paid than coolies." Something substantial ought to be done to improve the material prospects of these teachers in villages.

In the current year's Budget, I hope and trust that the Hon'ble the Director of Public Instruction will fully utilise the amount of money sanctioned by Government for expenditure during the present financial year and under his administration the expenditure during this year will not again fall short of the sanctioned estimate as in the year just past.

From the reply given to me by your Excellency's Government at a meeting of the Council held on the 26th November last, I understand that the amount of surplus or rather profit to Government from the Hindu and Hare Schools, Calcutta, during the last six years from 1912-13 to 1917-18 amounted to more than Rs. 24,000 and Rs. 36,000, respectively. Referring to pages 16 to 24 under the head of Hindu and Hare Schools, in the printed list of staff of the Government Educational Institutions in the Presidency of Bengal, corrected up to 1st April 1918, and published by Government, I am really sorry to bring to the notice of your Excellency's Council that in spite of a very large surplus of money being available annually from these premier schools of Bengal, salary of most of the teachers employed in these institutions offers little or no inducement to competent men to work with full energy. The teachers find it very difficult to make both ends meet and maintain the members of their family and dependants in these hard times. The initial pay should be raised at once according to rank held by each of the teachers, and provisional arrangements should be made at once for the payment of bonus and house allowances to these deserving men out of the large surplus derived from those schools. The higher rate of fees are levied from among the students of these schools; many of the private schools in Calcutta, including some recently-established ones, which charge lesser fees from students, are already fitted with electric fans; but unfortunately the Hindu and Hare Schools are still without electric connections. The provision for electric fans for nearly 600 boys of well-to-do classes in each of these schools is not a matter of luxury, but it is a matter of urgent necessity owing to the unprecedented heat of the summer. I hope and trust that your Excellency's Government will take immediate steps to remedy these gravest defects in the premier schools of Bengal which are under the direct supervision of the Principal of the Presidency College, Calcutta, and the Hon'ble the Director of Public Instruction.

The allotment for industrial and technical education is not adequate. Materials for the manufacture of pulp for papers abound in Bengal. These should be fully utilised. Definite steps should be taken by your Excellency's Government for the revival of the sugar industry in the different districts of Bengal. I hope that with the introduction of responsible Government in the near future and in connection with the scheme of constitutional reforms in the direction of separating Imperial and Provincial finance, impetus should be given by your Excellency's Government to the earnest desire on the part of the people to take to industrial pursuits. More money should be spent and the amount as provided in the Budget should be fully utilised in connection with irrigation works in Bengal for the development of the insecure industry of agriculture and minimise the sufferings of the raiyats. Immediate effect

should be given by your Excellency's Government to the recommendations of the Industrial Commission so as to improve the economic condition of the people and relieve their acute distress caused by the war.

The Hon'ble Maulvi Abul Kasem said :—

"My Lord, my Hon'ble friend Kumar Shib Shekhareswar Ray began his speech by saying that this year's Budget was of great interest to the land-holding classes whom he represents in this Council. I think, my Lord, that this year's Budget has got a peculiar interest to the locality from which I come. In the first place as an inhabitant of the Burdwan district and representing a constituency in that division, I would be failing in my duty if I did not express my gratitude to your Excellency's Government not only for the provision made in the budget for mitigating the effects of the floods of the Damodar and the Ajoy, but also for the steps and measures adopted for giving effect to it. My Lord, it is more than half-a-century that the people of a large tract of land in the Burdwan Division suffered from damages on account of the inundations from the rivers Damodar and Ajoy. The question no doubt engaged the attention of the Government of Bengal but nothing substantial was done to relieve the distress. It was reserved for your Excellency's Government to take effective measures to mitigate the effects of the damages, and I am glad to acknowledge and I do it with gratitude, that in this matter at least Your Excellency's Government have not followed the usual habit of dilatoriness in all Government proposals and measures, and that the matter of this flood has been taken up by Government in right earnest and I believe and trust that the battle of these two rivers has been fought and I hope will be won in the very near future.

I have also to thank your Excellency's Government for the provision made for starting a zilla school in the town of Burdwan. Burdwan happened to be one of the two districts in Bengal without a Government High School, and we are thankful to your Excellency's Government for supplying us with this High School which was a great necessity in the town of Burdwan. I am personally interested in it as I happened to place a proposal like this before your Excellency's Government about a couple of years back. I have further to thank your Excellency's Government for selecting Burdwan as one of the first places where to start a medical school. The need of medical schools is no doubt keenly felt all over Bengal and I hope and trust that more medical schools will be started very soon and provision made for them ; but as a Burdwan man I must express my gratitude, for the one is which about to be established in my native town.

My Lord, the people of this province fully appreciate, and gratefully appreciate, the endeavours made by your Excellency personally and by Government to fight the battle of malaria, and we at the same time appreciate the services rendered by Dr. Bentley in the matter of minimising the effects of malaria and preventing it. I think, my Lord, that in spite of all that has been said in this Council by my friend Hon'ble Maulvi Fazl-ul-Haq a little more money is needed by Dr. Bentley to carry on the programme which he has in view. I think that he not only wants a larger sum for the experiments he wants to carry on but also to give actual relief to the people.

It is an old tale, my Lord, to talk of police expenditure and if I refer to it it is not again to raise up the old cry ; but I say that although police expenditure has gone up by leaps and bounds in these few years, I am afraid there has been no material improvement in the pay and prospects of police Inspectors or Sub-Inspectors or even constables on whom, your Excellency's Government will admit, the brunt of the work falls. At this time when our resources are limited and we want more money in various other departments I venture to submit that the raising of the salary of the members of the Indian police is rather extravagant.

Discussion of the Budget.

Maulvi Abul Kasem.

My Lord, I think we have in this Council more than often brought to the notice of Your Excellency's Government the need for a larger number of Muhammadan hostels, both in and outside Calcutta and Dacca, and to-day I want again to press that Government should take steps to establish hostels for Muhammadan boys at all important centres of education. The question of Muhammadan education is a serious matter, not only in the interests of Muhammadans themselves but in the interests of the whole province, because as long as the Muhammadans are not properly and as well educated in such proportions as their Hindu fellow-countrymen they are bound to be a dead-weight on the other communities in their march for progress and advancement as well as for a responsible Government.

We are grateful to Your Excellency's Government for the promise made by the Director of Public Instruction that they are thinking of providing for a larger number of Muhammadan scholarships in primary and secondary schools, and I trust that effect will be given to the promise at an early date.

My Lord, during the official year that has just closed we had in this province an epidemic of influenza which at least in my part of the province has been followed by an epidemic of cholera and small-pox, and a large percentage or rather an appreciable percentage of my countrymen has fallen victims to these diseases, and in my humble way I beg to suggest to Your Excellency's Government that in these days when medical aid is not available in the rural areas a system of travelling dispensaries should be started and Government should take the management of these dispensaries in its own hands. No doubt attempts have been made by District Boards to relieve the people, but the resources of the District Board being limited and their arrangements defective, by the time they could arrange for it, great loss had already been sustained.

My Lord, a few years back, when discussing the Financial Statement, I made a proposal that to further Muhammadan education some aid should be given to the private institutions, aided or unaided, on the condition that they provided facilities for the teaching of Arabic and Persian in their schools and colleges, and I again repeat that request because it has been times without number mentioned in this Council that Muhammadan boys find difficulties in getting education in colleges and a prayer for a Muhammadan college has also been made, but the difficulty to some extent would be solved if we find that in colleges and high schools provision is made for the teaching of Arabic and Persian because Muhammadan parents hesitate, and rightly hesitate, to send their boys to schools where they cannot receive an education suitable to Muhammadan boys.

My Lord, my hon'ble friend Maulvi Fazl-ul-Haq has said that the expenditure on the Department of Agriculture has been very high. I am sorry I cannot and do not agree with him in that; the expenses have been not very high. I agree with him up to this, that the department has not been as well managed as he or others of our countrymen could wish, but I think I shall not be far wrong if I say that of late the department is making a steady progress and the experiments made by the department are now proving very useful, but I am sorry that I cannot say the same thing about the Department of Co-operative Credit Societies.

My Lord, by a resolution of which notice was given in this Council by one of the Hon'ble Members, attention was drawn to the fact that there was great distress among the cultivating classes on account of the high prices of commodities, and I think Government should take some steps to relieve the distress, and I humbly suggest that one of the measures which would be adopted, if it is practicable to adopt it, would be to prevent the export of food-grains and cotton goods from this country because we are absolutely in need of them and cannot supply our own needs and demands.

Discussion of the Budget.

Rai R. C. Pal Bahadur.

Lastly, before I conclude, my Lord, I would venture to say that even though I am afraid my proposals will be characterised as preposterous, and with due deference to the opinion of Sir R. N. Mookerjee, I beg to submit that we—at least a large section of the people—have not been convinced that the Department of Fishery has been doing any good in this province. We have had an experienced and able member of the Indian Civil Service and an experienced member of the statutory service at the head, helped by experts brought from Europe, but all the same, up till now there has neither been an improvement in the supply of fish or fish cultivation, nor has there been any increase in the revenue of Government; at any rate the industry may be very useful but the working of the department has proved absolutely a failure, and I think it is extravagance to spend any more money on that department.

The Hon'ble Rai Radha Charan Pal Bahadur said :—

I thank the Government for furnishing us with more detailed information in connection with the Financial Statement of this year than had been the practice hitherto. The civil Budget Estimate for the year 1919-20 enables us to understand the figures in the Financial Statement much better than the lump sum figures in the Budget. But our main complaint has not yet been remedied. The Finance Committee comes into existence late in the year and cut-and-dried statements of new works are placed before them. A bare statement of probable receipts and expenditure under main heads is furnished, and the whole business is finished in two or three sittings. The detailed Budget is placed before the Council and, except a general discussion, no practical results ensue. Transfers and reappropriations in the Budget are freely and extensively made during the year, and the Finance Committee which ceases to exist during the rest of the year have nothing to do with them. The Council is in blissful ignorance of the changes made in the Budget during the course of the year of the progress of sanctioned works, of any new projects undertaken, or of projects abandoned. A thorough change in the method and procedure of dealing with the Budget in the Council is required. I venture to reiterate my suggestion that the Finance Committee should be made a Standing Committee and should be authorised to examine and deal with all proposals which tend to vary the Budget as finally passed in the Council and to keep watch over expenditure. Otherwise the control exercised by the Council is illusory. The progress and development of the country whether sanitary, educational, industrial or in any useful direction depends upon finance and its proper utilisation. The people want to be associated with the Government in this matter. With this intimate knowledge of the finance of the country the non-official members may be in a better position in submitting their proposals and to see that the schemes are executed in time and that the allotments may not lapse. The Reform Scheme contemplates that Standing Committees of non-official members are to be attached to all provincial departments. I believe that the Reform Scheme will not come into operation before another 12 months or more, and is it too much to hope that Your Excellency's Government will be pleased to anticipate the coming change and allow this Council to appoint a standing Finance Committee at the beginning of the financial year?

Forests.—One source of revenue which augments the resources of the country without inflicting any hardship on anybody is the yield of the forests. The estimated receipt is less by 2 lakhs than the revised estimate of last year for which an explanation has been given. But I believe this revenue is capable of improvement. The development of forest produce will also help in the industrial advancement of the country. May I have some information as to what steps are being taken to increase the forest products and how they are being utilised?

Discussion of the Budget.

Rai R. C. Pal Bahadur.

Excise.—The excise revenue is going up by leaps and bounds. The actuals in 1917-18 amounted to Rs. 156¼ lakhs. The revised estimate for 1918-19 amounts to Rs. 178 lakhs and the Budget estimate for 1919-20 Rs. 187 lakhs. The total revenue in Calcutta alone in the year 1917-18 was 57½ lakhs out of a net revenue of 146 lakhs for the whole province, *i.e.*, nearly 40 per cent. of the total revenue. It is therefore desirable that Government should devote a portion of this revenue in improving the condition of primary education in Calcutta and thereby help to spread literacy. The Corporation of Calcutta is also willing to help the Government in this matter.

In Bombay the Corporation gets a revenue of nearly 12 lakhs from excise and tobacco licenses, not to speak of 16 lakhs from octroi. This enables the Bombay Corporation to make liberal provision for primary education in the city. Calcutta, if I am right, contributes the bulk of the provincial revenue. The enormous revenue realised from income-tax, law and justice and stamps from this city in addition to excise forms the main financial strength of Government. Cannot the city, therefore, expect a fair and reasonable contribution for the primary education of its children who, properly trained and educated, constitute an asset to the country?

Education.—For years past I have been crying hoarse over the neglected condition of female education. My chief concern is the orthodox Hindu girls' education. While a capital grant of one lakh is budgetted for the Calcutta Girls' School which is evidently intended for European and Anglo-Indian communities, I regret the Government seems to be apathetic in the matter of the education of Hindu and Muhammadan girls. There is only a trifling provision of Rs. 22,000 for zonana teaching in East Bengal and Rs. 42,000 for the training of mistresses and Moslem women teachers which no doubt include lady teachers of all classes. Is this quite adequate for the promotion of education of Hindu and Muhammadan girls of the orthodox class? The present system of female education is unsuitable for orthodox Hindus, and I believe also for Muhammadan girls. The courses of study, lessons, etc., should be made to conform to orthodox rules if we are not to be denationalised. Special schools should be started on new lines approved by the community at large in which western ideas should not prevail. A Committee, if I remember aright, was appointed a few years back with Sir Asutosh Mookerjee as President, to devise a scheme for the education of Hindu girls, but nothing has been heard of it. It is high time that a comprehensive scheme should be framed and the public given an opportunity to express their opinion on it. Such popular schools for girls as the Mahakali Patshala and others should be given all aids, and additional schools should be established in different parts of the country.

Commercial and Technical Education.—It is high time also for larger allotments to be made for the improvement of commercial, technical and industrial education. The commercial school in Calcutta should be improved and enlarged and commercial education should be encouraged by providing outlets for the employment of successful students. The mining schools in the colliery districts should be placed on a firm footing and greater facilities should be given for the admission of boys into the mining class of the Sibpur Engineering College by removing age and other restrictions. The rules for the admission to the Sibpur Engineering College generally should be revised so as to enable those who have not got university education but are otherwise fitted by general education, training, intelligence and inclination to pursue engineering education to enter its portals. I am grateful to Government for the assurance lately given that a Technological Institute is to be established in Calcutta. This has been deferred too long. May I ask whether it is likely to be an accomplished fact during the next year? In this connection I would like to be informed what steps are proposed to be taken to give effect

Discussion of the Budget.

Rai R. C. Pal Bahadur.

to the recommendations of the Indian Industrial Commission. Provision of Rs. 2½ lakhs has been made for the development of industry. May I enquire how it is proposed to utilise this sum?

Medical.—I am glad that Government is taking steps to spread Medical education.

A provision of Rs. 1½ lakh has been made for the improvement of the pay of I. M. S. officers.

Assistant Surgeons.—The Assistant Surgeons are an efficient and hard-worked body, and their number is inadequate. Wherever they may be in the remote mufassal stations or in rural villages, they work unremittingly to save the lives of the people, and yet their minimum pay is Rs. 100. Will not the Government kindly consider the grievances of the Assistant Surgeons and increase their emoluments?

Sanitation.—It is gratifying to find that the lump grant for Sanitation has been raised from Rs. 8,50,000 to Rs. 13,70,000. but neither in the sanitation Budget nor in Budget Item 43 (Minor works—Navigation) provision has been made for the improvement of the Bhagirathi river.

Improvement of the Bhagirathi river.—The safety of the port of Calcutta is connected with this river. I understand the Bhagirathi was recently surveyed, but with what result it is not yet known. If the upper reaches are well maintained, then there will be no want of good drinking water on both sides and consequently malaria and cholera will not be able to play havoc.

New Bridge across the Hooghly.—In connection with Bhagirathi river I would like to know how the question of building a new bridge across the Hooghly stands at present, when we may hope that this scheme will materialise, whether the floating bridge will be shifted higher up for direct communication between Northern Howrah and the city. The river system of the Presidency should be improved by the removal of silt and other obstruction, and good and wholesome water provided throughout the year in several parts of Bengal. I do not presume to offer any advice or suggestion to Government on this matter, but as the Government coach moves slowly, it would be interesting to know what is the Government scheme on the subject and what progress has been made in this connection.

Reserved tanks.—The cry for pure drinking water in rural areas is unabated. It is not possible to introduce filtered water-supply system everywhere, but much may be done to mitigate the distress by the provision of reserved tanks.

Not only the number of reserved tanks should steadily be increased every year but there should be constant inspection of these tanks to prevent their deterioration or pollution. From mypersonal knowledge I have found that some of the reserved tanks are not properly looked after and are consequently deteriorating. They are gradually converted into cesspools and become a menace to the health of the public.

Enquiry into question of river pollution.—May I enquire in this connection when the scheme for supplying filtered water to the riparian municipalities in the neighbourhood of Calcutta is likely to mature? While on this subject, I desire to express the gratitude of my countrymen for the provision of Rs. 25,000 for enquiry into the question of river pollution. The septic tank is the chief source of pollution, and not only the river water is polluted but also the religious feelings of the Hindus are hurt. Your Excellency will earn the gratitude of the people by adopting a measure to prevent this pollution.

Discussion of the Budget.

Rai R. C. Pal Bahadur.

Influenza.—Influenza played dreadful havoc during the last year desolating many a smiling home in the fairest village of the Presidency. For want of proper medical men and medicines, thousands and hundreds of thousands who could have otherwise been saved fell victims to this dreadful disease. The need of more dispensaries and medical men and above all the provision of travelling dispensaries with travelling doctors has been forcibly brought home by the appalling death-rate. I hope that the investigation which I understand is being made by the Government of India will result in the adoption of timely preventive and precautionary measures and that we will be spared another devastation from a recrudescence of this disease.

Floods in Burdwan District.—I thank the Government for the provision of funds for mitigating the effects of flood in the Burdwan Division and for the provision of Rs. 2,50,000 for rebuilding the Kidderpore Bridge.

Re-construction of the Kidderpore Bridge.—In connection with the re-construction of the Kidderpore Bridge, I would like to be informed about the width of the proposed bridge compared with its existing width, and whether the Tramway Company are paying a portion of the cost of the re-constructed bridge as their line will pass over it.

Canalisation of Tolly's Nallah.—For the partial canalisation of the Tolly's Nallah, I note that a sum of Rs. 75,000 has been provided in the budget. May I enquire for some particulars about the scheme and how far it will restore the former navigation of the channel and also render the water pure for religious purposes?

Bankura famine.—The recurrence of famine in Bankura has, I hope, attracted the attention of Government. Why should this district or other districts in this Presidency fall an easy prey to famine? No doubt the people are extremely poor. What are the economic causes that have brought about this poverty? It is said that the cultivator is not advanced. The proportion of non-cultivated area to the total cultivable area is, I believe, 37 per cent. against 79 per cent. in Birbhum and 80 per cent. in Faridpur. Irrigation is necessary in the greater portion of the district. Excavation and re-excavation of irrigation tanks seem to be necessary if any permanent improvement is to be effected. Besides, local handicrafts should be encouraged. Temporary relief is no doubt necessary, and I am sure the Government is doing its best. But as no one is in a better position than the Government to consider what permanent and preventive measures should be taken against the recurrence of famine in this district, the people would be thankful to know what the Government is contemplating to do in this connection.

Before I conclude this subject, I would draw the attention of Your Excellency's Government to the intense economic distress prevailing throughout the country and in every home by reason of the extraordinary high prices of all the necessaries of life. Poor and half-starved as the bulk of the people are in normal times, they have now been reduced to a desperate condition. It behoves the Government to take up the question in right earnest, and adopt measures to mitigate the present distress.

Provincial Executive Service.—The Government deserves the thanks of the public for the provision made in the Budget for the improvement in the salary of the Provincial Judicial Service. The grievances of the Provincial Executive Service deserve no less consideration. The total number of appointments in either of the two Services is about the same, *i.e.*, about 300, and the number of grades inclusive of probationary Deputy Collectors is also the same. But, whereas, officers in the Judicial Branch who entered the service in 1893-94 are drawing Rs. 1,000, their contemporaries in the Executive Branch are drawing Rs. 500, *i.e.*, only one-half of what the former are getting. No wonder the Service is discontented and many

Discussion of the Budget.

Babu Kishori Mohan Chaudhuri.

are anxious to seek fresh fields and pastures new in foreign service as in the case of the appointment to the post of the Secretary to the Corporation. The Provincial Civil Service forms the backbone of the general administration of the country. The pay and grading of the Service were fixed more than fifty years ago. The Public Services Commission made certain recommendations which are certainly inadequate, but nothing however has been done in revising the cadre of the Service. The Provincial Executive Service, like the Judicial Service, has deservedly won a high reputation for ability and integrity. Sir Valentine Chirol who cannot be accused of undue partiality towards Indians said: "The Provincial Civil Service constitutes the backbone of the civil administration. It is drawn for the most part from the same class of Indian society from which the bulk of the Indian members of the Indian Civil Service are themselves drawn. In proportion, as the work of administration increases, and it is found to go on increasing steadily, an increasingly large proportion of the more responsible duties hitherto discharged by the Indian Civil Service must necessarily devolve upon the Provincial Civil Service. The importance of raising the general standard of efficiency in the Provincial Civil Service and of bringing it nearer the level of the Indian Civil Service is, therefore, beyond dispute." The Public Services Commission was appointed so far back as 1912 and the Commissioners published their Report in 1915, but nothing has been done as yet to improve the pay and prospects of the Service. It may be said that the Report is under the consideration of the Government of India. It is the clear duty of the Local Government in the interest of efficient administration to ask them to come to an early decision on this highly important question.

Ministerial Service.—I may now be permitted to refer to the grievances of the ministerial service in the Province. The members of this service have been very hard hit by the extraordinary rise in the prices in consequence of the war. They have been literally driven deeper and deeper down the abyss, and until something is immediately done to improve their pay and prospects, they will cease to exist before long. They belong to the poor *bhadralog* class and their abject poverty and their wants and their sufferings have evoked universal sympathy. It is stated by the Hon'ble Sir Henry Wheeler that Government is contemplating to grant grain allowance to ministerial officers drawing Rs. 30 and under. I do not know what that miserable pittance would amount to. The sufferings of others drawing salaries above Rs. 30 are not less acute and an enquiry would reveal the fact that many of them are seriously in debt, and it would perhaps be hopeless to extricate them from the hands of their creditors until timely action is taken by Government.

My Lord, we are entering into what, we hope, will be the last year of our existence under the present constitution. We are looking forward to the fulfilment of the promise of the 20th August, 1917, both in letter and spirit. A new era of progress—political, industrial, educational and sanitary—is dawning, and happily the distractions and financial embarrassments consequent upon the war are passing away, and the reconstituted Government will, we hope, be in a position to embark on the comprehensive task of improving the material condition of the people.

[At this stage the Hon'ble Member had to conclude his remarks, having reached the time-limit.]

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

My Lord, before saying anything on the Budget I think I ought to congratulate the Hon'ble Sir Henry Wheeler on the improved method in which the Financial Statement has been prepared this year. Last year I complained of the indistinctness of the Statement, pointing out my

Discussion of the Budget.

Babu Kishori Mohan Chaudhuri.

difficulties in following the Budget figures, and I am glad to notice that this year I had no serious difficulty in grasping the salient features of the account.

Last year, my Lord, there was some talk about the waste of time in moving Budget resolutions—some of us resented it. This year also a pretty large number of resolutions were moved. We are constrained to admit that very little useful purpose is served both by such resolutions and by the Budget discussion. The members may with advantage be asked to submit their recommendations and suggestions before the Financial Statement is presented to the Council. The financial situation may be intimated to the members in a rough outline to enable them to make useful suggestions. It seems to me it is quite unnecessary for the members to suggest as to how the proposed expenditure should be met. If the importance of the thing can be established it is for the Finance Department to find out ways and means. I hope and trust some such procedure should be adopted in order to give a real character to these rather useless and showy Budget resolutions and discussions and the rules regulating the Budget consideration may be amended accordingly.

I am sorry, my Lord, I am to complain again as regards the administration of the Education Department. Out of a provision of Rs. 1,03,00,000 for Education there is a saving of Rs. 18,00,000 in the year just closed. It is said that there was some transfer of money to the Public Works Department for educational works, but the actual amount utilised has not been shown, though the actual transfer to the Public Works Department could be shown under head Police. This large saving under Education has not been re-allotted in the current year's educational Budget. On the other hand in the current year's estimate there is a decrease of about Rs. 5,00,000 as compared with the last year's sanctioned estimate. The curious explanation is that this decrease is mainly due to larger probable savings in the light of the expenditure incurred by the department in recent years. Are we to understand, then, that the department is inefficient and is unable to carry out the wishes of Government for some excuse or other? If the provision for capital expenditure of Rs. 3,00,000 reserved for the Dacca University is taken out of consideration, the real decrease in educational expenses comes to nearly Rs. 8,00,000. Surely the Education Budget cannot be accepted under the circumstances as really a progressive one, though in the case of the Budget as a whole it is surely progressive both in receipts and in expenditure. Decrease is explicable if there is no necessity for further expenses, but nobody would say that there is no necessity for larger educational expenditure in Bengal. If the department is really inefficient—and under the circumstances of this we cannot but come to the conclusion that it is really so—a thorough investigation and laying down a definite educational policy for the guidance of the department and adequate supervision for carrying out the provisions conducive to healthy development have become a necessity. When money is available the best interest of Government and the country demand a fair and judicious distribution in the several departmental expenditures.

On several occasions I pleaded for the cause of the Rajshahi College as I have some personal experience in the matter. It would not be out of place to say that at present there is no principle according to which the staff of a Government college is determined. It seems to be done in a haphazard way, the necessity of the moment being met in the way which the Director, on the representation of the Principal or the Governing Body concerned, thinks best. I may be permitted to cite a concrete case for example. I understand that the Chittagong and the Hooghly Colleges are going to be affiliated in B. A. Economics (Pass) and two Professors in the Provincial

Discussion of the Budget.

Babu Kishori Mohan Chaudhuri.

Educational Service are going to be appointed for the same. In the Krishnagar College Economics is taught by the Principal who is an Indian Educational Service man. But the Rajshahi College, though affiliated since about 5 or 6 years in B.A. Economics (Pass), and several students are coming out successful in that subject each year, has been compelled to rest satisfied with a Lecturer in the Subordinate Educational Service. May I ask on what principle the teacher of Economics in the Rajshahi College should be in the Subordinate Educational Service? Even the demand for the affiliation of the institution in Economics (Honours) with an appointment of an additional Professor in the Provincial Educational Service to be at the head of that branch of study has not met with the approval of Government, though such a development could be naturally expected in due course of progress. The University, on the recommendation of the College Inspectors, has been insisting for some time upon the appointment of additional Professors of English. I understand a rather curious instruction was issued some time ago for reducing the number of students by 100 or so, so that for the sake of avoiding a monthly expenditure of Rs. 200, a loss of Rs. 600 a month was suggested as a remedial measure. The Rajshahi College is bigger than the Hooghly, Chittagong and the Krishnagar Colleges taken together as regards the number of students. In fact up to the B.A. and B.Sc. standard the Rajshahi College is not inferior to the Presidency and the Dacca Colleges as regards the number of students and the result of University examinations. A library and reading-rooms are necessary adjuncts of a college. Would the hon'ble members believe there are no buildings for these purposes in the Rajshahi College? The books are huddled together in the small rooms of the common room building, constructed out of private contribution for a different purpose and for this, the sanction of the donor had to be obtained. What is most surprising is that there is a librarian in charge of the college library on a petty salary of Rs. 20 a month, and this librarian is expected to guide the studies of the B.A. and the B. Sc. students. In all colleges there are gymnastic teachers for college boys but in Rajshahi there are none. As regards the teaching staff again there is a large number of Indian Educational Service men in the Presidency and the Dacca Colleges and at least one Indian Educational Service man in each of the Chittagong, Hooghly, and Krishnagar Colleges. But the Rajshahi College is the unfortunate exception in this respect. Although by a Government order the men in Indian Educational Service and the Provincial Educational Service are, in the superior service, theoretically at par as regards rank, but there is a special arrangement of an allowance of Rs. 100 a month when a Provincial Educational Service man acts in place of an Indian Educational Service officer.

For short vacancies local arrangements are desirable no doubt, but in long vacancies of which there have been too many the men in the favoured institutions have been enjoying that allowance and the unfortunate officers of the Rajshahi College have been practically deprived of it. Babu Raj Mohan Sen, Senior Professor of Mathematics, is now retiring after about 30 years of meritorious service in the Rajshahi College. He is an exceedingly capable man and is an ideal teacher, but he had never had any opportunity of acting in the Indian Educational Service although men much junior and, I think, also inferior to him enjoyed such acting allowance for years together in other favoured institutions and this for doing no higher additional work.

Rai K. K. Banarji Bahadur has been serving as Principal of the Rajshahi College since over 20 years. The college was in a moribund condition, although there was an Indian Educational Service man as Principal before him. The Rajshahi Association was offered to take up the college with a fixed Government grant and Government were contemplating the abolition of the B. A. classes. At this critical moment he became the Principal of the

college and, thanks to his admirable efforts, untiring zeal and tact, he saved the tottering institution. It has been growing steadily under his management and Rajshahi College now is one of the best colleges in the province. This gentleman, however, has got no allowance as Principal during this long period, excepting a small house allowance of Rs. 60 a month for the last 6 or 7 years. Because he has been tied down to the Rajshahi College he had no opportunity of ever acting in the Indian Educational Service and getting the allowance which was obtained by men considerably junior and inferior to him in other institutions. Recently a few Provincial Educational Service men have been promoted to the Indian Educational Service, but Rai Kumudrai Kanta has been superseded by one who was appointed long after he had been confirmed as Principal of a first grade college. Is this, my Lord, at all fair? The Government decision is, I understand, that all administrative posts such as Principalships or Chief Inspectorships should be officered by Indian Educational Service men. The result of the Rajshahi College unmistakably shows that the Principal is a deserving and well-qualified officer. Is it not reasonable, then, that he should be at once promoted to the Indian Educational Service or a suitable special allowance should be granted to him? Recently the fee rate in the Rajshahi College has been raised from Rs. 4 to Rs. 6 per month and the Government plea is that this has been done for the sake of uniformity. If uniformity is to be observed it should be done in all other respects—I mean uniformity in the advantages which the students in other colleges receive in return. Over 300 students in the Rajshahi College live in hired houses with many disadvantages in the absence of hostel accommodation. There are large endowments for the Rajshahi colleges for the spread of education in North Bengal which is admittedly very backward in education and inhabited mostly by Muhammadans of very limited means. Affiliation of this college in I. A. and B. A. Botany and the re-affiliation in B. L. and some of the M. A. courses are to my mind urgently necessary. There is a provision of Rs. 50,000 this year for hostel accommodation at Rajshahi, but it is very inadequate as the sum cannot provide for more than 50 students at the most.

As the time-limit will not allow me to treat the Subordinate Educational Service and the Lower Subordinate Educational Service at length, I may be permitted to draw the attention of Your Excellency's Government for taking proper steps for their much-needed reforms. The initial pay of Rs. 15 a month for anyone in the Educational Department is a mockery, if I may be permitted to say so: I believe it is an exceptional case in the Educational Department only. The case of the Lecturer entrusted with the duties of teaching in the B. A. classes requires no repetition. A complete reorganization of the whole service is a necessity, and I refer to the case of the most pitiable for special reference only.

We are thankful to Government for the special consideration shown for the spread of agricultural education in Bengal. It is an agricultural province and nearly 78 per cent. of the population live by agriculture. In this respect the Punjab Government, I believe, have taken practical steps for giving sufficient impetus to the spread of agricultural knowledge. It is time that Bengal should have an agricultural college of its own and every district if not each sub-division should have an agricultural demonstration farm with attached cattle-farms for practical instruction in the improved method of scientific agriculture and for the improvement of cattle. The educational curriculum should include if possible a compulsory course on Agriculture in Primary Education and an optional course in the secondary stage. The experimental farms, as experience has shown, are no safe guide for the spread of agricultural education. I may be permitted in this connection to urge for special arrangement for seed distribution in special cases.—I mean where economic pressure due

to failure of crops or flood or overindebtedness cause distress and the cultivators are not in a position to arrange for the necessary supplies. Advancing seed at cost price to be realized at harvest time may with advantage be adopted for ordinary cultivators of limited means.

No useful purpose is served by crying hoarse on ever-increasing Police expenditure. Improvement of the department we all want, and both the Government and the people are vitally interested in it. The real difficulty is how to accomplish it. As far as I have been able to study the question I think the department should be presided over and managed by the Civilians with the help of some experienced Deputy Magistrates, instead of by Superintendents of Police with the help of Deputy Superintendents of Police mostly recruited from lower ranks. The pay and prospects of the Superintendents of Police and Deputy Superintendents are not considered inadequate still improvement in that respect is also under the consideration of Government. But, my Lord, the real point is efficiency.

[The Hon'ble Member having exceeded his time-limit had to resume his seat.]

The Hon'ble Maharajadhiraja Bahadur of Burdwan said :—

"My Lord, I do not propose to delay the Council more than is necessary, but I feel it my duty on behalf of Government to reply to some of the points raised by the speakers this morning relating to the departments under my charge. I have first of all to take up the Sanitary Department, and would prefer to call it the Department of Public Health. It is gratifying to Government to find that the large provisions made for this important part of the public welfare has met with general satisfaction. Our Budget allotments for public health have, in fact, been rising more rapidly than many people know. The Budget estimate for 1917-18 stood at a little under 6 lakhs, last year it was very nearly 12 lakhs and in the present year it reaches the record figure of over 18 lakhs of rupees.

The Hon'ble Kumar Shib Shekhareshwar Ray says that though an allotment of nearly Rs. 14,00,000 has been made, no details have been given of the schemes on which the money is to be spent. I am afraid the Hon'ble Member could not have gone very carefully into the Budget, or else he would not have made this mistake. Details are given on page 83 of the Budget under no less than 25 heads and in introducing the figures on the 19th March I referred to this statement and gave some further particulars of the different schemes. As he seems, however, to still have some misapprehension, I may say that the Rs. 13,75,000 have been provided for works of three kinds :—(1) anti-malarial works, (2) works of sanitary engineering, such as schemes of water-supply, drainage and general improvement, and (3) certain items for recurring expenditure, such as quinine grants to local bodies, contributions for health officers and sanitary inspectors and works in connection with the Calcutta sewerage and the drainage of the Fringe area. The anti-malarial works are works of drainage drawn up on scientific lines devised by Dr. Bentley which, some members of this Council may remember, were explained in an address delivered by Your Excellency to a Conference of District Boards in this Council Chamber a little over a year ago. These works will either be carried out entirely by Government or Government will assist the district boards who will carry them out under the Bengal Sanitary Drainage Act with the help of loans which Government will also grant. I may mention here in connection with the Sanitary Drainage schemes, and I should like to bring it to the notice of the Hon'ble Kumar Sahib, who has given me a pleasant surprise this morning by advocating the cause of tenants as strongly as that of zamindars, that the Manikhali and Bargachia Drainage projects are not only anti-malarial projects, but will indirectly benefit landlords of the adjacent areas, and, if I may say so, at the

Discussion of the Budget.

Maharajadhiraja of Burdwan.

expense of Government, and I believe one of the gentlemen whom I am sorry not to find here to-day who will be largely benefited by the Manikhali Khal project will be the Hon'ble Member who was in charge of the Primary Education Bill, for he happens to have large properties there. I went down to see this project yesterday morning with Mr. Cowley and Mr. Adams-Williams, and we hope that it may be possible to open at least part of it before the next rains, and I hope to be able to look into one or two other projects of a similar nature before long. I may point out that these schemes have been taken up by Government and are a new departure because these schemes are going to be financed entirely by the Government to redeem the promise which Your Excellency made when you took over the reins of office, viz., to take up the question of anti-malarial measures in Bengal in right earnest. Before I leave the subject of Sanitation, I may perhaps be permitted to refer to the provision that has been made for an enquiry into the river pollution and the prevalence of kala-azar. The enquiry into the river pollution is due to the interest taken on the subject by the Hon'ble Rai Mahendra Chandra Mitra Bahadur, while the investigations into kala-azar is the outcome of questions on the subject asked by the Hon'ble Babu Brojendra Kishore Ray Chaudhuri. I mention these particularly because charges are not infrequently made that Government goes on its own way sublimely without regard to questions and resolutions in Council. I think that the provisions we have made in this direction are a proof that when good cases are made out, the Government are responsive to the expression of public opinion.

I now turn to the subject of Education on which a number of speakers have expressed their views. The first point which I have to notice is the complaint regarding unspent balances. The reason for the deficit in expenditure has already been explained by the Director of Public Instruction in introducing the figures for Education on the 13th of March last. His arguments were briefly as follows :—

(1) non-ultilization in full of Imperial grants as certain of the proposed schemes have been sanctioned only in part ;

(2) transfer of money to the Public Works Department for educational works ;

(3) deputation to military duty of several officers of the Education Department with the consequent saving of salaries and house allowance ;

(4) stoppage of the payment of exchange compensation allowance ;

(5) impossibility of recruiting officers for the Indian Educational Service ; and

(6) decrease in contingent expenditure on account of the economy enforced by war conditions.

The greater part of the lapse is caused by our inability to spend fully the grant of 9 lakhs made by the Government of India for the improvement of the pay and training of teachers, and of the 5½ lakhs for the development of primary education. Our inability to spend fully is due to causes beyond our control. The savings on the 9 lakhs grant amount to no less than 5½ lakhs ; they are due entirely to the fact that we have not yet received sanction to our proposal for the improvement of secondary education and for our scheme of *guru*-training schools. Details have been given to-day in reply to a question by the Hon'ble Babu Bhabendra Chandra Ray and from that some interesting facts will be revealed. The 5½ lakhs grant was received during the year and all building work under this head has not been completed. Further as our schemes under this head contemplate the building and subsequent maintenance of various schools, and as maintenance charges would not arise until

Discussion of the Budget.

Maharajadhiraja of Burdwan.

the buildings are ready, it was impossible to contemplate the full expenditure in the first year of the grant.

The Hon'ble Sir Deba Prasad Sarbadhikari has referred to the grant for private colleges which he says has been suspended for the past few years. He goes on to say that he had looked forward not only to the restoration of the grant, but also to the payment of arrears and he is disappointed to find that item altogether omitted from the Budget. I must point out that he is entirely under a misapprehension. The grant was never withdrawn, but payment from it was restricted after the first year of the war. Like other allotments it fell under the embargo laid down by the Secretary of State against expenditure which was not justified by immediate necessity, and the University were free to make recommendations for any grant which fulfilled this criterion. Not only was the grant not withdrawn, but it still appears in the Budget. If the Hon'ble Member will refer to page 137 of the Civil Budget Estimates he will find the sum of Rs. 1,29,000 provided as usual. The Hon'ble Member is anxious that this grant should be increased. It must, however, be remembered that this is not the only source from which Government assists private colleges. The ordinary grant-in-aid allotment of the Education Department is an additional source of help. Grants from this source are given on a contributory basis and the expenditure during the last four years has not by any means been light.

Two speakers, viz., the Hon'ble Sir R. N. Mookerjee and the Hon'ble Babu Siv Narayan Mukharjee have expressed the hope that Government will give assistance to municipalities that will promote primary education on the lines indicated in the Primary Education Bill which was passed by this Council a few days ago. The latter gentleman goes further in referring to the absence of provision for the development of primary education under the new Act. This reference appears to ignore the principles on which a Budget must be framed. Provision cannot be made for possible developments under a Bill which at the time of the preparation of the Budget was merely a proposal before the Council and which when it becomes law will imply fresh expenditure only after certain preliminaries had been attended to. The survey of educational needs in each municipality has first to be made, estimates of its requirements prepared and then will be the time for municipalities to approach Government and to ask for financial aid, and for the Government to examine each scheme on its merits and then to consider what assistance it has got to give to partly finance such schemes. Before I leave the question of primary education, I think I ought to make some reference to a remark of the Hon'ble Rai Mahendra Chandra Mitra Bahadur made in connection with the proceedings of the Dacca Social Service Exhibition, stating that Indian school-masters are worse paid than coolies. This I think relates mainly to primary school teachers who, it must be understood, are not Government servants. Their humble emoluments are provided by Government grants and district boards' grants by fees paid by those whose children they teach. It is true their position is steadily being improved, but improvement must be difficult if the general public, according to the Hon'ble Rai Bahadur, go on paying coolies more than village *gurus*. A change is certainly necessary and it is not a change entirely for the Government to introduce, but it must be a change in the public point of view regarding the pay of these *gurus*.

I may perhaps now refer to the complaint made by the Hon'ble Babu Kishori Mohan Chaudhuri regarding the absence of Indian Educational Service officers in the Rajshahi College. His remarks on the subject, I may assure him, will not be overlooked, and I can promise him that I will take up the matter in consultation with the Director of Public Instruction. Both he and the Hon'ble Rai Mahendra Chandra Mitra Bahadur have urged the need

Discussion of the Budget.

Maharajadhiraja of Burdwan.

of improving the prospects of the men in the Subordinate and Lower Subordinate Educational Services. I may remind them that this matter formed the subject of a resolution over a year ago, and my predecessor, Sir S. P. Sinha, explained that it would be impossible to take up the reorganisation of the lower services till the higher services had been reorganized. It is necessary to decide what is to be the dividing line between the two. The minimum pay of the higher services must be determined before the maximum pay of the lower services can be fixed. In fact, I can only repeat the promises of Lord Sinha that the matter will be taken up when the Secretary of State passes orders about the higher services.

The Hon'ble Rai Mahendra Chandra Mitra Bahadur has also brought up the matter of giving the Hindu and Hare Schools an installation of electric fans. My Lord, I may say that there are *punkhas* there and it is not a fact that there are no fans at all. It is rather a problem for the Government that on the one hand we are asked to provide fans, and on the other hand, we have the Hon'ble Rai Sri Nath Ray Bahadur who wants a much simpler style of living, and complains that 'our schools and colleges are mostly fed by boys of poor parents; they live in their homes and humble huts and in a modest style; they come to the hostels from Log Cabin to White House. What is the effect of these palatial buildings on young and impressionable boys? They unconsciously adopt a style of living that they can vainly seek to find at home.' It is very difficult to know what to do in these circumstances. Perhaps the Government does indulge in large buildings and hostels, but I must remind the Hon'ble Rai Sri Nath Ray Bahadur that if Government makes a grant towards hostels, Government must insist on a reasonable standard of light, ventilation and accommodation and for other conveniences, and to see that the claims of hygiene and sanitation are not forgotten, and that the students are living in a clean and decent manner. That the charges in hostels are increasing is not generally a consequence of the hostel system in many cases. Hostel rents are increasing because the buying power of money has been diminishing rapidly during the last four years, nor is the Hon'ble Member correct in his nomenclature regarding the palatial buildings of Gothic and Saracenic architecture. If I may say so, the style of architecture usually adopted by the Public Works Department or private contractors is inspired first of all by considerations of economy and not of art and the Hon'ble Member will have to travel far in Bengal before he finds hostels with architecture reminiscent of the Saracens and the Goths. They would rather remind him of the art of their kinsmen, the Vandals.

In connection with the question of hostels, I think I must make some reference to the question of hostels for Muhammadans which has been raised by the Hon'ble Maulvi Abul Kasem. I may say that no schemes brought forward have been rejected. We have six schemes in hand, two for Government schools and four for private schools. The present hostel accommodation is not fully utilised, and Government has failed to find evidence of any pressing demand for extended accommodation. However, as has already been stated, Government is not unmindful of the fact and Government is doing all that it can to meet requirements. The Hon'ble Maulvi Fazl-ul-Haq also complained at a recent meeting of the Council that the Muhammadans were being inadequately provided in the schools and hostels. I may say that Government is in possession of facts to show that this is not really the case.

Before I conclude, Sir, I must make some reference to the question of female education which has been brought forward by the Hon'ble Rai Radha Charan Pal Bahadur. He has made a passionate appeal—though he did not cry himself hoarse, here to-day although he says he has done so on many occasions—for providing girls' schools for *bhadralog* classes. My Lord, I do

Discussion of the Budget.

Mr. Cumming.

not think it is realized that so far as the education of girls is concerned, Government is really more alive than the people themselves to the question; our main difficulty is one of getting a sufficient number of educated women to come forward as teachers; but I must here also point out that in a matter of this kind Government has to treat the subject as a whole. The question of special schools for girls of *bhadralok* classes, or as the Rai Bahadur points out—of schools of a purely orthodox or semi-orthodox nature—must be solved by the gentlemen concerned themselves. It is too much to ask the Government to provide for these special institutions. Government can only provide for the general education of girls and can certainly take up the question of special institutions for girls of the *bhadralok* classes in Calcutta or other large towns in the mufassal if there is not only demand for it from the classes concerned, and, if that demand is supplemented by funds from these *bhadralok* classes, but not otherwise.

I may also refer to a resolution which was recently put down (but not moved) in the name of the Hon'ble Babu Akhil Chandra Dutta regarding the elevation of the status of the Government Girls' School at Comilla. A scheme for increasing its accommodation at a cost of Rs. 1 lakh is ready; but the Department of Education was not successful in securing its retention in its list on page 52. A petition for the elevation of its status has recently been received, but it was not known whether the demand would justify this. The matter cannot, however, be investigated until we are in a position to proceed with the building for increased accommodation which is a prior requisite to any kind of development with reference to such an institution.

My Lord, this is all I have to say in connection with the departments under my charge; and I may once more remind the Hon'ble Members of Council who have been taking great interest in the question of primary education lately as well as in sanitation, that whilst Government is fully alive to the needs of the province in these respects and whilst Government will do all it can and all that lies in its power, the people have got to make up their minds if they are really in earnest about improving the health of their poorer countrymen, or if they want really to see the spread of primary education they have got to put their hands into their pockets and have got to realize once for all that special taxation in special areas must form one of the principal features of advancement in respect of these necessary measures of reform in the province."

The Hon'ble Mr. Cumming said :—

"My Lord, the subjects regarding which I propose to offer a few observations to the Council are the items of agriculture, famine relief and the co-operative movement which are under the control of the Revenue Department, and irrigation projects which are under the control of the Public Works Department. At the outset I should like to acknowledge the friendly reception which the estimates of the department under my charge have received from several Hon'ble Members; and, in particular, I should like to draw attention to the remarks of the Hon'ble Sir Rajendra Nath Mukherji.

When discoursing on the subject of agriculture, the Hon'ble Kumar Shib Shekhareswar Ray has complained of the standoffish attitude and exaggerated notions of self-sufficiency of the Department of Agriculture. He has also drawn special attention to the Agricultural Farm at Rajshahi, where, he states, he has seen no sign of activity. In answer to that observation, I may say at once that one who has no small knowledge of Rajshahi district informs me that this farm has done much good work, particularly in connection with sugarcane.

Discussion of the Budget.

Mr. Cumming.

Again, the Hon'ble Maulvi Fazl-ul-Haq, who has done me the courtesy of giving me a copy of his remarks at the beginning of the present sitting, has repeated in another form the statements made at a previous meeting of this Council, suggesting that the work of the Agricultural Department is all wrong. He is, of course, entitled to his opinions; but I desire to protest strongly against the indiscriminate charges, suggesting moral obliquity, which he has thought fit to make against his own countrymen. Now, with reference to the charge of aloofness of the Agricultural Department, I concede at once the proposition that the Department can effect little except in close co-operation with the people. But I repudiate the suggestion that the Department is manned by learned experts who are engrossed in their theoretical experiments and scientific researches,—to use the words of the Hon'ble Kumar himself. I venture to think that the Hon'ble Kumar has never met Mr. Milligan, the present Director of Agriculture, or the experts to whom is due all credit for their efforts in connection with the distribution of selected paddy and jute seed, the importance of which both the Hon'ble Kumar and the Hon'ble Maulvi Fazl-ul-Huq are inclined to depreciate. In this connection I have to say that it is a matter of regret to the Bengal Government that, by reason of ill-health, the Director is compelled to go on leave. Mr. Milligan's appointment was hailed with acclamation when it was made; and I have heard golden opinions about his work from various quarters. I am, therefore, surprised to hear the accusations which have been levelled at the Department to-day. Regarding these criticisms, it appears to me that the Hon'ble Members who make them do not realize that this Department is still in its infancy. I may say in passing that the Public Services Commission stated that in its present form it was born in the year 1905. Further, the Hon'ble Members do not realize that this Department has been nurtured from its birth by some of the best officers that Bengal has possessed; that its activities have been extended, are being extended and will be extended, and that the immediate lines of activity are the following:- the establishment of demonstration farms and of seed stores, the appointment in every district of agricultural officers and of trained demonstrators and the extension of agricultural associations. Regarding the view which has been put forward by these Hon'ble Members that there is a general lack of co-operation with the public, I need only say that I am prepared to pit my own experience against such a view: I have myself seen what the close co-operation of the people with the Agricultural Department can effect. There are three districts in particular, Sir, in which this co-operation has been highly developed; one in Northern Bengal, one in East Bengal and one a district in West Bengal. After all, Government do hold certain guiding principles for their action. As the Agricultural Adviser to the Government of India has well said, the great fact in Indian agriculture is that it is useless to improve agricultural practice if the seed is not good; and the second great problem is an organization to disseminate good seed. These two cardinal points the Government of Bengal keep in view.

I now turn, Sir, to the head of famine relief; and on this point the Hon'ble Rai Radha Charan Pal Bahadur has asked a very pertinent question. He says:—'Why should the district of Bankura of all districts in the Presidency of Bengal fall an easy prey to famine?' He asked us what are the economic causes that have brought about the poverty of the people in that area. He has suggested the excavation and re-excavation of irrigation tanks. Now, the economic causes are patent to anyone who has first-hand knowledge of the country which lies west of Bankura town on the confines of Chota Nagpur. In that area, we find a poor thriftless people who depend almost entirely upon one crop in the year. In years of moderate rainfall, they can obtain a good return from the low lands; but in years of the failure of the monsoon, the high lands bear no crops. As the population has

Discussion of the Budget.

Mr. Cumming.

increased, the cultivation has encroached on these high rocky unfertile lands; and the law of diminishing return comes into operation. The population seeks a remedy by migrating to obtain agricultural work in the districts of Hooghly and Burdwan; but the fact remains that they are forced to grow crops on land which is unsuitable for cropping and which will give a return only in a favourable year. For this reason the district of Bankura has suffered in the past: Bankura suffered contemporaneously with the great Orissa famine of 1866, the Bihar famine of 1874, with the distress of 1885 and the North India famine of 1897. The work that was done in this district during the distress of 1915-16 and the work that is done now, which I recently inspected, will help the district by improving communications and by affording facilities for irrigation; but the real remedy which, I trust, may possibly be obtained by the help of the Agricultural Department is the evolving of a drought-resisting autumn paddy which will grow on these high lands in years of defective rainfall.

Proceeding now to the subject of the co-operative movement, we have heard that the Hon'ble Maulvi Fazl-ul-Haq wishes the Council to believe that this movement has become officialized. I can only claim, Sir, that his judgment is entirely at fault; and that if, in the general opinion of the public, there is one department regarding which it may be said that the administrative activity is primarily unofficial, it is the Co-operative Department. Under the same head, I find that the Hon'ble Kumar Shib Shekhareswar Ray has made a complaint regarding the selection of Naogaon for the headquarters of the Joint-Registrar of Co-operative Societies. In this matter, I think, he must be under a misapprehension, because this appointment of Joint-Registrar is not intended for Naogaon alone, but for the whole of northern Bengal. The problem before Government was to find out a place which was centrally situated with reference to the districts in the Rajshahi Division; with reference to railway communications; and with reference to the co-operative movement in that division. The selection of Naogaon which is practically Santahar—the importance of which as a railway centre the Hon'ble Kumar would himself concede—was made after an examination of all the considerations involved; and for the selection I take full responsibility.

The second main head, on which I may offer a few remarks, is that of irrigation. The Hon'ble Rai Sri Nath Ray Bahadur has questioned whether the sum of half a lakh is sufficient for the improvement of water-channels in the Dacca district. The answer is that experience has shown that in the commencement of such projects as the *Dolai khal* and the new navigable route from the *Padma* to the *Dhaleswari* expenditure cannot proceed at a rapid rate; and the amounts which have been allotted for the present financial year are meant primarily for land acquisition and other preliminaries. The same Hon'ble Member rather has, with a light heart, suggested the levy of tolls on all boat traffic in these water-channels. This raises a very large question indeed, into which I shall not enter here. But it cannot be unknown to the Hon'ble Member that there is a school of thought which maintains that such a tax on transport is indefensible on principle; and I venture to wonder what the Hon'ble Member's attitude would have been if the suggestion had come from Government. Under the same head, I should like to correct a misapprehension on his part regarding the selection of Khulna as the headquarters of a waterways division. It is not intended that Khulna should be the headquarters for the Eastern Bengal areas, such as Dacca and Mymensingh; obviously, it would be a most unsuitable selection. On the contrary, Khulna has been selected as headquarters for the areas which lie immediately to the east of Calcutta, namely, those in south and central Bengal.

Discussion of the Budget.

Sir Henry Wheeler.

Under the head of Irrigation, there are two remarks of the Hon'ble Rai Radha Charan Pal Bahadur to which I may briefly refer. As regards the enquiry concerning the construction of the new bridge across Tolly's Nulla at Kidderpore I may say that the width of the bridge will be double that of the old one.

As regards his enquiry on the subject of the dependence of the port of Calcutta on the Bhagirathi river, I may inform the Hon'ble Member that the Report of the Nadia Rivers' Committee is approaching completion; and I have no doubt that it will contain an exhaustive examination of a number of important hydraulic problems and will furnish helpful suggestions for the consideration of Government.

There are other points, my Lord, on which I might take up the time of the Council, but it would suffice to say that the Hon'ble Members who have raised them may rest assured that the comments which they have made have been noted and will be considered by the different departments concerned."

The Hon'ble Sir Henry Wheeler said :—

"My Lord, I propose to confine myself to the particular departments which are in my charge, and the points that have been raised in connection with them are fortunately few. At the outset, there is the main question of the form of our budget, and I am glad to find that the attempts that we have made to cast the estimates into a form which is more easily intelligible have met with general appreciation, and I acknowledge the kind remarks that have been made in various quarters on that score. The Hon'ble Sir Deba Prasad Sarbadhikari made a useful suggestion that we might supplement the budget by an index, and the suggestion is well worth consideration, which it will receive. But otherwise, subject to any further modifications of detail which experience may indicate during the year, I think we have now got the budget into a fairly clear and simple shape.

The Hon'ble Rai Radha Charan Pal Bahadur has repeated his old suggestion that we should graft on to our present financial procedure the machinery of a standing Finance Committee. I can only give the same answer that I did on a previous occasion, namely, that he is really asking for a change which is closely connected with pending reforms which have been mooted; but as matters stand we can only carry on our financial procedure on the lines which have been laid down for the whole of India and which govern all provinces. Further large constitutional changes must await whatever decision may be come to on the Reforms Scheme which will shortly occupy the attention of Parliament.

Turning to details, perhaps the department that has loomed largest on the financial side this year is that of Excise, and I welcome the opportunity of making a few remarks about it, as I fully recognize that the large increase in our receipts under this head has quite properly attracted attention and possibly, in some quarters, has caused a certain amount of uneasiness. It is the case that our Excise receipts during the current year show a large increase over those of the preceding year, as we have made no attempt to conceal. On the contrary we emphasized the fact in the budget, and I again emphasized it in the remarks which I made in this Council. The three main items with which we are concerned in the Excise budget are country-spirit, ganja and opium. As regards ganja and opium I do not think there is any particular cause for anxiety, as the revenue during the last five years has been fairly steady, and the statistics of consumption show a marked decrease. If we take the consumption figures for the first ten months of each year—I take ten months in order to get an up-to-date comparison with the year 1918-19—the consumption of ganja, which was roundly 92,000 seers in 1914-15, was only

Discussion of the Budget.

Sir Henry Wheeler.

67,000 seers in the corresponding period of the current year, a very marked fall. Similarly, in the case of opium, the figures for the same ten months in 1914-15 were 52,000 seers, but in the first ten months of this year only 34,000 : again, a very noticeable decline. So in these two respects it may be said that there is no evidence that the province is being unduly demoralized. But when we come to country-spirits, I admit the case is different, and taking the same ten months' basis, we find a consumption of 794,000 gallons in 1914-15, as against a consumption of 649,000 gallons in the current year. The four districts which are mainly responsible for this result are Calcutta, the 24-Parganas, Hooghly and Howrah ; and it has been brought about largely by the following causes. In the first place there is the substitution of the fixed-fee system of settlement for that of auction, which was introduced in Calcutta on the 1st of April, 1917, and in the other three areas on the 1st of April, 1918. That change greatly discouraged the practice of dilution, and has enabled us to gain current information about the progress of the trade which has rendered possible a very substantial increase of duty at comparatively short intervals. The second main cause is the progress which we think we have affected in checking illicit practices ; they still continue, of course, but we believe they are less owing to departmental efficiency. The third cause is the rise in price and decrease in supply of foreign liquor, which has encouraged the resort to Indian-made foreign liquor. Those are the three principal causes which have been operative, and the first, as has been acknowledged by Sir Deba Prasad Sarbadhikari, was introduced in response largely to the advocacy of temperance reformers, and I have here many extracts from reports, memorials from temperance workers, etc., which would substantiate that claim. The idea is that under the auction system there is a tendency for license fees to be forced up, thus compelling vendors to push sales in order to recoup the heavy bids which they may have been led into making at the time of auction settlement, and it is thought to be a sound feature of Excise policy to reduce the proportion of revenue which is derived from license fees, and to increase that which comes from duty. That this has been achived can be substantiated by the figures, this time on a nine months' basis, which show that in 1914-15 out of our country-spirit revenue of Rs. 49 lakhs, Rs. 20 lakhs was derived from license fees and Rs. 29 lakhs from duty. But in 1918-19 out of a total revenue of Rs. 56 lakhs, we have Rs. 13 lakhs derived from license fees and 43 lakhs from duty. Therefore, in that respect, our policy does answer the test which has been laid down by temperance reformers, and that also we have not been unmindful of the necessity of checking consumption is shown by the fact that in Calcutta we raised the duty after we introduced the fixed-fee system once in August 1917, and again in January 1918 ; while in Calcutta, along with the other districts affected by this change, the duty was put up again in October 1918, and in February of the current year, while elsewhere there have been increases from the 1st of April. So the department can claim that they have kept a careful watch on consumption, and have raised the duty in a very marked degree ; in fact, we have in some areas raised the duty above the tariff rate per L. P. gallon, although, to quote the words of the Excise Committee : 'it has repeatedly been laid down that the maximum rate of duty on country-spirits should be the tariff rate on imported spirits'. That was their pronouncement, but nevertheless, in our desire to check consumption, we have in certain areas disregarded it. To take another test, of the number of shops, we have reduced the number of country-spirit shops in Calcutta from 107 in 1914-15 to 78 in the current year, a very substantial reduction, and from the 1st of April last we have abolished another 15 shops with an average sale of 30,000 L. P. gallons from which we derived a revenue of Rs. 4 lakhs. Therefore, the department can represent that they have not sacrificed the interests of the province to their desire for revenue. Again, although I have admitted that in these four areas there has been an increase in consumption, it should not be

Discussion of the Budget.

Sir Henry Wheeler.

overlooked that the consumption is still below that of 1912-13, although our revenue is considerably higher.

Turning to the second main cause, it can be no ground of complaint that we have succeeded in checking illicit practices, although in some districts, noticeably in Bakarganj, it is believed that that has contributed to the growth of licit consumption.

As regards the encouragment given to the production of Indian-made foreign liquor, the following figures for nine months of the duty receipts under this head show a revenue roughly of Rs. 7½ lakhs in the current year, as against Rs. 4¾ lakhs approximately last year, while the duty on rectified spirit issued for the compounding of potable foreign liquor has risen from rather over Rs. 3 lakhs in 1917-18 to about Rs. 5 lakhs in 1918-19. I think these figures show that in consequence of the decrease in the supply of foreign liquor the duty under Indian-made foreign liquor and rectified spirits has gone up, and they afford an answer to the doubts which the Hon'ble Sir Deba Prasad Sarbadhikari has expressed, that really foreign liquor has not had much to do with the matter. In the detailed figures he has given about Mymensingh and Dacca, I think he must have made some mistake. I can show him our figures later on, if he wishes, but merely say now that our statistics are different from those that he has quoted.

Incidentally, a feature of the figures which has also helped to increase the total revenue, is the growth in the revenue derived from the manufacture of tinctures in bonded laboratories, in which the nine months' receipts of Rs. 1,30,000 last year have gone up to Rs. 2,52,000 this year. That, of course, is satisfactory, in so far as this manufacture of tinctures has replaced in a *swadeshi* way what was previously, prosumably, imported from abroad.

As regards possible remedies, the Hon'ble Sir Deba Prasad Sarbadhikari has made various suggestions, and I will briefly refer to them. He would like to see liquor of weaker strength substituted for more potent varieties, but this is a point which has already attracted attention, and I can give him details showing specific reductions made from time to time in different areas. We have also taken steps in some districts to put a preferential rate of duty on the weaker strengths so as to give them an advantage over the stronger. As a second suggestion he advocates a restriction of supply on the lines of the action taken in the case of opium, that is, not to permit the sale of more than a certain quantity from one shop. But I may point out that that system has never been entirely satisfactory even as regards opium, and in the neighbouring province of Bihar and Orissa it has been given up. We maintain it here largely on account of the facilities which exist for smuggling opium to Burma over which some check can be exercised in this way. But it is not a method that is free from complications, and the departmental view is that in respect of liquor it would be almost impossible to estimate what a standard monthly issue should be. A third suggestion is that we should try and separate off and on licenses. I am advised that as regards the *mufassal* this would probably merely increase the total number of licensed shops; in Calcutta, I am told, there may be greater possibilities, and the Excise Commissioner will look into the matter, as soon as we see the effect of the reduction in the number of shops which we have just brought about. As a fourth point, the same Hon'ble Member has put forward the desirability of offering counter-attractions to the consumption of liquor, but I am afraid the evidence against him is rather more definite than perhaps one would infer from his speech. In the first place, there are already counter-attractions in the shape of tea-shops which are run on a commercial basis, and I think it was only a few days ago that there was some reference in the newspapers to the report of the Tea Cess Committee that a considerable measure of success has been achieved in that direction. These shops

Sir Henry Wheeler.

are being run from motives of commercial self-interest, and commercial self-interest will probably do more to give an impetus to the movement than official encouragement. The attention of the local Government was, however, drawn to the matter in 1916, and we promised assistance in pushing through the licenses which are required for tea-shops in Calcutta. Apart from this, and in connection with counter-attractions in general, we have the very definite findings of three provinces—Madras, Bihar and Orissa and the Punjab. I will read an extract from a Madras report of 1918 bearing on this system :—

'The net conclusion derived from a perusal of the Collector's reports is that in the majority of cases in which the experiments are complete, they have failed to create a demand for the alternatives offered to intoxicating drinks, and that even where the experiment was a financial success, there is nothing to indicate that it has done anything to decrease drunkenness. It seems unlikely that this would be the case for three reasons :—

(*a*) that tea and coffee appeal to a different class from those who drink toddy and arrack ;

(*b*) that they are generally dearer ; and

(*c*) that they were offered as alternatives and not as substitutes.

On the other hand, the experiments seem likely to have an effect that was not expected by those who suggested them. The evil of the drink habit shows itself in two ways, in the mental and physical deterioration of the drinker and in the limitation of the proportion of his wage that is available to pay for the food of himself and his family. The 'coffee club' habit, if it is free of the former objection, is open to the latter in an equal, if not greater, degree, especially in the case of the daily labourer. It offers a temptation to many of those who do not drink alcohol and whose ordinary drink is water. Many educated Indians, therefore, regard it as a danger in itself.

The whole experiment illustrates the danger of transplanting wholesale a social arrangement that is suitable in one country into another of a different climate and customs.'

That was the experience of Madras. In Bihar and Orissa, the report of 1918 merely says : 'the opening of tea and coffee shops has not so far provided an effective counter-attraction to those who want intoxicating drinks.'

In the Punjab we have a very definite finding which has been reproduced in a publication—*Abkari*—with which the Hon'ble Sir Deba Prasad Sarbadhikari is doubtless acquainted. It says 'In connection with certain suggestions made by the Temperance Societies' deputation to His Excellency the Viceroy in 1913, advocating provision by the Government of counter-attractions to drink the Punjab Government recently consulted a large number of officials and leading non-officials. The inquiry has resulted in the accumulation of a large weight of official and non-official opinion, which is almost unanimously condemnatory of the proposals as being either trivial or impracticable, or even prejudical to the cause it is intended to promote.' I am afraid, therefore, that this solution does not offer a very hopeful prospect.

Lastly, the Hon'ble Member has suggested certain improvements in the conditions of service in the Excise Department. As will appear from a resolution which we issued the other day, there are a few details about the department which we shall shortly have under examination, but as a general statement, I do not admit that the conditions of service in the Excise Department are markedly defective. The service was reorganized only a few years ago, and in comparison with other branches of Government employ it offers prospects which are not unreasonable. There may be points of detail in which improvements can be made, but as a whole, I do not think there is anything radically wrong.

So much for Excise, in connection with which I have attempted to show hat we are perfectly aware of this large increase in revenue, but that we

Discussion of the Budget.

Sir Henry Wheeler.

have in the matter of country-spirit taken action to counteract it and, while discouraging undue consumption, to increase the price which those who drink have to pay.

Apart from Excise, I will now pass on to a group of suggestions which are of a common type, advocating the improvement of the conditions of service in various departments. Among the first of these we have our old friend the Provincial Judicial Service, regarding which we have just addressed the Government of India, and we hope that orders will be received very shortly. With reference to the Provincial Executive Service, of which mention has also been made, it will be seen that we published a resolution the other day in connection with the recommendations of the Public Services Commission, and on receipt of opinions on that we shall similarly make recommendations to the Imperial Government. Another Service which has been brought to notice by the Hon'ble Rai Radha Charan Pal Bahadur is that of Assistant Surgeons, with the complaint that the initial pay is still only Rs. 100: that is true, but on the other hand, it is a Service which twice during recent years has come under reorganization, and although the initial pay of Rs. 100 has been maintained, we have replaced the old grades, which led to a certain slowness of promotion, by an incremental system rising up to Rs. 300, and have raised the higher grades, which at one time were only Rs. 200 and Rs. 300, to Rs. 325 and Rs. 350. Therefore, as a whole, the conditions of that Service have been materially improved, and so far we have not experienced any undue difficulty in getting candidates. Thirdly, we come to the various clerical establishments, whose grievances are always with us, and I will not repeat what I said at a recent meeting, except to mention that in fulfilment of the expectation which I then held out, we have addressed the Government of India, not quite on the lines I then suggested of extending grain compensation allowance, but proposing a war bonus of 5 per cent. to those in receipt of Rs. 30 and less. That will help the most lowly paid clerical establishments, and it should be taken in conjunction with the other improvements in prospects which we have given to menial servants and the individual establishments as they came before us from time to time.

Lastly, we have the Police, in connection with which we have the usual complaint that our expenditure is excessive, apparently, at the moment, thanks largely to my malign influence. But I think if the Hon'ble Mr. Fazl-ul-Haq will make enquiries from the department, he will find that it is far from the case that the combination in myself of a certain amount of financial experience with knowledge of the Police Department is always to the advantage of the latter. The traditions of the Financial Department, in which I have spent a good deal of my time in this country, are in the direction of cutting down expenditure, and being imbued with those traditions I have cut down various police proposals which probably would have been favoured by anybody looking at them solely from the departmental standpoint. It is true, however, that our Police expenditure is heavy and last year we heard more to that effect than we have this year. After the debates of last year, I had enquiries made, applying various tests to the Police expenditure in Bengal in comparison with other provinces. They were not very satisfactory tests because it is difficult to reduce provinces of the large size and varying conditions of Indian provinces to one common denominator, but taking a few rough tests, such as the expenditure on the police per head of population, and the numerical proportion of the police to population and area, the comparison in no way showed that the expenditure on police in Bengal was extravagant in comparison with that which was found necessary elsewhere. On the contrary it pointed to the conclusion that, with the possible exception of the province of Bihar and Orissa, which, of course, in past years has been administered on very similar lines to Bengal, other provinces are more highly policed than we are. One of the reasons for our present heavy expenditure, as I have had occasion to point out before, is

Discussion of the Budget.

Sir Henry Wheeler.

that we have leeway to make up—leeway especially in the matter of buildings and in the rates of pay, while owing to unfortunate political conditions we have had to spend regrettably large sums of money on our Intelligence Branch.

So much for the customary complaint that Police expenditure is excessive, although from the Hon'ble Maulvi Abul Kasem we have had the somewhat unusual grievance that we do not pay some members of the police enough, and he has particularly mentioned the cases of inspectors, sub-inspectors and constables. I think, however, he has under-estimated what we have done. Taking the case of inspectors, before the days of the Police Commission their lowest grade was Rs. 100, but now it is Rs. 150, although the maximum remain the same. Taking the case of sub-inspectors, before the days of the Police Commission their lowest grade was Rs. 30, and their maximum Rs. 80; but now their lowest grade is Rs. 50, and the maximum Rs. 100. Taking the case of head-constables, before the days of the Police Commission, the three lowest grades received pay of Rs. 15, 12, and 10, but now no head-constable receives less than Rs. 17-8, and our recent proposals, which are under the consideration of the Government of India, will further better their prospects. In the old days, before the Police Commission, constables got Rs. 6, 7, 8, and 9, but now, in the armed branch, they get from Rs. 11 to Rs. 14, and in the unarmed branch, from Rs. 10 to Rs. 13. Therefore, prospects, on the whole, have been materially improved.

The next department in my charge is that of Medical. Reference has been made to the subject of medical education, but I dealt with that fully at a recent meeting and will not repeat what I then said. Another suggestion has been made by Maulvi Abul Kasem that we should foster the system of itinerant doctors. That is a plan of which I was in favour when I was a member of the Drainage Committee, which advocated it, but on looking into the papers, I find that the experiment has been tried and has never been a great success, owing largely to the difficulty of supervising the men who are sent into the districts, and especially, since 1916, owing to the difficulty of getting sub-assistant surgeons on account of the war. Its place has latterly been taken by devoting the funds which were previously so applied to the free distribution of quinine.

The only other point which I would like to notice is one on which I think a certain amount of misunderstanding exists. It, too, refers to the Police, and it was raised by the Hon'ble Raja Hrishikesh Laha in the form of a suggestion that we should attempt further to recruit Bengalis in the place of up-country constables. We often read in the papers remarks which would imply that people think that the police force in Bengal is even now almost entirely manned from up-country. That, Sir, is not the case. During the last 7 years out of 22,596 recruited constables, approximately 9,057 or 40 per cent. were Bengalis, and in 1918, 61 per cent. of the total number recruited were Bengalis. In 1917 it was 53 per cent. We have been steadily pursuing this policy of trying to recruit local men as far as possible, and it is a policy which the Inspector-General of Police, Mr. Plowden, has encouraged actively, while, as will be noticed from the figures, it has met with appreciable success.

I doubt, Sir, if there is any other point of detail with which I need now worry the Council. Our immediate financial difficulties are, of course, the unfavourable economic conditions, the crop failure in Upper India and Bombay and the scarcity in two of our own districts, while we have the prevailing high prices to which attention has been drawn and which are pressing hardly upon us. We can only hope that with the restoration of more normal conditions after the war, and with the aid of a good harvest during the current year, the circumstances of the province in these two

Resolutions; Adjournment.

respects may speedily improve. No one will welcome that result more than the Financial Department.

Finally, I would refer to the fact that this will be the last budget with which Mr. Donald will be connected, and I would like to bring to the notice of the Council the excellent work which he has done in connection with the Finance Department during the last four years. I have often told him that his fault lay in over-estimating his expenditure and under-estimating his revenue, but from the point of view of the financial resources of the province, these qualities have been instrumental in building up the large balances which we now possess, and which we hope will be spent with usefulness in the approaching years. He has always been a strict custodian of provincial funds, and I think the Hon'ble Mr. Fazl-ul-Haq can rest assured that even my influence has not been able to overcome his economical tendencies. In thanking him for the work which he has done in the past, we wish him all success in the important office upon which he is about to enter."

RESOLUTIONS.

(*Under the rules for the discussion of matters of general public interest.*)

The President said :—

"Owing to the regrettable illness of the Hon'ble Mr. Carter I have agreed to the postponement till a later date of the motion which stands in his name."

The following resolution and the amendment thereto were postponed :—

The Hon'ble Mr. F. W. Carter to move the following resolution :—

This Council recommends to the Governor in Council that a commission of inquiry be appointed to consider the whole problem of leprosy in the city of Calcutta, and the legislation required in connection therewith.

The Hon'ble Rai Mahendra Chandra Mitra Bahadur to move, by way of amendment, that in the Hon'ble Mr. Carter's resolution after the words "City of Calcutta" the words "and other municipal towns in the mufassal" be inserted.

ADJOURNMENT.

The Council was then adjourned to Monday, the 7th April, 1919, at 11 A.M., at Government House, Calcutta.

DEPARTMENT OF AGRICULTURE, BENGAL.

Special Forecast of the Wheat Crop of Bengal, 1918-19.

(Note.—On an average of the five years ending 1916-17, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1916-17, averaged (a) 41·1 per cent. and (b) 16·7 per cent., respectively.)

Explanatory.—This special forecast showing the final acreage and yield of the wheat crop of the province is published under orders of Government. The usual final forecast will be published in May as in previous years.

Character of the Season.—The early cessation of the monsoon and consequent lack of moisture at sowing time and in the early stages of the crop retarded growth considerably. Rainfall in January and February proved beneficial but was too late to secure a normal crop.

Area sown.—The total area sown this year is estimated at 114,500 acres against 123,800 and 124,000 acres reported, respectively, in the corresponding and final forecasts of last year. The decrease in area is attributed to lack of moisture at sowing time.

Outturn.—The estimated percentages of outturn as returned by the District Officers in the important wheat-growing districts are as follows :—Nadia 33, Murshidabad 50, Pabna 60 and Malda 65.

The provincial outturn works out to 61 per cent. of the normal against 67 per cent. and 69 per cent. reported, respectively, in the corresponding and final forecasts of last year.

Taking the normal yield to be 8½ maunds per acre, the total yield for the province is estimated at 21,809 tons against 31,993 and 33,002 tons, respectively, in the corresponding and final forecasts of last year.

APPENDIX I.

Special Forecast of the Wheat Crop of Bengal, 1918-19.

District.	Approximate normal area under the wheat crop in acres.	Approximate area under wheat last year (1917-18).	Estimated area under wheat this year (1918-19).	Taking 100 to represent the normal, what would be the average outturn per acre cropped.		Date by which the harvesting generally commenced this year, and whether that date was early, normal or late.	Remarks by District officers.
				Last year.	This year.		
	Acres.	Acres	Acres				
Nadia ..	23,000	13,800	9,400	67	33	End of February to March. Normal.	The weather has not been favourable. Considerable damage has been caused by drought especially in the Ranaghat subdivision and Nakashipara thana. The outturn is poor
Murshidabad ...	69,300	31,200	28,600	67	50	March Normal...	The weather was not favourable at first owing to continued drought after sowing which damaged about half the crop, but the rainfall in February has done some good.
Jessore ...	2,300	1,100*	1,100*	75	58	.....	The weather has not been favourable. About 42 per cent. of the crop has been damaged by drought.
Burdwan ...	2,000	2,000*	2,000*	83	58	Middle of March. Normal.	The weather was unfavourable up to middle of January owing to drought. The rainfall in January did some good to the crop. Since then the weather has been favourable except at Katwa. Late sowing and want of moisture at sowing time and subsequent drought account for the low outturn.
Birbhum ...	5,000	4,100	4,100	83	67	End of March. Normal.	About 33 per cent. of the crop has been damaged owing to continued drought at sowing time, but since the rainfall in January the prospects have been fair.
Bankura ...	3,600	3,600*	3,600*	83	66	End of February. Normal.	The weather has been fair since the submission of the second forecast. The low outturn is due to drought and insufficient rain.
Midnapore ...	1,200	1,200	1,200†	100	70	Middle of March. Normal.	The weather has been favourable since the submission of the second forecast. But the growth of the crop has not been good owing to want of timely rain. The outturn is expected to be much below the normal.
Howrah ...	2,400	1,700*	1,700*	50	50	Beginning of March. Normal.	The weather has been unfavourable. About half the crop has been damaged by drought
Rajshahi ...	8,500	7,800*	6,500	70	70	Middle of March Normal.	The decrease in area was due to want of rain at sowing time. The outturn is anticipated to be below the normal owing to absence of rain which has injuriously affected the crop
Dinajpur ...	1,600	1,400*	1,300	52	40	Ditto ...	The weather condition has not been favourable owing to absence of rain.
Jalpaiguri ..	600	500	500	75	85	By the end of March Normal.	The weather has not been favourable. The crop is poor owing to continued drought.
Darjeeling ...	4,500	2,500	2,500	100	100	March ...	The weather has been favourable.
Rangpur ...	3,000	3,400	3,400†	100	80	First week of March. Normal.	The outturn is expected to fall 20 per cent. below the normal owing to continued drought.
Pabna ...	16,000	12,000	12,000	70	60	Middle of March. Normal.	The weather was favourable at the time of cultivation but continued drought since October last retarded the growth of the crop and caused damage to the extent of about 40 per cent. The rainfall in February has improved the condition of the crop to some extent.
Malda ...	60,000	35,000	35,000	60	65	First week of March. Normal.	The dry weather since sowing time to January hampered the growth of the crop. About 30 per cent. of the crop has been damaged by drought. The slight rain that fell since the submission of the second forecast improved the prospects of the crop slightly.
Dacca ...	4,000†	...	3,900	..	73	Beginning of March. Normal.	The weather has not been favourable. The outturn is expected to be below the normal as a result of continued drought.
Faridpur ...	2,700	2,700*	2,700*	82	87	March. Normal ...	The weather has been unfavourable. Want of rain has affected the growth of the crop and has caused the outturn to fall below the normal.
Total ...	209,500	124,000	114,500	69	61

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 10th April 1919.

Summary.—The rainfall was general throughout the Presidency. It has improved the prospects of standing crops and facilitated the sowings of jute and paddy, but more rain is wanted in Northern Bengal. Harvesting of *rabi* crops continues. The average price of common rice has risen by 1·11 per cent. Distress continues in Bankura and Brahmanbaria subdivisions of the Tippera district. In Bankura 6,608 persons were receiving gratuitous relief and 4,545 persons were engaged in District Board work. In Brahmanbaria Rs. 1,59,953 has been distributed as agricultural loans up to date and 1,429 persons worked daily on an average in test works.

Chief Secy. to the Govt. of Bengal.

No. 549, dated Simla, the 14th April 1919.

RESOLUTION—By the Government of India, Home Department.

THE present situation arising out of the agitation against the Anarchical and Revolutionary Crimes Act (commonly called the Rowlatt Act) renders it imperative on the Governor-General in Council to define the attitude of Government on the subject of that agitation and the serious disorders which have resulted therefrom, and to indicate the nature of the concerted action which it is now necessary to take for the preservation of law and order.

When the Bill was under discussion, its opponents publicly stated that if it passed into law, a campaign of agitation against it, on a scale hitherto unattempted, would be organized throughout India, and a section of them indicated that they would support that campaign by resort to what is known as "passive resistance". No one cognizant of the conditions of India could have been ignorant at the time of the dangers of initiating a widespread movement of this nature; they were clearly pointed out by many public

men of moderate views; and the representatives of Government did not fail, during the debates on the Bill, to emphasize the serious consequences to the public peace which would follow from an agitation such as was then threatened.

These warnings were unheeded, and to the agitation which has succeeded the passing of the Act, must be directly attributed the open breaches of the public peace, the defiance of authority, and the criminal attacks on life and property which have lately been witnessed in certain parts of India. The agitation has followed a double line of action, namely, direct criticism of the Act by means of public speeches and publications, and the initiation of the threatened movement of "passive resistance". The latter movement was ushered in by a demonstration consisting of the observance of a day of fasting, and the closing of shops and places of business. Such a demonstration was not in itself illegal; but there is ample evidence to prove that in more than one place those locally responsible for its organization overstepped the limits of lawful persuasion, and resorted to direct interference with the business of many who were not interested in the movement, and to forcible obstruction of the traffic in the public streets. But the indirect consequences of this aspect of the agitation have been far more mischievous, in that it promoted a sense of unrest and of excitement which was bound to react, and has reacted, on the more ignorant and inflammable sections of the population. The campaign of criticism has involved in many quarters the use of most flagrant misrepresentations regarding the character of the Act. It is clear that large numbers of ignorant people have been deliberately led to believe that the new law gives the police unfettered authority to interfere with public meetings not only of a political, but of a religious and social nature, and to arrest summarily persons engaged in political work, and that it empowers the executive authorities to imprison without trial any person criticising the action of Government.

The Governor-General in Council thinks it necessary to reiterate here the following salient facts concerning this Act. It is specifically directed against revolutionary and anarchical crime, and can only be brought into force in any locality when it has been proved to the satisfaction of the Governor-General in Council that such crime, or movements tending to such crime exist. It has not so far been brought into operation in any part of India. Its first part merely provides for the speedy trial of certain grave offences; in the second and third parts provision is made for preventive action (similar to, but much more restricted in scope than that now provided by the rules under the Defence of India Act) against persons suspected of revolutionary or anarchical crime. Action cannot, however, be taken against any individual without the previous order of the local Government. There is nothing therefore which can justify the widespread rumours, for which the promoters of the agitation must be held responsible, that unusual, or even extended powers have been given to the police; nor is there anything which need cause fear or apprehension to any person other than the revolutionary or the anarchist. Not only do the terms of the Act definitely exclude its use in any case not falling within the definition of anarchical or revolutionary conspiracy; but Government has given the most categorical pledge (which the Governor-General in Council takes this opportunity to reiterate) that the tenor and intention of the Act will be scrupulously safeguarded should occasion arise to put it into operation.

The Governor-General in Council considers it unnecessary to detail here the deplorable occurrences resulting from the agitation against this Act. The offences which have occurred at Delhi, Calcutta, Bombay and Lahore have one common feature, the unprovoked attempt of violent and unruly mobs to hamper or obstruct those charged with the duty of maintaining order in public places. At Amritsar and Ahmedabad they have taken a far graver form, a murderous attack on defenceless individuals, and a wholesale and wanton destruction of private and public property. The Governor-General in Council thinks it right to state that at Amritsar the loss of life might have been greater but for the protection afforded by unofficial Indians to those who were threatened by the mob, and he takes this opportunity of expressing the gratitude of Government for this conspicuous example of loyalty and humane feeling.

It remains for the Governor-General in Council to assert in the clearest manner the intention of Government to prevent by all means, however drastic, any recurrence of these excesses. He will not hesitate to employ the ample military resources at his disposal to suppress organized

outrage, rioting or concerted opposition to the maintenance of law and order; and has already sanctioned the application of the State Offences Regulation, 1804, in a modified form, to certain districts of the Punjab. He will further use all preventive measures provided by the Statutes to check disorder at its source, and in Regulation III of 1818, and the corresponding regulations applicable to Bombay and Madras, and in the rules under the Defence of India Act, he has powers which will enable him to deal effectively with those who promote disorder. He has sanctioned the extension of the provisions of the Seditious Meetings Act to the districts of Lahore and Amritsar in the Punjab, and will authorize a similar extension to other areas in which local Governments see reason to require it. The Police Act of 1861 enables a local Government to quarter additional police on any locality which is guilty of organized offences against the public peace, at the charge of the inhabitants, and to levy from the latter compensation for those who have suffered from injury to their property. The Governor-General in Council will advise local Governments to make a free use of these provisions where necessary.

The Governor-General in Council feels that many of those who inaugurated this agitation must regret the lamentable consequences which have ensued, the loss of life and property, and the damage to the reputation of India. He now appeals to all loyal subjects of the Crown, and to all those who have an interest in the maintenance of law and the protection of property, both to dissociate themselves publicly from the movement, and to exert themselves in quieting unrest and preventing disorder. To all those who render such assistance to the cause of the public and the State, and to those servants of Government who are charged with the onerous responsibility of suppressing excesses against public peace and tranquillity, the Governor-General in Council extends the fullest assurance of countenance and support.

ORDER—Ordered that the Resolution be published in the *Gazette of India* and communicated to all local Governments and Administrations and all Departments of the Government of India.

NOTIFICATION.

Simla, the 18th April 1919.

An Ordinance to provide that persons convicted of any of the crimes specified in the Bengal State Offences Regulations, 1804, shall be punishable with penalties other than those provided in the said Regulation.

WHEREAS an emergency has arisen which renders it necessary to provide that persons convicted of any of the crimes specified in the Bengal State Offences Regulations, 1804, shall be punishable with penalties other than those provided in the said Regulation;

Now, therefore, in exercise of the power conferred by section 72 of the Government of India Act, 1915, the Governor-General is pleased to make and promulgate the following Ordinance :—

ORDINANCE No. III OF 1919.

Short title.

1. This Ordinance may be called the Martial Law (Sentences) Ordinance, 1919.

Provision for minor punishments in case of convictions under Regulation X of 1804.

2. Notwithstanding anything contained in section 3 of the Bengal State Offences Regulation, 1804,

(*a*) any court-martial or any commission appointed and convened under the Martial Law Ordinance, 1919, may, when convicting any person of any of the crimes specified in the said Regulation, sentence such person to transportation for life or for any period not less than ten years, or to rigorous imprisonment for a term which shall not be less than seven years and shall not exceed fourteen years;

(*b*) no person so convicted shall be liable to forfeiture of property as provided in the said Regulation unless such court or commission so directs.

CALCUTTA, *the 17th April 1919.*

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Post Graduate Research Scholarships to be awarded in 1919.

Post Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and who appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month and is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, paleography, epigraphy, philosophy, history, archæology, anthropology, etc., and the remainder will be awarded for research either in a literary or in scientific subject. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme indicating a definite course of inquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1919, but a scholarship may be renewed from year to year up to the limit of three years provided the candidate has throughout the year vigorously prosecuted original research in the subject which he selected.

4. Each candidate for a scholarship must submit his application through the head of the institution in which he read last to the Director of Public Instruction, Bengal, on or before 10th May next, and must produce evidence of having passed from a Bengal College, the M.A. or M.Sc. examination of the Calcutta University or of having obtained some other equivalent or higher degree, such as Doctor in Science or Master in Engineering of the Calcutta University in 1916 or 1917 or 1918. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigations. He must also indicate the institution in which he proposes to work with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Applications for this year's scholarships should be submitted in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Rajshahi, will be put up to sale at the Rajshahi Collectorate, on 23rd June 1919, corresponding with 8th Asar 1326 :—

The purchaser will be subject to the following conditions of sale :—

Conditions of sale

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings, and by the laws in force ; and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Unconvenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR MARCH 1919.

I. **Character of the season.**—During the month the rainfall was everywhere below the normal. The usual statement is given below.

II. **Progress of agricultural operations.**—The harvesting of the spring crops and the preliminary field operations for the next autumn paddy and jute crops were in progress. Sowings of paddy and jute were considerably retarded owing to lack of soil moisture.

III. **State of standing crops.**—The general condition of the unharvested spring crops was reported to be unsatisfactory.

IV. **Prospects and probable outturn.**—The outturn of the different spring crops is estimated to be much below normal. The prospects for the jute and broadcasted rice crops have been affected by the delay in sowings due to the continued dry weather.

V. **Damage to standing crops.**—No reports of damage to standing crops have been received during the month.

VI. **Condition of agricultural stock.**—The condition of live-stock was reported as fair. Cattle-disease was reported from places in the districts of the 24-Parganas, Murshidabad, Burdwan, Midnapur, Dinajpur, Darjeeling, Rangpur, Malda and Faridpur.

VII. **Failure of pasturage and fodder.**—The supply of fodder is reported to be insufficient in parts of Dinajpur and Bogra also in the Brahmanbaria and Chandpur subdivisions of Tippera and in the Feni subdivision of Noakhali. In Bankura, although the supply is reported to be adequate, prices for fodder rule high.

VIII. **Prices of food-grains.**—During the second fortnight of the month under review the price of common rice rose in thirteen districts, fell in two and remained stationary in the rest, varying from 8 seers a rupee in the districts of Khulna, Jalpaiguri, Mymensingh and Jessore to 6½ seers a rupee at Rajshahi.

IX. **Condition of agricultural people.**—The condition of agricultural population was reported to be fair, but distress continued to prevail in Bankura and in the Brahmanbaria subdivision of Tippera. The necessary relief measures have been taken in hand.

Director of Agriculture, Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 17th April 1919.

Summary.—During the week light showers fell in places. More rain is urgently wanted for field operations generally. The sowings of autumn paddy and jute are now steadily progressing. The harvesting of spring crops is nearly finished. The prospects of summer rice are not favourable. The average price of common rice for the province has remained stationary as compared with that of the previous week. Distress in Bankura continues to exist. Besides the grant of land improvement and agricultural loans to the distressed people in Bankura 7,186 persons were in receipt of gratuitous relief. The number of persons engaged in the District Board work was 2,691 males, 1,370 females and 219 children.

No. 1982J.—In exercise of the power conferred by clause 2 of section 139 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), I confirm the following additions to and modifications of the existing bye-laws of the District Board of Dacca (*vide* this office notification of the 4th May 1914 at pages 911-915 of the *Calcutta Gazette*) which have been made by the District Board under clause 1 of the said section 139.

Additional Bye-Laws.

Definition.

1(*5*).—A public khal includes a water channel in which the public have a right to navigate during the whole or any part of the year.

Obstruction in a public khal

31A.—No person shall set up any obstruction in any public khal so as to interfere with navigation therein whether by erecting any fence or other structure or in any other way.

Explanation.—The spreading of fishing nets fixed on bamboo structures leaving sufficient space on either side for passage of boats is not included in the word "Obstruction" as used in this bye-law.

Disposal of water hyacinth.

31B.—Any person having possession of, or control over any land or water on or in which there exists any water hyacinth shall, if so required by a notice in writing signed by the Chairman or Vice-Chairman of the District Board, a Local Board or a Union Committee or by the District Engineer, destroy or remove such water hyacinth within the period mentioned in such notice. Provided that such notice :—(*a*) shall be issued simultaneously for the whole of an area to be defined by the District Board, a Local Board or a Union Committee and bounded by rivers or large khals; and (*b*) shall not be issued oftener than once a year.

Fouling water of reserved public khal.

31C.—No person shall steep hides, jute or any offensive matter in any public khal or in any part thereof which has been reserved for the supply of water for drinking, bathing or culinary purposes by a notification signed by the Chairman or Vice-Chairman of the District Board or a Local Board or a Union Committee and published in the locality by a beat of drum nor foul the water of the same in any other manner.

Amendments to existing bye-laws.

Bye-Law 1.—In sub-clause (2) *for* the sentence "which the District Board has set apart under section 90" *substitute* the sentence "which has been set apart under section 90 or section 118 A(3)" of the Bengal Local Self-Government Act of 1855, and in sub-clause (4) *after* the words "District Board or a Local Board" in the two places where they occur *insert* the words "or Union Committee."

Bye-Law 4.—*After* the word "Road" *insert* the words "or any public khal" and *after* the words "District Board or a Local Board" *insert* the words "or a Union Committee."

Bye-Law 14.—*After* the word "District Board or a Local Board" *insert* the words "or a Union Committee."

Bye-Law 34.—*After* the words "vested in" *add* the words "or under the control of" and *after* the words "District Board" *insert* the words "or a Local Board or a Union Committee" and also *after* the words "Dâk Bungalow" *add* the words "or any school or other house," and *after* the words "District Board or a Local Board" *insert* the words "or a Union Committee."

Bye-Laws 35, 38 and 39.—*Insert* the words "or a Union Committee *after* the words "District Board or a Local Board."

Bye-Law 37.—*Substitute* the following "Explanation" *for* the "Explanation" contained in the existing bye-law :—"Explanation :—Steeping hide, jute, bamboo or any offensive matter in a reserved tank or well is an offence against this bye-law."

Bye-Law 42.—*After* the words "section 90" *insert* the words "section 118A(3)."

Bye-Law 44(*1*).—To the bye-laws breach of which is punishable with a maximum fine of ten rupees, *add* bye-laws Nos 31A, 31B and 31C.

Bye-Law 44(*2*).—*Substitute* the following for the existing bye-law :—

"(*2*) A continuing breach of bye-laws 2(*2*), 4, 5(*2*), 7(*2*), 8, 9, 10, 28, 31A or 31C shall be punished with a further fine which may extend to two rupees in the case of a breach of bye-laws 31A or 31C or to five rupees in other cases, for every day during which the breach is continued after the offender has been convicted of such breach."

ESTABLISHMENTS.

Simla, the 16th April 1919.

No. 282.—In continuation of the Home Department Notification No. 1697-C., dated the 6th March 1919, the following notice regarding the Reconstruction Scheme for the recruitment of the Home Civil Service (Class I), Indian Civil Service and Colonial Service (Eastern Cadetships), which has just reached India, is published for general information, as it may be of use to candidates desiring to appear in examinations subsequent to that to be held in the month of April.

Notice about Reconstruction Schemes.

1. The first qualifying examination under the Reconstruction Scheme for the recruitment of the Home Civil Service (Class I), Indian Civil Service, and Colonial Service (Eastern Cadetships), will begin on Tuesday, the 15th of April 1919, and will take place in London. Candidates who are required to attend for examination will be duly informed of the hour and centre at which to attend and will receive a copy of the Time Table of the examination.

2. The first qualifying examination under the Reconstruction Scheme for Junior Appointments (or Intermediate Grade) will begin on Wednesday, the 7th of May 1919, and will be held in London, Edinburgh and Dublin. Candidates required to attend will in due course receive the necessary instructions, including a copy of the Time Table of the examination.

3. In each case the Selection Board will sit, about a month after the examination and will sit in London only. The "Competition" consists in the selection by the Board of the candidates judged to be most suitable on the evidence afforded by the interview and the records. Candidates required to attend will be duly instructed.

4. Candidates may, with the consent of their Commanding Officer, take the qualifying examination before demobilisation, or, if they prefer, they may wait till they are demobilised. Their desire should be stated on the Application Form.

An officer who holds a permanent commission can only become a candidate with the sanction of his Commanding Officer.

5. These examinations being qualifying and not competitive, no candidate can be credited with "service marks" such as are allowed to civil servants in certain competitive examinations. The weight to be attached to service in a Government Department is a matter for the Selection Board.

6. Candidates who, being medically unfit, have served in a Government Department instead of with the Forces, must be recommended by their Department. This recommendation should not accompany the Application Form but should wait until the Civil Service Commissioners ask for it.

7. The Commissioners cannot advise candidates as to methods of preparation for these examinations; in fact the examinations are intended to be of a nature that does not require special preparation. Some indication of the nature of the examination may be obtained from the Reprint of the Question Papers used on 4th February 1919 for the examination of candidates for the Foreign Office and Diplomatic Service, which will shortly be published by His Majesty's Stationery Office at Imperial House, Kingsway, London, W. C., and other addresses.

8. The Commissioners cannot pay the fares of candidates or other expenses incurred in connection with an examination or interview.

9. As regards the suggestion that places should be found for all ex-soldiers in the Civil Service it is necessary to point out that there are about 5,000,000 ex-soldiers and the number of appointments made in a year to the Civil Service is about 10,000, including women.

10. The second qualifying examination under each of the above schemes will probably take place in the autumn of 1919. The home centres will be the same as for the first examinations, and there may also be oversea centres. The Selection Board will sit about a month later and will interview such candidates as are then ready. Other candidates will be interviewed later.

11. The Reconstruction Schemes will remain in force sufficiently long (at least two years from the declaration of peace) to allow of the candidature of persons in the most distant parts of the world. These, no less than persons nearer home, must fill up the Application Form with their own hands. The filling of vacancies will be spread over the period during which the Reconstruction Schemes are in force so that the candidates who are demobilised last shall have as good a chance of entering the service as those who are demobilised in the earlier stages.

12. *Permanent Civil Servants.*—While in the exceptional circumstances of the Reconstruction period it is impracticable to preserve all pre-war privileges such as that of the permanent civil servant to enter for open competitive examinations for higher posts at an age above the normal and without question of the nature of their education, compensating advantages are provided in—

(1) more extensive special promotion within a Department in accordance with the recommendation of the Third Interim Report of Viscount Gladstone's Committee on Recruitment for the Civil Service after the War, and

(2) in special promotion from one Department to another in accordance with Treasury Circular No. 4155 of 29th January 1919.

As further open competitive examinations for the Second Division are unlikely, the Assistant Clerks have the further advantage that any appointments to the Second Division in the future will most probably be made from their ranks.

CIVIL SERVICE COMMISSION,
25th February 1919.

No. 1989.—The following Royal Proclamation is published for general information :—

BY THE KING.

A PROCLAMATION.

RELATING TO THE IMPORTATION OF CERTAIN ARTICLES INTO THE UNITED KINGDOM.

GEORGE R.I.

WHEREAS by Section forty-three of the Customs Consolidation Act, 1876, it is provided that the importation of arms, ammunition, gunpowder, or any other goods may be prohibited by Proclamation :

And whereas by certain Proclamations entitled Prohibition of Import Proclamations the importation of certain goods has been prohibited accordingly :

And whereas it is expedient that the importation into the United Kingdom of certain other goods should be prohibited :

Now, therefore, We, by and with the advice of Our Privy Council, in pursuance of the said Act and of all other powers enabling Us in that behalf, do hereby proclaim, direct and ordain as follows :—

As from and after the date hereof, subject as hereinafter provided, the importation into the United Kingdom of the following articles is hereby prohibited, viz. :—

All derivatives of coal tar generally known as intermediate products capable of being used or adapted for use as dye-stuffs, or of being modified or further manufactured into dye-stuffs.

All direct cotton colours, all union colours, all acid wool colours, all chrome and mordant colours, all alizarine colours, all basic colours, all sulphide colours, all vat colours (including synthetic indigo), all oil, spirit and wax colours, all lake colours, and any other synthetic colours, dyes, stains, colour acids, colour bases, colour lakes, leuco acids, leuco bases, whether in paste, powder, solution or any other form.

Provided always, and it is hereby declared, that this prohibition shall not apply to any such goods which are imported under license given by or on behalf of the Board of Trade, and subject to the provisions and conditions of such license.

This Proclamation may be cited as the Prohibition of Import (No. 29) Proclamation, 1919.

Given at Our Court at Buckingham Palace, this Twenty-fourth day of February, in the year of our Lord One thousand nine hundred and nineteen, and in the Ninth year of Our Reign.

GOD SAVE THE KING.

No. 12T.M.—The 21st April 1919.—In pursuance of section 37F of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), it is hereby notified for general information that the scheme submitted by the Commissioners of the Mymensingh Municipality for the improvement of water-supply in that Municipality has been approved by the Governor in Council, and that the particulars of the scheme are as follows:—

* * * * * * *

(*a*) The improvement scheme is designed to increase the supply to 2,50,000 gallons per day at a maximum rate of 50,000 gallons per hour. The filtered water will be pumped through a new rising main, 8" in diameter, to an elevated reservoir holding 60,000 gallons, from which the water will be supplied through the existing distribution pipes by gravitation. The works included in the scheme consist of two additional settling tanks, 2 slow sand filters, a new jetty at the headworks, and an elevated reservoir near the junction of Ram Babu's Road and Shakharipatty Road. In the distribution system, the 3" and 6" mains along the Ram Babu's Road will be replaced by 6" and 8" mains, respectively. The new 8" rising main will be laid along Shakharipatty Road. A short length of 2" pipe will be laid along Hari Kisor Roy's Road.

(*b*) The estimated cost is Rs. 1,28,781.

(*c*) The estimated cost of maintenance over and above the cost of the existing works is Rs. 2,600.

(*d*) The cost of improvement will be met from a Government loan of Rs. 70,000 already made, a grant of Rs. 50,000 to be given by Government, and the balance from the house connection premium fund and the water-rate fund. The maintenance charge will be met from the water-rate fund

(*e*) The percentage of water-rate on the annual value of holdings is 5½ per cent. and 6½ per cent. according to distance from the nearest hydrant and 7½ per cent. on holdings having connections.

(*f*) The average incidence of the water-rate per head of the present population of the municipality is Re. 1-6-1.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.,

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible, after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in Charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

ভারতবর্ষের দণ্ডবিধির আইনের এবং ফৌজদারি মোকদ্দমার কার্য্যপ্রণালী বিষয়ক ১৮৯৮ সালের আইনের সংশোধনের বিধান করণার্থ আইনের পাণ্ডুলিপি।

যেহেতু রাজ্যের পক্ষে বিপজ্জনক কতকগুলি কার্য্যসম্বন্ধে যাহাতে অধিকতর সফলতার সহিত কাজ করিতে পারা যায়, সেই উদ্দেশ্যে ভারতবর্ষের দণ্ডবিধির আইন এবং ফৌজদারি মোকদ্দমার কার্য্যপ্রণালী বিষয়ক ১৮৯৮ সালের আইন সংশোধন করা বিহিত, অতএব এতদ্দ্বারা নিম্নলিখিত মত বিধান করা হইল :—

সংক্ষিপ্ত নাম।

১। এই আইন ভারতবর্ষীয় ফৌজদারি আইন (সংশোধনার্থ) ১৯১ সালের আইন নামে অভিহিত হইতে পারিবে।

১৮৯৮ সালের ৫ আইনে ১৯৬-খ এই নূতন ধারার সন্নিবেশ।

২। ফৌজদারি মোকদ্দমার কার্য্যপ্রণালী বিষয়ক ১৮৯৮ সালের আইনের (অতঃপর উক্ত আইন বলিয়া উল্লিখিত) ১৯৬-ক ধারার পর, নিম্নলিখিত ধারাটি বসাইতে হইবে, যথা :—

কোন কোন স্থলে প্রাথমিক অনুসন্ধান।

"১৯৬-খ। ১৯৬ ধারা বা ১৯৬-ক ধারায় উল্লিখিত কোন অপরাধের বেলা, ঐ সকল ধারায় অথবা এই আইনের অপর কোন স্থলে কোন কথা থাকা সত্ত্বেও, জিলার মাজিষ্ট্রেট অথবা প্রধান প্রেসিডেন্সি মাজিষ্ট্রেট, ইন্‌স্পেক্টরের পদের নিম্নপদস্থ নহেন এমন কোন পুলিস কর্ম্মচারী কর্ত্তৃক একটি

প্রাথমিক অনুসন্ধান হইবার আদেশ করিতে পারিবেন ; সেরূপ স্থলে সেই পুলিস কর্ম্মচারীর ১৫৫ (৩) ধারায় উল্লিখিত ক্ষমতা সকল থাকিবে।"

১৮৯৮ সালের ৫ আইনের ৩৪৩ ধারার সংশোধন।

৩। উক্ত আইনের ৩৪৩ ধারায় নিম্নলিখিত ব্যাখ্যাটি যোগ করিতে হইবে, যথা :—

"ব্যাখ্যা।—কোন অভিযুক্ত ব্যক্তির নিকট অপরাধজনক বলপ্রয়োগ হইতে রক্ষা করিবার অঙ্গীকার, অথবা যাহা উপযুক্ত ও ন্যায়সঙ্গতরূপে এইরূপ রক্ষা করিবার অঙ্গীকারের আনুষঙ্গিক এমন কোন অঙ্গীকার, এই ধারার অর্থানুরূপ প্রবৃত্তি জন্মান বলিয়া গণ্য হইবে না।

কিন্তু অভিযুক্ত ব্যক্তিকে সাক্ষীরূপে পরীক্ষা করিবার পূর্ব্বে, এইরূপ কোন অঙ্গীকারের সর্ত্তগুলি বিচারকারী জজ বা মাজিষ্ট্রেটকে জানাইতে হইবে।

যেখানে বিচারকারী জজ বা মাজিষ্ট্রেটকে এইরূপে জানান হয়, সেখানে সুবিচারের অনুরোধে যতটুকু তিনি আবশ্যক মনে করেন ততটুকু ছাড়া আসামী-পক্ষের নিকট এইরূপ কোন অঙ্গীকারের সর্ত্ত তিনি প্রকাশ করিবেন না।"

১৮৯৮ সালের ৫ আইনে ৫১০-ক এই নূতন ধারার সন্নিবেশ।

পূর্ব্বে অপরাধ সাব্যস্তের ও পূর্ব্বে দণ্ডপ্রাপ্ত ব্যক্তিদিগের সহিত মেলামেশার প্রমাণ, ১৮৬০ সালের ৪৫ আইনের ৬ অধ্যায় অনুসারে অপরাধের জন্য বিচারে কোন কোন উদ্দেশ্যে সাক্ষ্যস্বরূপ গ্রাহ্য হইবে।

৪। উক্ত আইনের ৫১০ ধারার পর, নিম্নলিখিত ধারাটি বসাইতে হইবে, যথা :—

"৫১০-ক। ভারতবর্ষের দণ্ডবিধির আইনের ৬ষ্ঠ অধ্যায় অনুসারে কোন অপরাধের বিচার হইলে, অপরাধজনক অভিপ্রায় প্রমাণ করিবার উদ্দেশ্যে, নিম্নলিখিত বিষয়গুলি সাক্ষ্যস্বরূপ গ্রাহ্য হইবে, যথা :—

(ক) অভিযুক্ত ব্যক্তি সেই অধ্যায় অনুসারে পূর্ব্বে কোন অপরাধে দোষী সাব্যস্ত হইয়াছিল ; এবং

(খ) সেই অধ্যায় অনুসারে কোন অপরাধে দোষী সাব্যস্ত হইয়াছিল এমন কোন ব্যক্তির সহিত সেই ব্যক্তি এরূপ অবস্থায় মেলামেশা করিয়াছে যাহাতে ইহা বিশ্বাস করিবার যুক্তিসঙ্গত হেতু থাকে যে সেই মেলামেশা সেই অধ্যায় অনুসারে কোন অপরাধ করিবার উদ্দেশ্যে হইয়াছিল।

কিন্তু তাহা হইলেও, সেই বিষয়ে সাক্ষ্য দিবার অভিপ্রায়ের লিখিত নোটিশ, যে অপরাধ সাব্যস্ত বা মেলামেশা প্রমাণ করিবার অভিপ্রায় করা হয় তাহার যুক্তিসঙ্গত বিশেষ বিবরণের সহিত, সেই সাক্ষ্য উপস্থিত করিবার অন্ততঃ সাত দিন পূর্ব্বে অভিযুক্ত ব্যক্তির উপর জারি করা না হইলে, এই সমস্ত বিষয় এই ধারার বিধান সকল অনুসারে প্রমাণিত করা যাইবে না।"

১৮৯৮ সালের ৫ আইনে ৫৬৫-ক এই নূতন ধারার সন্নিবেশ।

৫। উক্ত আইনের ৫৬৫ ধারার পর, নিম্নলিখিত ধারাটি বসাইতে হইবে, যথা :—

১৮৬০ সালের ৪৫ আইনের ৬ অধ্যায় অনুসারে কোন অপরাধে দোষী সাব্যস্ত হইলে তাহার জামিন।

"৫৬৫-ক। (১) কোন ব্যক্তি ভারতবর্ষের দণ্ডবিধির আইনের ৬ষ্ঠ অধ্যায় অনুসারে দণ্ডনীয় কোন অপরাধে দোষী সাব্যস্ত হইলে, ঐ কোর্ট, যদি উপযুক্ত মনে করেন, তাহা হইলে, সেই ব্যক্তির উপর দণ্ডাজ্ঞা প্রদান করিবার সময়, সেই দণ্ডাজ্ঞার কাল শেষ হইলে মুক্তি পাইবার সময়, জামিনদার সহ মুচলকা লিখিয়া দিতে তাহাকে হুকুম করিতে পারিবেন ; তাহাতে অঙ্গীকার থাকিবে যে, দুই বৎসরের অনধিক যে কাল ঐ আদেশে নির্দ্দিষ্ট হইবে সেই কালের জন্য, সে উক্ত অধ্যায় অনুযায়ী কোন অপরাধ করিবে না, বা করিবার চেষ্টা বা ষড়যন্ত্র করিবে না, বা তাহার অনুষ্ঠানে সহায়তা করিবে না।

(২) কোন আপীলের আদালত, অথবা সংশোধনের ক্ষমতা পরিচালন কালে হাইকোর্টও (১) প্রকরণ অনুসারে কোন হুকুম করিতে পারিবেন।

(৩) আদালত (১) প্রকরণ অনুসারে কোন হুকুম করিলে, আরও এই আদেশ করিবেন যে, যাহার সম্বন্ধে ঐ হুকুম করা হইয়াছে সে ব্যক্তি যে জামিন চাওয়া হয় তাহা না দেওয়া পর্য্যন্ত, স্থানীয় গবর্ণমেণ্টের নিকট অথবা স্থানীয় গবর্ণমেণ্ট সাধারণ বা বিশেষ আদেশ দ্বারা এতৎপক্ষে যে কর্ম্মচারীকে নিযুক্ত করেন সেই কর্ম্মচারীর নিকট, যে কালের জন্য জামিন চাওয়া হয় সেই কালের জন্য তাহার মুক্তির পর বাসস্থান ও বাসস্থানের কোন পরিবর্ত্তনের কথা তাহার জানাইতে হইবে।

(৪) যেখানে, (৩) প্রকরণের বিধান সকলের অনুসারে, মুক্তির পর তাহার বাসস্থান ও বাসস্থানের পরিবর্ত্তনের কথা জানাইতে কোন ব্যক্তি বাধ্য থাকে, সেখানে স্থানীয় গবর্ণমেণ্ট লিখিত হুকুম দ্বারা আদেশ করিতে পারিবেন যে, সেই ব্যক্তি—

(ক) ঐ হুকুমে নির্দ্দিষ্ট কোন স্থানে প্রবেশ করিতে, বাস করিতে বা থাকিতে পারিবে না,

(খ) ব্রিটিষ ভারতবর্ষে ঐরূপে নির্দ্দিষ্ট কোন স্থানে বাস করিবে বা থাকিবে, এবং

(গ) যাহা দ্বারা সাধারণের শান্তি ভঙ্গ হওয়া সম্ভব এমন কোন বিষয়ের উন্নতি বা আলোচনার জন্য সাধারণ সভায় বক্তৃতা করা হইতে নিবৃত্ত থাকিবে।

(৫) কোন ব্যক্তি (৩) প্রকরণ অনুযায়ী কোন আদেশ কিংবা (৪) প্রকরণ অনুযায়ী কোন হুকুম মতে কার্য্য করিতে অস্বীকার বা অবহেলা করিলে, যেন সে ভারতবর্ষের দণ্ডবিধির আইনের ১৭৬ ধারা অনুযায়ী কোন অপরাধ করিয়াছে এইরূপ ভাবে দণ্ডনীয় হইবে। ১৮৬০ সালের ৪৫ আইন।

(৬) আপীলে কিংবা অন্য কোন প্রকারে অপরাধ নির্ণয় রহিত করা হইলে, এই ধারার বিধান সকল অনুসারে যে সমস্ত আদেশ করা হয় তাহা বাতিল হইবে।

ব্যাখ্যা।—রাজদ্রোহমূলক সভাসমিতি নিবারণ বিষয়ক ১৯১১ সালের আইনের ৩ ধারায় "সাধারণ সভা" কথাটির যে অর্থ করা হইয়াছে, এই ধারাতেও উহার সেই অর্থ হইবে। ১৯১১ সালের ১০ আইন।

RESOLUTION ON THE REPORT OF THE ROYAL COMMISSION ON THE PUBLIC SERVICES IN INDIA, RELATING TO THE REGISTRATION DEPARTMENT.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Registration.

DARJEELING, THE 26TH APRIL 1919.

RESOLUTION—No. 60T.R.

READ—

The Report of the Royal Commission on the Public Services in India.

THE recommendations of the Public Services Commission concerning the Registration Department are contained in Annexure XX to their report.

The Commission restricted their immediate proposals to the Madras Presidency, but they contemplated the extension of the Madras system of organisation to other provinces as circumstances permitted.

2. The question in so far as Bengal is concerned is whether, as in Madras, the district officers should be relieved of all their legal and routine duties connected with registration and their places should be taken by district registrars chosen from the Registration Department. Owing to the present nature of the constitution of the department in Bengal, it is only possible to introduce the scheme tentatively. The Governor in Council has accordingly, with the sanction of the Government of India, decided to introduce it as an experimental measure in a few districts for which competent district registrars can be found from amongst the existing district sub-registrars. The scheme will be tried at first in the districts of Midnapore, Mymensingh, Chittagong, Dinajpur and Murshidabad. One district in each of the five divisions in this Presidency has been chosen so that the trial may be made under different local conditions. The appointments of the five officers of the department selected as district registrars are being gazetted separately. Each of these officers will receive in addition to his pay as district sub-registrar a duty allowance of Rs. 100 per mensem for so long as he holds the appointment of district registrar.

3. The officers of the Registration Department who are appointed as district registrars will be directly subordinate to the Inspector-General of Registration. Neither the district officer nor, as a general rule, the inspectors of registration will have any duties under the Indian Registration Act, 1908 (Act XVI of 1908), in the selected districts. The new district registrars will, however, continue to perform the ordinary duties, which have hitherto been performed by district sub-registrars, as well as those prescribed by the Registration Act and the Registration Manual for district registrars, subject to such modification of executive detail as may be found necessary.

4. His Excellency in Council desires it to be understood that the scheme is an experiment and will be discontinued if it is not successful. If it proves a success, such additional appointments will be gradually made hereafter as there are men capable of filling them, but not otherwise.

ORDER.—Ordered that a copy of this Resolution be published for general information and a copy forwarded to the Inspector-General of Registration for information and guidance.

By order of the Governor in Council,

M. C. McALPIN,

Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 746 Edn.—The 22nd April 1919.—The following report of the Bruce Institution for the year 1918 is published for general information.

L. S. S. O'MALLEY,
Secy. to the Govt. of Bengal.

REPORT ON THE BRUCE INSTITUTION FOR THE YEAR 1918.

I. **Control.**—(1) During the year under review, Mr. A. Mercer, Inspector of European Schools, whose term of office had expired, was reappointed to be a Governor.

(2) The Rev. Father A. Gille, S.J., officiated as a Governor for a period of about eleven months, during the absence of the Rev. Father T. Van der Schueren, S.J., from India.

(3) The Institution suffered a great loss by the death of the Most Rev. Dr. G. A. Lefroy, Bishop of Calcutta who as an *ex officio* Governor, took a keen interest in its affairs.

(4) The following were the Governors at the end of the year:—

The Hon'ble the Chief Justice of Bengal ... } *Ex officio.*
The Most Rev. the Lord Bishop of Calcutta ... } *Ex officio.*
The Surgeon-General with the Government of Bengal } *Ex officio.*
The Chairman of the Calcutta Municipality ... } *Ex officio.*
The Director of Public Instruction (*Hony. Secretary*) } *Ex officio.*
The Hon'ble Mr. Justice Richardson.
The Ven. W. K. Firminger (Archdeacon of Calcutta).
The Rev. G. S. Henderson.
The Rev. Father T. Van der Schueren, S. J.
A. Mercer, Esq. (Inspector of European Schools).
James Wyness Esq.
F. J. Robins, Esq.

II. **Capital and income.**—The capital of the Institution stood, as in the previous year, at Rs. 10,59,400 of which Rs. 10,46,200 are in the form of a 3½ per cent. stock-certificate of the year 1865. The balance, viz., Rs. 13,200, is in Government securities. The annual interest on the capital amounts to Rs. 37,079, which is kept in the Bank of Bengal. The year opened with a balance of Rs. 19,708-13-1, and closed with a balance of Rs. 28,311-13-5.

III. **Election to vacancies, &c.**—(1) The Governors having found it necessary for financial reasons to reduce the number of foundationers, there was no election during the year.

(2) Of the 19 girls who left during the year, 15 had attained the age of 17 years, the limit ordinarily allowed under the rules, 3 were withdrawn for various reasons before they had attained that age, and one was removed from the fund because she had been withdrawn from the school in which she had been placed without the consent of the Governors.

(3) Of the girls who were withdrawn during the preceding year, and in respect of whom reports have been received during the year under review, one is employed as a stenographer, one as a clerk and typist, and one as an assistant teacher in the Kindergarten Department of the Loreto Day School, Sealdah. Two girls are being trained as teachers—one at Dow Hill, Kurseong, the other at Naini Tal. One girl who joined the Medical College, Calcutta, three years ago has passed her third-year examination. Of the girls who were withdrawn during the year under review, one is learning shorthand and typewriting, and one has joined the Dufferin Victoria Hospital, Calcutta, to be trained as a nurse.

(4) At the close of the year there were 97 girls on the fund against 116 in the previous year. They were distributed as follows:—

Loreto Convent, Entally ...	Boarding School—14 Orphanage —15	29
Calcutta Girls' High School	... ...	23
Pratt Memorial School ...	.. ..	10
LaMartinière for Girls ...	... ...	8
Calcutta Free School ...	... ...	4

St. Joseph's Convent, Cuttack	... ...	1
Dow Hill School, Kurseong	... ...	1
Wynberg School, Mussoorie	... ...	1
Temporarily at Home ...	... ...	1
	Total ...	97

(5) The following table affords particulars as to the class and denomination of the foundationers at the close of the year:—

Class.	Roman Catholics.	Church of England.	Non-conformists.	Total.
1. Orphans, or deserted by their parents	12	7	9	28
2. Fatherless, or motherless, or deserted by their fathers or mothers	27	17	14	58
3. Those who have both parents alive	4	5	2	11
Total ...	43	29	25	97

(6) The health of the girls was generally satisfactory. There were no deaths during the year.

IV. **Education and Maintenance.**—(1) The nature of the education given to the girls on the fund was generally that prescribed for elementary and higher elementary schools under the Code of Regulations for European Schools in Bengal, and in few cases that for secondary schools.

(2) The Governors have decided that henceforth an attempt shall be made to estimate the capacities of the wards at the age of 14 or 15, and that the school shall be requested to co-operate in this matter, so that if special training is found desirable to fit a ward to earn her living, necessary arrangements may be made in good time. They have also prepared, and distributed to schools, a pamphlet showing what appointments and prospects are open to Anglo-Indian girls.

(3) Six girls were sent up for the Cambridge Local Examinations held in December 1917, of whom two passed—one the Senior and one the Junior. Four were presented for the Elementary School Certificate Examination, of whom one passed. One passed the City and Guilds Examination in plain needle-work and plain cookery. Several appeared at the Cambridge Local Examinations held in December last; the results are not yet known.

(4) Under the rules a girl is not ordinarily allowed to remain on the fund after she has attained the age of 17 years, when an outfit grant of Rs. 100 is generally given. In cases where special training is recommended, or they are preparing for higher examinations, some extension of the period of benefit is generally allowed. Two girls received extensions for training as children's nurses,—one as a sick nurse and one for domestic work. Two were granted extension for higher school examinations.

(5) The monthly average cost for the education and maintenance of each girl on the fund amounted to Rs. 19-3-4 against Rs. 18-12-4 in the preceding year.

(6) The amounts paid under the different heads of expenditure were as noted below:—

	1918.			1917.

V. **Inspection.**—Mr. F. J. Robins was appointed Visiting-Governor for the first half, and the Hon'ble Mr. W. C. Wordsworth for the second half, of the year. Mr. Robins reports that he saw the children at work and at play, and that generally speaking they seemed happy and well contended with their surroundings. Also that most of them looked healthy though not robust, but that there were some cases of apparently delicate health. He recommends that more attention should be given to training them technically,—for dressmaking millinery, child-nursing, etc., and less to preparing them for examinations, which some of them year after year fail to pass. The inspection of the second half-year was left incomplete, as the influenza epidemic rendered it impossible in many cases. In consequence Mr. Wordsworth was reappointed Visiting-Governor for the first half of 1919.

VI. **Meetings.**—Three meetings were held during the year, but there were no resolutions of general importance calling for special mention.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 24th April 1919.

Summary.—The rainfall was general and seasonable throughout the Presidency. It has improved the prospects of the standing crops. The sowings of jute and autumn paddy continue in full swing. The average price of common rice has risen by 5 per cent. as compared with that of the previous week. Distress continues in Bankura where in addition to the grant of land improvement and agricultural loans to the distressed people, 7,576 persons are in receipt of gratuitous relief and 1,430 persons are engaged on District Board works. In the Brahmanbaria subdivision of the Tippera district 1,329 persons worked daily on an average in test works.
